In re Application of	:	
BARCLAY, A. Neil et al.	:	
Application No. 12/196,188	:	DECISION ON PETITION
Filed: August 21, 2008	:	TO WITHDRAW
Attorney Docket No. **140942000902**	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed November 13, 2009

The request is **NOT APPROVED.**

The Office will no longer accept address changes to a new practitioner or law firm filed with a Request, absent the filing of a power of attorney to the new representative. The Office will either change the correspondence address of record to the most current address information provided for the assignee of the entire interest who properly became of record under 37 CFR 3.71 or, if no assignee of the entire interest has properly been made of record under 37 CFR 3.71, the most current address information provided for the first named inventor.

In order to request or take action in a patent matter, the assignee must establish its ownership of the patent to the satisfaction of the Director. In this regard, a Statement under 37 CFR 3.73(b) must have either: (i) documentary evidence of a chain of title from the original owner to the assignee (*e.g.*, copy of an executed assignment), and a statement affirming that the documentary evidence of the chain of title from the original owner to the assignee was or concurrently is being submitted for recordation pursuant to § 3.11; or (ii) a statement specifying where documentary evidence of a chain of title from the original owner to the assignee is recorded in the assignment records of the Office (*e.g.*, reel and frame number).

Accordingly, the request to withdraw from record cannot be approved because the request does not include an acceptable current correspondence address for future communications from the Office.

Additionally, as set forth in MPEP 403(I), the addition or deletion of a practitioner from the list of persons associated with a Customer Number should be done by way of a *Request for Customer Number*

Data Change (PTO/SB/124) and not a *Request for Withdrawal As Attorney or Agent and Change of Correspondence Address* (Form PTO/SB/83).

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-4231.

OFFICE OF PETITIONS

In re Application of:	:	
Choi et al.	:	DECISION DISMISSING
Application No.: 12/196189	:	PETITION UNDER
Filing or 371(c) Date: 08/21/2008	:	37 CFR 1.47(a)
Title of Invention:	:	
PROVIDING POWER BASED ON	:	
STATE OF CHARGE	:	

This Decision is in response to the "Petition Under 37 CFR 1.47(b) to Proceed on Behalf of Unavailable Inventors," filed April 3, 2009. The petition is properly treated under 37 CFR 1.47(a), to allow the other inventor(s) to proceed with the application on behalf of himself or herself and the nonsigning inventor(s).

The petition is **dismissed**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under [insert the applicable code section]"; should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. Failure to respond will result in abandonment of the application. Any extensions of time will be governed by 37 CFR 1.136(a).

Background

The above-identified application was filed on August 21, 2008, without, a fully executed oath or declaration. The Office mailed a Notice to File Missing Parts of Nonprovisional Application on September 3, 2008, requiring *inter alia*, a properly signed oath or declaration.

The present petition

Applicant files the present petition and Declaration of Kathleen Juliano, wherein Ms. Juliano provides that the each of the inventors was sent a copy of the application via email. Applicant also provides the last known email addresses for inventor D. Glubrecht, and states that the last

known physical address of D. Glubrecht is C/O Oemtek Inc., 1830 McCandless Drive, Milipitas, CA 95035.

It is also noted that Applicant has filed an oath/declaration executed with the inventor's signature that appears to be Dale Glubrecht, executed on April 3, 2009. The oath/declaration includes the residence, post office address and citizenship of inventor Glubrecht.

Applicant should clarify whether the oath/declaration filed with the petition with the inventor's signature that appears to be Dale Glubrecht's is in compliance with 37 CFR 1.63. If it is, the petition is dismissable as moot. Otherwise, the following is provided:

Applicable Law, Rules and MPEP

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. Applicant lacks item (1) set forth above.

As to item (1), the MPEP provides:

> A refusal by an inventor to sign an oath or declaration when the inventor has not been presented with the application papers does not itself suggest that the inventor is refusing to join the application unless it is clear that the inventor understands exactly what he or she is being asked to sign and refuses to accept the application papers. A copy of the application papers should be sent to the last known address of the non-signing inventor, or, if the nonsigning inventor is represented by counsel, to the address of the nonsigning inventor's attorney. The fact that an application may contain proprietary information does not relieve the 37 CFR 1.47 applicant of the responsibility to present the application papers to the inventor if the inventor is willing to receive the papers in order to sign the oath or declaration.

MPEP 409.03(d).

Analysis

Applicant has not presented evidence that demonstrates that it is clear that the inventor understands exactly what it is that he is being asked to sign. Applicant is cautioned that receipt of an application via email transmission must be demonstrated by the Applicant before a petition may be granted. While receipt of an email may be confirmed by the sender, receipt of an email attachment may not be confirmed by the sender. Absent an express refusal to join in the application, Applicant must present a copy of the application papers to the nonsigning inventor.

The MPEP further provides

> Proof that a bona fide attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature, but the inventor refused to accept delivery of the papers or expressly stated that the application papers should not be sent, may be sufficient. When there is an express oral refusal, that fact along with the time and place of the refusal must be stated in the statement of facts. When there is an express written refusal, a copy of the document evidencing that refusal must be made part of the statement of facts. The document may be redacted to remove material not related to the inventor's reasons for refusal.
> When it is concluded by the 37 CFR 1.47 applicant that a nonsigning inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in the statement of facts in support of the petition or directly in the petition. If there is documentary evidence to support facts alleged in the petition or in any statement of facts, such evidence should be submitted. Whenever a nonsigning inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the petition. (Emphasis supplied).

MPEP 409.03(d).

In this instance, Applicant asserts that a copy of the application was sent to the nonsigning inventor via email, however, there is no evidence to support a finding that the application was received by the inventor. Applicant is advised to mail the application (specification, claims and drawings), to the last known address of the inventor. <u>That address should be the last known address at which the inventor customarily receives mail. See MPEP § 605.03. Ordinarily, the last known address will be the last known residence of the nonsigning inventor</u>.

<u>Conclusion</u>

The petition is dismissed without prejudice. Applicant should clarify whether the oath/declaration filed with the petition with the inventor's signature that appears to be Dale Glubrecht's is in compliance with 37 CFR 1.63. If it is, the petition is dismissable as moot. Otherwise, Applicant must make a bona fide effort to present a copy of the application to the nonsigning inventor before a refusal to join in the application may be alleged.

OFFICE OF PETITIONS

In re Application of:	:	
Choi et al.	:	DECISION NOTING
Application No.: 12/196189	:	JOINDER OF
Filing or 371(c) Date: 08/21/2008	:	INVENTOR
Title of Invention:	:	
PROVIDING POWER BASED ON	:	
STATE OF CHARGE	:	

This Decision is in response to the correspondence entitled "Withdrawal of Petition as Moot," filed July 9, 2009, noting the joinder of the previously non-signing inventor.

In view of the joinder of the inventor, further consideration under 37 CFR 1.47(a) is not necessary and the Petition is considered to be moot. This application does not have any Rule 1.47(a) status and no such status should appear on the file wrapper. This application need not be returned to this Office for further consideration under 37 CFR 1.47(a).

The Declaration has been entered and made of record.

This application is being referred to Technology Center Art Unit 2838 for examination in the normal course of business.

Telephone inquiries related to this decision may be directed to the undersigned at (571) 272-3232.

OFFICE OF PETITIONS

In re Application of :
Alexander Choi, Sunny Chan :
And Kwun Kin :
Application No. 12/196,192 :
Filed: August 21, 2008 :
Atty Docket No. VALT-01002US0 :

DECISION REFUSING STATUS
UNDER 37 CFR 1.47(a)

This is a decision on the "PETITION UNDER 37 CFR 1.47(a) TO PROCEED ON BEHALF OF UNAVAILABLE INVENTORS" filed April 3, 2009, which is appropriately being treated under the provisions of 37 CFR 1.47(a).

The petition is **DISMISSED**.

Rule 47 applicant is given **TWO MONTHS** from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 C.F.R. §1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventors. Failure to respond will result in abandonment of the application. Any extensions of time will be governed by 37 C.F.R. § 1.136(a).

The above-identified application was filed on August 21, 2008, without an executed oath or declaration. Accordingly, on September 3, 2008, applicants were mailed a "Notice to File Missing Parts of Nonprovisional Application," requiring submission of an executed oath or declaration and payment of the surcharge for late filing under § 1.16(e). This Notice set a two-month period for reply, with extensions of time obtainable under § 1.136(a).

In response, rule 47 applicants timely filed the instant petition, including payment of the petition fee, late surcharge and 5-months extension of time fee; and a declaration executed by joint inventor Choi on behalf of himself and on behalf of non-signing inventors Chan and Kin. On petition, applicants assert that status under § 1.47(a) is proper because inventors Chan and Kin have failed to

respond or execute their declarations with respect to the present application.

A grantable petition under 37 C.F.R. § 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or found, after diligent effort, or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. The instant petition does not satisfy requirements (1) (2) and (3).

Rule 47 applicants have not submitted adequate proof that inventors Chan and Kin refuse to join in the application. Refusal by inventors cannot be inferred as the evidence submitted indicates that the application papers were not delivered to them at their last known address, but rather sent via e-mail. The evidence does not show that inventors received the e-mails. It cannot be inferred that inventors Chan and Kin are refusing to sign by their conduct in not responding where it has not been shown that the inventors received and was able to read the application papers sent by e-mail. Their failure to respond may simply reflect that they did not receive the e-mail or that they were unable to open and read the application as e-mailed.

It is noted that petitioner has the option of obtaining the necessary evidence of refusal by presenting the application papers to the inventors at their last known address by certified mail, return receipt, and as such, are able to obtain adequate proof of receipt of the papers by the inventors. If the inventors fail to respond to a confirmed mail delivery, then applicants will have adequate proof of refusal by conduct. It is also noted that petitioner does not specifically state that the application was mailed to joint inventors Chan and Kin at their last know address. Before a refusal to sign an oath or declaration can be alleged, it must be demonstrated that a *bona fide* effort has been made to present a complete copy of the application papers (specification, including claims, drawings, and an oath or declaration) to the non-signing inventors at the non-signing inventors' last know address, typically a residential address.

Herein, petitioner has not established that the inventors received a complete copy of the application papers and thereafter, refused to execute their respective oath or declaration.

Regarding item 2, the declaration which was submitted concurrently with the present petition cannot be accepted, as it is defective. Pursuant to 35 U.S.C. 115 and 37 CFR § 1.63(a) and § 1.63(c)(1), an acceptable oath or declaration filed under § 1.51(b)(2) as a part of a nonprovisional application must identify all the inventors by name, citizenship and, unless such information is supplied on an application data sheet (ADS) in accordance with § 1.76, must also identify the mailing address, and the residence of each inventor, if an inventor lives at a location which is different from where the inventor customarily receives mail.

CHAN, Yick C. et al.
Application No. 12/196,244
Filed: August 21, 2008
Attorney Docket No. **026570-000910US**

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed February 13, 2009 and re-submitted on March 10, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request was signed by Lu Yin on behalf of all attorneys of record who are associated with customer No. 20350. All attorneys/agents associated with the Customer Number 20350 have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence address of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Tredelle Jackson at 571-272-2783.

In re Application of	:	
Mitchell LEVINSON et al.	:	
Application No. 12/196,246	:	DECISION ON PETITION
Filed: August 21, 2008	:	TO MAKE SPECIAL
Attorney Docket No. **579688020US1**	:	37 CFR 1.102
	:	

This is a decision on the petition under 37 CFR 1.102 filed December 23, 2009, the above-identified application special under the Patent Application Backlog Reduction Stimulus Plan which is a pilot program set forth at 74 Federal Register Notice 62285 (November 27, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 62285 must be directed to a nonprovisional application filed prior to October 1, 2009.

The USPTO will accord special status for examination under Patent Application Backlog Reduction Stimulus Plan under the following conditions:

The USPTO will accord special status for examination under Patent Application Backlog Reduction Stimulus Plan under the following conditions:

(1) The application for which special status is sought is a nonprovisional application that has an actual filing date earlier than October 1, 2009, in which the applicant has established small entity status under 37 CFR 1.27;

(2) The applicant has another copending nonprovisional application that has an actual filing date earlier than October 1, 2009, and is complete under 37 CFR 1.53;

(3) The application for which special status is sought and the other copending nonprovisional application either are owned by the same party as of October 1, 2009, or name at least one inventor in common;

(4) The applicant files a letter of express abandonment under 37 CFR 1.138(a) in the copending nonprovisional application before it has been taken up for examination and

a) includes with the letter of express abandonment a statement that the applicant has not and will not file an application that claims the benefit of the expressly abandoned application under any provision of title 35, United States Code, and

b) the applicant agrees not to request a refund of any fees paid in the expressly abandoned application; and

(5) The applicant files a petition under 37 CFR 1.102 in the application for which special status is sought.

The requirement for a fee for consideration of the petition to make special for applications pertaining to Patent Application Backlog Reduction Stimulus Plan has been waived.

The instant petition complies with the conditions required under Patent Application Backlog Reduction Stimulus Plan. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Anthony Knight at 571-272-3687.

All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 3739 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
Aman Kansal	:	
Application No. 12/196,502	:	DECISION ON PETITION
Filed: August 22, 2008	:	
Attorney Docket No. 323224.01	:	

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed February 3, 2010, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the non-final Office action mailed June 9, 2009 (restart time period for reply notice mailed June 22, 2009), which set a shortened statutory period for reply of three (3) months. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on September 23, 2009. A Notice of Abandonment was mailed January 13, 2010.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of an Amendment, (2) the petition fee of $1,620.00, and (3) an adequate statement of unintentional delay.

It is not apparent whether the statement of unintentional delay was signed by a person who would have been in a position of knowing that the **entire** delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional. Nevertheless, in accordance with 37 CFR 10.18, the statement is accepted as constituting a certification of unintentional delay. However, in the event that petitioner has no knowledge that the delay was unintentional, petitioner must make such an inquiry to ascertain that, in fact, the delay was unintentional. If petitioner discovers that the delay was intentional, petitioner must notify the Office. It is not apparent whether the person signing the instant petition was ever given a power of attorney or authorization of agent to prosecute this patent. In accordance with 37 CFR 1.34(a), the signature appearing on the petition shall constitute a representation to the United States Patent and Trademark Office that he/she is authorized to represent the particular party in whose behalf he/she acts.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-7751.

This application is being referred to Technology Center AU 3626 for appropriate action by the Examiner in the normal course of business on the reply received.

NOV 04 2008

In re Application of: TERSIGNI, JAMES EDWARD Application No.: 12/196,560 Filed: August 22, 2008 Title: SELF-COMPENSATING CONNECTOR SUPPORT METHOD AND APPARATUS	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 22, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;
2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. 103(c).

REVIEW OF FACTS

The conditions I: 1-4, II: 1-5, 6, 6.1, and 6.6 above are considered to have been met. However, the petition fails to comply with conditions II: 5.1, 5.2, 5.3, 6.2, 6.3, 6.4, and 6.5 above.

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Discussion

When referring to "the petition" herein below, the received papers under consideration include the four page PTO/SB/28 form "Petition to Make Special Under Accelerated Examination Program", the "pre-examination search document" (PESD) that possibly includes 1285 pages filed in five different segment of at least 201 pages one; the "accelerated examination support document" (AESD) comprising pages 1-23, and an Information Disclosure Statement (IDS).

Regarding the requirements of section II element 5.1 and 5.2 outlined above, it appears the search outlined in the petition omitted a critical search area by not searching in the following class/subclasses:

439/374, 377, 382-385

174/260 and 261

29/830, 832, 876, 881, 854, 759, 760.

Regarding the requirement of section II: 5.1, the PESD includes a large number of statements similar to the one reproduced below (on p. 11 of the first out of the five said PESD documents), that it are not clear in their meaning, or the purpose for which they were filed:

> ABSORBENTS: GREASE & OIL 2842 Supplier Of 450,000 Products From 2,500 Mfrs.: Cutting/Machine/Hand/Power Tools, MRO Supplies, Abrasives, Fasteners, Precision Instruments, Machinery, Electrical Supplies,Safety Equipment, HVAC, Welding, Hose, Tubing, Fittings, Material Handling, Pumps, Power Transmission, Janitorial; Same Day Shipping

Clarification is required. Petitioner may want to consider re-filing a PESD that is clearer in its statements and scope.

Regarding the requirement of section II: 5.3, it is not clear whether the search encompassed the disclosed features that may be claimed. It is also unclear if the search originated from a foreign patent office.

Regarding the requirements of section II element 6.2 outlined above, the petition fails to identify all of the limitations in the application claim that are disclosed in each of the reference(s) and where the limitation is disclosed in each of the cited reference. As stated in the policy published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), for each reference cited, the examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. The policy statement does not allow for grouping and general discussions. A grantable petition must delineate every limitation of every claim and identify where the equivalent limitation is disclosed in each piece of prior art cited on the IDS. As is published on

www.uspto.gov/web/patents/accelerated/ in "Guidelines for Applicants under the new accelerated examination procedures"):

> *For each reference cited, the accelerated examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. Applicants should specify where in each of the cited references the particular claim limitations are found. This process is intended to be analogous to the analysis an examiner uses when locating a relevant prior art reference and then determining whether the reference contains the claimed limitation. For each claimed limitation, the examiner would consider the disclosure of the reference and all reasonable portions in the reference where the limitation is shown. When preparing an Office Action, the examiner would correlate the limitation to the portion of reference which best characterizes the limitation. This part of the AESD is not intended to be an exhaustive listing of every conceivable subjective interpretation of how a claim limitation may read on the reference. Applicants should point out what are considered to be the relevant representations of the limitation in the reference. A limitation may be found in more than one portion of the reference and should be pointed out, yet the intention is not to have applicants point out every conceivable interpretation. The USPTO will adopt a rule of reason when evaluating this portion of the AESD. Unless the representation is so deficient that it would materially effect examination of the application (e.g., numerous instances where the limitations are not shown where applicant states they are), the representation will be deemed to be sufficient for this part of the AESD.*

Petitioner's submission is not specific enough. Petitioner points out some limitations and provides direction to areas of the prior art where the corresponding limitation may be found. Petitioner does not address each discrete limitation (i.e., each single limitation, NOT multiple limitations bundled together) and state where it is (or state that it is not) found in each one of the most closely related prior art. For example, on pp. 4-5 of the AESD, Petitioner proposes that Villiers 5,318,455 does not teach any of the following bundled limitations:

providing a back side support assembly, the back side support assembly includes at least a compensating block element, at least a mechanical support member, at least a compliant member with at least a fastening aperture at one end thereof, at least a fastening element, at least a fastening recess in an upper portion of the at least a compensating block element, at least a fastening hole disposed in a top portion of the at least a mechanical support member and at least a guide element disposed on the mechanical support member;

As shown in Figure 1 of Villiers, there are at least three elements (support 2, platform 3, and cradle 4) that at least one of them can be read on for the claimed "back side support". The requirement of section II element 6.2 can be satisfied by listing verbatim ("copy and paste") the presently filed claim (i.e., the claim of the instant application) and by indicating where each discrete limitation (without bundling limitations to the extent possible) of said presently filed claim is taught (or is not taught) in each one of the most closely related references that is cited, by specifically indicating the element number and/or the relevant page/paragraph and line number(s), or by indicating "(not disclosed)" where appropriate - in order to ensure that no limitation was left out inadvertently. Note that disclosure may be express, implicit, or inherent. Claim recitations must be complete. Statements such as "Limitation II(b) – (not disclosed)", i.e.,

statements that do not spell out the relevant limitations should be avoided. This one-to-one mapping should be performed individually, with regard to each one of the most closely related prior art that is cited, one reference at a time. Applicant's attention is drawn to the fact that the requirement of this element calls for a straight mapping of each single limitation unto the prior art. Section II element 6.2 is not the proper venue to imply patentability by bundling limitations and concluding that the combination is not disclosed. Patentability arguments should be made only in response to the requirement of section II element 6.3.

With respect to the requirements of section II element 6.3 outlined above, the petition fails to provide a detailed explanation of how the claim is patentable over (each of) the reference(s) with particularity required by 37 CFR 1.111(b) and (c). Petitioners should be specific in their explanation and include the identification of specific claim limitations that support their position, where appropriate. Petitioners must distinguish the claim from each piece of prior art cited. General statements that the claims are neither anticipated nor rendered obvious by the cited references or that the references are not properly combinable will not be acceptable. The Office cannot infer or guess what petitioner believes the differences between the claims and the teachings of the prior art to be. Petitioner's statements must also be consistent and must be related to the claim language. In the instant petition, on p. 19 of the AESD for example, Applicant states that none of the references cited teach the claimed connector having "at least a mechanical support member" and "at least a fastening element". It is believed that it is common practice for any connector to comprise at least said two elements, because the housing of any connector may read on a mechanical support member, and any element holding any other element reads on the claimed "fastening element", see e.g., screw 21 in Villiers connecting support member 2 and the cradle 4 (Villiers, col. 5, ll. 34-36). For these reasons, the petition does not meet the requirement of section II, element 6.3. The requirement of section II element 6.3 can be satisfied by indicating for the presently filed claim (i.e., the claim of the instant application) which <u>specific</u> i.e., <u>discrete</u> limitation(s) in said presently filed claim define(s) over each one of the most closely related references that is cited. This patentability showing should be performed individually, with regard to each one of the most closely related prior art that is cited, <u>one reference at a time</u>. Patentability arguments must specifically spell out the relevant limitation(s); prior art patents can be referred to by the last name of the first inventor. Statements such as "Reference A does not teach limitation II(b)" must be avoided. Obviousness, or lack thereof, analysis for combining two or more references should be performed when a "most closely related prior art" reference indicates reasons for such combination.

Regarding the requirements of section II element 6.4 outlined above, the petition fails to identify a concise statement of the utility of the invention as defined in the independent claim. A general statement directed to the overall concept of the invention is not specifically relating the utility to each of the independent claims as is required by the policy. It is noted that the statement of the utility is almost identical to the Abstract of the application, which is not the intent of the requirement of the element.

Regarding the requirements of section II element 6.5 outlined above, the requirements of this section are not met because lack of specificity. A grantable petition requires petitioner to provide a showing of where <u>each limitation</u> of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. The instant petition only identifies

figures and large portions of text with respect to bundled limitations (see for example AESD p. 21, second paragraph of claim 1, mapped unto middle of p. 3 to middle of p. 5) as opposed to the disclosure of the required claim limitations, addressed individually for each limitation in the claim. The requirement of section II element 6.5 can be satisfied by listing verbatim the presently filed claim (by "copy and paste") and by indicating where the instant application (and separately each one of the priority documents – if applicable) teaches each discrete limitation (without bundling limitations to the extent possible) in said presently filed claim, by indicating the element number and/or the relevant page and line numbers. To the extent possible, Petitioner should indicate the enablement location in the specification as required by statute, i.e., "the manner and process of making and using it," rather than pointing to the first occurrence of establishing antecedent for the limitation in the specification. For this reason Petitioner should indicate, to the extent possible, the combination of the element, figure, page, (or paragraph), and line numbers in the specification where the mapped limitation is actually taught and enabled. If the application(s) for which domestic priority is claimed is/are identical to the present application, a statement to the effect that they are "substantially identical" in lieu of the required additional mapping is acceptable. Petitioner's attention is also drawn to the requirements relevant under 35 U.S.C 112, 6th paragraph, listed above. Should this requirement not apply to the present application, Petitioner should make a statement in this regard (requirement presently satisfied).

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address all of the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Programs Examiner, at (571) 272-4828.

Serial No.: 12/196560
Filed: August 22, 2008
Title: SELF-COMPENSATING CONNECTOR SUPPORT METHOD AND APPARATUS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the request for reconsideration filed on December 4, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). The request has been treated as a renewed petition to make the above-identified application special and has been viewed as a supplement to and in combination with the original petition which was filed on August 22, 2008 and dismissed in the Office letter of November 4, 2008.

The petition to make the application special is **DENIED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the conditions as outlined in the prior petition decision. The conditions are not repeated herein.

REVIEW OF FACTS

As stated in the decision of November 4, 2008 conditions I: 1-4, II: 1-5, 6, 6.1, and 6.6 were considered to have been met. However, the petition failed to comply with conditions II: 5.1, 5.2, 5.3, 6.2, 6.3, 6.4 and 6.5. Upon reconsideration, the petition appears to have additionally met II: 6.2, 6.4, and 6.5. However, the petition still fails to meet the requirement of section II: 5.1, 5.2, 5.3, and 6.3. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DISCUSSION

Regarding the failure to satisfy the requirements of section II: 5.1, 5.2, and 5.3, it is not clear that: 1) Petitioner directed the search to the invention; 2) Petitioner directed the search to the

disclosure; 3) that no search from a foreign patent office is provided as the pre-examination search; and 4) a statement of good faith is missing.

Furthermore, the Pre-Examination Search Document (PESD) is replete with statements whose nature and purpose is not clear. For example, the following statement of unclear purpose is reproduced below from p. 15 of the PESD:

Starrett (Tools: Precision)

Trade Status:
DISTRIBUTOR

Concluding the remarks for section II, and as a courtesy to the Applicant, the Examiner suggests that in summarizing the actions made in compliance with the requirements of sections II: 5.1, 5.2, and 5.3 above, the following statements be included in the PESD (the numbers parallel the corresponding sections in the June 26, 2006 Notice published in the Federal Register):

"8(B) Search Directed to the Invention
The pre-examination search was directed to the claimed invention, encompassing all the features

of the claim and giving the claim its broadest reasonable interpretation.

8(C) Search Directed to the Disclosure

No disclosed features that are unclaimed at this time are currently seen as features that may be claimed later.

8(D) Search Report from a Foreign Patent Office

No search report from a foreign patent office is provided here as the pre-examination search.

8(E) Statement of Good Faith

All statements above in support of the petition to make special are based on a good faith belief that the search was conducted in compliance with the requirements of this rule."

With regard to Petitioner failure to satisfy the requirement of section II condition 6.3, it is noted that in the decision of November 4, 2008, Petitioner was required to give a detailed explanation of patentability over each one of the references cited. In the request for reconsideration, Petitioner chose to bundle limitations and to make the following statement, reproduced from p. 26 of the Accelerated Examination Support Document (AESD):

Summary for Explanation of Patentability

Some or all of the features in the table below are not taught by the above references, alone or in combination. Thus, the claim is patentably distinguishable over each of these references, alone or in-combination. Therefore, Claim 1 is allowable with respect to 35 U.S.C. § 102 and 35 USC § 103 (a) in view of the following explanations.

In view of the following features of the claimed invention, none of the above patents anticipate providing the at least a compensating block with a back portion having at least a first wedge-shaped guide surface and a front portion having at least a third guide surface opposite the at least a first guide surface, with the at least a fastening recess being disposed in the at least a first guide surface, and providing the at least a mechanical support member with a front portion having at least a second wedge-shaped guide surface that is in sliding relationship to the at least a first guide surface, with the at least a guide element being positioned along the at least a second guide surface. Therefore, it would not be obvious to one of ordinary skill in the art at the time the claimed invention was made to combine and/or modify none of the above patents to read on these features of the claimed invention.

However, at least with respect to Breivogel 3,363,218, Petitioner himself acknowledges the teaching of at least the following elements, reproduced below from p. 5 of the AESD:

the method comprising: providing a printed circuit board (PCB); providing a socket connector mounted to the PCB;	X		The rack and panel is readable on the printed circuit board; Column 1, lines 22-28; Column 4, lines 49-52.
providing a back side support assembly,	X		The back side support assembly is readable on elements 5, 10, 18, 50, 80, 90, 92; Column 3, lines 31-75; Column 4, lines 1-48.
the back side support assembly includes at least a compensating block element, at least a mechanical support member, at least a compliant member with at least a fastening aperture at one end thereof,	X		Column 2, lines 67-72; Column 3, lines 1-38; Column 4, lines 17-38; The compensating block is readable on elements 23 and 80; The compliant member with a fastening aperture is readable on elements 10, 40, 50, 71, 80 and 84; The mechanical support member is readable on elements 5, 16, 90 and 92.

Hence, it is incorrect to state that Breivogel does not teach at least "a compensating element block with a back portion", the "back portion" being implicit in any mechanical element. As detailed in the previous decision, The requirement of section II element 6.3 can be satisfied by indicating for the presently filed claim (i.e., the claim of the instant application) which specific i.e., discrete limitation(s) in said presently filed claim define(s) over each one of the most closely related references that is cited. This patentability showing should be performed individually, with regard to each one of the most closely related prior art that is cited, one reference at a time. Patentability arguments must specifically spell out the relevant limitation(s); prior art patents can be referred to by the last name of the first inventor. Statements such as "Reference A does not teach limitation II(b)" will suffice, as long as the name of "Reference A" and the text of the clause and/or the text of the specific "limitation II(b)" are fully spelled out in the statement. Lack of obviousness analysis for combining two or more references should be performed when a "most closely related prior art" reference indicates reasons for such combination.

DECISION

For at least the above-stated reason (for failing to meet the requirement of section II: elements II: 5.1, 5.2, 5.3, and 6.3), the petition is **DENIED**. The application will remain in its regular status and will be taken up by the examiner for action in its regular turn.

Petitioner is reminded that a single opportunity to perfect the petition is given. Therefore, further petitions for accelerated examination in this application will not be entertained.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Program Examiner, at (571) 272-4828.

In re Application of	:	
SUZUKI, HIDEKI	:	DECISION ON REQUEST TO
Application No. 12/196,567	:	PARTICIPATE IN PATENT
Filed: Aug. 22, 2008	:	PROSECUTION HIGHWAY
Attorney Docket No. 10517/417	:	PROGRAM AND PETITION
For: SECONDARY AIR SUPPLY DEVICE FOR INTERNAL COMBUSTION ENGINE	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed June 15, 2010 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH pilot program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate and;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications.

In light of the petition being properly submitted, the request to participate in the PPH program and the petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

The applicant is encouraged to cite and submit all relevant prior art references, if any, to facilitate examination in this application.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen at 571-272-4856. All other inquiries concerning the examination or status of the application should be directed to Thomas Denion, the SPE of Art Unit 3748, and 571-272-4859 for Class 60/287 and also accessible in the PAIR system at http://www.uspto.gov/ebc.index.html.

Petition is **granted**.

OFFICE OF PETITIONS

In re Application of	:	
Filho et al.	:	DECISION ON PETITION
Application No. 12/196,582	:	TO WITHDRAW
Filed: August 22, 2008	:	FROM RECORD
Attorney Docket No. 14949-0014002	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed November 14, 2008.

The request is **DISMISSED**.

A review of the file record indicates that Fish & Richardson P.C.: (1) does not have power of attorney in this patent application; and (2) has been employed or otherwise engaged in the proceedings in this patent application.

The Office will no longer approve requests from practitioners to withdraw from applications where the requesting practitioner is acting, or has acted, in a representative capacity pursuant to 37 CFR 1.34. In these situations, the practitioner is responsible for the correspondence the practitioner files in the application while acting in a representative capacity. As such, there is no need for the practitioner to obtain the Office's permission to withdraw from representation.

Further, the Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *who properly became of record under 37 CFR 3.71,* or, if no assignee of the entire interest has properly been made of record, the most current address information provided for the first named inventor. 37 CFR 3.71(c) states:

> *An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.*

All future communications from the Office will be directed to above-listed address until otherwise properly notified by the applicant or a proper change of correspondence address have been submitted.

There are no outstanding Office actions that require a reply from the applicant.

Telephone inquires concerning this decision should be directed to Alicia Kelley at (571) 272-6059. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

In re Application of	:	
Or et al.	:	
Serial No.: 12/196,642	:	Decision on Petition
Filed: August 22, 2008	:	
Attorney Docket No.: **4014.1137 US2**	:	

This letter is in response to the petition filed under 37 C.F.R. § 1.181 filed on June 4, 2010 to reverse the examiner's refusal to enter the after final amendment mailed April 7, 2010.

BACKGROUND

Relevant parts of the prosecution history are summarized below.

The examiner mailed to applicants a final Office action on January 7, 2010. Claims 1-2, 8-11 and 23-25 were rejected under 35 U.S.C. § 112, first paragraph, as not being enabled for solvates.

On April 7, 2010, applicant submitted an after final amendment including claim amendments, remarks and a notice of appeal. It is pointed out that the only claim amendment was deletion of the term "solvate".

On May 20, 2010, the examiner mailed to applicants an advisory action indicating that the after final amendment would not be entered because new issues that require further consideration and/or search to determine patentability are raised.

On June 4, 2010, applicants submitted the petition currently under review.

DISCUSSION

The petition and file history have been carefully considered.

Applicants argue that "The claim was essentially amended in order to delete the term "solvate" to overcome an outstanding rejection under 35 U.S.C 112, first paragraph. This amendment adds no issues that have not previously been considered by the Examiner nor would it require a new search. Applicants further point out that the "Examiner states that the "proposed amendments raise issues that would require further consideration and/or search if such amendments were to be entered into the record, in light of this, it is, thus, proper to deny entry of the proposed claim amendments." However, no explanation was made as to how an amendment deleting the only contested issue in the Final Office Action raises new issues. If the Examiner is referring to any issues unrelated to the term "solvates" the Examiner should withdraw the finality and address such issues in a non-final office action." Applicants' points are well taken and found to be persuasive.

DECISION

The petition is **GRANTED** for the reasons set forth above. The advisory action mailed May 20, 2010, indicating that the after final amendment of April 7, 2010 would not be entered is hereby **VACATED**. It is also noted that incorrect form PTOL-304 was used as an Appeal Brief had not been filed at the time of the mailing of the Advisory Action.

The application will be forwarded to the examiner for consideration of the amendment after final wherein the examiner will consider whether to allow the application or prepare a new advisory action indicating that the after final amendment of April 7, 2010 will be entered but still not allowed. Since a Notice of Appeal has been filed, applicants are still required to file a brief in compliance with 37 CFR 41.37 within two months of the date of the filing of the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal.

Should there be any questions about this decision, please contact Special Program Examiner Marianne Seidel, by letter addressed to Director, Technology Center 1600, at the address listed above, or by telephone at 571-272-1600 or by facsimile sent to the general Office facsimile number, 571-273-8300.

Czarnik
Application No. 12/196,740
Filed: August 22, 2008
Attorney Docket No. PRO-085

DECISION ON PETITION

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed January 29, 2010, to revive the above-identified application.

The petition is **GRANTED**.

This above-identified application became abandoned for failure to timely file a reply to a Restriction Requirement mailed June 16, 2009. The Office Action set a one (1) month shortened statutory period for reply. No extensions of time were obtained under the provisions of 37 CFR 1.136(a). Accordingly, this application became abandoned on August 17, 2009. A Notice of Abandonment was mailed on February 3, 2010.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of a reply to the restriction requirement, (2) the petition fee of $810.00, and (3) a statement of unintentional delay.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3215.

This application is being referred to Technology Center AU 1621 for appropriate action by the Examiner in the normal course of business on the reply received

OFFICE OF PETITIONS

In re Application of :
Roukis : ON PETITION
Application No.: 12/196,752 :
Filed: August 22, 2008 :
Attorney Docket No.: 20177/P01136 :

This decision is in response to the petition under 37 CFR 1.47(b), filed April 22, 2009.

The petition is dismissed.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. Any response should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(b)" and may include an oath or declaration executed by the inventor. **Failure to respond will result in abandonment of the application.**

A grantable petition under 37 CFR 1.47(b) requires:

(1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration;
(2) an acceptable oath or declaration;
(3) the petition fee;
(4) a statement of the last known address of the non-signing inventor;
(5) proof of proprietary interest; and
(6) proof of irreparable damage.

This petition lacks items (1) and (2) set forth above.

As to item (1), petitioner has failed to establish that Mr. Roukis has refused to sign the declaration or cannot be reached. A successful Rule 47 petition requires either (a) a clear refusal to join, whether expressly or by conduct, or (b) a showing of diligence in trying to find an unavailable inventor. The proof of the pertinent events should be made by a statement of someone with first hand knowledge of the events.

The Office requires that the non-signing inventor be provided with a complete copy of the application as filed. The petition establishes that the present application and a declaration was mailed to Mr. Roukis' last known address, but returned to sender.

Mr. Roukis must have the complete application in his possession in order to make an informed decision as to whether he joins in its filing. Mr. Roukis cannot make the necessary statements found in the declaration-- i.e. "I have reviewed and understand..." -- without having examined the patent application.

The email refusal sent Friday, April 3, 2009, was sent in response to an email regarding Application No. 12/196,766. It establishes the inventor's refusal to execute a declaration for Application No. 12/196,766, but no other application.

Petitioner is informed that emailing is generally not accepted as a means to communicate with non-signing inventors. This is because the Office cannot know definitely if the message was received; people are not as careful in deleting emails as they are in throwing out mail as shown by bulk folder deletions and the fact that some people might not check emails frequently; the Office does not know if the recipient has the program to open the specific attachment; and PTO guidelines regarding accepting e-mail reflects the fact that the Office does not have the same confidence in email as it does in USPS service.

The Office typically requires documentary evidence of successful emailing in the form of a response email from the non-signing inventor in which the inventor acknowledges receipt of the email. Sending an email is not sufficient.

A showing of **diligence** is critical in obtaining Rule 47 status if petitioner is asserting Mr. Roukis cannot be located or reached. One returned mailing to the inventor's last known address does not rise to the level of diligence required to obtain Rule 47 status.

Petitioner should engage in further efforts to locate Mr. Roukis. The following is a list of evidentiary sources that are commonly relied upon to prove inability to locate an inventor: searches of Internet databases; inquiries of local telephone directories; telegrams; and documented inquiries of last known employers. Every listed type of search need not be done. However, a diligent effort to find the inventor must be made. **Please provide documentary evidence of the searches from parties with first hand knowledge of the searches. Computer printouts of Internet searches would suffice.**

If a more current address for Mr. Roukis is found, a copy of the application papers and the declaration should be mailed to him via mail service, along with a cover letter of instructions which includes a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. If the papers are returned and all other attempts to locate or reach the inventor continue to fail, then applicant will have established that the inventor cannot be reached after diligent effort or has refused to join in the application.

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration by the party to whom the refusal was made. Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the rule 47 applicant that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted.

Whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration.

As to item (2), an oath or declaration for the patent application in compliance with 37 CFR 1.63 and 1.64 has not been presented. Petitioner has not submitted a declaration signed by a properly empowered representative of the Rule 1.47 applicant. An oath or declaration in compliance with 37 CFR 1.63 and 1.64 listing Mr. Roukis' information, signed by the Rule 1.47 applicant on behalf of Mr. Roukis is REQUIRED. See MPEP 409.03(b).

MPEP 409.03(b) states that typically when a corporation is the Rule 47 applicant, an officer should sign the declaration and provide his/her title. Where an oath is signed by a registered attorney on behalf of a corporation, either proof of the attorney's authority in the form of a statement signed by an appropriate corporate officer must be submitted, or the attorney may simply state that he is authorized to sign on behalf of the corporation. The Rule 47 applicant must state his/her relationship to the inventor as required by 37 CFR 1.64.

Regarding fees, petitioner paid a $400.00 petition fee. However, the current Rule 47 petition fee is $200.00. Pursuant to petitioner's authorization, deposit account no. 50-2455 will be refunded $200.00.

OFFICE OF PETITIONS

In re Application of
Roukis
Application No.: 12/196,752
Filed: August 22, 2008
Attorney Docket No.: 20177/P01136

ON PETITION

This decision is in response to the renewed petition under 37 CFR 1.47(b), filed July 20, 2009.

The petition is dismissed.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. Any response should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(b)" and may include an oath or declaration executed by the inventor. **Failure to respond will result in abandonment of the application.**

A grantable petition under 37 CFR 1.47(b) requires:

(1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration;
(2) an acceptable oath or declaration;
(3) the petition fee;
(4) a statement of the last known address of the non-signing inventor;
(5) proof of proprietary interest; and
(6) proof of irreparable damage.

This petition lacks item (2) set forth above.

As to item (2), an oath or declaration for the patent application in compliance with 37 CFR 1.63 and 1.64 has not been presented. Petitioner has not submitted a declaration signed by an authorized representative of the Rule 1.47 applicant. An oath or declaration in compliance with 37 CFR 1.63 and 1.64 listing Mr. Roukis' information, signed by the Rule 1.47 applicant on behalf of Mr. Roukis is REQUIRED. See MPEP 409.03(b).

MPEP 409.03(b) states that typically when a corporation is the Rule 47 applicant, an officer should sign the declaration and provide his/her title. Where an oath is signed by a registered

attorney on behalf of a corporation, either proof of the attorney's authority in the form of a statement signed by an appropriate corporate officer must be submitted, or the attorney may simply state that he is authorized to sign on behalf of the corporation. The Rule 47 applicant must state his/her relationship to the inventor as required by 37 CFR 1.64.

Kieran Power, the individual who signed the declaration, has not provided a registration number **and** proof of his/her authority in the form of a statement signed by an appropriate corporate officer, or a statement that he/she is authorized to sign on behalf of the corporation. His/her title does not clearly set forth that he/she is an officer of the assignee.

It is noted that Christopher N. George, who provided his registration number, signed the Statement under 3.73(b) and is therefore authorized to act on behalf of the assignee.

Further correspondence with respect to this matter should be addressed as follows:

Application No.: 12/196,752	:	UNDER 37 CFR 1.47(b)
Filed: August 22, 2008	:	
Attorney Docket No.: 20177/P01136	:	

This decision is in response to the renewed petition under 37 CFR 1.47(b), filed September 23, 2009.

The petition is granted.

Petitioner has shown that the non-signing inventor, George Roukis, has refused to join in the filing of the above-identified application.

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(b). This application is hereby accorded Rule 1.47(b) status.

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application is being referred to the Office of Patent Application Processing for further pre-examination processing.

Telephone inquiries should be directed to the undersigned at (571) 272-3230.

In re Application of :
Roukis : LETTER
Application No.: 12/196,752 :
Filed: August 22, 2008 :
Attorney Docket No.: 20177/P01136 :

Dear Mr. Roukis:

You are named as the sole inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(b), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as sole inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (571) 272-3230. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington, DC area).

SEP 11 2008

In re Application of: ADDONIZIO et al. Serial No.: 12/196,761 Filed: August 22, 2008 Title: STENT HAVING HELICAL ELEMENTS	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 22, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.
5. The petition must be filed with the application.

The application as filed is not eligible for the accelerated examination under 37 C.F.R. § 1.102(d) because the application the application, at the time of filing, was not complete under 37 CFR 1.51 and in condition for examination, as evidenced by the mailing of the Notice to File Missing Parts of Nonprovisional Application on August 27, 2008. See 71 Fed. Reg. 36323 notice, section VIII, Conditions for Examination. The opportunity to perfect a petition does not apply to applications that are not in condition for examination on filing.

As noted in the policy statement referenced above, any petition to make special filed on or after the effective date must meet the new requirements set forth in the 71 Fed. Reg. 36323 notice.

For the above-stated reasons, the petition for Accelerated Examination, as set forth in MPEP 708.02(a) is **DENIED**. The application has been granted "special" status based upon applicant's age. The application is being forwarded to Technology Center Art Unit 3748 for assignment to an examiner and examination commensurate with MPEP 708.02, IV.

Any inquiry regarding this decision should be directed to J. Harrison, TC 3700 Special Program Examiner, at (571) 272-4449.

SEP 18 2008

In re Application of: ADDONIZIO et al. Serial No.: 12/196,761 Filed: August 22, 2008 Title: STENT HAVING HELICAL ELEMENTS	:	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 22, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). This decision supersedes the prior decision mailed September 12, 2008 which indicated the application had been made special due to age. That language was in error: this application remains in regular status.

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.
5. The petition must be filed with the application.

The application as filed is not eligible for the accelerated examination under 37 C.F.R. § 1.102(d) because the application the application, at the time of filing, was not complete under 37 CFR 1.51 and in condition for examination, as evidenced by the mailing of the Notice to File Missing Parts of Nonprovisional Application on August 27, 2008. See 71 Fed. Reg. 36323 notice, section VIII, Conditions for Examination. The opportunity to perfect a petition does not apply to applications that are not in condition for examination on filing.

As noted in the policy statement referenced above, any petition to make special filed on or after the effective date must meet the new requirements set forth in the 71 Fed. Reg. 36323 notice.

For the above-stated reasons, the petition for Accelerated Examination, as set forth in MPEP 708.02(a) is **DENIED**.

Any inquiry regarding this decision should be directed to J. Harrison, TC 3700 Special Program Examiner, at (571) 272-4449.

SUITE 2100
CHICAGO IL 60606

In re Application of :
George Roukis :
Application No.:12/196,766 : DECISION REFUSING
Filed: August 22, 2008 : RULE 47(b) STATUS
Attorney Docket No: 20177/P01138 :
For: **GAMING SYSTEM AND A METHOD OF GAMING**

This is a decision on the petition under 37 CFR 1.47(b) filed April 8, 2009.

The petition under 37 CFR 1.47(b) is **dismissed.**

Any request for reconsideration under this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. Failure to respond will result in the abandonment of this application. Any response should be titled "Request for Reconsideration of Petition Under 37 CFR 1.47(b).

The above-identified application was filed on August 22, 2008, without an executed oath or declaration or filing fee. Accordingly, a "Notice to File Missing Parts Nonprovisional Application" (the "Notice") was mailed on September 9, 2008, requiring an executed oath or declaration and a surcharge for the late filing of the oath or declaration. The instant petition was filed on April 8, 2009, with a request for an extension of time within the fifth month.

A grantable petition under 37 CFR 1.47(b) requires:

(1) proof that the non-signing inventor(s) cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims, and drawings);

(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;

(3) the petition fee

(4) a statement of the last known address of the non-signing inventor,

(5) proof of proprietary interest, and

(6) a showing (statement) that such action is necessary to preserve the rights of the parties or to prevent irreparable damage.

The instant petition lacks item (2) as set forth above.

As to item (2), petitioner failed to file a proper oath or declaration with the instant petition as required by 37 CFR 1.47. Section 409.03 (b) of the MPEP states, in pertinent part, that:

> [t]he 37 CFR 1.47(b) applicant must make the oath required by 37 CFR 1.63 and 1.54 or 1.175. Where a corporation is the 37 CFR 1.47(b) applicant, an officer (President, Vice-President, Secretary, Treasurer, or Chief Executive Officer) thereof should normally sign the necessary oath or declaration. A corporation may authorize any person including an attorney or agent authorized to practice before the U.S. Patent and Trademark Office, to sign the application oath or declaration on its behalf. Where an oath or declaration is signed by a registered attorney or agent on behalf of a corporation, either proof of the attorney's or agent's authority in the form of a statement signed by an appropriate corporate officer must be submitted, or the attorney or agent my simply state that he or she is authorized to sign on behalf of the corporation.

A review of the application file did not reveal an executed oath or declaration for the subject application. With any renewed petition filed, petitioner must file a declaration that conforms to the MPEP section cited above.

Further as to item (2), a declaration signed by the assignee cannot be accepted until the assignee demonstrates that it has the power to prosecute the application. Section 409.03(b) of the *Manual of Patent Examining Procedure* provides, in pertinent part, that, "[w]here the oath or declaration is being signed on behalf of an assignee, see MPEP 324." Section 324 of the *Manual of Patent Examining Procedure* cites 37 CFR 3.71(c) which states that, "[a]n assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee." Petitioner should note that 37 CFR 3.73 requires that before an assignee can take action in a patent matter, the assignee must establish ownership of the patent property in accordance with 37 CFR 3.73(b)(1)(i) or (ii). No statement or certificate meeting the requirements of 37 CFR 3.73 was found with the petition. Petitioner must properly establish ownership of the patent property before the assignee will be granted authority under 37 CFR 1.47(b) to prosecute the application. Enclosed is a "Statement Under 37 CFR 3.73(b)" that petitioner may use to satisfy this requirement.

Further correspondence with respect to this matter should be addressed as follows:

OFFICE OF PETITIONS

In re Application of :
George Roukis :
Application No.:12/196,766 : DECISION ACCORDING
Filed: August 22, 2008 : RULE 47(b) STATUS
Attorney Docket No: 20177/P01138 :
For: **GAMING SYSTEM AND A METHOD OF GAMING**

This is in response to the renewed petition under 37 CFR 1.47(b), filed July 7, 2009.

The renewed petition is **GRANTED**.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(b). This application is hereby accorded Rule 1.47(b) status.

The above-identified application was filed on August 22, 2008, without an executed oath or declaration or filing fee. Accordingly, a "Notice to File Missing Parts Nonprovisional Application" (the "Notice") was mailed on September 9, 2008, requiring an executed oath or declaration and a surcharge for the late filing of the oath or declaration. A petition under 37 CFR 1.47(b) was filed on April 8, 2009, with a request for an extension of time within the fifth month. The petition was dismissed by a decision mailed May 7, 2009.

By the instant petition and evidentiary documents, petitioner has established that the sole inventor has refused to join the prosecution of the application and that the 37 CFR 1.47(b) applicant has sufficient proprietary interest to proceed with prosecution of the application without the sole inventor.

As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application will be forwarded to the Office of Patent Examination Application Processing for further processing.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3222.

DECISION ON PETITION TO WITHDRAW FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 19, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others.

The request was signed by Mark A. Kassel on behalf of all attorneys of record. All attorneys/agents associated have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-7253.

Filed: August 22, 2008

:

Attorney Docket No. **PRO-098**

This is a decision on the petition under 37 CFR 1.137(b), filed March 5, 2010, to revive the above-identified application.

The petition is **GRANTED**.

The above-cited application became abandoned for failure to reply in a timely manner to the restriction/election requirement mailed August 17, 2009, which set a shortened period for reply of one month from its mailing date. A response was not received within the allowable period. The application became abandoned on September 18, 2009. A Notice of Abandonment was mailed on March 3, 2010.

The election filed March 5, 2010, is noted.

The application is being forwarded to Technology Center 1600, GAU 1621 for further processing.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3222.

Gabriel Lopez Seco	:	
Application No. 12/197,019	:	ON PETITION
Filed: August 22, 2008	:	
Attorney Docket No. 10024	:	

This is a decision on the petition under 37 CFR 1.137(b), filed July 9, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Corrected Application Papers mailed October 9, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on December 10, 2008. The Notice of Abandonment was mailed June 17, 2009.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of replacement drawings; (2) the petition fee of $810; and (3) an adequate statement of unintentional delay.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-2991.

The application file is being referred to the Office of Patent Application Processing for further processing.

Application No. 12/197,063	:	DECISION ON PETITION
Filed: August 22, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. 62271/M958	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed November 6, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a declaration by the applicant. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at 571-272-4618.

All other inquiries concerning either the examination or status of the application should be directed to the Office of Patent Application Processing at 571-272-4000.

Upon completion of the pre-examination processing by the Office of Patent Application Processing, this application will be referred to Technology Center Art Unit 3626 for action on the merits commensurate with this decision.

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed December 16, 2008.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request was signed by Michael Ward on behalf of all attorneys of record who are associated with customer No. 20872. All attorneys/agents associated with the Customer Number 20872 have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

All future correspondence will be directed to the first named inventor Rudi Moerck at the address indicated below.

Stephen Neushul	:	
Application No. 12/197,221	:	ON PETITION
Filed: August 22, 2008	:	
Attorney Docket No. ICR-002-IDR	:	

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed July 28, 2009, to revive the above-identified application.

The petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(b)." This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

The application became abandoned for failure to reply in a timely manner to the Notice to File Corrected Application Papers mailed September 3, 2008.

A grantable petition under 37 CFR 1.137(b) must be accompanied by: (1) the required reply, unless previously filed; (2) the petition fee as set forth in 37 CFR 1.17(m); (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional; and (4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required by 37 CFR 1.137(d). Where there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137 was unintentional, the Director may require additional information. See MPEP 711.03(c)(II)(C) and (D). The instant petition lacks item(s) (1).

The drawings submitted with the instant petition on July 28, 2009, are not properly identified in the top margin as "Replacement Sheet," "New Sheet," or "Annotated Sheet" as required by 37 CFR 1.121(d), as required in the Notice mailed September 3, 2008.

In re Application of	:	
Stephen Neushul	:	
Application No. 12/197,221	:	DECISION ON PETITION
Filed: August 22, 2008	:	
Attorney Docket No. ICR-002-IDR	:	

This is a decision on the renewed petition filed January 20, 2010, which is being treated under the unintentional provisions of 37 CFR 1.137(b), to revive the above-identified application.

The petition is **GRANTED**.

The petition satisfies the conditions for revival pursuant to the provisions of 37 CFR 1.137(b) in that (1) the reply in the form of replacement drawings; (2) the petition fee; and (3) the required statement of unintentional delay have been received. Accordingly, the reply to the Notice to File Corrected Application Papers mailed September 3, 2008, is accepted as having been unintentionally delayed.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3208.

This application is being referred to the Office of Patent Application Processing for pre-examination processing.

OFFICE OF PETITIONS

In re Application of	:	
Kenneth TAYLOR	:	
Application No. 12/197,344	:	DECISION ON PETITION
Filed: August 25, 2008	:	
Attorney Docket No. **1005-007**	:	

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed March 22, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The above-identified application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application mailed September 05, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 06, 2008.

The petition satisfies the conditions for revival pursuant to the provisions of 37 CFR 1.137(b) in that (1) the reply in the form of the required drawings, oath/declaration and fees; (2) the petition fee of $810.00; and (3) the required statement of unintentional delay have been received. Accordingly, the reply to the Notice to File Missing Parts of Nonprovisional Application of September 05, 2008 is accepted as having been unintentionally delayed.

Telephone inquiries concerning this decision should be directed to Michelle R. Eason at (571) 272-4231.

The application is being referred to the Office of Patent Application Processing.

OFFICE OF PETITIONS

In re Application of :
Travkina et al. :
Application No. 12/197,352 : ON PETITION
Deposited: August 25, 2008 :
Attorney Docket No. CR50U1-US :

This is in response to the "AMENDMENT AND RESPONSE TO NOTICE OF INCOMPLETE NONPROVISIONAL APPLICATION AND PETITION (UNDER 37 C.F.R. 1.57(a)) TO ENTER INADVERTENTLY OMITTED DRAWINGS" filed September 23, 2008, requesting that the above-referenced application be accorded a filing date of August 25, 2008. This petition is being treated pursuant to 37 CFR 1.53(e)(2)[1].

Application papers in the above-identified application were deposited on August 25, 2008. However, on September 8, 2008, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings. In response, applicants timely filed this petition. Applicants request that the application be amended to include the inadvertently omitted drawings on the basis that the application as filed contained a prior benefit claim under 37 CFR 1.55 or 1.78.

Petitioner's arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained both composition and method claims. MPEP 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence). The same practice has been followed in composition applications.

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

MPEP 601.01(g) under the section entitled, "Application Entitled to a Filing Date," applicant may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [i]f an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application[.]

Please note that no petition is required and that the amendment must comply with 37 CFR 1.57(a) and 37 CFR 1.121. See MPEP § 201.17. Any amendment to include the inadvertently omitted drawing(s) will be considered by the examiner.

It should be noted that a review of the drawings submitted on petition shows that the drawings are not compliant with 37 CFR 1.121(d). When the Office receives replacement sheets of drawings for patent applications after the application has been filed, a cover letter identifying the drawings by application number should accompany them. The application number and other identifying indicia should be placed on each sheet of drawings in accordance with 37 CFR 1.84(c). Each drawing sheet submitted after the filing date of the application must be identified as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).

To the extent the instant petition requests a filing date of August 25, 2008 with no drawings present in the application, the petition is **GRANTED**.

Given the basis for granting this petition, the petition fee is being refunded.

Pursuant to this decision, the application will be referred to Office of Patent Application Processing for:

- **correction of the filing date to August 25, 2008**;
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **for issuance of a filing receipt.**

Telephone inquiries concerning this matter may be directed to Charlema Grant at (571) 272-3215.

OFFICE OF PETITIONS

Applicants: Izumi, et al.
Appl. No.: 12/197,379
Filing Date: August 25, 2008
Title: Method For Producing A (Meth)Acrylic Thermally Conductive Sheet
Attorney Docket No.: 330833US0DIV
Pub. No.: US 2008/0311394 A1
Pub. Date: December 18, 2008

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on February 12, 2009, for the above-identified application.

The request is dismissed.

Applicant requests that the application be republished because the patent application publication contains a material error, wherein the amendment filed on August 25, 2008 concerning the abstract was not published.

37 CFR 1.221 (b) is applicable "only when the Office makes **a material mistake** which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. [1]

The error noted by requestor with respect to the amendment is not an Office error. The patent application publication does not include a mistake regarding the failure to include the preliminary amendment, which amended the abstract because patent application publications are not required to include preliminary amendments. See 37 CFR 1.215(a). [2]

Moreover, an error in the abstract is not a material error as a material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to

[1] Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).
[2] Changes to Support Implementation of the United States Patent and Trademark Office 21st Century Strategic Plan; Final Rule, 69 FR 56482 (Sept. 21, 2004).

determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

Applicant did not file a substitute specification, which incorporated the amendment. Applicant did not file a copy of the application in compliance with the Office electronic filing systems requirements. See 37 CFR 1.215 and MPEP 1121.

Applicant is reminded of his duty to conduct a reasonable inquiry before filing a paper before the Office. See MPEP 410.

Applicants' request for a corrected patent application publication on February 12, 2009, may constitute a "failure to engage in reasonable efforts to conclude processing or examination of the application." See 1.704(c). This determination will be made on or after a mailing of a Notice of Allowance.

Applicants are advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application in compliance with the Office electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

A guide for filing a request for a Pre-Grant Publication, such as a request for republication, may be found on the link below:

http://www.uspto.gov/ebc/portal/tutorials.htm

Any request for republication under 37 CFR 1.221(a) must be submitted via the EFS system as a "Pre-Grant Publication" and any questions or request for reconsideration of the decision should be addressed as follows:

In re Application of	:	
Christopher G. Kunis, et al.	:	
Application No. 12/197,425	:	DECISION ON PETITION
Filed: August 25, 2008	:	TO WITHDRAW
Attorney Docket No. 10228-700.300	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed February 17, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by James R. Shay on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

There is no outstanding Office action at this time.

Telephone inquiries concerning this decision should be directed to Terri Williams at 571-272-2991.

Application No. 12/197,513	:	DECISION ON PETITION
Filed: August 25, 2008	:	TO WITHDRAW
Attorney Docket No. BIOG0006	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed May 4, 2010.

The request is **NOT APPROVED.**

The Office will no longer accept address changes to a new practitioner or law firm filed with a Request, absent the filing of a power of attorney to the new representative. The Office will either change the correspondence address of record to the most current address information provided for the assignee of the entire interest who properly became of record under 37 CFR 3.71 or, if no assignee of the entire interest has properly been made of record under 37 CFR 3.71, the most current address information provided for the first named inventor. This change has been made in order to avoid subsequent correspondence being directed to an incorrect address or to a practitioner who has not been appointed as practitioner of record by the applicant.

Accordingly, the request to withdraw from record cannot be approved because the change of correspondence address is not that of: (1) the first named signing inventor; or (2) an assignee of the entire interest under 37 C.F.R 3.71, who has properly intervened.

All future communications from the Office will continue to be directed to the above-identified address until otherwise properly notified.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-4618.

This is a decision on the Request to Withdraw as attorney or agent of record under 37 CFR §§ 1.36(b) or 37 CFR 10.40, filed April 2, 2010.

The request is **NOT APPROVED**.

It is noted that a power of attorney was filed by the assignee on May 7, 2010, which revoked any previous power of attorney or authorization of agent. Therefore, the request to withdraw under 37 CFR §§ 1.36(b) or 10.40 is moot.

All future communications from the Office will be directed to the below-listed address until otherwise notified by applicant.

This application file is being referred to Technology Center Art Unit 3736 for examination in due course.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-3226.

Attorney Docket No. **091619-0192**

DECISION ON PETITION TO WITHDRAW FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 19, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others.

The request was signed by Mark A. Kassel on behalf of all attorneys of record. All attorneys/agents associated have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-7253.

Applicant	: Marc Tremblay	: DECISION ON REQUEST FOR
Patent Number	: 7664942	: RECALCULATION of PATENT
Issue Date	: 02/16/2010	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/197,629	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 08/25/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

OFFICE OF PETITIONS

In re Application of :
Marine Drive, et al. :
Application No. 12/197,656 : ON PETITION
Filed: August 25, 2008 :
Attorney Docket No. H0018775-0561 (22394) :

This is a decision on the petition under 37 CFR 1.137(b), filed July 10, 2009, to revive the above-identified application.

The petition is not signed by a registered patent attorney or patent agent of record. However, in accordance with 37 CFR 1.34, the signature of Mr. James B. Conte appearing on the correspondence shall constitute a representation to the United States Patent and Trademark Office that he is authorized to represent the particular party in whose behalf he acts. If Mr. Conte desires to receive correspondence regarding this file, the appropriate power of attorney documents must be submitted. A courtesy copy of this decision is being mailed to Mr.Conte, the petitioner herein. However, until otherwise instructed, all future correspondence regarding this application file will be directed solely to the above-noted correspondence address of record.

The petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(b)." This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application (Notice), mailed September 3, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extension of time under the provisions of 37 CFR 1.136(a) was obtained. Accordingly, the application became abandoned on November 4, 2008. A Notice of Abandonment was mailed on May 7, 2009. In response on July 10, 2009, the present petition was filed.

A grantable petition under 37 CFR 1.137(b)[1] must be accompanied by: (1) the required reply, unless previously filed; (2) the petition fee as set forth in 37 CFR 1.17(m); (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional; and (4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required by 37 CFR 1.137(c). Where there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137 was unintentional, the Director may require additional information. See MPEP 711.03(c)(II)(C) and (D). The instant petition lacks item 1.

It is noted that petitioner indicates that applicant submits a declaration with the required signature; however, the declaration submitted does not include the signature of joint inventor Deepakumar Subbian. Accordingly, the petition cannot be granted until a proper declaration is filed.

Further correspondence with respect to this matter should be delivered through one of the following mediums:

In re Application of Marine Drive, et al. Application No. 12/197,656 Filed: August 28, 2008 Attorney Docket No. H0018775-0561 (22394)	: : : : :	ON PETITION

This is a decision on the renewed petition under 37 CFR 1.137(b), filed September 25, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to timely respond to a Notice to File Missing Parts mailed September 3, 2008. A Notice of Abandonment was mailed on May 7, 2009. On July 10, 2009, a petition under 37 CFR 1.137(b) was filed; however, the petition was dismissed in a decision mailed September 16, 2009. In response, on September 25, 2009, the present petition was filed.

The petition now satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of an executed declaration, $130 surcharge and replacement drawings; (2) the petition fee of $1,620; and (3) an adequate statement of unintentional delay[1].

The application is being referred to the Office of Patent Application Processing (OPAP) for further processing using the declaration filed on September 25, 2009.

Telephone inquires related to this decision should be directed to the undersigned at (571) 272-3204. Telephone inquiries related to processing at OPAP should be directed to their hotline at (571) 272-4000.

Sherry D. Brinkley
Petitions Examiner
Office of Petitions

[1] 37 CFR 1.137(b)(3) requires a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional. While the statement is not made by an attorney of record, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. See 37 CFR 10.18(b) and Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. 53131, 53178 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63, 103 (October 21, 1997). In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that it is not correct that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional, petitioner must notify the Office.

APR 09 2010

OFFICE OF PETITIONS

In re Application of :
SU, WEN-LUNG et al. :
Application No. 12/197,723 :
Filed: August 25, 2008 :
Attorney Docket No. 7004.120 :

ON PETITION

This is a decision on the petition under 37 CFR 1.137(b), filed January 26, 2010 and supplemented March 17, 2010, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts (Notice), mailed September 05, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extension of time under the provisions of 37 CFR 1.136(a) was obtained. Accordingly, the application became abandoned on November 06, 2008.

The petition satisfies the conditions for revival pursuant to the provisions of 37 CFR 1.137(b) in that (1) the required fees (2) the petition fee of $810; and (3) the required statement of unintentional delay have been received. Accordingly, the reply to the Notice to File Missing Parts (Notice) of September 05, 2008 is accepted as having been unintentionally delayed.

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that the delay in paying the maintenance fee under 37 CFR 1.378(c) was intentional, petitioner must notify the Office.

Telephone inquiries concerning this decision should be directed to Miranda Le at (571) 272-4112 or in her absence, the undersigned at (571) 272-7099.

The application file is being referred to the Office of Patent Application Processing.

Filed: August 25, 2008	:	TO WITHDRAW
Attorney Docket No. 091619-0211	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 20, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Mark A. Kassel on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

John William Kimes et al.	:	
Application No. 12/197,757	:	DECISION ON PETITION
Filed: August 25, 2008	:	TO WITHDRAW
Attorney Docket No. 81176166	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 CFR § 1.36(b), filed April 27, 2009.

The request is **NOT APPROVED** as moot.

A review of the file record indicates that the communication regarding the power of attorney (PTOL-308) mailed March 19, 2009, was indeed filed in the wrong application. Therefore, the Revocation has been withdrawn and the correspondence address has been restored to the previous address.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to JoAnne Burke at 571-272- 4584.

Application No. 12/197,758	:	DECISION ON PETITION TO
Filed: August 25, 2008	:	WITHDRAW FROM RECORD
Attorney Docket No. **091619-0214**	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 19, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others.

The request was signed by Mark A. Kassel on behalf of all attorneys of record. All attorneys/agents associated have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-7253.

Title: TOILET BOWL PROTECTION APPARATUS AND METHOD

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 25, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

The application as filed is not eligible for the accelerated examination under 37 C.F.R. § 1.102(d) because it was not complete under 37 CFR 1.51 and in condition for examination at the time of filing. The mailing of a Notice to File Corrected Application Papers on September 4, 2008 is evidence that the application was not complete and in condition for examination at the time of filing.

Note that the policy as published in the Federal Register on June 26, 2006 as outlined on 36326, part VIII, conditions for examination, section (f), conditions for examination include drawings in compliance with 37 CFR 1.84. As the drawings as filed were not in compliance with 37 CFR 1.84 at filing, the application is not considered to be complete under 37 CFR 1.51 and not in condition for examination at the time of filing. Therefore, the application is ineligible for consideration under the accelerated examination program.

For the above-stated reasons, the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Program Examiner, at (571) 272-4828. In his absence, an inquiry can be directed to J. Harrison, Special Program Examiner, at 571 272-4449

In re Application of	:	
TAKIZAWA, KAZUYUKI, et al.	:	DECISION ON REQUEST TO
Application No. 12/197,810	:	PARTICIPATE IN PATENT
Filed: August 25, 2008	:	PROSECUTION HIGHWAY
Attorney Docket No. **5354-54**	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed April 18, 2010.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kenneth Wieder at 571-272-2986.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
Yong LI.	:	DECISION REFUSING STATUS
Application No. 12/197,856	:	UNDER 37 CFR 1.47(b)
Filed: August 25, 2008	:	
Attorney Docket No. IR-3332(2-6570) V9068	:	

This is in response to the petition under 37 CFR 1.47(b), filed April 10, 2009.

The petition is **DISMISSED**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(b)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(b) requires:

(1) proof that the non-signing inventor cannot be reached after diligent effort or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings);
(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;
(3) the petition fee;
(4) a statement of the last known address of the non-signing inventor.
(5) proof of proprietary interest: and
(6) proof of irreparable damage.

Applicant lacks items (1) and (5) set forth above.

As to item (1), the applicable statute (35 U.S.C.§ 116) requires that a "diligent effort" have been expended in attempting to find or reach the non-signing inventor. *See* MPEP 409.03(a). The showing currently fails to demonstrate, with a documented showing, that a diligent effort was made to find or locate non-signing inventor Yong Li, such that the declaration can be accepted under 37 CFR 1.47(b).

Where inability to find or locate a named inventor(s) is alleged, a statement of facts should be submitted that fully describes the exact facts which are relied on to establish that a *diligent effort* was made to locate the inventor.

Petitioner has not demonstrated that all efforts were expended in trying to locate inventor non-signing Yong Li. In this regard, petitioner should, at the very least, conduct a search of the regional or national registry(s). The results of such search should be made in any future petition for reconsideration. *See* MPEP 409.03(d). Additionally, petitioner should state whether he has access to inventor Yong Li's personnel records and, if so, what does inspection of the records reveal as to a current address, forwarding address, or an address of the nearest living relative? What does inspection of the phone directories for those address locations reveal? Further, the petition fails to indicate that correspondence was ever mailed unsuccessfully to the inventor's last known address via US Postal Service with a request for a forwarding address or return receipt. Therefore, at the very least, petitioner should mail correspondence to the inventor's last known address, return receipt and/or forwarding address requested. If a forwarding address is provided, petitioner should then mail a complete copy of the application papers (specification, claims, drawings, oath, etc.) to Yong .Li's address, return receipt requested, along with a cover letter of instructions which includes a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. If the papers are returned and all other attempts to locate or reach the inventor, e.g., through personnel records, co-workers, E-mail, the Internet or the telephone, etc., continue to fail, then applicant will have established that the inventor cannot be reached after diligent effort or has refused to join in the application. **The statements of facts must be signed, where at all possible, by a person having firsthand knowledge of the facts recited therein and should be accompanied by documentary evidence in support of the statement of facts.** It is important that the forthcoming communication contain statements of fact as opposed to conclusions.

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration by the party to whom the refusal was made. Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the rule 47 applicant that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted.

Whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration.

As to item (5), Rule 47 applicant has failed to show or provide proof that International Rectifier Corporation has sufficient proprietary interest in the subject matter to justify the filing of the application (see MPEP 409.03(f)). Acceptable proof would include a copy of the employment agreement between the non-signing inventor and the Rule 47(b) applicant (company), a copy of an assignment agreement showing that the invention disclosed in the application is assigned to the Rule 47(b) applicant, or a legal memorandum signed by an attorney familiar with the law of the jurisdiction stating that a court of

competent jurisdiction would by the weight of authority in that jurisdiction award the title of the invention to the Rule 47(b) applicant.

A copy of an unexecuted assignment document is acknowledged by the Office, however, since the nonsigning inventor has not signed an assignment document which has been recorded in the USPTO, proprietary interest has not been established.

OFFICE OF PETITIONS

In re Application of	:	
Vanderbist et al.	:	DECISION ON PETITION
Application No. 12/197,900	:	TO WITHDRAW
Filed: August 25, 2008	:	FROM RECORD
Attorney Docket No. 31121-2 CONT	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b) filed January 14, 2010, which is being treated as a request to withdraw from employment in a proceeding before the Office under 37 C.F.R. § 10.40.

The request is **DISMISSED**.

A review of the file record indicates that The Nath Law Group does not have power of attorney in this patent application. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is not applicable.

The request to change the correspondence address of record is not accepted in view of The Nath Law Group not having power of attorney. See MPEP §§ 601.03 and 405.

Accordingly, all future communications from the Office will be directed solely to the above current address of record until proper instructions have been received.

Currently, there is an outstanding Office action mailed October 29, 2009 that requires a reply.

Telephone inquires concerning this decision should be directed to the undersigned at 571-272-7751.

OFFICE OF PETITIONS

In re Application of	:	
Patrick PIERZ	:	
Application No. 12/197,917	:	DECISION ON PETITION
Filed: August 25, 2008	:	TO WITHDRAW
Attorney Docket No. 08-02-13046/4326P		FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed January 23, 2009.

The request is **NOT APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request cannot be approved because there is no indication that the act noted above at item 1 has been performed.

The request cannot be approved because the attorneys of record were not appointed by Customer Number 29141, as indicated.

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6735.

In re Application of:	:	
HUGHES *et al.*	:	DECISION ON PETITION
Serial No.: 12/197,930	:	TO EXPUNGE
Filed: August 28, 2008	:	
Attorney Docket No.: **1212-RTC-028413**	:	

This is a decision on the petition filed August 28, 2009, to expunge information submitted in an incorrect application under to 37 C.F.R. § 1.59(b), and M.P.E.P. § 724.05, paragraph II.

The petition is GRANTED.

Petitioner requests that information filed August 28, 2009, be expunged from the record. Petitioner states that either (A) that the information contains trade secret material, proprietary material and/or material that is subject to a protective order which has not been made public; or (B) that the information submitted was unintentionally submitted and the failure to obtain its return would cause irreparable harm to the party who submitted the information or to the party in interest on whose behalf the information was submitted, and the information has not otherwise been made public. The petition fee set forth in 37 CFR 1.17(g) has been paid.

The information in question has been determined by the undersigned to not be material to the examination of the instant application.

Applicant is required to retain the expunged material(s) for the life of any patent which issues on the above-identified application.

Accordingly, the petition is granted. Since the application is part of the electronic file environment of the USPTO, return of the original document is not practical. Any electronic documents containing the information will be removed from the electronic file.

Inquiries related to this decision should be directed to Clayton E. LaBalle at (571) 272-1594.

In re Application of	:	
Kenneth Carl Furge, et al.	:	
Application No. 12/197,998	:	DECISION GRANTING PETITION
Filed: August 25, 2008	:	UNDER 37 CFR 1.313(c)(2)
Attorney Docket No. 11336/1818	:	
(P04044USD2)		

This is a decision on the petition under 37 CFR 1.313(c)(2), filed, May 13, 2010 to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). *See* 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on April 22, 2010 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries should be directed to Terri Johnson at (571) 272-2991.

This application is being referred to Technology Center AU 2614 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed information disclosure statement.

In re Application of: Judith Deutekom	:
Serial No.: 12/198,007	: DECISION ON PETITION TO MAKE
Filed: August 25, 2008	: SPECIAL FOR NEW APPLICATION
Docket No.: 2183-7492.1US	: UNDER 37 C.F.R. § 1.102 & M.P.E.P.
	: § 708.02

This is a decision on the petition filed August 25, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;
2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. 103(c).

REVIEW OF FACTS

The conditions I.1- II.4 above are considered to have been met. However, the petition fails to comply with conditions II.5-6 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirements of MPEP § 708.02, 5 and 6, applicant has not provided the Pre-Examination Search Document, which must encompass all of the features of the claims, giving the claims the broadest reasonable expectation, and must encompass the disclosed features that may be claimed. The limitation "DNA homolog thereof" has not been given the broadest reasonable expectation. It is also noted that the disclosure does not provide any closed definition for the tem "homolog". The pre-examination search report thus must provide a search logic that searches, for example, a DNA that shares at least 2 nucleotides as disclosed in SEQ ID NO: 27.

In view of the above deficiencies the search and the Pre-examination Support Document and IDS form, and the Examination Support Document are defective or incomplete and need to be revised or updated.

DECISION

For the above-stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Dave Nguyen, QAS of TC 1600, at (571) 272-0731.

In re Application of: Judith Deutekom	:
Serial No.: 12/198,007	: DECISION ON PETITION TO MAKE
Filed: August 25, 2008	: SPECIAL FOR NEW APPLICATION
Docket No.: 2183-7492.1US	: UNDER 37 C.F.R. § 1.102 & M.P.E.P.
	: § 708.02

This is a decision on the response to the petition decision made on the application filed August 25, 2008, to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special has been reconsidered and is now **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in an agreement that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a Final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the Final Office action, applicant must: 1) promptly file a Notice of Appeal, an Appeal Brief and Appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after Final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a Final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Dave Nguyen, TC1600 Quality Assurance Specialist, at (571) 272-0731.

Serial No.: 12/198,007
Filed: August 25, 2008
Docket No.: 2183-7492.1US

: DECISION ON PETITION TO MAKE
: SPECIAL FOR NEW APPLICATION
: UNDER 37 C.F.R. § 1.102 & M.P.E.P.
: § 708.02

In view of the Notice to file corrected application papers issued on November 26, 2008, which was mailed immediately after the mailing of the petition decision dated November 25, 2008, the following decision supercedes the previous decision sent on November 25, 2008. This is a decision on the renewed petition/response filed November 7, 20008 and the petition dated August 25, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. **at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;**

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. 103(c).

REVIEW OF FACTS

The petition fails to comply with conditions I.3. as indicated above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

A Notice to File Corrected Application Papers was mailed on November 26, 2008.

The application as filed is not eligible for the accelerated examination under 37 C.F.R. § 1.102(d) because it was not complete under 37 CFR 1.51 and in condition for examination at the time of filing. The mailing of a Notice to File Corrected Application Papers is evidence that the application was not complete and in condition for examination at the time of filing.

For the above-stated reasons, the petition is **denied.** The application will therefore be taken up by the examiner for action in its regular turn.

Any inquiry regarding this decision should be directed to Dave Nguyen, QAS TC 1600, at (571) 272-0731.

In re Application of: Judith Deutekom	:
Serial No.: 12/198,007	: DECISION ON PETITION TO MAKE
Filed: August 25, 2008	: SPECIAL FOR NEW APPLICATION
Docket No.: 2183-7492.1US	: UNDER 37 C.F.R. § 1.102 & M.P.E.P.
	: § 708.02

This is a notice to Miscellaneous Communication and Filing Receipt dated December 11, 2008, and to applicant's response and applicant's request for reconsideration of the decision mailed on December 3, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

In view of the Miscellaneous Communication and the Filing Receipt dated December 11, 2008, the petition to make this application special is thus **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in an agreement that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a Final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the Final Office action, applicant must: 1) promptly file a Notice of Appeal, an Appeal Brief and Appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after Final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a Final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Dave Nguyen, QAS TC 1600, at 571-272-0731

LEE, CHUL SOO, et al.	:	DECISION ON REQUEST TO
Application No. 12/198,015	:	PARTICIPATE IN PATENT
Filed: August 25, 2008	:	PROSECUTION HIGHWAY
Attorney Docket No.: **2080-3661**	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed August 26, 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH pilot program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kenneth Wieder at 571-272-2986.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

MAILED

OCT 27 2009

DIRECTOR OFFICE
TECHNOLOGY CENTER 2400

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed June 24, 2009 to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;

(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;

(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;

(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Hassan Kizou at 571-272-3088

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

In re Application of	:	
SONG, JAE HYUNG, et al.	:	DECISION ON REQUEST TO
Application No. 12/198,057	:	PARTICIPATE IN PATENT
Filed: August 25, 2008	:	PROSECUTION HIGHWAY
Attorney Docket No. 2080-3665	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed August 21, 2009, to make the above-identified application special.

The request and petition are **DISMISSED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition is deficient as follows:

Petitioner has not complied with item 2 above in that a copy of the actual allowable/patentable claims from the KIPO application has not been submitted. The petition also fails to include a translation of the allowable claims. In regards to item 3, since a translation of the claims has not been submitted, a determination of whether all claims in the US application sufficiently correspond to the allowable claims in the KIPO application cannot be determined.

Applicant is given a time period of **ONE MONTH or THIRTY DAYS**, whichever is longer, from the mailing date of this decision to correct the deficiencies. **NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.** If the deficiencies are not corrected with the time period given, the application will await action in its regular turn.

Any response must be submitted via EFS-web.

Telephone inquiries concerning this decision should be directed to Michael Horabik at 571-272-3068.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

Attorney Docket No. 2080-3665	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed October 12, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition now comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Michael Horabik at 571-272-3068.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

OFFICE OF PETITIONS

In re Application of	:	
Tsuchida et al.	:	DECISION ON PETITION
Application No. 12/198,059	:	TO WITHDRAW
Filed: August 25, 2008	:	FROM RECORD
Attorney Docket No. 057989.00	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed March 29, 2010.

The request is **DISMISSED** as involving a moot issue.

A review of the file record indicates that the power of attorney to the attorneys/agents associated with Customer Number 25226 was revoked by the assignee of the patent application on April 22, 2010. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is moot.

All future communications from the Office will be directed to the below-listed address until otherwise properly notified.

Telephone inquires concerning this decision should be directed to the undersigned at 571-272-3206. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

In re Application of	:	
KIM, CHUL SOO, et al.	:	DECISION ON REQUEST TO
Application No. 12/198,071	:	PARTICIPATE IN PATENT
Filed: August 25, 2008	:	PROSECUTION HIGHWAY
Attorney Docket No.: 2080-3667	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed June 17, 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Doris To at 571-272-7629.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Harry Hou, et al. :
Application No. 12/198,105 :
Filed: August 25, 2008 :
Attorney Docket No. 23722-US-187(CA :

ON PETITION

This is a decision on the petition under 37 CFR 1.137(b), filed by July 24, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to timely respond to a Notice to File Missing Parts mailed September 18, 2008. The notice set a two-month period to respond and required an English translation, replacement drawings, an executed oath or declaration and the requisite surcharge under 37 CFR 1.16(f). A Notice of Abandonment was mailed on July 20, 2009. On July 24, 2009, the present petition was filed.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of the English translation, including the statement required under 37 CFR 1.52(d); replacement drawings; an executed declaration and the $130 surcharge; (2) the petition fee of $1,620; and (3) an adequate statement of unintentional delay.

The application is being referred to the Office of Patent Application Processing (OPAP) for further processing using the declaration filed January 17, 2009.

Telephone inquires related to this decision should be directed to the undersigned at (571) 272-3204. Telephone inquiries related to processing at OPAP should be directed to their hotline at (571) 272-4000.

Application No. 12198110

Filed: August 25,2008

Attorney Docket No. RH-02CIA

:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 11-DEC-2008 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

JUNEAU PARTNERS
P.O. BOX 2516
ALEXANDRIA VA 22301

In re Application of	:	
Ed Ferencik	:	
Application No. 12/198,113	:	DECISION ON PETITION
Filed: August 25, 2008	:	PURSUANT TO
Attorney Docket No.: Ferencik-CIP	:	37 C.F.R. § 1.137(B)
Title: FLAVOR INFUSER HAVING QUICK-CONNECT HANDLE	:	

This is a decision on the petition pursuant to 37 C.F.R. § 1.137(b), filed June 10, 2009, to revive the above-identified application.

This petition pursuant to 37 C.F.R. § 1.137(b) is **GRANTED**.

The above-identified application became abandoned for failure to reply in a timely manner to the Notice of Missing Parts (notice), mailed September 11, 2008, which set a shortened statutory period for reply of two months. No response was received, and no extensions of time under the provisions of 37 C.F.R. § 1.136(a) were requested. Accordingly, the above-identified application became abandoned on November 12, 2008. A notice of abandonment was mailed on May 15, 2009.

A grantable petition pursuant to 37 C.F.R. § 1.137(b) must be accompanied by:

(1) The reply required to the outstanding Office action or notice, unless previously filed;
(2) The petition fee as set forth in 37 C.F.R. § 1.17(m);
(3) A statement that the entire delay in filing the

required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional, and;

(4) Any terminal disclaimer (and fee as set forth in 37 C.F.R. § 1.20(d)) required pursuant to paragraph (d) of this section.

With this petition, Petitioner has submitted the petition fee, the search and examination fees along with the surcharge associated with the late submission of the same, and the proper statement of unintentional delay.

The additional claim fee was not provided. It is noted that the notice indicated that this fee would not be required if the excess claims were canceled, and that an amendment was included with this petition which cancels the excess claims.

The first three requirements of Rule 1.137(b) have been met. The fourth requirement of Rule 1.137(b) is not applicable, as a terminal disclaimer is not required.[1]

The Office of Patent Application Processing (OPAP) will be notified of this decision, and jurisdiction over the application is transferred to OPAP, so that the application may receive further processing.

Petitioner will receive appropriate notifications regarding the fees owed, if any, and other information in due course from OPAP.

Petitioner may find it beneficial to view Private PAIR within a fortnight of the present decision to ensure that the revival has been acknowledged by OPAP in response to this decision. It is noted that all inquiries with regard to any failure of that change in status should be directed to OPAP where that change of status must be effected - **the Office of Petitions cannot effectuate a change of status.**

The general phone number for OPAP is 571-272-4000. Telephone inquiries **regarding this decision** should be directed to the undersigned at (571) 272-3225.

---

1 See Rule 1.137(d).

Petitioner will note that all practice before the Office should be in writing, and the action of the Office will be based exclusively on the written record in the Office. See 37 C.F.R. § 1.2. As such, Petitioner is reminded that no telephone discussion may be controlling or considered authority for any further action(s) of Petitioner.

COPY MAILED
SEP 25 2008

In re Application of	:	
TSENGAS, Steven et al.	:	
Application No. 12/198,207	:	DECISION ON PETITION
Filed: August 26, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. **OP-1642CIP**	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed August 26, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement by Steven Tsengas attesting that he is over 65 years of age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Michelle R. Eason at 571-272-4231.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

This application is being referred to the Office of Patent Application Processing. This application will be accorded "special" status when pre-examination processing is done.

WEST VALLEY CITY UT 84128-6501

In re Application of	:	
Larsen, et al.	:	DECISION REFUSING STATUS
Application No. 12/198,226	:	UNDER 37 CFR 1.47(a)
Filed: August 26, 2008	:	
Attorney Docket No. GDCAO01DD	:	

COPY MAILED
SEP 29 2008

This is in response to the petition under 37 CFR 1.47(a), filed August 26, 2008.

The petition is **DISMISSED**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR. §1.47(a) requires: (1) proof that the non-signing inventor cannot be reached, or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§115 and 116 and 37 CFR 1.175; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

Applicant lacks item (1) set forth above. The Rule 47 applicant has failed to provide sufficient evidence to establish that inventor Ostler has refused to sign, and/or that a "diligent effort " has been made to locate the non-signing inventor.

From the evidence of record, it only appears that petitioners attempted to contact the non-signing inventor via telephone on several occasions. There is no indication herein that the non-signing inventor was presented with a copy of the complete application papers for this application.

Rule 47 applicant must demonstrate with documented evidence that an inventor refuses to join in the application after having been presented with the application papers (specification, claims, drawings and oath or declaration). If the joint inventor was not presented with a copy of the application papers for this application, then the joint inventor could not attest that they have "reviewed and understand the application papers" and could not execute the declaration they were requested to sign.

If the non-signing inventor has been presented with a copy of the application papers, this fact, including the manner of the presentation of the application papers, should be set forth in a statement on renewed petition. The statement should be signed by an individual having first hand knowledge of the manner of the presentation of the application papers to the non-signing inventor.

Unless petitioners can show that a copy of the application papers was presented to the non-signing inventor, petitioners will have to mail a copy of the complete application papers (specification, claims and drawings) to the last known address of the non-signing inventor , return receipt requested. A cover letter of instructions should accompany the mailing of the application papers setting a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. **The proof of the pertinent events should be made by a statement of someone with firsthand knowledge of the events and should include documentary evidence, such as certified mail return receipt, cover letter of instructions, telegram, etc.** *See* MPEP 409.03(d).

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration **by the party to whom the refusal was made.** Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the rule 47 applicant that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted. Whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration.

OFFICE OF PETITIONS

In re Application of :
Fontaine, et al. :
Application No. 12/198,286 : ON PETITION
Filed: August 26, 2008 :
Attorney Docket No. 56526.1.1.1 :

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed February 25, 2010, to revive the above-identified application.

The petition is **GRANTED**.

This application became abandoned for failure to file a proper reply to the non-final Office action, mailed June 4, 2009, which set an extendable three month period for reply. Applicants filed a three month extension of time and reply on December 4, 2009. However, the reply was not deemed to be a *bona fide* reply to the June 4, 2009 non-final Office action. The application became abandoned on December 5, 2009. A Notice of Abandonment was mailed on March 2, 2010.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of a continuing application under 37 CFR 1.53(b); (2) the petition fee of $810.00; and (3) a proper statement of unintentional delay.

This application is being revived solely for purposes of continuity. As continuity has been established by this decision, the application is again abandoned in favor of continuing application No. 12/712,997, filed February 25, 2010.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272- 3230.

Application No.: 12/198,289	:	ON PETITION
Filed: August 26, 2008	:	
Attorney Docket No.: E-TO-000176-US3/5487-267	:	

This is a decision on the petition, filed March 4, 2010, under 37 CFR 1.313(c)(2) to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). See 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on January 29, 2010, cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries relating to this decision should be directed to the undersigned at (571) 272-3204.

The application is being referred to Technology Center AU 2883 for further processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed Information Disclosure Statement (IDS).

In re Application of	:	
Seo-Yong Cho	:	
Application No. 12/198,385	:	DECISION ON PETITION
Filed: August 26, 2008	:	TO WITHDRAW
Attorney Docket No. 091619-0207	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 20, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Mark A. Kassel on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Terri Johnson at 571-272-2991.

MAR 16 2010

In re Application of	:	
Davey	:	DECISION ON PETITION
Application No. 12/198,443	:	TO MAKE SPECIAL UNDER
Filed: 8/26/2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. **UTOTC.000072**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 2/24/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1, 4 and 5.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 435/285.200) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 4, petitioner should note that the instant petition fails to state the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice.

In regard to item 5, petitioner should note that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. While this petition contains such a statement, it is not agreed that the application on its face meets that materiality standard. Nothing in the instant application appears to support the statement given in the petition.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action in its regular turn.

In re Application of: Soojae Park et al. Serial No.: 12/198,479 Filed: August 26, 2008 Docket No.: YOR920080414US1 Title: METHOD AND APPARATUS FOR THERMALLY INDUCED TESTING OF MATERIALS UNDER TRANSIENT TEMPERATURE	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 26, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. §1.102.

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 C.F.R. §1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 C.F.R. §1.97 and §1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 C.F.R. §1.181, §1.182 or §1.183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve-month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-1606.

OFFICE OF PETITIONS

In re Application of	:	
Kok Wah Ma, et al.	:	
Application No. 12/198,482	:	ON PETITION
Filed: August 26, 2008	:	
Attorney Docket No. SG010018US3	:	

This is a decision on the petition under 37 CFR 1.137(b), filed June 23, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Corrected Application Papers, mailed September 26, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 17, 2008. The Notice of Abandonment was mailed May 20, 2009.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of a substitute specification; (2) the petition fee of $1,620; and (3) an adequate statement of unintentional delay.

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. See 37 CFR 10.18(b) and Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. 53131, 53178 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63, 103 (October 21, 1997). In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that it is not correct that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional, petitioner must notify the Office.

There is no indication that the person signing the petition was ever given a power of attorney to prosecute the application. If the person signing the petition desires to receive future correspondence regarding this application, the appropriate power of attorney document must be submitted. While a courtesy copy of this decision is being mailed to the person signing the petition, all future correspondence will be directed to the address currently of record until appropriate instructions are received.

Telephone inquiries concerning this decision should be directed to Terri Williams at (571) 272-2991.

The application file is being referred to the Office Patent Application Processing for further processing..

Application No. 12/198,495	:	UNDER 37 CFR 1.47(a)
Filed: August 26, 2008	:	
Attorney Docket No. 24543/3	:	

This is in response to the petition under 37 CFR 1.47(a), filed November 18, 2008.

The petition is **dismissed.**

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. Applicant lacks item (1) and (2) set forth above.

As to item (1), the applicable statute (35 U.S.C.§ 116) requires that a "diligent effort" have been expended in attempting to find or reach the non-signing inventor. *See* MPEP 409.03(a). The showing currently fails to demonstrate, with a documented showing, that a diligent effort was made to find or locate non-signing inventor Paul D. Parisi, such that the declaration can be accepted under 37 CFR 1.47(a). Where inability to find or locate a named inventor is alleged, a statement of facts should be submitted that fully describes the exact facts which are relied on to establish that a *diligent effort* was made to locate the inventor.

Petitioner has not demonstrated that all efforts were expended in trying to locate non-signing inventor Paul D. Parisi. In this regard, petitioner should, at the very least, conduct a search of the regional or national registry(s). The results of such search should be made in any future petition

for reconsideration. *See* MPEP 409.03(d). Additionally, petitioner should state whether he has access to inventor Paul D. Parisi's personnel records and, if so, what does inspection of the records reveal as to a current address, forwarding address, or an address of the nearest living relative? What does inspection of the phone directories for those address locations reveal? Further, the petition fails to indicate that correspondence was ever mailed unsuccessfully to the inventor's last known address. Therefore, at the very least, petitioner should mail correspondence to the inventor's last known address, return receipt and/or forwarding address requested. If a forwarding address is provided, petitioner should then mail a complete copy of the application papers (specification, claims, drawings, oath, etc.) Paul D. Parisi's address, return receipt requested, along with a cover letter of instructions which includes a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. If the papers are returned and all other attempts to locate or reach the inventor, e.g., through personnel records, co-workers, E-mail, the Internet or the telephone, etc., continue to fail, then applicant will have established that the inventor cannot be reached after diligent effort or has refused to join in the application. **The statements of facts must be signed, where at all possible, by a person having firsthand knowledge of the facts recited therein and should be accompanied by documentary evidence in support of the statement of facts.** It is important that the forthcoming communication contain statements of fact as opposed to conclusions.

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration by the party to whom the refusal was made. Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the rule 47 applicant that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted.

Whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration.

As to item (2), the signature of the second inventor Paul D. Pariai is missing on the declaration submitted with the petition on November 18, 2008.

Further correspondence with respect to this matter should be addressed as follows:

Docket: 24542
Title: METHOD, SYSTEM, AND APPARATUS FOR DISCOVERING USER AGENT DNS SETTINGS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on 03/04/09 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111 (a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, **at the time of filing, must be complete** under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention;
5. **The petition must be filed with the application.**

Any petition to make special, other than those based on applicant's health or age or the Patent Prosecution Highway (PPH) pilot program, filed on or after August 25, 2006 must meet the requirements for the revised accelerated examination program set

forth in MPEP § 708.02(a). See subsections III and IV for the requirements for filing a petition to make special based on applicant's health or age (see MPEP §708.02).

The application as filed is not eligible for the accelerated examination under 37 C.F.R. 1.102(d) because the application fails to meet the requirement at the time of filing as being complete under 37 C.F.R. 1.51 and in condition for examination, namely, conditions 3 and 5 as required according with MPEP §708.02(a) I. (A) and (C).

More specifically, petition to make special under 37 CFR 1.102(c) was filed on March 04, 2009, however, the application was filed before the petition, namely on August 26, 2008. Thus, the petition failed to be filed with application as required.

Further, the application, at the time of filing, was not complete under 37 CFR 1.51 as required, as evident by Notice to file missing parts of non-provisional application mailed September 10, 2008 by Office.

For the above-mentioned reasons, the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn.

Any inquiry regarding this decision should be directed the undersigned whose telephone number is (571) 272-3902. If attempts to reach the undersigned by telephone are unsuccessful, Kim Huynh, Quality Assurance Specialist, can be reached at (571) 272-4147.

In re Application of	:	
Scott R. Perry et al	:	DECISION GRANTING STATUS
Application No. 12/198,495	:	UNDER 37 CFR 1.47(a)
Filed: August 26, 2008	:	
Attorney Docket No. 24543/3	:	

This is a decision on the petition filed, May 8, 2009, requesting reconsideration of a decision mailed January 21, 2009, which refused to accord 37 CFR 1.47(a) status to the above-identified application.

The petition is **GRANTED.**

Petitioner has shown that the non-signing inventor R. Scott Perry has refused to join in the filing of the above-identified application.

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This matter is being referred to the Office of Patent Application Processing.

Telephone inquiries regarding this decision should be directed to Irvin Dingle at (571) 272-3210.

In re Application of
R. Scott Perry; Paul D. Parisi
Application No. 12/198,495
Filed: August 26, 2008
For: METHOD, SYSTEM, AND APPARATUS FOR DISCOVERING USER AGENT DNS SETTINGS

Dear Mr. Perry:

You are named as a joint inventor in the above identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join in the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the Irvin Dingle at (571) 272-3210. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington D.C. area).

In re Application of: HATTORI et al Serial No.: 12/198,565 Filed: August 26, 2008 Attorney Docket: JP920070156US1 Title: SELECTIVE DISPLAY OF TARGET AREAS IN A DOCUMNET	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 26, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry concerning this decision should be directed to the undersigned whose telephone number is (571) 272-3613.

Attorney Docket No. 1002-044.001	:	

This is in response to the petition under 37 CFR 1.47(a), filed August 26, 2008.

The petition is **GRANTED.**

Petitioner has shown that the non-signing inventor has constructively refused to join in the filing of the above-identified application.

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

It is noted in the petition that the addresses of the inventors were confirmed (namely nonsigning inventor Jie Tong).

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application is being referred to Technology Center AU 3673 for examination in due course.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3208.

OFFICE OF PETITIONS

In re Application of	:	
Martin Lyons and	:	DECISION ACCORDING STATUS
Robert Muir	:	UNDER 37 C.F.R. § 1.47(a)
Application No. 12/198,661	:	
Filed: August 26, 2008	:	
Atty Docket No. 19969US01	:	

This is a decision on the PETITION TO WAIVE INVENTOR SIGNATURE UNDER 37 CFR 1.47(a) filed April 7, 2009. This decision is made in light of the supplemental application data sheet filed October 27, 2009 in response to the express request by the undersigned.

The petition is **GRANTED**.

The above-identified application was filed on August 26, 2008, with an application data sheet but without an executed oath or declaration. Accordingly, on September 10, 2008, the Office sent a "Notice to File Missing Parts of Application," requiring an executed oath or declaration and the surcharge for its late filing. This Notice set a two-month time limit for reply with extensions of time obtainable under § 1.136(a).

In response, applicant filed the instant petition (and late surcharge). This petition was made timely by an accompanying petition and extension of time for response within the fifth month. The petition includes a declaration executed by joint inventor Robert Muir on behalf of himself and on behalf of non-signing joint inventor Martin Lyons. Applicant asserts that status under 1.47(a) is proper because joint inventor Lyon refuses to join in the application. By statements on petition of patent practitioner Lawrence Jarvis and assignee counsel

Kieran Power, with supporting documentary evidence, applicant shows that inventor Lyons has by his conduct in not responding to the request to sign the declaration after having been presented with the application papers inventor Lyons has refused to join in the application. The petition includes evidence in the form of a signed receipt that the application papers were delivered to the last known address of inventor Lyons by registered Australian post. It is stated that inventor Lyons has not responded to the request to sign the application papers. It is further noted that prior to the presentation, inventor Lyons expressed his intent not to join in the application. In view thereof, it is concluded that applicant has made an adequate showing of inventor Lyon's refusal to join in the application.

The declaration filed April 7, 2009, has been reviewed and found in compliance with § 1.63. The petition fee, which is $200 not $130, has been charged to the Deposit Account, as authorized. The petition includes the last known address of non-signing inventor Lyon.

It is noted that each applicant's mailing or post office address is required to be supplied on the oath or declaration, if not stated in an application data sheet. Applicant's mailing address means that address at which he or she customarily receives his or her mail. Either applicant's home or business address is acceptable as the mailing address. The object of requiring each applicant's mailing address is to enable the Office to communicate directly with the applicant if desired; hence, the address of the attorney with instruction to send communications to applicant in care of the attorney is not sufficient. In this instance, applicant has provided the same address for both inventors, the business address of the assignee. Given that at least one of the inventors no longer works at the assignee company, it is unlikely that this is the address were the inventor customarily receives mail.

Applicant has cured this deficiency. In response to an October 26, 2009 telephone request from the undersigned, on October 27, 2009, attorney for applicant provided a supplemental application data sheet. This ADS sets forth the mailing addresses of both inventors.

All requirements of 37 CFR 1.47(a) have been met.

In view thereof, this application is hereby accorded Rule 1.47(a) status.

As provided in new Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

Telephone inquiries related to this decision should be directed to the undersigned at (571) 272-3219.

Dear Mr. Lyons:

You are named as a joint inventor in the above-identified United States patent application filed under the provisions of 35 U.S.C. 116 (United States Code) and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63. However, no action on your part is required for this patent to issue with you as a named inventor.

Telephone inquiries regarding this communication should be directed to Petitions Attorney Nancy Johnson at (571) 272-3219.

OFFICE OF PETITIONS

In re Application of	:	
Fachinger, et al.	:	
Application No. 12/198,721	:	ON PETITION
Deposited: August 26, 2008	:	
Attorney Docket No. 10-0100	:	

This is in response to the "PETITION UNDER 37 CFR 1.57(a)," filed October 30, 2008, requesting that the above-referenced application be accorded a filing date of August 26, 2008. This petition is being treated pursuant to 37 CFR 1.53(e)(2)[1].

Application papers in the above-identified application were deposited on August 26, 2008. However, on October 7, 2008, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings. In response, applicants timely filed this petition. Applicants request that the application be amended to include the inadvertently omitted drawings on the basis that the application as filed contained a prior benefit claim under 37 CFR 1.55 or 1.78.

Petitioner's arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one method claim. MPEP 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in MPEP 601.01(g) under the section entitled, "Application Entitled to a Filing Date," applicant

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [i]f an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application[.]

Please note that no petition is required and that the amendment must comply with 37 CFR 1.57(a) and 37 CFR 1.121. See MPEP § 201.17. Any amendment to include the inadvertently omitted drawing(s) will be considered by the examiner.

To the extent the instant petition requests a filing date of August 26, 2008 with no drawings present in the application, the petition is **GRANTED**.

Given the basis for granting this petition, petitioners are entitled to a refund of the previously submitted petition fee of $400.00. Petitioners may request a refund by writing to the Finance Office, Refund Section. A copy of this decision should accompany any request for refund.

The correspondence address indicated on the petition differs from that contained in the record. The instant decision is being dually mailed. However, all future correspondence concerning this application will be directed to the correspondence address contained in the record until such time as appropriate instruction to the contrary is received.

Pursuant to this decision, the application will be referred to Office of Patent Application Processing for:

- **correction of the filing date to** August 26, 2008;
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **for issuance of a filing receipt.**

Entry of the amendment filed October 30, 2008 will be determined by the examiner.

Telephone inquiries concerning this matter may be directed to Alesia M. Brown, Petitions Attorney at (571) 272-3205.

In re Application of	:	
Seung Bum Park	:	
Application No. 12/198,751	:	DECISION ON PETITION
Filed: August 26, 2008	:	TO WITHDRAW
Attorney Docket No. 091619-0162	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 20, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Mark A. Kassel on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Terri Johnson at 571-272-2991.

SEP 18 2009

OFFICE OF PETITIONS

In re Application of	:	
Robert Michael Branger	:	
Application No. 12/198,773	:	ON PETITION
Filed: August 26, 2008	:	
Attorney Docket No.	:	

This is in response to the communication, filed July 2, 2009, to revive the above-identified application, which is being treated as a petition to withdraw the holding of abandonment.

The petition is **DISMISSED**.

Any request for reconsideration of this decision should be submitted within two (2) months from the mail date of this decision and be entitled "Renewed Petition to Withdraw the Holding of Abandonment under 37 CFR 1.181." *See* 37 CFR 1.181(f).

On October 14, 2008, the Office mailed a Notice to File Corrected Application Papers (Notice), which set a two month period to reply. The application became abandoned on December 15, 2008, for failure to submit a timely response to the Notice. On June 18, 2009, the Office mailed a Notice of Abandonment.

In the present petition, petitioner requests that the Office withdraw the holding of abandonment due to nonreceipt of the October 14, 2008 Notice.

DISCUSSION OF PETITION TO WITHDRAW THE HOLDING OF ABANDONMENT

A review of the record indicates no irregularity in the mailing of the October 14, 2008 Notice, and in the absence of any irregularity in the mailing, there is a strong presumption that the Office action was properly mailed to the address of record at that time.

As petitioner is a pro-se applicant, the Office understands that petitioner may not keep a formal docket record system for his correspondence. Nevertheless, petitioner must provide some sort of showing explaining the manner in which petitioner receives mail from the USPTO, maintains files for patent matters, and treats mail received for such matter. Specifically, petitioner must explain the system for keeping track of patent matters - where petitioner keeps the correspondence; where he writes down due dates; how he knows replies are due, etc. In essence,

petitioner must explain how he reminds himself of response due dates and show that the due date for the Notice of October 14, 2008, was not entered into that system. Petitioner should include any available documentary evidence of the mail received, covering a reasonable period after October 14, 2008, to demonstrate nonreceipt of the Notice. Petitioner should also provide the USPTO with copies of any records or other methods, which could serve as a reminder of the due date for a response to an Office action, and where petitioner would have entered the receipt date of the Office action had petitioner received it (for example, a copy of the outside of a file or a calendar maintained by petitioner), if these documents are available. Furthermore, petitioner must include a statement from himself, or any other person at the address who may have handled the Notice, indicating that a search was conducted of the location where the correspondence from the USPTO would have been kept; however, the Notice was not found. Lastly, petitioner must state that he was, in fact, residing at the correspondence address of record for a reasonable time after October 14, 2008; the period when he would have received the Notice.

In the present petition, petitioner did not submit any statements, documentary evidence, or an explanation of his method for tracking due dates for filing responses to communications from the USPTO to show he did not receive the Notice. Therefore, the petition to withdraw the holding of abandonment is **dismissed**. A copy of the October 14, 2008 Notice accompanies this decision for petitioner's convenience.

ALTERNATIVE VENUE

Petitioner is strongly encouraged to consider filing a petition under 37 CFR 1.137(b) to revive an unintentionally abandoned application instead of filing a renewed petition under 37 CFR 1.181 or a petition under 37 CFR 1.137(a).

A grantable petition pursuant to 37 CFR 1.137(b) must be accompanied by:

> (1) The reply required to the outstanding Office action or notice, unless previously filed. In nonprovisional utility application abandoned for failure to respond to a non-final Office action, the required reply may be met by filing either (A) an argument or amendment under 37 CFR 1.111 or (B) a continuing application under 37 CFR 1.53(b).
>
> (2) The petition fee as set forth in 37 CFR 1.17(m), **$810.00 for a small entity**;
>
> (3) A statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition was unintentional. The Director may require additional information where there is a question whether the delay was unintentional.

A form for filing a petition to revive an unintentionally abandoned application accompanies this decision for petitioner's convenience. If petitioner desires to file a petition under 37 CFR 1.137(b) instead of filing a request for reconsideration, petitioner must complete the enclosed petition form (PTO/SB/64) and pay the $810.00 petition fee.

Petitioner may wish to consider hiring a registered patent attorney or agent to assist in the prosecution of this application. Additionally, petitioner is encouraged to contact the Inventors Assistance Center (IAC) by telephone at 800-786-9199 or 571-272-1000, Monday through

Friday from 8:30 AM to 5:30 PM (EST). The IAC provides patent information and services to the public and is staffed by former Supervisory Patent Examiners and experienced Primary Examiners who answer general questions concerning patent examining policy and procedure.

Further correspondence with respect to this matter should be addressed as follows:

NOTICE TO FILE CORRECTED APPLICATION PAPERS

Filing Date Granted

An application number and filing date have been accorded to this application. The application is informal since it does not comply with the regulations for the reason(s) indicated below. Applicant is given TWO MONTHS from the date of this Notice within which to correct the informalities indicated below. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

The required item(s) identified below must be timely submitted to avoid abandonment:

- Replacement claim(s) commencing on a separate sheet in compliance with 37 CFR 1.75(h) and 1.121 is required. Claims must be consecutively numbered and the same claim number cannot be used for more than one claim. See 37 CFR 1.126.

Applicant is cautioned that correction of the above items may cause the specification and drawings page count to exceed 100 pages. If the specification and drawings exceed 100 pages, applicant will need to submit the required application size fee.

Replies should be mailed to:

OFFICE OF PETITIONS

ON PETITION

In re Application of	:	
Robert Michael Branger	:	
Application No. 12/198,773	:	
Filed: August 26, 2008	:	
Attorney Docket No.	:	

This is a decision on the petition under 37 CFR 1.137(b), filed October 13, 2009, to revive the above-identified application.

The petition is **GRANTED.**

The above-identified application became abandoned for failure to reply in a timely manner to the Notice To File Corrected Application Papers (Notice) mailed October 14, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extension of time under the provisions of 37 CFR 1.136(a) was obtained. Accordingly, the above-identified application became abandoned on December 15, 2008.

Telephone inquiries concerning this decision should be directed to Irvin Dingle at (571) 272-3210.

This matter is being referred to the Office of Patent Application Processing.

MINNEAPOLIS MN 55402-2100

OCT 15 2008

In re Application of: BAKER, RONALD et al. Application No.: 12/198,789 Filed: August 26, 2008 Title: MAIL FLAT ASSEMBLY FOR AUTOMATED PROCESSING AND METHOD OF DISTRIBUTING PROMOTIONAL ITEMS USING SAME	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 26, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;
2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. 103(c).

REVIEW OF FACTS

The conditions I: 1-4, II: 1-5, 5.1, 5.3, 6, 6.1, 6.4, and 6.6 above are considered to have been met. However, the petition fails to comply with conditions II: 5.2, 6.2, 6.3, and 6.5 above. Therefore,

the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Discussion

When referring to "the petition" herein below, the received papers under consideration include the four page PTO/SB/28 form "Petition to Make Special Under Accelerated Examination Program", the "pre-examination search document" (PESD) including pages 1-4; the "accelerated examination support document" (AESD) comprising pages 1-212, and an Information Disclosure Statement (IDS).

Regarding the requirements of section II element 5.2 outlined above, it appears the search outlined in the petition omitted a critical search area by not searching in the following class/subclasses combinations:

206/216, 223, 575, 579, 232, 307, 308.1, 312, 313, 371, 466, 471, 484, 495;
and
229/92.8.

Regarding the requirements of section II element 6.2 outlined above, the petition fails to identify all of the limitations in the application claims that are disclosed in each of the reference(s) and where the limitation is disclosed in each of the cited reference. As stated in the policy published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), for each reference cited, the examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. The policy statement does not caveat "the independent claims", nor does it allow for grouping and general discussions. A grantable petition must delineate every limitation of every claim and identify where the equivalent limitation is disclosed in each piece of prior art cited on the IDS. As is published on www.uspto.gov/web/patents/accelerated/ in "Guidelines for Applicants under the new accelerated examination procedures"):

> *For each reference cited, the accelerated examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. Applicants should specify where in each of the cited references the particular claim limitations are found. This process is intended to be analogous to the analysis an examiner uses when locating a relevant prior art reference and then determining whether the reference contains the claimed limitation. For each claimed limitation, the examiner would consider the disclosure of the reference and all reasonable portions in the reference where the limitation is shown. When preparing an Office Action, the examiner would correlate the limitation to the portion of reference which best characterizes the limitation. This part of the AESD is not intended to be an exhaustive listing of every conceivable subjective interpretation of how a claim limitation may read on the reference. Applicants should point out what are considered to be the relevant representations of the limitation in the reference. A limitation may be found in more than one portion of the reference and should be pointed out, yet the intention is not to have applicants point out every conceivable interpretation. The USPTO will adopt a rule of reason when evaluating this*

portion of the AESD. Unless the representation is so deficient that it would materially effect examination of the application (e.g., numerous instances where the limitations are not shown where applicant states they are), the representation will be deemed to be sufficient for this part of the AESD.

Petitioner's submission is not specific enough. Petitioner points out some limitations of some of the claims and provides direction to areas of the prior art where the corresponding limitation may be found. Petitioner does not address each discrete limitation (i.e., each single limitation, NOT multiple limitations bundled together) and state where it is (or state that it is not) found in each one of the most closely related prior art. For example, on p. 115 of the AESD, Petitioner states with regard to Kalvelage that a mail flat assembly is not disclosed or suggested. Furthermore, according to the Petitioner, Kalvelage's invention does not have a suggested length, width, and a thickness, nor can it be "selectively shiftable between a generally planar relaxed condition and a nonplanar stressed condition." Petitioner's attention is drawn to Kalvelage's col. 4 l. 30 teaching an item designed in response to USP guidelines, made of (col. 4, l. 37) polyethylene (1.5 mils) and PET (15 mils) and therefore elastically bendable, and having a length, width and thickness as shown in Fig. 1. The requirement of section II element 6.2 can be satisfied by listing verbatim ("copy and paste") all the presently filed claims (i.e., the claims of the instant application) and by indicating where each discrete limitation (without bundling limitations to the extent possible) of each one of said presently filed claims is taught (or is not taught) in each one of the most closely related references that is cited, by specifically indicating the element number and/or the relevant page/paragraph and line number(s), or by indicating "(not disclosed)" where appropriate - in order to ensure that no limitation was left out inadvertently. Claim recitations must be complete. Statements such as "Limitation II(b) – (not disclosed)", i.e., recitations that do not spell out the relevant limitations should be avoided. This one-to-one mapping should be performed individually, with regard to each one of the most closely related prior art that is cited, one reference at a time. Applicant's attention is drawn to the fact that the requirement of this element calls for a straight mapping of each single limitation unto the prior art. Section II element 6.2 is not the proper venue to imply patentability by bundling limitations and concluding that the combination is not disclosed. Patentability arguments should be made only in response to the requirement of section II element 6.3.

With respect to the requirements of section II element 6.3 outlined above, the petition fails to provide a detailed explanation of how each one of the claims is patentable over (each of) the reference(s) with particularity required by 37 CFR 1.111(b) and (c). Petitioners should be specific in their explanation and include the identification of specific claim limitations that support their position, where appropriate. Petitioners must distinguish each claim from each piece of prior art cited. General statements that the claims are neither anticipated nor rendered obvious by the cited references or that the references are not properly combinable will not be acceptable. The Office cannot infer or guess what petitioner believes the differences between the claims and the teachings of the prior art to be. Petitioner's statements must also be consistent and must be related to the claim language. In the instant petition for example, on p. 190 of the AESD, Petitioner is reciting a claim recitation extending eight lines arguing that the entire eight lines define over Kalvelage. For these reasons, i.e., lack of a detailed explanation, the petition does not meet the requirement of section II, element 6.3. The requirement of section II element 6.3 can be satisfied by indicating for each one of the presently filed claims (i.e., the claims of the

instant application) which specific i.e., discrete limitation(s) in each one of said presently filed claims define(s) over each one of the most closely related references that is cited. With regard to each dependent claim, there should be an unequivocal statement whether the patentability of each dependent claim is predicated solely on that of the claim from which it depends (e.g., "Dependent claim X is patentable solely because of the limitations of the claims from which it depends" - will suffice), or Applicant should provide a detailed explanation of patentability specific to that particular claim (only if the claim recites new limitations that further define over the prior art). This patentability showing should be performed individually, with regard to each one of the most closely related prior art that is cited, one reference at a time. Patentability arguments must specifically spell out the relevant limitation(s); prior art patents can be referred to by the last name of the first inventor. Statements such as "Reference A does not teach limitation II(b)" must be avoided. In addition, Petitioner must make an non-obviousness analysis under 35 USC 103(a), for example (but not limited to), design of the claimed invention in response to a prior art postal service standard.

Regarding the requirements of section II element 6.5 outlined above, the requirements of this section are not met because lack of specificity. A grantable petition requires petitioner to provide a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. The instant petition only identifies figures and portions of text with respect to bundled claims limitations, as opposed to the disclosure of the required claim limitations, addressed individually for each limitation in each claim. For example, extensive reference is made throughout this element to the entire Appendix A which extends over 15 pages. The requirement of section II element 6.5 can be satisfied by listing verbatim all the presently filed claims (by "copy and paste") and by indicating where the instant application (and separately each one of the priority documents – if applicable) teaches each discrete limitation (without bundling limitations to the extent possible) in each one of said presently filed claims, by indicating the element number and/or the relevant page and line numbers. If the application(s) for which domestic priority is claimed is/are identical to the present application, a statement to this effect in lieu to the required mapping is acceptable. Applicant's attention is also drawn to the requirements relevant under 35 U.S.C 112, 6th paragraph, listed above. Should this requirement not apply to the present application, Applicant should make a statement in this regard.

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address all of the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal

of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Programs Examiner, at (571) 272-4828. In his absence, an inquiry can be directed to J. Harrison, Special Program Examiner, at 571 272-4449.

In re Application of: BAKER, RONALD et al. Application No.: 12/198789 Filed: August 26, 2008 Title: MAIL FLAT ASSEMBLY FOR AUTOMATED PROCESSING AND METHOD OF DISTRIBUTING PROMOTIONAL ITEMS USING SAME	: : : : : :	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on November 17, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Program Examiner, at (571) 272-4828.

In re Application of	**: DECISION ON REQUEST TO**
Kenji Hasegawa	**: PARTICIPATE IN THE PATENT**
Application No.: 12/198,794	**: PROSECUTION HIGHWAY**
Filed: 26 August 2008	**: PROGRAM AND PETITION**
Attorney Docket No.: 8073P443	**: TO MAKE SPECIAL UNDER**
For: MULTILAYER PRINTED WIRING BOARD, METHOD FOR MANUFACTURING BUILDUP PRINTED WIRING BOARD, AND ELECTRONIC APPARATUS	**: 37 CFR 1.102(d)**

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed 03 June 2009, to make the above-identified application special.

The request and petition are **DISMISSED**.

Discussion

A grantable request to participate in the PPH pilot program and petition to make special require:

1. The U.S. application is
   (a) a Paris Convention application which either
      (i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
      (ii) validly claims priority to a PCT application that contains no priority claims,

or

   (b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
      (i) validly claims priority to an application filed in the JPO, or
      (ii) validly claims priority to a PCT application that contains no priority claims, or
      (iii) contains no priority claim,

or

   (c) a so-called bypass application filed under 35 U.S.C. 111(a) which

validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application

(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

2. Applicant must submit a copy of:
    a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
    b. An English translation of the allowable/patentable claim(s) and
    c. A statement that the English translation is accurate;
3. Applicant must:
    a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
    b. Submit a claims correspondence table in English;
4. Examination of the U.S. application has not begun;
5. Applicant must submit:
    a. Documentation of prior office action:
        i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
        ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
        iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

    Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
    b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above
    c. A statement that the English translation is accurate;
6. Applicant must submit:
    a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
    b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

7. The required petition fee under 37 CFR 1.17(h).

This request to participate in the PPH program and petition is assessed as follows:

Conditions 1-4 AND 6-7 above are considered to have been met. However the request to participate in the PPH program fails to meet condition 5.

Specifically, while applicant has met condition 5(a) by filing a copy of the JPO office action dated January 13, 2009, and has included a statement certifying said action's English translation, as required by condition 5(c), no such English translation is currently present in the application file. As such, applicant has failed to meet condition 5(b).

Applicant is given a time period of **ONE MONTH or THIRTY DAYS**, whichever is longer, from the mailing date of this decision to correct the deficiencies. **NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.** If the deficiencies are not corrected with the time period given, the application will await action in its regular turn.

Response must be filed via the Electronic Filing System (EFS) with the Document Code PPH.PET.652.

Telephone inquiries concerning this decision should be directed to Darren Schuberg at 571 272 2044.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc.index.html.

This application is being forwarded to the examiner for action on the merits commensurate with this decision.

In re Application of
Kenji Hasegawa
Application No.: 12/198,794
Filed: 26 August 2008
Attorney Docket No.: 8073P443
For: MULTILAYER PRINTED WIRING BOARD, METHOD FOR MANUFACTURING BUILDUP PRINTED WIRING BOARD, AND ELECTRONIC APPARATUS

: DECISION ON REQUEST TO
: PARTICIPATE IN THE PATENT
: PROSECUTION HIGHWAY
: PROGRAM AND PETITION
: TO MAKE SPECIAL UNDER
: 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed 03 June 2009, supplemented on 05 August 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

Discussion

A grantable request to participate in the PPH program and petition to make special require:

1. The U.S. application is
   (a) a Paris Convention application which either
      (i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
      (ii) validly claims priority to a PCT application that contains no priority claims,

or

   (b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
      (i) validly claims priority to an application filed in the JPO, or
      (ii) validly claims priority to a PCT application that contains no priority claims, or
      (iii) contains no priority claim,

or

   (c) a so-called bypass application filed under 35 U.S.C. 111(a) which

validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application

(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

2. Applicant must submit a copy of:
    a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
    b. An English translation of the allowable/patentable claim(s) and
    c. A statement that the English translation is accurate;
3. Applicant must:
    a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
    b. Submit a claims correspondence table in English;
4. Examination of the U.S. application has not begun;
5. Applicant must submit:
    a. Documentation of prior office action:
        i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
        ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
        iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

        Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
    b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above
    c. A statement that the English translation is accurate;
6. Applicant must submit:
    a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
    b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

7. The required petition fee under 37 CFR 1.17(h).

This request to participate in the PPH program and petition is assessed as follows:

Conditions 1-7 above are considered to have now been met. Accordingly, this application has been granted "special" status.

Telephone inquiries concerning this decision should be directed to Darren Schuberg at 571 272 2044.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc.index.html.

This application is being forwarded to the examiner for action on the merits commensurate with this decision.

Filed: August 26, 2008	:	
Attorney Docket No.: 00939B-129504US	:	

This is a decision on the petition, filed February 10, 2010, under 37 CFR 1.313(c)(2) to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). See 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on January 4, 2010, cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries relating to this decision should be directed to the undersigned at (571) 272-3204.

The application is being referred to Technology Center AU 2819 for further processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed Information Disclosure Statement (IDS).

DECISION GRANTING PETITION UNDER 37 CFR 1.138(d)

The declaration of express abandonment is recognized

This is in response to the petition under 37 CFR 1.138(d), requesting for a refund of any previously paid search fee and excess claims fee in the above-identified application.

The petition is granted.

The express abandonment is recognized. Any previously paid search fee and excess claims fee are hereby refunded.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

Application No. 12199015

Filed:

Attorney Docket No. 2750-007

:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 27-AUG-2008 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Applicant	: Clarence D. Deal	: DECISION ON REQUEST FOR
Patent Number	: 7582982	: RECALCULATION of PATENT
Issue Date	: 09/01/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/199,015	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 08/27/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

Toshiaki MURAKAMI et al
Application No. 12/199,033
Filed: August 27, 2008
Attorney Docket No.: 331133US2
For: BRUSHLESS MOTOR AND ELECTRIC POWER STEERING APPARATUS HAVING EXPOSED BUS BAR

DECISION ON PETITION UNDER 37 CFR §1.181

This is a decision on applicant's petition under 37 CFR 1.181 filed January 12, 2010 to invoke supervisory review of the Office action mailed May 14, 2009.

The petition is **GRANTED.**

The record reflects that

- On May 14, 2009 a non-final Office action was mailed setting forth an election of species requirement.
- On June 4, 2009 applicant filed a response to the election of species requirement, electing species A (Claims 2-7), with traverse.
- On August 6, 2009 a non-final Office action was mailed acknowledging applicant's election, affirming the election requirement, withdrawing claims 8-16 from consideration, objecting to the title and claim 8, rejecting claims 1-3 and 6 under 35 U.S.C. 102, and rejecting claims 4-5 and 7 under 35 U.S.C. 103.
- On September 18, 2009 applicant filed an amendment amending the title and claims 1, 5-6, and 8, canceling claim 3, and traversing again the election of species requirement.
- On November 30, 2009 a final Office action was mailed affirming the election requirement, withdrawing claims 8-16 from consideration, rejecting claims 5-7 under 35 U.S.C. 112, second paragraph, and rejecting claims 1-2 and 4-7 under 35 U.S.C. 103.

Applicant argues that, while the claims are being treated by examiner as separate species, none of the claims is directed to a distinct species. Specifically, Fig. 1 is an overall view of a device having the motor; Fig. 2 is a view of the motor; and Figs 3-4 are additional views of the motor of Fig 2 (see p. 3, beginning at line 10). Figs 5A-5B are views of the same "first insulator." Figs. 6A-6B are views of the same bus bar. Fig. 7 shows the coil connections. None of the figures show an alternative embodiment.

Applicant further argues that the claimed invention is directed to a brushless motor in which the bus bar is exposed from the insulator. Elected Claim 1 is an independent claim reciting a three phase brushless motor having a bus bar. The withdrawn dependent Claim 8 is a dependent claim that depends from Claim 1 and further recites features of the bus bar (e.g., extension 76 and holder 77) that are shown in Fig. 6A. These features are not exclusive to an alternative embodiment or species. The same is true for the other withdrawn claims.

A thorough review of the record indicates that the application drawings are directed to only one illustrated embodiment of a motor. As set forth in MPEP 806.04(e) "claims are never species." Rather, species are always the specifically different embodiments. Therefore, the election of species requirement set forth in the Office action of May 14, 2009 is improper.

For the reasons above, the election of species requirement set forth in the May 14, 2009 Office action is hereby withdrawn.

The application will be forwarded to the Examiner for further action on the merits consistent with the decision herein.

Telephone inquires should be directed to Quyen Leung at (571) 272-8188.

Ching-Horing Chang
Application No. 12/199,140
Filed: August 27, 2008
Attorney Docket No. 250359-1010

DECISION ON PETITION

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed December 21, 2009, to revive the above-identified application.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Non-provisional Application (Notice), mailed September 11, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 12, 2008.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of a reply, (2) the petition fee of $810, and (3) a proper statement of unintentional delay.

In view of the above, the petition is **GRANTED**.

Telephone inquiries concerning this decision should be directed to undersigned at (571) 272-1642. All other inquiries concerning this application should be directed to the Office of Patent Application Processing at their hotline 571-272-4000.

This application is being referred back to the Office of Patent Application Processing for pre-examination processing of the reply received December 21, 2009.

Application No. 12/199,175	:	DECISION ON PETITION
Filed: August 27, 2008	:	TO WITHDRAW
Attorney Docket No. 091619-0222	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 20, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Mark A. Kassel on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Terri Johnson at 571-272-2991.

In re Application of:	:	
Ramon A. Caamano et al.		:
Application No. 12/199,184	:	PETITION DECISION
Filed: August 27, 2008	:	
Attorney Docket No.: GRTSTF.046C1	:	

This is a decision on the petition under 37 CFR 1.47(a) filed November 25, 2009, which is being treated as a petition under 37 CFR 1.183 to waive the requirements of 37 CFR 1.64.

The petition is **dismissed**.

An originally named inventor, Nicholas Anderson, who signed the originally filed declaration, is allegedly refusing to sign the replacement declaration. Petitions under 37 CFR 1.47 are only applicable to the initial execution of an original oath or declaration and are not applicable to supplemental oaths or declarations by the originally signing inventor. In such circumstances, the USPTO will consider a petition under 37 CFR 1.183 requesting waiver or the requirements of 37 CFR 1.64 that each of the actual inventors execute the supplemental oath or declaration.

MPEP 603 states in part:

> When an inventor who executed the original declaration is refusing or cannot be found to execute a required supplemental declaration, the requirement for that inventor to sign the supplemental declaration may be suspended or waived in accordance with 37 CFR 1.183. All available joint inventor(s) must sign the supplemental declaration on behalf of themselves, if appropriate, and on behalf of the nonsigning inventor. See MPEP § 409.03(a).

In discussing waiver requirements under 37 CFR 1.183, the Office is guided by proof similar to that required when an applicant is unavailable or refuses to sign. Petitioner indicates that the non-signing inventor Anderson refuses to sign the replacement declaration.

MPEP 409.03(d) (II) states in part:

> Where a refusal of the inventor to sign the application papers is alleged, the circumstances of the presentation of the application papers and of the refusal must be

> specified in a statement of facts by the person who presented the inventor with the application papers and/or to whom the refusal was made. Statements by a party not present when an oral refusal is made will not be accepted.
> Proof that a bona fide attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature, but the inventor refused to accept delivery of the papers or expressly stated that the application papers should not be sent, may be sufficient.

The applicable statute (35 U.S.C.§ 116) requires that a "diligent effort" have been expended in attempting to find or reach the non-signing inventor. The showing currently fails to demonstrate, with a documented showing, that a diligent effort was made to find or locate non-signing inventor Anderson. Where inability to find or locate a named inventor(s) is alleged, a statement of facts should be submitted that fully describes the exact facts which are relied on to establish that a diligent effort was made to locate the inventor.

Petitioner has not demonstrated that all efforts were expended in trying to locate inventor non-signing Anderson. In this regard, petitioner should, at the very least, conduct a search of the regional or national registry(s). The results of such search should be made in any future petition for reconsideration. Additionally, petitioner should state whether he has access to inventor Anderson's personnel records and, if so, what does inspection of the records reveal as to a current address, forwarding address, or an address of the nearest living relative? What does inspection of the phone directories for those address locations reveal? The statements of facts must be signed, where at all possible, by a person having firsthand knowledge of the facts recited therein and should be accompanied by documentary evidence in support of the statement of facts. It is important that the forthcoming communication contain statements of fact as opposed to conclusions.

For the reasons presented above, the petition is dismissed.

Further correspondence with respect to this matter should be addressed as follows:

Application No. 12/199,206	:	TO WITHDRAW
Filed: August 27, 2008	:	FROM RECORD
Attorney Docket No. 70465.00082	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed on November 5, 2009.

The request is **NOT APPROVED**.

The Request for Withdrawal as Attorney or Agent and Change of Correspondence Address submitted herein cannot be approved at this time since the Office no longer accepts address changes to a new practitioner or law firm filed with requests under 37 C.F.R. § 1.36(b).

The Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *who properly became of record under 37 CFR 3.71*, or, if no assignee of the entire interest has properly been made of record, the most current address information provided for the first named inventor. 37 CFR 3.71(c) states:

> *An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.*

All future communications from the Office will be directed to above-listed address until otherwise properly notified by the applicant or a proper change of correspondence address have been submitted.

There are no outstanding Office actions that require a reply from the applicant.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-6059. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed June 15, 2009.

The request is **NOT APPROVED** as moot.

A review of the file record indicates that the power of attorney to Brinks Hofer Gilson & Lione has been revoked by the assignee of the patent application on July 6, 2009. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to Terri Williams at 571-272-2991.

In re Application of	:	
KWON, Sunghoon et a.	:	
Application No. 12/199,351	:	DECISION ON PETITION
Filed: August 27, 2008	:	TO WITHDRAW
Attorney Docket No. **091619-0188**	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 20, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request was signed by Mark A. Kassel on behalf of all attorneys of record who are associated with customer No. 23524. All attorneys/agents associated with the Customer Number 00000 have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence address of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor.

There are no outstanding office actions at this time.

Telephone inquiries concerning this decision should be directed to Michelle R. Eason at 571-272-4231.

Attorney Docket No. **3722/0544PUS1** :

NOTICE UNDER 37 CFR 1.28(C)

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28. On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. **See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).**

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. **1098 Off. Gaz. Pat. Office 502 (January 3, 1989).** Therefore, nothing in this Notice is intended to imply that an investigation was done.

Your fee deficiency submission under 37 CFR 1.28 is hereby **ACCEPTED**.

This application is no longer entitled to small entity status. Accordingly, all future fees paid in this application must be paid at the large entity rate.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-7253.

In re Application of	:	
Joel K. SOPPET, et al	:	
Application No. 12/199,431	:	DECISION ON PETITION
Filed: August 27, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. 101671.0003US1	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed August 27, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement by Applicant Charles Soppet. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6735.

This application is being referred back to the Office of Patent Application Processing for processing. This application will be accorded "special" status when pre-examination processing is done.

In re Application of	:	
Ruediger Ganz	:	
Application No. 12/199,436	:	DECISION ON PETITION
Filed: August 27, 2008	:	
Attorney Docket No. TI-61463	:	

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed June 19, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application (Notice), mailed September 15, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 16, 2008. The Notice of Abandonment was mailed May 21, 2009.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of a properly signed oath, replacement drawings and $130 surcharge, (2) the petition fee of $1,620, and (3) a proper statement of unintentional delay.

Telephone inquiries concerning this decision should be directed to Terri Johnson at (571) 272-2991.

This application is being referred to the Office of Patent Application Processing for appropriate action on the reply received.

Application No. 12/199,476
Filed: August 27, 2008
Attorney Docket No. TI-61467

ON PETITION

This is a decision on the petition under 37 CFR 1.137(b), on March 18, 2009, to revive the above-identified application.

The application became abandoned for failure to respond to the Notice to File Missing Parts of Nonprovisional Application mailed on September 11, 2008.

The petition satisfies the requirements of 37 CFR 1.137(b), in that, petitioner has supplied (1) an executed oath/declaration, one sheet of drawings containing Figures 1-3 and a $130 surcharge; (2) the petition fee of $1,620; and (3) a proper statement of unintentional delay. Therefore, the petition is **GRANTED**.

This application file is being referred to the Office of Patent Application Processing for further processing in accordance with this decision.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3226.

Mail Date: 04/20/2010

Applicant	: Yoshinori Saito	: DECISION ON REQUEST FOR
Patent Number	: 7621980	: RECALCULATION of PATENT
Issue Date	: 11/24/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/199,521	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 08/27/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☑ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☐ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

In re Application of	:	
Sunghoon Kwon et al.	:	
Application No. 12/199,606	:	DECISION ON PETITION
Filed: August 27, 2008	:	TO WITHDRAW
Attorney Docket No. 091619-0195	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 19, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Mark. A. Kassel on behalf of all attorneys/agents associated with customer number 23524. All attorneys/agents associated with customer number 23524 have been withdrawn.

Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R. 3.71. Accordingly, all correspondence will be mailed to the address of the first signing inventor. A courtesy copy of this decision will be mailed to the address noted on the request to withdraw. If the attorneys associated with this firm desire to receive future correspondence regarding this application, the proper power of attorney documents and a Statement under 37 CFR 3.73(b) must be submitted.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at 571-272-4618.

Applicant	: Chrestos T. Pyrros	: DECISION ON REQUEST FOR
Patent Number	: 7628643	: RECALCULATION of PATENT
Issue Date	: 12/08/2009	: TERM ADJUSTMENT IN VIEW
Application No	: 12/199,644	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 08/27/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

Application No. 12/199,705	:	DECISION ON PETITION
Filed: August 27, 2008	:	TO WITHDRAW
Attorney Docket No. 064311-1594	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed May 19, 2009.

The request is **NOT APPROVED** because it is moot.

A review of the file record indicates that the power of attorney to Rigel Pharmaceuticals Inc. has been revoked by the assignee of the patent application on June 4, 2009. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to Terri Williams at 571-272-2991.

Elliot Grossbard	:	
Application No. 12/199,766	:	DECISION ON PETITION
Filed: August 27, 2008	:	TO WITHDRAW
Attorney Docket No. 064311-2601	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed May 15, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Gerald F. Swiss on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Terri Williams at 571-272-2991.

Application No. 12/199,816	:	UNDER 37 CFR 1.47(a)
Filed: August 28, 2008	:	
Attorney Docket No. U 017451-6	:	

This is in response to the petition under 37 CFR 1.47(a), filed January 12, 2009.

The petition is **GRANTED.**

Petitioners have shown that the non-signing inventor, Bent Herso Pedersen, has refused to join in the filing of the above-identified application.

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application is being referred to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3230.

Application No. 12/199,816	:	
Filed: August 28, 2008	:	
Attorney Docket No. U 017451-6	:	

Dear Mr. Pedersen:

You are named as a joint inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (571) 272-3230. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington, DC area).

James R. HELLUMS	:	
Application No. 12/199,942	:	DECISION ON PETITION
Filed: August 28, 2008	:	
Attorney Docket No. TI-65314	:	

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed June 24, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Corrected Application Papers (Notice), mailed September 11, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 12, 2008.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of replacement drawings; (2) the petition fee of $1620; and (3) the required statement of unintentional delay.

Telephone inquiries concerning this decision should be directed to Diane Goodwyn at (571)272-6735.

This application is being referred back to the Office of Data Management for further processing.

In re Application of	:	
David Rule	:	
Application No. 12/199,949	:	ON PETITION
Deposited: August 28, 2008	:	
Attorney Docket No. CL 1922 PCT US DIV	:	

This is in response to the "PETITION TO ACCORD A FILING DATE UNDER 37 C.F.R. §1.57(a)" filed November 17, 2008, requesting that the above-referenced application be accorded a filing date of August 28 2008.This petition is being treated pursuant to 37 CFR 1.53(e)(2)[1].

Application papers in the above-identified application were deposited on August 28, 2008. However, on September 17, 2008, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings. In response, applicants timely filed this petition. Applicants request that the application be amended to include the inadvertently omitted drawings on the basis that the application as filed contained a prior benefit claim under 37 CFR 1.55 or 1.78.

Petitioner's arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one process claim. MPEP 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in MPEP 601.01(g) under the section entitled, "Application Entitled to a Filing Date," applicant

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [i]f an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application[.]

Please note that no petition is required and that the amendment must comply with 37 CFR 1.57(a) and 37 CFR 1.121. See MPEP § 201.17. Any amendment to include the inadvertently omitted drawing(s) will be considered by the examiner.

To the extent the instant petition requests a filing date of August 28, 2008 with no drawings present in the application, the petition is **GRANTED**.

Given the basis for granting this petition, the petition fee is being refunded.

Pursuant to this decision, the application will be referred to Office of Patent Application Processing for:

- **correction of the filing date to August 28, 2008**;
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **for issuance of a filing receipt.**

Entry of the amendment filed November 17, 2008 will be determined by the examiner.

Telephone inquiries concerning this matter may be directed to Charlema Grant at (571) 272-3215.

OFFICE OF PETITIONS

In re Application of :
Copping, Martin, and Hardman :
Application No. 12/199,969 : DECISION REFUSING STATUS
Filed: August 28, 2008 : UNDER 37 CFR 1.47(a)
Attorney Docket No. **0510.0003C** :

For: **PLANT CULTIVATION APPARATUS WITH OPEN CHANNEL IRRIGATION SYSTEM**

This is a decision on the petition under 37 CFR 1.47(a), April 14, 2009.

The petition under 37 CFR 1.47(a) is **dismissed.**

Any request for reconsideration under this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. Failure to respond will result in the abandonment of this application. Any response should be titled "Request for Reconsideration of Petition Under 37 CFR 1.47(a).

The above-identified application was filed on August 28, 2008, without an executed oath or declaration or filing fee. Accordingly, a "Notice to File Missing Parts Nonprovisional Application" (the "Notice") was mailed on September 16, 2008, requiring an executed oath or declaration and a surcharge for the late filing of the oath or declaration. The instant petition was filed on April 14, 2009, with a request for an extension of time within the fifth month.

A grantable petition under 37 CFR 1.47(a) requires:

(1) proof that the non-signing inventor(s) cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims, and drawings);

(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;

(3) the petition fee,

(4) a statement of the last known address of the non-signing inventor,

The instant petition lacks items (1) as set forth above.

Section 409.03(d) of the *Manual of Patent Examining Procedure* provides, in pertinent part, that:

> [a] refusal by an inventor to sign an oath or declaration when the inventor has not been presented with the application papers does not, itself, suggest that the inventor is refusing to join the application unless it is clear that the inventor understands exactly what he or she is being asked to sign and refuses to accept the application papers. A copy of the application papers should be sent to the last known address of the nonsigning inventor . . . .
>
> Proof that a *bona fide* attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature, but the inventor refused to accept delivery of the papers or expressly stated that the application papers should not be sent, may be sufficient. When there is an express oral refusal, that fact along with the time and place of the refusal must be stated in the statement of facts. When there is an express written refusal, a copy of the document evidencing that refusal must be made part of the statement of facts. The document may be redacted to remove material not related to the inventor's reasons for refusal.
>
> When it is concluded by the 37 CFR 1.47 applicant that a nonsigning inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in the statement of facts in support of the petition or directly in the petition. If there is documentary evidence to support facts alleged in the petition or in any statement of facts, such evidence should be submitted. Whenever a nonsigning inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the petition.

The petition and exhibits speaks to the circumstances of the refusal of the inventor to execute the declaration, but only indicates that the Inventor's Declaration and Assignment were sent to the inventor. There is not indication that a complete copy of the application papers (specification, claims, drawings, oath and declaration) was presented to the inventor. Petitioner must demonstrate that an effort was made to present a complete copy of the application papers to the inventor before the inventor can be said to have refused to join the prosecution of the application. Any renewed petition must, therefore, establish that an attempt was made to present a complete copy of the application papers to the non-signing inventor.

In re Application of :
Copping, Martin, and Hardman :
Application No. 12/199,969 : DECISION ACCORDING STATUS
Filed: August 28, 2008 : UNDER 37 CFR 1.47(a)
Attorney Docket No. **0510.0003C** :

For: PLANT CULTIVATION APPARATUS WITH OPEN CHANNEL IRRIGATION SYSTEM

This is in response to the renewed petition under 37 CFR 1.47(a), filed July 30, 2009.

The renewed petition is GRANTED.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

The above-identified application was filed on August 28, 2008, without an executed oath or declaration or filing fee. Accordingly, a "Notice to File Missing Parts Nonprovisional Application" (the "Notice") was mailed on September 16, 2008, requiring an executed oath or declaration and a surcharge for the late filing of the oath or declaration. A petition under 37 CFR 1.47(a) was filed on April 14, 2009, with a request for an extension of time within the fifth month, and dismissed by a decision mailed May 7, 2009.

Petitioner has shown that inventor Martin has constructively refused or cannot be located to execute the declaration and join the above-identified application The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventors at the addresses given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application will be directed to the Office of Patent Application Processing for further processing.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3222.

In re application of
Baldi et al.
Application No. 12/199,981
Filed: August 28, 2008
For: SYSTEM AND METHOD FOR ITEM IDENTIFICATION, LOCATION AND NAVIGATION INSTRUCTION THERETO

: **DECISION ON PETITION**
: **TO MAKE SPECIAL FOR**
: **NEW APPLICATION**

This is a decision on the petition filed on August 28, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where

each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition in this case fails to comply with conditions II.5.1 and II.5.2.

Regarding Condition II.5.1, it is required that Applicant's search involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement. Applicant has searched the US patents and patent application publications, however the applicant has only searched these in conjunction with a text search. The applicant has failed to do a complete search on the applicable US classes and subclasses.

Furthermore, Applicant searched some of the relevant databases recommended by the search templates, however did not search several of the database files which are considered to be relevant to the class/subclass as outlined in the search template and did not provide and justification for their elimination or substitution of databases of similar coverage. Applicant is reminded that search templates, specific to each class/subclass, may be found at http://www.uspto.gov/web/patents/searchtemplates/. For example, the instant application is best classified in 705/26. Looking toward the available search templates and recommended areas of search for class 705/26 (see http://www.uspto.gov/web/patents/searchtemplates/class705-026.htm) some of the more relevant search areas would include a text search in the listed Non-Patent Literature database files. A comprehensive list of recommended database files is found on the 705/26 search template web page as well. Especially relevant to the claimed subject matter, and which the applicant has not searched, are database files such as:

Dialog Global Reporter
PR Newswire
Examiner's Electronic Digest Database
Gale Group Marketing and Advertising Reference Service
ProQuest Direct
TechInfoSource (formerly SoftBase: Reviews, Companies, and Products)

As per Condition II.5.2, the preexamination search must be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation, and well as include adequate synonyms and truncation so as to not overly narrow the search. While applicant

has conducted a search with a broadest reasonable interpretation, the applicant has not included adequate synonyms and truncation to the terms. A recommended base search query for the claimed invention that may be executed in all databases of East is as follows:

> L1 ((shop$4 or grocer$3 or pick) near2 (list or ticket)) and ((locat$3 or find) near5 (item$1 or product$1 or object$1)) and ((map or mapping or path$1 or direction$1 or instruction$1) near5 (locat$3 or position$3 or place) near5 (item$1 or product$1 or object$1))

Furthermore, Applicant did not search all of the claimed features. In particular, Applicant did not search the features he indicated as patentable such as: "resorting the list of items based on the first item and shortest difference between each of the subsequent plurality of items". It is important that Applicant more thoroughly search these features in order to make a patentability determination with greater confidence.

A recommended search query for the above features that may be executed in all databases of East is as follows:

> L2 L1 and ((sort$3 or resort$3 or arrang$3 or rearrang$3) near5 (item$ or product$1 or object$1) near5 (locat$3 or position$3 or place))

Please keep in mind that the search queries above are non-limiting search suggestions and are only meant to serve as a possible starting point for Applicant's preexamination search for the claim and for the specific feature of "resorting the list of items based on the first item and shortest difference between each of the subsequent plurality of items." Additional guidance regarding the proper manner of performing and documenting a preexamination search may be found on the following web site: http://www.uspto.gov/web/patents/accelerated/ Applicant is expected to perform more supplemental searches than the sample search query listed above.

The petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within one (1) month or thirty (30) days, whichever is longer, from the date of this decision. No extensions of

time will be granted under 37 CFR 1.136(a) if the request is to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Robert Weinhardt at (571) 272-6633, or C. Michelle Tarae at (571) 272-6727, both Business Practice Specialists or Jamisue Plucinski, Primary Examiner, at (571) 272-6811.

In re application of : **DECISION ON PETITION**
Baldi et al. : **TO MAKE SPECIAL FOR**
Application No. 12/199,981 : **NEW APPLICATION**
Filed: August 28, 2008 : **UNDER 37 CFR 1.102**
For: SYSTEM AND METHOD FOR ITEM IDENTIFICATION, LOCATION AND NAVIGATION INSTRUCTION THERETO

This is a decision on the renewed petition filed on October 24, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

A petition to make special was filed in the above-identified application under 37 CFR 1.102(d) on August 28, 2008. That petition was dismissed in a decision mailed September 26, 2008 wherein a non-extendible period of 1 (one) month or 30 (thirty) days, whichever was longer, was set to request reconsideration.

The reasons for the dismissal included a finding of an inadequate Search Document

With the updated Search Document filed September 26, 2008, the applicant has failed to sufficiently address all of the issues raised in the dismissal in the updated Search Document.

Specifically, in regards to Condition II.5.1, the dismissal indicated that the non-patent literature search was insufficient and did not focus on some of the databases recommended by the search template. The updated search document has sufficiently addressed this issue.

The dismissal also indicated that the applicant's US patents and US Patent application publication searches do not sufficiently search the applicable US classes and subclasses, that the applicant has only searched these in conjunction with a text search. In an effort to remedy this issue, the updated search document indicated that class 705

was searched on October 13, 2008. However the applicant has failed to indicate which subclasses of 705 were searched.

In regards to Condition II.5.2, the dismissal indicated that the applicant's searches did not include adequate synonyms and truncation to the terms, as well as did not include the feature which was indicated as being patentable such as "resorting the list of items based on the first item and shortest difference between each of the subsequent plurality of items". The dismissal included recommended search strings which would include adequate synonyms and encompass the feature which the applicant has indicated as being patentable. While the updated search document included these search queries, they were only conducted for the NPL search, and the US patent and patent application search was not updated with these search queries. The majority of prior art relied on in the support document come from US Patents and US Patent Application Publications, therefore the search in the US Patent and US patent application databases should have been updated to include the recommended search queries, in order to make a clear determination on patentability.

For the reasons listed above, Conditions II.5.1 and II.5.2 have not been satisfied and the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is reminded that a only single opportunity to perfect the petition is given. Therefore, further petitions for accelerated examination in this application will not be entertained.

Any inquiry regarding this decision should be directed to Robert Weinhardt at (571) 272-6633 or C. Michelle Tarae at (571) 272-6727, both Business Practice Specialists, or Jamisue Plucinski at (571) 272-6811, Primary Examiner.

Applicant	: Stanislaw Marczyk	: DECISION ON REQUEST FOR
Patent Number	: 7624902	: RECALCULATION of PATENT
Issue Date	: 12/01/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/200,004	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 08/28/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

OFFICE OF PETITIONS

In re Application of	:	
Jeffrey REHKEMPER, et al	:	
Application No. 12/200,157	:	DECISION ON PETITION
Filed: August 28, 2008	:	
Attorney Docket No. 4004013.0138	:	

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed March 31, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application (Notice), mailed September 16, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 17, 2008.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of a declaration signed by all inventors and the required surcharge; (2) the petition fee of $810; and (3) the required statement of unintentional delay.

An extension of time under 37 CFR 1.136 must be filed prior to the expiration of the maximum extendable period for reply. *See* In re Application of S., 8 USPQ2d 1630, 1631 (Comm'r Pats. 1988). Since the $865 extension of time fee submitted with the petition on March 31, 2009, was subsequent to the maximum extendable period for reply, this fee is unnecessary and will be credited to petitioner's Deposit Account Number 13-4825.

Telephone inquiries concerning this decision should be directed to Diane Goodwyn at (571)272-6735.

This application is being referred to the Office of Patent Application Processing for further processing in the normal course of business.

MAR 16 2010

In re Application of	:	
Meschter	:	DECISION ON PETITION
Application No. 12/200,166	:	TO MAKE SPECIAL UNDER
Filed: 8/8/2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. **IBI-P0012**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 2/19/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 429/159.000) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1795 for action in its regular turn.

JUN 28 2010

In re Application of	:	
Meschter	:	DECISION ON PETITION
Application No. 12/200,166	:	TO MAKE SPECIAL UNDER
Filed: 8/28/2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. **IBI-P0012**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 6/2/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must have no more than 3 independent claims and no more than 20 total claims. 2) The application must not contain any multiple dependent claims. 3) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 4) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 8 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1795 for action on the merits commensurate with this decision.

In re application of
Mikhail Kats et al
Serial No. 12/200,168
Filed: August 28, 2008
For: METHOD FOR ASSEMBLING A TERRESTRIAL SOLAR ARRAY INCLUDING A RIGID SUPPORT FRAME

DECISION ON PETITION TO MAKE SPECIAL

This is a decision on the petition filed on August 28, 2008 to make the above-identified application special under the accelerated examination program.

The petition to make the application special is **DISMISSED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;
2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner;

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions regarding the application (section I, subsections 1-4) discussed above are considered to have been met. Additionally, the conditions regarding the petition, section II, subsections 1-5, are considered to have been met. However, the petition fails to comply with condition II, subsection 6.

Applicant has provided three Information Disclosure Statements, however in the Accelerated Examination Support Document (AESD), applicant has discussed only the references cited on the IDS of August 28, 2008. None of the references cited on the IDS of September 5, 2008 or the IDS of September 10, 2008 are discussed. Note that there is a presumption that each of the cited references is considered most relevant to the claimed invention and that an identification of where all of the limitations in the claims that are disclosed in the references is required.

Applicant is encouraged to review the Frequently Asked Questions concerning the Accelerated Examination Program posted on www.uspto.gov. Specifically, note the question and answer reproduced below:

IDS 2. If an information disclosure statement (IDS) is filed after initial filing, is a supplemental accelerated examination support document (AESD) needed to address the newly submitted references?
Yes, a supplemental AESD is required if a reference being submitted in an IDS is deemed more closely related to the subject matter of at least one claim than the references provided in the previously-filed AESD. Consistent with 37 CFR §10.18, any reference submitted in a separate IDS that is not part of an AESD is a representation by applicant to the USPTO that no reference submitted in the separate IDS is deemed closer to the subject matter of at least one claim than the references provided in the AESD. If applicant deems references found after the initial filing to be closer to the subject matter of at least one claim than the references provided in the AESD, then applicant needs to supplement the AESD to account for these references.

IDS 3. Will the Office accept an accelerated examination support document (AESD) that contains a list of references in the information disclosure statement (IDS) of the AESD, but does not include any identification and explanation for those references that are not required to be submitted in the IDS of the AESD (*i.e.*, references that are not most closely related to the subject matter of each of the claims)?

No, the AESD will be deemed insufficient for lack of identification and explanation. The applicant will be notified of the defects and the application will remain in the status of a new application awaiting action in its regular turn. The applicant will be given a time period of one month, without any extension of time under 37 CFR §1.136(a), to perfect the petition.

If applicant wishes to cite references that are not required in an AESD for the examiner to consider, applicant may submit such references in a separate IDS in compliance with 37 CFR §1.97 and §1.98. Applicant should clearly identify the IDS of the AESD that is in support of the petition to make special and, similarly, applicant should clearly identify the separate IDS that is

not in support of the petition. Consistent with 37 CFR §10.18, any reference submitted in a separate IDS that is not part of an AESD will be treated as a representation by applicant to the USPTO that no reference submitted in the separate IDS is deemed closer to the subject matter of at least one claim than the references provided in the AESD.

With respect to the references discussed in the AESD on pages 13-15, while petitioner has identified where each and every limitation of the independent claims is disclosed in the cited references, it is unclear whether the cited references disclose limitations which are present in the dependent claims. Applicant is required to show how the cited references correspond to all of the present claims.

The statement showing support for the present claims on pages 17-21 of the AESD is not sufficient. It is required that petitioner provide a showing of where each limitation of each of the claims finds support under 35 USC 112, first paragraph, in the written description of parent applications 12/131,556 and 11/830,636 as applicant has claimed priority to each of these applications.

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is dismissed. The application will therefore be taken up by the examiner in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

In re application of Mikhail Kats et al Serial No. 12/200,168 Filed: August 28, 2008 For: METHOD FOR ASSEMBLING A TERRESTRIAL SOLAR ARRAY INCLUDING A RIGID SUPPORT FRAME	:	DECISION ON PETITION TO MAKE SPECIAL

A decision dismissing the petition to make the above-identified application special was mailed on October 24, 2008. The decision set a non-extendable time period of one month or 30 (thirty) days, whichever is longer, from its mailing date to correct the deficiency/deficiencies in the petition.

As of December 12, 2008, neither a reply nor a renewed petition has been received. Accordingly, the application is no longer eligible for the accelerated examination program.

The application will remain in its regular status and will be taken up by the examiner for action in its regular turn.

Petitioner is reminded that a single opportunity to perfect the petition is given. Therefore, further petitions for accelerated examination in this application will not be entertained.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

In re Application of	**: DECISION ON REQUEST TO**
Genya ANAN, et al.	**: PARTICIPATE IN THE PATENT**
Application No.: 12/200,174	**: PROSECUTION HIGHWAY**
Filed: 28 August 2008	**: PROGRAM AND PETITION**
Attorney Docket No.: 03500.160212.	**: TO MAKE SPECIAL UNDER**
For: DEVELOPING ROLLER, ELECTROPHOTOGRAPHIC PROCESS CARTRIDGE, AND ELECTROPHOTOGRAPHIC IMAGE FORMING APPARATUS	**: 37 CFR 1.102(d)**

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed 06 July 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

Discussion

A grantable request to participate in the PPH program and petition to make special require:

1. The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO, note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;
2. Applicant must submit a copy of:
    a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
    b. An English translation of the allowable/patentable claim(s) and
    c. A statement that the English translation is accurate;
3. Applicant must:

a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
b. Submit a claims correspondence table in English;

4. Examination of the U.S. application has not begun;
5. Applicant must submit:
   a. Documentation of prior office action:
      i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
      ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
      iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;
   b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above
   c. A statement that the English translation is accurate;
6. Applicant must submit:
   a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
   b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);
7. The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Darren Schuberg at (571) 272-2044.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc.index.html.

This application is being forwarded to the examiner for action on the merits commensurate with this decision.

In re Application of: Rubina Ahmed et al. Serial No.: 12/200,208 Filed: August 28, 2008 Attorney Docket No.: RPS920080129US1 Title: METHOD AND APPARATUS TO ELECTRICALLY QUALIFY HIGH SPEED PCB CONNECTORS	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 28, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d) and M.P.E.P. §708.02(a).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d), M.P.E.P. §708.02(a) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner; and

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The pre-examination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation; and

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists; and

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The application is eligible for the accelerated examination program as set forth in section I above.

The petition meets conditions II.1 through II.4; conditions II.6.1 and II.6.3 through II.6.6 above. However, the petition does not meet conditions II.5 and II.6.2 above.

Regarding the conditions set forth in II.5 above, the field of search should properly include Class 324, subclass 538, to cover the broad subject matter being claimed.

Regarding the condition set forth in II.6.2 above, the support document is required to identify all the limitations in the claim that are disclosed by each cited reference and specify where those limitations are disclosed in the cited reference. The support document, however, fails to adequately identify the limitations in the claim that are disclosed by each cited reference and specify where those claim limitations are disclosed in the cited references. For example, the support document cites the abstract of Furukawa (JP2002071756 A) as disclosing "*A method of electrically qualifying high speed printed circuit board (PCB) connectors, said method comprising: mounting a PCB connector on a test card, wherein a first portion of the test card comprises a plurality of pads to launch a bitstream,*" and "*sending bit patterns through said first portion of the test card.*" However, the abstract of Furukawa is directed to a method of testing a printed circuit board itself and not the connectors thereof. The support document fails to explain how the disclosed method of testing a printed circuit board comprises a method of testing the connectors thereof. Nor does the abstract clearly recite "mounting a PCB connector on a test card." Rather the abstract discloses inserting an interface board (2) in the connector (5) of a printed circuit board (4). The support document fails to explain how inserting an interface board in the connector of a printed circuit board comprises "mounting a PCB connector on a test card." Moreover, the support document fails to explain how "a first portion of the test card comprises a plurality of pads to launch a bitstream," and where support for the limitation of "sending bit patterns through said first portion of the test card" is found in the abstract. Consequently, the support document fails to specify where the claim limitations are disclosed in the cited reference.

Accordingly, the petition fails to meet conditions II.5 and II.6.2 for the reasons cited above.

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a) is available) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-1569.

In re Application of: Rubina F. Ahmed et al. Serial No.: 12/200,208 Filed: August 28, 2008 Docket No.: RPS920080129US1 Title: METHOD AND APPARATUS TO ELECTRICALLY QUALIFY HIGH SPEED PCB CONNECTORS	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on November 7, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. §1.102.

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 C.F.R. §1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 C.F.R. §1.97 and §1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not

file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 C.F.R. §1.181, §1.182 or §1.183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve-month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-1569.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 28, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I 1-4, II 1-4 and II 5.1, 5.3, II 6.1 - 6.2 and II 6.4 - 6.6 above are considered to have been met. However, the petition fails to comply with conditions II 5.2 and II 6.3 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of MPEP § 708.02(a)(I.)(H)[1] and items II.5.2 above, the preexamination search does not encompass all of the features of the claims, and does not appear to have given the claims the broadest reasonable interpretation.

Specifically, the text search strategy should be modified to include reasonable number of synonyms. Here is an example search strategy that would complete this requirement.

1) (security near level) or (trust near level) or (sensitivity near level)

2) (security near label) or (trust near label) or (sensitivity near label)

3) (authent$7 or authorize$7) with access$3

4) (rule or policy)

5) (key with (distribution or access or permission or permit$4))

Petitioner should review all claim limitations, especially those asserted as patentable distinctions from the cited references to ensure that the search covers these concepts, and update the search and/or provide any clarifications if deemed necessary.

Finally, based upon the claimed subject matter of the instant application, a search in the following class and subclasses is recommended in order to provide full coverage of where the most pertinent references are most likely to be found: **Class 726 INFORMATION SECURITY: SUPPORT Subclass 16** (Access Control or Authentication for Stand-alone system); **Subclass 17** (Authorization for Stand-alone System); **Subclass 28** (Access Control by Authorizing User); and **Subclass 30** (Access Control by Authorizing Data) for subject matter related to secure access. This additional search area was confirmed with an examiner in the pertinent art area.

With regard to the requirement of MPEP § 708.02(a)(I)(2-3) and item 6.3 above, Petitioners statement of how certain features are not taught by each individual reference, alone is proper however the statement that the claims are seen to patentably distinguish over the references in combination is improper as it deemed to be a general statement and fails to be specific and only mentions claim 1 thus missing claim 2. This statement doesn't explain how these features distinguish from the combination of references by discussing what similarly is taught and how this difference is not obvious to comply with rule 37 CFR 1.111.

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Tod Swann, Quality Assurance Specialist, at (571) 272-3612. A second point of contact is QAS Kim Huynh whose number is (571)-272-4147.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on March 2, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). The original petition, submitted on August 28, 2008 was dismissed in the decision mailed on January 30, 2009.

The petition to make the application special is GRANTED as the revised Support Document, Pre-Examination Search Document meet the requirements of condition II 5.2 and II 6.3.

The application is eligible for accelerated examination and the renewed petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323) as the original identified deficiencies for failing to comply with the requirements for the pre-examination search encompassing all of the features of the claims, and giving the claims the broadest reasonable interpretation, the statement of patentability must provide a detailed explanation of how each of the claims are patentable and the concise statement of the utility must be of the invention as defined in each of the independent claims (reference must be made to independent claim 1) have been corrected.

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:

If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Tod Swann, Quality Assurance Specialist (QAS), at (571) 272-3612. A second point of contact is QAS Kim Huynh at (571)-272-4147

MAR 16 2010

In re Application of	:	
Meschter	:	DECISION ON PETITION
Application No. 12/200,245	:	TO MAKE SPECIAL UNDER
Filed: 8/28/2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. **IBI-P0013**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 2/19/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 429/161.000) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1795 for action in its regular turn.

Iijima	:	DECISION ON PETITION
Application No. 12/200,277	:	TO MAKE SPECIAL UNDER
Filed: 2/18/2010	:	THE GREEN TECHNOLOGY
Attorney Docket No. **082138**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 2/18/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition

must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
Seo-Yong Cho	:	
Application No. 12/200,284	:	DECISION ON PETITION
Filed: August 28, 2008	:	TO WITHDRAW
Attorney Docket No. 091619-0190	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 20, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Mark A. Kassel on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Terri Johnson at 571-272-2991.

Application No. 12/200,334 :
Filed: August 28, 2008 :
Attorney Docket No. YOR920060656US2 :

ON PETITION

This is a decision on the petition under 37 CFR 1.137(b), filed May 4, 2010, to revive the above-identified application.

The application became abandoned for failure to file a reply to the Notice of Allowance and Fee(s) Due mailed on January 7, 2010. A Notice of Abandonment was mailed April 26, 2010.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of $1,510 for payment of the issue fee and $300 for payment of the publication fee; (2) the petition fee of $1,620 and (3) a proper statement of unintentional delay. Therefore, the petition is **GRANTED**.

This application file is being referred to the Office of Data Management for further processing into a patent.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3226.

In re Application of YOSHIDA, SHINICHI, et al. Application No. 12/200,484 Filed: August 28, 2008 Attorney Docket No. **8073P446**	: : : : : : :	DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed May 12, 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Doris To at 571-272-7629.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

John D. Bloomfield	:	
Application No. 12/200,629	:	DECISION ON PETITION
Filed: August 28, 2008	:	
Attorney Docket No. **132168.00102**	:	

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed January 7, 2010, to revive the above-identified application.

The petition is **GRANTED**.

This application became abandoned for failure to timely pay the issue and publication fees on or before December 15, 2009, as required by the Notice of Allowance and Fee(s) Due, mailed September 15, 2009. Accordingly, the date of abandonment of this application is December 16, 2009.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of payment of the issue fee of $1,510 and the publication fee of $300, (2) the petition fee of $1,620; and (3) a proper statement of unintentional delay.

Telephone inquiries concerning this decision should be directed to JoAnne Burke at (571) 272-4584.

Mail Date: 05/12/2010

Applicant	: Vladimir Tamarkin	: DECISION ON REQUEST FOR
Patent Number	: 7667985	: RECALCULATION of PATENT
Issue Date	: 02/23/2010	: TERM ADJUSTMENT IN VIEW
Application No	: 12/200,649	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 08/28/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **63** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed April 28, 2009, to make the above-identified application special.

The request and petition are **DISMISSED**.

A grantable request to participate in the PPH pilot program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of the latest Office action from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO Office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition fail to include:
(3) Claims of the U.S. Application that sufficiently correspond to the allowable claims of the JPO application. Specifically, it looks like claims 4, 6 & 7 lack a limitation, "...in addition to said termination conditions", that is present in the corresponding claims of the JPO application.

Applicant is given a time period of **ONE MONTH or THIRTY DAYS**, whichever is longer, to correct the deficiencies. **NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.** If the deficiencies are not corrected with the time period given, the application will await action in its regular turn. All replies to a decision to dismiss must be submitted by EFS-Web using the document description "Petition to make special under Patent Prosecution Highway."

Any inquiry regarding this decision should be directed to Steven N. Meyers, Quality Assurance Specialist, at (571) 272-6611.

In re application of Kazufumi Hayashikawa et al. Application No. 12/200,664 Filed: August 28, 2008 For: CONTROL SYSTEM OF VEHICLE	: : : : : :	**DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)**

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed May 29, 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of the latest Office action from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO Office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

In light of the renewed petition, which included a preliminary amendment that corrected the claims to substantially correspond to those of the allowed JPO application, the request to participate in the PPH program complies with the above requirements. Therefore, the above-identified application has been accorded "special" status.

All other inquiries concerning the examination or status of the application should be directed to the Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Any inquiry regarding this decision should be directed to Steven N. Meyers, Quality Assurance Specialist, at (571) 272-6611.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Filed:

Attorney Docket No. 043829.011600CIP2

:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 29-AUG-2008 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

OFFICE OF PETITIONS

In re Application of Max U. Kismarton Application No. 12/200,790 Filed: August 28, 2008 Attorney Docket No. 06-0688A (82,000-191)	: : : : : :	DECISION DISMISSING PETITION

This is a decision on the petition under 37 CFR 1.181 (no fee), filed on November 10, 2009, requesting withdrawal of the holding of abandonment in the above-identified application.

The above application was held abandoned for failure to file a proper reply to the Requirement for Statement under § 305(c) of the National Aeronautics and Space Act (Notice) mailed April 3, 2009.

Petitioner states, "According to the Auto-Reply Facsimile Transmission sheet, a genuine reply was made in a timely manner. The Applicants do agree that boxes III and IV were not checked due to a typographical error and will resubmit a new Declaration in Lieu of Oath."

A review of the record shows that a reply to the Notice mailed April 3, 2009 was timely submitted to the Office on May 4, 2009. However, the appropriate boxes on the document titled, "DECLARATION IN LIEU OF OATH IN ACCORDANCE WITH 37 CFR 1.68," filed May 4, 2009, which contains the required Statement under § 305 was not checked. Therefore, as a proper reply was not filed, the application was properly held abandoned and a petition under 37 CFR 1.137(b) is required[1].

It is strongly recommended that petitioner file a petition to revive under 37 CFR 1.137(b) and pay the petition fee of $1,620. The filing of a petition under 37 CFR 1.137(b) cannot be intentionally delayed and therefore must be filed promptly. A person seeking revival due to unintentional delay cannot make a statement that the delay was unintentional unless the entire delay, including the date it was discovered that the application was abandoned until

[1] The Office acknowledges receipt of the required Statement under §305 filed on November 10, 2009. However, as this application was properly held abandoned, a petition under 37 CFR 1.137(b) must be filed.

the filing of the petition to revive under 37 CFR 1.137(b), was unintentional. A statement that the delay was unintentional is not appropriate if petitioner intentionally delayed the filing of a petition for revival under 37 CFR 1.137(b).

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(b)." This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

Further correspondence with respect to this matter should be addressed as follows:

MAILED

MAR 11 2010

OFFICE OF PETITIONS

In re Application of	:	
Max U. Kismarton	:	
Application No. 12/200,790	:	DECISION DISMISSING PETITION
Filed: August 28, 2008	:	
Attorney Docket No. 06-0688A (82,000-191)	:	

This is a decision on the renewed petition under 37 CFR 1.181 (no fee), filed on February 9, 2010 and February 16, 2010, requesting withdrawal of the holding of abandonment in the above-identified application.

The renewed petition is **dismissed**.

The above application was held abandoned for failure to file a proper reply to the Requirement for Statement under § 305(c) of the National Aeronautics and Space Act (Notice) mailed April 3, 2009, which set a period of thirty days from the mailing of the letter to file the required statement under 42 U.S.C. §2457(c). As a proper response was not timely filed, the application was held abandoned on May 4, 2009.

In response to the decision mailed January 21, 2010, petitioner submits the present renewed petition under 37 CFR 1.181 on February 9, 2010.

Petitioner argues, "In a Decision on the Petition under 37 CFR 1.181 mailed from the office on January 21, 2010, the petition was denied. While the petitions Examiner recognizes that it was a typographical error that the Applicants failed to check either one of the boxes III and IV, the Examiner nevertheless refused the entering of a resubmitted Declaration in Lieu of Oath with proper boxes checked and timely submitted on November 10, 2009."

A review of the record discloses that a reply to the Notice mailed April 3, 2009 was timely submitted to the Office on May 4, 2009. However, the appropriate boxes on the document titled, "DECLARATION IN LIEU OF OATH IN ACCORDANCE WITH 37 CFR 1.68," filed May 4, 2009, which contains the required Statement under § 305 was not checked.

MPEP 150 states in part, "If no response to the initial so called 45-Day Letter is received or if repeated efforts to correct a defective statement evidence an absence of cooperation on the part of the applicant, a formal request for a statement in accordance with the statutes will be made. A 30-day statutory period for response is then set. There is no provision for an extension of this time period. If no proper and timely statement is received, the application will be held abandoned and the

applicant so notified. Such applications may be revived under the provisions of ** > 37 CFR 1.137<. In re Rutan, 231 USPQ 864 (Comm'r Pat.1986)."

In this case, as a proper reply was not timely filed within the non-extendable period of thirty days from the Notice mailed April 3, 2009, this application was properly abandoned and a petition under 37 CFR 1.137(b) is required[1].

The filing of a petition under 37 CFR 1.137(b) with fee cannot be intentionally delayed and therefore must be filed promptly. A person seeking revival due to unintentional delay cannot make a statement that the delay was unintentional unless the entire delay, including the date it was discovered that the application was abandoned until the filing of the petition to revive under 37 CFR 1.137(b), was unintentional. A statement that the delay was unintentional is not appropriate if petitioner intentionally delayed the filing of a petition for revival under 37 CFR 1.137(b).

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition." This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

Further correspondence with respect to this matter should be addressed as follows:

By mail: Mail Stop PETITION
Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

By hand: U. S. Patent and Trademark Office

This is a decision on the petition under 37 CFR 1.137(b), filed on April 21, 2010 to revive the above-identified application.

In response to the decision mailed on March 11, 2010, petitioner submits the present petition under 37 CFR 1.137(b).

Since the petition satisfies the requirements of 37 CFR 1.137(b), in that petitioner has supplied (1) the reply in the form of a Declaration in Lieu of Oath in Accordance with 37 CFR 1.68 along with the Statement under § 305; (2) the petition fee of $1,620; and (3) a proper statement of unintentional delay, the petition is **GRANTED**.

OFFICE OF PETITIONS

In re Application of	:	
Writz, et al.	:	DECISION REFUSING STATUS
Application No. 12/200,815	:	UNDER 37 CFR 1.47(a)
Filed: August 28, 2008	:	
Attorney Docket No. 081445-0485	:	

This is in response to the petition under 37 CFR 1.47(a), filed February 11, 2009.

The petition is dismissed.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

The petition lacks items (1) and (2) set forth above.

As to item (1), the applicable statute (35 U.S.C.§ 116) requires that a "diligent effort" have been expended in attempting to find or reach the non-signing inventor. *See* MPEP 409.03(a). The showing currently fails to demonstrate, with a documented showing, that a diligent effort was made to find or locate non-signing inventor Foley, such that the declaration can be accepted under 37 CFR 1.47(a). Where inability to find or locate a named inventor(s) is alleged, a statement of facts should be submitted that fully describes the exact facts which are relied on to establish that a *diligent effort* was made to locate the inventor.

Petitioner has not demonstrated that sufficient efforts were expended in trying to locate non-signing inventor Foley. The petition states that one mailing to Mr. Foley was returned to sender and that the USPS was unable to forward it. One returned mailing does not meet the required level of diligence that must be shown in order to obtain Rule 47 status.

Petitioner should engage in further efforts to locate Mr. Foley. The following is a list of evidentiary sources that are commonly relied upon to prove inability to locate an inventor: searches of Internet databases; inquiries of local telephone directories; telegrams; and documented inquiries of last known employers. Every listed type of search need not be done. However, a diligent effort to find the inventor must be made.

Petitioner is informed that emailing is generally not accepted as a means to communicate with non-signing inventors. This is because the Office cannot know definitely if the message was received; people are not as careful in deleting e-mails as they are in throwing out mail as shown by bulk folder deletions and the fact that some people might not check emails frequently; the Office does not know if the recipient has the program to open the specific attachment; and Office guidelines regarding accepting email reflects the fact that the Office does not have the same confidence in email as it does in postal service.

The Office typically requires documentary evidence of successful e-mailing in the form of a response email from the non-signing inventor in which the inventor acknowledges receipt of the email and his ability to read the attachments. Sending an email alone is not sufficient.

Documentary evidence that supports a finding that the non-signing inventor could not be found or reached should be made part of any affidavits or declarations that fully describe the exact facts which are relied on to establish that a diligent effort was made to locate the non-signing inventor.

The affidavit or declaration of facts must be signed, where at all possible, by a person having *firsthand knowledge* of the facts recited therein. Statements based on hearsay will not normally be accepted. It is important that the affidavit or declaration contain statements of fact as opposed to conclusions.

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration by the party to whom the refusal was made. Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the Rule 47 applicant that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted.

As to item (2), an oath or declaration for the patent application in compliance with 37 CFR 1.63 and 1.64 still has not been presented. The declaration contains a noninitialed and nondated alteration to information for Inventor Telo. 37 CFR 1.52(c) states that "[a]ny interlineation, erasure, cancellation or other alteration of the application papers filed should be made on or before the signing of the accompanying oath or declaration pursuant to 1.63...." This includes the oath or declaration. The Office will not consider whether noninitialed and/or nondated alterations were made before or after signing of the oath or declaration but will require a new oath or declaration. MPEP605.04(a)

Fortunately, the alteration is to information for a signing inventor. Thus, pursuant to 37 CFR 1.67(a)(2), Inventor Telo can correct his information in a supplemental declaration identifying the entire inventive entity and their information, but signed only by him.

An oath or declaration in compliance with 37 CFR 1.63 and1.64 signed by the available inventors on behalf of the non-signing inventor is REQUIRED. See MPEP 409.03(a).

In re Application of	:	
Writz, et al.	:	DECISION NOTING JOINDER OF
Application No. 12/200,815	:	PREVIOUSLY NON-SIGNING
Filed: August 28, 2008	:	INVENTOR & DISMISSING PETITION
Attorney Docket No. 081445-0485	:	UNDER 37 CFR 1.47(a) AS MOOT

Papers filed on April 28, 2009 in reply to "Decision Refusing Status Under 37 CFR 1.47(a)" mailed on February 27, 2009, included a declaration signed by the previously non-signing inventor, Patrick M. Foley, in compliance with 37 CFR 1.63.

In view of the joinder of the inventor, further consideration under 37 CFR 1.47(a) is moot; this application does not have any rule 1.47(a) status and no such status should appear on the file wrapper. This application need not be returned to this office for any further consideration under 37 CFR 1.47(a).

After the mailing of this decision, the application will be returned to the Office of Patent Application Processing for further pre-examination processing.

Telephone inquiries should be directed to the undersigned at (571) 272-3230.

OFFICE OF PETITIONS

In re Application of	:	
Seung Bum Park	:	
Application No. 12/200,817	:	DECISION ON PETITION
Filed: August 28, 2008	:	TO WITHDRAW
Attorney Docket No. 091619-0158	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 20, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Mark A. Kassel on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Terri Johnson at 571-272-2991.

Darrell D. Jones et al	:	
Application No. 12/200,882	:	DECISION ON PETITION
Filed: August 28, 2008	:	
Attorney Docket No. 07-0638A (82,000-201)	:	

This is a decision on the petition, filed November 6, 2009, under 37 CFR 1.181(a) to Withdraw Holding of Abandonment.

The petition under 37 CFR 1.181(a) is **GRANTED**.

The application was held abandoned for failure to timely reply to the Office letter mailed April 3, 2009.

The petition states that a reply was timely submitted on April 29, 2009. To support this assertion, the petitioner has submitted a copy of the response, along with a copy of the Auto-Reply Facsimile Transmission indicating that the above response was received on April 29, 2009.

Additionally, a review of the Office records indicates receipt of the response on April 29, 2009.

In view of the above, the holding of abandonment is hereby withdrawn and the application restored to pending status.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3208.

This matter is being referred to Technology Center AU 1794 for review of the response received on April 29, 2009 and supplemented on November 6, 2009.

Clarks Summit, PA 18503-2053

In re Application of Wyatt :
Application No. 12/200,913 : Decision on Petition
Filing Date: August 28, 2008 :
Attorney Docket No. W-01158 US Wyatt :

This is a decision in response to the petition filed October 15, 2008, which requests the application be accorded a filing date of August 28, 2008, and requests entry of the drawings filed October 15, 2008. As will be discussed in this decision, the petition has been treated as a petition under 37 CFR 1.53.

The petition is **granted** to the extent indicated herein.

Procedural History:

On August 28, 2008, the application was inadvertently filed without drawings.

On September 15, 2008, the Office of Patent Application Processing mailed a "Notice of Incomplete Nonprovisional Application." The Notice stated drawings did not appear to be part of the application as filed and that a filing date would be accorded upon the submission of drawings.

On October 15, 2008, petitioner filed an amendment, the instant petition, and a petition fee of $400. Petitioner requests the application be amended to include the inadvertently omitted drawings on the basis that the application as filed contained a proper priority claim under 37 CFR 1.55 or 1.78.

Discussion:

One must always file an amendment in order to add material pursuant to 37 CFR 1.57(a), However, a petition under 37 CFR 1.57 and the $400 fee is only necessary if the application is not entitled to a filing date absent the missing material.

The Office has chosen to initially treat the petition as a petition under 37 CFR 1.53(e) in order to determine if the application should have been accorded a filing date without the drawings. If the application should have been accorded a filing date without the drawings, then a petition under 37 CFR 1.57 is unnecessary and the $400 fee is refundable.

A review of the application papers filed August 28, 2008, indicates the papers included at least one method claim. MPEP 601.01(f) states, "It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence)."

Pursuant to MPEP 601.01(f), the Office should not have required drawings in order to accord the application a filing date. Instead, the Office should have granted the application a filing date of August 28, 2008, and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in under the section titled, "Application Entitled to a Filing Date," in MPEP 601.01(g), applicant may submit an *amendment* to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [If the] application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application.

Since the application is entitled to a filing date without the drawings, an amendment pursuant to 37 CFR 1.57(a) does not need to be accompanied by a petition under 37 CFR 1.57 and the petition fee of $400 has been refunded to petitioner's credit card.

Please note an amendment pursuant to 37 CFR 1.57(a) must comply with the requirements of 37 CFR 1.121. For example, per 37 CFR 1.121(d), any new drawings added to an application must include in the top margin the label "New Sheet."

Pursuant to this decision, the application will be referred to the Office of Patent Application Processing for:

- **correction of the filing date to August 28, 2008**;
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **for issuance of a filing receipt**.

Entry of the amendments filed October 15, 2008, and September 24, 2008, will be determined by the examiner in due course.

Telephone inquiries regarding this communication should be directed to Petitions Attorney Steven Brantley at (571) 272-3203.

112 SOUTH WEST STREET
ALEXANDRIA VA 22314

In re Application of	:	
Sang Yun CHOI	:	
Application No. 12/200,928	:	DECISION ON PETITION
Filed: August 28, 2008	:	
Attorney Docket No. 30341U	:	

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed December 17, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application (Notice), mailed October 6, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on December 7, 2008.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of a properly signed declaration, replacement drawings, a translation of the specification and statement of accuracy and the required fee; (2) the petition fee of $810; and (3) a proper statement of unintentional delay.

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. See 37 CFR 10.18(b) and Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. 53131, 53178 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63, 103 (October 21, 1997). In the event that

such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that it is not correct that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional, petitioner must notify the Office.

An extension of time under 37 CFR 1.136 must be filed prior to the expiration of the maximum extendable period for reply. *See* In re Application of S., 8 USPQ2d 1630, 1631 (Comm'r Pats. 1988). Since the $245 extension of time fee submitted with the petition on December 17, 2009, was subsequent to the maximum extendable period for reply, this fee is unnecessary and will be credited to petitioner's Deposit Account No. 14-0112.

Telephone inquiries concerning this decision should be directed to the undersigned at (571)272-6735.

This application is being referred to the Office of Data Management for processing in the normal course of business.

OFFICE OF PETITIONS

THE NATH LAW GROUP
112 South West Street
Alexandria VA 22314

In re Application of Lee et al. Application No. 12/200,929 Filed: August 28, 2008 Attorney Docket No.: 29925U Title: HIGH PERFORMANCE ONE-TRANSISTOR DRAM CELL DEVICE AND MANUFACTURING METHOD THEREOF	DECISION ON PETITION PURSUANT TO 37 C.F.R. § 1.137(B)

This is a decision on the petition pursuant to 37 C.F.R. § 1.137(b), filed July 22, 2009, to revive the above-identified application.

This petition pursuant to 37 C.F.R. § 1.137(b) is **GRANTED**.

The revocation of power of attorney with a new power of attorney and change of correspondence address, received on July 9, 2009, has been entered and made of record.

The above-identified application became abandoned for failure to reply in a timely manner to the Notice of Missing Parts (notice), mailed September 15, 2008, which set a shortened statutory period for reply of two months. No response was received, and no extensions of time under the provisions of 37 C.F.R. § 1.136(a) were requested. Accordingly, the above-identified application became abandoned on November 16, 2008.

A grantable petition pursuant to 37 C.F.R. § 1.137(b) must be accompanied by:

(1) The reply required to the outstanding Office action or notice, unless previously filed;
(2) The petition fee as set forth in 37 C.F.R. § 1.17(m);
(3) A statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition

pursuant to this paragraph was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional, and;

(4) Any terminal disclaimer (and fee as set forth in 37 C.F.R. § 1.20(d)) required pursuant to paragraph (d) of this section.

A fully executed declaration was received on July 9, 2009. With this petition, Petitioner has submitted the petition fee, replacement drawings, additional claims fees, and the proper statement of unintentional delay. The first three requirements of Rule 1.137(b) have been met. The fourth requirement of Rule 1.137(b) is not applicable, as a terminal disclaimer is not required.[1]

The Office of Patent Application Processing (OPAP) will be notified of this decision, and jurisdiction over the application is transferred to OPAP, so that the application may receive further processing. Petitioner will receive appropriate notifications regarding the fees owed, if any, and other information in due course from OPAP.

Petitioner may find it beneficial to view Private PAIR within a fortnight of the present decision to ensure that the revival has been acknowledged by OPAP in response to this decision. It is noted that all inquiries with regard to any failure of that change in status should be directed to OPAP where that change of status must be effected - **the Office of Petitions cannot effectuate a change of status.**

The general phone number for OPAP is 571-272-4000. Telephone inquiries **regarding this decision** should be directed to the undersigned at (571) 272-3225.[2]

Senior Attorney
Office of Petitions

---

1 See Rule 1.137(d).
2 Petitioner will note that all practice before the Office should be in writing, and the action of the Office will be based exclusively on the written record in the Office. See 37 C.F.R. § 1.2. As such, Petitioner is reminded that no telephone discussion may be controlling or considered authority for any further action(s) of Petitioner.

Applicant	: Jeffrey B. Epp	: DECISION ON REQUEST FOR
Patent Number	: 7642220	: RECALCULATION of PATENT
Issue Date	: 01/05/2010	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/200,945	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 08/29/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

In re Application of	:	
RAO KAVALA, VENKATESWARA	:	DECISION ON PETITION
Application No. 12/200,955	:	TO MAKE SPECIAL UNDER
Filed: Aug. 29, 2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. 230404	:	PILOT PROGRAM
Title: WIND TURBINE BLADES WITH CROSS WEBS		

This is a decision on the petition under 37 CFR 1.102, filed December 21, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant

will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived. The petition lacks item(s) #1 and #5.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 416/226) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 5, petitioner should note that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard. The statement provided fails to explain how the present invention materially contributes to the development of renewable energy resources or energy conservation.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen at 571-272-4856. The application is being forwarded to the Technology Center Art Unit 3745 for action in its regular turn.

In re Application of	:	
RAO KAVALA, VENKATESWARA	:	DECISION ON PETITION
Application No. 12/200955	:	TO MAKE SPECIAL UNDER
Filed: Aug. 29, 2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. 230404	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed June 21, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009) and amended by 75 Federal Register Notice 28554 (May 21, 2010).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must have no more than 3 independent claims and no more than 20 total claims. 2) The application must not contain any multiple dependent claims. 3) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 4) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 8 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Henry C. Yuen at 571-272-4856.

The application is being forwarded to the Technology Center Art Unit 3745 for action on the merits commensurate with this decision.

In re Application of: DASH et al. Serial No.: 12/200,981 Filed: August 29, 2008 Docket: ARC920070042US3 Title: DISCOVERING INTERESTINGNESS IN FACETED SEARCH	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 29, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees that the dependent claims will be grouped together with and not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I. 1-4 & II. 1-5, 5.1, and 6.1-6.5 above are considered to have been met. However, the petition fails to comply with conditions II. 5.2, 5.3, & 6.6 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of MPEP § 708.02(a)(I.)(H)[1] and items 5.2 & 5.3 above, pre-exam search must be directed to the (instant) claimed invention and encompass all of the disclosed features of the (instant) claims. The search logic does not seem to include the inventive concept or features included in the claim language and identified by Petitioner in the detailed explanation of patentability of the claims over the cited references. The search should consider individual features, combination of features as well as synonyms. The search should also cover the broadest scope encompassed by the claims. Based upon the claimed subject matter of the instant application, the following supplemental suggested search is presented:

Additional text searches should be conducted including other key search terms that are in the claim and limiting by class search, as necessary. Therefore, it is recommended that the applicant provides a proper search in response to this decision. The following is a sample of searches that are recommended:

DB=PGPB,USPT,USOC,EPAB,JPAB,DWPI,TDBD; PLUR=YES; OP=OR

L20	L19 and aspect	87	L20
L19	l9 and baseline	102	L19
L18	l9 and (baseline with distance)	4	L18
L17	l9 and (baseline near3 distance)	2	L17
L16	l9 and (analyz$4 near3 baseline near3 distance)	0	L16
L15	l1 and l9	264	L15
L14	l7 and (candidate near3 aspect)	31	L14
L13	l1 same l7	11	L13
L12	l1 and l7	339	L12
L11	l7 and L10	6	L11
L10	(analyz$3 near5 search near5 aspect)	46	L10
L9	l7 and (search near5 results)	1205	L9
L8	L7 and (candidate near3 facet)	2	L8
L7	(probability near3 distribution)	21043	L7
L6	normaliz$4 and threshold and (probability near3 baseline)	35	L6
L5	normaliz$4 same threshold same (probability near3 baseline)	1	L5
L4	normaliz$4 same (threshold with (probability near3 baseline))	0	L4

L3	normaliz$4 with threshold with (probability near3 baseline)	0	L3
L2	(select$4 or choos$4) with (probability near3 baseline)	10	L2
L1	(keyword same query)	7567	L1

The additional search recommendations were confirmed with and recommended by a Primary Examiner of the pertinent art area.

With regard to the requirement of MPEP § 708.02(a)(I.)(I)(5) and item 6.6 above, Petitioner fails to address the requirement for an identification of any cited references that may be disqualified under 35 USC 103(c).

Any additional relevant prior art discovered due to an updated search must be included in the IDS document and meet all of the conditions as set forth in 6.1 - 6.6 above.

Clarification and identification of support for each limitation in the claim is required. Thus, the petition does not meet the conditions II. 5.2, 5.3, & 6.6 above.

DECISION

For the above-stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given ***a single opportunity*** to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a) is permitted) from the date of this decision in order to be considered timely. Any request for reconsideration ***must fully address all of the deficiencies indicated above***. [emphasis added]

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Rehana Perveen, Quality Assurance Specialist, at (571) 272-3676. If attempts to reach the undersigned by telephone are unsuccessful, Kakali Chaki, Quality Assurance Specialist, can be reached at (571) 272-3719.

In re Application of: DASH et al. Serial No.: 12/200,981 Filed: August 29, 2008 Docket: ARC920070042US3 Title: DISCOVERING INTERESTINGNESS IN FACETED SEARCH	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on March 20, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). The original petition, submitted on August 29, 2008 was dismissed in the decision mailed on February 19, 2009.

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:

To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve-month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application. In addition, Applicant is reminded that due to the dismissal of the previous petition submission, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Rehana Perveen, Quality Assurance Specialist, at (571) 272-3676. If attempts to reach the undersigned by telephone are unsuccessful, Kakali Chaki, Quality Assurance Specialist, can be reached at (571) 272-3719.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☑ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☐ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

Steven G. NANOS	:	
Application No. 12/201,200	:	DECISION ON PETITION
Filed: August 29, 2008	:	TO WITHDRAW
Attorney Docket No. SN002	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed March 10, 2010.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request was signed by Jeffrey I. Blankman on behalf of all the attorneys of record associated with Customer Number 48394.

All the attorneys of record associated with Customer Number 48394 have been withdrawn.

Applicant is reminded that there is no attorney of record at this time.

The correspondence address of record has been changed and the new correspondence address is the address indicated below, until otherwise properly notified.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6735.

	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 CFR § 1.36(b), filed August 5, 2009.

The request is **NOT APPROVED.**

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others.

The request cannot be approved because the address for neither the first named inventor nor the assignee of record was not provided in the request. The Office will only accept changes to the most current address information provided for the assignee of the entire interest that properly became of record under 37 CFR 3.71 or, the most current address of the first named inventor.

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Telephone inquiries concerning this decision should be directed to JoAnne Burke at 571-272-4584.

In re Application of: FINCHER, Nelson W. et. al.
Serial No.: 12/201,351
Filed: August 29, 2008
Docket: SJO920080048US1
Title: SOFTWARE RESOURCE ACCESS UTILIZING MULTIPLE LOCK TABLES

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on petition to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d) filed on August 29, 2008.

The petition also including Supplemental Information Disclosure Statement (IDS) filed on **December 22, 2008**.

Applicant (Lawrence, M. Brad, Reg. No. 47,210) was contacted on December 22, 2008 regarding original petition to make special filed in the above-identified application under 37 CFR 1.102(d) on August 29, 2008 and was informed of noted deficiency on instant petition.

Requirement of MPEP 708.02(a) (I) (1) and condition II. 6.1, states that an accelerated examination support document must include: an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims. The original AESD was found not in compliance 708.02(a) I(H)(5) and deemed insufficient for lack of identification and explanation.

More particularly, original IDS filed August 29, 2008 cited all references, namely, Dahlen et. al., Mori et. al., Freitas et. al., and Shultz et. al., all of which were stated on 9(A) References deemed most closely related section as deemed most closely related to the subject matter of the claims. However, only the Dahlen et. al., Mori et. al. references were discussed on the 9(B) Identification of Limitations Disclosed by References section of the Accelerated Examination Support Document (AESD). Thus, the AESD was found not in compliance 708.02(a) I(H)(5) and deemed insufficient for lack of identification and explanation as to what references were deemed most closely related to the subject matter of the claims and which references were not deemed most closely related to the subject matter of the claims.

Petitioner Supplemental submission of separate IDS(es) filed on December 22, 2008, namely, one citing references deemed most closely related to the claimed subject

matter, namely, Dahlen et. al., Mori et. al., and second IDS citing references not deemed most closely related to the claimed subject matter, namely, Freitas et. al., and Shultz et. al is *taken as an **admission** that Petitioner intended hereby to explicitly identify separate* IDS in compliance with 37 CFR §1.97 and §1.98. Namely, one IDS in support of the petition to make special for accelerated examination, listing the Dahlen et. al., Mori et. al as references cited deemed closely related to the subject matter claimed, and a second IDS not in support of the petition to make special for accelerated examination, listing Freitas et. al., and Shultz et. al. as references cited not deemed closely related to the subject matter claimed.

The petition to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d) filed on August 29, 2008 in further view of Supplemental IDS filed December 22, 2008 adequately addresses minor informalities noted on December 22, 2008, namely, requirements of MPEP 708.02(a) (I) (1) and condition II. 6.1.

For the above mentioned reasons, the petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.
2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than

a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office.

In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve-month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application. In addition, Applicant is reminded that due to the dismissal of the previous petition submission, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed the undersigned whose telephone number is (571) 272-4147.

In re Application of	:	
John J. Mohan	:	
Application No. 12/201,355	:	DECISION ON PETITION
Filed: August 26, 2008	:	TO WITHDRAW
Attorney Docket No. 61494-0004-02US	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed May 5, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by James M. Bollinger on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Terri Williams at 571-272-2991.

In re Application of	:	
PORTE, KAREN et al	:	DECISION ON REQUEST TO
Application No. 12/201450	:	PARTICIPATE IN PATENT
Filed: Aug 29, 2008	:	PCT/PROSECUTION HIGHWAY
Attorney Docket No. KP-1	:	PROGRAM AND PETITION
For: CUP HOLDER FOR WHEELED LUGGAGE	:	37 CFR 1.102(d)

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed July 6, 2010 to make the above-identified application special.

The request and petition are GRANTED.

A grantable request to participate in the PPH program and petition to make special require:
(1) The U.S. application must disclose an eligible relationship to one or more PCT applications filed in the JPO, EPO, KIPO or USPTO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the PCT application(s) latest international work product (the written opinion or the IPER) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the PCT application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of the latest international work product from the PCT application containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate; and
(6) Applicant must submit an IDS listing the documents cited by the PCT examiner in the international work product along with copies of documents except U.S. patents or U.S. patent application publications.

In light of the petition being properly submitted, the request to participate in the PPH program and the petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

The applicant is encouraged to cite and submit all relevant prior art references, if any, to facilitate examination in this application.

All other inquiries concerning the examination or status of the application should be directed to Anthony Stashick, the SPE of Art Unit 3781, and 571-272-4561 for Class 220/737 and also accessible in the PAIR system at http://www.uspto.gov/ebc.index.html.

All other inquiries concerning the examination or status of the application should be directed to the Patent Application Information Retrieval (PAIR) system.

The application will be docketed to an examiner for action on the merits commensurate with this decision.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen, at 571-272-4856.

The petition is **granted.**

In re Application of	:	
CANTOLINO, Christopher R.	:	
Application No. 12/201,453	:	DECISION ON PETITION
Filed: August 29, 2008	:	TO WITHDRAW
Attorney Docket No. **2910162-000001**	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed March 30, 2010.

The request is **NOT APPROVED** as moot.

A review of the file record indicates that the power of attorney to Baker, Donelson, Bearman, Caldwell & Berkowitz has been revoked by the applicant of the patent application on April 22, 2010. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to the undersigned at 571-272- 4231.

In re Application of	:	
HONHOFF, SASKIA GERARDA	:	DECISION ON PETITION
Application No. 12/201,501	:	TO MAKE SPECIAL UNDER
Filed: Aug. 29, 2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. 233014 /25229-0029	:	PILOT PROGRAM
Title: WIND TURBINE BLADE CLEANING METHOD		

This is a decision on the petition under 37 CFR 1.102, filed December 16, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant

will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived. The petition lacks item(s) #1 and #5.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 416/001) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 5, petitioner should note that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard. The statement provided fails to explain how the present invention materially contributes to the development of renewable energy resources or energy conservation.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen at 571-272-4856. The application is being forwarded to the Technology Center Art Unit 3745 for action in its regular turn.

In re Application of	:	
HONHOFF, SASKIA GERARDA	:	DECISION ON PETITION
Application No. 12/201501	:	TO MAKE SPECIAL UNDER
Filed: August 29, 2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. 233014 /25229-0029	:	PILOT PROGRAM

This is a decision on the renewed petition under 37 CFR 1.102, filed 6/10/10, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009) and amended by 75 Federal Register Notice 28554 (May 21, 2010).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must have no more than 3 independent claims and no more than 20 total claims. 2) The application must not contain any multiple dependent claims. 3) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 4) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a

request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 8 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Henry Yuen at 571-272-4856.

The application is being forwarded to the Technology Center Art Unit 3745 for action on the merits commensurate with this decision.

Scott A. FAULKNER et al.
Application No. 12/201,518
Filed: August 29, 2008
Attorney Docket No. 1017750-000917

DECISION ON PETITION
TO MAKE SPECIAL UNDER
37 CFR 1.102(c)(1)

This is a decision on the petition under 37 CFR 1.102(c)(1), filed November 19, 2008, to make the above-identified application special based on applicant's health as set forth in M.P.E.P. § 708.02, Section III.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section III: Applicant's Health, must be accompanied by evidence showing such as a doctor's certificate or other medical certificate that the state of health of the applicant is such that he or she might not be available to assist in the prosecution of the application if it were to run its normal course. No fee is required

The instant petition includes a physician's statement showing that the state of health of the applicant is such that he might not be available to assist in the prosecution of this application if it were to run its normal course. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Felix O. Figueroa at 571-272-6052.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 2618 for action on the merits commensurate with this decision.

Application No. 12/201,530	:	
Filed: 08/29/2008	:	
Attorney Docket No. 07-063	:	

This is a decision on the petition under 37 CFR 1.137(b), filed July 7, 2009, to revive the above-identified application.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application (Notice) mailed September 22, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 23, 2008. On June 2, 2009, the Office mailed a Notice of Abandonment.

Petitioner has met the requirements to revive the above-identified application pursuant to 37 CFR 1.137(b). Petitioner submitted the required reply, paid the petition fee, and made the proper statement of unintentional delay. Accordingly, the petition is **granted.**

This matter is being referred to the Office of Patent Application Processing.

Telephone inquiries specific to this decision may be directed to the undersigned at (571) 272-3211.

Application No.: 12/201,553
Filed: August 29, 2008
Title: METHOD TO SEAL IC WAFERS IN CARRIERS FROM AMBIENT ATMOSPHERE DURING TRANSPORTATION FROM ONE PROCESS TO THE NEXT

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 29, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. 103(c).

REVIEW OF FACTS

The conditions I: 1-4, II: 1-5, 5.1, 5.3, 6, 6.1, 6.4, and 6.6 above are considered to have been met. However, the petition fails to comply with conditions II: 5.2, 6.2, 6.3, and 6.5 above. Therefore,

the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Discussion

When referring to "the petition" herein below, the received papers under consideration include the four page PTO/SB/28 form "Petition to Make Special Under Accelerated Examination Program", the "pre-examination search document" (PESD) including pages 1-5; the "accelerated examination support document" (AESD) comprising pages 1-11, and one Information Disclosure Statement (IDS) in support of the AESD and one IDS not in support of the AESD.

Regarding the requirements of section II element 5.2 outlined above, it appears the search outlined in the petition omitted a critical search area by not searching as follows:

206/832, 833, 454 (container and housing (many include vents))
220/745, 89.1, DIG27 (vented containers)
438/106, 909 (methods of packaging wafers and controlled atmosphere)

Petitioner should also search in the appropriate subclasses of class 137 for the particular structures claimed for the relief valves.

Regarding the requirements of section II element 6.2 outlined above, the petition fails to identify all of the limitations in the application claims that are disclosed in each of the reference(s) and where the limitation is disclosed in each of the cited reference. As stated in the policy published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), for each reference cited, the examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. The policy statement does not caveat "the independent claims", nor does it allow for grouping and general discussions. A grantable petition must delineate every limitation of every claim and identify where the equivalent limitation is disclosed in each piece of prior art cited on the IDS. As is published on www.uspto.gov/web/patents/accelerated/ in "Guidelines for Applicants under the new accelerated examination procedures"):

> *For each reference cited, the accelerated examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. Applicants should specify where in each of the cited references the particular claim limitations are found. This process is intended to be analogous to the analysis an examiner uses when locating a relevant prior art reference and then determining whether the reference contains the claimed limitation. For each claimed limitation, the examiner would consider the disclosure of the reference and all reasonable portions in the reference where the limitation is shown. When preparing an Office Action, the examiner would correlate the limitation to the portion of reference which best characterizes the limitation. This part of the AESD is not intended to be an exhaustive listing of every conceivable subjective interpretation of how a claim limitation may read on the reference. Applicants should point out what are considered to be the relevant representations of the limitation in the reference. A limitation may be found in more than one portion of the reference and*

should be pointed out, yet the intention is not to have applicants point out every conceivable interpretation. The USPTO will adopt a rule of reason when evaluating this portion of the AESD. Unless the representation is so deficient that it would materially effect examination of the application (e.g., numerous instances where the limitations are not shown where applicant states they are), the representation will be deemed to be sufficient for this part of the AESD.

Petitioner's submission is not specific enough. Petitioner points out some limitations of the claim and provides direction to areas of the prior art where the corresponding limitation may be found. Petitioner does not address each discrete limitation (i.e., each single limitation, NOT multiple limitations bundled together) and state where it is (or state that it is not) found in each one of the most closely related prior art. The requirement of section II element 6.2 can be satisfied by listing verbatim ("copy and paste") the presently filed claim (i.e., the claim of the instant application) and by indicating where each discrete limitation (without bundling limitations to the extent possible) of said presently filed claim is taught (or is not taught) in each one of the most closely related references that are cited, by specifically indicating the element number and/or the relevant page/paragraph and line number(s), or by indicating "(not disclosed)" where appropriate - in order to ensure that no limitation was left out inadvertently. Claim recitations must be complete. Statements such as "Limitation II(b) – (not disclosed)", i.e., recitations that do not spell out the relevant limitations should be avoided. This one-to-one mapping should be performed individually, with regard to each one of the most closely related prior art that is cited, one reference at a time. Applicant's attention is drawn to the fact that the requirement of this element calls for a straight mapping of each single limitation unto the prior art. Section II element 6.2 is not the proper venue to imply patentability by bundling multiple limitations and concluding that the combination is not disclosed. Patentability arguments should be made only in response to the requirement of section II element 6.3. Discussion of teachings of the prior art that are not presently claimed should not be included.

With respect to the requirements of section II element 6.3 outlined above, the petition fails to provide a detailed explanation of how the claim is patentable over (each of) the reference(s) with particularity required by 37 CFR 1.111(b) and (c). Petitioners should be specific in their explanation and include the identification of specific claim limitations that support their position, where appropriate. Petitioners must distinguish the claim from each piece of prior art cited. General statements that the claim is neither anticipated nor rendered obvious by the cited references or that the references are not properly combinable will not be acceptable. The Office cannot infer or guess what petitioner believes the differences between the claims and the teachings of the prior art to be. Petitioner's statements must also be consistent and must be related to the claim language. The requirement of section II element 6.3 can be satisfied by indicating for the presently filed claim (i.e., the claim of the instant application) which specific i.e., discrete limitation(s) in said presently filed claims define(s) over each one of the most closely related references that is cited. This patentability showing should be performed individually, with regard to each one of the most closely related prior art that is been cited, one reference at a time. Patentability arguments must specifically spell out the relevant limitation(s); prior art patents can be referred to by the last name of the first inventor. Statements such as "Reference A does not teach limitation II(b)" must be avoided. Discussion of teachings of the prior art that are not directly relevant to the claimed invention should be avoided, because it

distracts the attention away from the main purpose of this element. For example, with regard to Seita, Petitioner provides a discussion of Seita's teachings that are different from the claimed invention (focusing on electromagnetic valve 15) but ignores depressurization valve 15A (although not discussed in Seita, depressurization valves, also known as relief valves, are conventionally spring loaded and pressure responsive). At the very least, Petitioner should have pointed out the existence of depressurization valve 15A in the mapping - element II: 6.2 above, and the patentability arguments – the current element II: 6.3.

Regarding the requirements of section II element 6.5 outlined above, the requirements of this section are not met because lack of specificity. A grantable petition requires petitioner to provide a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. The instant petition only identifies figures and portions of text with respect to bundled claim limitations as opposed to the disclosure of the required claim limitations, addressed individually for each limitation in the claim. The requirement of section II element 6.5 can be satisfied by listing verbatim the presently filed claim (by "copy and paste") and by indicating where the instant application (and separately each one of the priority documents – if applicable) teaches each discrete limitation (without bundling limitations together to the extent possible) in said presently filed claim, by indicating the element number and/or the relevant page and line numbers. Applicant's attention is also drawn to the requirements relevant under 35 U.S.C 112, 6th paragraph, listed above. Should this requirement not apply to the present application, Applicant should make a statement in this regard (requirement presently satisfied).

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address all of the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Programs Examiner, at (571) 272-4828. In his absence, an inquiry can be directed to J. Harrison, Special Program Examiner, at 571 272-4449.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the request for reconsideration filed on October 20, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). The request has been treated as a renewed petition to make the above-identified application special and has been viewed as a supplement to and in combination with the original petition which was filed on August 29, 2008 and dismissed in the Office letter of September 18, 2008.

The petition to make the application special is **DENIED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the conditions as outlined in the prior petition decision. The conditions are not repeated herein.

REVIEW OF FACTS

As stated in the decision of September 18, 2008 conditions I: 1-4, II: 1-5, 5.1 5.3, 6, 6.1, 6.4 and 6.6 were considered to have been met. However, the petition failed to comply with conditions II: 5.2, 6.2, 6.3, and 6.5. Upon reconsideration, the petition is considered to additionally meet II: 5.2., and 6.3. However, the petition still fails to meet the requirement of section II: 6.2 and 6.5. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DISCUSSION

With regard to the requirements of condition II: 6.2, Petitioner failed to satisfy its requirements, because the proposed mapping is lacking specificity and it is believed to contain inaccuracies.

For example, on pages 3-4 of the Accelerated Examination Support Document (AESD), with regard to the Tieben reference, Petitioner is bundling limitations extending over 13 lines to conclude that all said limitations are "not disclosed". Actually, at least some limitations are taught by Tieben. For example, the limitation recited at the bottom of p. 3 of the AESD:

> wherein each of the plurality of relief valves includes an outer shell configured to tightly fit within the vent openings,

is believed to be taught by Tieben as follows: first on paragraph [0008]:

> The container has at least one access structure defining a flow conduit into and out of the enclosure. A sealing grommet is situated within the access structure in a fluid-tight engagement. An outer surface of the grommet establishes a generally fluid-tight seal against an inner surface of the flow conduit. In one embodiment, the grommet defines a flow passageway such as, for example, a cylindrical bore.

and then on paragraph [0009]:

> [0009] Optionally, the flow passageway through the grommet includes at least one operational element substantially or totally contained therein. The operational element can be any component, subassembly, or device that couples or interfaces the interior volume of the wafer container to the exterior. Examples of operational elements include valves, filters, sensors, plugs, or combinations thereof. The operational element is in fluid-tight engagement against the interior sealing surface.

The requirement of section II element 6.2 can be satisfied by listing verbatim ("copy and paste") the presently filed claim (i.e., the claim of the instant application) and by indicating where <u>each discrete limitation</u> (without bundling limitations to the extent possible) of each one of said presently filed claim is taught (or is not taught) in <u>each one</u> of the most closely related references that is cited, by specifically indicating the element number and/or the relevant page/paragraph and line number(s), or by indicating "(not disclosed)" where appropriate - in order to ensure that no limitation was left out inadvertently. Limitations for which antecedent basis has been established and mapped unto the prior art reference need not be mapped repeatedly (the first time suffice). However limitations not disclosed must be specifically singled out (without bundling with disclosed limitations – to the extent possible). Note that disclosure may be express, implicit, or inherent. Claim recitations must be complete. Statements such as "Limitation II(b) – (not disclosed)", i.e., statements that do not spell out the relevant limitations should be avoided. This one-to-one mapping should be performed individually, with regard to each one of the most closely related prior art that is cited, one reference at a time. The requirement of this element calls for a straight mapping of each single limitation unto the prior art. Section II element 6.2 is not the proper venue to imply patentability by bundling limitations and concluding that the combination is not disclosed. Patentability arguments should be made only in response to the requirement of section II element 6.3.

With regard to the requirements of condition II: 6.5, Petitioner failed to satisfy its requirements because it is believed that the showing of support under 35 USC 112, first paragraph contains multiple inaccuracies. For example, on p. 13 of the AESD, Petitioner states:

> a door mechanism cooperating with the housing to form a fluid tight seal when attached thereto (Paragraph [0012]; FIG. 1), the door being removable to expose access to the housing opening; and (Paragraph [0012] and FIG. 1)

However, it is believed that paragraph [0012], reproduced immediately below, does not teach the limitation "the door being removable to expose access to the housing opening":

> **[0012]** As illustrated in Fig. 1, the present invention employs the use of a wafer carrier 10 which is generally illustrated in an open state. In this particular embodiment, wafer carrier 10 is intended to be a front opening type carrier, typically referred to as a front opening unified pod (FOUP), but the present invention may be applied to other carrier types as well. In this particular example, wafer carrier 10 includes a front door 20 and a main housing 30. Front door 20 is primarily planar, but it does include a seal 22 positioned on an interior surface thereof. Seal 22 is configured to interface with a front edge 32 of main housing 30. In this particular embodiment, seal 22 is an O-ring configured and designed to fit within appropriate ridges in door 20. Multiple different configurations are possible to achieve a desired seal between housing 30 and front door 20.

As a second example, on the same p. 13 of the AESD, Petitioner states:

> a plurality of relief valves (Paragraph [0014]; FIG. 1, elements 40, 60; FIGS. 2A, 2B), wherein each of the plurality of relief valves includes an outer shell configured to tightly fit within the vent openings (Paragraphs [0015], [0017], [0018]; FIGS. 2A, 2B),

Firstly, it is noted that the showing of support lacks the required specificity. Secondly, it is believed that none of the paragraphs [0015], [0017], [0018] teach the limitation: "wherein each of the plurality of relief valves includes an outer shell configured to tightly fit within the vent opening". For these reasons Petitioner failed to satisfy the requirements of condition II: 6.5. The requirement of section II element 6.5 can be satisfied by listing verbatim the presently filed claim (by "copy and paste") and by indicating where the instant application (and separately each one of the priority documents – if applicable) teaches <u>each discrete limitation</u> (without bundling limitations to the extent possible) in said presently filed claim, by indicating the element number and/or the relevant page and line numbers. To the extent possible, Petitioner should indicate the enablement location in the specification as required by statute, i.e., "the manner and process of making and using it," rather than pointing to the first occurrence of establishing antecedent for the limitation in the specification. For this reason Petitioner should indicate, to the extent possible, the combination of the element, figure, page, (or paragraph), and line numbers in the

specification where the mapped limitation is actually taught and enabled. If the application(s) for which domestic priority is claimed is/are identical to the present application, a statement to the effect that they are "substantially identical" in lieu of the required additional mapping is acceptable. Petitioner's attention is also drawn to the requirements relevant under 35 U.S.C 112, 6th paragraph, listed above. Should this requirement not apply to the present application, Petitioner should make a statement in this regard (requirement presently satisfied).

In closing, the following courtesy remark is made for future reference.

Regarding the requirements of condition II: 5.2, it is believed that on p. 2, l.3 of the Pre-examination Search Document, (the search in class) "436" is believed to be in error for - - 438--.

DECISION

For at least the above-stated reason (for failing to meet the requirement of section II: elements 6.2 and 6.5), the petition is **DENIED**. The application will remain in its regular status and will be taken up by the examiner for action in its regular turn.

Petitioner is reminded that a single opportunity to perfect the petition is given. Therefore, further petitions for accelerated examination in this application will not be entertained.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Program Examiner, at (571) 272-4828.

OFFICE OF PETITIONS

In re Application of
Jesse D. KEICHER, et al.
Application No. 12/201,692
Filed: August 29, 2008
Attorney Docket No. **355491-4001(G113)**

DECISION ON PETITION TO WITHDRAW FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed March 26, 2009.

The request is **DISMISSED** as moot.

A review of the file record indicates that the power of attorney to **FOLEY & LARDNER, LLP** has been revoked by the assignee of the patent application on May 11, 2009. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to the undersigned at 571-272- 7253.

In re Application of: BRESLAU, et al. Serial No.: 12/201,707 Filed: August 29, 2008 Docket: END920080095US1 Title: ISOTROPIC PROCESSOR	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 29, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I.1 through II.4, II.5.3, II.6.1, II.6.3, II.6.4, II.6.5 and II.6.6 above are considered to have been met. However, the petition fails to comply with condition II.5.1, II.5.2 and II.6.2 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of MPEP § 708.02(a)(I.)(H) and item 5.1 above, the preexamination search should identify the field of search by U.S. class and subclass. Petitioner has listed class 712/ subclasses **E09**.001, **E09**.009, etc. under the U.S. field of search; however, subclasses do not exist that begin with **E09** in class 712. "E" subclasses in class 712 are listed as **E9**.001, **E9**.009, etc. Clarification is requested.

Regarding the requirement of MPEP § 708.02(a)(I.)(H)(2) and item 5.2 above, the preexamination search must be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation.

With respect to the database searches, the preexamination search document includes only one query for all the databases searched. The query is drawn to storing processor instructions in a processor instruction pushdown stack which may be relevant to the claimed subject matter, but does not encompass all of the features of the claims. For instance, the claim limitations, some of which have been identified as patentable features distinguishing the claimed invention from the cited prior art (such as "failure" (or fault), "error", "executed" (or execution) and "subset" as recited in claim 1) or any search terms covering these limitations, do not appear to have been included in the search. Petitioner should review all claim limitations, especially those asserted as patentable distinctions from the cited references to ensure that the search covers these concepts, and update the search and/or provide any clarifications as deemed necessary. In addition, it is recommended that the entire patent/publication disclosure be searched (not limited to abstract or claims) and that the results of the search (number of hits, etc.) be provided. Correction is required.

Additional Class(es)/Subclass(es) should be searched:

714 (ERROR DETECTION/CORRECTION AND FAULT DETECTION/RECOVERY) subclasses 15 and 19 (were the instant application has been classified).

Note in particular the following U.S. Patents/Publications appear relevant:
6,968,476 B2
5,557,737 A
20080256519 A1
6,820,216 B2
6,011,908 A

Further, the following databases should have been included in the text search:
ACM
IEEE
IBM TDBD

Finally, the statement found under section "8D" of the "Pre-Examination Search Document" in the instant petition is confusing. That is, "No search report from a foreign patent office is being provided as the pre-examination search reports all foreign references in paragraph 8(A) herein.", implies that a foreign search report is available but is not going to be provided. Clarification is required.

The additional search recommendations were confirmed with and recommended by a (primary) examiner in the pertinent art area.

Note, the Petitioner should review the Identification of Limitations Disclosed by the References and Detailed Explanation of Patentability section in view of any updated search and/or clarifications and provide clarifications, as necessary, to ensure compliance with the requirement of MPEP§ 708.02(a)(I.)(I)(2)(3) and items 6.2 and 6.3 above.

Regarding the requirement of MPEP§ 708.02(a)(I.)(I)(2) and item 6.2 above, the Petitioner has not clearly identified the portions of the claim limitations believed to be disclosed by the references. While the Petitioner has identified the limitations by labeling them elements (a) through (g), the Petitioner has not identified the teachings in the references with respect to the language of the limitations. For instance, with respect the Cheong et al. reference, Petitioner states, "Cheong et al. discloses restoring a processor to a recorded state associated with a dispatched instruction group", however, it is not clear what claim 1 language this corresponds to since this language does not appear in the claim. All cited references suffer from a similar deficiency. For each reference cited, the accelerated examination support document must include an **identification of each limitation in the claim** that is disclosed by the reference specifying where the limitation is disclosed in the cited reference. Correction is required.

For these reasons, the petition does not meet the requirement of MPEP § 708.02(a).

Thus, the petition does not meet the condition II.5.1, II.5.2 and II.6.2 above.

DECISION

For the above-stated reasons, the petition is **DISMISSED.** The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-3595.

In re application of:
BRESLAU, et al.
Application No. 12/201,707
Filed: August 29, 2008
For: ISOTROPIC PROCESSOR

: **DECISION ON RENEWED PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 CFR 1.102**

This is a decision on the renewed petition filed on April 3, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

A petition to make special was filed in the above-identified application under 37 CFR 1.102(d) on August 29, 2008. That petition was dismissed in a decision mailed March 3, 2009 wherein a non-extendible period of 1 (one) month or 30 (thirty) days, whichever was longer, was set to request reconsideration.

In the decision mailed March 3, 2009, the reasons for the dismissal were identified to be inadequate preexamination search and an inadequate support document (conditions II. 5.1, 5.2 and 6.2 identified below).

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees that the dependent claims will be grouped together with and not to separately argue the patentability of any independent claim from which they depend during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I. 1-4, II. 1-4, 5, 5.1, 5.3, 6.1, 6.2 & 6.4-6.6 above are considered to have been met. However, the renewed petition fails to comply with conditions II. 5.2 & 6.3 above. Therefore, the renewed petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

With respect to items 5.2 above, in addition to failing to provide the results of the renewed (revised) search (i.e. the number of hits, etc.), the revised search ***fails to provide a response to the following recommendations set forth in the decision mailed on March 3, 2009:***

As identified from class 714 subclass 15 and 19:

Note in particular the following U.S. Patents/Publications appear relevant:
6,968,476 B2
5,557,737 A
20080256519 A1
6,820,216 B2
6,011,908 A

Although Petitioner cited U.S. **6,968,476** (Barowski et al.) in the renewed petition revised search, no comment on the relevancy nor citation of the remaining four references has been provided in the instant petition.

In addition, as identified in the decision mailed on March 3, 2009, the following database remains unsearched:

IBM TDBD

Further, no comment has been provided by Petitioner regarding why this database has not been searched in the revised search.

Finally, the supplemental Information Disclosure Statement (IDS) listed newly cited U.S. reference 6,968,476 to Barowski et al. (as discussed above) and re-cited U.S. 6,898,696 to Cheong et al. as most closely related. The previous IDS filed on August 29, 2009, providing the most closely related references, in addition to citing U.S. 6,898,696 to Cheong et al., also cited U.S. 6,904,517 to Nevill et al., U.S. 5,172,378 to Sugioka et al., as well as EP 1150203 to Richardson et al. The renewed petition fails to re-cite the remaining three references (above) on a separate IDS as not-in-support of the petition (not closely related) and to provide a discuss in support of this re-citation. Thus, the record is unclear as to the relevancy of Nevill et al., Sugioka et al. and Richardson et al.

For purpose of analysis of the discussion regarding limitations disclosed by the references (9B) in the renewed petition, the three references (discussed above) will be assumed to be not-in-support of the renewed petition.

With regard to the requirement of MPEP § 708.02(a)(I.)(I)(3) and item 6.3 above, 37 CFR § 1.111 (c) states in part "the applicant or patent owner must clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made." Specifically, the detailed explanation of ***how the claim is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c)*** [emphasis added] is incomplete. Unlike the originally filed petition of August 29, 2008, the renewed petition fails to provide a complete patentability analysis under 35 USC 102 and 35 USC 103 i.e. by minimally providing a statement that "*the claim patentably distinguishes over each of the references taken either alone (35 USC 102) or in combination (35 USC 103)*". Further, with reference to the revised search performed on March 26 and April 2, 2009 (and referenced in the instant petition) it was assumed that after the revised search was completed, new references would be found that better read on the claimed invention and would be properly analyzed in the support document included with any renewed petition. However, the instant petition fails to provide a detailed explanation of how the claim of the instant invention is patentable over the previously cited references U.S. 6,904,517 to Nevill et al., U.S. 5,172,378 to Sugioka et al., as well as EP 1150203 to Richardson et al. The revised petition fails to either 1) provide a detailed explanation in compliance with 37 CFR 1.111(b) and (c) of how the claim of the instant application (i.e. claim 1) is patentable over the references (identified above), or 2) to provide a explicit statement on the record that the most closely related references are only those newly cited references herein (i.e. provided with the instant petition) to the exclusion of the first (three) most closely related references (cited previously and noted above).

For these reasons, the petition does not meet the requirement of MPEP § 708.02(a).

For the above stated reasons, the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is reminded that a single opportunity to perfect the petition is given. Therefore, further petitions for accelerated examination in this application will not be entertained.

Any inquiry regarding this decision should be directed to Brian Johnson, Quality Assurance Specialist, at (571) 272-3595. If attempts to reach the undersigned by telephone are unsuccessful, Kakali Chaki, Quality Assurance Specialist, can be reached at (571) 272-3719.

In re Application of	:	
Pawel Kuklik, et al.	:	
Application No. 12/201,727	:	DECISION ON PETITION
Filed: August 29, 2008	:	TO WITHDRAW
Attorney Docket No. MED-003US	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed April 22, 2010.

The request is **NOT APPROVED** because it is moot.

A review of the file record indicates that the power of attorney to Foley and Lardner LLP has been revoked by the assignee of the patent application on March 24, 2010. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to Terri Johnson at 571-272-2991.

OFFICE OF PETITIONS

In re Application of	:	
Senanayake, et al.	:	
Application No. 12/201,728	:	ON PETITION
Filed: August 29, 2008	:	
Attorney Docket No. 2997-140	:	

This is in response to the "PETITION UNDER CFR 1.57(a)", filed November 12, 2008, requesting that the above-referenced application be accorded a filing date of August 29, 2008. This petition is being treated pursuant to 37 CFR 1.53(e)(2)[1].

Application papers in the above-identified application were deposited on August 29, 2008. However, on September 12, 2008, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings. Applicants request that the application be accorded the filing date of August 29, 2008 pursuant to 37 CFR 1.57.

Petitioner's arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one composition claim and at least one method claim. MPEP 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence). The same practice has been followed in composition applications.

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in MPEP 601.01(g) under the section entitled, "Application Entitled to a Filing Date," applicant may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [i]f an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application[.]

Receipt of the drawing and the amendment, submitted with the instant petition, is acknowledged.

To the extent the instant petition requests a filing date of August 29, 2008 with no drawings present in the application on filing, the petition is **GRANTED**.

Given the basis for granting this petition, the $400 petition fee is being refunded to petitioner under separate cover.

Pursuant to this decision, the application will be referred to Office of Patent Application Processing for:

- **correction of the filing date to August 29, 2008**;
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **for issuance of a filing receipt.**

Telephone inquiries concerning this matter may be directed to Petitions Attorney Cliff Congo at (571) 272-3207.

COPY MAILED
JAN 29 2010

In re Application of	:	
BACHRACH ET AL.	:	DECISION ON PETITION
Application No. 12/201,840	:	TO MAKE SPECIAL UNDER
Filed: August 29, 2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. 011141//USA/02/SBG/SOLAR	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed December 9, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction

requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks items 1, 2, 4, 5, and 9 above for the reasons as discussed in more detail below.

In regard to claim 1, it is noted that this application has been classified in an area (USPC 29/890.033) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 2, it is noted that a review of the application claims has been made for the purposes of determining the number of claims contained therein. This application contains more than 3 independent claims and/or more than 20 total claims (i.e., there are four independent claims, namely, claims 1, 7, 14, and 18). As set forth in the Notice, if the application contains more than 3 independent claims or more than 20 total claims, it will not be eligible to participate in the "Pilot Program for Green Technologies Including Greenhouse Gas Reduction."

In regard to item 4, it is noted that the instant petition fails to state the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice.

In regard to item 5, it is noted that, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard.

In regard to item 9, it is noted that, as set forth at numeral 7 in the Requirements section of the Notice, the petition to make special must be accompanied by a request for early publication and the publication fee set forth in 37 CFR 1.18(d). Since the publication fee was not included and no authorization was given for charging this fee, the petition is dismissed.

Further correspondence with respect to this matter should be addressed as follows:

Filed: August 29, 2008	:	TO WITHDRAW
Attorney Docket No. 091619-01652	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 20, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Mark A. Kassel on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Terri Johnson at 571-272-2991.

Docket: RPS920080120US1
Title: CENTRAL PROVIDER AND SATELLITE PROVIDER UPDATE AND DIAGNOSIS INTEGRATION TOOL

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on August 29, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I.1–I.4, II.5.2, II.5.3, II.6.2, II.6.4, and II.6.6 above are considered to have been met. However, the petition fails to comply with conditions II.5.1, II.6.1, II.6.3 and II.6.5 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of MPEP § 708.02(a)(I.)(I)(2) and item 5.1 above, the preexamination search should identify the field of search by U.S. class and subclass. Petitioner has listed classes 717/168, 171, 173, 174, 178; 705/001; 709/221, 223, 224; 713/002; 715/721; 714/004, 023, 025, 036, 038, 046; 702/182, 108, 183 under the U.S. field of search, however, it is not clear whether a complete classification search of each class and subclass was conducted or if the search for these classes was limited by any text query or a set of text queries as it appears in the Database Search section of the preexamination search document on page 2. It is noted that listing only class/subclasses searched will be taken a s representation by the petitioner that each of the patent documents classified under each class/subclass listed in section 8(A) was reviewed in its entirely for subject matter relevant to the claimed invention. Petitioner is requested to provide clarification as to whether a limited classification search or a complete classification search was conducted.

Regarding the requirement of MPEP§ 708.02(a)(I.)(I)(1) and item 6.1 above, the Petitioner should provide an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims. The IDS submitted on 08/29/08 appears to contain an error with respect to US-2007/0240152 A1 because it cites the name as being "Deblaquiere et al." when it should read "Li, et al". Correction is required.

Regarding the requirement of MPEP§ 708.02(a)(I.)(I)(3) and item 6.3 above, the Petitioner should provide a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c). Specifically, Petitioner should ensure that the above discussion is directed to how the language of the claim is **specifically** distinguishable and patentable from each of the references provided in requirement 6.1 above, ***rather than to repeat essentially the entirety of the claim***. The office cannot infer or guess what Petitioner believes the differences between the claim and the teaching of the prior art to be. Furthermore, it would be difficult to conclude that the pre-examination search was directed to the claimed invention if essentially none of the claimed limitations were found in the prior art deemed "most closely related" by Petitioner. Clarification is required.

Regarding the requirement of MPEP§ 708.02(a)(I.)(I)(5) and item 6.5 above, the Petitioner should provide a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. Specifically the recitation, *results of the system repair for the product system, the automatic repair ticket, and the automated replacement order"* does not appear to be supported by page 8, lines 3-15 of the Specification. Correction is required.

Thus, the petition does not meet the conditions II.5.1, II.6.1, II.6.3 and II.6.5 above.

DECISION

For the above-stated reasons, the petition is **dismissed**.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-3591.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the revised petition filed on April 10, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:

To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

This application will be processed expeditiously. However, due to the dismissal of the petition filed August 29, 2008, examination may not be completed within twelve months of the filing date of the application.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Gail Hayes, Quality Assurance Specialist, (571) 272-3591.

OFFICE OF PETITIONS

In re Application of
Karin Jooss, et al..
Application No. 12/201,905
Filed: August 29, 2008
Attorney Docket No. 11768-009-999

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed May 13, 2010.

The request is **NOT APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others.

The request cannot be approved because the practitioner(s) requesting the withdrawal have not certified that they have (1) given reasonable notice to the client, prior to the expiration of the response, period that the practitioner(s) intend to withdraw from employment; (2) delivered to the client or duly authorized representative of the client papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond. The failure to do so may subject the practitioner to discipline. It is also noted that false certification may violate a practitioners' duty under 37 CFR 10.23(b)(4) and (b)(5).

In order to request or take action in a patent matter, the assignee must establish its ownership of the patent to the satisfaction of the Director. In this regard, a Statement under 37 CFR 3.73(b) must have either: (i) documentary evidence of a chain of title from the original owner to the assignee (*e.g.*, copy of an executed assignment), and a statement affirming that the documentary evidence of the chain of title from the original owner to the assignee was or concurrently is being submitted for recordation pursuant to § 3.11; or (ii) a statement specifying where documentary evidence of a chain of title from the original owner to the assignee is recorded in the assignment records of the Office (*e.g.*, reel and frame number).

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Telephone inquiries concerning this decision should be directed to undersigned at 571-272-1642. All other inquiries concerning the examination or status of this application should be directed to the Technology Center.

Privacy Act Statement

The **Privacy Act of 1974 (P.L. 93-579)** requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (*i.e.*, GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

In re Application of	:	
Frank SHUN	:	DECISION ON PETITION
Application No. 12/201,925	:	TO MAKE SPECIAL UNDER
Filed: 29 August 2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. 030348.00008	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 14 January 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition

must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Lee W. Young at 571-272-4549.

The application is being forwarded to the Technology Center Art Unit 2818 for action on the merits commensurate with this decision.

Travis Mickle et al.
Application No. 12/202,003
Filed: August 29, 2003
Attorney Docket No. 20342/1202887-USE

ON PETITION

This is a decision on the Request to Remove which is being treated as a petition under 37 CFR 1.59(b), filed February 10, 2009 to expunge information from the above identified application.

The petition is **granted**.

Petitioner requests that documents titled Response to the Notice of Missing Parts including a request for Extension of time, replacement drawings, and extension and surcharge fee (EFS ID 4742939), filed February 5, 2009, be expunged from the record. Petitioner states that the information submitted was erroneously filed in the instant application. The petition fee set forth in 37 CFR 1.17(g) has been charged to petitioner's deposit account.

The information in question has been determined by the undersigned to not be material to the examination of the instant application. The information was clearly intended to be filed in an unrelated application.

The expunged material has been removed from the official file.

The application is being returned to Technology Center Art Unit 1654.

Patent Number	: 7599122	: RECALCULATION of PATENT
Issue Date	: 10/06/2009	: TERM ADJUSTMENT IN VIEW
Application No	: 12/202,008	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 08/29/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

DECISION GRANTING PETITION UNDER 37 CFR 1.138(d)

The declaration of express abandonment is recognized

This is in response to the petition under 37 CFR 1.138(d), requesting for a refund of any previously paid search fee and excess claims fee in the above-identified application.

The petition is granted.

The express abandonment is recognized. Any previously paid search fee and excess claims fee are hereby refunded.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

Bongfeldt, Lewis, and Yensen
Application No.: 12/202,040
Filed: August 29, 2008
Attorney Docket No 42108-207096
FOR: RADIO ANTENNA ASSEMBLY AND APPARATUS FOR CONTROLLING TRANSMISSION AND RECEPTION OF RF SIGNALS

: DECISION NOTING JOINDER

This is in response to the petition filed March 9, 2009, and the petition filed March 12, 2009, noting the joinder of inventor Lewis in the above-cited application.

The petition filed March 9, 2009, is DISMISSED in view of the joinder of inventor Lewis.

In view of the joinder of the inventor, further consideration under 37 CFR 1.47(a) is not necessary. This application does not have any Rule 1.47(a) status and no such status should appear on the file wrapper. This application need not be returned to this Office for further consideration under 37 CFR 1.47(a).

The Manual of Patent Examining Procedure ("MPEP"), § 409.03(j) provides that "[i]n the event the previously non-signing inventor decides to join the application by filing an executed oath or declaration complying with 37 CFR 1.63, the oath or declaration will be placed in the application file."

Accordingly, the declaration executed by the joint inventors is noted and made of record.

This application is being directed to the Office of Patent Application Processing for further processing.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3222.

Application No	: 12/202,053	: OF WYETH
Filed	: 08/29/2008	:
		:

The Patentee's Request for Recalculation is **DISMISSED.**

This Request is deemed ineligible for consideration for one or more of the following reasons:

(A). The patent for which PTA recalculation is requested is either a design or reissue application or is a reexamination proceeding;

(B). The patent for which PTA recalculation is requested resulted from a utility or plant application filed under 35 USC 111(a) before May 29, 2000 and no CPA filed in the application on/after May 29, 2000;

(C). The patent for which PTA recalculation is requested resulted from an international application in which the international filing date was before May 29, 2000 and no CPA filed in the application on/after May 29, 2000;

(D). The patent for which PTA recalculation is requested issued on/after March 2, 2010;

(E). The Request for Recalculation was filed more than 180 days after the grant date of the patent and the request was not filed within two months of a dismissal of a request for reconsideration of the of the patent term under 37 CFR 1.705(d);

(F). The Request for Recalculation is not solely limited to USPTO pre-Wyeth interpretation of 35 U.S.C. 154(b)(2)(A);

or

(G). A civil action was filed pursuant to 35 U.S.C. 154(b)(4)(A)concerning the same patent at issue in this request.

Patentee may file a reply to this decision dismissing the Request for Recalculation. Patentee must file such reply within one month or thirty days, whichever is longer, of the mail date of the decision dismissing the Request for Recalculation. No fee is required if patentee is asserting in the reply that the dismissal for ineligibility is improper.

Patentee should use document code PET.OP if electronically filing a reply to this dismissal. If the USPTO finds that the request was improperly deemed ineligible, the USPTO will mail applicant a recalculation determination.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A). Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154 (b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

In re Application of: **NIR-BUCHBINDER, et al.** Serial No.: **12/202,084** Filed: **August 29, 2008** Docket: **IL920080106US1 (105131)** Title: **EXTENSION OF LOCK DISCIPLINE VIOLATION DETECTION FOR LOCK WAIT PATTERNS**	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on **August 29, 2008** to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees that the dependent claims will be grouped together with and not to separately argue the patentability of any independent claim from which they depend during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I. 1-4 & II. 1-4, 5, 5.1, 6, 6.1-6.3, 6.5 & 6.6 above are considered to have been met. However, the petition fails to comply with conditions II. 5.2, 5.3 and 6.4 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of MPEP § 708.02(a)(I.)(H)[1] and items 5.2 & 5.3 above, the preexam search must be directed to the (instant) claimed invention and encompass all of the disclosed features of the claim. Note, the provision of the identified search logic provided to locate the references cited in the instant petition does not meet this requirement, in particular, based upon the claimed subject matter of the instant application, a search in the following class and subclass (***classification search***) is necessary in order to provide full coverage of where the most pertinent references are most likely to be found: class 710/ (ELECTRICAL COMPUTERS AND DIGITAL DATA PROCESSING SYSTEMS: INPUT/OUTPUT) subclasses 200, 220 and 241-244. In addition, class 711 subclasses 148-151 should be searched.

In addition, the text search is deficient because it is limited by subclasses and therefore eliminates the search concept where it appears in patent documents not classified in the subclass areas to which it is limited. Further, only the terms "deadlock" and "dead lock" were searched. Terms such as "conflicting"; "lock"; "deadly embrace"; "resource lock"; "lockout"; "lock up" and related synonyms were not included in the text search which would be required to identify relevant prior art.

The additional search recommendations were confirmed with and recommended by a (primary) examiner in the pertinent art area.

With regard to the requirement of MPEP § 708.02(a)(I.)(I)(4) and item 6.4 above, the concise statement of the utility ***must be of the invention as defined in (each of) the independent claim(s)*** i.e. in section 9(D), reference is made to the recitation "in that it detection of certain types of deadlocks that are currently not detected by known static and dynamic analysis methods" in the instant petition. Note the instant claim is drawn to a "**computer program product**" for detection of potential shared memory access deadlocks, whereas the Statement of Utility implies the instant claim is drawn to a method. Correction is required.

Thus, the petition does not meet the conditions II. 5.2, 5.3 and 6.4 above.

DECISION

For the above-stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given ***a single opportunity*** to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer,

[1] MPEP 8th ed. rev 5 August 2006

(no extension of time under 37 CFR 1.136(a) is permitted) from the date of this decision in order to be considered timely. Any request for reconsideration ***must fully address all of the deficiencies indicated above***. [emphasis added]

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Brian Johnson, Quality Assurance Specialist, at (571) 272-3595. If attempts to reach the undersigned by telephone are unsuccessful, Kakali Chaki, Quality Assurance Specialist, can be reached at (571) 272-3719.

In re application of:
NIR-BUCHBINDER, et al.
Application No. 12/202,084
Filed: August 29, 2008

For: EXTENSION OF LOCK DISCIPLINE VIOLATION DETECTION FOR LOCK WAIT PATTERNS

DECISION ON RENEWED PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 CFR 1.102

This is a decision on the renewed petition filed on March 18, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

A petition to make special was filed in the above-identified application under 37 CFR 1.102(d) on August 29, 2008. That petition was dismissed in a decision mailed February 18, 2009 wherein a non-extendible period of 1 (one) month or 30 (thirty) days, whichever was longer, was set to request reconsideration.

In the decision mailed February 18, 2009, the reasons for the dismissal were identified to be inadequate preexamination search and an inadequate support document (conditions II. 5.2, 5.3 and 6.4 identified below).

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees that the dependent claims will be grouped together with and not to separately argue the patentability of any independent claim from which they depend during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I. 1-4, II. 1-4, 5, 5.1, 6.1-6.6 above are considered to have been met. However, the renewed petition fails to comply with conditions II. 5.2 & 5.3 above. Therefore, the renewed petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

With respect to items 5.2 & 5.3 above, the revised class and subclass search ***fails to indicate that a full and complete search of the recommended class and subclass(es) was performed***. As stated in the earlier decision "a search in the following class and subclass (***classification search***) is necessary in order to provide full coverage of where the most pertinent references are most likely to be found: class 710/ (ELECTRICAL COMPUTERS AND DIGITAL DATA PROCESSING SYSTEMS: INPUT/OUTPUT) subclasses 200, 220 and 241-244. In addition, class 711 subclasses 148-151 should be searched". As indicated on page 2 of the instant petition, it is clear that the search performed on February 26, 2009 was additionally limited by text search terms rather than performed as a full and complete classification search as recommended.

In addition, the text search is deficient because it is limited by class/subclasses and therefore eliminates the search concept where it appears in patent documents not classified in the class/subclass areas to which it is limited. The instant petition further does not provide an explanation as to ***why the full recommended classification search*** (as suggested above in the decision of February 18, 2009) ***was not performed and why, this limited, truncated search is therefore sufficient for compliance***.

As a result of the classification search being unduly limited by using text terms, a number of highly pertinent prior art references were missed.

A very close reference in the classified search area which was missed was US Pat. No. 5,060,144 (from 710/200) to Sipple et al that teaches all of the claim limitations except

that if ANY process (as opposed to the requesting process) holds locks other then the first lock it performs the claimed function of telling the user. Sipple et al issues "status to the user" about the locks instead of a "warning to the user about potential deadlock".

Several pertinent references that were similarly overlooked take into account the situation wherein the requester holds a lock other than the first lock, such as US 7,496,574 (from 710/200) for a second lock; US 5,440,743 (from 710/200) for multiple locks from the same requester for detecting deadlock; and US 7,487,278 (from 710/200) that detects plural locks for multiple requesters and determines if there is a deadlock possibility.

It would appear that US 5,060,144 could be predictably combined with US 7,487,278 to yield a combination of prior art teaching all of the claimed limitations as presented for consideration.

The (renewed petition) search recommendations were confirmed with and provided by a (primary) examiner in the pertinent art area.

Therefore, one must conclude that the pre-examination search is deficient, since relevant prior art was not properly identified due to text limiting of the classified search areas.

For the above stated reasons, the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is reminded that a single opportunity to perfect the petition is given. Therefore, further petitions for accelerated examination in this application will not be entertained.

Any inquiry regarding this decision should be directed to Quality Assurance Specialist Brian Johnson at (571) 272-3595.

OFFICE OF PETITIONS

In re Application of	:	
Travis Mickle, et al.	:	
Application No. 12/202,096	:	ON PETITION
Filed: August 29, 2008	:	
Attorney Docket No. 20342/1202887-USG	:	

This is a decision on the petition, filed July 10, 2009, which is being treated as a petition under 37 CFR 1.181 (no fee) requesting withdrawal of the holding of abandonment in the above-identified application.

The petition is **GRANTED**.

This application was held abandoned for failure to reply to the Notice to File Missing Parts of Nonprovisional Application (Notice) mailed September 12, 2008, setting a two-month period for reply. A Notice of Abandonment was subsequently mailed on May 6, 2009. In response on May 18, 2009, the present petition was filed, wherein petitioner requests that the abandonment be withdrawn since a response was timely filed on February 5, 2009. Petitioner explains that the response was inadvertently uploaded into an incorrect application number. A copy of the response is included with the present petition.

A review of record of the incorrect application confirms receipt of the response filed February 5, 2009. Further, it is noted that the response was directed to the correct application number and included an appropriate 3-month petition for extension of time. The $1,110 extension fee will be charged to counsel's deposit account as authorized.

In view of the above, the holding of abandonment is hereby withdrawn and the application is restored to pending status.

The application is being referred to the Office of Patent Application Processing (OPAP) for further processing using the copy of the declaration supplied with the petition on July 10, 2009.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3204. Telephone inquiries related to processing at OPAP should be directed to their hotline at (571) 272-4000.

OFFICE OF PETITIONS

In re Application of	:	
Gerhard Uwe Schmidt, et al.	:	
Application No. 12/202,147	:	DECISION ON PETITION
Filed: August 29, 2008	:	TO WITHDRAW
Attorney Docket No. 11336-1920 (P07122US)	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed June 15, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by James A. Collins on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Terri Williams at 571-272-2991.

Filed: August 29, 2008 :
Attorney Docket No. 0009.0273USC1/01185CON :

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. §1.36(b), filed June 23, 2009.

The request is **NOT APPROVED** because it is moot.

The request was signed by Jeramie J. Keys on behalf of himself and James D. Withers, Arno T. Naeckel and Daniel J. Layden. However, a review of the file record indicates that the assignee of the patent application revoked all previous powers of attorney on July 22, 2009. Accordingly, the request to withdraw under 37 CFR §1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to the undersigned at 571-272-3204.

In re Application of :
Ralf BERGER, et *al.* :
Application No. 12/202,165 : DECISION GRANTING PETITION
Filed: August 29, 2008 : UNDER 37 CFR 1.313(c)(2)
Attorney Docket No. **07844-0678002** :

This is a decision on the petition under 37 CFR 1.313(c)(2), filed March 25, 2010, to withdraw the above-identified application from issue after payment of the issue fee. .

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). *See* 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on February 11, 2010 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries should be directed to the undersigned at (571) 272-7253.

This application is being referred to Technology Center AU 2628 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed information disclosure statement.

In re Application of :
Say et al. :
Application No. 12/202,169 : ON PETITION
Filing: August 29, 2008 :
Attorney Docket No. TS-02-26C26 :

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 17, 2010, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required.

The instant petition includes a statement (PTO/SB/130 form) by the applicant's attorney that the applicant is 65 years of age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6059. All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Attorney Docket No. **37143-509001US**	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed September 21, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request was signed by Pedro F. Suarez on behalf of all attorneys of record who are associated with customer No. 64046. All attorneys/agents associated have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence address of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor.

There are no outstanding Office actions at this time.

In re application of
Hsiang-Chi Tang
Application No. 12/202,264
Filed: August 30, 2008
Attorney Docket Number: CFP-4068 (C-464)

ON PETITION

This is a decision on the petition filed June 16, 2009 under 37 CFR 1.183, which is being treated as a request under 37 CFR 3.81(b)[1] to correct the assignee's name on the front of the Patent.

The petition under 37 CFR 3.81 is **DISMISSED**.

Petitioner states that the correct assignee's name is LARGAN PRECISION CO., LTD. and that the Issue Fee Transmittal was filed with an error in the Assignee's name. Accordingly, petitioner requests that upon issuance the correct assignee be indicated on the front page of the Letters Patent.

37 CFR 3.81(b), effective June 25, 2004, reads:

> *After payment of the issue fee:* Any request for issuance of an application in the name of the assignee submitted after the date of payment of the issue fee, and any request for a patent to be corrected to state the name of the assignee, must state that the assignment was submitted for recordation as set forth in § 3.11 before issuance of the patent, and must include a request for a certificate of correction under § 1.323 of this chapter (accompanied by the fee set forth in § 1.20(a) and the processing fee set forth in § 1.17(i) of this chapter.

It is noted that when a request to issue a patent to an assignee is filed after payment of the issue fee, a certificate of correction must be submitted as there is no time to process these requests before a patent is issued. See 69 Fed. Reg. 29865 (May 26, 2004).

---

[1] *See* Official Gazette of June 22, 2004

Furthermore, the instant request was not submitted with a petition under 37 CFR 3.81 and request for a certificate of correction (PTO/SB/44) as required by 37 CFR 1.323 (and fee) as required by 3.81(b) and thus is not grantable.

Any request for reconsideration should be filed within **TWO MONTHS** of the date of this decision in order to be considered timely. This time period may not be extended pursuant to 37 CFR 1.136. The application will be retained in the Office of Petitions for **TWO (2) MONTHS** to await petitioner's reply to this decision.

Further correspondence with respect to this matter should be addressed as follows:

AUG 3 1 2009

OFFICE OF PETITIONS

In re Patent No. 7,564,635 :
Issued: July 21, 2009 :
Application No. 12/202,264 : ON PETITION
Filed: August 30, 2008 :
Attorney Docket Number: CFP-4068 (C-464) :

This is a decision on the petition filed July 24, 2009 under 37 CFR 1.183 for a refund.

The petition is **DISMISSED**.

A petition filed June 18, 2009 to correct the assignee's name on the front of the Patent was dismissed in a decision mailed July 10, 2009 because when a request to issue a patent to an assignee is filed after payment of the issue fee, a certificate of correction must be submitted as there is no time to process these requests before a patent is issued. See 69 Fed. Reg. 29865 (May 26, 2004). Furthermore, the petition was not filed under 37 CFR 3.81(b)[1].

37 CFR 3.81(b), effective June 25, 2004, reads:

> After payment of the issue fee: Any request for issuance of an application in the name of the assignee submitted after the date of payment of the issue fee, and any request for a patent to be corrected to state the name of the assignee, must state that the assignment was submitted for recordation as set forth in § 3.11 before issuance of the patent, and must include a request for a certificate of correction under § 1.323 of this chapter (accompanied by the fee set forth in § 1.20(a) and the processing fee set forth in § 1.17(i) of this chapter.

Comes now petitioner claiming that the filing of the petition on June 18, 2009 was improper and was a mistake, and requesting pursuant to 37 CFR 1.183 and 1.26 a refund of the fees paid on petition.

---

[1] *See* Official Gazette of June 22, 2004

Petitioner is advised that changing ones mind about treatment of a petition is not considered a "mistake" for the purposes of 37 CFR 1.26.

Furthermore, as petitioner received consideration of the petition filed June 18, 2009, they are not entitled therefore to a refund of the petition fees.

Now that the patent has issued, if petitioner so chooses to correct the name of the assignee, the option is still available to file a request for reconsideration under 37 CFR 3.81 with a request for a certificate of correction (PTO/SB/44) as required by 37 CFR 1.323 (and fee) as required by 3.81(b).

Any request for reconsideration should be filed within **TWO MONTHS** of the date of this decision in order to be considered timely. This time period may not be extended pursuant to 37 CFR 1.136. The application will be retained in the Office of Petitions for **TWO (2) MONTHS** to await petitioner's reply to this decision.

Further correspondence with respect to this matter should be addressed as follows:

By mail: Mail Stop Petitions

Attorney Docket No. SSI-047 (991081)

DECISION ON PETITION

This is a decision on the petition filed January 22, 2010 requesting under 37 CFR 1.182 that the acceptance of the terminal disclaimer filed July 31, 2009 be withdrawn. The $ 400.00 petition fee has been received.

The petition is **GRANTED**.

Petitioners assert that, as the claims for which the aforementioned terminal disclaimer was originally proffered were cancelled, there is no further need for the disclaimer to remain recorded against this application. The undersigned has consulted with the examiner in charge of this application, and has found that the examiner concurs with petitioners' assertion. Accordingly, the terminal disclaimer is withdrawn.

This application is being forwarded to the Office of Patent Publication for further processing.

Telephone inquiries related to this decision should be addressed to the undersigned at (571) – 272-3215

In re Application of	:	
Kentaro Hayashi	:	
Application No. 12/202,340	:	DECISION GRANTING PETITION
Filed: September 1, 2008	:	UNDER 37 CFR 1.313(c)(2)
Attorney Docket No. SN-US070849	:	

This is a decision on the petition under 37 CFR 1.313(c)(2), filed November 5, 2009, to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). *See* 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on October 27, 2009 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries should be directed to the undersigned at (571) 272-3208.

This application is being referred to Technology Center AU 3654 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed IDS.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 1st 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions set forth under section I. above are considered to have been met. However, the petition fails to comply with conditions set forth under section II, items 5.1-5.3, 6.2, 6.3, and 6.5.

For these reasons cited above, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement in items 5.1-5.3 above, the preexamination search document provided with the instant petition is deficient as follows:

The US field of search and database searches which are to be provided under section 8(A) are not sufficient. In addition to the search areas provided, applicant would also need to search in the following class/subclasses: 340/539.13, 340/539.22, 340/573.1; and 455/404.1, 455/404.2, 455/90.1.

Further, the search should be broader, the search strings use too many "AND" operators. The search strings should consider using "OR" as the operator in place of "AND" or reduce the number of "AND" operators in a search string in order to broaden out the search.

If any request for reconsideration is filed, an updated preexamination search must be conducted as per item 5.1 above, and the Preexamination Search Document must be amended to indicate such; a new Information Disclosure Statement should be filed to cite any newly found prior art, and the Accelerated Examination Support Document must also be amended to include the necessary reference and discussion of any newly found and cited prior art in accordance with all of items 6 through 6.6 above.

Regarding the requirement in item 6.2 above, petitioner provides under section 9(B) an identification of some of the claimed limitations with respect to each reference cited in the IDS in support of the Accelerated Examination Support Document. However, the petitioner failed to cite the exact location within the cited art of each claim limitation. The Applicant must cite the column and line within the listed reference(s) and any relevant figure items, such that each limitation is accounted for. Therefore, any request for reconsideration must specify where each of the identified claim limitations are disclosed in each of the cited references as set forth in item 6.2 above.

Regarding the requirement in items 6.2 and 6.3 above, petitioner does not provide an identification of claimed limitations and/or a detailed explanation of patentability of each of the claims ***with respect to each reference*** cited in the IDS in support of the Accelerated Examination Support Document. Petitioner has only identified claim limitations and also argued the patentability of the claims in regard to three of the sixteen cited references in the IDS filed with the accelerated examination support document. The Accelerated Examination Support Document does not provide an identification of claimed limitations and/or a detailed explanation of patentability of the claim with respect to the other thirteen cited references . *Therefore, any request for reconsideration must provide a detailed explanation in regard to each of the claims with respect to the other thirteen cited references as set forth in items 6.2 and 6.3 above.*

In regard to item 6.5, the Accelerated Examination Support Document is deficient because section 9(E) fails to include a showing of where each limitation of the claim finds support under the first paragraph of 35 USC 112 in the written description of the present application,

specification. The Applicant provides a detailed chart that cites support for each claim, but fails to cite support specific to each limitation of the claims. There is no indication where each limitation is supported in the written description of the specification. Therefore, any request for reconsideration must specify where the above identified claim limitations are disclosed in the present application, as set forth in item 6.5 above.

For the reason cited above, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Michael Horabik, Quality Assurance Specialist, at (571) 272-3068.

DANIEL KATZ
87 TZAHAL ST.
KIRYAT-ONO 55451 IL ISRAEL

In re Application of: DANIEL A. KATZ Serial No.: 12/202,357 Filed: September 1, 2008 Attorney Docket No.: Title: **DUAL MODE PERSONAL LOCATOR BEACON**	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on October 19, 2008 requesting reconsideration to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

All of the requirements to correct the deficiencies outlined in the petition decision mailed October 14, 2008 have been met.

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Michael Horabik, Quality Assurance Specialist, at (571) 272-3068.

Title: CLOSURE DEVICE FOR SHOE

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 1, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

The application as filed is not eligible for the accelerated examination under 37 C.F.R. § 1.102(d) because it was not complete under 37 CFR 1.51 and in condition for examination at the time of filing. The mailing of a Notice to File Missing Parts of Nonprovisional Application on September 8, 2008 is evidence that the application was not complete and in condition for examination at the time of filing.

Note that the policy as published in the Federal Register on June 26, 2006 as outlined on 36326, part I, conditions for examination, section (4), requirements for petitions to make special under accelerated examination, requires an executed oath or declaration under 37 CFR 1.63. As the oath or declaration in compliance with 37 CFR 1.63 was missing at filing, the application is not considered to be complete under 37 CFR 1.51(b)(2) and not in condition for examination at the time of filing. Therefore, the application is ineligible for consideration under the accelerated examination program.

For the above-stated reasons, the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Program Examiner, at (571) 272-4828. In his absence, an inquiry can be directed to J. Harrison, Special Program Examiner, at 571 272-4449.

Filed: September 1, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. 124HK002A	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 1, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a declaration statement by the applicant. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6735.

This application is being referred back to the Office of Patent Application Processing for processing. This application will be accorded "special" status when pre-examination processing is done.

In re Application of :
Lee Anthony Jesberger :
Application No. 12/202,376 : ON PETITION
Filed: September 1, 2008 :
Attorney Docket No. LJ0908 :

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed June 15, 2009, to revive the above-identified application.

The petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(b)." This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

The application became abandoned for failure to reply in a timely manner to the Notice to File Corrected Application Papers (Notice) mailed September 23, 2008.

A grantable petition under 37 CFR 1.137(b) must be accompanied by: (1) the required reply, unless previously filed; (2) the petition fee as set forth in 37 CFR 1.17(m); (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional; and (4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required by 37 CFR 1.137(d). Where there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137 was unintentional, the Director may require additional information. See MPEP 711.03(c)(II)(C) and (D). The instant petition lacks item(s) (1).

The drawings submitted on June 15, 2009 are not properly identified in the top margin as "Replacement Sheet," "New Sheet," or "Annotated Sheet" as required by 37 CFR 1.121(d), as required in the Notice mailed September 23, 2008.

Further correspondence with respect to this matter should be delivered through one of the following mediums:

Attorney Docket No. LJ0908

DECISION ON PETITION

This is a decision on the renewed petition under the unintentional provisions of 37 CFR 1.137(b), filed August 6, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The petition satisfies the conditions for revival pursuant to the provisions of 37 CFR 1.137(b) in that (1) the reply in the form of replacement drawings; (2) the petition fee; and (3) the required statement of unintentional delay have been received. Accordingly, the reply to the Notice To File Corrected Application Papers mailed September 23, 2008, is accepted as having been unintentionally delayed.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3208.

This application is being referred to the Office of Patent Application Processing for appropriate action by the Examiner in the normal course of business on the reply received August 6, 2009.

COPY MAILED
SEP 2 5 2008

In re Application of	:	
LUNENFELD, Harvey	:	
Application No. 12/202,430	:	DECISION ON PETITION
Filed: September 01, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. **Metasearch-Advertise**	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 01, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement by Harvey Lunenfeld attesting that he is over 65 years of age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Michelle R. Eason at 571-272-4231.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

This application is being referred to the Office of Patent Application Processing. This application will be accorded "special" status when pre-examination processing is done.

Attorney Docket No: RSW920080330US1 (105117) ::
Title: CONCEPT FOR TRUSTING CLIENT-SIDE STORAGE AND DISTRIBUTION OF ASYNCHRONOUS INCLUDES IN AN APPLICATION SERVER ENVIRONMENT

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on 9/2/08 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty

or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;
2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;
3. include a statement that applicant agrees to make an election without traverse in a telephone interview.
4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.
5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111 (b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify:

(1) each means-(or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and

(2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim

element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. §103(c).

REVIEW OF FACTS

The conditions [I. 1-4, II. 1-5, II. 5.1, 5.3, II 6.1, 6.3 - 6.6] above are considered to have been met. However, the petition fails to comply with the conditions [II. 5.2 and II 6.2]. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of MPEP §708.02(a)(I)(H)(2) and item II 5.2 above, the Petitioner's preexamination search does not encompass all of the features of the claims, and does not appear to have given the broadest reasonable interpretation (See MPEP 2111.01).

Specifically, the preexamination search strategy does not encompass <u>all</u> of the features of the <u>claim</u>, namely, claimed limitation:

..."the results server identifies addition clients in the application server environment with the content of the asynchronous include request, the results server determines if the any of the additional clients with the request content ... and the results server requests the content of the asynchronous include request from an application server, the application server publishes the content of the asynchronous include to the results server"... as recited in claim 1.

The supra feature is not present in any of the searches performed and set forth in the PESD. It is noted that these features have been identified as key features in the Detailed Explanation of Patentability statement by applicant to distinguishing the instant claimed subject matter from the cited prior art references deemed most closely related to the claimed invention in the Examination Support Document. Since the search logic does not include the relevant search terms mentioned above, the alleged patentable features and concept appear to have not been searched.

The Petitioner is advised to review the all claim limitations, especially those asserted as patentable distinctions from the cited references to ensure the pre-examination search covers these concepts, and update the search and/or provide any clarification for the deficiencies identified above if deemed necessary.

Regarding the requirement of MPEP §708.02(a) (I) (H) (2) and item II 5.2 above, the Petitioner's preexamination search has not given the broadest reasonable interpretation to the claims.

Specifically, the pre-examination text search query provided fails to meet the requirement because of its lack of depth and breadth to cover all concepts the claims recite. The text search query fails for lack of inclusion of applicable terms, and their respective synonyms, as used in the claimed invention.

These terms are exemplary, and should not be considered exhaustive:

(*client or user or node or subscriber); (server or proxy or gateway or portal); (request or pull or inquire or demand or obtain); (identify or determine or find or recognize or label or select); (trusted or authorized or accredited or authenticated or valued*);

Below is an exemplarily search strategy that would complete this requirement by encompassing all of the features of the claims, and giving the claims the broadest reasonable interpretation. This exemplarily search strategy provides depth and breadth to cover all concepts the claims *in light of the specification and/or encompass the disclosed features that may be claimed*, and thereby would cover features that have not been searched The default proximity operator is "OR".

L1 *(client or user or node or subscriber or customer or consumer) or (publish-subscribe)*

L2 *(trusted or authorized or accredited or authenticated or valued)*

L3 *(server or proxy or gateway or portal) OR (identify$4 or determine$4 or find$4 or search$4 or query lookup or recognize$4 or label$4 or select$4)*

L4 *(request$4 or pull$4 or inquir$4 or demand$4 or obtain$4 or query*)

L5 *L1 and L2*

L6 *L2 and L3*

L7 *L4 and l5*

Note that the above list of terms and synonyms are not meant to be an exhaustive list, merely an example of various terms and synonyms that can be used to produce a more comprehensive prior art search. Nor these examples are limited only to those sets of search terms provide; each search term used should be evaluated for applicable synonyms. Additionally, searches utilizing other databases should be modified to include the above-mentioned terms and synonyms.

These text search strategies should be added to supplement the classified search performed. It should be noted that it is rare that a text search alone would be considered a complete search strategy. MPEP §904.02 A recommended search strategy is a couple of

the most relevant subclasses, searched by themselves, viewing each document or combined in a text search with a few relevant terms. A larger subset of subclasses can be combined with more search terms.

These strategies should (or rough equivalent thereof) be preformed on a database that includes US Patents, US PG Pubs, Foreign Patents and Non Patent Literature.

Petitioner should review all claim limitation, especially those asserted as patentable distinctions from the cited references to ensure that the search covers these concepts, and update the search and/or provide any clarification if deemed necessary.

Based upon the claimed subject matter of instant application and the requirement of II 5.1, a search in the following additional class and/or subclasses should be included in order to provide full coverage of where the most pertinent references are most likely to be found:

U.S. Field of Search:

709/226, 229

Regarding the requirement of MPEP §708.02(a)(I)(2) and item II 6.2 above, the MPEP states "For each reference cited, the accelerated examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference."

Petitioner's examination support document pages, 2-3, paraphrases the cited references and only provides direct mapping to the claim limitations in some of the examples. With respect to the Bourne reference, the preamble is mapped to the limitations. With respect to the Adam reference there are ***no exact claim limitations***, only paraphrased and generalization of the reference with citations. References Bhola and Kavtiz ***do not*** contain mappings to the claim limitations, nor do they explicitly recite the limitations from the claim. Applicant is required to identify which limitations in the claims are disclosed by each reference and specifying where the limitation is disclosed in the cited reference.

DECISION

For the above-stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed the undersigned whose telephone number is (571) 272-3902. If attempts to reach the undersigned by telephone are unsuccessful, Kim Huynh, Quality Assurance Specialist, can be reached at (571) 272-4147.

For: CONCEPT FOR TRUSTING CLIENT-SIDE STORAGE AND DISTRIBUTION OF ASYNCHRONOUS INCLUDED IN AN APPLICATION SERVER ENVIRONMENT

DECISION ON PETITION TO MAKE SPECIAL (ACCELERATED EXAMINATION) UNDER 37 C.F.R. § 1.102(d) and M.P.E.P. §708.02

This is a decision on the renewed petition filed on May 18, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). The original petition, submitted on September 2, 2008 was dismissed in the decision mailed on April 16, 2009.

The petition to make the application special is **GRANTED** as the new Search Document meets the requirements of conditions II 5.2 and the new Examination Support Document meets the requirements of conditions II 6.2 that were deficient in the original petition.

The application is eligible for accelerated examination and the renewed petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323) as the original identified deficiencies for failing to comply with the requirements for the pre-examination search encompassing all of the features of the claims, and giving the claims the broadest reasonable interpretation, the statement of patentability must provide a detailed explanation of how each of the claims are patentable and the concise statement of the utility must be of the invention as defined in each of the independent claims (reference must be made to independent claims 1, 14 and 20) have been corrected.

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be

examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Beatriz Prieto, Quality Assurance Specialist, at (571) 272-3902. A second point of Contact is Kim Huynh at (571)-272-4147.

OFFICE OF PETITIONS

In re Application of
Koch, et al.
Application No. 12/202,517
Deposit date: September 2, 2008
Attorney Docket No. 02355 CON2
For: METHODS, SYSTEMS, AND PRODUCTS FOR TRACKING OBJECTS

ON PETITION

This is in response to the "PETITION UNDER 37 C.F.R. 1.57(a) FOR INCORPORATION BY REFERENCE OF INADVERTENTLY OMITTED DRAWINGS" filed September 26, 2008, requesting that the above-referenced application be accorded a filing date of September 2, 2008. This petition is being treated pursuant to 37 CFR 1.53(e)(2)[1].

The petition is **granted**.

Application papers in the above-identified application were deposited on September 2, 2008. However, on September 16, 2008, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings. In response, applicants timely filed this petition. Applicants request that the application be amended to include the inadvertently omitted drawings on the basis that the application as filed contained a prior benefit claim under 37 CFR 1.55 or 1.78.

Petitioners' arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one method claim. MPEP 601.01(f) provides that:

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in MPEP 601.01(g) under the section entitled, "Application Entitled to a Filing Date," applicant may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [i]f an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application[.]

Please note that no petition is required and that the amendment must comply with 37 CFR 1.57(a) and 37 CFR 1.121. See MPEP § 201.17. Any amendment to include the inadvertently omitted drawing(s) will be considered by the examiner.

To the extent the instant petition requests a filing date of September 2, 2008 with no drawings present in the application, the petition is **GRANTED**.

Given the basis for granting this petition, the petition fee is being refunded.

Pursuant to this decision, the application will be referred to Office of Patent Application Processing for:

- **correction of the filing date to September 2, 2008**;
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **for issuance of a filing receipt.**

As stated above, if applicants wish to add the omitted drawings, applicants should file a formal amendment.

Telephone inquiries concerning this matter may be directed to Senior Petitions Attorney Shirene Willis Brantley at (571) 272-3230.

In re Application of: Richard Harris et al. Serial No.: 12/202,616 Filed: September 2, 2008 Docket No.: RPS920080079US2 Title: MULTIPLE ATTITUDE LOW PAPER SENSOR MECHANISM	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 2, 2008 and supplemented on October 6, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. §1.102.

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 C.F.R. §1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 C.F.R. §1.97 and §1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 C.F.R. §1.181, §1.182 or §1.183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve-month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-1569.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☑ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☐ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

WITHDRAWAL OF PETITION DECISION

The Decision Granting the 1.138(d) petition for the above-identified application mailed on March 31, 2010 was sent in error by the Office. Accordingly, the petition has been **dismissed**.
Any excess claims fees or search fees previously refunded will be recouped by the Office.

The Petition filed on 3/25/10 was not signed by an attorney of record and it was not timely filed in that it was filed after an examination had begun on the application.

The Office regrets any inconvenience the error may have caused. Inquiries regarding this communication should be directed to the Pre-Grant Publication Division at (703) 756-1564.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(d)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(d), requesting for a refund of any previously paid search fee and excess claims fee in the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☐ The petition was not filed in sufficient time to permit the appropriate officials to recognize the abandonment before an examination has been made of the application. See 37 CFR 1.138(d).
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☐ The application is not an application filed under 35 U.S.C. 111(a) on or after December 8, 2004.
4. ☐ The petition for express abandonment under 1.138(d) is dismissed because the applicant did not pay any search fee and excess claims fees in the above-identified application.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

In re Application of	
ISHIKURA et al	**: DECISION ON REQUEST TO**
Application No.: 12/202,792	**: PARTICIPATE IN THE PATENT**
Filed: 02 September 2008	**: PROSECUTION HIGHWAY**
Attorney Docket No.: 107439-00212	**: PROGRAM AND PETITION**
For: REAR SEAT PASSENGER	**: TO MAKE SPECIAL UNDER**
DETECTION DEVICE	**: 37 CFR 1.102(d)**

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed 17 June 2010, to make the above-identified application special.

The request and petition are **DISMISSED**.

A grantable request to participate in the PPH program and petition to make special require:

1. The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO, note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;

2. Applicant must submit a copy of:
   a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
   b. An English translation of the allowable/patentable claim(s) and
   c. A statement that the English translation is accurate;

3. Applicant must
   a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and

b. Submit a claims correspondence table in English;

4. Examination of the U.S. application has not begun;

5. Applicant must submit:
   a. Documentation of prior office action:
      i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
      ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
      iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

      Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
   b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above
   c. A statement that the English translation is accurate;

6. Applicant must submit:
   a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
   b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

Conditions (1), (2), and (4-6) above are considered to have been met. However, the request to participate in the PPH pilot program and petition fails meet condition (3).

Regarding the requirement of condition (3), applicant has failed to ensure that all the claims in the U.S. application sufficiently correspond to the allowable/patentable claims in the JPO application. As set forth in the petition, claim 1 of the JPO application contains limitations which are not present in the instant application.

Applicant is given **ONE** opportunity within a time period of **ONE MONTH or THIRTY DAYS**, whichever is longer, from the mailing date of this decision to correct the deficiencies. **NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.** If the deficiencies are not corrected with the time period given, the application will await action in its regular turn.

Response must be filed via the Electronic Filing System (EFS) using the document description: Petition to make special under Patent Pros Hwy. Any preliminary amendments and IDS submitted with the PPH documents must be separately indexed as a preliminary amendment and IDS, respectively.

Telephone inquiries concerning this decision should be directed to Lee W. Young at 571-272-4549.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

SAN RAMON CA 94583

In re Application of	:	
Scott WEST	:	DECISION ON PETITION
Application No. 12/202,793	:	TO MAKE SPECIAL UNDER
Filed: 02 September 2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. 54824	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 20 December 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Lee W. Young at 571-272-4549.

The application is being forwarded to the Technology Center Art Unit 2813 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

Applicant: Revankar et al.
Appl. No.: 12/202,807
Filing Date: September 2, 2008
Title: Method for Treatment of a Gas Stream Containing Silicon Tetrafluoride and Hydrogen Chloride
Attorney Docket No.: 070032.3 (28744-2937)
Pub. No.: US 2009/0092530 A1
Pub. Date: April 9, 2009

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on June 4, 2009, for the above-identified application.

Applicant requests that the application be republished because the patent application publication contains material error in containing an erroneous character in claim 44.

The request is DISMISSED as moot, as the patent has already issued.

37 CFR 1.221 (b) is applicable "only when the Office makes a **material mistake** which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." (Emphasis added) A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.[1]

Inquiries relating to this matter may be directed to Michael Cygan, Legal Advisor, at (571) 272-7700, or the undersigned at (571) 272-7709.

OFFICE OF PETITIONS

In re Application of :
Robert Jacob Hinke :
Application No. 12/202,841 :
Filed: September 2, 2008 :
Attorney Docket No. 45971-902 :

DECISION ON PETITION

This is in response to the petition under 37 CFR 1.57(a), filed September 30, 2008, requesting that the above-referenced application be accorded a filing date of September 2, 2008. This petition is being treated pursuant to 37 CFR 1.53(e)(2).[1]

The application papers in the above-identified application were deposited on September 2, 2008. However, on September 16, 2008, the Office of Patent Application Processing mailed applicant a "Notice of Incomplete Nonprovisional Application," notifying applicant that the application papers had not been accorded a filing date because the application was deposited without drawings. In response, applicant timely filed this petition. Applicant requests that the application include the inadvertently omitted drawings on the basis that the application as filed contained a prior benefit claim under 37 CFR 1.78. Unfortunately, applicant did not provide a copy of the inadvertently omitted drawings or an amendment requesting entry of those figures with the present petition.

Applicant's argument and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one method claim. MPEP § 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

[1] Any request for review of a notification pursuant to § 1.53(e)(1), or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to § 1.53(e) accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition, the filing date of an application in which the applicants were notified of a filing error pursuant to § 1.53(e)(1) will be the date the filing error is corrected.

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application. Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in MPEP § 601.01(g) under the section entitled, "Application Entitled to a Filing Date," applicants may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [i]f an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application[.]

Please note that any amendment requesting entry of the inadvertently omitted drawings must comply with 37 CFR 1.57(a) and 37 CFR 1.121 and will be considered by the examiner. See MPEP § 201.17.

The petition is **GRANTED** to the extent the instant application will be accorded a filing date of September 2, 2008, with no drawings as part of the original disclosure. Given the basis for granting this petition, the $400.00 petition fee is being refunded to the Deposit Account.

The Office notes that the reference to the prior-filed provisional application in the first sentence of the specification following the title incorrectly identifies the filing date of the provisional application as September 4, 2008, instead of September 4, 2007. Nevertheless, applicant may correct the filing date in the benefit claim after the later of four months from the actual filing date of the later-filed application or sixteen months from the filing date of the prior-filed provisional application without filing a petition and the surcharge because the provisional application number was correctly identified. Moreover, a benefit claim pursuant to 37 CFR 1.78(a)(5)(i) does not require identification of the filing date of a prior-filed provisional application.

This application is being referred to Office of Patent Application Processing for:

- **correction of the filing date to September 2, 2008;**
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing, and;**
- **for issuance of a filing receipt.**

Applicant may request entry of the omitted figures by filing an amendment and a copy of the drawings contained in the prior-filed provisional application with the examiner prior to the first Office action on the merits. The determination of new matter will be made by the examiner.

Telephone inquiries concerning this matter may be directed to Christina Tartera Donnell, Senior Petitions Attorney, at (571) 272-3211.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☑ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☐ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

Attorney Docket No. ETP

:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 02-SEP-2008 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

OFFICE OF PETITIONS

In re Application of	:	
Shih-Hui CHEN et al.	:	
Application No. 12/202,875	:	ON PETITION
Filed: July 16, 2008	:	
Attorney Docket No. 7004.131	:	

This is a decision on the petition under 37 CFR 1.137(b), filed January 26, 2010 and supplemented March 17, 2010, to revive the above-identified application.

The petition is **GRANTED**.

The above-identified application became abandoned for failure to file a proper reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application mailed September 16, 2008, which set a shortened statutory period for reply of two (2) months. No extensions of time under the provisions of 37 CFR 1.136(a) was obtained. Accordingly, the above-identified application became abandoned on November 17, 2008.

The petition satisfies the conditions for revival pursuant to the provisions of 37 CFR 1.137(b) in that (1) the reply in the form of the required fees; (2) the petition fee of $810; and (3) the required statement of unintentional delay have been received. Accordingly, the reply to the Notice to File Missing Parts of Nonprovisional Application of September 16, 2008 is accepted as having been unintentionally delayed.

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. See 37 CFR 10.18(b) and Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. 53131, 53178 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63, 103 (October 21, 1997). In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that it is not correct that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional, petitioner must notify the Office.

Telephone inquiries concerning this decision should be directed to Shahid Alam at (571) 272-6052 or in his absence to the undersigned at (571) 272-7099.

The application is being referred to the Office of Patent Application Processing.

Title: Improved Rice Milling Machine	:	

This is a decision on the petition to revive under 37 CFR 1.137(b), filed August 13, 2009.

The petition under 37 CFR 1.137(b) is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.137(b)." This is **not** a final agency decision within the meaning of 5 USC 704. No additional petition fee is required on renewed petition.

The instant petition lacks a handwritten or S-signature in accordance with 37 CFR 1.4(d). As such, the petition will not be considered on the merits until such time as petitioner files a signed petition.

Further correspondence with respect to this matter should be addressed as follows:

Benjamin J. Kennedy	:	
Application No. 12/202,893	:	ON PETITION
Filed: March 21, 2008	:	
Title: Improved Rice Milling Machine	:	

This is a decision on the renewed petition to revive under 37 CFR 1.137(b), filed October 16, 2009.

The petition under 37 CFR 1.137(b) is **GRANTED**.

The above-identified application became abandoned for failure to timely file a reply to the Notice to File Corrected Application Papers mailed September 24, 2008. This Notice set an extendable period for reply of two (2) months for applicant to submit replacement drawings. No replacement drawings having been received, the application became abandoned on November 25, 2008. The Office mailed a Notice of Abandonment on June 3, 2009. Applicant filed a petition to revive under 37 CFR 1.137(b) on August 13, 2009. However, the petition was dismissed without being considered on the merits in a decision mailed on October 1, 2009. The petition was dismissed because it lacked a signature.

With the instant petition, petitioner submitted a signed petition. The other requirements for a grantable petition (the petition fee, statement of unintentional delay, and replacement drawings) were previously fulfilled with the petition filed on August 13, 2009.

The application is being forwarded to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries related to this decision should be directed to the undersigned at (571)272-3207.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☑ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☐ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

Title: **PASSIVE METHOD AND APPARATUS FOR ALERTING A DRIVER OF A VEHICLE OF A POTENTIAL COLLISION CONDITION**

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 2nd, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions set forth under section I. above are considered to have been met. However, the petition fails to comply with conditions set forth under section II, items 5.1-5.3.

For these reasons cited above, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement in items 5.1-5.3 above, the preexamination search document provided with the instant petition is deficient as follows: The US field of search and database searches which are to be provided under section 8(A) are not sufficient.

The search report provides a showing of the field of search, according to the searched class and subclass. The search report also indicates which databases and files were searched, however fails to include the search logic or chemical structure or sequence used as a query, and the date of the database search. The search strategy for the database search is therefore unknown.

In addition to the search areas provided, applicant would also need to provide the applied search string logic.

If any request for reconsideration is filed, an updated preexamination search must be conducted as per item 5.1 above, and the Preexamination Search Document must be amended to indicate such; a new Information Disclosure Statement should be filed to cite any newly found prior art, and the Accelerated Examination Support Document must also be amended to include the necessary reference and discussion of any newly found and cited prior art in accordance with all of items 6 through 6.6 above.

For the reason cited above, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Michael Horabik, Quality Assurance Specialist, at (571) 272-3068.

Filed: September 2, 2008
Attorney Docket No.: **END920080241US1**
Title: **PASSIVE METHOD AND APPARATUS FOR ALERTING A DRIVER OF A VEHICLE OF A POTENTIAL COLLISION CONDITION**

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on October 27, 2008 requesting reconsideration to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

All of the requirements to correct the deficiencies outlined in the petition decision mailed September 25, 2008 have been met.

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the

examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not

file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Michael Horabik, Quality Assurance Specialist, at (571) 272-3068.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☐ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☑ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

Application No. 12203002

Filed:

Attorney Docket No. 1260.027

:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 02-SEP-2008 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

MAR 10 2009

OFFICE OF PETITIONS

In re Application of Brown, et al. Application No. 12/203,004 Filed: September 2, 2008 Attorney Docket No. FLORA.0710C_US	DECISION ON PETITION UNDER 37 CFR 1.78(a)(3)

This is a decision on the petition under 37 CFR 1.78(a)(3), filed February 3, 2009, to accept an unintentionally delayed claim under 35 U.S.C. § 120 for the benefit of priority to the prior-filed nonprovisional application set forth in the concurrently filed ADS.

The petition is **GRANTED**.

A petition for acceptance of a claim for late priority under 37 CFR 1.78(a)(3) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after the expiration of the period specified in 37 CFR 1.78(a)(2)(ii). In addition, the petition under 37 CFR 1.78(a)(3) must be accompanied by:

(1) the reference required by 35 U.S.C. § 120 and 37 CFR 1.78(a)(2)(i) of the prior-filed application, unless previously submitted;
(2) the surcharge set forth in § 1.17(t); and
(3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2)(ii) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional.

All of the above requirements having been satisfied, the late claim for priority under 35 U.S.C. § 120 is accepted as being unintentionally delayed.

The granting of the petition to accept the delayed benefit claim to the prior-filed application under 37 CFR 1.78(a)(3) should not be construed as meaning that this application is entitled to the benefit of the prior-filed application. In order for this application to be entitled to the benefit of the prior-filed application, all other requirements under 35 U.S.C. § 120 and 37 CFR 1.78(a)(1) and (a)(2) must be met. Similarly, the fact that the corrected Filing Receipt

accompanying this decision on petition includes the prior-filed application should not be construed as meaning that applicant is entitled to the claim for benefit of priority to the prior-filed application noted thereon. Accordingly, the examiner will, in due course, consider this benefit claim and determine whether the application is entitled to the benefit of the earlier filing date.

A corrected Filing Receipt, which includes the priority claim to the prior-filed nonprovisional application, accompanies this decision on petition.

Any inquiries concerning this decision may be directed to the undersigned at (571) 272-3230. All other inquiries concerning either the examination procedures or status of the application should be directed to the Technology Center.

This application is being forwarded to Technology Center Art Unit 1615 for consideration by the examiner of applicants' entitlement to claim benefit of priority under 35 U.S.C. § 120 to the prior-filed application.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where

the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

This is in response to a "Petition Under [3]7 CFR § 1.47(A) to File on Behalf of Inventor who Refuses to Execute Application or Cannot be Found," filed April 20, 2009, to allow the other inventor(s) to proceed with the application on behalf of himself or herself and the nonsigning inventor. The petition is properly treated under 37 CFR 1.47(a).

The petition is **granted**.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

Petitioner has shown that the non-signing inventor, Sanjay Jha, refuses to join in the above-identified application.

As provided in Rule 1.47(a), this Office will forward notice of this application's filing to the non-signing inventor at the addresses given in the Petition. Notice of the filing of this application will also be published in the Official Gazette.

The application file is being referred to the Office of Patent Application Processing for continued processing in the normal course of business.

Telephone inquiries related to this decision may be directed to the undersigned at (571) 272-3232.

Dear Mr. Jha:

You are named as a joint inventor in the above-identified United States patent application filed under the provisions of 35 U.S.C. 116 (United States Code) and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (571) 272-3232. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to Certification Division at (703) 308-9726 or 1-800-972-6382 (outside the Washington D.C. area).

Application No. 12/203,099	:	DECISION GRANTING STATUS
Filed: September 2, 2008	:	STATUS UNDER 37 CFR 1.47(a)
Attorney Docket No. 080024	:	

This is in response to the petition under 37 CFR 1.47(a), filed April 20, 2009.

The petition is **GRANTED**.

Petitioner has shown that the nonsigning inventor has refused to join in the filing of the above-identified application.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status. As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the nonsigning inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

Telephone inquiries regarding this decision should be directed to Petitions Examiner Liana Walsh at (571) 272-3206.

This matter is being referred to Technology Center AU 2400 for examination on the merits.

Rauber et al.	:	
Application No. 12/203,099	:	ON PETITION
Filed: September 2, 2008	:	
Attorney Docket No. 080024	:	

You are named as a joint inventor in the above identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join in the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to Petitions Examiner Liana Walsh at (571) 272-3206. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to Certification Division at (703) 308-9726 or 1 (800) 972-6382 (outside the Washington D.C. area).

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☐ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☑ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

OFFICE OF PETITIONS

In re Application of :
Yu et al. : ON PETITION
Application No. 12/203,116 :
Filed: September 2, 2008 :
Attorney Docket No. 108.01.2 :

This is in response to the "PETITION PURSUANT TO 37 CFR 1.57(a)" filed March 19, 2009, requesting that the above-referenced application be accorded a filing date of September 2, 2008. This petition is being treated pursuant to 37 CFR 1.53(e)(2)[1].

Application papers in the above-identified application were deposited on September 2, 2008. However, on February 25, 2009, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings.

In response, applicants timely filed this petition. Applicants acknowledge that the drawings were inadvertently omitted on the electronic filing of this application. Applications petition the Office to amend the above-referenced application to include the omitted drawings and yet, maintain a filing date of

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

September 2, 2008 for the above-referenced application on the basis that this application is a continuation, and claims priority under 37 CFR 1.78, of non-provisional application No. 11/825,686 and the '686 application was incorporated by reference in its entirety on the filing of this application. Further, applicants state that Figs. 1-10 (the figures inadvertently omitted from this application) can be found in Figs. 1-10 of patent application 11/825,686. Applicants note that the '686 application was filed under 35 U.S.C. 111, and thus, they do not supply a copy of the entire application on petition. The petition includes an amendment requesting entry of the omitting figures, pursuant to 37 C.F.R. §1.57.

Preliminarily, it is noted that a review of the application confirms that on filing, the application contained both a proper claim under 37 CFR 1.78 to, and an express incorporation by reference of, application No. 11/825,686. Moreover, as stated by applicants, the drawings submitted on petition appear to be completely contained in the prior application.

Nonetheless, for purposes of considering entitlement to a filing date, consideration of 37 CFR 1.57 is unnecessary. It is controlling that this application as filed included at least one composition claim. MPEP 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence). The same practice has been followed in composition applications.

A review of the application confirms that as filed the application contained at least one composition claim. Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. Thus, the application is entitled to a filing date without drawings present in the application.

The Office should have mailed a Notice of Omitted Items and not a Notice of Incomplete Nonprovisional Application. As stated in MPEP 601.01(g), if an application is entitled to a filing date, the mailing of a Notice of Omitted Items will permit *inter alia*:

> If an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a

> prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawings was inadvertently omitted from the application and is completely contained in the prior-filed application, applicant may submit an amendment to include the inadvertently omitted portion of the drawings pursuant to 37 CFR 1.57(a). Such amendment should be by way of a preliminary amendment and the preliminary amendment must be submitted within 2 months from the date of the "Notice of Omitted Item(s)." The amendment should be identified as an amendment pursuant to 37 CFR 1.57(a) and must comply with the requirements of 37 CFR 1.57(a) and 37 CFR 1.121. See MPEP § 201.17. The application will maintain the filing date as of the date of deposit of the original application papers in the USPTO. The original application papers (i.e., the original disclosure of the invention) will include only those application papers present in the USPTO on the original date of deposit. The 2-month period is not extendable under 37 CFR 1.136.

Since this application is entitled to a filing date without the inadvertently omitted drawing figures, no petition is required. Rather, the examiner will consider the preliminary amendment to include the inadvertently omitted drawings filed March 19, 2009.

To the extent the instant petition requests a filing date of September 2, 2008 with no drawings present in the application, the petition is **granted**.

Given the basis for granting this petition, the petition fee is being refunded to Deposit Account No. 50-4680, as authorized.

The Office of Patent Application Processing (OPAP) has been advised of this decision. Pursuant to this decision, the application has been referred to the Office of Patent Application Processing for:

- **according of a filing date of September 2, 2008;**
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing;** and
- **for issuance of a filing receipt.**

Entry of the amendment filed March 19, 2009 will be determined by the examiner. In this regard, it is noted that the requirements of 37 CFR 1.57(a) have been met. In addition, the disclosure of the prior-filed application was explicitly incorporated by reference on filing of the application. See 37 CFR 1.182. An amendment to enter drawings properly incorporated by reference pursuant to 37 CFR 1.57(a) or 37 CFR 1.182 does not raise a new matter issue with respect to those drawings.

Telephone inquiries concerning this matter may be directed to Senior Petitions Attorney, Nancy Johnson at (571) 272-3219.

OFFICE OF PETITIONS

In re Application of :
Larsen, et al. :
Application No. 12/203,121 : DECISION
Filed/Deposited: 2 September, 2008 :
Attorney Docket No.: 48422-P002D1 :

This is a decision on the petition filed on 29 May, 2009, considered as a petition under 37 C.F.R. §1.181 (no fee) requesting withdrawal of the holding of abandonment in the above-identified application.

The petition as considered under 37 C.F.R. §1.181 is **GRANTED**.

As to the Request to Withdraw
the Holding of Abandonment

Petitioners always are directed to the Commentary at MPEP §711.03(c)(I) for guidance as to the proper showing and timeliness and showing requirements for relief under 37 C.F.R. §1.181.

BACKGROUND

The record reflects as follows:

Petitioner failed to reply timely and properly to the Notice to File Corrected Application Papers (replacement drawings) mailed on 18 September, 2008, with reply due absent extension of time on or before 18 November, 2008.

The application went abandoned after midnight 18 November, 2008.

The Office mailed a Notice of Abandonment on 26 May, 2009.

On 29 May, 2009, Petitioner filed a petition requesting withdrawal of the holding of abandonment pursuant to 37 C.F.R. §1.181, and averred timely reply. Petitioner included

therewith a copy of the dated ("17-APR-2009") Electronic Acknowledgment Receipt evidencing Office receipt of an amendment on that date. It is evident that Petitioner authorized charges as necessary (*i.e.*, an extension of time to make timely the reply), and so satisfied Petitioner's burden to make a showing pursuant to 37 C.F.R. §1.181 (with narrative and documentary support) consistent with the guidance in the Commentary at MPEP 711.03(c)(I), which provides in pertinent part:

***

> 37 C.F.R. §1.10(c) through §1.10(e) and §1.10(g) set forth procedures for petitioning the Director of the USPTO to accord a filing date to correspondence as of the date of deposit of the correspondence as "Express Mail." A petition to withdraw the holding of abandonment relying upon a timely reply placed in "Express Mail" must include an appropriate petition under 37 C.F.R. §1.10(c), (d), (e), or (g) (see MPEP §513). When a paper is shown to have been mailed to the Office using the "Express Mail" procedures, the paper must be entered in PALM with the "Express Mail" date.
>
> Similarly, applicants may establish that a reply was filed with a postcard receipt that properly identifies the reply and provides *prima facie* evidence that the reply was timely filed. See MPEP §503. For example, if the application has been held abandoned for failure to file a reply to a first Office action, and applicant has a postcard receipt showing that an amendment was timely filed in response to the Office action, then the holding of abandonment should be withdrawn upon the filing of a petition to withdraw the holding of abandonment. When the reply is shown to have been timely filed based on a postcard receipt, the reply must be entered into PALM using the date of receipt of the reply as shown on the post card receipt.
>
> Where a certificate of mailing under 37 C.F.R. §1.8, but not a postcard receipt, is relied upon in a petition to withdraw the holding of abandonment, see 37 C.F.R. §1.8(b) and MPEP §512. As stated in 37 C.F.R. §1.8(b)(3) the statement that attests to the previous timely mailing or transmission of the correspondence must be on a personal knowledge basis, or to the satisfaction of the Director of the USPTO. If the statement attesting to the previous timely mailing is not made by the person who signed the Certificate of Mailing (i.e., there is no personal knowledge basis), then the statement attesting to the previous timely mailing should include evidence that supports the conclusion that the correspondence was actually mailed (e.g., copies of a mailing log establishing that correspondence was mailed for that application). When the correspondence is shown to have been timely filed based on a certificate of mailing, the correspondence is entered into PALM with the actual date of receipt (i.e., the date that the duplicate copy of the papers was filed with the statement under 37 C.F.R. §1.8).
>
> 37 C.F.R. §1.8(b) also permits applicant to notify the Office of a previous mailing or transmission of correspondence and submit a statement under 37 C.F.R. §1.8(b)(3) accompanied by a duplicate copy of the correspondence when a reasonable amount of time (e.g., more than one month) has elapsed from the time of mailing or transmitting of

> the correspondence. Applicant does not have to wait until the application becomes abandoned before notifying the Office of the previous mailing or transmission of the correspondence. Applicant should check the private Patent Application Information Retrieval (PAIR) system for the status of the correspondence before notifying the Office. See MPEP §512. [1]
>
> ***

Out of an abundance of caution, Petitioners always are reminded that the filing of a petition under 37 C.F.R. §1.181 does not toll any periods that may be running any action by the Office and a petition seeking relief under the regulation must be filed within two (2) months of the act complained of (*see*: 37 C.F.R. §1.181(f)), and those registered to practice and all others who make representations before the Office must inquire into the underlying facts of representations made to the Office and support averments with the appropriate documentation–since all owe to the Office the continuing duty to disclose.[2]

The availability of applications and application papers online to applicants/practitioners who diligently associate their Customer Number with the respective application(s) now provides an applicant/practitioner on-demand information as to events/transactions in an application.

STATUTES, REGULATIONS

Congress has authorized the Commissioner to "revive an application if the delay is shown to the satisfaction of the Commissioner to have been "unavoidable." 35 U.S.C. §133 (1994). And the regulations at 37 C.F.R. §1.137(a) and (b) set forth the requirements for a Petitioner to revive a previously unavoidably or unintentionally, respectively, abandoned application.[3],[4]

---

[1] *See*: MPEP §711.03(c) (I)(B).

[2] See supplement of 17 June, 1999. The Patent and Trademark Office is relying on Petitioner's duty of candor and good faith and accepting a statement made by Petitioner. See Changes to Patent Practice and Procedure, 62 Fed. Reg. at 53160 and 53178, 1203 Off. Gaz. Pat. Office at 88 and 103 (responses to comments 64 and 109)(applicant obligated under 37 C.F.R. §10.18 to inquire into the underlying facts and circumstances when providing statements to the Patent and Trademark Office).

[3] See: Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. at 53158-59 (October 10, 1997), 1203 Off. Gaz. Pat. Office at 86-87 (October 21, 1997).

[4] The language of 35 U.S.C. §133 and 37 C.F.R. §1.137(a) is clear, unambiguous, and without qualification: the delay in tendering the reply to the outstanding Office action, as well as filing the first petition seeking revival, must have been unavoidable for the reply now to be accepted on petition. (Therefore, by example, an unavoidable delay in the payment of the Filing Fee might occur if a reply is shipped by the US Postal Service, but due to catastrophic accident, the delivery is not made.) Delays in responding properly raise the question whether delays are unavoidable. Where there is a question whether the delay was unavoidable, Petitioners must meet the burden of establishing that the delay was unavoidable within the meaning of 35 U.S.C. §133 and 37 C.F.R. §1.137(a) And the Petitioner must be diligent in attending to the matter. Failure to do so does not constitute the care required under Pratt, and so cannot satisfy the test for diligence and due care. (By contrast, unintentional delays are those that do not satisfy the very strict statutory and regulatory requirements of unavoidable delay, and also, by definition, are not intentional.))

Decisions on reviving abandoned applications on the basis of "unavoidable" delay have adopted the reasonably prudent person standard in determining if the delay was unavoidable:

> The word 'unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present.[5]

Moreover, the Office has set forth in the Commentary at MPEP §711.03(c)(I) the showing and timeliness requirements for a proper showing for relief under 37 C.F.R. §1.181 in these matters.

Allegations as to the Request to
Withdraw the Holding of Abandonment

The guidance in the Commentary at MPEP §711.03(c)(I) specifies the showing required, when it is to be made and how it is to be supported.

It appears that Petitioner has satisfied the showing required.

CONCLUSION

Accordingly, the petition under 37 C.F.R. §1.181 is **granted**, and the 26 May, 2009, Notice of Abandonment is **vacated**.

The instant application is released to the Office of Patent Application Processing (OPAP) for further processing in due course.

Petitioner may find it beneficial to view Private PAIR within a fortnight of the instant decision to ensure that the revival has been acknowledged by the OPAP in response to this decision. It is noted that all inquiries with regard to that change in status need be directed to the OPAP where that change of status must be effected—that does not occur in the Office of Petitions.

---

[5] In re Mattullath, 38 App. D.C. 497, 514-15 (1912)(quoting Ex parte Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (1887)); see also Winkler v. Ladd, 221 F. Supp. 550, 552, 138 USPQ 666, 167-68 (D.D.C. 1963), aff'd, 143 USPQ 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913). In addition, decisions on revival are made on a "case-by-case basis, taking all the facts and circumstances into account." Smith v. Mossinghoff, 671 F.2d 533, 538, 213 USPQ 977, 982 (D.C. Cir. 1982). Finally, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

Telephone inquiries regarding this decision may be directed to the undersigned at (571) 272-3214—it is noted, however, that all practice before the Office is in writing (see: 37 C.F.R. §1.2[6]) and the proper authority for action on any matter in this regard are the statutes (35 U.S.C.), regulations (37 C.F.R.) and the commentary on policy (MPEP). Therefore, no telephone discussion may be controlling or considered authority for Petitioner's action(s).

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☐ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☑ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☐ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☑ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

MAR 17 2009

TECHNOLOGY CENTER 2100

In re Application of: FERNANDEZ, Alvaro
Serial No.: **12/203,142**
Filed: September 2, 2008
Docket: 079097.0102
For: METHODS FOR TRANSMITTING MULTIMEDIA FILES AND ADVERTISEMENTS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 2, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The Detailed Explanation of Patentability contains specific references to claim limitations under the 35 USC §103(a) section, which makes up for the broad assertions under the 35 USC §102 section. *See* ESD pg 31. Furthermore, the Detailed Explanation of Patentability provides different limitations which are not taught in the listed references, which infers that there is **no overlap in scope between each of the independent claims**. *See id.* It is up to the assigned examiner to decide whether the claims are obvious variants and whether there is a serious burden to examine those claims together. *See* MPEP §806.05(d).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed the undersigned whose telephone number is (571) 272-3902. If attempts to reach the undersigned by telephone are unsuccessful, Kim Huynh, Quality Assurance Specialist, can be reached at (571) 272-4147.

OFFICE OF PETITIONS

In re Application of :
Alvaro FERNANDEZ :
Application No. 12/203,142 : DECISION GRANTING PETITION
Filed: September 2, 2008 : UNDER 37 CFR 1.313(c)(2)
Attorney Docket No. **079097-0102** :

This is a decision on the petition under 37 CFR 1.313(c)(2), filed April 30, 2009, to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). *See* 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on April 6, 2009 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries should be directed to the undersigned at (571) 272-7253.

This application is being referred to Technology Center AU 2441 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed information disclosure statement.

/Monica A. Graves/
Petitions Examiner, Office of Petitions

---

[1] *The request to apply the issue fee to the new Notice may be satisfied by completing and returning the new Part B – Fee(s) Transmittal Form (along with any balance due at the time of submission). Petitioner is advised that the Issue Fee Transmittal Form* ***must*** *be completed and timely submitted to avoid abandonment of the application.*

JAN 07 2010

In re Application of	:	
Gomeh, Ram	:	
Application No. 12/203,162	:	ON PETITION
Filed: September 3, 2008	:	
Attorney Docket No. 55/72US	:	

This is a decision on the petition, filed October 21, 2009, requesting the withdrawal of the holding of abandonment in the above-identified application and has been so treated.

The petition is **GRANTED**.

This application was held abandoned for failure to timely respond to the Notice to File Missing Parts (Notice), mailed November 19, 2008 which set a two (2) month shortened statutory period for reply. Accordingly, a reply was due on or before January 19, 2009. A Notice of Abandonment was mailed on September 29, 2009.

Petitioner states that the additional $20.00 requested by the Notice was timely paid on January 7, 2009. A review of USPTO financial records shows receipt of the monies via credit card on the above date. Combined with the previously submitted $90.00, the full examination fee has been remitted.

Accordingly, as the Notice was timely and properly responded to, the holding of abandonment is hereby withdrawn and the application restored to pending status.

In view of the above, the Notice of Abandonment is hereby vacated and the holding of abandonment withdrawn.

This application is being referred to Technology Center AU 3623 for examination on the merits.

WASHINGTON DC 20036

In re Application of: BRET R OLSZEWSKI et al. Serial No.: 12/203,170 Filed: September 3, 2008 Title: **GRAPHICAL DISPLAY OF CPU UTILIZATION**	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 3, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions set forth under section I. above are considered to have been met. However, the petition fails to comply with conditions set forth under section II. Item 6.5.

For this reason cited above, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of item 6.5, the "Accelerated Examination Support Document", part 9(E) only identifies a showing of support for the claim limitations found in the instant application. However, requirement 6.5 states that "If the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under the first paragraph of 35 U.S.C. 112 in each such application in which support exists". The instant application is a continuation of parent application 12/035,800. However, petitioner has failed to provide a showing of where each limitation of the claims finds support in the benefit file. Thus, the petition does not meet the conditions of II. 6.5 above.

DECISION

For the above-stated reason, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Doris To, Quality Assurance Specialist, at (571) 272-7629.

Title: **GRAPHICAL DISPLAY OF CPU UTILIZATION**

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on April 2, 2009 requesting reconsideration to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

All of the requirements to correct the deficiencies outlined in the petition decision mailed March 31, 2009 have been met.

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election

without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Doris To, Quality Assurance Specialist, at (571) 272-7629.

OFFICE OF PETITIONS

In re Application of	:	
James B. BROSELOW	:	
Application No. 12/203,218	:	DECISION ON PETITION
Filed: September 3, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. 650/60US	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 3, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement signed by the applicant. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6735.

This application is being referred back to the Office of Patent Application Processing for processing. This application will be accorded "special" status when pre-examination processing is done.

In re Application of	:	
Thomas A. MERRILL	:	DECISION ON PETITION
Application No. 12/203,229	:	TO MAKE SPECIAL UNDER
Filed: 03 September 2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. D-293 (DRI-0073)	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 12 February 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Lee W. Young at 571-272-4549.

The application is being forwarded to the Technology Center Art Unit 2834 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
Koji TAKINAMI, et al	:	
Application No. 12/203,361	:	DECISION ON PETITION
Filed: September 3, 2008	:	TO WITHDRAW
Attorney Docket No. 80-046US	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed February 20, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request was signed by William Winters on behalf of the attorneys of record associated with Customer Number 63409.

The attorneys of record associated with Customer Number 63409 have been withdrawn.

Applicant is reminded that there is no attorney of record at this time.

The correspondence address of record has been changed and the new correspondence address is the address indicated below until otherwise properly notified by the applicant.

In order to request or take action in a patent matter, the assignee must establish its ownership of the patent to the satisfaction of the Director. In this regard, a Statement under 37 CFR 3.73(b) must have either: (i) documentary evidence of a chain of title from the original owner to the assignee (*e.g.*, copy of an executed assignment), and a statement affirming that the documentary evidence of the chain of title from the original owner to the assignee was or concurrently is being submitted for recordation pursuant to § 3.11; or (ii) a statement specifying where documentary evidence of a chain of title from the original owner to the assignee is recorded in the assignment records of the Office (*e.g.*, reel and frame number).

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6735.

Title: METHOD OF REMOTE CONFIGURATION AUTOMATC RESPONSE SETTINGS FOR A FIRST EMAIL ADDRESS USING AN EMAIL SENT FROM A SECOND EMAIL ADDRESS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 03, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" issued June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention

defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):

Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

In re Application of: Michael P. Chudzik et al. Serial No.: 12/203,490 Filed: September 3, 2008 Docket No.: FIS920080286US1/IBMSP027 Title: METHOD FOR ION IMPLANTATION IN SILICON LAYER OF TRANSISTOR	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the revised petition filed on November 19, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. §1.102.

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 C.F.R. §1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 C.F.R. §1.97 and §1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 C.F.R. §1.181, §1.182 or §1.183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve-month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-1638.

In re Application of	:	
Yasuharu Sasaki	:	
Application Number: 12/203402	:	ON PETITION
Filing Date: 09/03/2008	:	
Attorney Docket Number:	:	
331462US26	:	

Receipt is acknowledged of the "PETITION UNDER 37 CFR 1.182 AND RESPONSE TO NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION," filed on November 25, 2008, concerning the United States Patent and Trademark Office's handling of the above-referenced patent application.

The petition is dismissed.

The application was filed on September 3, 2008. However, on September 26, 2008, the Office of Patent Application Processing mailed a "Notice" stating that the application had been accorded a filing date of September 3, 2008, and advising applicant that, *inter alia*, Figures 8 and 9 described in the specification appeared to have been omitted.

In response, the present petition was filed. Petitioner explains that Figures 8 and 9 were not missing on September 3, 2008. Petitioner explains that no drawing figures were missing on September 3, 2008. Instead, petitioners assert, the references in the specification to Figures 8 and 9 were made in error, and that Figures 10 and 11, respectively, were intended to be referenced. Petitioner states that a preliminary amendment has been filed to correct the references in the specification to the drawing figures with the subject petition.

It is obvious from the petition that no drawing was actually missing on September 3, 2008. Rather, the references to Figures 8 and 9 in the specification were the result of the applicant's filing error. However, the Notice to File Missing Parts of Nonprovisional Application mailed on September 26, 2008, was correct in stating that Figures 8 and 9 described in the specification appeared to have been omitted. Therefore, the "Notice" was properly mailed and will not be withdrawn

As the present petition was not necessitated by an error on the part of the Office, the petition fee will not be refunded.

The application will be processed using only the application papers filed on September 3, 2008.

Receipt of the preliminary amendment is acknowledged. The preliminary amendment will be reviewed for new matter by the examiner in due course.

The application is being returned to the Office of Patent Application Processing for further processing with a filing date of September 3, 2008, using only the application papers filed on that date.

Telephone inquiries concerning this matter may be directed to the undersigned at (571) 272-3231.

Applicant	: Morihiro Oishi	: DECISION ON REQUEST FOR
Patent Number	: 7597597	: RECALCULATION of PATENT
Issue Date	: 10/06/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/203,406	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 09/03/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

OFFICE OF PETITIONS

In re Application of :
Yanfei Yang :
Application No. 12/203,538 : DECISION REFUSING STATUS
Filed: September 3, 2008 : UNDER 37 CFR 1.47(b)
Attorney Docket No. 15072-000015/US/CO :
For: **METHOD AND SYSTEM FOR EMERGENCY CALL**

This is a decision on the petition under 37 CFR 1.47(b), filed November 18, 2008.

The petition under 37 CFR 1.47(b) is **dismissed.**

Any request for reconsideration under this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. Failure to respond will result in the abandonment of this application. Any response should be titled "Request for Reconsideration of Petition Under 37 CFR 1.47(b).

The above-identified application was filed on September 3, 2008, without an executed oath or declaration. Accordingly, a "Notice to File Missing Parts Nonprovisional Application" (the "Notice") was mailed on September 19, 2008, requiring an executed oath or declaration and a surcharge for the late filing of the oath or declaration, among other items.

A grantable petition under 37 CFR 1.47(b) requires:

(1) proof that the non-signing inventor(s) cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims, and drawings).

(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;

(3) the petition fee,

(4) a statement of the last known address of the non-signing inventor,

(5) proof of proprietary interest, and

(6) a showing (statement) that such action is necessary to preserve the rights of the parties or to prevent irreparable damage.

The instant petition lacks item (2) set forth above.

As to item (2), the declaration filed with the instant petition cannot be accepted until the assignee demonstrates that it has the power to prosecute the application. Section 409.03(b) of the *Manual of Patent Examining Procedure* provides, in pertinent part, that, "[w]here the oath or declaration is being signed on behalf of an assignee, see MPEP 324." Section 324 of the Manual of Patent Examining Procedure cites 37 CFR 3.71(c) which states that, "[a]n assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee." Petitioner should note that 37 CFR 3.73 requires that before an assignee can take action in a patent matter, the assignee must establish ownership of the patent property in accordance with 37 CFR 3.73(b)(1)(i) or (ii). No statement or certificate meeting the requirements of 37 CFR 3.73 was found with the petition. Petitioner must properly establish ownership of the patent property before the assignee will be granted authority under 37 CFR 1.47(b) to prosecute the application. Enclosed is a "Statement Under 37 CFR 3.73(b)" that petitioner may use to satisfy this requirement.

The fee for the instant petition is $200.00. Deposit account 08-0750 will be charged an additional $70.00, accordingly.

In re Application of :
Yanfei Yang :
Application No. 12/203,538 : DECISION REFUSING STATUS
Filed: September 3, 2008 : UNDER 37 CFR 1.47(b)
Attorney Docket No. 15072-000015/US/CO :
For: **METHOD AND SYSTEM FOR EMERGENCY CALL**

This is a decision on the renewed petition under 37 CFR 1.47(b), filed June 12, 2009.

The petition under 37 CFR 1.47(b) is **dismissed.**

Any request for reconsideration under this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. Failure to respond will result in the abandonment of this application. Any response should be titled "Request for Reconsideration of Petition Under 37 CFR 1.47(b).

The above-identified application was filed on September 3, 2008, without an executed oath or declaration. Accordingly, a "Notice to File Missing Parts Nonprovisional Application" (the "Notice") was mailed on September 19, 2008, requiring an executed oath or declaration and a surcharge for the late filing of the oath or declaration, among other items.

A grantable petition under 37 CFR 1.47(b) requires:

(1) proof that the non-signing inventor(s) cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims, and drawings).

(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;

(3) the petition fee,

(4) a statement of the last known address of the non-signing inventor,

(5) proof of proprietary interest, and

(6) a showing (statement) that such action is necessary to preserve the rights of the parties or to prevent irreparable damage.

The instant petition lacks item (2) set forth above.

As to item (2), the certificate under 37 CFR 3.73(b) filed June 12, 2009, is not properly completed as petitioner has not included the reel and frame number on the form. It is requested that petitioner file a new certificate under 37 CFR 3.73(b) that properly indicates the reel and frame number where the assignment in question can be found.

In re Application of :
Yanfei Yang :
Application No. 12/203,538 : DECISION ACORDING STATUS
Filed: September 3, 2008 : UNDER 37 CFR 1.47(b)
Attorney Docket No. 15072-000015/US/CO :
For: **METHOD AND SYSTEM FOR EMERGENCY CALL**

This is in response to the petition under 37 CFR 1.47(b), filed June 12, 2009.

The decision mailed July 2, 2009 is **vacated**.

The petition is **GRANTED**.

The above-identified rapplication and papers have been reviewed and found in compliance with 37 CFR 1.47(b). This application is hereby accorded Rule 1.47(b) status.

The above-identified application was filed on September 3, 2008, without an executed oath or declaration. Accordingly, a "Notice to File Missing Parts Nonprovisional Application" (the "Notice") was mailed on September 19, 2008, requiring an executed oath or declaration and a surcharge for the late filing of the oath or declaration, among other items.

By the instant petition and evidentiary documents, petitioner has established that the sole inventor cannot be located join the prosecution of the application and that the assignee has sufficient proprietary interest to proceed with prosecution of the application without the joint inventors.

As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application will be forwarded to the Office of Patent Application Processing for further processing.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3222.

In re Application of	:	
John J. Donovan	:	
Application No. 12/203,613	:	DECISION ON PETITION
Effectively filed: September 3, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. JJD-007	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 3, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement by the applicant. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at 571-272-4618.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Upon completion of the pre-examination processing by the Office of Patent Application Processing, this application will be referred to Technology Center Art Unit 2622 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of
Tardif, et al.
Application No.: 12/203,618
Filed: September 3, 2008
Attorney Docket No.: RIT0010-US
For: PORTABLE MAGNETIC TOY CONSTRUCTION KIT

ON PETITION

This is a decision on the petition under 37 CFR 1.47(a), filed March 18, 2009.

The petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. Any response should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)" and may include an oath or declaration executed by the inventor. **Failure to respond will result in abandonment of the application.**

A grantable petition under 37 CFR 1.47(a) requires:

(1) a petition including proof of the pertinent facts establishing that the joint inventor(s) refuses to join, or cannot be found or reached after diligent effort,
(2) a proper oath or Declaration executed by the available joint inventor(s),
(3) the petition fee of $200, and
(4) the last known address of the omitted inventor(s).

This petition lacks item (2) above.

As to item (2), an oath or declaration for the patent application in compliance with 37 CFR 1.63 and 1.64 still has not been presented.

The declaration contains noninitialed, nondated alterations to Gustavo Castro's citizenship. 37 CFR 1.52(c) states that "[a]ny interlineation, erasure, cancellation or other alteration of the

application papers filed should be made on or before the signing of the accompanying oath or declaration pursuant to 1.63...." This includes the oath or declaration. The Office will not consider whether noninitialed and or nondated alterations were made before or after signing of the oath or declaration but will require a new oath or declaration.

As listing the citizenship for each inventor is a statutory requirement under 35 U.S.C. 115, it cannot be waived.

An oath or declaration in compliance with 37 CFR 1.63 and 1.64 signed by the Rule 1.47 applicant on behalf of the non-signing inventor is REQUIRED. See MPEP 409.03(a).The signing inventor must execute another declaration that lists complete and accurate information for both joint inventors.

Regarding finances, the current Rule 47 petition fee is $200.00. Petitioner has submitted only $130.00. Pursuant to petitioner's authorization, deposit account no. 50-2613 will be charged the $70.00 balance due.

Application No.: 12/203,618 :
Filed: September 3, 2008 :
Attorney Docket No.: RIT0010-US :
For: PORTABLE MAGNETIC TOY :
CONSTRUCTION KIT :

Dear Ms. Tardif:

You are named as a joint inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (571) 272-3230. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington, DC area).

In re Application of	:	
KYSE, Jasmine	:	
Application No. 12/203,655	:	DECISION ON PETITION
Filed: September 03, 2008	:	TO WITHDRAW
Attorney Docket No. **KYSE**	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed March 24, 2010.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request was signed by Michael Berns, the sole attorney of record. Michael Berns has been withdrawn as attorneys or agents of record. Applicant is reminded that there is no attorney of record at this time.

All future correspondence will be directed to the inventor Jasmine Kyse at the address indicated below. There is an outstanding Office action mailed May 20, 2010 that requires a reply from the applicant.

Telephone inquiries concerning this decision should be directed to Tredelle Jackson at 571-272-2783.

OCT 01 2008

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 3, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.
5. The petition must be filed with the application.

The application as filed is not eligible for the accelerated examination under 37 C.F.R. § 1.102(d) because the application the application, at the time of filing, was not complete under 37 CFR 1.51 and in condition for examination, as evidenced by the mailing of the Notice to File Corrected Application Papers on September 10, 2008. See 71 Fed. Reg. 36323 notice, section VIII, Conditions for Examination. The opportunity to perfect a petition does not apply to applications that are not in condition for examination on filing.

As noted in the policy statement referenced above, any petition to make special filed on or after the effective date must meet the new requirements set forth in the 71 Fed. Reg. 36323 notice.

For the above-stated reasons, the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn.

Any inquiry regarding this decision should be directed to J. Harrison, TC 3700 Special Program Examiner, at (571) 272-4449.

OFFICE OF PETITIONS

In re Application of	:	
Katsuhiko Sekiguchi, et al.	:	
Application No. 12/203,685	:	DECISION ON PETITION
Filed: September 3, 2008	:	
Attorney Docket No. 06042.0017	:	

This is a decision in response to the petition, filed February 19, 2009, which is being treated under the provisions of 37 CFR 1.181 (no fee) as a request to re-mail the Notice to File Missing Parts mailed September 17, 2008 in the above-identified application.

The petition is **GRANTED**.

Petitioner asserts that the Notice to File Missing Parts dated September 17, 2008 was not received.

A review of the written record indicates no irregularity in the mailing of the Notice and, in the absence of any irregularity, there is a strong presumption that the Notice was properly mailed to the practitioner at the address of record. This presumption may be overcome by a showing that the Notice was not in fact received. In this regard, the showing required to establish the failure to receive the Notice must consist of the following:

1. a statement from practitioner stating that the Notice was not received by the practitioner;

2. a statement from the practitioner attesting to the fact that a search of the file jacket and docket records indicates that the Notice was not received; and

3. a copy of the docket record where the nonreceived Notice would have been entered had it been received and docketed must be attached to and referenced in the practitioner's statement.

See MPEP § 711.03(c) under subheading "Petition to Withdraw Holding of Abandonment Based on Failure to Receive Office Action," and "Withdrawing the Holding of Abandonment When

Office Actions Are Not Received," 1156 Official Gazette 53 (November 16, 1993).

The petition satisfies the above-stated requirements. Accordingly, the request is granted.

This application is being referred to the Office of Patent Application Processing (OPAP) for re-mailing the Notice of September 17, 2008. The period for reply will run from the mailing date of the Office action.

Telephone inquires related to this decision should be directed to the undersigned at (571) 272-3204. Telephone inquiries related to processing at OPAP should be directed to their hotline at (571) 272-4000.

MINNEAPOLIS MN 55440-1022

In re Application of	:
Palou-Rivera, et al.	: DECISION REFUSING STATUS
Application No. 12/203,726	: UNDER 37 CFR 1.47(a)
Filed: September 3, 2008	:
Atty. Dkt. No.: 05542-0642001 /	:
010680USA	:

This decision is in response to the petition under 37 CFR 1.47(a) filed February 18, 2009.

The petition under 37 CFR 1.47(a) is **DISMISSED**.

Petitioners are given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted herein. The reply under 37 CFR 1.47(a) may include an oath or declaration executed by the non-signing inventors. Any extensions of time will be governed by 37 CFR 1.136(a).

The above-identified application was filed September 3, 2008 without an executed oath or declaration. Accordingly, a Notice to File Missing Parts of Nonprovisional Application (Notice) was mailed September 18, 2008. The Notice required, *inter alia*, a surcharge and an executed oath or declaration.

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

As to item (1), petitioners have failed to establish that the non-signing inventor received a complete copy of the application papers (specification, including claims, drawings, and oath or declaration) and thereafter refused to execute an oath or declaration, or, that the non-signing inventor cannot be reached or located for presentation of the application papers.

Petitioners allege that a copy of the application papers for the instant application was mailed to the non-signing inventor via Federal Express. The package containing the application papers was returned to sender. A package containing the application papers was also forwarded to the inventor at the inventor's last known address via USPS, but that the package containing the application papers could not be delivered due an "expired forward." Petitioners further state that an online search at www.whitepages.com yielded no results for the non-signing inventor. Petitioners have thus concluded that the non-signing inventor cannot be reached or located.

Petitioners have not provided documentary evidence of the efforts made to reach the non-signing inventor.

Petitioners are reminded that where inability to reach or locate a non-signing inventor is alleged, petitioners are required to establish that diligent effort was made to locate the non-signing inventor and provide the non-signing inventor with a complete copy of the patent application (specification, including claims, drawings, and oath or declaration). Petitioners have not established that diligent effort has been made to locate the non-signing inventor for presentation of the application papers.

Any renewed petition must be supported by evidence that sufficiently establishes that despite diligent effort, the non-signing inventor cannot be located. A statement of facts should be submitted that fully describes the exact facts that are relied on to establish that a *diligent effort* was made to locate the non-signing inventor. The statement of facts must be signed, where at all possible, by a person having *firsthand knowledge* of the facts recited therein. Statements based on hearsay, will not normally be accepted. At the very least, a search of the internet, human resource records, telephone directories, etc. should be undertaken in regions where it is suspected the non-signing inventor may reside. Petitioners should reference and supply evidence of any such searches in a renewed petition. *See*, MPEP 409.03(d).

Moreover, while petitioners assert that the non-signing inventor cannot be located, a cursory review of the Lexis®.com EZFIND Combined Person Locator Nationwide database revealed that the non-signing inventor may have more recently resided Dupage County Illinois.

As to item (2), an acceptable oath or declaration for the patent application in compliance with 37 CFR 1.63 and 1.64 has been presented. However, the address for the non-signing inventor differs from the last known address set forth in the petition. If deemed appropriate, applicants may submit a newly executed oath or declaration to update or change the address for the non-signing inventor or applicants may submit the update or change by way of Supplemental Application Datasheet pursuant to 37 CFR 1.76.

As to item (3), the required petition fee of $200.00 has been received.

As to item (4), the last known address of the non-signing inventor has been provided. However, should further research reveal a more current address for the non-signing inventor, that information should be provided to the Office.

An application filed pursuant to 37 CFR 1.47 must state the last known address of the non-signing inventor. That address should be the last known address at which the inventor customarily receives mail. Ordinarily, the last known address will be the last known residence of the non-signing inventor. Inasmuch as a non-signing inventor is notified that an application pursuant to 37 CFR 1.47 has been filed on his or her behalf, other addresses at which the non-signing inventor may be reached should also be given. Each applicant's mailing or post office address is required to be supplied on the oath or declaration, if not stated in an application data sheet. Applicant's mailing address means that address at which he or she customarily receives his or her mail. Either applicant's home or business address is acceptable as the mailing address. The mailing address should include the ZIP Code designation. The object of requiring each applicant's mailing address is to enable the Office to communicate directly with the applicant if desired; hence, the address of the attorney with instruction to send communications to applicant in care of the attorney is not sufficient. In situations where an inventor does not execute the oath or declaration and the inventor is not deceased, such as in an application filed under 37 CFR 1.47, the inventor's most recent home address must be given to enable the Office to communicate directly with the inventor as necessary. *See* MPEP §§ 409.03(e) and 605.03.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 3, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;
2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;
3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. 103(c).

REVIEW OF FACTS

The conditions I: 1-4, II: 1-5, 5.1, 5.3, 6, 6.1, 6.3, 6.4, 6.5, and 6.6 above are considered to have been met. However, the petition fails to comply with conditions II: 5.2, and 6.2 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Discussion

When referring to "the petition" herein below, the received papers under consideration include the four page PTO/SB/28 form "Petition to Make Special Under Accelerated Examination Program", the "pre-examination search document" (PESD) including pages 1-7; the "accelerated examination support document" (AESD) comprising pages 1-5, and an Information Disclosure Statement (IDS).

Regarding the requirements of section II element 5.2 outlined above, it appears the search outlined in the petition omitted a critical search area by not searching in the following class/subclasses combination: 29/830, 832, 846, 842, 852. Additional keywords searches of "chip", and "substrate" also appear on point.

Regarding the requirements of section II element 6.2 outlined above, the petition fails to identify all of the limitations in the application claims that are disclosed in each of the reference(s) and where the limitation is disclosed in each of the cited reference. As stated in the policy published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), for each reference cited, the examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. The policy statement does not caveat "the independent claims", nor does it allow for grouping and general discussions. A grantable petition must delineate every limitation of every claim and identify where the equivalent limitation is disclosed in each piece of prior art cited on the IDS. As is published on www.uspto.gov/web/patents/accelerated/ in "Guidelines for Applicants under the new accelerated examination procedures"):

> *For each reference cited, the accelerated examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. Applicants should specify where in each of the cited references the particular claim limitations are found. This process is intended to be analogous to the analysis an examiner uses when locating a relevant prior art reference and then determining whether the reference contains the claimed limitation. For each claimed limitation, the examiner would consider the disclosure of the reference and all reasonable portions in the reference where the limitation is shown. When preparing an Office Action, the examiner would correlate the limitation to the portion of reference which best characterizes the limitation. This part of the AESD is not intended to be an exhaustive listing of every conceivable subjective interpretation of how a claim limitation may read on the reference. Applicants should point out what are considered to be the relevant representations of the limitation in the reference. A limitation may be found in more than one portion of the reference and should be pointed out, yet the intention is not to have applicants point out every conceivable interpretation. The USPTO will adopt a rule of reason when evaluating this portion of the AESD. Unless the representation is so deficient that it would materially effect examination of the application (e.g., numerous instances where the limitations are not shown where applicant states they are), the representation will be deemed to be sufficient for this part of the AESD.*

Petitioner's submission is not specific enough. Petitioner points out some limitations of some of the claim and provides direction to areas of the prior art where the corresponding limitation may be found. Petitioner does not address each discrete limitation (i.e., each single limitation, NOT multiple limitations bundled together) and state where it is (or state that it is not) found in each one of the most closely related prior art. The requirement of section II element 6.2 can be satisfied by listing verbatim ("copy and paste") the presently filed claim (i.e., the claim of the instant application) and by indicating where each discrete limitation (without bundling limitations to the extent possible) of said presently filed claim is taught (or is not taught) in each one of the most closely related references that is cited, by specifically indicating the element number and/or the relevant page/paragraph and line number(s), or by indicating "(not disclosed)" where appropriate - in order to ensure that no limitation was left out inadvertently. Limitations for which antecedent basis has been established and mapped unto the prior art reference need not be mapped repeatedly (the first time suffice). However limitations not disclosed must be specifically singled out (without bundling with disclosed limitations – to the extent possible). Note that disclosure may be express, implicit, or inherent. Claim recitations must be complete. Statements such as "Limitation II(b) – (not disclosed)", i.e., statements that do not spell out the relevant limitations should be avoided. This one-to-one mapping should be performed individually, with regard to each one of the most closely related prior art that is cited, one reference at a time. The requirement of this element calls for a straight mapping of each single limitation unto the prior art. Section II element 6.2 is not the proper venue to imply patentability by bundling limitations and concluding that the combination is not disclosed. Patentability arguments should be made only in response to the requirement of section II element 6.3 (requirement presently met).

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address all of the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Programs Examiner, at (571) 272-4828.

Title: METHOD FOR MANUFACTURING A SOLAR MODULE

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the request for reconsideration filed on December 15, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). The request has been treated as a renewed petition to make the above-identified application special and has been viewed as a supplement to and in combination with the original petition which was filed on September 3, 2008 and dismissed in the Office letter of November 14, 2008.

The petition to make the application special is **DENIED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the conditions as outlined in the prior petition decision. The conditions are not repeated herein.

REVIEW OF FACTS

As stated in the decision of November 14, 2008 conditions I: 1-4, II: 1-5, 5.1 5.3, 6, 6.1, 6.3, 6.4, 6.5, and 6.6 were considered to have been met. However, the petition failed to comply with conditions II: 5.2 and 6.5. Upon reconsideration, the petition is considered to additionally meet II: 6.2. However, the petition still fails to meet the requirement of section II: 5.2. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DISCUSSION

In the dismissal of the petition dated, November 14, 2008 the Examiner noted that Petitioner failed to be specific in the identification of the claimed limitations in the most closely related prior art. Additional search was required too. The stated deficiency of the mapping unto the most closely related prior art prevented a factual determination of the mapping's specificity, and the

petition was dismissed. In the request for reconsideration filed December 15, 2008, Petitioner met the specificity requirement. A check of the mapping unto the respective references revealed that none of the references deemed to be the most closely related prior art used cooling, a fact that raised the question whether said references were indeed the most closely related prior art. On January 14, 2009, between 13:31 and 13:32 (see attached EAST Search History printout), the undersigned undertook a quick one minute keywords search that comprised the following terms: "solar, cell, cool$3, circuit board" and found the patent to Sasaoka et al., 6,730,840, that is in the same field as the claimed invention, and discloses all the limitations that Petitioner states to define the claimed invention over the prior art. Note that this determination refers to the limitations stated to define the claimed invention over the prior art, NOT to all the limitations of claim 1. However, the newfound reference being from the same field as the claimed invention, it should have been included in the Accelerated Examination Support Document (AESD) as a most closely related prior art and an analysis under 35 USC 103 should have been conducted. The facts are summarized below.

On p. 1 of the Preexamination Search Document (PESD), partially reproduced below, Petitioner states to have searched, *inter alia*, subclass 136/246.

8 (A) Pre-examination Search

US Field of Search:

Class(es)/Subclass(es) Searched:

136/244,246,250,251,259
438/65,67

The US Patent to Sasaoka was issued in subclass 136/246, that Petitioner stated to have searched (see partial reproduction on the next page).

The following is the statement of patentability, copied form p. 4 of the AESD, wherein each of the limitations is mapped unto Sasaoka, see also marked Fig. 2 of Sasaoka attached to the present decision:

"forming a plurality of openings (see openings marked on attached Fig. 2) in the circuit board base (205, col. 20, l. 63; 306. col. 20, l. 64), below a backside of the solar concentrator (701, col. 19, ll. 14-15) chip (204, col. 20, l. 36) to enable attachment of cooling fingers (see cooling fins at the bottom of Fig. 2)".

For at least this reason, Sasaoka should have been identified as most closely relevant prior art, and an analysis under 35USC103(a) should have been carried out.

PUMMER, Alexander	:	
Application No. 12/203,808	:	DECISION ON PETITION
Filed: September 03, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. **PPD-001/US**	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 05, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement attesting that Alexander Pummer is over 65 years of age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Michelle R. Eason at 571-272-4231.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

This application is being referred to the Office of Patent Application Processing. This application will be accorded "special" status when pre-examination processing is done.

DECISION ON PETITION
TO MAKE SPECIAL FOR
NEW APPLICATION
UNDER 37 CFR 1.102

This is a decision on the petition filed on September 3, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner;

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-

function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition fails to comply with conditions II.5.2, II.6.1 II.6.2, II.6.3 and II.6.5 above.

As to condition II.5.2, the petition lacks an indication of a preexamination search that encompasses all of the features of the claims. Many of the claims, for example, but certainly not limited to, claims 2 and 10, appear to contain limitations that are quite common and it strains credulity to assert that nowhere in the prior art are located these additional claimed limitations. It appears that the search may have been completed on the concept of the disclosed invention rather than the "claimed invention " as is required.

As to condition II.6.1, on page 4 of the accelerated examination support document (AESD), it is indicates that an IDS is being submitted as part of the AESD in the Appendix. However, no appendix exists. Thus, the AESD fails to include an IDS in compliance with 37 CFR 1.08 citing each reference deemed most closely related to the subject matter of each of the claims.

As to conditions II.6.2, there currently is not an adequate explanation specifying where each of the limitations (or portions thereof) are disclosed in each of the references. An explanation of the references is not sufficient to meet the above condition. Applicant has only addressed claims 1 and 7. Each reference must be analyzed to indicate whether or not each limitation of each claim is taught by the references. Furthermore, applicant has cited 12 references which are deemed to be most closely related to the subject matter of the claims (as indicated in section B of the AESD). However, only 9 of the 12 references have been analyzed. All references cited in an information disclosure statement must be so analyzed as they are provided in support of the petition. Additionally, many of

As to condition II.6.3, there is not a sufficiently detailed explanation of claim Patentability over each of the references. Applicant indicates that dependent claims 2-6 and 8-14 recite additional features that would define over the references if independent claims 1 and 7 were found to be unpatentable. However, an explanation furthermore needs to be made to specify how these dependent claims define over the prior art.

As to condition II.6.5, the showing of where each limitation of each of the claims finds support under 35 USC 112 in the written description of the application is insufficient. For each claimed limitation (including dependent claims) the petition needs to identify **specific passages**, or at least a single paragraph where each limitation is supported. Only claim 1 has been addressed. Listing broadly a figure or a number of figures does not comply with what is required. Similar support (if any) for the claimed invention must additionally be shown in the parent applications upon which priority is claimed under 35 USC 120. Specifically, for parent application 12/182,126 and 60/952,856, a listing of where the limitations of the claims find support is necessary so that the examiner can determine an effective filing date for each claim.

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is DISMISSED. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Teri P. Luu, Quality Assurance Specialist, at (571) 272-7045.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Applicant	: Wendell B. Sander	: DECISION ON REQUEST FOR
Patent Number	: 7627128	: RECALCULATION of PATENT
Issue Date	: 12/01/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/203,873	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 09/03/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

PETITION TO MAKE SPECIAL BASED ON AGE FOR ADVANCEMENT OF EXAMINATION UNDER 37 CFR 1.102(c)(1)

Application Information

Application Number	12/203,876	Confirmation Number	3977	Filing Date	2008-09-03
Attorney Docket Number (optional)	P6133US1	Art Unit		Examiner	
First Named Inventor	Wendell B. Sander				
Title of Invention	ELECTRONIC DEVICE ACCESSORY				

Attention: Office of Petitions

An application may be made special for advancement of examination upon filing of a petition showing that the applicant is 65 years of age, or more. No fee is required with such a petition. See 37 CFR 1.102(c)(1) and MPEP 708.02 (IV).

APPLICANT HEREBY PETITIONS TO MAKE SPECIAL FOR ADVANCEMENT OF EXAMINATION IN THIS APPLICATION UNDER 37 CFR 1.102(c)(1) and MPEP 708.02 (IV) ON THE BASIS OF THE APPLICANT'S AGE.

A grantable petition requires one of the following items:
(1) Statement by one named inventor in the application that he/she is 65 years of age, or more; or
(2) Certification by a registered attorney/agent having evidence such as a birth certificate, passport, driver's license, etc. showing one named inventor in the application is 65 years of age, or more.

Name of Inventor who is 65 years of age, or older

Given Name	Middle Name	Family Name	Suffix
Wendell	B.	Sander	

A signature of the applicant or representative is required in accordance with 37 CFR 1.33 and 10.18.
Please see 37 CFR 1.4(d) for the format of the signature.

Select (1) or (2) :

○ (1) I am an inventor in this application and I am 65 years of age, or more.

◉ (2) I am an attorney or agent registered to practice before the Patent and Trademark Office, and I certify that I am in possession of evidence, and will retain such in the application file record, showing that the inventor listed above is 65 years of age, or more.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Applicant	: Wendell B. Sander	: DECISION ON REQUEST FOR
Patent Number	: 7623667	: RECALCULATION of PATENT
Issue Date	: 11/24/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/203,879	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 09/03/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Attorney Docket No. P6133US4

:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 11-SEP-2008 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

PETITION TO MAKE SPECIAL BASED ON AGE FOR ADVANCEMENT OF EXAMINATION UNDER 37 CFR 1.102(c)(1)

Application Information

Application Number	12/203,881	Confirmation Number	3986	Filing Date	2008-09-03
Attorney Docket Number (optional)	P6133US5	Art Unit		Examiner	
First Named Inventor	Wendell B. Sander				
Title of Invention	ELECTRONIC DEVICE CIRCUITRY FOR COMMUNICATING WITH ACCESSORIES				

Attention: Office of Petitions

An application may be made special for advancement of examination upon filing of a petition showing that the applicant is 65 years of age, or more. No fee is required with such a petition. See 37 CFR 1.102(c)(1) and MPEP 708.02 (IV).

APPLICANT HEREBY PETITIONS TO MAKE SPECIAL FOR ADVANCEMENT OF EXAMINATION IN THIS APPLICATION UNDER 37 CFR 1.102(c)(1) and MPEP 708.02 (IV) ON THE BASIS OF THE APPLICANT'S AGE.

A grantable petition requires one of the following items:
(1) Statement by one named inventor in the application that he/she is 65 years of age, or more; or
(2) Certification by a registered attorney/agent having evidence such as a birth certificate, passport, driver's license, etc. showing one named inventor in the application is 65 years of age, or more.

Name of Inventor who is 65 years of age, or older

Given Name	Middle Name	Family Name	Suffix
Wendell	B.	Sander	

A signature of the applicant or representative is required in accordance with 37 CFR 1.33 and 10.18.
Please see 37 CFR 1.4(d) for the format of the signature.

Select (1) or (2) :

○ (1) I am an inventor in this application and I am 65 years of age, or more.

◉ (2) I am an attorney or agent registered to practice before the Patent and Trademark Office, and I certify that I am in possession of evidence, and will retain such in the application file record, showing that the inventor listed above is 65 years of age, or more.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

OFFICE OF PETITIONS

CAPITOL CITY TECHLAW, PLLC
PO BOX 1210
VIENNA, VA 22183

In re Application of
Neil H. Puester, et al.
Application No. 12/203,899
Filed: September 3, 2008
Attorney Docket No. 9077-000001/DIV1

ON PETITION

This is a decision in response to the petition, filed June 3, 2009, to revive the above-identified application under the provisions of 37 CFR 1.137(b).

The petition is **GRANTED**.

The application became abandoned for a failure to timely respond to a Notice to File Corrected Application Papers mailed September 18, 2008. A Notice of Abandonment was mailed on May 26, 2009. On June 3, 2009, the present petition was filed.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of a replacement drawings; (2) the petition fee of $810; and (3) an adequate statement of unintentional delay.

Petitioner is reminded that the grant of a petition under 37 CFR 1.137 is not a determination that any reply is complete, since the petition may be granted if the reply appears to be *bona fide*. After revival of the application, the Office of Patent Application Processing (OPAP) may, upon more detailed review, determine that the reply is lacking in some respect. In this limited situation, OPAP should send out a letter giving shortened statutory period under 37 CFR 1.135(c) for correction of the error or omission. Extensions of time under 37 CFR 1.136(a) are permitted. If applicant does not correct the omission within the time period set in the letter (including any extension), the application is again abandoned.

The application is being referred to the Office of Patent Application Processing (OPAP) for consideration of the drawings filed June 3, 2009.

Telephone inquires related to this decision should be directed to the undersigned at (571) 272-3204. Telephone inquiries related to processing at OPAP should be directed to their hotline at (571) 272-4000.

Application No.: 12/203,945
Filing Date: September 4, 2008
Attorney Docket No.: 3628/8
For: UTENSIL AND METHOD FOR COLLECTING AND POURING POWDERS AND FLUIDS

DECISION

This decision is in response to the "Petition to Correct Filing from Nonprovisional Application Under 35 U.S.C. 111(A) to U.S. National Stage Under 35 U.S.C. 371 Under 37 CFR 1.182" filed May 6, 2009.

BACKGROUND

On September 4, 2008, applicant filed papers electronically with the United States Patent and Trademark Office. Applicant indicated that the filing was a "Utility under 35 USC 111(a)" in the USPTO EFS-Web system.

On October 1, 2008, a filing receipt indicating that the above-captioned application was a filing under 35 U.S.C. 111(a) was mailed.

On February 25, 2009, a request for a corrected filing receipt was mailed. Applicant requested the filing receipt indicate that the application was a filing under 35 U.S.C. 371.

On March 6, 2009, the Office mailed a response dismissing applicant's request for a corrected filing receipt because the subject application was not a filing under 35 U.S.C. 371.

On May 6, 2009, applicant filed the subject petition to convert the filing to a national stage filing under 35 U.S.C. 371.

DISCUSSION

In the petition, applicant states that "the above-referenced application was mistakenly e-filed as a utility application by selecting Non Provisional Application under 35 USC 111(a) instead of U.S. National Stage under 35 USC 371." Applicant requests

that the Office have the application considered under 35 U.S.C. 371.

Any intended filing of an international application as a national stage application must clearly be identified as such and must satisfy all the conditions set forth in 35 U.S.C. 371(c). Otherwise, the submission will be considered as being made under 35 U.S.C. 111(a). 37 CFR 1.495(g). In addition, section 1893.03(a) of the Manual of Patent Examining Procedure states, in part:

> In accordance with the notice at 1077 O.G. 13 (14 April 1987) . . . if there are any conflicting instructions as to whether the filing is under 35 U.S.C. 111(a) or 35 U.S.C. 371, the application will be accepted as filed under 35 U.S.C. 111(a).

A review of the subject application shows that applicant filed the application using the USPTO EFS-Wes system as a "Utility under 35 USC 111(a)." Another option in the USPTO EFS-Web system is to file as a "US National Stage under 35 USC 371." This is a clear conflicting instruction and was properly treated as a filing under 35 U.S.C. 111(a) by the Office.

Nonetheless, applicant requests that the filing be corrected to a U.S. National Stage Application filing under 35 U.S.C. 371. Applicant submitted evidence in the form of a declaration and Application Data Sheet originally filed September 4, 2008 showing that the papers were intended to be a national stage application of PCT/IL2007/000314.

This is treated as a petition under 37 CFR 1.182. The $400.00 petition fee has been paid.

U.S. Statutes and Regulations do not make specific provision for conversion of the application to a national phase and as such the Office does not grant such petitions for conversion as a mere matter of course. The Office will only grant such petitions upon a showing by applicant of sufficient cause (e.g., the loss of patent rights) where no other remedy is available.

In the instant petition, applicant has not made such a showing.

CONCLUSION

Applicant's petition under 37 CFR 1.182 is **DISMISSED** without prejudice.

Any further correspondence with respect to this matter should be addressed to the Mail Stop PCT, Commissioner for Patents, Office of PCT Legal Administration, P.O. Box 1450, Alexandria, Virginia 22313-1450, with the contents of the letter marked to the attention of the Office of PCT Legal Administration.

This application is being returned to Group Art Unit 3781 for continued

processing.

OFFICE OF PETITIONS

In re Application of	:
Garner, et al.	: DECISION REFUSING STATUS
Application No. 12/204,024	: UNDER 37 CFR 1.47(a)
Filed: September 4, 2008	:
Atty. Dkt. No.: 13837-20	:

This decision is in response to the petition under 37 CFR 1.47(a) filed April 16, 2009.

The petition under 37 CFR 1.47(a) is DISMISSED.

Petitioners are given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted herein. The reply under 37 CFR 1.47(a) may include an oath or declaration executed by the non-signing inventors. Any extensions of time will be governed by 37 CFR 1.136(a).

The above-identified application was filed September 4, 2008 without an executed oath or declaration. Accordingly, a Notice to File Missing Parts of Nonprovisional Application (Notice) was mailed September 18, 2008. The Notice required a surcharge and an executed oath or declaration.

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

The instant petition fails to satisfy requirement (1) set forth above in that petitioners have failed to establish that the non-signing inventor received a complete copy of the application papers (specification, including claims, drawings, and oath or declaration) and thereafter refused to execute an oath or declaration, or, that the non-signing inventor cannot be reached or located for presentation of the application papers.

Petitioners indicate that on March 10, 2009, a declaration was mailed to the non-signing inventor. Petitioners have included a copy of the letter mailed to the non-signing inventor concerning the declaration. The letter appears to have been mailed to a business address stated to be the last known address of the inventor. Petitioners further state that the inventor did not

respond to the letter nor did the inventor respond to a telephone message left a receptionist for the him at his place of business.

Before a refusal to sign an oath or declaration can be alleged, it must be demonstrated that a *bona fide* effort has been made to present a complete copy of the application papers (specification, including claims, drawings, and oath or declaration) to the non-signing inventor at the non-signing inventor's last known address, typically a residential address.

Any renewed petition should be accompanied by evidence to establish that the non-signing inventor was sent a complete copy of the application papers (specification, claims, drawings, and oath or declaration) and thereafter refused to execute the declaration. Petitioners may wish to provide the Office copies of letters sent to the inventor indicating the enclosure of the application papers (specification, claims, drawings, and oath or declaration). If after the inventor receives the application papers and requests to execute the oath or declaration are refused, these facts should be set forth in a statement of facts signed by the person to whom the refusals were made and detailing with specificity the exact manner of the refusals. If a written refusal has been made, a copy of the written refusal should be included on renewed petition.

As to item (3), the required petition fee is $200.00. Petitioners have submitted $130.00. The remaining fee due, $70.00, has been charged to petitioners' deposit account, as authorized.

As to item (4), the last known address of the non-signing inventor has been provided. Petitioners, however, have provided a business address.

An application filed pursuant to 37 CFR 1.47 must state the last known address of the non-signing inventor. That address should be the last known address at which the inventor customarily receives mail. Ordinarily, the last known address will be the last known residence of the non-signing inventor. Inasmuch as a non-signing inventor is notified that an application pursuant to 37 CFR 1.47 has been filed on his or her behalf, other addresses at which the non-signing inventor may be reached should also be given. Each applicant's mailing or post office address is required to be supplied on the oath or declaration, if not stated in an application data sheet. Applicant's mailing address means that address at which he or she customarily receives his or her mail. Either applicant's home or business address is acceptable as the mailing address. The mailing address should include the ZIP Code designation. The object of requiring each applicant's mailing address is to enable the Office to communicate directly with the applicant if desired; hence, the address of the attorney with instruction to send communications to applicant in care of the attorney is not sufficient. In situations where an inventor does not execute the oath or declaration and the inventor is not deceased, such as in an application filed under 37 CFR 1.47, the inventor's most recent home address must be given to enable the Office to communicate directly with the inventor as necessary. *See* MPEP §§ 409.03(e) and 605.03.

If appropriate, petitioners may submit any additional addresses where the non-signing inventor may be found upon renewed petition.

Further correspondence with respect to this matter should be addressed as follows:

In re Application of	:
Garner, et al.	: DECISION REFUSING STATUS
Application No. 12/204,024	: UNDER 37 CFR 1.47(a)
Filed: September 4, 2008	:
Atty. Dkt. No.: 13837-20	:

This decision is in response to the renewed petition under 37 CFR 1.47(a) filed November 16, 2009.

The petition under 37 CFR 1.47(a) is DISMISSED.

Petitioners are given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted herein. The reply under 37 CFR 1.47(a) may include an oath or declaration executed by the non-signing inventors. Any extensions of time will be governed by 37 CFR 1.136(a).

The above-identified application was filed September 4, 2008 without an executed oath or declaration. Accordingly, a Notice to File Missing Parts of Nonprovisional Application (Notice) was mailed September 18, 2008. The Notice required a surcharge and an executed oath or declaration. A petition under 37 CFR 1.47 was filed April 16, 2009 and dismissed June 15, 2009.

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

The instant petition fails to satisfy requirement (1) set forth above in that petitioners have failed to establish that the non-signing inventor received a complete copy of the application papers (specification, including claims, drawings, and oath or declaration) and thereafter refused to execute an oath or declaration, or, that the non-signing inventor cannot be reached or located for presentation of the application papers.

Petitioners indicate that the applications papers were forwarded to the non-signing inventor via email on October 2, 2009. Petitioners indicate that a follow-up email was sent to the non-signing inventor on October 15, 2009 requesting that the inventor sign the declaration. Petitioners

indicate that the application papers were mailed to the inventor's last known business address on November 3, 2009 and that the package appears to have been delivered. Petitioners indicate that the application papers were mailed to the inventor's last known home residential address on November 3, 2009, but also state that the package containing the application papers was not delivered as the inventor is believed to no longer reside at that address.

Petitioners reference a telephone conversation with the non-signing inventor on October 2, 2009 wherein the inventor expressed concern about signing the declaration. Petitioners reference a telephone conversation with the non-signing inventor on October 9, 2009 wherein the inventor stated he had not signed the declaration. Petitioners reference telephone calls to the inventor on October 27, 2009 and November 3, 2009 wherein voicemail messages were left regarding the declaration.

The supporting documents included with the petition do not establish that the inventor received the application papers forwarded via email. Typically a non-signing inventor would indicate receipt of the email and referenced attachments via return email in a 37 CFR 1.47(a) scenario. Thus, it cannot be established that the non-signing inventor received the application papers via email.

To the extent that petitioners continue to communicate with the inventor via email, any renewed petition must be accompanied by evidence which sufficiently establishes that the copy of the application papers forwarded to the inventor via email was in a form that could be read and comprehended by the intended recipient, and that it was in fact received, opened and read by the intended recipient.

To the extent that the application papers were mailed to the non-signing inventor at the non-signing inventor's last known business address, there is no indication that the package containing the application papers was received by the non-signing inventor as the supporting documents do not reflect that the package was signed for by the non-signing inventor.

As to the attempt to deliver a package containing the application papers to the inventor's last known residential address, said package apparently could not be delivered due to the inventor no longer residing at said address. Thus, it cannot be established that the non-signing inventor received the application papers.

Before a refusal to sign an oath or declaration can be alleged, it must be demonstrated that a *bona fide* effort has been made to present a complete copy of the application papers (specification, including claims, drawings, and oath or declaration) to the non-signing inventor at the non-signing inventor's last known address, typically a residential address.

Any renewed petition should be accompanied by evidence to establish that the non-signing inventor was sent a complete copy of the application papers (specification, claims, drawings, and oath or declaration) and thereafter refused to execute the declaration. Petitioners may wish to provide the Office copies of letters sent to the inventor indicating the enclosure of the application papers (specification, claims, drawings, and oath or declaration). If after the inventor receives the application papers and requests to execute the oath or declaration are refused, these facts should

be set forth in a statement of facts signed by the person to whom the refusals were made and detailing with specificity the exact manner of the refusals. If a written refusal has been made, a copy of the written refusal should be included on renewed petition.

Moreover, as it appears that the non-signing inventor no longer resides at the last known address, petitioners are advised that to the extent that petitioners believe the non-signing inventor cannot be reached or located, petitioners are required to establish that diligent effort was made to locate the non-signing inventor and provide the non-signing inventor with a complete copy of the patent application papers (specification, including claims, drawings, and oath or declaration). Petitioners have not established that diligent effort has been made to locate the non-signing inventor for presentation of the application papers.

Any renewed petition must be supported by evidence that sufficiently establishes that despite diligent effort, the non-signing inventor cannot be located. A statement of facts should be submitted that fully describes the exact facts that are relied on to establish that a *diligent effort* was made to locate the non-signing inventor. The statement of facts must be signed, where at all possible, by a person having *firsthand knowledge* of the facts recited therein. Statements based on hearsay, will not normally be accepted. At the very least, a search of the internet, human resource records, telephone directories, etc. should be undertaken in regions where it is suspected the non-signing inventor may reside. Petitioner should reference and supply evidence of any such searches in a renewed petition. *See*, MPEP 409.03(d).

As to item (4), the last known address of the non-signing inventor has been provided. However, as it is believed that the non-signing inventor no longer resides at that address, should further research reveal a more current address for the non-signing inventor, that address should be made known to the Office in any renewed petition as well as by way of supplemental application data sheet in accordance with 37 CFR 1.76.

An application filed pursuant to 37 CFR 1.47 must state the last known address of the non-signing inventor. That address should be the last known address at which the inventor customarily receives mail. Ordinarily, the last known address will be the last known residence of the non-signing inventor. Inasmuch as a non-signing inventor is notified that an application pursuant to 37 CFR 1.47 has been filed on his or her behalf, other addresses at which the non-signing inventor may be reached should also be given. Each applicant's mailing or post office address is required to be supplied on the oath or declaration, if not stated in an application data sheet. Applicant's mailing address means that address at which he or she customarily receives his or her mail. Either applicant's home or business address is acceptable as the mailing address. The mailing address should include the ZIP Code designation. The object of requiring each applicant's mailing address is to enable the Office to communicate directly with the applicant if desired; hence, the address of the attorney with instruction to send communications to applicant in care of the attorney is not sufficient. In situations where an inventor does not execute the oath or declaration and the inventor is not deceased, such as in an application filed under 37 CFR 1.47, the inventor's most recent home address must be given to enable the Office to communicate directly with the inventor as necessary. *See* MPEP §§ 409.03(e) and 605.03.

In re Application of	:	
Garner, et al.	:	DECISION GRANTING STATUS
Application No. 12/204,024	:	UNDER 37 CFR 1.47(a)
Filed: September 4, 2008	:	
Attorney Docket No. 13837-20	:	

This is a decision on the renewed petition under 37 CFR 1.47(a), filed April 1, 2010.

The petition is **GRANTED.**

Petitioner has shown that the non-signing inventor either cannot be located or refuses to join in the filing of the above-identified application.

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application is being referred to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3205.

In re Application of
Garner, et al.
Application No. 12/204,024
Filed: September 4, 2008
Attorney Docket No. 13837-20

Dear Sir:

You are named as a joint inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (571) 272-3205. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington, DC area).

OFFICE OF PETITIONS

In re Application of	:	
Anthony Dean WALKER	:	
Application No. 12/204,047	:	ON PETITION
Filed: September 04, 2008	:	
Attorney Docket No. P26064-US1	:	

This is a decision on the petition under 37 CFR 1.137(b), filed June 22, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The above-identified application became abandoned for failure to file a proper reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application September 22, 2008, which set a period for reply of two (2) months. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the above-identified application became abandoned on November 23, 2008.

The petition satisfies the conditions for revival pursuant to the provisions of 37 CFR 1.137(b) in that (1) the reply in the form of signed declaration and a surcharge fee of $130; (2) the petition fee of $1,620.00; and (3) the required statement of unintentional delay have been received. Accordingly, the reply to the Notice to File Missing Parts of Nonprovisional Application of September 22, 2008 is accepted as having been unintentionally delayed.

A surcharge (for late submission of oath or declaration) as set forth in 37 CFR 1.16(f) of $130 for a non-small entity has been charged to the deposit account 501379.

Telephone inquiries concerning this decision should be directed to Niketa I. Patel at 571-272-4156 or in her absence, the undersigned at 571-272-7099.

The application is being referred to the Office of Initial Patent Examination.

NEW YORK, NY 10281-2101

In re Application of: Lidor Goren et al. Serial No.: 12/204,074 Filed: September 4, 2008 Docket No.: IL920080139US1 Title: METHOD FOR CREATING A PARAMETERIZED CELL LIBRARY DUAL-LAYERED RULE SYSTEM FOR RAPID TECHNOLOGY MIGRATION	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 4, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. §1.102.

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 C.F.R. §1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 C.F.R. §1.97 and §1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 C.F.R. §1.181, §1.182 or §1.183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve-month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-1606.

In re Application of	:	
Izhar HALAHMI, et al	:	
Application No. 12/204,109	:	DECISION ON PETITION
Filed: September 4, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. PRSI 2 00003-2	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 4, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a declaration statement signed by Applicant Oded Erez. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6735.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to Technology Center Art Unit 1796 for action on the merits commensurate with this decision.

In re Application of: Alan Cooke Serial No.: 12/204,137 Filed: September 4, 2008 Docket: GB920080030US1 Title: SYSTEM AND METHOD FOR ACCELERATED WEB PAGE NAVIGATION USING KEYBOARD ACCELERATORS IN A DATA PROCESSING SYSTEM	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 4, 2008 to make the above- identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the

examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-3719.
If attempts to reach the undersigned by telephone are unsuccessful, Mano Padmanabhan, Quality Assurance Specialist, can be reached at (571) 272-4210.

In re application of	:	
Barbara Febonio et al.	:	DECISION ON PETITION
Application No. 12/204,148	:	TO MAKE SPECIAL FOR
Filed: September 4, 2008	:	NEW APPLICATION
For: METHOD AND SYSTEM FOR ROUTE	:	UNDER 37 CFR 1.102
TRACKING	:	

This is a decision on the petition filed on September 4, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner;

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-

function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition fails to comply with conditions II.5.2 and II.6.5 above.

As to condition II.5.2, the petition lacks an indication of a preexamination search that encompasses all of the features of the claims. With respect to the classification search, in addition to the areas already searched, the search needs to include a search of 701/117; 340/907, 909, 933, 934, 917, 910, 911 and 932; 342/454, 456, 458, 463, 385, 386; 180/167-169; and 404/1 and 9.

As to condition to II.6.5, the showing of where each limitation of the claim finds support under 35 USC 112 in the written description of the application is insufficient. For each claimed limitation the petition needs to identify ***specific*** passages, or at least a single paragraph where each limitation provides support. Specifically, with respect to the Lutter reference, the AE Support Document fails to identify the specific passage where support for the limitation "collecting travel route information from the first vehicle...." is provided.

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is DISMISSED. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Teri P. Luu, Quality Assurance Specialist, at (571) 272-7045.

In re Application of	:	
Barbara Febonio et al.	:	DECISION ON PETITION
Application No. 12/204,148	:	TO RESTART TIME PERIOD
Filed: September 4, 2008	:	
For: METHOD AND SYSTEM FOR ROUTE TRACKING	:	

This is in response to applicants' petition to restart the time period for reply filed in the United States Patent and Trademark Office (USPTO), on December 1, 2008.

The petition is **DISMISSED.**

A review of the file record reveals that a Petition Decision was mailed to the applicants on October 7, 2008. Applicants were given a single opportunity to perfect the petition and given a one month (or thirty days) non-extendable time period under 37 CFR 1.136(a) in which to perfect the petition. Since the petition was not perfected within the time period set forth in the petition decision, the application was no longer eligible for the accelerated examination program, and a notice to that effect was mailed on November 14, 2008.

There is a strong presumption that Office communication properly addressed and delivered to the United States Postal Services, was in fact delivered to the addressee. An allegation that the Office communication was not received must be overcome by a showing that it was not received.

The showing required to establish non-receipt of an Office communication must include all of the following requirements:

(1) A statement from the practitioner stating the Office communication was not received by the practitioner;

(2) A statement attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received; and

(3) A copy of the docket record where the non-received Office communication would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement.

The docket records indicated above must include a copy of the list of **all responses** in the practitioner's office with the due date of November 7, 2008. See Notice entitled "Withdrawing the Holding of Abandonment When Office Actions Are Not Received," 1156 OG 53 (November 16, 1993).

The petitioner has failed to comply with requirement (2) and (3) indicated above.

As to condition (2), practitioner has failed to make that statement attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received. The statement attesting to the fact that a search of the file jacket and docket records was made by Ms. Candy Neu who is not the practitioner.

As to condition (3), it is not clearly evident from the first page of the October 7, 2008 petition decision that the petition decision was in fact mailed on October 7, 2008. The date indicated on the original date stamped was written over and it appears that it could possibly be interpreted as October 7th or October 8th. Accordingly, to satisfy requirement (3) above, a docket record showing all actions due by Snell & Wilmer LLP between the dates of November 6, 2008 and November 10, 2008 (November 8, 2008 being a Saturday), needs to be supplied.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.181."

In re Application of :
Barbara Febonio et al. :
Application No. 12/204,148 :
Filed: September 4, 2008 :
For: METHOD AND SYSTEM FOR ROUTE TRACKING :

DECISION ON RENEWED PETITION TO RESET TIME PERIOD

This is a decision in response to applicants' Renewed Petition received February 17, 2009.

The petition is **GRANTED**.

A review of the file record reveals that a Petition Decision was mailed to the applicants on October 7, 2008. Applicants were given a single opportunity to perfect the petition. Since the petition was not perfected within the time period set forth in the petition decision, the application was no longer eligible for the accelerated examination program, and a notice to that effect was mailed on November 14, 2008.

There is a strong presumption that Office communication properly addressed and delivered to the United States Postal Services, was in fact delivered to the addressee. An allegation that the Office communication was not received must be overcome by a showing that it was not received.

The showing required to establish non-receipt of an Office communication must include all of the following requirements:

(1) A statement from the practitioner stating the Office communication was not received by the practitioner;

(2) A statement attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received; and

(3) A copy of the docket record where the non-received Office communication would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement.

A petition to restart the time period was filed on December 1, 2008. That petition was dismissed in a decision mailed on December 16, 2008 wherein it was held that the petitioner failed to comply with requirements (2) and (3) above.

Applicant's renewed petition includes a statement from the practitioner attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received. Additionally, a copy of docket records showing all actions due by the firm of Snell & Wilmer, LLP between the dates of November 6, 2008 and November 10, 2008 was received.

The petition decision of October 7, 2008 is hereby reset as of the date of the mailing of this petition decision. Petitioner is given a single opportunity to perfect the October 7, 2008 petition. Any request for reconsideration of the October 7, 2008 decision must be submitted within one (1) month or thirty (30) days, whichever was longer, from the date of mailing of the instant petition decision in order to be considered timely. No extension of time under 37 CFR 1.136(a) is permitted. Any request for reconsideration must address the deficiencies indicated in the October 7, 2008 petition decision.

Costa Mesa, CA 92626

In re application of Barbara Febonio et al. Application No. 12/204,148 Filed: September 4, 2008 For: METHOD AND SYSTEM FOR ROUTE TRACKING	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 CFR 1.102

A decision dismissing the petition to make the above-identified application special for accelerated examination was mailed on October 7, 2008. The decision set a non-extendable time period of one month or 30 (thirty) days, whichever is longer, from its mailing date to correct the deficiency/deficiencies in the petition.

On December 1, 2008 applicant filed a petition to restart the time period. Petitioner asserted that the October 7, 2008 decision was not received. A decision dismissing the petition was mailed December 16, 2008. Applicant filed a renewed petition on February 17, 2009. The renewed petition was granted on February 18, 2009 and indicated that the one-month non-extendable time period to respond to the October 7, 2008 decision on petition to make special under 37 CFR 1.102 was reset as of the date of the mailing of the February 18, 2009 decision.

As of March 25, 2009, neither a reply nor a renewed petition to make special was received. Accordingly, the application is no longer eligible for the accelerated examination program.

The application will remain in its regular status and will be taken up by the examiner for action in its regular turn.

Petitioner is reminded that a single opportunity to perfect the petition is given. Therefore, further petitions for accelerated examination in this application will not be entertained.

Any inquiry regarding this decision should be directed to Teri P. Luu, Quality Assurance Specialist, at (571) 272-7045.

APR 07 2009

Snell & Wilmer LLP (IBM Corp.)
600 Anton Blvd
Suite 1400
Costa Mesa, CA 92626

In re application of Barbara Febonio et al. Application No. 12/204,148 Filed: September 4, 2008 For: METHOD AND SYSTEM FOR ROUTE TRACKING	: : : : : :	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 CFR 1.102

This is a decision on the renewed petition filed on March 31, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed to a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Quality Assurance Specialist Teri P. Luu, at (571) 272-7045.

Applicant	: Henry W. Harper	: DECISION ON REQUEST FOR
Patent Number	: 7568471	: RECALCULATION of PATENT
Issue Date	: 08/04/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/204,199	: OF WYETH
Filed	: 09/04/2008	:
		:

The Patentee's Request for Recalculation is **DISMISSED.**

This Request is deemed ineligible for consideration for one or more of the following reasons:

(A). The patent for which PTA recalculation is requested is either a design or reissue application or is a reexamination proceeding;

(B). The patent for which PTA recalculation is requested resulted from a utility or plant application filed under 35 USC 111(a) before May 29, 2000 and no CPA filed in the application on/after May 29, 2000;

(C). The patent for which PTA recalculation is requested resulted from an international application in which the international filing date was before May 29, 2000 and no CPA filed in the application on/after May 29, 2000;

(D). The patent for which PTA recalculation is requested issued on/after March 2, 2010;

(E). The Request for Recalculation was filed more than 180 days after the grant date of the patent and the request was not filed within two months of a dismissal of a request for reconsideration of the of the patent term under 37 CFR 1.705(d);

(F). The Request for Recalculation is not solely limited to USPTO pre-Wyeth interpretation of 35 U.S.C. 154(b)(2)(A);

or

(G). A civil action was filed pursuant to 35 U.S.C. 154(b)(4)(A)concerning the same patent at issue in this request.

Patentee may file a reply to this decision dismissing the Request for Recalculation. Patentee must file such reply within one month or thirty days, whichever is longer, of the mail date of the decision dismissing the Request for Recalculation. No fee is required if patentee is asserting in the reply that the dismissal for ineligibility is improper.

Patentee should use document code PET.OP if electronically filing a reply to this dismissal. If the USPTO finds that the request was improperly deemed ineligible, the USPTO will mail applicant a recalculation determination.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A). Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154 (b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

OFFICE OF PETITIONS

In re Application of	:	
Pellerito et al.	:	DECISION REFUSING STATUS
Application No. 12/204,249	:	UNDER 37 CFR 1.47(a)
Filed: September 4, 2008	:	
Attorney Docket No. KEH-2608	:	

This is in response to the petition under 37 CFR 1.47(a), filed April 7, 2009.

The petition is dismissed.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. Applicant lacks items (2) and (4) set forth above.

As to item (2), petitioner has failed to provide a signed supplemental application data sheet with form PTO/SB/01A (Declaration (37 CFR 1.63) For Utility or Design Application Using An Application Data Sheet (37 CFR 1.76)). The declaration provided fails to meet 37 CFR 1.63 (c)(1). *See* 37 CFR 1.76 and MPEP 409.03(a).

As to item (4), a statement of the inventor's last known address is missing and is required. In situations where an inventor does not execute the oath or declaration and the inventor is not deceased, such as in an application filed under 37 CFR 1.47, the inventor's most recent home address must be given to enable the Office to communicate directly with the inventor as necessary. See MPEP 605.03.

Operating Same		

This is in response to the renewed petition under 37 CFR 1.47(a), filed June 1, 2009.

The petition is **GRANTED.**

Petitioner has shown that the non-signing inventor Wawrzyniak has refused to join in the filing of the above-identified application.

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application is being referred to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3215.

Dear Sir:

You are named as a joint inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (571) 272-3215. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington, DC area).

DECISION GRANTING PETITION UNDER 37 CFR 1.313(c)(2)

This is a decision on the petition under 37 CFR 1.313(c)(2), filed May 26, 2010, to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). *See* 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on May 3, 2010 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries should be directed to the undersigned at (571) 272-7253.

This application is being referred to Technology Center AU 2828 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed information disclosure statement.

/Monica A. Graves/
Petitions Examiner, Office of Petitions

---

[1] *The request to apply the issue fee to the new Notice may be satisfied by completing and returning the new Part B – Fee(s) Transmittal Form (along with any balance due at the time of submission). Petitioner is advised that the Issue Fee Transmittal Form* ***must*** *be completed and timely submitted to avoid abandonment of the application.*

Applicant	: Michael R. Levine	: DECISION ON REQUEST FOR
Patent Number	: 7597785	: RECALCULATION of PATENT
Issue Date	: 10/06/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/204,271	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 09/04/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on April 17, 2009, for the above-identified application

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains a material error on the front page of the publication wherein the name of the redacted assignee should not have been printed. Applicant requested a corrected filing receipt on January 14, 2009 and the Office issued the requested Corrected Filing Receipt on January 22, 2009, but the patent application publication on March 12, 2009 improperly included the assignment information.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed **within two months** from the date of the patent application publication. **This period is not extendable**." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. [1]

The error noted by requestor with respect to failure to include the change in the assignment information (which is an amendment to the application) in the publication is not an Office error. See 37 CFR 1.215(a). Applicant's attention is directed to MPEP 1130(B), which clearly states "failure to include an amendment is not an Office error . . . [a] request for corrected publication

[1] Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

under 37 CFR 1.221(b) may result in a patent term adjustment reduction where the Office made only non-material errors."

Applicant did not file a copy of the application including the EFS-Web Application Data Sheet in compliance with the Office electronic filing systems requirements in accordance with 37 CFR 1.215(c) and MPEP 1121. The application was properly published with out the change to the assignment information in accordance with 37 CFR 1.215. Applicant assertion that since a corrected filing receipt was issued by the Office, which deleted the assignee information, the publication improperly included the assignment information is not persuasive. The change to the assignment information was improperly submitted to the Office and it was not timely submitted to avoid its inclusion in the publication. In accordance with the MPEP changes to bibliographic information should be submitted generally four months prior to the projected publication date.

The Application Data Sheet (ADS) filed on January 14, 2009 is defective. The ADS is governed by 37 CFR 1.76(c), which provides for submission of Supplemental Application Data Sheets to correct or update information in a previously submitted ADS, an oath or declaration. A Supplemental ADS must identify itself as a Supplemental ADS and the information that is being changed. The December 13, 2007 did not clearly identify the information that is being changed; i.e., "with underlining for inserts" as set forth in 37 CFR 1.76(c)(2).

Furthermore an error in assignment information is not a material mistake because it does not affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. See MPEP 1130.

Applicant is reminded of his duty to conduct a reasonable inquiry before filing a paper before the Office. See MPEP 410.

Applicants' request for a corrected patent application publication on April 17, 2009, may constitute a "failure to engage in reasonable efforts to conclude processing or examination of the application." See 1.704(c). This determination will be made on or after a mailing of a Notice of Allowance.

It would greatly benefit the Office if **applicant did not provide copies of papers**, which were previously submitted and/or **a complete copy of the pre-grant publication**, as it unnecessarily increases the cost to the Office. See 37 CFR 1.4(b). A request for corrected publication need only point out what was printed incorrectly in the application, where the error occurs in the publication and where the correct text or drawing is found in the application papers. Marked up relevant copies of the applications papers and the pre-grant publication may facilitate processing of the request, where it is not readily apparent where the error occurs. If it is not clear why the error is a material error, further explanation may be warranted.

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in

§ 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.
A guide for filing a request for a Pre-Grant Publication, such as a request for republication, may be found on the link below:

http://www.uspto.gov/ebc/portal/tutorials.htm

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a "Pre-Grant Publication" and questions or request for reconsideration of the decision, should be addressed as follows:

OFFICE OF PETITIONS

In re Application of
Jeff Skillern
Application No. 12/204,326
Filed: September 4, 2008
Attorney Docket No. OAKLY1.344A

ON PETITION

This is a decision in response to the petition, filed July 24, 2009, to revive the above-identified application under the provisions of 37 CFR 1.137(b).

The application became abandoned for a failure to file a complete reply to the Notice to File Missing Parts of Nonprovisional Application (Notice), mailed September 17, 2008.. The Notice set a period for reply of two (2) months from the mail date of the Notice. In view of the 2-month extension of time under the provisions of 37 CFR 1.136(a) filed January 15, 2009, the application became abandoned on January 18, 2009. A Notice of Abandonment was mailed on June 11, 2009. On July 24, 2009, the present petition was filed.

37 CFR 1.137(b)(3) requires a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional. While it is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. See 37 CFR 10.18(b) and Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. 53131, 53178 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63, 103 (October 21, 1997). In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that it is not correct that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional, petitioner must notify the Office.

The petition is **GRANTED**.

The application is being referred to the Office of Patent Application Processing (OPAP) for further processing using the declaration filed January 15, 2009.

Telephone inquires related to this decision should be directed to the undersigned at (571) 272-3204. Telephone inquiries related to processing at OPAP should be directed to their hotline at (571) 272-4000.

OFFICE OF PETITIONS

In re Application of	:	
Howard LUTNICK	:	
Application No. 12/204,341	:	DECISION ON PETITION
Filed: September 4, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. 08-2237	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 24, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement made by registered attorney Mark Miller, which will be treated as the result of the attorney having evidence that the applicant is at least 65 years of age. In the event that such evidence is not with the attorney, the Office should be notified immediately. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to undersigned at 571-272-6735.

This application is being referred to the Office of Patent Application Processing for processing. This application will be accorded "special" status when pre-examination processing is done.

Grover, et al.

Application No. 12/204,564

Filed: September 4, 2008

Attorney Docket No. 120-95

DECISION ON PETITION

This is a decision on the petition under 37 CFR 1.181(a) filed December 18, 2008.

The petition under 37 CFR 1.181(a) to withdraw the Notice of Incomplete Reply mailed December 1, 2008, is **dismissed**.

The subject application was filed on September 4, 2008. On September 19, 2008, a Notice to File Missing Parts of Non-Provisional Application was mailed requiring an oath or declaration, payment of claim fees, and payment of a surcharge for the late filing of the declaration. A response was filed on November 18, 2008. On December 1, 2008, a Notice of Incomplete Reply was mailed indicating that the surcharge had not been paid. It is noted that the requirement to pay additional claim fees was apparently removed because of the preliminary amendment filed November 18, 2008. Petitioner now files the instant petition request withdrawal of the Notice of Incomplete Reply. Petitioner states that a credit card form, authorizing payment of the surcharge and extension of time within the first month, accompanied by the response filed November 18, 2008.

A review of the Image File Wrapper for this application reveals that a notation was placed in the application file record that the credit card form was filed on November 18, 2008, but did not cite an account number to which the fees could be charged. The file record as maintained by the USPTO is the official file record for the application and presumed to be accurate, absent *prima facie* evidence to the contrary. The petition was not accompanied by *prima facie* evidence that establishes that the credit card form filed November 18, 2008, contained a valid credit card account number, therefore; the response filed November 18, 2008, was incomplete and the Notice of Incomplete Reply was properly mailed. The petition is dismissed accordingly.

Petitioner is advised that the maximum period for reply to the Notice to File Missing Parts of Nonprovisional Application is seven months from its mailing date—two months given and five additional months available by extension of time under 37 CFR 1.136(a). Although the surcharge was received on December 18, 2008, the extension of time within the first month necessary to make the payment timely

was not charged to the credit card as petitioner requested on the credit card form filed December 18, 2008. It is noted that the credit card number was redacted from the form as maintained in the IFW file. Accordingly, petitioner should file a new credit card form authorizing payment of the extension of time necessary to make timely the payment of the surcharge filed December 18, 2008.

The application file is being directed to the Office of Patent Application Processing for further processing.

Further inquires regarding this decision may be directed to the undersigned at (571) 272-3222.

In re Application of	:	
CHEUNG, Nathan W. et al.	:	
Application No. 12/204,590	:	DECISION ON PETITION
Filed: September 04, 2008	:	TO WITHDRAW
Attorney Docket No. **026570-000810US**	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed February 13, 2009 and resubmitted March 10, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request was signed by Lu Yin on behalf of all attorneys of record who are associated with customer No. 20350. All attorneys/agents associated have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

All future correspondence will be directed to the first named inventor Nathan W. Cheung at the address indicated below.

There are no outstanding office actions at this time.

Telephone inquiries concerning this decision should be directed to Michelle R. Eason at 571-272-4231.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed July 07, 2009, to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the KIPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the KIPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the KIPO application that contains the allowable/patentable claims and the KIPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the KIPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the KIPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the KIPO application is a first action allowance then no office action from the KIPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the KIPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the KIPO examiner in the KIPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

In re Application of	:	
Ehab Mohamed	:	DECISION ON PETITION
Application No. 12/204,614	:	TO WITHDRAW
Filed: September 4, 2008	:	FROM RECORD
Attorney Docket No. M6:01176	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed November 20, 2009.

The request is **NOT APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office will require the practitioner(s) to certify that he, she or they have: (1) given reasonable notice to the client, prior to the expiration of the reply period, which the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any replies that may be due and the time frame within which the client must respond, pursuant to 37 CFR 10.40 (c).

The request cannot be approved since the above listed certifications were not made. Accordingly, any subsequent requests must include all certifications pursuant to 37 CFR 10.40(c).

All future communications from the Office will continue to be directed to the above-listed address until properly notified.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-6059.

In re Application of: AINSPAN et al. Serial No.: 12/204,622 Filed: September 4, 2008 Title: VARACTOR SYSTEM HAVING REAL OR APPARENT LOW CAPACITANCE DENSITY	: : : : : :	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.2

This is a decision on the petition filed on September 4, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:
1. be filed with the application;
2. include a statement that applicant agrees not to separately argue the patentability of

any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner; and

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation; and

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists; and

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions regarding the application (section I, subsections 1-4) discussed above are considered to have been met. Additionally, the conditions regarding the petition (section II, subsections 1-4 and 6) are considered to have been met. However, the petition fails to comply with the all the conditions set forth in section II, subsection 5. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirements of section II, subsection 5.1, it appears the search outlined in the petition omitted critical search areas by not searching in class 331 subclasses 117R, 117FE, 117D, 177R and 177V at a minimum to include L-C type transistors in solid state active element oscillators and frequency adjusting means. Keyword searching utilizing: "first varactor and second varactor", "varactor ... another varactor", "many varactors", "plural varactors", "... varactor", "... variable capacitor", "... variable capacitance", "capacitor/capacitance diode", ... etc. would be an appropriate text search Any renewed petition should include the above outlined additional searching.

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petition is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiries regarding this decision should be directed to Quality Assurance Specialist Jose' G. Dees at (571) 272-1569.

In re Application of: AINSPAN et al. Serial No.: 12/204,622 Filed: September 4, 2008 Docket Number: YOR920080357US1/IBMSP025 Title: Varactor System Having Real or Apparent Low Capacitance Density	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102

This is a decision on the request for reconsideration of the petition to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d) filed October 22, 2008. The petition to make special under 37 C.F.R. § 1.102(d) was dismissed on October 1, 2008.

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to M.P.E.P. §708.02(a) and to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

Since the application has been examined and allowed the following procedure applies for Post-Allowance Processing:

> To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-1569.

Applicant	: Mihal LAZARIDIS	: DECISION ON REQUEST FOR
Patent Number	: 7656316	: RECALCULATION of PATENT
Issue Date	: 02/02/2010	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/204,632	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 09/04/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

SPE RESPONSE FOR CERTIFICATE OF CORRECTION

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent.

Inspection of the application for the patent reveals that in connection with the alleged error pertaining to paragraph 0041 and paragraph 0060 as presented by applicant, the following has been determined:

1. The proposed change to [0041] was previously made via rule 312 amendment and appears in the patent, and

2. The proposed change to [0060] refers to paragraph rather column and line, and references in Figure 5(b) which does not exist.

Accordingly, there being no fault on the part of the Patent and Trademark Office, it has no authority to a issue certificate of correction under the provisions of 35 U.S.C. 254 and Rule 322 and 323 of the Rules of Practice of the United States Patent and Trademark Office in Patent Cases.

In view of the foregoing applicants request in this matter is hereby denied. Any telephone inquiry concerning this communication should be directed to Ms. A. Green at (703) 756-1541.

Bourlas et al.	:	DECISION ON PETITION
Application No. 12/204,719	:	TO WITHDRAW
Filed: September 4, 2008	:	FROM RECORD
Attorney Docket No. WILAN-P00546US1	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed January 27, 2010.

The request is **NOT APPROVED** because it is moot.

A review of the file record indicates that Townsend and Townsend and Crew, LLP, was revoked as power of attorney by the assignee of the patent application on March 8, 2010. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to the undersigned at 571-272-6059.

Attorney Docket No. 8073P456	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed May 15, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kenneth Wieder at 571-272-2986.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

CHAN, Yick Chuen et al.	:	
Application No. 12/204,730	:	DECISION ON PETITION
Filed: September 04, 2008	:	TO WITHDRAW
Attorney Docket No. **026570-001110US**	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed February 13, 2009 and resubmitted March 10, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request was signed by Lu Yin on behalf of all attorneys of record who are associated with customer No. 20350. All attorneys/agents associated have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

All future correspondence will be directed to the first named inventor Yick Chuen Chan at the address indicated below.

There are no outstanding office actions at this time.

In re Application of	:	
Johannes F. Nyffenegger	:	
Application No. 12/204,734	:	ON PETITION
Filed: September 4, 2008	:	
Attorney Docket No. None	:	

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed July 21, 2009, to revive the above-identified application.

There is no indication that the petition is signed by a registered patent attorney or patent agent of record. However, in accordance with 37 CFR 1.34, the signature of Mr. Thomas L. Peterson appearing on the correspondence shall constitute a representation to the United States Patent and Trademark Office that he is authorized to represent the particular party on whose behalf he acts. If, Mr. Peterson desires to receive correspondence regarding this file, the appropriate power of attorney documents must be submitted. A courtesy copy of this decision is being mailed to Mr. Peterson, the petitioner herein. However, until otherwise instructed, all future correspondence regarding this application file will be directed solely to the above-noted correspondence address of record.

The petition is **DISMISSED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application (Notice), mailed September 17, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 18, 2008. A Notice of Abandonment was mailed May 21, 2009.

A grantable petition under 37 CFR 1.137(b) must be accompanied by: (1) the required reply, unless previously filed; (2) the petition fee as set forth in 37 CFR 1.17(m); and (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional. Where there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137 was unintentional, the Director may require additional information. See MPEP 711.03(c)(II)(C) and (D).

The instant petition lacks item (1), the required reply. While the Office recognizes that the petitioner submitted a declaration and fees totaling $1,310 with the petition. Effective October 2, 2008, certain Patent and Trademark Fees were increased, including the present petition fee, basic filing fee, search fee and examination fee. Therefore any fee amount paid on or after October 2, 2008 must be paid in the new fee amount, a fee deficiency of $27 exists. Accordingly, this application cannot be revived until the balance of $27 has been submitted.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(b)." This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

OFFICE OF PETITIONS

In re Application of :
Johannes F. Nyffenegger :
Application No. 12/204,734 :
Filed: September 4, 2008 :
Attorney Docket No. 1092.450BS :

ON PETITION

This is a decision on the renewed petition under the unintentional provisions of 37 CFR 1.137(b), filed October 21, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application (Notice), mailed September 17, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 18, 2008. A Notice of Abandonment was mailed May 21, 2009.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of the statutory basic filing fee, search fee, examination fee and surcharge of $65, (2) the petition fee of $810, and (3) a proper statement of unintentional delay.

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. See 37 CFR 10.18(b) and Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. 53131, 53178 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63, 103 (October 21, 1997). In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that it is not correct that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional, petitioner must notify the Office.

This application file is being referred to the Office of Patent Application Processing (OPAP) for further pre-examination processing.

Telephone inquiries concerning this decision should be directed to Alicia Kelley at (571) 272-6059. Telephone inquiries related to OPAP processing should be directed to their hotline at (271) 272-4000

OFFICE OF PETITIONS

In re Application of :
Johannes F. Nyffenegger :
Application No. 12/204,744 :
Filed: September 4, 2008 :
Attorney Docket No. None :

ON PETITION

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed July 21, 2009, to revive the above-identified application.

There is no indication that the petition is signed by a registered patent attorney or patent agent of record. However, in accordance with 37 CFR 1.34, the signature of Mr. Thomas L. Peterson appearing on the correspondence shall constitute a representation to the United States Patent and Trademark Office that he is authorized to represent the particular party on whose behalf he acts. If, Mr. Peterson desires to receive correspondence regarding this file, the appropriate power of attorney documents must be submitted. A courtesy copy of this decision is being mailed to Mr. Peterson, the petitioner herein. However, until otherwise instructed, all future correspondence regarding this application file will be directed solely to the above-noted correspondence address of record.

The petition is **DISMISSED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application (Notice), mailed September 17, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 18, 2008. A Notice of Abandonment was mailed May 21, 2009.

A grantable petition under 37 CFR 1.137(b) must be accompanied by: (1) the required reply, unless previously filed; (2) the petition fee as set forth in 37 CFR 1.17(m); and (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional. Where there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137 was unintentional, the Director may require additional information. See MPEP 711.03(c)(II)(C) and (D).

The instant petition lacks item (1), the required reply. While the Office recognizes that the petitioner submitted a declaration and fees totaling $1,410 with the petition. Effective October 2, 2008, certain Patent and Trademark Fees were increased, including the present petition fee, basic filing fee, search fee and examination fee. Therefore any fee amount paid on or after October 2, 2008 must be paid in the new fee amount, a fee deficiency of $31 exists. Accordingly, this application cannot be revived until the balance of $31 has been submitted.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(b)." This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

OFFICE OF PETITIONS

In re Application of	:	
Johannes F. Nyffenegger	:	
Application No. 12/204,744	:	ON PETITION
Filed: September 4, 2008	:	
Attorney Docket No. 1094.450BS	:	

This is a decision on the renewed petition under the unintentional provisions of 37 CFR 1.137(b), filed October 21, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application (Notice), mailed September 17, 2008. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on November 18, 2008. A Notice of Abandonment was mailed May 21, 2009.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of the statutory basic filing fee, search fee, examination fee, additional claims fee and surcharge of $65, (2) the petition fee of $810, and (3) a proper statement of unintentional delay.

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. See 37 CFR 10.18(b) and Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. 53131, 53178 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63, 103 (October 21, 1997). In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that it is not correct that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional, petitioner must notify the Office.

This application file is being referred to the Office of Patent Application Processing (OPAP) for further pre-examination processing.

Applicant	: Stanislaw Marczyk	: DECISION ON REQUEST FOR
Patent Number	: 7648055	: RECALCULATION of PATENT
Issue Date	: 01/19/2010	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/204,843	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 09/05/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

Applicants: Yutaka Furukawa, et al.
Appl. No.: 12/204,847
Filing Date: September 5, 2008
Title: Treated Substrate Having Hydrophilic Region and Water Repellent Region, and Process for Procuding it
Attorney Docket: 331360US0CONT
Pub. No.: US 2009/0011227 A1
Pub. Date: January 8, 2009

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on March 6, 2009, for the above-identified application.

The request is granted.

The corrected patent application publication will be published in due course, unless the patent issues before the application is republished.

It would greatly benefit the Office if **applicant did not provide copies of papers**, which were previously submitted and/or **a complete copy of the pre-grant publication**, as it unnecessarily increases the cost to the Office. See 37 CFR 1.4(b). A request for corrected publication need only point out what was printed incorrectly in the application, where the error occurs in the publication and where the correct text or drawing is found in the application papers. Marked up relevant copies of the applications papers and the pre-grant publication may facilitate processing of the request, where it is not readily apparent where the error occurs. If it is not clear why the error is a material error, further explanation may be warranted.

Inquiries relating to this matter may be directed to Mark Polutta at (571) 272-7709.

In re Application of	:	
AOKI, YUKA et al.	:	DECISION ON REQUEST TO
Application No. 12/204,880	:	PARTICIPATE IN PATENT
Filed: September 5, 2008	:	PROSECUTION HIGHWAY
Attorney Docket No. Q109991	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed June 18, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of the latest office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Doris To at 571-272-7629.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

PETITION TO MAKE SPECIAL BASED ON AGE FOR ADVANCEMENT OF EXAMINATION UNDER 37 CFR 1.102(c)(1)

Application Information

Application Number	12/205,090	Confirmation Number	6183	Filing Date	2008-09-05
Attorney Docket Number (optional)	GJE-43D5	Art Unit		Examiner	Not yet assigned
First Named Inventor	Hugh Edward Montgomery				
Title of Invention	Use of Inhibitors of the Renin-Angiotensin System				

Attention: Office of Petitions

An application may be made special for advancement of examination upon filing of a petition showing that the applicant is 65 years of age, or more. No fee is required with such a petition. See 37 CFR 1.102(c)(1) and MPEP 708.02 (IV).

APPLICANT HEREBY PETITIONS TO MAKE SPECIAL FOR ADVANCEMENT OF EXAMINATION IN THIS APPLICATION UNDER 37 CFR 1.102(c)(1) and MPEP 708.02 (IV) ON THE BASIS OF THE APPLICANT'S AGE.

A grantable petition requires one of the following items:
(1) Statement by one named inventor in the application that he/she is 65 years of age, or more; or
(2) Certification by a registered attorney/agent having evidence such as a birth certificate, passport, driver's license, etc. showing one named inventor in the application is 65 years of age, or more.

Name of Inventor who is 65 years of age, or older

Given Name	Middle Name	Family Name	Suffix
John	Francis	Martin	

A signature of the applicant or representative is required in accordance with 37 CFR 1.33 and 10.18.
Please see 37 CFR 1.4(d) for the format of the signature.

Select (1) or (2) :

○ (1) I am an inventor in this application and I am 65 years of age, or more.

◉ (2) I am an attorney or agent registered to practice before the Patent and Trademark Office, and I certify that I am in possession of evidence, and will retain such in the application file record, showing that the inventor listed above is 65 years of age, or more.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Hugh Edward Montgomery

Application No. 12205090

Filed:

Attorney Docket No. GJE-43D5

:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 05-SEP-2008 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Christopher Bering	:	DECISION ON PETITION
Application No. 12/205,182	:	TO WITHDRAW
Filed: September 5, 2008	:	FROM RECORD
Attorney Docket No. Bering_NP_0808	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed April 15, 2010.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office will require the practitioner(s) to certify that he, she or they have: (1) given reasonable notice to the client, prior to the expiration of the reply period, which the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any replies that may be due and the time frame within which the client must respond, pursuant to 37 CFR 10.40 (c).

The request was signed by Jill Gilbert Welytok, on behalf of the practitioners of record associated with Customer Number 57520.

Customer Number 57520 has been withdrawn as attorney of record. Applicant is reminded that there is no attorney of record at this time.

The correspondence address of record has been changed and the new correspondence address is the address indicated below.

There are no outstanding Office actions that require a reply from the applicant.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-6059. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

Applicant	: Steven Perry Parfitt	: DECISION ON REQUEST FOR
Patent Number	: 7646230	: RECALCULATION of PATENT
Issue Date	: 01/12/2010	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/205,191	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 09/05/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **11** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed September 5, 2008, to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH pilot program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;

(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;

(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;

(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 05, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

The application as filed is not eligible for accelerated examination under 37 C.F.R. § 1.102(d) because the application, at the time of filing, was not complete. A "Notice to File Missing Parts of Nonprovisional Application" was mailed on September 10, 2008.

Therefore, the petition is denied because the application was not complete at the time of filing as per item 3 above. The application will be taken up by the examiner for action in its regular turn.

Any inquiry regarding this decision should be directed to Ken Wieder, Quality Assurance Specialist, at (571) 272-2986.

Filing Date: September 5, 2008
Title: CO-SOLVENT COMPOSITIONS AND METHODS FOR IMPROVED DELIVERY OF DANTROLENE THERAPEUTIC AGENTS
Attorney Docket No.: 0011118.0561571
Pub. No.: US 2009/0093531 A1
Pub. Date: April 9, 2009

This is a decision on the request for republication of patent application publication under 37 CFR 1.221(a), filed on February 18, 2010, for the above-identified application.

The request under 37 CFR 1.221(a) is DISMISSED.

37 CFR 1.221(a) requires "a copy of the application in compliance with the Office electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)". If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

The applicant did not supply a copy of the application in compliance with the Office electronic filing system, as required by 37 CFR 1.221(a) because **the Applicant submitted the papers as a "Document for an existing application", which are entered into the application file, and not as a "Pre-Grant Publication" submission**. In addition, the Applicant did not provide a copy of the application. The request for republication does not comply with the electronic filing system requirements, thus republication will not take place.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a Pre-Grant publication submission and must include a copy of the application in compliance with the Office electronic filing system requirements. The applicant is directed to the following

In re Application of	:	
MORRIS, Matthew	:	DECISION ON PETITION
Application No. 12/205,318	:	TO MAKE SPECIAL UNDER
Filed: September 5, 2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. RS165US	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed December 17, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed

electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item 5 above for the reasons as discussed in more detail below.

In regard to item 5, it is noted that the instant invention relates to a "BICYCLE SUSPENSION SYSTEM" and the instant petition is accompanied by the statement on the basis for the special status. More particularly, the petition states that the invention "materially enhances the quality of the environment by contributing to the restoration or maintenance of the basic life-sustaining natural elements." As stated in section III of the Notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets the materiality standard.

Further correspondence with respect to this matter should be addressed as follows:

OFFICE OF PETITIONS

Applicant: Maria Prat Quinones, et al.
Appl. No.: 12/205,334
Filing Date: September 19, 2005
Title: Novel Quinuclidine Carbamate Derivatives And Medicinal Compositions Containing The Same
Pub. No.: US 2009/0054480 A1
Pub. Date: February 26, 2009

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b) or (a), received on April 22, 2009, for the above-identified application.

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains a material error on the first page of the specification wherein the continuation data is omitted, and errors in the claims.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. [1]

The error's noted by requestor with respect to the preliminary amendment to the continuation data is <u>not</u> an Office error. The patent application publication does not include a mistake regarding the failure to include the preliminary amendment to the specification because patent application publications are not required to include preliminary amendments. See 37 CFR 1.215(a). The "failure to include an amendment is not an Office error," See MPEP 1130(B). The publication accurately reflected the specification as filed.

[1] <u>Changes to Implement Eighteen-Month Publication of Patent Applications</u>, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, <u>Off. Gaz. Pat. Office Notices</u> 63, 75 (Oct. 10, 2000) (final rule).

The error in claims 36, 37 and 60 are not material Office errors under 37 CFR 1.221(b), as they are due faulty optical character recognition. The errors are due to the quality and size of the text, which makes it difficult to electronically reproduce by digital imaging and optical character recognition. See 37 CFR 1.52(a)(1)(v), which states that all papers that are to become a permanent part of Office records must be presented "in a form having sufficient clarity and contrast between the paper and the writing to permit...electronic capture by use of digital imaging and optical character recognition." As set forth at MPEP 1121, "application with poor quality text, which may be acceptable for scanning and examination purposes, may lead to errors in the patent application publication. Correction of these errors and inclusion of any desired amendments into the text of the originally-filed specification and drawings will only occur if applicant files a request for republication under 37 CFR 1.221(a). They will not be corrected by the Office in a corrected publication under 37 CFR 1.221(b)."

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

A guide for filing a request for a Pre-Grant Publication, such as a request for republication, may be found on the link below:

http://www.uspto.gov/ebc/portal/tutorials.htm

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a "Pre-Grant Publication" and questions or request for reconsideration of the decision, should be addressed as follows:

Application No. 12/205,436	:	DECISION ON PETITION
Filed: September 5, 2008	:	TO WITHDRAW
Attorney Docket No. **WILAN-P00541US1**	:	FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 CFR. § 1.36(b), filed January 25, 2010.

The request is **NOT APPROVED** as moot.

A review of the file record indicates that the power of attorney to attorneys/agents associated with Customer Number 20350 has been revoked by the applicants of the patent application on March 8, 2010. Accordingly, the request to withdraw under 37 CFR § 1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to the undersigned at 571-272-4584.

OFFICE OF PETITIONS

In re Application of	:	
Paul Sullivan et al	:	DECISION REFUSING STATUS
Application No. 12/205,514	:	UNDER 37 CFR 1.47(a)
Filed: September 5, 2008	:	
Attorney Docket No. VSEA 2007-037	:	

This is in response to the petition under 37 CFR 1.47(a), filed November 17, 2008.

The petition is **DISMISSED**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. Applicant lacks item (1) set forth above.

The evidence submitted with the petition on November 17, 2008, is not clear as to whether or not joint inventor Peter Nunan was presented with the complete application papers.

Further correspondence with respect to this matter should be addressed as follows:

HAN, SEUNG HEE, et al.	:	DECISION ON REQUEST TO
Application No. 12/205,530	:	PARTICIPATE IN PATENT
Filed: September 5, 2008	:	PROSECUTION HIGHWAY
Attorney Docket No.: **5438-0126PUS1**	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed March 11, 2010, to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kenneth Wieder at 571-272-2986.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Paul P. Edalat	:	DECISION ON PETITION
Application No. 12/205,728	:	TO WITHDRAW
Filed: September 5, 2008	:	FROM RECORD
Attorney Docket No. 37876-10800	:	

This is a decision on the request to withdraw as attorney of record under 37 C.F.R. § 1.36, filed April 20, 2010.

The request is **NOT APPROVED**.

The Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *who properly became of record under 37 CFR 3.71,* or, if no assignee of the entire interest has properly been made of record, the most current address information provided for the first named inventor. 37 CFR 3.71(c) states:

An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.

Therefore, as there is currently no Statement under 37 CFR 3.73(b) of record in the instant application, the Office cannot change the correspondence address to the address on the Request to Withdraw.

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Currently, there is an outstanding Office action mailed May 14, 2010 that requires a reply.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-7751. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

Applicant: Beavis et al.
Appl. No.: 12/205,762
Filing Date: September 5, 2008
Title: PRODUCT DISPENSING SYSTEM
Attorney Docket No.: 113067.00116(G45)
Pub. No.: US 2009/0159612 A1
Pub. Date: June 25, 2009

This is a decision on the request for republication of patent application publication under 37 CFR 1.221(a), filed on June 14, 2010, for the above-identified application.

The request under 37 CFR 1.221(a) is DISMISSED.

37 CFR 1.221(a) requires "a copy of the application in compliance with the Office electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)". If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

The applicant did not supply a copy of the application in compliance with the Office electronic filing system, as required by 37 CFR 1.221(a) because the Applicant filed the request in paper via the US Postal Service, and not via the USPTO Electronic Filing System. The request for republication does not comply with the electronic filing system requirements, thus republication will not take place.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a Pre-Grant publication submission and must include a copy of the application in compliance with the Office electronic filing system requirements. The applicant is directed to the following website for additional instructions on how to submit a Pre-Grant Publication submission via the electronic filing system:

http://www.uspto.gov/ebc/portal/efs/pgpub_quickstart.pdf

It is also noted that the applicant included a preliminary amendment as part of his submission. If the applicant wishes that the preliminary amendment is included in the publication, the applicant must incorporate this amendment into his specification.

Any questions or requests for reconsideration of the decision should be addressed as follows:

By mail to: Mail Stop PGPUB
Commissioner for Patents
P.O. Box 1450
Alexandria, Va. 22313-1450

By facsimile: 571-273-8300

Applicant	: Larry D. Partain	: DECISION ON REQUEST FOR
Patent Number	: 7638752	: RECALCULATION of PATENT
Issue Date	: 12/29/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/205,768	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 09/05/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

Title: CLARIFYING FILTER	:	

This is a decision on the petition filed on February 23, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner; and

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation; and

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists; and

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition was not filed with the application as required by item 1 under condition II (Conditions Regarding the Petition) above.

DECISION

For the above-stated reason, as well as other reasons, the petition is **denied**. The application will therefore be taken up by the examiner for action in its regular turn.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-1638.

In re Application of	:	
CINTZ, Adam	:	
Application No. 12/205,917	:	DECISION ON PETITION
Filed: September 08, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. **YA-1659CIP**	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 08, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement by Adam Cintz attesting that he is over 65 years of age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Michelle R. Eason at 571-272-4231.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

This application is being referred to the Office of Patent Application Processing. This application will be accorded "special" status when pre-examination processing is done.

Applicant	: Yan Li	: DECISION ON REQUEST FOR
Patent Number	: 7602647	: RECALCULATION of PATENT
Issue Date	: 10/13/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/205,918	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 09/08/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

OFFICE OF PETITIONS

In re Application of	:	
Riaz et al.	:	
Application No. 12/205,942	:	DECISION
Filed/Deposited: 2 October, 2008	:	
Attorney Docket No. 229435	:	

This is a decision on the petition filed on 2 December, 2008, seeking to have accorded a filing date of 8 September, 2008, for the above-identified application, and more properly considered under 37 C.F.R. §1.53.

The petition considered under 37 C.F.R. §1.53 is **DISMISSED**.

BACKGROUND

It appears that the instant application was sought to be deposited on 8 September, 2008.

On 30 September, 2008, the Office mailed a Notice of Incomplete Application and that the application had not been accorded a filing date (to wit: "the application was deposited without drawings. (35 U.S.C. §113 first sentence)"). Notably, the EFS Acknowledgement evidences that no specification (description, claims, abstract) and drawings) were among the papers submitted on that date.

The Office of Patent Application Processing (OPAP) indicated that Petitioner might:

- contend via petition that the application was complete upon deposit, and so evidence that condition with the proper supporting documentation (i.e., a date stamped receipt card (*see*: MPEP §503; also: an acknowledgment receipt is a legal equivalent of a post card receipt described in the Manual of Patent Examining Procedure (MPEP), Section 503. *See*: 1315 OG 57; 72 Fed. Reg. 2770 (23 Jan 2007)) along with a copy of the drawings/figures, or that the application contained a priority claim pursuant to 37 C.F.R. §1.55 or §1.78, and seek amendment pursuant to 37 C.F.R. §1.57(a) with an amendment and petition;

- submit a copy of the drawings/figures (marked as replacement drawings) and accept the date of that submission as the filing date—a newly executed oath/declaration would be required with the new matter.

OPAP set a two- (2-) month period for reply.

In the process that followed:

- On 2 October, 2008, Petitioner caused to be filed into the application four sheets of drawings/figures, but with no indication of their nature as "replacement" drawings/figures and no newly executed oath/declaration. no a set of the following papers;
- On 9 October, 2008, the Office mailed another Notice of Incomplete Application;
- On 9 October, 2008, the Office mailed a Notice that an additional communication was being sent by post to Petitioner;
- On 10 October, 2008, the Office mailed a Notice of Incomplete indicating that the drawings submitted on 2 October, 2008, had not been properly marked as "replacement" drawings—and indicated that the period for reply continued to run from the original 30 September, 2008, Notice;
- On 14 October, 2008, Petitioner submitted four sheets of drawings each marked as "replacement sheet";
- On 21 October, 2008, the Office mailed a filing receipt setting a filing date of 14 October, 2008;
- On 20 November, 2008, in a rather abbreviated communication Petitioner demanded an earlier filing date and did so only by submitting a copy of the filing receipt with the filing date of 13 October, 2008, lined out and a notation that the "correct" filing date was 8 September, 2008;
- On 1 December, the Office replied to Petitioner's 20 November, 2008, communication by indicating that Petitioner might seek to alter the filing date accorded by submitting a petition (with fee) and support for the petition;
- On 2 December, 2008, Petitioner filed a petition with fee, and commenced to state that the application indeed was filed such that "[f]ormal drawings were inadvertently omitted at the time of filing and were not (sic) realized until a Notice of Incomplete Nonprovisional Application *** was mailed" by the Office.

Petitioner continued, averring a telephone conversation between Petitioner's legal assistant Victoria Fleming (Ms. Fleming) and an "official" from the Office—with a further averment that:

- Ms. Fleming was told this "official" that "she [Ms. Fleming] could respond to the Notice *** by filing the omitted drawings"; and

- "The official told Ms. Fleming that the filing date for the application would remain as September 8, 2008, if the drawing were submitted within the two month response date allotted by the Notice ***."

Petitioner, as one registered to practice before the Office well knows that, as a matter of law:

- The statutory requirements for a filing date are set forth at 35 U.S.C. §111, with specification defined at 335 U.S.C. §112, and drawings at 35 U.S.C. §113;
- Statutory requirements cannot be waived;
- Moreover, all communication with the Office is in writing[1] and no "official" statement would be provided save in writing.

ANALYSIS

A search of the official file reveals that:

Petitioner sought to deposit the instant application *via* the Electronic Filing System (EFS) on 8 September, 2008.

On 30 September, 2008, the Office mailed a Notice of Incomplete Application and that the application had not been accorded a filing date (to wit: "the application was deposited without drawings. (35 U.S.C. §113 first sentence)"). Notably, the EFS Acknowledgement evidences that no specification (description, claims, abstract) and drawings) were among the papers submitted on that date. And OPAP set forth the timing for Petitioner's reply and indicated what forms the reply might take.

Thereafter:

- On 2 October, 2008, Petitioner caused to be filed into the application four sheets of drawings/figures, but with no indication of their nature as "replacement" drawings/figures and no newly executed oath/declaration. no a set of the following papers;
- On 9 October, 2008, the Office mailed another Notice of Incomplete Application;

[1] The regulations at 37 C.F.R. §1.2 provide:
§1.2 Business to be transacted in writing.
All business with the Patent and Trademark Office should be transacted in writing.The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation,or understanding in relation to which there is disagreement or doubt.

- On 9 October, 2008, the Office mailed a Notice that an additional communication was being sent by post to Petitioner;
- On 10 October, 2008, the Office mailed a Notice of Incomplete indicating that the drawings submitted on 2 October, 2008, had not been properly marked as "replacement" drawings—and indicated that the period for reply continued to run from the original 30 September, 2008, Notice;
- On 14 October, 2008, Petitioner submitted four sheets of drawings each marked as "replacement sheet";
- On 21 October, 2008, the Office mailed a filing receipt setting a filing date of 14 October, 2008;
- On 20 November, 2008, in a rather abbreviated communication Petitioner demanded an earlier filing date and did so only by submitting a copy of the filing receipt with the filing date of 13 October, 2008, lined out and a notation that the "correct" filing date was 8 September, 2008;
- On 1 December, the Office replied to Petitioner's 20 November, 2008, communication by indicating that Petitioner might seek to alter the filing date accorded by submitting a petition (with fee) and support for the petition;
- On 2 December, 2008, Petitioner filed a petition with fee, and commenced to state that the application indeed was filed such that "[f]ormal drawings were inadvertently omitted at the time of filing and were not (sic) realized until a Notice of Incomplete Nonprovisional Application *** was mailed" by the Office.

While Petitioner avers that his office did not "realize[]" that the drawings were missing from the application until the 30 September, 23008, Notice from the Office, notably Petitioner ignores the fact that he apparently did not review the Electronic Acknowledgement Receipt on the date of filing—which was Petitioner's first Notice from the Office that no drawings had been submitted with the deposit of the other application papers.

Not only does Petitioner fail to provide an *iota* of documentary support for an 8 September, 2008, filing date (*see*: MPEP §503; also: an acknowledgment receipt is a legal equivalent of a post card receipt described in the Manual of Patent Examining Procedure (MPEP), Section 503. *See*: 1315 OG 57; 72 Fed. Reg. 2770 (23 Jan 2007)), <u>Petitioner acknowledges that the drawings in question were not present on deposit</u>.

Thus, Petitioner as one registered to practice before the Office is well aware that, as a matter of law, in the context described above a filing date of 8 September, 2008, cannot be accorded.

Moreover, not only has Petitioner failed to make a satisfactory showing for relief under 37 C.F.R. §1.53, Petitioner has submitted drawings on two dates and made no statement as to Petitioner's intent as to the date for which to obtain a filing date. The Office will <u>not</u> infer Petitioner's intent.

Thus, as of this writing, the Notice mailed on 30 September, 2008, is not determined to be in error and will not be disturbed.

Out of an abundance of caution, Petitioners always are reminded that those registered to practice and all others who make representations before the Office are reminded to inquire into the underlying facts of representations made to the Office and support averments with the appropriate documentation–since all owe to the Office the continuing duty to disclose.[2]

The availability of applications and application papers online to applicants/practitioners who diligently associate their Customer Number with the respective application(s) now provides an applicant/practitioner on-demand information as to events/transactions in an application.

CONCLUSION

The petition is **dismissed**; the error was not Office error, and the fee is not waived.

Telephone inquiries regarding this decision may be directed to the undersigned at (571) 272-3214—it is noted, however, that all practice before the Office is in writing (see: 37 C.F.R. §1.2[3]) and the proper authority for action on any matter in this regard are the statutes (35 U.S.C.), regulations (37 C.F.R.) and the commentary on policy (MPEP). Therefore, no telephone discussion may be controlling or considered authority for Petitioner's action(s).

OFFICE OF PETITIONS

In re Application of	:	
Krassimire Mihaylov Penev et al.	:	
Application No. 12/205,979	:	DECISION ON PETITION
Filed: September 8, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. WHE-001	:	37 CFR 1.102(c)(2)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(2), filed December 9, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(2) and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The application must be directed to a single invention that either: A) materially enhances the quality of the environment or B) that materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a

request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with the conditions required under category B, as it materially contributes to more efficient utilization and conservation of energy resources. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to the undersigned at 571-272-4914.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 3749 for action on the merits commensurate with this decision.

Attorney Docket No. 17344/239001	:	

This is in response to the renewed "PETITION TO REQUEST CORRECTION OF APPLICANT'S NAME UNDER 37 C.F.R. 1.182", filed August 24, 2009.

The petition is **GRANTED**.

Office records have been updated to reflect the correction of inventor Taylor Xu's name to Yongqiang Xu. A corrected filing receipt is enclosed.

The application is being forwarded to Group Art Unit 1797 for examination in due course.

Telephone inquiries regarding this decision should be directed to the undersigned at (571)272-3207.

Receipt is acknowledged of this non-provisional patent application. The application will be taken up for examination in due course. Applicant will be notified as to the results of the examination. Any correspondence concerning the application must include the following identification information: the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. **If an error is noted on this Filing Receipt, please submit a written request for a Filing Receipt Correction. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections**

PROCESS FOR ULTRA LOW BENZENE REFORMATE USING CATALYTIC DISTILLATION

Preliminary Class

585

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as

set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

OFFICE OF PETITIONS

SNELL & WILMER L.L.P. (Main)
400 EAST VAN BUREN
ONE ARIZONA CENTER
PHOENIX AZ 85004-2202

In re Application of	:	
James A. STANSBURY	:	DECISION ON PETITION
Application No. 12/206,082	:	TO MAKE SPECIAL UNDER
Filed: September 8, 2008	:	THE GREEN TECHNOLOGY
Attorney Docket No. 55680.0100	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed December 11, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without

traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

Although the application has been published, payment of publication fee is required. See item 9 above. The early publication fee of $300 has been charged to Deposit Account No. 19-2814, as authorized.

The petition lacks items 1 and 5 as explained below.

In regard to item 1, this application has been classified in an area (USPC 180/165.000) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 5, it is noted the petition includes a statement explaining how the instant application materially contributes to category (B). The instant invention is directed to a "Regenerative Suspension With Accumulator Systems and Methods". Petitioner explicitly states that a regenerative suspension system may be used to extend the range of batteries, improve efficiency, and/or reduce the fuel consumption. However, the statement does not make clear how the instant <u>claimed</u> invention materially contributes to either Category (A) or (B). Petitioner should note that the materiality standard does not permit an applicant to speculate how a hypothetical end user might specially apply the invention in a manner that could materially contribute to Category (A) or (B).

Further correspondence with respect to this matter should be addressed as follows:

In re Application of :
Vern Stephens et al :
Application No. 12/206,122 : ON PETITION
Filed: September 8, 2008 :
Attorney Docket No. 68354.105594

This is a decision on the petition, filed April 21, 2010 under 37 CFR 1.313(c)(2) to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). See 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on March 16, 2010 in the above-identified application cannot be refunded. If, however, the above-identified application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries should be directed to Irvin Dingle at (571) 272-3210.

This matter is being referred to Technology Center AU 2819 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed Information Disclosure Statement.

KATO, KOZO et al	:	DECISION ON REQUEST TO
Application No. 12/206,135	:	PARTICIPATE IN PATENT
Filed: September 08, 2008	:	PROSECUTION HIGHWAY
Attorney Docket No. 331667US26	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed April 16, 2010 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Michael Horabik at 571-272-3068.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

In re Application of	:	
Firas Azrai	:	
Application No. 12/206,182	:	DECISION ON PETITION
Filed: September 8, 2008	:	TO WITHDRAW
Attorney Docket No. **119-0003**	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 CFR § 1.36(b), filed October 9, 2009.

The request is **NOT APPROVED**.

The request cannot be approved because the assignee listed in the request has not established ownership under 37 CFR 3.71 in the above application.

The Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *who properly became of record under 37 CFR 3.71,* or, if no assignee of the entire interest has properly been made of record, the most current address information provided for the first named inventor. 37 CFR 3.71(c) states:

> *An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.*

The assignee must establish its ownership of the patent to the satisfaction of the Director. In this regard, the statement under 37 CFR 3.73(b) must have either: (i) documentary evidence of a chain of title from the original owner to the assignee (*e.g.*, copy of an executed assignment), and a statement affirming that the documentary evidence of the chain of title from the original owner to the assignee was or concurrently is being submitted for recordation pursuant to § 3.11; or (ii) a statement specifying where documentary evidence of a chain of title from the original owner to the assignee is recorded in the assignment records of the Office (*e.g.*, reel and frame number).

Therefore, as there is currently no Statement under 37 CFR 3.73(b) of record in the instant application, the Office cannot change the correspondence address to the address on the Request to Withdraw at this present time.

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to JoAnne Burke at 571-272-4584.

Hall et al.	:	
Application No. 12/206,199	:	DECISION REFUSING STATUS
Filed: September 8, 2008	:	UNDER 37 CFR 1.47(a)
Attorney Docket No. US040272US3	:	

This is in response to the petition under 37 CFR 1.47(a), filed February 23, 2009.

The petition is **DISMISSED**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

The instant petition lacks item (2) as set forth above. The oath or declaration provided with the instant petition is not proper as patent attorney Paul Im (Reg. 50,418) has signed on behalf of Mr. Lilley. MPEP 409.03 states,

> An oath or declaration signed by all the available joint inventors with the signature block of the nonsigning inventor(s) left blank may be treated as having been signed by all the available joint inventors on behalf of the nonsigning inventor(s), unless otherwise indicated.

Accordingly, an acceptable oath or declaration, with the signature block of the nonsigning inventor left blank should be submitted

Hall et al.	:	
Application No. 12/206,199	:	ON PETITION
Filed: September 8, 2008	:	
Attorney Docket No. US040272US3	:	

Mr. Lilley,

You are named as a joint inventor in the above identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join in the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to Petitions Examiner Liana Walsh at (571) 272-3206. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to Certification Division at (703) 308-9726 or 1 (800) 972-6382 (outside the Washington D.C. area).

Attorney Docket No. US040272US3	:	

Mr. Lilley,

You are named as a joint inventor in the above identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join in the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to Petitions Examiner Liana Walsh at (571) 272-3206. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to Certification Division at (703) 308-9726 or 1 (800) 972-6382 (outside the Washington D.C. area).

In re application of	:	
Philip Bryan Howes et al.	:	DECISION ON PETITION
Application No. 12/206,203	:	TO MAKE SPECIAL FOR
Filed: September 8, 2008	:	NEW APPLICATION
For: PARALLEL SHAFT STRAP TIE DOWN	:	UNDER 37 CFR 1.102
APPARATUS AND SYSTEM	:	

This is a decision on the petition filed on September 8, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner;

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the

showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition fails to comply with conditions II.5.1, II.6.1 and II.6.5 above.

As to condition II.5.1, the petition lacks an indication of a preexamination search that encompasses all of the features of the claims. With respect to the classification search, four classes are set forth as having been searched, with no subclasses identified. It strains credulity to assert that all the subclasses in the four classes identified have been searched and applicant has reviewed each of the over 227,000 patents and PG Publications contained therein. It is a requirement that applicant perform a separate classification search, separate from that of a text search. In addition to any subclasses already search, the classification search must include a search of 410/7 (the area in which the application is classified), 410/9-12, 19, 20, 22, 23, 100 and 103. In addition, 248/499 and 254/217, 223 must also be searched.

Furthermore, the petition lacks an indication of a preexamination search involving foreign patent documents. There appears to have been no foreign patent search outlined in the Search Document. A foreign patent search is required. The USPTO website has search templates that are broken down by class and subclass classification and provides a listing of the websites to be searched when dealing with claimed subject matter in those classifications at: http://www.uspto.gov/web/patents/searchtemplates/searchtemplates.htm. Normally it is necessary to have the JPO and WIPO databases searched in addition to the EPO.

As to condition II.6.1, the instant application is a continuation of U.S non-provisional application 12/025,417. The '417 application contains an IDS listing 4 prior art references, non of which are included in the IDS filed in the instant application. Since it was deemed that these four references are deemed to be relevant to the '417 application, they likewise should be relevant in the instant application. Accordingly, the accelerated examination support document (AESD) is deemed to be not sufficient in that it does not include an IDS citing all references deemed most closely related to the subject matter of each of the claims.

As to condition to II.6.5, the showing of where each limitation of each of the claims finds support under 35 USC 112 in the written description of the application is insufficient. For each claimed limitation (including dependent claims) the petition needs to identify

specific passages, or at least a single paragraph where each limitation is supported in both the instant application and the parent application. Specifically, for the parent non-provisional application 12/025,417, a listing of where the limitations of the claims find support is necessary.

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is DISMISSED. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Teri P. Luu, Quality Assurance Specialist, at (571) 272-7045.

NOV 14 2008

CANTOR COLBURN, LLP
20 Church Street
22nd Floor
Hartford, CT 06103

In re application of Philip Bryan Howes et al. Application No. 12/206,203 Filed: September 8, 2008 For: PARALLEL SHAFT STRAP TIE DOWN APPARATUS AND SYSTEM	:	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 CFR 1.102

This is a decision on the petition filed on October 22, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and

arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed to a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event

may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Quality Assurance Specialist Teri P. Luu, at (571) 272-7045.

MAILED
APR 22 2010
OFFICE OF PETITIONS

Applicant: Wilkinson et al.
Appl. No.: 12/206,230
Filing Date: September 8, 2008
Title: HYDROCARBON GAS PROCESSING
Attorney Docket: 03137.000248
Pub. No.: US 2009/0100862 A1
Pub. Date: April 23, 2009

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on June 10, 2009, for the above-identified application.

The request is DISMISSED.

Applicant requests that the application be republished because the publication contains PTO errors of the omission of vapor from the phrase "where the vapor (stream **34**) is separated" at three instances in the publication.

37 CFR 1.221 (b) is applicable:

> "only when the Office makes a **material mistake** which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable" (*emphasis added*).

A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. [1]

The instant request does not state why the identified errors should be considered a material mistake in the publication made by the Office under 37 CFR 1.221(b). While the disclosure contains minor errors, the scope of provisional rights that applicant may seek to enforce is not altered by the minor identified errors. With respect to the omission of "vapor", the "stream 34" language clearly identifies and sets forth the subject matter of the disclosure and the phrase

[1] Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

"vapor (stream 34)" is printed correctly in several other instances. It does not affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. Therefore, the instant request does not identify a material mistake in the publication made by the Office under 37 CFR 1.221(b).

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

A guide for filing a request for a Pre-Grant Publication, such as a request for republication, may be found on the link below:

http://www.uspto.gov/ebc/portal/tutorials.htm

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a "Pre-Grant Publication" and questions or request for reconsideration of the decision, should be addressed as follows:

In re Application of

Joan Hulburt et al.
Application No. 12/206,253
Filed: September 8, 2008
Attorney Docket No. HULZ 2 00003-3-1

DECISION ON PETITION
TO MAKE SPECIAL UNDER
37 CFR 1.102(c)(1)

This is a decision on the petition under 37 CFR 1.102(c)(1), filed December 9, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required.

The instant petition includes a declaration by applicant Joan Hulburt. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at 571-272-4618.

All other inquiries concerning either the examination or status of the application should be directed to the Office of Patent Application Processing at 571-272-4000.

Upon completion of the pre-examination processing by the Office of Patent Application Processing, this application will be referred to Technology Center Art Unit 2841 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:
Slocum et al.	:
Application No. 12/206,279	: DECISION ON PETITION
Filed: September 8, 2008	: UNDER 37 CFR 1.78(a)(6)
Attorney Docket No. 125141.00037.MGH 3441	:

This is a decision on the petition under 37 CFR 1.78(a)(6), filed February 19, 2009, to accept an unintentionally delayed claim under 35 U.S.C. § 119(e) for the benefit of prior-filed provisional Application No. 60/967,833, filed September 7, 2007, as set forth in the amendment filed concurrently with the instant petition.

The petition is **DISMISSED**.

A petition under 37 CFR 1.78(a)(6) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after expiration of the period specified in 37 CFR 1.78(a)(5)(ii) and must be filed during the pendency of the nonprovisional application. In addition, the petition must be accompanied by:

(1) the reference required by 35 U.S.C. § 119(e) and 37 CFR 1.78(a)(5)(i) to the prior-filed application, unless previously submitted;
(2) the surcharge set forth in § 1.17(t); and
(3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(5)(ii) and the date the claim was filed was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional.

The instant pending nonprovisional application was filed on September 8, 2008[1], within twelve months of the filing date of the prior-filed provisional application, Application No. 60/967,833, which was filed on September 7, 2007, and for which priority is claimed. A reference to the prior-filed provisional application has been included in an amendment to the first sentence of the specification following the title.

However, the amendment is not acceptable as drafted since it improperly incorporates by reference the prior-filed application. Petitioner's attention is directed to Dart Industries v. Banner, 636 F.2d 684, 207 USPQ 273 (C.A.D.C. 1980), where the court drew a distinction between a permissible 35 U.S.C. § 120 statement and the impermissible introduction of new

[1] *Proper, as September 7, 2008 was a Sunday.*

matter by way of incorporation by reference in a 35 U.S.C. § 120 statement. The court specifically stated:

> Section 120 merely provides a mechanism whereby an application becomes entitled to benefit of the filing date of an earlier application disclosing the same subject matter. Common subject matter must be disclosed, in both applications, either specifically or by an express incorporation-by-reference of prior disclosed subject matter. Nothing in section 120 itself operates to carry forward any disclosure from an earlier application. In re deSeversky, supra at 674, 177 USPQ at 146-147. Section 120 contains no magical disclosure-augmenting powers able to pierce new matter barriers. It cannot, therefore, "limit" the absolute and express prohibition against new matter contained in section 251.

In order for the incorporation by reference statement to be effective as a proper safeguard against the omission of a portion of a prior application, the incorporation by reference statement must be included in the specification-as-filed, or in an amendment specifically referred to in an oath or declaration executing the application. *See* In re deSeversky, *supra*. *Note also* MPEP 201.06(c).

Accordingly, before the petition under 37 CFR 1.78(a)(6) can be granted, a substitute amendment[2] deleting the incorporation by reference statement, along with a renewed petition under 37 CFR 1.78(a)(6), is required.

As authorized, the $1410.00 fee required by 37 CFR 1.78(a)(6)(ii) was charged to petitioner's Deposit Account No. 17-0055. No further petition fee is required.

Filed: September 8, 2008	:	UNDER 37 CFR 1.78(a)(6)
Attorney Docket No. 125141.0037.MGH 3441	:	

This is a decision on the renewed petition under 37 CFR 1.78(a)(6), filed July 29, 2009, to accept an unintentionally delayed claim under 35 U.S.C. § 119(e) for the benefit of prior-filed provisional Application No. 60/967,833, filed September 7, 2007, as set forth in the amendment filed July 24, 2009.

The petition is **GRANTED**.

A petition under 37 CFR 1.78(a)(6) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after expiration of the period specified in 37 CFR 1.78(a)(5)(ii) and must be filed during the pendency of the nonprovisional application. In addition, the petition must be accompanied by:

(1) the reference required by 35 U.S.C. § 119(e) and 37 CFR 1.78(a)(5)(i) to the prior-filed application, unless previously submitted;
(2) the surcharge set forth in § 1.17(t); and
(3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(5)(ii) and the date the claim was filed was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional.

The instant nonprovisional application was filed after November 29, 2000, and the claim herein for the benefit of priority to the prior-filed provisional application is submitted after expiration of the period specified by 37 CFR 1.78(a)(5)(ii). Therefore, this is a proper petition under 37 CFR 1.78(a)(6).

The instant pending nonprovisional application was filed on September 8, 2008[1], within twelve months of the filing date of the prior-filed provisional application, Application No. 60/967,833, which was filed on September 7, 2007, and for which priority is claimed. A reference to the prior-filed provisional application has been included in an amendment to the first sentence of the specification following the title.

---

[1] *Proper, as September 7, 2008 was a Sunday.*

The petition complies with the requirements for a grantable petition under 37 CFR 1.78(a)(6) in that (1) a reference to the above-noted, prior-filed provisional application has been included in an amendment to the first sentence of the specification following the title, as provided by 37 CFR 1.78(a)(5)(iii); (2) the surcharge fee required by 37 CFR 1.17(t) has been submitted; and (3) the petition contains a proper statement of unintentional delay. Accordingly, having found that the instant petition for acceptance of an unintentionally delayed claim for the benefit of priority under 35 U.S.C. § 119(e) to the above-noted, prior-filed provisional application satisfies the conditions of 37 CFR 1.78(a)(6), the petition is granted.

The granting of the petition to accept the delayed benefit claim to the prior-filed application under 37 CFR 1.78(a)(6) should not be construed as meaning that the instant application is entitled to the benefit of the filing date of the prior-filed application. In order for the instant application to be entitled to the benefit of the prior-filed application, all other requirements under 35 U.S.C. §119(e) and 37 CFR 1.78(a)(4) and (a)(5) must be met. Similarly, the fact that the corrected Filing Receipt accompanying this decision on petition includes the prior-filed application should not be construed as meaning that applicant is entitled to the claim for benefit of priority to the prior-filed application noted thereon. Accordingly, the examiner will, in due course, consider this benefit claim and determine whether the instant application is entitled to the benefit of the earlier filing date.

A corrected Filing Receipt, which includes the priority claim to the prior-filed provisional application, accompanies this decision on petition.

Any inquiries concerning this decision may be directed to the undersigned at (571) 272-3206. Any other inquiries concerning either the examination procedures or status of the application should be directed to the Technology Center.

This matter is being referred to Technology Center AU 2831 for appropriate action on the amendment submitted July 24, 2009, including consideration by the examiner of the claim under 35 U.S.C. §119(e) for the benefit of priority to prior-filed provisional Application No. 60/967,833.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where

the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

In re Application of	:	
Tom M. VanHoose, e al.	:	
Application No. 12/206,343	:	DECISION ON PETITION
Filed: September 8, 2008	:	TO WITHDRAW
Attorney Docket No. 47457-P001C1	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed October 28, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Ross T. Robinson on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

All future correspondence will be directed to the first named inventor Tom VanHoose at the address indicated below.

There is an outstanding Office action mailed October 21, 2009 that requires a reply from the applicant.

Telephone inquiries concerning this decision should be directed to Terri Johnson at 571-272-2991.

OFFICE OF PETITIONS

In re Application of :
Tung-Ping Lee :
Application No. 12/206,406 : DECISION ON PETITION
Filed: September 8, 2008 :
Attorney Docket No. 3127-194 :

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed December 24, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The petition satisfies the conditions for revival pursuant to the provisions of 37 CFR 1.137(b) in that (1) the reply in the form of the required fees; (2) the petition fee; and (3) the required statement of unintentional delay have been received. Accordingly, the reply to the Notice to File Missing Parts mailed September 18, 2008, is accepted as having been unintentionally delayed.

The Revocation of Power of Attorney submitted with the above petition on December 24, 2009 has been accepted.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3208.

This application is being referred to the Office of Patent Application Processing for pre-examination processing.

In re application of	:	
Christopher Thomas Foltz et al.	:	DECISION ON PETITION
Application No. 12/206,428	:	TO MAKE SPECIAL FOR
Filed: September 8, 2008	:	NEW APPLICATION
For: CABLE STORAGE AND DISPENSING	:	UNDER 37 CFR 1.102
SYSTEM	:	

This is a decision on the petition filed on September 8, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner;

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-

function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition fails to comply with conditions II.5.2, II.6.2 and II.6.3 above.

As to condition II.5.2, the petition lacks an indication of a preexamination search that encompasses all of the features of the claims. With respect to the classification search, in addition to the areas already searched, the search needs to include a search of 242/563.1, 563.2, 413, 413.1-413.3 and 388.1.

With respect to the text search of the US Patents database, the search logic in the petition appears to lack the incorporation of terms that would constitute "the broadest reasonable interpretation" of the claimed subject matter as is required. The text search appears to be too narrow to encompass the broadest reasonable interpretation of the claimed invention. Furthermore, it does not include searches in other classes, e.g., class 191 and 340. The USPTO website has an example of the proper manner of performing and documenting a preexamination search for Accelerated Examination petitions at: http://www.uspto.gov/web/patents/accelerated/. Furthermore, a sample of search logic to be used in this application is provided below:

L1	cable near RFID.
L2	191/$.ccls. and RFID
L3	439/$.ccls. and (cable near RFID)
L4	340/$.ccls. and (cable near RFID)
L5	235/$.ccls. and (cable near RFID)
L6	385/$.ccls. and (cable near RFID)

This sample search logic is not meant to be the sole search logic that can or should be employed in this application, but is meant solely as an example of a starting off point for applicant's assistance. The foreign patent file databases searched are adequate, however the same text logic deficiency as outlined above appears to be present.

As to condition II.6.2, there is currently not an adequate listing of all the limitations (or portions thereof) in each of the claims that are disclosed in each of the cited references, **specifying where each of the limitations (or portions thereof) are disclosed in each of the references**. Although references are provided which appear to disclose claimed limitations, where in the references these disclosures reside are not clear.

Specific locations must be made clear. Since it is required that the most closely related references are to be submitted with the petition, **all of the references** submitted are considered to be "most closely related" and need to be completely addressed in the Support Document. Also, given the above deficiencies noted in the search and search results, similar detail will be needed for any additional art uncovered.

As to condition II.6.3, there is not a satisfactory detailed explanation of claim patentability over each of the references. The explanation needs to specify how each of the claims are patentable over each of the cited references. Also, when explaining that a limitation is not taught by the prior art it should be made clear which specific portion of the limitation is not taught or make it clear that no part of the limitation is taught by any of the references. Applicant has merely recited claim 1 and underlined certain recitations of the claim. It is unclear what the underlining represents. Many of the limitations applicant has indicated as being taught by the prior at, are identified as not being taught by the prior art, as they are included in the recitation of claim 1 in section 9(C) of the Support Document.

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is DISMISSED. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Teri P. Luu, Quality Assurance Specialist, at (571) 272-7045.

Washington, DC 20036

In re application of Christopher Thomas Foltz et al. Application No. 12/206,428 Filed: September 8, 2008 For: CABLE STORAGE AND DISPENSING SYSTEM	DECISION ON RENEWED PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 CFR 1.102

This is a decision on the renewed petition filed on January 21, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

A petition to make special was filed in the above-identified application under 37 CFR 1.102(d) on September 8, 2008. That petition was dismissed in a decision mailed December 23, 2008 wherein a non-extendable period of one (1) month or thirty (30) days, whichever was longer, was set to request reconsideration.

The reasons for the dismissal were inadequate search and an inadequate Support Document. Specifically, with respect to the classification search, the search was deemed not to encompass all of the features of the claims. Additional areas needing to be search were suggested. With respect to the text search of the US Patents database and foreign patents database, the search logic appeared to lack the incorporation of terms that would constitute "the broadest reasonable interpretation" of the claimed subject matter. Additional search terms were suggested.

As to the Support Document, all of the references submitted on the information disclosure statement were not adequately addressed. Furthermore, the showing of where each limitation (or portions thereof) of each claim is disclosed in each of the references was not adequate; nor was there a satisfactory detailed explanation of claim patentability over each of the references.

A review of the search outlined in the renewed petition indicates that a search of all the subclasses under class 242 was conducted on August 7, 2008. It is noted that in the originally filed petition, the preexamination search document indicated that on August 7, 2008, only subclasses 160.2, 365.5 and 390.8 under class 242 were searched. However, now it is indicated that each and every subclass under class 242 were searched. This would indicate that each and every patent or PG publication in class 242 has been reviewed. A quick search of the USPTO's EAST search engine finds that there are over 63,000 patents and PG publications. It is credulous to believe that applicant in fact reviewed each and every one of the 63,000+ prior art documents.

With respect to the text search, instead of using the "near" proximity operator set forth in the petition decision (e.g., "cable near RFID"), the renewed text search performed on January 13, 2009 use conducted using the "and" proximity operator (e.g., "cable and RFID"). Applicant has made no indication as to why the text search did not use the "near" proximity operation, e.g., "near" is not available in Lexis.

With respect to the listing of limitations that are disclosed by the prior art, applicant has amended the Support Document to indicate that the respective limitations are disclosed in the abstract. This is not a satisfactory showing. The abstract merely enables a reader to determine quickly from a cursory inspection of the nature and gist of the technical disclosure. Accordingly, from the reading of the abstract, a reader does not have a full understanding of the invention disclosed. Accordingly, providing the "abstract" as the basis for the support of a claimed feature being disclosed in the prior art is not sufficient. Specific locations with respect to the disclosure of where each limitation (or portions thereof) reside have not been provided.

With respect to detailed explanation of claim patentability, the renewed support document still does not provide a satisfactory detailed explanation of claim patentability. Applicant has merely underlined certain portions of the claim and indicated that "the references...alone or in combination, fail to at least or suggest the following underlined features." It has not been made clear if patentability lies in the combination of underlined features not being taught or that at least one of the underlined feature not being taught. Furthermore, at least one of the feature applicant has underlined is in fact indicated as being taught by the prior art. Specifically, with respect to limitation (a), applicant indicates that the prior art does not teach an <u>adjustable</u> central coil; however, Ito (6,454,202) is indicated as teaching a method comprising "receiving at least one cable on an adjustable central coil (Abstract)."

For the above stated reasons, the petition is denied. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is reminded that a single opportunity to perfect the petition is given. Therefore, further petitions for accelerated examination in this application will not be entertained.

Any inquiry regarding this decision should be directed to Quality Assurance Specialist Teri P. Luu at (571) 272-7045.

OFFICE OF PETITIONS

In re Application of :
Allawi, Lyamichev, and Piper :
Application No. 12/206,436 : DECISION REFUSING STATUS
Filed: September 8, 2008 : UNDER 37 CFR 1.47(a)
Attorney Docket No. **FORS-14522/US-2/ORD** :
For: METHODS AND APPLICTAIONS FOR TARGET QUANTIFICATION

This is a decision on the petition under 37 CFR 1.47(a), filed November 20, 2008.

The petition under 37 CFR 1.47(a) is **dismissed.**

Any request for reconsideration under this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. Failure to respond will result in the abandonment of this application. Any response should be titled "Request for Reconsideration of Petition Under 37 CFR 1.47(a).

The above-identified application was filed on September 8, 2008, without an executed oath or declaration or filing fee. Accordingly, a "Notice to File Missing Parts Nonprovisional Application" (the "Notice") was mailed on September 22, 2008, requiring an executed oath or declaration and a surcharge for the late filing of the oath or declaration. The instant petition was filed on November 20, 2008.

A grantable petition under 37 CFR 1.47(a) requires:

(1) proof that the non-signing inventor(s) cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims, and drawings);

(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;

(3) the petition fee,

(4) a statement of the last known address of the non-signing inventor,

The instant petition lacks items (1) as set forth above.

Section 409.03(d) of the *Manual of Patent Examining Procedure* provides, in pertinent part, that:

> [a] refusal by an inventor to sign an oath or declaration when the inventor has not been presented with the application papers does not, itself, suggest that the inventor is refusing to join the application unless it is clear that the inventor understands exactly what he or she is being asked to sign and refuses to accept the application papers. A copy of the application papers should be sent to the last known address of the nonsigning inventor . . .
>
> Proof that a *bona fide* attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature, but the inventor refused to accept delivery of the papers or expressly stated that the application papers should not be sent, may be sufficient. When there is an express oral refusal, that fact along with the time and place of the refusal must be stated in the statement of facts. When there is an express written refusal, a copy of the document evidencing that refusal must be made part of the statement of facts. The document may be redacted to remove material not related to the inventor's reasons for refusal.
>
> When it is concluded by the 37 CFR 1.47 applicant that a nonsigning inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in the statement of facts in support of the petition or directly in the petition. If there is documentary evidence to support facts alleged in the petition or in any statement of facts, such evidence should be submitted. Whenever a nonsigning inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the petition.

The petition and exhibits speaks to the circumstances of the constructive refusal of inventor Lyamichev to execute the declaration, but only indicates that the Declaration and Assignment were sent to the inventor. There is not indication that a complete copy of the application papers (specification, claims, drawings, oath and declaration) was presented to the inventor. Petitioner must demonstrate that an effort was made to present a complete copy of the application papers to the inventor before the inventor can be said to have refused to join the prosecution of the application. Any renewed petition must, therefore, establish that an attempt was made to present a complete copy of the application papers to the non-signing inventor.

The petition fee of $200.00 will be charged to deposit account 50-4302.

OFFICE OF PETITIONS

In re Application of	:
Allawi, Lyamichev, and Piper	:
Application No. 12/206,436	: DECISION ACCORDING STATUS
Filed: September 8, 2008	: UNDER 37 CFR 1.47(a)
Attorney Docket No. **FORS-14522/US-2/ORD**	:

For: METHODS AND APPLICTAIONS FOR TARGET QUANTIFICATION

This is a decision on the renewed petition under 37 CFR 1.47(a), filed July 21, 2009.

The petition is **GRANTED**.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

The above-identified application was filed on September 8, 2008, without an executed oath or declaration or filing fee. Accordingly, a "Notice to File Missing Parts Nonprovisional Application" (the "Notice") was mailed on September 22, 2008, requiring an executed oath or declaration and a surcharge for the late filing of the oath or declaration. A petition under 37 CFR 1.47(a) was filed on November 20, 2008, and dismissed by a decision mailed May 22, 2009.

Petitioner has shown that inventors Lyamichev has refused to join the prosecution of the application. The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the addresses given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application will be directed to the Office of Patent Application Processing for further processing.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3222.

COPY MAILED
JAN 0 8 2009

In re Application of	:	
Richman et al.	:	
Application No. 12/206488	:	
Filing or 371(c) Date: 09/08/2008	:	
Attorney Docket Number:	:	DECISION
18816	:	ON PETITION

This is a decision on the "Petition for Review of Notice of Incomplete Nonprovisional Application Under 37 C.F.R. 1.53(e), and to Accord a Filing Date of September 8, 2008," filed November 25, 2008.

The petition is granted to the extent indicated herein.

The application was filed on September 8, 2008. On September 25, 2008, the Office of Patent Application Processing mailed a Notice of Incomplete Nonprovisional Application (hereinafter "Notice"), informing Applicant that the application had NOT been accorded a filing date because the application had been deposited without drawings.

Applicant responds with the present petition and avers that the application contains method claims, and that drawings are not necessary for an understanding of the invention. Applicants have filed a preliminary amendment to add drawing Figures 1-7 referred to in the specification, despite Applicant's assertion that the drawings are not necessary for an understanding of the invention.

A review of the file confirms that the specification contains method claims. As stated in MPEP § 601.01(f), it is the practice of the PTO to treat an application that contains at least one process, method or composition claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

MPEP § 601.01(f) also states that:

> A nonprovisional application having at least one claim, or a provisional application having at least some disclosure, directed to the subject matter discussed above for which a drawing is usually not considered essential for a filing date, describing drawing

figure(s) in the specification, but filed without drawings will be treated as an application filed without all of the drawing figures referred to in the specification as discussed in MPEP § 601.01(g), so long as the application contains something that can be construed as a written description.

This application contains method claims; therefore, the application should have been treated as an application filed without all of the drawing figures referred to in the specification as discussed in MPEP § 601.01(g).

In applications filed without all of the drawing figure(s) referred to in the specification, the MPEP § 601.01(g) states that a "Notice of Omitted Item(s)" is mailed indicating that the application has been accorded a filing date, but is lacking some of the figures of drawings described in the specification.

In view of the above, the Notice mailed September 25, 2008, was mailed in error and is hereby withdrawn.

Applicant should file an amendment prior to the first Office action on the merits canceling the reference to the drawings.

It is noted that despite Applicant's assertion that drawings are not necessary for an understanding of the invention, Applicant has filed a preliminary amendment to add drawing Figures 1-7 referred to in the specification. The Examiner will address any issues of new matter.

This application is being referred to the Office of Patent Application Processing for further processing of the Response to the Notice of Incomplete Nonprovisional Application, with the filing date of September 8, 2008, and an indication that no drawings were present or required on filing.

A refund of the petition fee has been credited to Petitioner's credit card.

Telephone inquiries concerning this Decision should be directed to the undersigned at (571-272-3232.

Serial No.: 12/206,531
Filed: September 8, 2008

Title: **USING PARTIAL INFORMATION TO IMPROVE DIALOG IN AUTOMATIC SPEECH RECOGNITION SYSTEMS**

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

The petition to make the application special filed September 8, 2008 is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not

file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Ken Wieder, Quality Assurance Specialist, at (571) 272-2986.

Applicant	: Osamuyimen T. Stewart	: DECISION ON REQUEST FOR
Patent Number	: 7624014	: RECALCULATION of PATENT
Issue Date	: 11/24/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/206,531	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 09/08/2008	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed January 7, 2010 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application

(i) validly claims priority to an application filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the KIPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the KIPO application that contains the allowable/patentable claims and the KIPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the KIPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action: i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the KIPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the KIPO application is a first action allowance then no office action from the KIPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the KIPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the KIPO examiner in the KIPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The petition is **GRANTED.**

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
Dante Monteverde	:	
Application No. 12/206,553	:	DECISION ON PETITION
Filed: September 8, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. 35041-400900	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed April 3, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a declaration by inventor Dante Monteverde is 65 years of age or older. Accordingly, the above-identified application has been accorded "special" status.

The photocopy of applicant's birth certificate and passport were not legible. The declaration is sufficient evidence to grant this petition.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at 571-272-4618.

All other inquiries concerning the status of the application should be directed to the Office of Patent Examination Processing at 571-272-4000.

Upon completion of the pre-examination processing by the Office of Patent Application Processing, this application will be referred to Technology Center 3623 for action on the merits commensurate with this decision.

In re Application of: Yaakov Yaari
Serial No.: 12/206,578
Filed: September 8, 2008
Docket: IL920070053US2 (21396Z)
Title: METHOD FOR VALIDATION OF BINARY CODE TRANSFORMATIONS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 8, 2008 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d) and the supplemental Examination Support Document filed June 23, 2009.

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an

interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-3719.

OFFICE OF PETITIONS

In re Application of	:	
ROBERTS Christopher D. et al.	:	
Application No. 12/206,581	:	DECISION ON PETITION
Filed: September 08, 2008	:	TO WITHDRAW
Attorney Docket No. **PR63439-1US2**	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed August 04, 2009.

The request is **NOT APPROVED** because it is moot.

A review of the file record indicates that the power of attorney to Foley & Lardner LLP has been revoked by the assignee of the patent application on June 30, 2009. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to Michelle R. Eason at 571-272- 4231.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed September 9, 2008, to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH pilot program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;

(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;

(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;

(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

5 PIPESTEM COURT
ROCKVILLE MD 20854

In re Application of: CHARLES CRUSE, JR. Serial No.: 12/206,711 Filed: September 08, 2008 Docket: RSW920070465US1/RKC100009 Title: METHOD, SYSTEM AND APPARATUS TO AUTOMATICALLY ADD SENDERS OF EMAIL TO A CONTACT LIST	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on 09/08/08 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. At the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;
2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;
3. include a statement that applicant agrees to make an election without traverse in a telephone interview.
4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.
5. include a statement, made based on a good faith belief, that a pre-examination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The pre-examination search must:

5.1. involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. provide in support of the petition an accelerated examination support document, including.

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts

in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I.1 to II.4, 5.1, 6.1, 6.3-6.4 and 6.6 above are considered to have been met. However, the petition fails to comply with conditions II.5.2-5.3 and II.6.2, 6.5 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding to the requirement of MPEP § 708.02(a)(I.)(H) and items II.5.2 and II.5.3 above, the pre-examination search must involve U.S. Patents and patent application publications, foreign patent documents, and non-patent literature and pre-examination search must be directed to the instant claimed invention and encompass all of the features of the claims, giving the claim the broadest reasonable interpretation.

In this case, the search logic does not include the inventive concept or features included in the claimed language that covers the subject matter of claims using terminologies recognized in the art given their broadest reasonable interpretation. The search should consider individual features by themselves and combinations of features. The search should cover the *broadest scope* encompassed by the claims as well as claims of *narrow and intermediate breadth.*

Based upon the claimed subject matter of the instant application, the following supplemental suggested search is presented:

pre-defin$4, predefin$4, predetermin$6, pre-determin$6
rule$4, criteri$4, polic$4
compar$4, match$4, check$4, determin$4
text$4, messag$4, string$4, word$4

The Petitioner is advised to review all claim limitations, especially those asserted as patentable distinctions from the cited references to ensure the pre-examination search covers these concepts and update search and/or provide any clarification if deemed necessary.

Regarding to the requirement of MPEP § 708.02(a)(I.)(I) and items II. 6.2 above, the accelerated examination support document must include: an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference.

In this case, the discussion in section 9(B) of the of the Accelerated Examination Support Document (AESD) does not provide a detailed explanation of how each of the claimed features is disclosed by the references. Rather, section 9(B) appears to identify/compare only 1 paragraph of the summary of the invention of the references in association with the features of the claim to conclude that the references do not disclose the features of claim 1.

Petitioner is required to provide a detail discussion of the pertinent subject matter disclosed in each of the references, specifically identifying *each claimed limitation and corresponding disclosure* within the references, citing to *specific relevant portions of each reference* by way of figure, page, paragraph and line numbers, as appropriate.

In the third limitation of claim 1, "the user receiving emails from a plurality of senders...", the Petitioner states that Valeski and Khanolkar teach receives emails from a plurality of senders. However, the Petitioner does not provide any citation from the references that shown this teaching limitation. Correction is required.

Regarding to the requirement of MPEP § 708.02(a)(I.)(I)(5) and item II.6.5 above, the AESD only identifies only paragraphs 0004, 0027 of the instant specification as providing support for the sole claim 1.

However, the requirement of MPEP § 708.02(a)(I.)(I)(5) and item II.6.5 above clearly states that the Petitioner is required to **specifically identify what corresponding elements in the figures** and **specifically identify where the corresponding written description in the cited portion of the instant specification** can find support under 35 U.S.C. § 112, first paragraph **for each limitation of claim 1**.

A review of paragraphs 0004 and 0027 indicates that the description on these paragraphs is identical to the claimed language of claim 1; paragraph 0004 appears to be no more than a verbatim copy of the claim as recited in the summary of the invention; paragraph 0027 appears to show the contact list is created; however, there is no where in this paragraph showing the feature of storing a contact list in an email system. The written description requirement promotes the progress of expedite examination by ensuring that applicants adequate their inventions in sufficient detail in their applications in exchange for the right to take-up out of order of examination.

Thus, a general statement that all limitations of claim(s) can be found in all of the figures and pointing to the specification having a verbatim of the claim language does not satisfy such a requirement of MPEP § 708.02(a)(I.)(I)(5) and item II. 6.5 above. Correction is required.

DECISION

For the above-stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty)

days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed the undersigned whose telephone number is (571) 272-4147.

If attempts to reach the undersigned by telephone are unsuccessful, Tod Swann, Quality Assurance Specialist, can be reached at (571) 272-3612.

Filed: September 08, 2008
Docket: RSW920070465US1/RKC100009
For: METHOD, SYSTEM AND APPARATUS TO AUTOMATICALLY ADD SENDERS OF EMAIL TO A CONTACT LIST

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on March 09, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). The original petition, submitted on September 08, 2008 was dismissed in the decision mailed on February 06, 2009.

The renewed petition to make the application special is **GRANTED** as the new Examination Support Document meets the requirements of conditions II.6.2 and 6.5 on the discussion of the references and the patentability of the claims and the new pre-examination search document meets the requirement of conditions II 5.2 - 5.3 with respect to a complete search that were deficient in the original petition.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" issued June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not

be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed the undersigned whose telephone number is (571) 272-3902. If attempts to reach the undersigned by telephone are unsuccessful, Kim Huynh, Quality Assurance Specialist, can be reached at (571) 272-4147.

In re Application of: Aviad Zlotnick et al. Serial No: 12/206,813 Filed: September 9, 2009 Docket: IL920080152US1 Title: Systems and Methods for Implementing Test Applications for Systems Using Locks	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on September 9, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:

To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Gail Hayes, Quality Assurance Specialist, (571) 272-3591.

Filed: September 9, 2008
Attorney Docket No.: BLDXMX-DIV

JUL 28 2009

DECISION ON PETITION

This is a decision on the Petition To Withhold Notice Of Abandonment, received in the United States Patent and Trademark Office (USPTO) on June 8, 2009.

The petition is **DISMISSED.**

Any request for reconsideration of this decision, or as explained below, filing a petition seeking revival under 37 CFR § 1.137, must be filed within TWO MONTHS (2) from the mail date of this decision.

The application was held abandoned for applicant's failure to timely pay the issue fee as required in the Notice of Allowability mailed February 6, 2009, which set a three (3) month statutory period for reply. The Notice of Abandonment was mailed on June 2, 2009.

The Office acknowledges receipt of Part B-Fee(s) transmittal on February 11, 2009, indicating in item 4b. The transmittal form gave authorization of payment by Deposit Account. However, the Form did not supply the deposit account.

In order for a petition to be granted, the evidence must be sufficient according to one of the following standards:

MPEP 503 (postcard receipt as prima facie evidence)
Certificate of Mailing under 37 CFR 1.8(b)
"Express Mail" Mailing under 37 CFR 1.10

MPEP 503 states the following:

A postcard receipt which itemizes and properly identifies the items which are being filed serves as *prima facie* evidence of receipt in the USPTO of all items listed thereon on the date stamped thereon by the USPTO.

Unfortunately MPEP 503 is not applicable since there is no record of receipt of the Return Receipt Postcard, which if received in the Office would have been stamped (referred to as "Office Date" stamp) acknowledging receipt of the items identified thereon.

Provisions under 37 CFR 1.8(b) requires that the petitioner (1) promptly inform the Office of the previous timely mailing or transmission after becoming aware that the Office has no evidence of receipt of the correspondence, (2) supply copies of the previously mailed correspondence with certificate of mailing thereon, and (3) include a statement which attests to the previous timely mailing.

Unfortunately, correspondence received from foreign countries does not receive the benefits of 37 CFR 1.8.

37 CFR § 1.10 is not applicable since this procedure was not used.

The holding of abandonment cannot be withdrawn as this time.

Although this petition for withdrawal of the holding of abandonment is being dismissed, other petition remedies are available for bringing about the withdrawal of the holding of abandonment.

File a petition for Revival of Abandoned Application under CFR §1.137 (a) or (b). Forms are available at USPTO website http://www.uspto.gov

- Under 37 CFR 1.13(a), a petition for the revival of an ***unavoidably*** abandoned
- Under 37 CFR 1.137(b), a petition for the revival of an ***unintentionally***

Further correspondence with respect to the petition for revival under 37 CFR 1.137 should be directed to the Office Of Petition at 703-305-9282 or addressed as follows:

Application No. 12/206,881	:	DECISION ON PETITION
Filed: September 9, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. FAL	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 9, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement made by registered attorney David A. Kiewit, which will be treated as the result of the attorney having evidence that at least one of the applicants is 65 years of age or more. In the event that such evidence is not with the attorney, the Office should be notified immediately. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to undersigned at 571-272-6735.

This application is being referred back to the Office of Patent Application Processing for processing. This application will be accorded "special" status when pre-examination processing is done.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed September 9, 2008, to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH pilot program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;

(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;

(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;

(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
Goldin et al.	:	DECISION REFUSING STATUS
Application No. 12/206,941	:	UNDER 37 CFR 1.47(a)
Filed: 09/09/2008	:	
Attorney Docket No. 05-13	:	
Title: ASSEMBLY AND METHOD FOR	:	
CONTROLLING AN AIR INTAKE	:	
RUNNER	:	

This is in response to the petition under 37 CFR 1.47(a), filed September 9, 2008.

The petition is **dismissed**.

Applicants are given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. Failure to respond will result in abandonment of the application. Any extensions of time will be governed by 37 CFR 1.136(a).

Petitioners request that the Office accept the declaration under 37 CFR 1.47(a) signed by the signing inventors on behalf of the non-signing inventor, Eric Pain. Patent practitioner, Joseph V. Tassone, states that on July 13, 2007, at his request, Dayco's Human Resources Manager, Lois A. Wirrig, sent an unsigned Declaration and unsigned Assignment documents to Mr. Pain for his signature at his last known address via Certified Mail, Return Receipt Requested. Mr. Tassone indicates that the Certified Mail envelope was returned to Ms. Wirrig by the U.S. Postal Service as "UTF" (Unable to Forward). Lastly, Mr. Tassone asserts that he has seen the transmittal and has retained in his file the certified mail receipt number 70060100000055012753, as well as the unopened returned envelope, containing the unsigned documents, with the return receipt postcard still attached and unsigned.

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the

application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. Applicants lack items (1) and (4).

As to item (1), the Office notes that applicants have failed to submit sufficient evidence to prove that diligent efforts have been made to locate the non-signing inventor. See MPEP 403.03(d). Specifically, applicants did not state what efforts they made to try to locate a more current address for the non-signing inventor. If further attempts to obtain a forwarding address and to locate the non-signing inventor by other means such as through E-mail, telephone or the Internet fail, then applicants will have provided the necessary proof required under 37 CFR 1.47 to show that the inventor cannot be reached. Details of the efforts to locate the non-signing inventor should be set forth in an affidavit or declaration of facts by a person with firsthand knowledge of the details (e.g. Ms. Lois A. Wirrig). Applicants should also submit documentary evidence such as the results of an E-mail, telephone or Internet search.

However, if the non-signing inventor refuses to execute the declaration, applicants must show that a complete copy of the application papers, including the specification, claims and drawings, was presented to non-signing inventor and that the inventor did not respond or refused the request to sign the declaration. In this instance, it is unclear if applicants mailed a complete copy of the application papers, including the specification, claims, drawings, and a declaration to the inventor. Unless the non-signing inventor was presented with a complete copy of the application papers, including the specification, claims and drawings, the inventor could not attest that he has "reviewed and understands the application papers."

As to item (4), applicants did not set forth the last known address of the non-signing inventor in the present petition. The Office reminds applicants that an application filed pursuant to 37 CFR 1.47 must state the last known address of the non-signing inventor. MPEP 409.03(e). The address should be the last known address at which the inventor customarily receives mail, usually the residence of the non-signing inventor.

Further correspondence with respect to this matter should be addressed as follows:

In re application of Hisao Kamo et al Serial No. 12/206,976 Filed: September 9, 2008 For: INK JET RECORDING MEDIUM AND METHOD OF PRODUCING THE SAME	: : : : : : :	DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the PCT Patent Prosecution Highway (PCT-PPH) pilot program and the petition under 37 CFR 1.102(d), filed April 22, 2010, to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PCT-PPH pilot program and petition to make special require:

(1) The U.S. application must disclose an eligible relationship to one or more PCT applications where the ISA or IPEA are the JPO, EPO, or USPTO;

(2) At least one claim in the PCT application has novelty, inventive step, and industrial applicability and must be free of any observations in Box VIII in the latest work product in the international stage or applicant must identify and explain why the claim(s) is/are not subject to the observation in Box VIII;

(3) Applicant must submit a copy of the claim(s) from the PCT application(s) that have novelty, inventive step, and industrial applicability along with an English translation thereof and a statement that the English translation is accurate, if the claims are not in the English language;

(4) Applicant must submit a claims correspondence table in English and all the independent claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the claim(s) that have novelty, inventive step, and industrial applicability in the PCT application(s);

(5) Examination of the U.S. application has not begun;

(6) Applicant must submit a copy of the latest international work product from the PCT application indicating that the claim(s) have novelty, inventive step, and industrial applicability along with an English translation thereof if the latest international work product is not in the English language;

(7) Applicant must submit an IDS listing the documents cited by the PCT examiner in the international work product along with copies of documents except U.S. patents or U.S. patent application publications; and

(8) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

In re Application of	:	
Deeming et al.	:	
Application No. 12/207,086	:	DECISION GRANTING PETITION
Filed: September 9, 2008	:	UNDER 37 CFR 1.137(b)
Attorney Docket No. 26600-14492	:	

This is a decision on the petition, filed October 19, 2009, which is being treated as a petition under 37 CFR 1.137(b) to revive the instant non-provisional application for failure to timely notify the U.S. Patent and Trademark (USPTO) of the filing of an application in a foreign country, or under a multinational treaty that requires publication of applications eighteen months after filing. *See* 37 CFR 1.137(f).

The petition is **GRANTED**.

Petitioner states that the instant nonprovisional application is the subject of an application filed in an eighteen-month publication country on August 19, 2009. However, the USPTO was unintentionally not notified of this filing within 45 days subsequent to the filing of the subject application in an eighteen-month publication country.

In view of the above, this application became abandoned pursuant to 35 U.S.C. § 122(b)(2)(B)(iii) and 37 CFR 1.213(c) for failure to timely notify the Office of the filing of an application in a foreign country or under a multilateral international agreement that requires publication of applications 18 months after filing.

A petition to revive an application abandoned pursuant to 35 U.S.C. 122(b)(2)(B)(iii) for failure to notify the USPTO of a foreign filing must be accompanied by:

(1) the required reply which is met by the notification of such filing in a foreign country or under a multinational treaty;
(2) the petition fee as set forth in 37 CFR 1.17(m); and
(3) a statement that the entire delay in filing the required reply from the due date of the reply until the filing of a grantable petition was unintentional.

The instant petition has been found to be in compliance with 37 CFR 1.137(b). Accordingly, the failure to timely notify the USPTO of a foreign or international filing within 45 days after the date of filing of such foreign or international application as provided by 35 U.S.C. § 122(b)(2)(B)(iii) and 37 CFR 1.213(c) is accepted as having been unintentionally delayed.

The previous Request and Certification under 35 U.S.C. § 122(b)(2)(B)(i) has been rescinded. A Notice Regarding Rescission of Nonpublication Request which sets forth the projected publication date of May 13, 2010 accompanies this decision on petition.

This application is being forwarded to Technology Center Art Unit 3623 for examination in due course.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-7751.

NONPUBLICATION RESCISSION LETTER

OC000000039969749

Date Mailed: 02/01/2010

Communication Regarding Rescission Of Nonpublication Request and/or Notice of Foreign Filing

Applicant's rescission of the previously-filed nonpublication request and/or notice of foreign filing is acknowledged. The paper has been reflected in the Patent and Trademark Office's (USPTO's) computer records so that the earliest possible projected publication date can be assigned.

The projected publication date is 05/13/2010.

If applicant rescinded the nonpublication request before or on the date of "foreign filing,"[1] then no notice of foreign filing is required.

If applicant foreign filed the application after filing the above application and before filing the rescission, and the rescission did not also include a notice of foreign filing, then a notice of foreign filing (not merely a rescission) is required to be filed within 45 days of the date of foreign filing. See 35 U.S.C. § 122(b)(2)(B)(iii), and Clarification of the United States Patent and Trademark Office's Interpretation of the Provisions of 35 U.S.C. § 122(b)(2)(B)(ii)-(iv), 1272 Off. Gaz. Pat. Office 22 (July 1, 2003).

If a notice of foreign filing is required and is not filed within 45 days of the date of foreign filing, then the application becomes abandoned pursuant to 35 U.S.C. § 122(b)(2)(B)(iii). In this situation, applicant should either file a petition to revive or notify the Office that the application is abandoned. See 37 CFR 1.137(f). Any such petition to revive will be forwarded to the Office of Petitions for a decision. Note that the filing of the petition will not operate to stay any period of reply that may be running against the application.

Questions regarding petitions to revive should be directed to the Office of Petitions at (571) 272-3282.

[1] Note, for purpose of this notice, that "foreign filing" means "filing an application directed to the same invention in another country, or under a multilateral international agreement, that requires publication of applications 18 months after filing".

OFFICE OF PETITIONS

In re Application of	:	
Lee S. CHADWICK II	:	
Application No. 12/207,377	:	DECISION ON PETITION
Filed: September 9, 2008	:	TO MAKE SPECIAL UNDER
Attorney Docket No. 2202296.00123US4	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 9, 2008, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement made by registered attorney Z. Peter Sawicki, which will be treated as the result of the attorney having evidence that at least one of the applicants is 65 years of age or more. In the event that such evidence is not with the attorney, the Office should be notified immediately. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6735.

This application is being referred back to the Office of Patent Application Processing for processing. This application will be accorded "special" status when pre-examination processing is done.

Application No. 12/207,229	:	TO WITHDRAW
Filed: September 9, 2008	:	FROM RECORD
Attorney Docket No. QIM 2008 P 00697 US	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed June 16, 2010.

The request is **NOT APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others.

The request was signed by Ira S. Matsil on behalf of all attorneys of record, but does not include a Customer Number. Accordingly, since the practitioners were appointed by a Customer Number upon filing of the instant application, the Request must reflect withdrawal of practitioners associated with same Customer Number.

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Currently, there is no outstanding Office action that requires a reply.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-7751. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

OFFICE OF PETITIONS

In re Application of :
William Bull et al. :
Application No. 12/207,314 :
Filed: September 9, 2008 :
Attorney Docket No. 20750P-004700US :

ON PETITION

This is a decision on the petition filed September 16, 2009, under 37 CFR § 1.183 requesting waiver of 37 CFR § 1.64 as it relates to a concurrently filed petition under 37 CFR § 1.48(a)(2). Prior to consideration of the above identified petitions, a second petition requesting withdrawal of the petition under 37 CFR 1.183 was filed on September 18, 2009

The petition under 37 CFR § 1.183 is **DISMISSED as involving moot issues**
The petition under 37 CFR § 1.48 is **GRANTED**.

Petitioner sought waiver of the rules such that the petition under 37 CFR 1.48 could be considered in the absence of the signatures on the required supplemental declaration of the originally named inventors. The application was filed naming William Bull and Ben Rottler and seeks under 37 CFR § 1.48(a) to amend the inventive entity by the addition of Jonathan A. Schiller.

37 CFR § 1.48(a) requires that an amendment to the named inventive entity be accompanied by:

(1) a petition including a statement from *each person being added* and from each person being deleted as an inventor that the error occurred without deceptive intention on his or her part;
(2) an oath or declaration by each actual inventor or inventors as required by 37 CFR 1.63 or as permitted by 37 CFR 1.42, 1.43 or 1.47;
(3) the fee set forth in 37 CFR 1.17 (h); and
(4) the written consent of any existing assignee, if any of the originally named inventors has executed an assignment.

The declaration filed with the petition is signed by the added inventor, with a statement

that through error and without deceptive intent, the original application improperly set forth the inventorship. While original joint inventor Rottler had signed the supplemental declaration, original joint inventor Bull had not signed the supplemental declaration.

The petitions were also accompanied by the proper petition fees and a consent of assignee however, while petitioners asserted that the supplemental declaration had been forwarded to Mr. Bull, they argued that he had not returned an executed copy of same.

Comes now petitioner arguing that it is not necessary to consider the petition under 37 CFR 1.183 because the supplemental declaration has been executed by both original joint inventors in compliance with 37 CFR §§ 1.67 and 1.63. In view of the foregoing evidence provided, it is concluded that waiver of the requirement that the supplemental declaration be signed by joint inventor Bull is not necessary.

The petition bears proof that the nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and, accordingly, this application has been corrected in compliance with 37 CFR 1.48. The inventorship of this application has been changed by the addition of Jonathan A. Schiller as a joint inventor.

This matter will be referred to the Office of Patent Application Processing for issuance of a corrected filing receipt, correction of the file and PTO PALM data to reflect the inventorship as corrected. Thereafter, the matter will be referred to Technology Center 2191 for examination in due course.

Telephone inquiries concerning this matter may be directed to the undersigned Petitions Attorney at (571) 272-3212.

Attorney Docket No. 21756B-080300US	:	
Title: NON INVASIVE CONTEXTUAL	:	
AND RULE DRIVEN INJECTION PROXY	:	

This is in response to the petition under 37 CFR 1.47(b), filed November 18, 2008, which is properly treated as a petition under 37 CFR 1.47(a).

The petition is **GRANTED**.

Petitioners have shown that they sent complete copies of the application papers and the declaration to Phani Pandrangi, the non-signing inventor, by US Mail, return receipt, to his last known home and work addresses. Petitioners provided a copy of the signed returned receipts. Nevertheless, Mr. Pandrangi has not responded to the request to sign the declaration and join in the filing of the above-identified application.

The above-identified application and papers have been reviewed and are in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status. As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

The matter is being referred to Technology Center AU 2192 for examination in due course.

Inquiries regarding this decision should be directed to the undersigned at (571) 272-3211.

LETTER

Dear Mr. Pandrangi:

You are named as a joint inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or (800) 972-6382 (outside the Washington, DC area).

DECISION ON PETITION

This is a decision on the petition, filed on January 21, 2010, under 37 CFR 1.137(f).[1]

The petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.137(f)." This is not a final agency decision.

A petition under 37 CFR 1.137(f) must be accompanied by:

(1) the reply which is met by the notification of such filing in a foreign country or under a multinational treaty;

(2) the petition fee as set forth in 37 CFR 1.17(m); and

(3) a statement that the entire delay in filing the required reply from the due date of the reply until the filing of a grantable petition was unintentional.

The petition lacks item (1). The petition fails to provide proper notice of foreign or international filing pursuant to 35 U.S.C. § 122(b)(2)(B)(iii) and 37 CFR 1.213(c) in that the filing date of the subsequently-filed foreign or international

[1] 37 CFR 1.137(f) provides for revival of a nonprovisional application which became abandoned pursuant to the provisions of 35 U.S.C. § 122(b)(2)(B)(iii) for failure to timely notify the Office of the filing of an application in a foreign country or under a multinational treaty that requires publication of applications eighteen months after filing.

application must be provided. Specifically, the space left for the filing date of the foreign or international application has been left blank. Petitioner must provide the date that the foreign or multinational application was filed with any renewed petition.

Receipt of the Rescission of Previous Nonpublication Request is acknowledged. A communication notifying petitioner of acceptance thereof is enclosed.

Further correspondence with respect to this matter should be addressed as follows:

NONPUBLICATION RESCISSION LETTER

OC000000040775279

Date Mailed: 03/26/2010

Communication Regarding Rescission Of Nonpublication Request and/or Notice of Foreign Filing

Applicant's rescission of the previously-filed nonpublication request and/or notice of foreign filing is acknowledged. The paper has been reflected in the Patent and Trademark Office's (USPTO's) computer records so that the earliest possible projected publication date can be assigned.

The projected publication date is 07/01/2010.

If applicant rescinded the nonpublication request before or on the date of "foreign filing,"[1] then no notice of foreign filing is required.

If applicant foreign filed the application after filing the above application and before filing the rescission, and the rescission did not also include a notice of foreign filing, then a notice of foreign filing (not merely a rescission) is required to be filed within 45 days of the date of foreign filing. See 35 U.S.C. § 122(b)(2)(B)(iii), and Clarification of the United States Patent and Trademark Office's Interpretation of the Provisions of 35 U.S.C. § 122(b)(2)(B)(ii)-(iv), 1272 Off. Gaz. Pat. Office 22 (July 1, 2003).

If a notice of foreign filing is required and is not filed within 45 days of the date of foreign filing, then the application becomes abandoned pursuant to 35 U.S.C. § 122(b)(2)(B)(iii). In this situation, applicant should either file a petition to revive or notify the Office that the application is abandoned. See 37 CFR 1.137(f). Any such petition to revive will be forwarded to the Office of Petitions for a decision. Note that the filing of the petition will not operate to stay any period of reply that may be running against the application.

Questions regarding petitions to revive should be directed to the Office of Petitions at (571) 272-3282.

[1] Note, for purpose of this notice, that "foreign filing" means "filing an application directed to the same invention in another country, or under a multilateral international agreement, that requires publication of applications 18 months after filing".

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☐ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☑ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.
