Application No. 12/392,002 :
Filed: February 24, 2009 :
Attorney Docket No. **6639P619** :

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed June 11, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kenneth Wieder at 571-272-2986.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

FEB 19 2010

In re Application of	:	
Cousins	:	DECISION ON PETITION
Application No. 12/392,003	:	TO MAKE SPECIAL UNDER
Filed: 2/24/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **10031.005300**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 2/8/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1795 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of :
Jiten CHATTERJI :
Application No. 12/392,041 :
Filed: February 24, 2009 :
Attorney Docket No. HES 2007-IP022910US2D1 :

DECISION ON PETITION
TO MAKE SPECIAL UNDER
37 CFR 1.102(c)(1)

This is a decision on the petition under 37 CFR 1.102(c)(1), filed February 24, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement made by registered attorney Corey S. Tumey, which will be treated as the result of the attorney having evidence that at least one of the applicants is 65 years of age or more. In the event that such evidence is not with the attorney, the Office should be notified immediately. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to undersigned at 571-272-6735.

This application is being referred back to the Office of Patent Application Processing for further processing.

This application will be accorded "special" status when pre-examination processing is done.

Docket: 108144-200102/US
Title: METHOD AND SYSTEM TO PROVIDE A DISTRIBUTED LOCAL ENERGY PRODUCTION SYSTEM WITH HIGH-VOLTAGE DC BUS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on February 24, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I.1–I.4, II.5.1, II.5.3, II.6.1, II.6.2, and II 4-II.6.6 above are considered to have been met. However, the petition fails to comply with conditions II.5.2 and II.6.3 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding item 5.2 above, the preexamination search must be directed to the (instant) claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation. However, claim limitations some of which have been identified as patentable features distinguishing the claimed invention from the cited prior art (such as "**the management unit is to be coupled to one or more separate computers to provide the one or more computers with access to the parameter data and control of the local energy production units**" as recited in claim 1, "**the management unit comprises a web server**" as recited in claim 4, "**the management unit is coupled to World Wide Web (WWW), and further includes a web page accessible via the WWW to provide access to one or more of parameter data, unit performance, unit failure, system efficiency, power generation information, and individual control of the local energy production units**" as recited in claim 11, and "**performing a real time trading of power based on supply and demand for power**", as recited in claim 18), or any search terms covering these limitations do not appear to have been included in the search. No where in the search logic has the asserted inventive feature been searched. Petitioner should review all claim limitations, especially those asserted as patentable distinctions from the cited references to ensure the search covers these concepts, and update the search and/or provide any clarifications if deemed necessary.

With respect to the search logic identified, and in particular with respect to the instant claim, the text search appears to be incomplete. It is recommended that the following search terms be included in an updated search. Such example search terms (shown below) should be searched in singular or in combination:

(energy or power or electri$) and ("maximum power" or MPPT) and converter and **network**;
(energy or power or electri$) and ("maximum power" or MPPT) and converter and (**network near (client$1 or computer$1)**;
(energy or power or electri$) and ("maximum power" or MPPT) and converter and (**distributed near computing)**;
(energy or power or electri$) and ("maximum power" or MPPT) and converter and **server$1**
(energy or power or electri$) and ("maximum power" or MPPT) and converter and **internet**
(energy or power or electri$) and ("maximum power" or MPPT) and converter and **trad$3**
(energy or power or electri$) and ("maximum power" or MPPT) and converter and **(remote$2 near manag$5)**

The default proximity operator is OR, the other proximity operators used in EAST are: "adj", "near", "with", and "same".

Note that the above list of terms and synonyms are not meant to be an exhaustive list, merely an example of various terms and synonyms that can be used to produce a more comprehensive prior art search. Nor should these examples be limited only to those sets of search terms provided. Each search term used should be evaluated for applicable synonyms.

The additional search recommendations were confirmed with and recommended by a (primary) examiner in the pertinent art area.

Regarding the requirement of MPEP§ 708.02(a)(I.)(I)(3) and item 6.3 above, 37 CFR § 1.111 (b) states "[a] general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section." 37 CFR § 1.111 (c) states in part "the applicant or patent owner must clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited."

The Petitioner has not clearly identified **how the language of each claim** distinguishes from the references which does not comply with the requirements of 37 CFR § 1.111 (b) or 37 CFR § 1.111 (c). Petitioner should ensure that the above discussion is directed to how the language of each claim is **specifically** distinguishable and patentable from **each of the references** provided in requirement 6.1 above.

On pages 7-28, Petitioner identifies claims 1, 4, 11, 15, 18, and 20 as being patentable features which distinguishes the claimed invention over the cited prior art. In the Detailed Explanation of Patentability, Petitioner states the references Simburger, Siri, and Rohrig fail to describe the claimed invention as directed claims 1, 4, 11, 15, and 20. However, Petitioner does not specifically address patentability of claim 18. Therefore, Petitioner has not clearly identified how the language of **each claim** distinguishes from the references which does not comply with the requirements of 37 CFR § 1.111 (b) or 37 CFR § 1.111 (c). Clarification is required.

The petitioner must specifically properly compare/contrast the each claim with respect to the relevant teachings in the prior art in the identified references, and point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited both singularly and **in combination**. Clarification is required.

In regard to claims 1, 15, and 20, the asserted patentable feature of the claimed invention is directed to the limitation of "**the management unit is to be coupled to one or more separate computers to provide the one or more computers with access to the parameter data and control of the local energy production units.**" It is noted the identified inventive feature is merely directed to network or client-server computing which is well-known in the art. However, Petitioner does not clearly point out the patentable novelty which he or she thinks the claims present in view of this well known feature. Clarification is required.

In addition, Petitioner's "Detail Explanation of Patentability" does not discuss of how **each** of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c). For example, on pages 28-29 of the support document, Petitioner discusses claims 1, 4, 11, 15, 18 and 20, however, Petitioner has not provided any statements as to the patentability of

dependent claims 2,3,5-10,16-17 and 19. Petitioner should clearly point out, for each of dependent claims 2,3,5-10,16-17 and 19, whether the claim recites any features that would render it patentable if the corresponding base claim were found to be unpatentable. For any claim believed to be separately patentable, Petitioner should further point out the patentable novelty with the particularity required by 37 CFR 1.111(b) and (c). If any dependent claim is not believed to be separately patentable, petitioner should clearly indicate that the dependent claim contains no features that would make it patentable should the base claim is found to be unpatentable. Correction is required.

Thus, the petition does not meet all of the conditions set forth in MPEP § 708.02(a).

DECISION

For the above-stated reasons, the petition is **dismissed**.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-3719.

Title: METHOD AND SYSTEM TO PROVIDE A DISTRIBUTED LOCAL ENERGY PRODUCTION SYSTEM WITH HIGH-VOLTAGE DC BUS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on September 1, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to the undersigned at (571) 272-3719.

Filed: 02/25/2009	
Title: NOTEBOOK COVER WITH EXTENDING HOLE-PUNCHED TABS FOR FACILITATING ATTACHMENT TO RINGED BINDER	

This is a decision on the petition filed on February 25, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

The application as filed is not eligible for the accelerated examination under 37 C.F.R. § 1.102(d) because it was not complete under 37 CFR 1.51 and in condition for examination at the time of filing. The mailing of a Notice to File Corrected Application Papers on March 3, 2009 is evidence that the application was not complete and in condition for examination at the time of filing.

Note that the policy as published in the Federal Register on June 26, 2006 as outlined on 36326, part VIII, conditions for examination, section (F) includes drawings in compliance with 37 CFR 1.84. As the drawings as filed were not in compliance with 37 CFR 1.84 at filing, the application is not considered to be complete under 37 CFR 1.51 and not in condition for examination at the time of filing. Therefore, the application is ineligible for consideration under the accelerated examination program.

For the above-stated reasons, the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Program Examiner, at (571) 272-4828.

PETITION TO MAKE SPECIAL BASED ON AGE FOR ADVANCEMENT OF EXAMINATION UNDER 37 CFR 1.102(c)(1)

Application Information

Application Number	12392197	Confirmation Number	8454	Filing Date	2009-02-25
Attorney Docket Number (optional)	GLR08-02	Art Unit		Examiner	
First Named Inventor	Gerald L. Rogoff				
Title of Invention	3-D Display Requiring No Special Eyewear				

Attention: Office of Petitions

An application may be made special for advancement of examination upon filing of a petition showing that the applicant is 65 years of age, or more. No fee is required with such a petition. See 37 CFR 1.102(c)(1) and MPEP 708.02 (IV).

APPLICANT HEREBY PETITIONS TO MAKE SPECIAL FOR ADVANCEMENT OF EXAMINATION IN THIS APPLICATION UNDER 37 CFR 1.102(c)(1) and MPEP 708.02 (IV) ON THE BASIS OF THE APPLICANT'S AGE.

A grantable petition requires one of the following items:
(1) Statement by one named inventor in the application that he/she is 65 years of age, or more; or
(2) Certification by a registered attorney/agent having evidence such as a birth certificate, passport, driver's license, etc. showing one named inventor in the application is 65 years of age, or more.

Name of Inventor who is 65 years of age, or older

Given Name	Middle Name	Family Name	Suffix
Gerald	L.	Rogoff	

A signature of the applicant or representative is required in accordance with 37 CFR 1.33 and 10.18.
Please see 37 CFR 1.4(d) for the format of the signature.

Select (1) or (2) :

(●) (1) I am an inventor in this application and I am 65 years of age, or more.

(○) (2) I am an attorney or agent registered to practice before the Patent and Trademark Office, and I certify that I am in possession of evidence, and will retain such in the application file record, showing that the inventor listed above is 65 years of age, or more.

Signature	/Gerald L. Rogoff/	Date (YYYY-MM-DD)	2009-02-25
Name	Gerald L. Rogoff

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Attorney Docket No. GLR08-02

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 25-FEB-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Daniel F. Casper, et al.	:	
Application No. 12/392,246	:	DECISION GRANTING PETITION
Filed: February 25, 2009	:	UNDER 37 CFR 1.313(c)(2)
Attorney Docket No. POU920060031US2	:	

This is a decision on the petition under 37 CFR 1.313(c)(2), filed February 4, 2010, to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). *See* 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on January 4, 2010 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries regarding this decision should be directed to undersigned at (571) 272-1642. All other inquiries concerning the examination or status of this application should be directed to the Technology Center.

This application is being referred to Technology Center AU 2184 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed information disclosure statement.

OFFICE OF PETITIONS

ON PETITION

In re Application of :
Kevin R. Williams et al. :
Application No. 12/392,253 :
Filed: February 25, 2009 :
Title of Invention: TOP DRIVE DRILLING SYSTEM AND OTHER APPLICATIONS USING A LOW SPEED DIRECT DRIVE AC MOTOR :

This is a decision on the petition filed July 24, 2009, under 37 CFR § 1.183 requesting suspension of the rules.

The petition under 37 CFR § 1.183 is **DISMISSED.**

There is no power of attorney filed in this application. The instant petition however, is filed by one co-inventor, Kevin R. Williams, and not by all co-inventors and raises the following issues:

1. Whether a copy of the Oath and Declaration can be used to complete the filing requirements of a continuation application when the inventor is aware of prior art that would fail within the scope of the claims of the continuation application, and
2. Whether an originally signed Oath and Declaration (as opposed to a photocopy) is required for a continuation application when the continuation application broadens claims to encompass prior art.

Petitioner requests therefore that the Director require the applicants of U.S. Patent Application No. 12/392,253 to file an original oath and declaration for the instant application and not a copy of the oath and declaration of the parent application, application no. 11/538,352 and, if no new oath and declaration is required, the Petitioner requests that Kevin R. Williams be deleted as a co-inventor from U.S. Patent Application 12/392,253.

Petitioner is advised that the appropriate avenue for relief in this instance is to file a petition under 37 CFR 1.48 with the appropriate Technology Center, for a correction of inventorship with a statement of lack of deceptive intent on the part of the applicant

being deleted in accordance with 37 CFR 1.48(a).
37 CFR § 1.48(a) requires that an amendment to the named inventive entity be accompanied by:

(1) a petition including a statement from *each person being added* and from each person being deleted as an inventor that the error occurred without deceptive intention on his or her part;

(2) an oath or declaration by each actual inventor or inventors as required by 37 CFR 1.63 or as permitted by 37 CFR 1.42, 1.43 or 1.47;

(3) the fee set forth in 37 CFR 1.17 (h); and

(4) the written consent of any existing assignee, if any of the originally named inventors has executed an assignment.

In certain instances where the statement of the lack of deceptive intent of the inventor to
be added or deleted cannot be obtained, a petition under 37 CFR 1.183 requesting waiver of that requirement may be possible. See MPEP 201.03 (II)(A).

This matter will be referred to Technology Center 3672 for examination in due course.

Telephone inquiries concerning this matter may be directed to the undersigned Petitions Attorney at (571) 272-3212.

In re Application of :
REED, BRYAN P. et al : DECISION ON PETITION
Application No. 12/392,353 : TO MAKE SPECIAL UNDER
Filed: Feb. 25, 2009 : THE GREEN TECHNOLOGY
Attorney Docket No. 235666 : PILOT PROGRAM
Title: LOWERING AND RAISING A SINGLE WIND TURBINE ROTOR BLADE FROM SIX-O'CLOCK POSITION

This is a decision on the petition under 37 CFR 1.102, filed Jan. 7, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims.

3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) #1. In regard to item 1, petitioner should note that this application has been classified in an area (USPC 029/889.10) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen at 571-272-4856.

The application is being forwarded to the Technology Center Art Unit 3726 for action in its regular turn.

Filed:

Attorney Docket No. 8273/0007PCP1

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 25-FEB-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Application No. 12/392,654 :
Filed: February 25, 2009 :
Attorney Docket No. 5438-0141PUS1 :

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed December 10, 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Michael Horabik at 571-272-3068.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed April 6, 2010 to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the JPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The petition is **GRANTED.**

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Attorney Docket No. 19965-0028001 : FROM RECORD
:

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed March 16, 2010.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by David L. Feigenbaum on behalf of all attorneys/agents of record. All attorneys/agents of record have been withdrawn.

Applicant is reminded that there is no attorney of record at this time.

The correspondence address has been changed and is copied below.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at 571-272-4618.

FEB 19 2010

In re Application of	:	
De Ceuster	:	DECISION ON PETITION
Application No. 12/392,923	:	TO MAKE SPECIAL UNDER
Filed: 2/25/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **10031.005100**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 2/8/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1795 for action on the merits commensurate with this decision.

Application No. 12/392,932
Filed: February 25, 2009
Attorney Docket No. 6639P622

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed April 2, 2010 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kenneth Wieder at 571-272-2986.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Title: METHOD AND DEVICE FOR MANAGING MULTICAST GROUPS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on February 25, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;
2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;
3. include a statement that applicant agrees to make an election without traverse in a telephone interview.
4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.
5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111 (b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify:

(1) each means-(or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and

(2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support

under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. §103(c).

REVIEW OF FACTS

The conditions [I. 1-4, II. 1-5.3, II 6.1, 6.3-6.5] above are considered to have been met. However, the petition fails to comply with the conditions [II. 6.2, 6.6]. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding to the requirement of MPEP §708.02(a) (I) (I) (2-3) and item II 6.2, the accelerated examination support document (AESD) must include: an **identification of all the limitations in the claims that are disclosed** by the reference **specifying where the limitation** is disclosed in the cited reference.

Regarding the Identification of Limitations of the Claims Disclosed by the Cited References statement, the AESD fails to *identify any of limitations* of the single claim invention that are disclosed by the reference and respectively, *specify where* each of the limitations are disclosed in the cited reference in accordance with this requirement. Specifically, the AESD discussed what Watkinson, RFC 3376 and LU et al. disclose in general but fails to particularly *point out (i.e. identify explicitly) all the limitations in the claims that are disclosed by these references* (see pages 2-21).

Petitioner's must provide a detailed discussion of each of the identified references, identifying claimed subject matter disclosed thereon, by way of figure, page, column and line numbers, as they pertain to ***each claim limitation of the claim*** of the instant application. This requirement can be satisfied by listing verbatim all the claim limitations of the single claim invention (by "copy and paste") and indicating where each cited references teaches (or note) each claim limitation (without bundling limitations together to the extent possible), by indicating the element number and/or the relevant page and line numbers of the respective reference.

Regarding the requirement of MPEP §708.02(a)(I)(6) and item II 6.6 above, the Petitioner's accelerated examination support document (AESD) does not include a section with an identification of any cited references that may be disqualified under 35 U.S.C. §103(c).

DECISION

For the above-stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed the undersigned whose telephone number is (571) 272-3902. If attempts to reach the undersigned by telephone are unsuccessful, Kim Huynh, Quality Assurance Specialist, can be reached at (571) 272-4147.

In re Application of: FERNANDEZ GUTIERREZ, Alvaro
Serial No.: **12/392,958**
Filed: February 25, 2009
Docket: 14455.960US01
Title: METHOD AND DEVICE FOR MANAGING MULTICAST GROUPS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on July 20, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). The original petition, submitted on February 25, 2009 was dismissed in the decision mailed on June 19, 2009.

The petition to make the application special is **GRANTED** as the new Accelerated Examination Support Document filed July 20, 2009 meets the requirements of conditions II 6.2 and II 6.6.

The application is eligible for accelerated examination and the renewed petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323) as the original identified deficiencies for failing to comply with the requirements for the pre-examination search encompassing an identification of all the limitations in the claim that are disclosed by the reference specifying where the limitation is disclosed in the cited reference, all of the features of the claims, and an identification of any cited references that may be disqualified under 35 USC 103(c), when performing a complete search have been corrected.

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant

after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post

allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed the undersigned whose telephone number is (571) 272-3902. If attempts to reach the undersigned by telephone are unsuccessful, Kim Huynh, Quality Assurance Specialist, can be reached at (571) 272-4147.

DECISION ON PETITION
TO MAKE SPECIAL

This is a decision on the petition filed on February 25, 2009 to make the above-identified application special under the accelerated examination program.

The petition to make the application special is **DISMISSED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner;

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions regarding the application (section I, subsections 1-4) discussed above are considered to have been met. Additionally, the conditions regarding the petition, section II, subsections 1-4, are considered to have been met. However, the petition fails to comply with condition II, subsections 5 and 6.

First, it appears that the search is incomplete. Note that a search in Class 426, subclasses 554 and 471 is also required.

Secondly, the statement showing support for the present claims on page 5 of the Accelerated Examination Support Document (AESD) is not sufficient. It is required that petitioner provide a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the present application, as well as in the written description of provisional application 61/090,145. Merely stating where support for claim 1 and claim 2, as a whole, is found in various pages of the specification is not sufficient.

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is dismissed. The application will therefore be taken up by the examiner in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

In re application of :
Kevin W. Lang et al :
Serial No. 12/392,973 : DECISION ON PETITION
Filed: February 25, 2009 : TO MAKE SPECIAL
For: DRY MIXES COMPRISING GLYCERINE :

This is a decision on the Request for Reconsideration of Petition to Make Special under the Accelerated Examination Program filed on April 28, 2009 to make the above-identified application special.

The petition to make the application special is **GRANTED.**

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other

than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office.

In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

In re application of	:	
Jason A. Ryder	:	
Serial No. 12/393,024	:	DECISION ON PETITION
Filed: February 25, 2009	:	TO MAKE SPECIAL
For: JET FUEL COMPOSITIONS	:	

This is a decision on the petition filed on February 25, 2009 to make the above-identified application special under the accelerated examination program.

The petition to make the application special is **DISMISSED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner;

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions regarding the application (section I, subsections 1-4) discussed above are considered to have been met. Additionally, the conditions regarding the petition, section II, subsections 1-4 and 6, are considered to have been met. However, the petition fails to comply with condition II, subsection 5.

The statement showing support for the present claims on pages 30 - 36 of the Accelerated Examination Support Document (AESD) is not sufficient. While petitioner has provided a showing of where each limitation finds support in the present application and provisional application 61/097,813, it is also required that petitioner provide a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of parent application 12/329,483 as applicant has claimed priority to this application.

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is dismissed. The application will therefore be taken up by the examiner in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

DECISION ON PETITION
TO MAKE SPECIAL

This is a decision on the Request for Reconsideration of Petition to Make Special under the Accelerated Examination Program filed on April 27, 2009 to make the above-identified application special.

The petition to make the application special is **GRANTED.**

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other

than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office.

In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

OFFICE OF PETITIONS

In re Application of	:	
Matthew H. Frey et al	:	DECISION REFUSING STATUS
Application No. 12/393,194	:	UNDER 37 CFR 1.47(a)
Filed: February 26, 2009	:	
Attorney Docket No. 64028US005	:	

This is in response to the petition under 37 CFR 1.47(a), filed July 6, 2009.

The petition is dismissed.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. Applicant lacks item(s) (1), set forth above.

As to item (1), rule 47 applicant must demonstrate with documented evidence that an inventor refuses to join in the application after having been presented with the application papers (specification, claims, drawings and oath or declaration). **There is no indication herein that joint inventor Michael J. Robrecht was presented with a copy of the complete application papers for this application.** From the evidence of record, it only appears that the joint inventor was presented with a copy of the declaration. If the joint inventor was not presented with a copy of the application papers for this application, then the joint inventor could not attest that he have "reviewed and understand the application papers" and could not execute the declaration he was

requested to sign. Did the joint inventor receive a copy of the application papers? The fact that an application may contain proprietary information does not relieve the rule 47 applicant of the responsibility to present the application papers to the joint inventors if the inventors are willing to receive the papers in order to sign the oath or declaration. Unless petitioner can show that a copy of the application papers were presented to the joint inventors , then petitioner will have to mail a copy of the complete application papers (specification, claims and drawings) to the last known address of the joint inventors , return receipt requested. A cover letter of instructions should accompany the mailing of the application papers setting a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. **The proof of the pertinent events should be made by a statement of someone with firsthand knowledge of the events and should include documentary evidence, such as certified mail return receipt, cover letter of instructions, telegram, etc.** *See* MPEP 409.03(d).

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration **by the party to whom the refusal was made.** Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the rule 47 applicant that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted.

Whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration.

Further correspondence with respect to this matter should be delivered through one of the following mediums:

OFFICE OF PETITIONS

In re Application of	:	
Matthew H. Frey et al	:	DECISION REFUSING STATUS
Application No. 12/393,194	:	UNDER 37 CFR 1.47(a)
Filed: February 26, 2009	:	
Attorney Docket No. 64028US005	:	

This is in response to the renewed petition under 37 CFR 1.47(a), filed November 16, 2009.

The petition is dismissed.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. Applicant lacks item(s) (1), set forth above.

As to item (1), rule 47 applicant must demonstrate with documented evidence that an inventor refuses to join in the application after having been presented with the application papers (specification, claims, drawings and oath or declaration). **There is no indication herein that joint inventor Michael J. Robrecht was presented with a copy of the complete application papers for this application.** From the evidence of record, it only appears that the **attorneys** for joint inventor Michael J. Robrecht were presented with a copy of the complete application papers. No evidence was provided to show that a complete copy of the application papers was

presented to joint inventor Michael J. Robrecht at his last know address as it appears on the declaration submitted on July 6, 2009.

Petitioner has not demonstrated that all efforts were expended in trying to locate nonsigning joint inventor Robrecht. In this regard, petitioner should, at the very least, conduct a search of the regional or national registry(s). The results of such search should be made in any future petition for reconsideration. *See* MPEP 409.03(d). Additionally, petitioner should state whether he has access to inventor Robrecht's personnel records and, if so, what does inspection of the records reveal as to a current address, forwarding address, or an address of the nearest living relative? What does inspection of the phone directories for those address locations reveal? Further, the petition fails to indicate that correspondence was ever mailed unsuccessfully to the inventor's last known address. Therefore, at the very least, petitioner should mail correspondence to the inventor's last known address, return receipt and/or forwarding address requested. If a forwarding address is provided, petitioner should then mail a complete copy of the application papers (specification, claims, drawings, oath, etc.) to Mr. Robrecht's address, return receipt requested, along with a cover letter of instructions which includes a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. If the papers are returned and all other attempts to locate or reach the inventor, e.g., through personnel records, co-workers, E-mail, the Internet or the telephone, etc., continue to fail, then applicant will have established that the inventor cannot be reached after diligent effort or has refused to join in the application. **The statements of facts must be signed, where at all possible, by a person having firsthand knowledge of the facts recited therein and should be accompanied by documentary evidence in support of the statement of facts.** It is important that the forthcoming communication contain statements of fact as opposed to conclusions.

Further correspondence with respect to this matter should be delivered through one of the following mediums:

In re Application of	:	
Matthew H. Frey et al	:	DECISION GRANTING STATUS
Application No. 12/393,194	:	UNDER 37 CFR 1.47(a)
Filed: February 26, 2009	:	
Attorney Docket No. 64028US005	:	

This is in response to the renewed petition under 37 CFR 1.47(a), filed January 11, 2010.

The petition is **GRANTED.**

Petitioner has shown that the non-signing inventor has refused to join in the filing of the above-identified application.

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application is being referred to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3208.

St. Louis MO 63102-2740

In re Application of	:	
BEAUDOIN, Ronald	:	DECISION ON PETITION
Application No. 12/393,402	:	TO MAKE SPECIAL UNDER
Filed: February 26, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 231062	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed December 15, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of

renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 5 above for the reasons explained in more detail below.

In regard to item 5, petitioner should note that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard. Furthermore, the letter containing the statement concerning the basis for the special status is unsigned.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Eddie C. Lee at 571-272-1732.

The application is being forwarded to the Technology Center Art Unit 2121 for action in its regular turn.

In re Application of	**: DECISION ON REQUEST TO**
Shin YOKOYAMA	**: PARTICIPATE IN THE PATENT**
Application No.: 12/393,458	**: PROSECUTION HIGHWAY**
Filed: 26 February 2009	**: PROGRAM AND PETITION**
Attorney Docket No.: 091619-0276	**: TO MAKE SPECIAL UNDER**
For: OPTICAL INTEGRATED CIRCUIT APPARATUS	**: 37 CFR 1.102(d)**

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed 12 June 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

Discussion

A grantable request to participate in the PPH pilot program and petition to make special require:

1. The U.S. application is

    a. a Paris Convention application which either
        i. validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
        ii. validly claims priority to a PCT application that contains no priority claims,

    or

    b. a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
        i. validly claims priority to an application filed in the JPO, or
        ii. validly claims priority to a PCT application that contains no priority claims, or
        iii. contains no priority claim,

    or

Best Available Copy

c. a so-called bypass application filed under 35 U.S.C. 111(a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
   i. validly claims priority to an application filed in the JPO, or
   ii. validly claims priority to a PCT application that contains no priority claims, or
   iii. contains no priority claim;

2. Applicant must submit a copy of:
   a. The allowable/patentable claim(s) from the JPO application(s);
   b. An English translation of the allowable/patentable claim(s) and
   c. A statement that the English translation is accurate;
3. Applicant must:
   a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
   b. Submit a claims correspondence table in English;
4. Examination of the U.S. application has not begun;
5. Applicant must submit:
   a. Documentation of prior office action:
      i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
      ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
      iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;
   b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above
   c. A statement that the English translation is accurate;
6. Applicant must submit:
   a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
   b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);
7. The required petition fee under 37 CFR 1.17(h).

This request to participate in the PPH program and petition meet the requirements (1) through (7), above.

CONCLUSION

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Response must be filed via the Electronic Filing System (EFS) with the Document Code PPH.PET.652.

Title of Invention	UNIVERSAL SECURE REGISTRY				

Attention: Office of Petitions

An application may be made special for advancement of examination upon filing of a petition showing that the applicant is 65 years of age, or more. No fee is required with such a petition. See 37 CFR 1.102(c)(1) and MPEP 708.02 (IV).

APPLICANT HEREBY PETITIONS TO MAKE SPECIAL FOR ADVANCEMENT OF EXAMINATION IN THIS APPLICATION UNDER 37 CFR 1.102(c)(1) and MPEP 708.02 (IV) ON THE BASIS OF THE APPLICANT'S AGE.

A grantable petition requires one of the following items:
(1) Statement by one named inventor in the application that he/she is 65 years of age, or more; or
(2) Certification by a registered attorney/agent having evidence such as a birth certificate, passport, driver's license, etc. showing one named inventor in the application is 65 years of age, or more.

Name of Inventor who is 65 years of age, or older

Given Name	Middle Name	Family Name	Suffix
Kenneth	P.	Weiss	

A signature of the applicant or representative is required in accordance with 37 CFR 1.33 and 10.18.
Please see 37 CFR 1.4(d) for the format of the signature.

Select (1) or (2) :

○ (1) I am an inventor in this application and I am 65 years of age, or more.

◉ (2) I am an attorney or agent registered to practice before the Patent and Trademark Office, and I certify that I am in possession of evidence, and will retain such in the application file record, showing that the inventor listed above is 65 years of age, or more.

Signature	/Robert V. Donahoe/	Date (YYYY-MM-DD)	2009-04-20
Name	Robert V. Donahoe	Registration Number	46667

U.S. Patent and Trademark Office; U.S. DEPARTMENT OF COMMERCE
Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it contains a valid OMB control number

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Attorney Docket No. W0537-701330

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 20-APR-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

OFFICE OF PETITIONS

In re Application of :
Gerendai, et al. : DECISION ON PETITION
Application No. 12/393,589 :
Filed: 26 February, 2009 :
Attorney Docket No. NKM.160.D1

This is a decision on the petition filed on 16 September, 2009, pursuant to 37 C.F.R. §1.47.

The petition pursuant to 37 C.F.R. §1.47(a) is **GRANTED**.

A grantable petition pursuant to 37 C.F.R. §1.47(a) requires: (1) petition and fee; (2) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification: description, claims and drawings); (3) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; and (4) a statement of the last known address of the non-signing inventor(s)—with diligence in the effort to ascertain the validity of the address set forth as the reasonably believed to be last known/current/valid address.

BACKGROUND

The record indicates:

The instant application was filed on 26 February, 2008, without, inter alia, a fully executed oath/declaration.

On 16 March, 2009, the Office mailed a Notice of Missing Parts indicating, inter alia, that a fully executed oath/declaration (signed and dated) was required.

On 16 September, 2009, Petitioner Steven R. Funk (Reg. No. 37,830) filed, *inter alia*, a request and fee for extension of time, a petition and fee, an oath/declaration signed by co-inventors Toth and Szabo (for themselves and on behalf of) but not the non-signing co-inventor Magdolna

Gerendai (Ms. Gerendai), with a statement by Petitioner (with copies of supporting documentation) of transmittal of the entire application (description, claims, abstract, drawings) to the non-signing inventor and her acknowledgment of receipt thereof, with a failure to sign/join in the oath/declaration thereafter—thus demonstrating, *inter alia*, the non-signing inventor's constructive refusal to sign, and so Petitioner's compliance with the requirements of a grantable petition under 37 C.F.R. §1.47(a): (1) petition and fee; (2) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification: description, claims and drawings); (3) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; and (4) a statement of the last known address of the non-signing inventor(s)—with diligence in the effort to ascertain the validity of the address set forth as the reasonably believed to be last known/current/valid address. (Thus, Petitioner sought to satisfy the requirements pursuant to the Rule and the guidance in the Commentary at MPEP §409.03, and §409.03(a) et seq.)

The availability of applications and application papers online to applicants/practitioners who diligently associate their Customer Number with the respective application(s) now provides an applicant/practitioner on-demand information as to events/transactions in an application. Thus, now if one wishes to know the progress in and/or status of an application or the accuracy of the data therein, one need only look at the file online.

Out of an abundance of caution, Petitioners always are reminded that those registered to practice *and* all others who make representations before the Office must inquire into the underlying facts of representations made to the Office and support averments with the appropriate documentation–since all owe to the Office the continuing duty to disclose.[1]

CONCLUSION

The instant petition under 37 C.F.R. §1.47(a) is **granted** (status is accorded pursuant to 37 C.F.R. §1.47(a).)

As provided in 37 C.F.R. §1.47(c), this Office will forward notice of this application's filing to the non-signing inventors at the addresses given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

The instant application is released to the Office of Patent Application Processing (OPAP) for further processing in due course.

---

[1] See supplement of 17 June, 1999. The Patent and Trademark Office is relying on petitioner's duty of candor and good faith and accepting a statement made by Petitioner. See Changes to Patent Practice and Procedure, 62 Fed. Reg. at 53160 and 53178, 1203 Off. Gaz. Pat. Office at 88 and 103 (responses to comments 64 and 109)(applicant obligated under 37 C.F.R. §10.18 to inquire into the underlying facts and circumstances when providing statements to the Patent and Trademark Office). See specifically, the regulations at 37 C.F.R. §10.18.

Telephone inquiries regarding this decision may be directed to the undersigned at (571) 272-3214—it is noted, however, that all practice before the Office is in writing (see: 37 C.F.R. §1.2[2]) and the proper authority for action on any matter in this regard are the statutes (35 U.S.C.), regulations (37 C.F.R.) and the commentary on policy (MPEP). Therefore, no telephone discussion may be controlling or considered authority for Petitioner's action(s).

OFFICE OF PETITIONS

In re Application of :
Gerendai, et al. : COMMUNICATION
Application No. 12/393,589 :
Filed: 26 February, 2009 :
Attorney Docket No. NKM.160.D1

Dear Magdolna Gerendai:

You are named as an inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. §116 (United States Code), and 37 C.F.R. §1.47 (Code of Federal Regulations), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as an inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 C.F.R. §1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 C.F.R. §1.63.

Should you elect to join in the application, the contact information for Counsel of Record is set forth at the end of this Communication.

Should you seek to identify independent Counsel, you may find the Patent Attorneys/Agents Search engine of assistance (https://oedci.uspto.gov/OEDCI/).

Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington, DC area).

Telephone inquiries regarding this communication may be directed to the undersigned at (571) 272-3214—it is noted, however, that all practice before the Office is in writing (see: 37 C.F.R. §1.2[1]) and the proper authority for action on any matter in this regard are the statutes (35 U.S.C.), regulations (37 C.F.R.) and the commentary on policy (MPEP). Therefore, no telephone discussion may be controlling or considered authority for Petitioner's action(s) Moreover, the Office can neither advise you nor recommend Counsel in this matter.

In re application of	:	**DECISION ON PETITION**
Mark Jacobsen	:	**TO MAKE SPECIAL FOR**
Application No. 12/393,739	:	**NEW APPLICATION**
Filed: February 26, 2009	:	**UNDER 37 CFR 1.102**

For: COMPUTER PROGRAM PRODUCT FOR FULLY INSURING LARGE BANK DEPOSITS

This is a decision on the petition filed on February 26, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration

under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition in this case fails to comply with conditions II.5.2, and II.6.3.

As per condition II.5.2, the pre-examination search must be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation.

The search in some respects is seen as being structured too narrowly. With respect to the EAST text search, search string L11 appears to be the best search string as far as being the one that is focusing on the overall claimed concept. It is noted that L4 and L5 are combined in L6, and L10 is combined with one of L1 or L6 in L11. Search string L4 is seen as being too narrowly constructed of a search query, which directly affects the end results obtained in L11. The use of NEAR5 is seen as being too restrictive in nature. The use of SAME is suggested so that the search is not too restrictive. Also, with respect to the use of terms and synonyms that describe various types of financial institutions, the specification on page 5 discloses that they may also include institutions such as "thrifts, credit unions, savings and loans or loan institutions" in a generic sense. Applicant only searched with the terms of "bank$1 or (financial adj institution$1) or exchequer$1). It is suggested that applicant also consider the use of the terms "thrifts, credit unions, CU or, savings and loans, or loan institutions" so that a sufficient use of synonyms is realized. L5 also uses somewhat narrow truncation because it uses NEAR3 for terms relating to money or cash and that are used with terms that describe the claimed "partitioning". The use of SAME is suggested so that the search is not too narrow by the use of NEAR3. This also directly affects the end results obtained in L11. L6 in totality is not seen as addressing the scope of the claims; however, it is noted that L10 does use the term "deposit NEAR3 insur$4", which makes the search better focused on the claimed concept, although as stated previously, the use of SAME is suggested for consideration as opposed to the more restrictive use of NEAR. Also applicant should consider using the term "allocate" in the portion of the search string that relates to the partitioning of the large deposit. This appears to be a relevant synonym that should be considered for use. It is also noted that applicant has argued in the Examination Support Document that it is the concept

of having a "reciprocal" or "two way" deposit exchange process that contributes to the patentability of the claims. This concept is included in search string L8, but L8 is never really used to any great extent in the overall search. It is also noted that the claims make no mention of "reciprocal" or "two-way" as has been argued. Using these terms in a search for the claim scope does not appear to be searching for the scope as claimed and is too limiting to the claims because they do not recite the terms "reciprocal" or "two-way". Applicant should also take note of the above suggestions and comments for the Dialog NPL search as well because it seems to be structured in a very similar manner to how the EAST search was structured. The above comments and suggestions are applicable to both the EAST and Dialog searches as well as the other database resource searches.

As an example, to ensure that the search focuses on the main concept claimed, a recommended search might be executed in all databases of East with the following search query:

L1: deposit same (exceed$ or over or greater) same (insur$ or guarantee) same (limit or threshold or ((max or maximum) with (amount or number)))and deposit same (partition$ or spread$ or divid$ or split$ or allocat$ or allotment or apportion$ or portion$ or distribute$ or segment$ or disburs$ or (break near up)) and (bank$3 or thrift or cu or (credit adj1 union) or exchequer or S&L or (saving near loan) or ((financial or loan) near institution))

Please keep in mind that these are non-limiting search suggestions and they are only meant to serve as a possible starting point for Applicant's preexamination search. Additional guidance regarding the proper manner of performing and documenting a preexamination search may be found on the following web site: http://www.uspto.gov/web/patents/accelerated/ Applicant is expected to perform more supplemental searches than the sample search queries listed above.

With respect to some of the dependent claims that have been argued as contributing to the patentability of the claims, some do not appear to have been searched for. As an example, claims 4,5,14,15, claims 6,20, and claims 9 and 18 do not appear to have been searched. For claims 4,5,14,15, none of the search strings appear to focus on the idea of reducing or minimizing the difference between total amounts of placed orders and total amounts of assigned deposits, as has been argued by applicant as being patentable. The same is true for claims 6 and 20, and 9 and 18, although, it is noted that L8 addresses this concept but L8 is never really used to any great extent in the overall search and is only combined with L5, which is not really focusing the search on the claimed

invention. The scope of what has been argued has not been sufficiently searched commensurate with the scope of the claims.

As per condition II.6.3, the Examination Support Document must contain a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c). For some of the dependent claims (2,13,6,20,9,18) it is not clear if they are being argued as being patentable beyond what is recited in the independent claims, or if they ultimately depend on the independent claims for their patentability. For claims 2 and 13, applicant has argued that since none of the cited references disclosed step c) of claims 1 and 11, claims 2 and 13 are patentable as well because they further define step c). This appears to be an argument that relies upon the independent claim for patentability but it is not very clear. Clarification may resolve this issue. If claim 2 is believed to be patentable for a reason other than is applicable for claim 1, then applicant should set forth what the limitation is from claim 2 that makes it patentable beyond that recited in claim 1; otherwise, a statement that claims 2 and 13 do not contain a recitation that would define over the prior art would be required. As the arguments are written, it is not clear where the alleged patentability lies, in the independent claim or the dependent claims? The argument for claims 6,20 and 9,18 have the same issue as has been addressed for claims 2 and 13.

The petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within one (1) month or thirty (30) days, whichever is longer, from the date of this decision. No extensions of time will be granted under 37 CFR 1.136(a) if the request is to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Robert Weinhardt, Business Practice Specialist, at (571) 272-6633; Michelle Tarae, Business Practice Specialist, at 571-272-6727; or Dennis Ruhl, Primary Examiner, at 571-272-6808.

PHILADELPHIA PA 19103

In re application of:	:	**DECISION ON PETITION**
Mark Jacobsen	:	**TO MAKE SPECIAL FOR**
Application No. 12/393,739	:	**NEW APPLICATION**
Filed: February 26, 2009	:	**UNDER 37 CFR 1.102**

For: **COMPUTER PROGRAM PRODUCT FOR FULLY INSURING LARGE BANK DEPOSITS**

This is a decision on the petition filed on February 26, 2009 and the supplemental petition documents filed April 30, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach

Best Available Copy

the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed to a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new

Best Available Copy

claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

Best Available Copy

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Robert Weinhardt, Business Practice Specialist, at (571) 272-6633, C. Michelle Tarae, Business Practice Specialist at (571) 272-6727.

In re Application of:	
BANNEN et al	:
Serial No.: 12/393,806	: DECISION
Filed: February 26, 2009	: ON
Docket: 704501	: Petition under
Title: C-MET MODULATORS AND METHOD OF USE	: 37 CFR 1.102(d)
	:

This is a decision on the petition filed on February 26, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

3. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

4. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

5. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

6. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

7. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

8. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

9. Final Disposition:
   The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Me, Special Program Examiner, at (571) 272-0562.

OFFICE OF PETITIONS

Applicant: Hiroyuki Yoneyama, et al.
Appl. No.: 12/393,815
Filing Date: February 26, 2009
Title: OPTICAL FILM, POLARIZING PLATE, IMAGE DISPLAY DEVICE AND METHOD FOR MANUFACTURING OPTICAL FILM
Attorney Docket No.: 0649-2137PUS1
Pub. No.: US 2009/0214872 A1
Pub. Date: August 27, 2009

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on September 22, 2009, for the above-identified application.

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains a material error on the front page of the publication wherein the name of the first inventor "Hiroyuki Yoneyama" is incorrectly printed as "Hiroyuki Minami-Ashigara-shi".

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. [1]

The error on the front page of the publication wherein the printing of the first named inventor "Hiroyuki Yoneyama" is incorrect may be an Office error, but it is not a material Office error under 37 CFR 1.221. The misprinting of the inventor's name does not affect the understanding of the application. The mistake does not affect the public's ability to appreciate the technical disclosure of the patent application publication, or determine the scope of the patent application publication or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

[1] Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

On March 25, 2009, a Filing Receipt was mailed by the Office, which incorrectly listed the first inventor's name. To avoid this type of problem in the future, applicant's representative should review the Filing Receipt and make a request for a corrected filing receipt prior to export of the publication to the publisher.

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

A guide for filing a request for a Pre-Grant Publication, such as a request for republication, may be found on the link below:

http://www.uspto.gov/ebc/portal/tutorials.htm

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a "Pre-Grant Publication" and questions or request for reconsideration of the decision, should be addressed as follows:

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☑ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☐ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

In re Application of	:	
HASNAIN et al.	:	DECISION ON PETITION
Application No. 12/393,910	:	TO MAKE SPECIAL UNDER
Filed: 26 February 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 54913	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 21 January 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction

requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item 1 above.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 315/294) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquires concerning this decision should be directed to Lee W. Young at 571-272-4549.

The application is being forwarded to the Technology Center Art Unit 2821 for action on the merits commensurate with this decision.

In re Application of	:	
HASNAIN et al.	:	DECISION ON PETITION
Application No. 12/393,910	:	TO MAKE SPECIAL UNDER
Filed: 26 February 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 54913	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 21 January 2010 and renewed on 27 May 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009) and amended by 75 Federal Register Notice 28554 (21 May 2010).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 and amended by 75 FR 28554 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must have no more than 3 independent claims and no more than 20 total claims. 2) The application must not contain any multiple dependent claims. 3) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 4) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Lee W. Young at 571-272-4549.

The application is being forwarded to the Technology Center Art Unit 2821 for action on the merits commensurate with this decision.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed September 24, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kenneth Wieder at 571-272-2986.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Application No. 12/393,939 :
Filed: February 26, 2009 :
Attorney Docket No. 8073P632 :

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed November 13, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Michael Horabik at 571-272-3068.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

MONTGOMERY VILLAGE MD 20886-2630

In re Application of	:	
Eugene T. BUTLER, III	:	DECISION ON PETITION
Application No.12/393986	:	TO MAKE SPECIAL UNDER
Filed: February 26, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 082301-05260002	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed February 4th, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1–9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Manjunath Rao at 571-272-0939.

The application is being forwarded to the Technology Center Art Unit 1651 for action on the merits commensurate with this decision.

Attorney Docket No. FXM

:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 27-FEB-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Filed: February 27, 2009 :
For: FIBER OPTIC FURCATION ASSEMPLY :
HAVING FEATURE(S0 FOR CABLE MANAGEMENT :

Dear Mr. Mabry:

You are named as a joint inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (571) 272-3204. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington, DC area).

OFFICE OF PETITIONS

In re Application of :
Bickmann, et al. : DECISION ON PETITION
Application No. 12/394,367 :
Filed: February 27, 2009 :
Atty Docket No.107373-13 :

This is a decision on the "PETITION UNDER 37 CFR 1.57(a) FOR GRANT OF FILING DATE AND REPLY TO NOTICE OF INCOMPLETE NONPROVISIONAL APPLICATION," filed May 14, 2009, requesting that the above-referenced application be accorded a filing date of February 27, 2009.

The petition under 37 CFR 1.57(a) is **DISMISSED.**

Any reconsideration petition should be filed within two (2) months of the mail date of this decision on petition.

The application was deposited on February 27, 2009. A Notice of Incomplete Nonprovisional Application was mailed on March 18, 2009.

Petitioners timely filed the present petition in response on May 14, 2009. Petitioners state that drawings were inadvertently omitted from the application deposited on February 27, 2009. Petitioners argue that because the ADS filed with the application deposited on February 27, 2009 contains a claim for benefit of priority under 37 CFR 1.55 to German Application DE 10 2008 011564.9, that, pursuant to 37 CFR 1.57(a)(3), petitioners are permitted to amend the above- identified application to include the drawings and thereby, obtain a February 27, 2009 filing date for the application.

On September 21, 2004, § 1.57 was added to read, in pertinent part that:

§ 1.57 Incorporation by reference.

(a) Subject to the conditions and requirements of this paragraph, if all or a portion of the specification or drawing(s) is inadvertently omitted from an application, but the application contains a claim under § 1.55 for priority of a prior-filed foreign application, or a claim under § 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application, that was present on the filing date of the application, and the inadvertently omitted portion of the specification or drawing(s) is completely contained in the prior-filed application, the claim under § 1.55 or § 1.78 shall also be considered an incorporation by reference of the prior-filed application as to the inadvertently omitted portion of the specification or drawing(s).

(1) The application must be amended to include the inadvertently omitted portion of the specification or drawing(s) within any time period set by the Office, but in no case later than the close of prosecution as defined by § 1.114(b), or abandonment of the application, whichever occurs earlier. The applicant is also required to:

(i) Supply a copy of the prior-filed application, except where the prior-filed application is an application filed under 35 U.S.C. 111;

(ii) Supply an English language translation of any prior-filed application that is in a language other than English; and

(iii) Identify where the inadvertently omitted portion of the specification or drawings can be found in the prior-filed application.

...

> (3) If an application is not otherwise entitled to a filing date under § 1.53(b), the amendment must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f).

It is noted that the application as filed included a claim under 1.55 for the benefit of prior-filed German application - Application No. 102008011564,9. Thus, pursuant to 1.57, the application as filed is considered to have incorporated by reference the prior filed application as to the inadvertently omitted drawings.

Petitioners have not filed an English language translation of the application and an identification of where the inadvertently omitted drawings may be found in the prior-filed application.

Furthermore, the petition is dismissed because petitioners did **not** file a formal amendment to add the drawings. Both an amendment adding the material and a petition are required under 37 CFR 1.57(a). MPEP 201.17 Incorporation by Reference under 37 CFR 1.57(a).

Further correspondence with respect to this matter should be addressed as follows:

By mail:
Mail Stop PETITION
Commissioner for Patents
Post Office Box 1450
Alexandria, VA 22313-1450

By hand:
U.S. Patent and Trademark Office
Customer Service Window, Mail Stop Petition
Randolph Building
401 Dulany Street
Alexandria, VA 22314

By FAX: (571) 273-8300 - ATTN: Office of Petitions

The application will be retained in the Office of Petitions until a reconsideration petition under 37 CFR 1.57(a)(3) and a formal amendment adding the drawings is filed.

Telephone inquiries concerning this matter may be directed to Petitions Attorney Shirene Willis Brantley at (571) 272-3230.

SEP 24 2009

OFFICE OF PETITIONS

In re Application of :
Bickmann, et al. : DECISION ON PETITION
Application No. 12/394,367 :
Filed: February 27, 2009 :
Atty Docket No.107373-13 :

This is a decision on the "RECONSIDERATION OF PETITION UNDER 37 CFR 1.57(a) FOR GRANT OF FILING DATE," filed August 18, 2009, requesting that the above-referenced application be accorded a filing date of February 27, 2009.

The petition under 37 CFR 1.57(a) is **GRANTED**.

The application was deposited on February 27, 2009. A Notice of Incomplete Nonprovisional Application was mailed on March 18, 2009.

Petitioners state that drawings were inadvertently omitted from the application deposited on February 27, 2009. Petitioners argue that because the ADS filed with the application deposited on February 27, 2009 contains a claim for benefit of priority under 37 CFR 1.55 to German Application DE 10 2008 011564.9, that, pursuant to 37 CFR 1.57(a)(3), petitioners are permitted to amend the above- identified application to include the drawings and thereby, obtain a February 27, 2009 filing date for the application.

On September 21, 2004, § 1.57 was added to read, in pertinent part that:

> **§ 1.57 Incorporation by reference.**
>
> (a) Subject to the conditions and requirements of this paragraph, if all or a portion of the specification or drawing(s) is inadvertently omitted from an

application, but the application contains a claim under § 1.55 for priority of a prior-filed foreign application, or a claim under § 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application, that was present on the filing date of the application, and the inadvertently omitted portion of the specification or drawing(s) is completely contained in the prior-filed application, the claim under § 1.55 or § 1.78 shall also be considered an incorporation by reference of the prior-filed application as to the inadvertently omitted portion of the specification or drawing(s).

(1) The application must be amended to include the inadvertently omitted portion of the specification or drawing(s) within any time period set by the Office, but in no case later than the close of prosecution as defined by § 1.114(b), or abandonment of the application, whichever occurs earlier. The applicant is also required to:

(i) Supply a copy of the prior-filed application, except where the prior-filed application is an application filed under 35 U.S.C. 111;

(ii) Supply an English language translation of any prior-filed application that is in a language other than English; and

(iii) Identify where the inadvertently omitted portion of the specification or drawings can be found in the prior-filed application.

...

(3) If an application is not otherwise entitled to a filing date under § 1.53(b), the amendment must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f).

It is noted that the application as filed included a claim under 1.55 for the benefit of prior-filed German application - Application No. 102008011564,9. Thus, pursuant to 1.57, the application as filed is considered to have incorporated by reference the prior filed application as to the inadvertently omitted drawings.

Petitioners have filed an English language translation of the application, an identification of where the inadvertently omitted drawings may be found in the prior-filed application, and a formal amendment to add the drawings.

In view of the incorporation by reference of the prior application, the drawings supplied on August 18, 2009 would not constitute new matter if they were a part of the original disclosure of the prior application. Of course, the examiner is expected to compare the drawings supplied on August 18, 2009, to the drawings in prior-filed German application - Application No. 102008011564,9 in order to verify that they are an accurate copy of the drawings and that they contain no new matter.

In view thereof, the petition is **GRANTED**.

The application is being forwarded to the Office of Patent Application Processing (OPAP) for **according of a filing date of February 27, 2009**, including the copy of the drawings from the prior application supplied on August 18, 2009. Applicants will receive appropriate notifications regarding the fees owed, if any, and other information in due course from OPAP.

Telephone inquiries concerning this matter may be directed to Petitions Attorney Shirene Willis Brantley at (571) 272-3230.

Mail Date: 04/20/2010

Applicant	: Robert William Bailey	: DECISION ON REQUEST FOR
Patent Number	: 7651068	: RECALCULATION of PATENT
Issue Date	: 01/26/2010	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/394,423	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 02/27/2009	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

JAN 29 2010

In re Application of :
Marc Torlo, et. al. : DECISION REFUSING STATUS
Application No. 12/394,546 : UNDER 37 CFR 1.47(a)
Filed: February 27, 2009 :
Attorney Docket No. 080437.61226US :

This is in response to the petition under 37 CFR 1.47(a), filed November 20, 2009.

The petition is dismissed.

Rule 47 applicant is given **TWO MONTHS** from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. Applicant lacks item (1) set forth above.

Petitioner states, "As evidence by the attached Declaration of Doris Leberfing ("Ms. Leberfing"), on February 10, 2009, Ms. Leberfing sent an email with a copy of the Declaration and Power of Attorney and the application text for the above-identified application to Mr. Weinmann and Petitioner requesting that they sign and return and the Declaration and Power of Attorney. A copy of this email is attached as Exhibit 1".

As to item (1), it is unclear if the Mr. Weinmann was presented with the application papers. A review of the evidence presented shows that Exhibits 1-6 are in a language other than English. Therefore, a translation of Exhibits 1-6 is required.

Rule 47 applicant must demonstrate with documented evidence that an inventor refuses to join in the application after having been presented with the application papers (specification, claims, drawings and oath or declaration). Here, it is unclear that joint inventor Ulrich Weinmann was presented with a copy of the complete application papers for this application. From the evidence of record, it only appears that Mr. Weinmann was presented with a copy of the Assignment and

Declaration and Power of Attorney documents. If the joint inventor was not presented with a copy of the application papers for this application, then the joint inventor could not attest that he has "reviewed and understands the application papers" and could not execute the declaration he was requested to sign. Did the joint inventor receive a copy of the application papers? The fact that an application may contain proprietary information does not relieve the rule 47 applicant of the responsibility to present the application papers to the joint inventor if the inventor is willing to receive the papers in order to sign the oath or declaration. Unless petitioner can show that a copy of the application papers was presented to the joint inventor, then petitioner will have to mail a copy of the complete application papers (specification, claims and drawings) to the last known address of the joint inventor , return receipt requested. A cover letter of instructions should accompany the mailing of the application papers setting a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. **The proof of the pertinent events should be made by a statement of someone with firsthand knowledge of the events and should include documentary evidence, such as certified mail return receipt, cover letter of instructions, telegram, etc.** *See* MPEP 409.03(d).

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration **by the party to whom the refusal was made.** Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the rule 47 applicant that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted. Also, whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration.

Marc Torlo, et. al.	:	
Application No. 12/394,546	:	DECISION NOTING JOINDER OF
Filed: February 27, 2009	:	INVENTOR AND PETITION
Attorney Docket No. 080437.61226US	:	UNDER 37 CFR 1.47(a)

Papers filed on March 24, 2010 in response to a "Decision Refusing Status Under 37 CFR 1.47(a)," mailed January 29, 2010, included a Declaration signed by a previously non-signing inventor, Ulrich Weinmann, in compliance with 37 CFR 1.63.

The petition is **DISMISSED AS MOOT**.

In view of the joinder of the inventor, further consideration under § 1.47(a) is not necessary. This application does not have any Rule 1.47 status and no such status should appear on the record for this file. This application need not be returned to this Office for any further consideration under 37 CFR 1.47(a).

This application is being referred to the Office of Patent Application Processing for further processing in accordance with this decision.

Telephone inquiries should be directed to the undersigned at (571) 272-3226.

Paper No.

In re Application of Takagi, et al.	:
	: DECISION GRANTING PETITION
Application No. 12/394702	: TO REMAIL AN OFFICE
Filed: February 27, 2009	: COMMUNICATION AND RESTART
Attorney Docket No. 140774	: PERIOD FOR REPLY

This is a decision on the petition filed on September 25, 2009, requesting that the Office communication mailed on July 22, 2009 be remailed and the shortened statutory period for reply set forth in the Office communication be restarted on the new mail date.

The petition is granted.

Petitioner provided a statement that the Office communication in question was not received at the correspondence address of record and petitioner only became aware of the notice after reviewing the application on the USPTO's PAIR system. The petition was filed within two weeks of receipt of the Office communication. A substantial portion of the reply period had elapsed on the date of receipt.
Accordingly, the Office communication in question will be remailed and the period for reply that was originally set forth in the Office communication will be restarted to run from the new mail date of the Office communication.

Brigham-Burke et al.	:	
Application No. 12/394,714	:	DECISION GRANTING STATUS
Filed: February 27, 2009	:	STATUS UNDER 37 CFR 1.47(a)
Attorney Docket No. CEN5215USNP	:	

This is in response to the petition under 37 CFR 1.47(a), filed August 17, 2009.

The petition is **GRANTED**.

Petitioner has shown that Lauren Brigham-Burke, the legal representative of deceased inventor, Michael Brigham-Burke, has refused to join in the filing of the above-identified application.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status. As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the legal representative at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

Telephone inquiries regarding this decision should be directed to Petitions Examiner Liana Walsh at (571) 272-3206.

This matter is being referred to Technology Center AU 1797.

In re Application of :
Brigham-Burke et al. :
Application No. 12/394,714 : ON PETITION
Filed: February 27, 2009 :
Attorney Docket No. CEN5215USNP :

Mrs. Brigham-Burke,

You are named as a legal representative of a joint inventor in the above identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as the legal representative of a joint inventor.

As the legal representative of a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join in the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to Petitions Examiner Liana Walsh at (571) 272-3206. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to Certification Division at (703) 308-9726 or 1 (800) 972-6382 (outside the Washington D.C. area).

June 29, 2009

In re application of	:	DECISION ON REQUEST TO
Sheginobu Sekine et al	:	PARTICIPATE IN PATENT
Serial No. 12/394,774	:	PROSECUTION HIGHWAY
Filed: February 27, 2009	:	PROGRAM AND
For: METHOD FOR FILLING	:	PETITION TO MAKE SPECIAL
METAL INTO FINE SPACE	:	UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d) to make the above-identified application special filed April 28, 2009.

The request and petition are **DISMISSED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application

(i) validly claims priority to an application filed in the JPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or

(iii) contains no priority claim,

note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;

(2) Applicant must submit a copy of:

a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO to obtain a copy from DAS; however, if the USPTO is unable to obtain a copy from the DAS, the applicant will be required to submit a copy;
b. An English translation of the allowable/ patentable claim(s), if applicable; and
c. A statement that the English translation is accurate, if applicable;

(3) Applicant must:
   a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s); and
   b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
   a. Documentation of prior office action:
      i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claims(s) or
      ii. if the allowable/patentable claim(s) are from "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
      iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form:
      Further, if a copy of the documents from (i) or (ii) is available via the Dossier Access System (DAS), applicant may request the USPO obtain a copy from the DAS; however, if the USPTO is unable to obtain a copy of the DAS, the applicant will be required to submit a copy;
   b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above if applicable; and
   c. A statement that the English translation is accurate;

(6) Applicant must submit:
   a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
   b. Copies of documents except U.S. patents or U.S. patent application publications (unless already submitted in this application); and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition fail because:

(6) An IDS listing all the documents cited by the JPO examiner in the JPO office action and copies thereof except U.S. patents or U.S. patent application publications must be submitted.

Applicant is required to submit all of the reference patent documents cited by the JPO examiner in the JPO Decision to Grant a Patent. JP 2003-133410; JP 2008-126313 and JP 2008-254052, each cited in this JPO communication have not been cited on an IDS and no copies have been provided.

Applicant is given a time period of **ONE MONTH OR THIRTY DAYS**, whichever is longer, from the mailing date of this decision to correct the deficiencies. **NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.** If the deficiencies are not corrected within the time period given, the application with await action in its regular turn.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

Sheginobu Sekine et al	:	PARTICIPATE IN PATENT
Serial No. 12/394,774	:	PROSECUTION HIGHWAY
Filed: February 27, 2009	:	PROGRAM AND
For: METHOD FOR FILLING	:	PETITION TO MAKE SPECIAL
METAL INTO FINE SPACE	:	UNDER 37 CFR 1.102(d)

This is a decision on the supplemental request to participate in the Patent Prosecution Highway (PPH) program filed July 15, 2009.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO, note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;

(2) Applicant must submit a copy of:
   a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO to obtain a copy from DAS; however, if the USPTO is unable to obtain a copy from the DAS, the applicant will be required to submit a copy;
   b. An English translation of the allowable/ patentable claim(s), if applicable; and
   c. A statement that the English translation is accurate, if applicable;

(3) Applicant must:
   a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s); and
   b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:

a. Documentation of prior office action:
   i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claims(s) or
   ii. if the allowable/patentable claim(s) are from "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
   iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form:
   Further, if a copy of the documents from a or b is available via the Dossier Access System (DAS), applicant may request the USPO obtain a copy from the DAS; however, if the USPTO is unable to obtain a copy of the DAS, the applicant will be required to submit a copy;
b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above if applicable; and
c. A statement that the English translation is accurate;

(6) Applicant must submit:

a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of documents except U.S. patents or U.S. patent application publications (unless already submitted in this application); and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

In re Application of :
JOHN Q CHEN et al. :
Application No. 12/394,892 : DECISION ON PETITION
Filed: February 27, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No. H0019795 : 37 CFR 1.102(c)(2)
:

This is a decision on the petition under 37 CFR 1.102(c)(2), filed December 10, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102(c)(2) and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The application must be directed to a single invention that either: A) materially enhances the quality of the environment or B) that materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by

a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1 as explained below.

This application has been classified in an area (USPC 585/252) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

Further correspondence with respect to this matter should be addressed as follows:

In re Application of :
Donald O. **HITZMAN** :
Application No. 12/395,032 : DECISION ON PETITION
Filed: February 27, 2009 : TO MAKE SPECIAL
Attorney Docket No. **018819-0125** : UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed February 27, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes the affidavit of inventor Donald O. Hitzman, attesting to his age. Accordingly, the above-identified application has been accorded "special" status.

Inquiries concerning either the examination or status of the application should be directed to the Office of Technology Center at 571-272-1700.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-7253.

The application is being forwarded to Technology Center Art Unit 1797 for action on the merits commensurate with this decision.

PITTSFORD NY 14534

COPY MAILED

MAR 10 2009

OFFICE OF PETITIONS

In re Application of
James Geoffrey Chase et al.
Application No. 12/395,205
Deposited: February 27, 2009
Title of Invention: **USE OF SURFACE MOTION TO IDENTIFY MECHANICAL PROPERTIES OF BIOLOGICAL TISSUE**

: DECISION REFUSING STATUS
: UNDER 37 CFR 1.47(a)

This decision is in response to the petition filed February 27, 2009 under 37 CFR 1.47(a)[1].

The petition is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION**. Extensions of time may be obtained in accordance with 37 CFR 1.136(a).

The above identified application was filed with an oath or declaration signed by three of the four inventors and the instant petition under 37 CFR 1.47(a), signed by joint inventor James Geoffrey Chase. The petition argues that joint inventor Ashton Peters has moved and can only be reached by email.

The Declaration submitted on filing lists the address for James Geoffrey Chase as the correspondence address of record, however, there is no evidence that a power of attorney has been given to Mr. Chase to handle all matters regarding this application on behalf of all inventors. Since there is no Attorney of Record and since this petition has not been signed by all of the inventors, the petition is not acceptable. In this regard, petitioner's attention is directed to 37 CFR 1.33(b), which states:

---

[1]A grantable petition under 37 CFR 1.47(a) requires:

(1) proof that the non-signing inventor cannot be reached or located, notwithstanding diligent effort, or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings);

(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;

(3) the petition fee;

(4) a statement of the last known address of the non-signing inventor.

> (b) Amendments and other papers. Amendments and other papers, except for written assertions pursuant to § 1.27(c)(2)(ii) of this part, filed in the application must be signed by:
> (1) A registered patent attorney or patent agent of record appointed in compliance with § 1.32(b);
> (2) A registered patent attorney or patent agent not of record who acts in a representative capacity under the provisions of § 1.34;
> (3) An assignee as provided for under §3.71(b) of this chapter; or
> (4) All of the applicants (§ 1.41(b)) for patent, unless there is an assignee of the entire interest and such assignee has taken action in the application in accordance with § 3.71 of this chapter.

An unsigned amendment (or other paper) or one not properly signed by a person having authority to prosecute the application is not entered. This applies, for instance, where the amendment (or other paper) is signed by only one of two applicants and the one signing has not been given a power of attorney by the other applicant.

Therefore, as the petition is not signed by all the inventors and the record herein fails to disclose that petitioner herein (James Geoffrey Chase) was ever given a power of attorney to act on behalf of the remaining inventors, or that he is an assignee of the entire interest and has complied with the provisions of 37 CFR 3.73(b), the petition is not acceptable.

As there is no evidence that Mr. Chase was ever empowered to prosecute the instant application, a petition on the merits therefore cannot be addressed.

Further correspondence with respect to this matter should be addressed as follows:

OFFICE OF PETITIONS

In re Application of
James Geoffrey Chase et al.
Application No. 12/395,205
Deposited: February 27, 2009
Title of Invention: **USE OF SURFACE MOTION TO IDENTIFY MECHANICAL PROPERTIES OF BIOLOGICAL TISSUE**

: DECISION NOTING JOINDER OF
: INVENTOR AND PETITION UNDER
: 37 CFR 1.47(a) DISMISSED AS
: INVOLVING MOOT ISSUES

This is in response to the request for reconsideration filed April 6, 2009 under 37 CFR 1.47(a)[1].

The above identified application was filed with an oath or declaration signed by three of the four inventors and a petition under 37 CFR 1.47(a), signed by joint inventor James Geoffrey Chase. The petition argued that joint inventor Ashton Peters has moved and can only be reached by email. The petition was dismissed in a decision mailed March 10, 2009 because as the petition was not signed by all the inventors and the record fails to disclose that petitioner James Geoffrey Chase was ever given a power of attorney to act on behalf of the remaining inventors, or that he is an assignee of the entire interest and has complied with the provisions of 37 CFR 3.73(b), the petition was not acceptable.

Papers filed April 6, 2009 in reply to the "Decision Refusing Status Under 37 CFR 1.47(b)" mailed March 10, 2009, include a declaration signed by joint inventor Ashton Peters in compliance with 37 CFR 1.63.

In view of the joinder of the previously non-signing joint inventor, further consideration under 37 CFR 1.47(a) is unnecessary.

The renewed petition filed April 6, 2009 is **DISMISSED** as involving moot issues.

---

[1] A grantable petition under 37 CFR 1.47(a) requires:

(1) proof that the non-signing inventor cannot be reached or located, notwithstanding diligent effort, or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings);

(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;

(3) the petition fee;

(4) a statement of the last known address of the non-signing inventor.

This application does not have any rule 1.47(a) status and no such status should appear on the file wrapper. This application need not be returned to this office for any further consideration under 37 CFR 1.47(a).

However, as was indicated in the decision mailed March 10, 2009, the Declaration submitted on filing, and supplemented by the declaration page signed by Ashton Peters, lists the address for James Geoffrey Chase as the correspondence address of record, however, there is no evidence that a power of attorney has been given to Mr. Chase to handle all matters regarding this application on behalf of all inventors. Since there is no Attorney of Record petitioner's attention is directed to 37 CFR 1.33(b), which states:

> (b) Amendments and other papers. Amendments and other papers, except for written assertions pursuant to § 1.27(c)(2)(ii) of this part, filed in the application must be signed by:
>
> (1) A registered patent attorney or patent agent of record appointed in compliance with § 1.32(b);
>
> (2) A registered patent attorney or patent agent not of record who acts in a representative capacity under the provisions of § 1.34;
>
> (3) An assignee as provided for under §3.71(b) of this chapter; or
>
> (4) All of the applicants (§ 1.41(b)) for patent, unless there is an assignee of the entire interest and such assignee has taken action in the application in accordance with § 3.71 of this chapter.

An unsigned amendment (or other paper) or one not properly signed by a person having authority to prosecute the application is not entered. This applies, for instance, where the amendment (or other paper) is signed by only one of two applicants and the one signing has not been given a power of attorney by the other applicant.

Therefore, as the record fails to disclose that James Geoffrey Chase was ever given a power of attorney to act on behalf of the inventors, or that he is an assignee of the entire interest and has complied with the provisions of 37 CFR 3.73(b), Mr. Chase is not empowered to prosecute the instant application. Before any documents will be accepted, pursuant to 37 CFR 1.33(b), a proper power of attorney will need to be filed.

This matter will be referred to the Office of Patent Application Processing for further pre-examination processing.

Telephone inquiries related to this decision should be directed to the undersigned Petitions Attorney at (571) 272-3212.

DECISION ON PETITION

This is a decision on the petition under 37 CFR 1.182, filed, April 13, 2010, to change the name of inventor "Akiko **Tanaka**" to -- Akiko **Shimizu** --.

The petition is **GRANTED**.

Office records have been updated to reflect the inventor's change of name. A corrected Filing Receipt, which reflects the inventor's change of name, accompanies this decision on petition.

As authorized, the $400 fee for the petition under 37 CFR 1.182 has been assessed to petitioner's deposit account.

Any questions concerning this matter may be directed to JoAnne Burke at (571) 272-4584. Any questions concerning the examination procedures or status of the application should be directed to the Technology Center.

This application is being referred to Technology Center AU 1647 for the normal course of business.

NOTICE

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28 filed June 9, 2010. On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. **See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).**

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. **1098 Off. Gaz. Pat. Office 502 (January 3, 1989).** Therefore, nothing in this Notice is intended to imply that an investigation was done.

This application is no longer entitled to small entity status. Accordingly, all future fees paid in this application must be paid at the large entity rate.

The power of attorney filed on June 9, 2010 is not acceptable. The Statement under 3.73(b) does not authorize the person signing the power of attorney to act on behalf of the assignee in this application.

This file is being forwarded to Technology Center 3724.

Telephone inquiries related to this decision should be directed to the Kimberly Inabinet at (571) 272-4618.

June 10, 2009 CST

In re application of Tetsuo Ikegami Serial No. 12/395,270 Filed: February 27, 2009 For: PNEUMATIC TIRE	: : : : : :	DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d) to make the above-identified application special filed April 8, 2009.

The request and petition are **DISMISSED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO, note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;

(2) Applicant must submit a copy of:
   a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO to obtain a copy from DAS; however, if the USPTO is unable to obtain a copy from the DAS, the applicant will be required to submit a copy;
   b. An English translation of the allowable/ patentable claim(s), if applicable; and
   c. A statement that the English translation is accurate, if applicable;

(3) Applicant must:
   a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s); and
   b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:

a. Documentation of prior office action:
   i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claims(s) or
   ii. if the allowable/patentable claim(s) are from "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
   iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form:

   Further, if a copy of the documents from (i) or (ii) is available via the Dossier Access System (DAS), applicant may request the USPO obtain a copy from the DAS; however, if the USPTO is unable to obtain a copy of the DAS, the applicant will be required to submit a copy;
b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above if applicable; and
c. A statement that the English translation is accurate;

(6) Applicant must submit:

a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of documents except U.S. patents or U.S. patent application publications (unless already submitted in this application); and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition fail because:

(6) An IDS listing all the documents cited by the JPO examiner in the JPO office action and copies thereof except U.S. patents or U.S. patent application publications must be submitted.

Applicant is required to submit all of the reference patent documents cited by the JPO examiner in the JPO Decision to Grant a Patent. JP 57-18503; JP 2-286406; JP 64-63402; JP 7-117420; JP 2008-174167 and JP 58-93605, each cited in this JPO communication have not been cited on an IDS and no copy has been provided.

Applicant is given a time period of **ONE MONTH OR THIRTY DAYS**, whichever is longer, from the mailing date of this decision to correct the deficiencies. **NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.** If the deficiencies are not corrected within the time period given, the application with await action in its regular turn.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

In re application of	:	DECISION ON REQUEST TO
Tetsuo Ikegami	:	PARTICIPATE IN PATENT
Serial No. 12/395,270	:	PROSECUTION HIGHWAY
Filed: February 27, 2009	:	PILOT PROGRAM AND
For: PNEUMATIC TIRE	:	PETITION TO MAKE SPECIAL
	:	UNDER 37 CFR 1.102(d)

This is a decision on the supplemental request to participate in the Patent Prosecution Highway (PPH) program filed July 1, 2009.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO, note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;

(2) Applicant must submit a copy of:
   a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO to obtain a copy from DAS; however, if the USPTO is unable to obtain a copy from the DAS, the applicant will be required to submit a copy;
   b. An English translation of the allowable/ patentable claim(s), if applicable; and
   c. A statement that the English translation is accurate, if applicable;

(3) Applicant must:
   a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s); and
   b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:

a. Documentation of prior office action:
   i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claims(s) or
   ii. if the allowable/patentable claim(s) are from "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
   iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form: Further, if a copy of the documents from a or b is available via the Dossier Access System (DAS), applicant may request the USPO obtain a copy from the DAS; however, if the USPTO is unable to obtain a copy of the DAS, the applicant will be required to submit a copy;
b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above if applicable; and
c. A statement that the English translation is accurate;

(6) Applicant must submit:

a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of documents except U.S. patents or U.S. patent application publications (unless already submitted in this application); and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

OFFICE OF PETITIONS

In re Application of	:	
Greenwald, et al.	:	
Application No. 12/395,300	:	DECISION REFUSING STATUS
Filed: February 27, 2009	:	UNDER 37 CFR 1.47(a)
Attorney Docket No. 4806	:	

This is in response to the petition under 37 CFR 1.47(a), filed August 11, 2009.

The petition under 37 CFR 1.47(a) is **DISMISSED**.

Rule 47 applicant is given **TWO MONTHS** from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **Failure to respond will result in abandonment of the application.** Any extensions of time will be governed by 37 CFR 1.136(a). No additional petition fee is due on request for reconsideration.

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached after diligent effort or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims, drawings, oath or declaration); (2) an acceptable oath or declaration in compliance with 37 CFR 1.63; (3) the petition fee; and (4) a statement of the last known address of the non-signing

inventor. Rule 47 applicant has not met requirements (2) and (1) above.

With respect to requirement (2), petitioner has failed to submit an oath or declaration. Rule 47 applicant should submit an oath or declaration executed by the signing inventors but with the signature block of the non-singing inventor left blank.

With respect to requirement (1), petitioner has simply stated that the non-signing inventor has communicated through her counsel her unwillingness to sign the declaration. No further information was provided. If an oral refusal was made, that fact must be stated by the person having first-hand knowledge. If a written refusal was made, such refusal should be submitted with the petition.

Further correspondence with respect to this matter should be addressed as follows:

By mail: Mail Stop Petitions
Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

By FAX: (571)273-8300

CHARLOTTE NC 28211

In re Application of :
Greenwald, et al. :
Application No. 12/395,300 : DECISION ACCORDING STATUS
Filed: February 27, 2009 : UNDER 37 CFR 1.47(a)
Attorney Docket No. 4806 :

This is in response to the renewed petition under 37 CFR 1.47(a), filed November 5, 2009.

The petition under 37 CFR 1.47(a) is **GRANTED**.

Applicant filed a petition under 37 CFR 1.47(a) on August 11, 2009. However, the petition was dismissed in a decision mailed on October 2, 2009. The petition was dismissed because applicant did not submit a 37 CFR 1.63 oath or declaration. In addition, the petition did not set forth the facts upon which it was concluded that the non-signing inventor was refusing to sign the oath or declaration.

With the instant renewed petition, applicant has included a 37 CFR 1.63 declaration, executed by the signing inventor, with the signature block for inventor Ally left blank. In addition, applicant stated that a copy of the application papers was forwarded to the last known address of Ally on October 19, 2009, but as of the filing date of the petition, no executed declaration from Ally has been received.

The above-identified application and papers have been reviewed and found to be in compliance with 37 CFR 1.47(a). Accordingly, the above-identified application is hereby accorded Rule 1.47(a) status. As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address provided in the declaration. Notice of the filing of this application will also be published in the Official Gazette.

The application is being forwarded to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries regarding this decision should be directed to the undersigned at (571)272-3207.

In re Application of	:	
SATO, TAKUMI	:	DECISION ON REQUEST TO
Application No. 12/395,371	:	PARTICIPATE IN PATENT
Filed: February 27, 2009	:	PROSECUTION HIGHWAY
Attorney Docket No. SUTOSH.349AUS	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed August 21, 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Doris To at 571-272-7629.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

MORRISON & FOERSTER LLP
1650 TYSONS BOULEVARD
SUITE 400
MCLEAN, VA 22102

In re Application of :
Alexander SADA, et al :
Application No. 12/395,388 : DECISION ON PETITION
Filed: February 27, 2009 : TO WITHDRAW
Attorney Docket No. 624552000101 : FROM RECORD
:

This is a decision on the Request to Withdraw as attorney or agent under 37 C.F.R. § 1.36(b) filed August 24, 2009.

The request is **NOT APPROVED**.

The Office will no longer approve requests from practitioners to withdraw from applications where the requesting practitioner is acting, or has acted, in a representative capacity pursuant to 37 CFR 1.34. In these situations, the practitioner is responsible for the correspondence the practitioner files in the application while acting in a representative capacity. As such, there is no need for the practitioner to obtain the Office's permission to withdraw from representation. However, practitioners acting in a representative capacity, like practitioners who have a power of attorney in the application, remain responsible for noncompliance with 37 CFR 1.56, as well as 37 CFR 10.18, with respect to documents they file.

A review of the file record indicates that Rory J. Radding does not have power of attorney in this patent application. See 37 C.F.R. § 10.40. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is not applicable.

All future communications from the Office will continue to be directed to the above-identified address until otherwise properly notified.

Telephone inquires concerning this decision should be directed to the undersigned at 571-272-6735.

Re: Request for Certificate of Correction

The Certificates of Correction Branch received your request to modify the drawings from what appears in the Letters Patent Grant.

Inspection of the application file reveals that the drawings presented initially were approved by the examiner at the time of allowance; also that the drawings as presented at that time are hereby considered in accordance with the records of this office since it appears the file does not contain a Notice of Draftsperson's Patent Drawing Review requesting corrected or formal drawings. Formal drawings must be entered prior to paying the issue fee.

In view of the foregoing, applicants request in this matter is hereby denied.

Any inquiries concerning this communication should be directed to Ms. A. Green at (703) 756-1541.

Applicant	: Stephen Paul ZADESKY	: DECISION ON REQUEST FOR
Patent Number	: 7649744	: RECALCULATION of PATENT
Issue Date	: 01/19/2010	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/395,570	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 02/27/2009	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

Application No. 12395576

Filed: February 27,2009

Attorney Docket No. 09-22191

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 05-MAY-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

JUN 30 2010

OFFICE OF PETITIONS

Applicant: Patel, et al.
Appl. No.: 12/395,576
Filing Date: February 27, 2009
Title: QUANTUM CASCADE LASER
Attorney Docket No.: 09-22191
Pub. No.: US 2009/0213890 A1
Pub. Date: August 27, 2009

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on December 7, 2009, for the above-identified application.

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains an error on the front page of the publication wherein the order of inventorship is incorrect.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within **two months** from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. [1]

The request for corrected publication, received on December 7, 2009, was not timely filed under 37 CFR 1.221(b).

The error noted by requestor with respect to the listing of the inventor's name is not an Office error. The listing of the inventor's names in the publication is as they appear in the Oath filed with the application. Furthermore, the patent application publication does not include a mistake with respect to the inventor's name.

[1] Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

The order in which the inventor's names are listed does not affect the understanding of the application. It does affect the public's ability to appreciate the technical disclosure of the patent application publication, or determine the scope of the patent application publication or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. A petition and fee under 37 CFR 1.182 is required to change the order of the inventors. See MPEP 605.04(f).

On March 13, 2009 and May 12, 2009, Filing Receipts were mailed by the Office, which listed the inventor's names. To avoid this type of problem in the future, applicant's representative should review the Filing Receipt and correct the error.

Applicant is reminded of his duty to conduct a reasonable inquiry before filing a paper before the Office. See MPEP 410.

Applicants' request for a corrected patent application publication on June 25, 2008, may constitute a "failure to engage in reasonable efforts to conclude processing or examination of the application." See 1.704(c). This determination will be made on or after a mailing of a Notice of Allowance.

Applicants are advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application in compliance with the Office electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

A guide for filing a request for a Pre-Grant Publication, such as a request for republication, may be found on the link below:

http://www.uspto.gov/ebc/portal/tutorials.htm

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a "Pre-Grant Publication".

Inquiries relating to this matter may be directed to Mark Polutta at (571) 272-7709.

DECISION GRANTING PETITION
UNDER 37 CFR 1.313(c)(2)

This is a decision on the petition under 37 CFR 1.313(c)(2), filed January 19, 2010, to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). *See* 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on January 11, 2010 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries should be directed to the undersigned at (571) 272-3208.

This application is being referred to Technology Center AU 1643 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed amendment and the previously filed IDS.

Application No. 12/395,893 : DECISION ON PETITION
Filed: March 2, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No. 07051-UPA : 37 CFR 1.102(c)(1)
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed October 8, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement made by registered attorney Thomas A. Kulaga, which will be treated as the result of the attorney having evidence that at least one of the applicants is 65 years of age or more. In the event that such evidence is not with the attorney, the Office should be notified immediately. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to undersigned at 571-272-6735.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to Technology Center Art Unit 3679 for action on the merits commensurate with this decision.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as

set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

CHICAGO IL 60606-1615

In re Application of	:	
SARANOW, MITCHELL H.	:	DECISION ON REQUEST TO
Application No. 12/396,050	:	PARTICIPATE IN PATENT
Filed: March 2, 2009	:	PCT/PROSECUTION HIGHWAY
Attorney Docket No. 0002049.0016	:	PROGRAM AND PETITION
For: MANUAL HAIR DYE APPARATUS AND METHOD FOR USING THE SAME	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed June 7, 2010 to make the above-identified application special.

The request and petition are Dismissed.

A grantable request to participate in the PPH program and petition to make special require:
(1) The U.S. application must disclose an eligible relationship to one or more PCT applications filed in the KIPO, JPO, EPO or USPTO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the PCT application(s) latest international work product (the written opinion or the IPER) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the PCT application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of the latest international work product from the PCT application containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate; and
(6) Applicant must submit an IDS listing the documents cited by the PCT examiner in the international work product along with copies of documents except U.S. patents or U.S. patent application publications.

The request to participate in the PPH program and petition met all conditions except Item #6 above. The request to participate in the PPH program and petition fail to include a copy of the PCT/KIPO cited references, namely, WO 03-090914 A2.

Applicant is encouraged to cite and submit all relevant prior art references, if any, to facilitate examination in this application.

Applicant is given a time period of **ONE MONTH or THIRTY DAYS**, whichever is longer, from the mailing date of this decision to correct the deficiencies. **NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.** If the deficiencies are not corrected with the time period given, the application will await action in its regular turn. Response must be filed via EFS-Web.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen at 571-272-4856.

Petition is **dismissed**.

In re Application of	:	
SARANOW, MITCHELL H.	:	DECISION ON REQUEST TO
Application No. 12/396,050	:	PARTICIPATE IN PATENT
Filed: March 2, 2009	:	PCT/PROSECUTION HIGHWAY
Attorney Docket No. 0002049.0016	:	PROGRAM AND PETITION
For: MANUAL HAIR DYE APPARATUS AND METHOD FOR USING THE SAME	:	37 CFR 1.102(d)

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed June 15, 2010 to make the above-identified application special.

The request and petition are granted.

A grantable request to participate in the PPH program and petition to make special require:
(1) The U.S. application must disclose an eligible relationship to one or more PCT applications filed in the KIPO, JPO, EPO or USPTO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the PCT application(s) latest international work product (the written opinion or the IPER) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the PCT application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of the latest international work product from the PCT application containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate; and
(6) Applicant must submit an IDS listing the documents cited by the PCT examiner in the international work product along with copies of documents except U.S. patents or U.S. patent application publications.

In light of the petition being properly submitted, the request to participate in the PPH program and the petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

The applicant is encouraged to cite and submit all relevant prior art references, if any, to facilitate examination in this application.

All other inquiries concerning the examination or status of the application should be directed to Greg Huson, the SPE of Art Unit 3751, and 571-272-4887 for Class 141/83 and also accessible in the PAIR system at http://www.uspto.gov/ebc.index.html.

All other inquiries concerning the examination or status of the application should be directed to the Patent Application Information Retrieval (PAIR) system.

The application will be docketed to an examiner for action on the merits commensurate with this decision.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen, at 571-272-4856.

The petition is **granted.**

Application No. 12/396,224 : ON PETITION
Filed: March 2, 2009 :
Attorney Docket No. 1155-34-CON2-DC :

This is a decision on the petition to revive under 37 CFR 1.137(b), filed December 31, 2009.

The petition under 37 CFR 1.137(b) is **GRANTED**.

The above-identified application became abandoned for failure to timely corrected drawings in response to the Notice to File Corrected Application Papers, mailed March 25, 2009. This Notice set an extendable period for reply of two (2) months for applicant to submit replacement drawings. No reply having been received, the application became abandoned on May 26, 2009. The Office mailed a Notice of Abandonment on November 30, 2009.

With the instant petition, petitioner paid the petition fee, made a statement of unintentional delay, and submitted the required reply in the form of replacement drawings.

The application is being forwarded to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries related to this decision should be directed to the undersigned at (571)272-3207.

In re Application of :
Michael S. BOKICH :
Application No. 12/396,225 : DECISION GRANTING PETITION
Filed: March 2, 2009 : UNDER 37 CFR 1.313(c)(2)
Attorney Docket No. **068313.00013** :

This is a decision on the petition under 37 CFR 1.313(c)(2), filed June 15, 2010, to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). See 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on May 6, 2010 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries should be directed to the undersigned at (571) 272-7253.

This application is being referred to Technology Center AU 1791 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed information disclosure statement.

/Monica A. Graves/
Petitions Examiner, Office of Petitions

[1] *The request to apply the issue fee to the new Notice may be satisfied by completing and returning the new Part B – Fee(s) Transmittal Form (along with any balance due at the time of submission). Petitioner is advised that the Issue Fee Transmittal Form must be completed and timely submitted to avoid abandonment of the application.*

Application No. 12/396,290 :
Filed: 3/2/2009 :
Attorney Docket No. **7923.P025** :

DECISION ON PETITION
TO MAKE SPECIAL UNDER
THE GREEN TECHNOLOGY
PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 2/4/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1795 for action on the merits commensurate with this decision.

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed April 2, 2010.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office will require the practitioner(s) to certify that he, she or they have: (1) given reasonable notice to the client, prior to the expiration of the reply period, which the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any replies that may be due and the time frame within which the client must respond, pursuant to 37 CFR 10.40 (c).

The request was signed by Lawrence S. Cohen on behalf of all attorneys/agents of record. All attorneys/agents have been withdrawn. Applicants are reminded that there is no attorney of record at this time.

All future correspondence will be directed to the first-named inventor, McClifton Taft Magee, at the address indicated below.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-3206. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

In re Application of :
REECE, Dean et al. : **DECISION ON PETITION**
Application No. 12/396,352 : **TO MAKE SPECIAL UNDER**
Filed: March 2, 2009 : **THE GREEN TECHNOLOGY**
For: **METHOD AND APPARATUS FOR QUICKLY REANIMATING DEVICES FROM HIBERNATION** : **PILOT PROGRAM**

This is a decision on the petition under 37 CFR 1.102, filed June 8, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must have no more than 3 independent claims and no more than 20 total claims. 2) The application must not contain any multiple dependent claims. 3) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 4) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the

Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 4 above for the reasons explained in more detail below.

In regard to item 4, petitioner should note that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Any inquiry regarding this decision should be directed to Eddie C. Lee at (571) 272-1732.

The petition is dismissed.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. Applicant lacks items (1) and (4) above.

As to item (1), rule 47 applicant must demonstrate with documented evidence that an inventor refuses to join in the application after having been presented with the application papers (specification, claims, drawings and oath or declaration). There is no indication herein that joint inventors Jae-Kyu Lee and Lauren Kattany were presented with a copy of the complete application papers for this application. If the joint inventors were not presented with a copy of

the application papers for this application, then the joint inventors could not attest that they have "reviewed and understand the application papers" and could not execute the declaration they were requested to sign. Did the joint inventors receive a copy of the application papers? The fact that an application may contain proprietary information does not relieve the rule 47 applicant of the responsibility to present the application papers to the joint inventors if the inventors are willing to receive the papers in order to sign the oath or declaration. Unless petitioner can show that a copy of the application papers was presented to the joint inventors , then petitioner will have to mail a copy of the complete application papers (specification, claims and drawings) to the last known address of the joint inventors , return receipt requested. A cover letter of instructions should accompany the mailing of the application papers setting a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. **The proof of the pertinent events should be made by a statement of someone with firsthand knowledge of the events and should include documentary evidence, such as certified mail return receipt, cover letter of instructions, telegram, etc.** *See* MPEP 409.03(d).

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration **by the party to whom the refusal was made.** Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the rule 47 applicant that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted.

Whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration.

As to item (4), a statement of the nonsigning inventors last known address is missing and is required.

Further correspondence with respect to this matter should be delivered through one of the following mediums:

Application No. 12396605

Filed:

Attorney Docket No. IBC118US5

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 23-MAR-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

OFFICE OF PETITIONS

In re Application of :
Thomas C. Maganas :
Application No. 12/396,609 : ON PETITION
Filing: March 3, 2009 :
Attorney Docket No. 13215.15.1 :

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 3, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required.

The instant petition includes a statement (PTO/SB/130 form) by the applicant's attorney that he is 65 years of age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Alicia Kelley at 571-272-6059. All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

This application is being referred to the Technology Center Art Unit 2831 for further processing in accordance with this decision.

In re Application of	:	
Brad CHAMBERLIN et al.	:	DECISION ON PETITION
Application No. 12/396,664	:	TO MAKE SPECIAL UNDER
Filed: March 03, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. D-300 (DRI0077US)	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed February 12, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining

how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks items 1 and 5.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 411/321.000) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 5, petitioner should note that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. Petitioner suggests that "improvements in the mechanical fasteners increase the operational efficiency of the electric machine, this materially contributing to the more efficient production of energy by the electric machine." It is noted that petitioner's comments are merely a speculation on how the instant invention can be used to improve the efficiency of an electric machine that contributes to the more efficient utilization of energy and energy conservation. As stated in the notice, the materiality standard does not permit an applicant to speculate as to how a hypothetical end-user might specially apply the invention in a manner than could materially contribute to category (A) or (B). *Also see MPEP § 708.02 (VI).* Accordingly, it is unclear as to how the claimed invention would materially contribute to category (B), and it is not agreed that the application on its face meets that materiality standard.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Lanna Mai at 571-272-6867.

The application is being forwarded to the Technology Center Art Unit 3677 for action in its regular turn.

22nd Floor
Hartford CT 06103

In re Application of	:	
Brad CHAMBERLIN et al.	:	DECISION ON PETITION
Application No. 12/396,664	:	TO MAKE SPECIAL UNDER
Filed: March 03, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. D-300 (DRI0077US)	:	PILOT PROGRAM

This is a decision on the renewed petition under 37 CFR 1.102, filed June 11, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DENIED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must have no more than 3 independent claims and no more than 20 total claims. 2) The application must not contain any multiple dependent claims. 3) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 4) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item 4.

In regard to item 4, petitioner should note that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. Petitioner suggests that "*the present application relates to an improved mechanical fastener... Improvements in the mechanical fastener increase the operational efficiency of the electric machine, thus materially contributing to the more efficient production of energy by the electric machine.*" The claims are directed to the mechanical fastener having a soft stake thread locking mechanism to keep the fastener from becoming loose, wherein the fastener in and by itself would not ordinarily contribute to energy conservation. There is no evidence in the present application that the claimed mechanical fastener materially contributes to energy conservation. Petitioner's comments are merely a speculation on how the instant invention can be used to improve the efficiency of an electric machine that may contribute to the more efficient utilization of energy and energy conservation. As stated in the notice, the materiality standard does not permit an applicant to speculate as to how a hypothetical end-user might specially apply the invention in a manner than could materially contribute to category (A) or (B). *Also see MPEP § 708.02 (VI).* Accordingly, it is not agreed that the application on its face meets that materiality standard.

Telephone inquiries concerning this decision should be directed to Lanna Mai at 571-272-6867.

The application is being forwarded to the Technology Center Art Unit 3677 for action in its regular turn.

In re Application of:	
UEDA et al	:
Serial No.: 12/396773	: DECISION
Filed: March 3, 2009	: ON
Docket: 339190US0CONT	: Petition under
Title: METHOD OF PRODUCING ER901228	: 37 CFR 1.102(d)
	:

This is a decision on the petition filed on March 3, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

3. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

4. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

5. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

6. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

7. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

8. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

9. Final Disposition:
   The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Me, Special Program Examiner, at (571) 272-0562.

OFFICE OF PETITIONS

In re Application of	:	
Harris et al.	:	
Application Number: 12/396879	:	DECISION ON PETITION
Filing Date: 03/03/2009	:	
Attorney Docket Number: MST-2347.2A	:	

This is in response to the petition under 37 CFR 1.47(a) filed on March 3, 2009.

The petition is **DISMISSED AS MOOT**.

In accordance with 37 CFR 1.63(d), petitioner has submitted a copy of the executed oath or declaration filed in Application No. 11/166,997, filed on June 24, 2005, of which the subject application is a continuation. Furthermore, a copy of the decision, mailed on December 12, 2005, granting a petition to accord § 1.47(a) status to prior application No. 11/166,997, has been placed in the file of the present application.

As Rule 1.47(a) status was granted in the prior application, this application is hereby accorded Rule 1.47(a) status.

As no petition is necessary to accord Rule 1.47(a) status in this application, the petition is dismissed as moot. No petition fee is necessary.

As provided in Rule 1.47(c), since notice was provided after the grant of Rule 1.47(a) status in the prior application, the Office is dispensing with the notice provision in this continuation application.

After this decision is mailed, the application is referred to the Office of Patent Application Processing for further processing.

Telephone inquiries related to this decision should be directed to the undersigned at 571-272-3231.

Abe Karem :
Application No. 12/396,927 : ON PETITION
Filed: March 3, 2009 :
Attorney Docket No. 023322.0027US1 :

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 3, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required.

The instant petition includes a statement by the applicant's attorney that he is 65 years of age, and a Declaration from applicant that he is 65 years of age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed Alicia Kelley at 571-272-6059. All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

This matter is being referred to the Technology Center Art Unit 1791 for action on the merits commensurate with this decision.

Attorney Docket No. 0465-2142PUS1 :

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed December 07, 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Michael Horabik at 571-272-3068.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
Tchao et al.	:	DECISION REFUSING STATUS
Application No. 12/397,061	:	UNDER 37 CFR 1.47(a)
Filed: March 3, 2009	:	
Attorney Docket No. 005127.01308	:	

This is in response to the petition under 37 CFR 1.47(a), filed October 19, 2009.

The petition is **DISMISSED**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

The instant petition lacks item (1) set forth above. The applicable statute (35 U.S.C.§ 116) requires that a "diligent effort" have been expended in attempting to find or reach the non-signing inventor. *See* MPEP 409.03(a). Petitioner stated that the documents were sent to Mr. Robinette's home address via Federal Express. Petitioner has not confirmed whether the package was accepted or returned or if a forwarding address was provided. If a forwarding address is provided, petitioner should then mail a complete copy of the application papers (specification, claims, drawings, oath, etc.) to Mr. Robinette's forwarding address, return receipt requested, along with a cover letter of instructions which includes a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. If the papers are returned and all other attempts to locate or reach the inventor, e.g., through personnel records, co-workers, E-mail, the Internet or the telephone, etc., continue to fail, then applicant will have established that the inventor cannot be reached after diligent effort or has refused to join in the application. **The statements of facts must be signed, where at all possible, by a person having firsthand knowledge of the facts recited therein and should be accompanied by documentary evidence in support of the statement of facts.** It is important that the forthcoming communication contain statements of fact as opposed to conclusions.

MAR 2 4 2009

OFFICE OF PETITIONS

In re Application of :
Walter Scott Matherly :
Application No. 12/397,106 : DECISION REFUSING STATUS
Filed: March 3, 2009 : UNDER 37 CFR 1.47(b)
Attorney Docket No. **081963** :

This is a decision on the petition filed March 3, 2009 under 37 CFR 1.47(b).

The petition is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(b)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION**. Extensions of time may be obtained in accordance with 37 CFR 1.136(a).

The above-identified application, naming Walter Scott Matherly as the sole inventor, was filed on March 3, 2009 with the instant petition claiming that the sole inventor refuses to sign the oath or declaration and seeking status under 37 CFR 1.47(b).

A grantable petition under 37 CFR 1.47(b) requires:

(1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings);

(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;

(3) the petition fee;

(4) a statement of the last known address of the non-signing inventor;

(5) proof of proprietary interest, and

(6) proof of irreparable damage.

The petition lacks item (2).

A Declaration has been presented signed by Tetsuro Hara, In regards to item (2) however, an oath or declaration for the patent application in compliance with 37 CFR 1.63 and 1.64 has not been presented. A declaration in compliance with 37 CFR 1.63, 1.64, and 1.67 must be presented, signed by all of the signing inventors, if any. If no inventor(s) will sign the declaration, the declaration may be signed on behalf of the inventor by an assignee. The oath or declaration must be signed by an officer of the corporation (president, vice president, secretary, or treasurer) on behalf of and as agent for the non-signing inventor(s). The officer must identify his/her title in the declaration, as well as his/her mailing address, residence, if the applicant lives at a different location from where he or she customarily receives mail, as well as the citizenship of individual signing on behalf of the non-signing inventor. If the oath or declaration is not signed by an officer of the corporation, then proof of authority of the person signing on behalf of the corporation must be submitted.[1]

It is recommended that another Declaration be submitted and that if Mr. Hara will execute the declaration, that he do so either indicating his title, if he is an officer, or that he indicate in the declaration, by his name, that he is an authorized representative of Kaneka Texas Corporation.

The way the declaration is executed it appears that Mr. Hara is a second inventor and not signing on behalf of the non-signing inventor and thus is not in compliance with 37 CFR 1.63, 1.64, and 1.67.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☑ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☐ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 02-OCT-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Title: CLOUD RESOURCE USAGE IN DATA FORWARDING STORAGE

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on 3/3/09 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;
3. include a statement that applicant agrees to make an election without traverse in a telephone interview.
4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.
5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111 (b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify:

(1) each means-(or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and

(2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support

under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. §103(c).

REVIEW OF FACTS

The conditions [I. 1-4, II. 1-5, II. 5.3, II 6.1, 6.3, 6.6] above are considered to have been met. However, the petition fails to comply with the conditions [II. 5.1, 5.2 and II. 6.2 and 6.5]. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of MPEP 708.02(a) VIII (C) or I (H), and item II. 5-5.1 above, the Pre-examination Search Document (PESD) must include: an identification of the field of search by **United States class and subclass** and the date of the search, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file or files searched and the database service, and the date of the search.

PESD identifies class but ***does not*** indicate corresponding subclasses. The PESD therefore fails to provide *identification of a field of search by United States by class and subclass*.

For classification searches, MPEP §719.05 states that a classification search is defined as a complete search of *all* the documents in a particular subclass, and it is not limited by any text query or other means. Thus, Petitioner is required to **identify** *whether U.S. patents and patent application publications, foreign patent documents, and non-patent literature* are involved in the "**class alone**" search mentioned above. Unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement.

Based upon the claimed subject matter of instant application, a search in the following additional class and/or subclasses should be included in order to provide full coverage of where the most pertinent references are most likely to be found:

U.S. Field of Search:

455/3.01, 514; 456.3
700/66
709/213, 217, 238, 241, 245
710/22, 26, 38, 56

Regarding the requirement of MPEP §708.02(a)(I)(H)(2) and item II 5.1-5.2 above, the Petitioner's preexamination search does not encompass all of the features of the claims, and does not appear to have given the broadest reasonable interpretation (See MPEP 2111.01).

Specifically, the preexamination search strategy does not encompass all of the features of the claims, namely, claimed limitation:

..."continuously forwarding...***without storing on any physical storage device*** *in the network...* as recited at least on claims 1, 19 and 20.

Similarly, the Petitioner's preexamination search does not encompass all of the features of the claims, namely, the claimed features of claims 2-18.

The underlined supra feature is not present in any of the searches performed and set forth in the PESD. It is noted that these features have been identified as key features in the Detailed Explanation of Patentability statement by applicant to distinguishing the instant claimed subject matter from the cited prior art references deemed most closely related to the claimed invention in the Examination Support Document. Since the search logic does not include the relevant search terms mentioned above, the alleged patentable features and concept appear to have not been searched.

The Petitioner is advised to review the all claim limitations, especially those asserted as patentable distinctions from the cited references to ensure the pre-examination search covers these concepts, and update the search and/or provide any clarification for the deficiencies identified above if deemed necessary. For an AE Support Document Sample please visit the Office's website at http://www.uspto.gov/web/patents/accelerated/

Regarding the requirement of MPEP §708.02(a)(I)(H)(2) and item II 5.2 above, the Petitioner's preexamination search has not given the broadest reasonable interpretation to the claims.

Specifically, the pre-examination text search query provided fails to meet the requirement because of its lack of depth and breadth to cover all concepts the claims recite. The text search query fails for lack of inclusion of applicable terms, and their respective synonyms, as used in the claimed invention.

These terms are exemplary, and should not be considered exhaustive:

(network or LAN or WAN); (nodes or device or client or terminal or source or requester); (message or packet or email or payload or file); (continuous or streaming or un-interrupted or constant or persistent); (forward or push or redirect or route); (storage or memory or space or direct adj memory or shared adj memory or physical or shared near memory); (geolocation or global near position or GPS or physical near location);

Below is an exemplarily search strategy that would complete this requirement by encompassing all of the features of the claims, and giving the claims the broadest reasonable interpretation. This exemplarily search strategy provides depth and breadth to cover all concepts the claims *in light of the specification and/or encompass the disclosed features that may be claimed*, and thereby would cover features that have not been searched The default proximity operator is "OR".

L1 *(continuous$ or persistent$ or constant$ or stream$) with (message or data or packet or payload or file) with (network or WAN or LAN)*

L2 *(forward or push or redirect or route) same (storage or memory or space or (direct adj memory) or (shared adj memory) or (physical near memory) or (shared near memory))*

L3 *(geolocation or (global near position) or GPS or physical near location) same (message or packet or email or payload or file)*

L4 *(adhoc or decentralize$) with (network or WAN or LAN)*

L5 *L1 and L2*

L6 *L2 and L3*

L7 *L3 and l5*

Note that the above list of terms and synonyms are not meant to be an exhaustive list, merely an example of various terms and synonyms that can be used to produce a more comprehensive prior art search. Nor these examples are limited only to those sets of search terms provide; each search term used should be evaluated for applicable synonyms. Additionally, searches utilizing other databases should be modified to include the above-mentioned terms and synonyms.

These text search strategies should be added to supplement the classified search performed. It should be noted that it is rare that a text search alone would be considered a complete search strategy. MPEP §904.02 A recommended search strategy is a couple of the most relevant subclasses, searched by themselves, viewing each document or combined in a text search with a few relevant terms. A larger subset of subclasses can be combined with more search terms.

These strategies should (or rough equivalent thereof) be preformed on a database that includes US Patents, US PG Pubs, Foreign Patents and Non Patent Literature.

Petitioner should review all claim limitation, especially those asserted as patentable distinctions from the cited references to ensure that the search covers these concepts, and update the search and/or provide any clarification if deemed necessary.

Regarding the requirement of MPEP 708.02(a) I (2), and item III. 6.2 above, the Accelerated Examination Support Document (ESD) must include: an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference.

Specifically, MPEP 708.02(a) I (2) states "For each reference cited, the accelerated examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference."

The AESD has identified five references deemed most closed related to the subject matter of the claim. Applicant has piecemeal mapped the references to select claims. For example, with respect to reference 1, Coates, applicant maps to the

limitations of claim 1 and 20. References 2-4 are mapped to claims 1 and 2 respectively, while, reference 5 is mapped to claims 1 and 19. Because the limitations of claims 1, 19 and 20 are very similar (only minor changes in preamble language), one would expect the mapping to be equally applicable to between those claim limitations. Therefore applicant has failed to identify all of the limitations in the claims that are disclosed by the reference by specifying where the limitation is disclosed in the cited reference.

Regarding the requirement of MPEP 708.02(a) I (5), and item III. 6.5 above, the AESD) must include: an indication showing of where each limitation of the claims finds support under the first paragraph of 35 U.S.C. 112 in the written description of the specification. MPEP 708.02(a) I (5) (ii) states "If the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under the first paragraph of 35 U.S.C. 112 in each such application in which such support exists."

The AESD has not specified where each limitation finds 112, first paragraph support for the claims. The AESD only maps the claims by generalization to certain publication paragraphs and figures of the instant application. This alone is insufficient because it is unspecific and broadly references to "figs. 4 and 5, and the accompanying descriptions in the specification." The reference, because it is unspecific, seems to reference the instant application. Referencing the instant application would still be insufficient because the oath and declaration and Application Data Sheet claim domestic priority to parent application 12/240,757. Thus for the 35 U.S.C. 120 priority to be given, the AESD needs to show support claims to the parent application.

This requirement can be satisfied by listing verbatim all the presently filed claims (by "copy and paste") and by indicating where the instant application (and separately each one of the priority documents - if applicable) teaches each discrete/individual limitation (without bundling limitations together to the extent possible) in each one of said presently filed claims, by indicating the element number and/or the relevant page/paragraph and line numbers.

Petitioner is required to identify and address accordingly each and every deficiency and/or clarification requirement noted above upon filing a request for reconsideration of this decision.

DECISION

For the above-stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed the undersigned whose telephone number is (571) 272-3902. If attempts to reach the undersigned by telephone are unsuccessful, Kim Huynh, Quality Assurance Specialist, can be reached at (571) 272-4147.

For: CLOUD RESOURCE USAGE IN DATA FORWARDING STORAGE

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on April 29, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). The original petition, submitted on March 03, 2009 was dismissed in the decision mailed on April 03, 2009.

The petition to make the application special is **GRANTED** as the new Pre-Examination Search Document and the new Accelerated Examination Support Document filed April 29, 2009 meet the requirements of conditions II 5.1, 5.2, 6.2 and 6.5.

The application is eligible for accelerated examination and the renewed petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323) as the original identified deficiencies for failing to comply with the requirements for the pre-examination search encompassing an identification of the field of search by United States class and subclass and the date of the search, all of the features of the claims, giving the claims the broadest reasonable interpretation, an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference, a showing of where each limitation of the claims finds 35 USC 112, first paragraph support in the written description of the specification and to the priority document, when performing a complete search have been corrected.

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:

If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed the undersigned whose telephone number is (571) 272-3902. If attempts to reach the undersigned by telephone are unsuccessful, Kim Huynh, Quality Assurance Specialist, can be reached at (571) 272-4147.

Say et al. :
Application No. 12/397,293 : ON PETITION
Filed: March 3, 2009 :
Attorney Docket No. TS-02-26C01D01 :

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 15, 2010, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required.

The instant petition includes a statement (PTO/SB/130 form) by the applicant's attorney that applicant is 65 years of age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-7751. All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

This matter is being referred to the Technology Center Art Unit 3735 for action on the merits commensurate with this decision.

Patent Number	: 7642694	: RECALCULATION of PATENT
Issue Date	: 01/05/2010	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/397,410	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 03/04/2009	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

OFFICE OF PETITIONS

In re Application of :
VENNETTILLI and MAIRA : DECISION ACCORDING STATUS
Application No. 12/397,427 : UNDER 37 CFR 1.47(a)
Filed: March 4, 2009 :
Title: METHOD FOR ESTIMATING THE :
OXYGEN CONCENTRATION IN :
INTERNAL COMBUSTION ENGINES :

This is in response to the petition under 37 CFR 1.47(a) filed September 25, 2009. Applicants obtained an extension of time for response within the fourth month. Accordingly, the petition is filed timely.

The petition under 37 CFR 1.47(a) is **granted**.

Applicants established that they provided a complete copy of the application to the non-signing inventor at his last known address. However, the non-signing inventor constructively refused to join in the application.

The above-identified application and papers have been reviewed and are found to be in compliance with 37 CFR 1.47(a). Accordingly, the above-identified application is hereby accorded Rule 1.47(a) status. As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the last known address provided in the petition. Notice of the filing of this application will also be published in the Official Gazette.

The matter is being forwarded to the Technology Center Art Unit 2855 for examination in due course.

Inquiries regarding this decision should be directed to the undersigned at (571) 272-3211.

OFFICE OF PETITIONS

In re Application of :
VENNETTILLI and MAIRA :
Application No. 12/397,427 : LETTER
Filed: March 4, 2009 :
Title: METHOD FOR ESTIMATING THE :
OXYGEN CONCENTRATION IN :
INTERNAL COMBUSTION ENGINES :

Dear Mr. Vennettilli:

You are named as a joint inventor in the above identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor. As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63. Requests for information regarding your application should be directed to the File Information Unit at 571- 272-3150. Information regarding how to pay for and order a copy of the application or a specific paper in the application, should be directed to Certification Division at 571-272-3150 or 1-800-972-6382 (outside the Washington D.C. area).

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where

the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

In re Application of	:	
BATEMAN et al	:	DECISION ON PETITION
Application No. 12/397,596	:	TO MAKE SPECIAL UNDER
Filed: 04 March 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 2008-104	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 22 December 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Lee W. Young at 571-272-4549.

The application is being forwarded to the Technology Center Art Unit 2812 for action on the merits commensurate with this decision.

In re Application of :
Chen et al. :
Application No. 12/397,631 : DECISION ON PETITION
Filed: March 4, 2009 : PURSUANT TO
Attorney Docket No.: JCLA29960 : 37 C.F.R. § 1.28(c)
Title: CARD READER WITH NEAR :
FIELD COMMUNICATION FUNCTION :
AND NEAR FIELD COMMUNICATION :
DEVICE THEREOF

This is a notice regarding your request for acceptance of a fee deficiency submission pursuant to 37 C.F.R. § 1.28, received on August 26, 2009. On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 C.F.R. § 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).

The Office no longer investigates or rejects original or reissue applications under 37 C.F.R. § 1.56. 1098 Off. Gaz. Pat. Office 502 (January 3, 1989). Therefore, nothing in this notice is intended to imply that an investigation was done.

Petitioner has identified the particular type of fee that was erroneously paid as a small entity, when the small entity fee was actually paid, the small entity fee that was actually paid, the deficiency owed amount, and the total deficiency payment owed.

Your fee deficiency submission pursuant to 37 C.F.R. § 1.28(c) is hereby accepted. The petition is **GRANTED** accordingly.

The deficiency payment has been deducted from Petitioner's Deposit Account.

This application is no longer entitled to small entity status. Accordingly, all future fees paid in this application must be paid at the large entity rate.

The Technology Center will be notified of this decision. The Technology Center's support staff will notify the Examiner of this decision, so that the present application can receive further processing in due course.

Telephone inquiries regarding *this decision* should be directed to the undersigned at (571) 272-3225.[1] All other inquiries concerning examination procedures or status of the application should be directed to the Technology Center.

May 13, 2009

In re application of	:	DECISION ON REQUEST TO
Masanobu Sato et al	:	PARTICIPATE IN PATENT
Serial No. 12/397,632	:	PROSECUTION HIGHWAY
Filed: March 4, 2009	:	PROGRAM AND
For: SUBSTRATE TREATMENT METHOD AND SUBSTRATE TREATMENT APPARATUS	:	PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program filed March 5, 2009.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO, note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO to obtain a copy from DAS; however, if the USPTO is unable to obtain a copy from the DAS, the applicant will be required to submit a copy;
b. An English translation of the allowable/ patentable claim(s), if applicable; and
c. A statement that the English translation is accurate, if applicable;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s); and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claims(s) or
ii. if the allowable/patentable claim(s) are from "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form:
Further, if a copy of the documents from a or b is available via the Dossier Access System (DAS), applicant may request the USPO obtain a copy from the DAS; however, if the USPTO is unable to obtain a copy of the DAS, the applicant will be required to submit a copy;
b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above if applicable; and
c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of documents except U.S. patents or U.S. patent application publications (unless already submitted in this application); and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

JAN 13 2010

In re Application of	:	
Nicholas Bateman et al.	:	
Application No. 12/397,634	:	DECISION ON PETITION
Filed: March 4, 2009	:	TO MAKE SPECIAL UNDER
Attorney Docket No. 2008-031	:	37 CFR 1.102(c)(2)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(2), filed December 23, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102(c)(2) and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item 5. As stated in section III of the Notice, applicant must provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard.

This is a decision on the petition under 37 CFR 1.102, filed 23 December 2009 and renewed on 04 February 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Lee W. Young at 571-272-4549.

The application is being forwarded to the Technology Center Art Unit 2823 for action on the merits commensurate with this decision.

MAILED

MAY 21 2010

OFFICE OF PETITIONS

In re Application of :
O'Connor et al. :
Application No. 12/397,779 : DECISION ON PETITION
Filed: March 4, 2009 : UNDER 37 CFR 1.137(b)
Attorney Docket No. MP-CAPS-0155 :

This is a decision on the petition, filed February 23, 2010, which is being treated as a petition under 37 CFR 1.137(b) to revive the instant nonprovisional application for failure to timely notify the U.S. Patent and Trademark (USPTO) of the filing of an application in a foreign country, or under a multinational treaty that requires publication of applications eighteen months after filing. *See* 37 CFR 1.137(f).

The petition is **GRANTED**.

Petitioner states that the instant nonprovisional application is the subject of an application filed in an eighteen-month publication country on March 5, 2009. However, the USPTO was unintentionally not notified of this filing within 45 days subsequent to the filing of the subject application in an eighteen-month publication country.

In view of the above, this application became abandoned pursuant to 35 U.S.C. § 122(b)(2)(B)(iii) and 37 CFR 1.213(c) for failure to timely notify the Office of the filing of an application in a foreign country or under a multilateral international agreement that requires publication of applications 18 months after filing.

A petition to revive an application abandoned pursuant to 35 U.S.C. 122(b)(2)(B)(iii) for failure to notify the USPTO of a foreign filing must be accompanied by:

(1) the required reply which is met by the notification of such filing in a foreign country or under a multinational treaty;
(2) the petition fee as set forth in 37 CFR 1.17(m); and
(3) a statement that the entire delay in filing the required reply from the due date of the reply until the filing of a grantable petition was unintentional.

The instant petition has been found to be in compliance with 37 CFR 1.137(b). Accordingly, the failure to timely notify the USPTO of a foreign or international filing within 45 days after the date of filing of such foreign or international application as provided by 35 U.S.C. § 122(b)(2)(B)(iii) and 37 CFR 1.213(c) is accepted as having been unintentionally delayed.

The previous Request and Certification under 35 U.S.C. § 122(b)(2)(B)(i) has been rescinded. A Notice Regarding Rescission of Nonpublication Request, in which the projected publication date is June 3, 2010, was mailed February 23, 2010.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-7751.

This application is being referred to the Technology Center Art Unit 2831 for examination in due course.

OFFICE OF PETITIONS

In re Application of :
Cole A. Giller and :
Jeffrey A. Fiedler : DECISION REFUSING STATUS
Application No. 12/397,881 : UNDER 37 CFR 1.47(b)
Filed: March 4, 2009 :
Atty Docket No. BHCS:1062 :

This is a decision on the "PETITION UNDER 37 CFR §1.47" filed September 21, 2009.

The petition is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

The above-identified application was filed on March 4. 2009, without an executed oath or declaration. Accordingly, on March 19, 2009, a "Notice to File Missing Parts of Nonprovisional Application," was mailed, requiring an executed oath or declaration and payment of the surcharge for late filing under § 1.16(e). This Notice set a two-month period for reply, with extensions of time obtainable under § 1.136(a). On September 21, 2009, rule 47 applicants timely filed the instant petition, along with payment of the extension fee, petition fee and the late surcharge.

A grantable petition under 37 CFR 1.47(b) requires:

> (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; (4) a statement of the last known address of the non-signing inventor; (5) proof of proprietary interest, and (6) proof of irreparable damage.

Application lacks items (1) and (2).

Petitioner has failed to establish that the non-signing inventors received a complete copy of the application papers (specification, including claims, drawings, and oath or declaration) and thereafter refused to execute an oath or declaration, or, that the non-signing inventors cannot be reached or located for presentation of the application papers.

Petitioner indicates that diligent efforts were made to secure the execution of the Oath/Declaration by the non-signing inventors via e-mail, but that the non-signing inventors did not thereafter execute the declaration.

Petitioner is reminded that before a refusal to sign an oath or declaration can be alleged, it must be demonstrated that a *bona fide* effort has been made to present a complete copy of the application papers (specification, including claims, drawings, and oath or declaration) to the non-signing inventors at the non-signing inventors' last know address.

Rule 47 applicants have not submitted adequate proof that joint inventors Giller and Fiedler have refused to join in the application. Refusal by an inventor cannot be inferred as the evidence submitted indicates that the application papers were not delivered to the inventors at their last known addresses, but rather e-mail communications were sent. Unless petitioner can show that a copy of the application papers was presented to the non-signing inventors, then petitioner will have to mail a copy of the complete application papers (specification, claims and drawings) to joint inventors Giller and Fiedler at their last known addresses, typically a residential address, return receipt requested. A cover letter of instructions should accompany the mailing of the application papers setting a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends

support to a finding of refusal by conduct. **The proof of the pertinent events should be made by a statement of someone with firsthand knowledge of the events and should include documentary evidence, such as certified mail return receipt, cover letter of instructions, telegram, etc.** *See* MPEP 409.03(d).

To the extent that petitioner continues to communicate with the inventors via e-mail, any renewed petition must be accompanied by evidence which sufficiently establishes that the copy of the application papers forwarded to the inventor via e-mail was in a form that could be read and comprehended by the intended recipient. Typically a non-signing inventor would indicate receipt of the e-mail and referenced attachments via return e-mail in a 37 CFR 1.47(a) scenario.

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration **by the party to whom the refusal was made.** Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the rule 47 applicant that an omitted inventors' conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted.

Whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration.

As to item (2), an oath or declaration for the patent application in compliance with 37 CFR 1.63 and 1.64 still has not been presented. A signed declaration in compliance with 37 CFR 1.63 and 1.64 must be made by the 37 CFR 1.47(b) applicant. Where a corporation is the 37 CFR 1.47(b) applicant, an officer (President, Vice-President, Secretary or Treasurer) may sign the oath or declaration. Where an oath or declaration is being signed on behalf of an assignee, note MPEP Section 324, which, however, presupposes that an executed assignment by the inventor has been recorded, or submitted for recordation.

DALLAS, TX 75234

In re Application of :
Cole A. Giller and : DECISION REFUSING STATUS
Jeffrey A. Biedler : UNDER 37 CFR 1.47(a)
Application No.: 12/397,881 :
Filed: March 4, 2009 :
Docket No.: BHCS:1062 :

This is a decision in response to the renewed petition filed February 2, 2010, which is properly being treated under the provisions of 37 CFR 1.47(a).

The petition is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Extensions of time may be obtained in accordance with 37 CFR 1.136(a).

The application was filed on March 4, 2009, without an executed oath or declaration. In response to a Notice to File Missing Parts of Nonprovisional Application mailed March 19, 2009, a petition under the provisions of 37 CFR 1.47(b) was filed; however, the petition was dismissed in a decision mailed December 3, 2009. On February 2, 2010, the present petition was filed.

The renewed petition includes a declaration signed by joint inventor Jeffrey A. Fiedler on behalf of himself and joint inventor Cole A. Giller. Petitioner indicates that joint inventor could not be reached after diligent efforts were made. Petitioner explains that a communication was mailed to the non-

signing inventors on January 7, 2010, resulting in a declaration signed by joint inventor Fiedler on January 27, 2010. Petitioner indicates that the communication to joint inventor Giller was returned as undeliverable. However, since a forwarding address was provided, a second attempt to contact Mr. Gillner was made using the new address on January 20, 2010. Copies of the communications were provided as Exhibits B and C. Finally Exhibit D, a facsimile transmission on February 3, 2010 was submitted.

A review of Exhibits B, C and D fail to disclose whether or not complete application papers (specification, including claims, drawings, and oath or declaration) were sent, since the exhibits only make reference to the Oath and Declaration. Further it is noted that a return receipt was not requested as suggested earlier. Before a *bona fide* refusal to sign the declaration can be alleged, petitioners must show that a copy of the complete application (specification, including claims, drawings, and oath or declaration) was sent (preferably return receipt requested) or given to the inventor. If the inventor refuses in writing, petitioners must submit a copy of that written refusal with any renewed petition. If the refusal was made orally to a person, then that person must provide details of the refusal in an affidavit or declaration of facts.

If repeated attempts to contact the non-signing inventor are unsuccessful, petitioners will have demonstrated that the inventors cannot be reached, despite diligent efforts, or have refused to sign the declaration.

Further correspondence with respect to this matter should be delivered through one of the following mediums:

Application No. 12/397,881	:	UNDER 37 CFR 1.47(a)
Filed: March 4, 2009	:	
Attorney Docket No.: BHCS:1062	:	

This is in response to the renewed petition under 37 CFR 1.47(a), filed April 20, 2010.

The petition is **GRANTED.**

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

Petitioner has shown that the non-signing inventor, Cole A. Giller, has refused to join in the filing of the above-identified application.

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

The application is being referred to the Office of Patent Application Processing (OPAP) for further processing.

Telephone inquires related to this decision should be directed to the undersigned at (571) 272-3204. Telephone inquiries related to processing at OPAP should be directed to their hotline at (571) 272-4000.

OFFICE OF PETITIONS

In re Application of :
Cole A. Giller and Jeffrey A. Fiedler :
Application No. 12/397,881 :
Filed: March 4, 2009 :
Title: SYSTEM AND METHOD FOR PRE-PLANNING A RADIATION TREATMENT :

LETTER

Dear Mr. Giller:

You are named as a joint inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(b), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to (571) 272-3204. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington, DC area).

Atty. Docket No.: SUTOSH.356AUS
For: INFORMATION PROCESSING APPARATUS AND ERROR CORRECTION METHOD

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed August 20, 2009, to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the JPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
Roger T. YOUNG	:	
Application No. 12/398,007	:	DECISION ON PETITION
Filed: March 4, 2009	:	TO MAKE SPECIAL UNDER
Attorney Docket No. USPA-0515	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 4, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement made by registered attorney Jay R. Hamilton, which will be treated as the result of the attorney having evidence that the applicant is at least 65 years of age. In the event that such evidence is not with the attorney, the Office should be notified immediately. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to undersigned at 571-272-6735.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center at 571-272-3700.

The application is being forwarded to Technology Center Art Unit 3725 for action on the merits commensurate with this decision.

In re Application of:	:	
PUMM, Kevin M.	:	DECISION ON PETITION TO
Serial No.: 12/398,024	:	MAKE SPECIAL FOR NEW
Filed: March 4, 2009	:	APPLICATION UNDER 37
Attorney Docket No.: Kpumm01	:	C.F.R. § 1.102 & M.P.E.P. § 708.2
Title: ILLUMINATED KEY CASING ASSEMBLY	:	

This is a decision on the petition filed on March 4, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:
1. be filed with the application;

REVIEW OF FACTS

The conditions regarding the application (section I, subsections 1-4) discussed above are considered to have been met. Additionally, the conditions regarding the petition (section II, subsections 1-5) are considered to have been met. However, the petition fails to comply with the all the conditions set forth in section II, subsection 6. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirements of section II, subsection 6, the support document supplied by petitioner does not satisfy the requirements set forth in subsections 6.2, 6.3 and 6.5. The petition fails to identify all of the limitations in the application claims that are disclosed in the references and where the limitations are disclosed in the cited references. A grantable petition requires an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. More specifically, each reference on the IDS should be discussed indicating what it discloses with respect to each of the claim limitations followed by a detailed description of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c). 37 CFR 1.111(c) states in part that "the applicant or patent owner must clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited." The support document fails to discuss the limitations of claim 20. Each reference should be discussed indicating what it does disclose and then a detailed description of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c). For these reasons, the petition does not meet the requirement of subsection 6.2.

Regarding the requirements of section II, subsection 6.3 outlined above, petitioner does not specifically point out the particular language of the claims that distinguishes over the references. The petition fails to provide a detailed explanation of how each of the claims are patentable over each of the references with particularity required by 37 CFR 1.111(b) and (c) and not merely state that the references do not disclose the claim limitations. 37 CFR § 1.111 (b) states "[a] general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section." 37 CFR § 1.111 (c) states in part "the applicant or patent owner must clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made." For example, with respect to the Hung (US 5,541,817) reference, petitioner does not specifically point out the particular language of the claims that distinguishes over the reference nor provide a detailed explanation of how each of the claims are patentable over the reference with particularity.[1] For these reasons, the petition does not meet the requirement of subsection 6.3.

Regarding the requirements of section II, subsection 6.5 outlined above, petitioner does not specifically show where ***each limitation*** (italics added) of the claims finds support under 35 USC 112, first paragraph in the written description of the specification. The support document simply states support in the disclosure under 35 USC 112, first paragraph, is found at least in figures 1-7

[1] It appears that the reference cited as Hung in section 9(B) is in error.

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner; and

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation; and

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists; and

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

of the application. It does not specifically mention any claim limitation and specifically where support for each claim imitation can be found.

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petition is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiries regarding this decision should be directed to Quality Assurance Specialist Jose' G. Dees at (571) 272-1569.

In re Application of: PUMM, Kevin M. Serial No.: 12/398,024 Filed: March 4, 2009 Title: ILLUMINATED KEY CASING ASSEMBLY	: : : : : : :	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the request for reconsideration of the petition to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d) filed April 17, 2009. The petition to make special under 37 C.F.R. § 1.102(d) was dismissed on April 10, 2009.

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Quality Assurance Specialist Jose' G. Dees at (571) 272-1569.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed August 17, 2009, to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the JPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☐ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☑ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

In re application of
Charles W. Darling III
Application No. 12/398,267
Filed: March 5, 2009
For: CLAMP ASSEMBLY

: **DECISION ON PETITION**
: **TO MAKE SPECIAL FOR**
: **NEW APPLICATION**
: **UNDER 37 CFR 1.102**

This is a decision on the petition filed on March 5, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition fails to comply with condition I.3, above.

Because the application was filed with a preliminary amendment present on the filing date of the application, the application is considered to be incomplete for examination. See MPEP 708.02(a)(VIII)(C)(11).

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure. Given the above failure of filing a complete application, which cannot now be remedied, the petition has not been further reviewed on the merits.

DECISION

For the above-stated reasons, the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn. Further petitions for accelerated examination in this application will not be entertained.

Any inquiry regarding this decision should be directed to Steven N. Meyers, Quality Assurance Specialist, at (571) 272-6611.

SPE RESPONSE FOR CERTIFICATE OF CORRECTION

Paper No.: _____

DATE : 01/13/10

TO SPE OF : ART UNIT 2611

SUBJECT : Request for Certificate of Correction for Appl. No.: 12398344 Patent No.: 7616681

Please respond to this request for a certificate of correction within 7 days.

FOR IFW FILES:

Please review the requested changes/corrections as shown in the **COCIN** document(s) in the IFW application im age. No new matter should be introduced, nor should the scope or meaning of the claims be changed.

Please complete the response (see below) and forward the completed response to scanning using document code **COCX**.

FOR PAPER FILES:

Please review the requested changes/corrections as shown in the attached certificate of correction. Please complete this form (see below) and forward it with the file to:

Certificates of Correction Branch (C of C)
Randolph Square 9D40-D
Palm Location 7580
You can fax the Directors/SPE response to 571-270-9990

Lamonte Newsome
Certificates of Correction Branch
703-756-1574

Thank You For Your Assistance

The request for issuing the above-identified correction(s) is hereby:

Note your decision on the appropriate box.

☒ **Approved** — **All** changes apply.

☐ **Approved in Part** — Specify below which changes **do not** apply.

☐ **Denied** — State the reasons for denial below.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed November 25, 2009 to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the JPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

It is noted that the "means plus function" format of the Japanese claims have been replaced by terms such as "module". It is understood that the "means plus function" format does not invoke special interpretation of the claim language in the Japanese Patent system, as it does in the United States Patent system under 35 USC 112 sixth paragraph. Hence the claims of the U.S> application are found to be sufficiently correspond in scope to the allowed claims of the Japanese application.

Accordingly, the petition is **GRANTED.**

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed ~~October 06,~~ November 25, 2009 to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the JPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The petition is **GRANTED.**

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of :
John L. Parker :
Application No. 12/398,539 : ON PETITION
Deposited: March 5, 2009 :
Attorney Docket No. 22409-00487-US :

This is in response to the "PETITION TO ADD INADVERTENTLY OMITTED MATERIALS UNDER 37 CFR 1.57(a)", filed May 19, 2009, requesting that the above referenced application be accorded a filing date of March 5, 2009. This petition is being treated pursuant to 37 CFR 1.53(e)(2)[1].

The petition is **DISMISSED**.

Application papers in the above-identified application were deposited on March 5, 2009. However, on March 19, 2009, the Office of Patent Application Processing mailed applicant a "Notice of Incomplete Nonprovisional Application," notifying applicant that the application papers had not been accorded a filing date because the application was deposited without drawings. In addition, the Notice informed applicants that the oath or declaration was missing. Applicant requests that the application be accorded the filing date of March 5, 2009.

Petitioner's arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one method claim. MPEP 601.01(f) provides that:

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in MPEP 601.01(g) under the section entitled, "Application Entitled to a Filing Date," applicant may not submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [i]f an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application[.]

The claim for benefit to application 12/398,586 was not filed until May 19, 2009, which is later than March 5, 2009. While applicant is entitled to the benefit claim, applicant cannot use it as an implicit incorporation by reference under 37 CFR 1.57(a).

Furthermore, the Preliminary Amendment, submitted with the instant petition, is not acceptable as drafted because it improperly incorporates by reference the prior-filed applications. In order for the incorporation by reference statement to be effective as a proper safeguard against the omission of a portion of a prior application, the incorporation by reference statement must be included in the specification as filed, or in an amendment specifically referred to in an oath or declaration executing the application. See In re deSeversky, 474 F. 2d 671, 177 USPQ 144 (CCPA 1973).

It is suggested that petitioner file a continuation of the present application. Appropriate benefit claims may be made once the continuation is filed. Applicant may consider seeking a refund of the search and examination fees for the current application using the appropriate mechanism.

Telephone inquiries concerning this matter may be directed to Petitions Attorney Cliff Congo at (571) 272-3207.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed ~~October 06,~~ November 25, 2009 to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the JPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The petition is **GRANTED.**

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Application No. 12/398,556
Filed: March 05, 2009
For: Electronic device with serial ATA interface and power saving method for serial ATA buses.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed November 25, 2009 to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the JPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

It is noted that the "means plus function" format of the Japanese claims have been replaced by terms such as "module". It is understood that the "means plus function" format does not invoke special interpretation of the claim language in the Japanese Patent system, as it does in the United States Patent system under 35 USC 112 sixth paragraph. Hence the claims of the U.S> application are found to be sufficiently correspond in scope to the allowed claims of the Japanese application.

Accordingly, the petition is **GRANTED.**

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of :
James B. PLUNKETT, et al :
Application No. 12/398,561 : DECISION ON PETITION
Filed: March 5, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No. PLUN-0001-UT1 : 37 CFR 1.102(c)(1)
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 5, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **DISMISSED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age, must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required.

The petition cannot be granted because Applicant Lucille Plunkett has not signed the statement showing that she is at least 65 years of age or older.

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14).

Further correspondence with respect to this matter should be addressed as follows:

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed January 08, 2010 to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the JPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The petition is **GRANTED.**

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of :
Srinivasan, et al. :
Application No. 12/398,574 : ON PETITION
Deposited: March 5, 2009 :
Attorney Docket No. P72488US1 :

This is in response to the "PETITION UNDER 37 CFR 1.53 and/or 37 CFR 1.182 TO CHANGE FILING DATE", filed May 26, 2009, requesting that the above-referenced application be accorded a filing date of March 5, 2009. This petition is being treated pursuant to 37 CFR 1.53(e)(2)[1].

Application papers in the above-identified application were deposited on March 5, 2009. However, on March 20, 2009, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings. Applicants request that the application be accorded the filing date of March 5, 2009.

Petitioner's arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one method claim. MPEP 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in MPEP 601.01(g) under the section entitled, "Application Entitled to a Filing Date," applicant may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [i]f an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application[.]

Receipt of the 4 sheets of drawings and the Preliminary Amendments filed April 17, 2009, seeking their entry, is acknowledged.

To the extent the instant petition requests a filing date of March 5, 2009 with no drawings present in the application on filing, the petition is **GRANTED**.

Given the basis for granting this petition, no petition fee was required, and none has been charged.

Pursuant to this decision, the application will be referred to Office of Patent Application Processing for:

- **correction of the filing date to March 5, 2009**;
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **for issuance of a filing receipt.**

Telephone inquiries concerning this matter may be directed to Petitions Attorney Cliff Congo at (571) 272-3207.

In re application of	:	**DECISION ON PETITION**
Alexander Walker	:	**TO MAKE SPECIAL FOR**
Application No. 12/398,575	:	**NEW APPLICATION**
Filed: March 05, 2009	:	**UNDER 37 CFR 1.102**

For: SYSTEM AND METHOD FOR EARLY IDENTIFICATION OF SAFETY CONCERNS OF NEW DRUGS

This is a decision on the petition filed on March 05, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration

under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition in this case fails to comply with conditions II.5, II.5.1, II.5.2, and II.6.5.

As per Condition II.5, the pre-examination search must indicate the date on which the search was conducted, and the date must be reasonably current and should not have too large of a time gap between when the search was conducted to when the petition was filed. With respect to all of the searches that were conducted by the applicant, the dates are too old and not reasonably current to ensure that recently published or issued prior art was considered. All of the searches were conducted on April 23, 2008. The instant petition was filed on March 05 of 2009. That is a gap of about 10 months, which is considered to be too large of a gap. The search date is not considered to be recent enough to comply with condition II.5.

As per Condition II.5.1 and II.5.2, the database search does not include all relevant NPL resources. Applicant has searched a few NPL resources but not nearly enough to be considered a compliant search. Condition II.5.1 requires that the search involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with a statement. No such statement has been provided regarding other NPL database resources that have not been searched. Applicant did not search most of the resources required by the search template for 705/2. Applicant is reminded that search templates, specific to each class/subclass may be found at http://www.uspto.gov/web/patents/searchtemplates/. For example, the instant application is best classified in 705/2. Looking at the available search template and recommended search areas for 705/2, some relevant search areas that applicant has not searched would include a search of the following:

It is suggested that applicant search the relevant NPL database resources that are listed above.

As per condition II.5.2, the pre-examination search must be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation.

With respect to the text searches in an overall sense, and also specifically with respect to the Dialog search and the text search of US and foreign patent document resources, they are not found to be using sufficient synonyms and do not appear to be searching for the concept claimed in claims 1 and 4, and do not appear to be searching for that which has been argued by applicant in the examination support document.

With respect to the Dialog search as an example, it is not seen as being focused on the claimed invention and is not searching specifically for the feature that applicant has argued as rendering the claims patentable. The search is not focusing on what is claimed and is including terms in the search that are not found in the claims; therefore, in that sense they are too narrow because they include terms that do not relate to what is actually claimed. Applicant has argued that the feature of displaying a new drug/comparator drug pairing in combination with each drug being added to the database when a threshold number of

healthcare claims for the new drug have been received, where the new drug has similar indications, renders claims 1 and 4 patentable. The search conducted by applicant does not appear to search for this feature and does not include any terms that relate to what has been argued. As far as the use of synonyms goes, the search is using very few of them. For the term "database", it is suggested that applicant also consider using terms such as "repository or registry or storage device or storage medium or storage apparatus or hard drive or memory". These terms also describe what a database is and should be considered for use. With respect to the searched "drug", applicant should consider using terms such as "medicine or medicament or prescription or rx", which also refer to a drug. None of the search strings include terms that relate to a "threshold" and/or that relate to medical claims (which from the specification can be prescriptions for a new drug). It is suggested that applicant use the terms of "threshold" and appropriate synonyms along with terms that describe a claim (which can be a prescription). As far as reciting that there is a new drug, applicant should consider using the terms "new or experimental or trial" to assist in focusing the search on a "new" drug, which may be a trial or experimental drug. The suggestions made for the Dialog search are also applicable to the other database resources, so applicant is encouraged to incorporate those suggestions into all of their searches as far as focusing the search on what is claimed, using sufficient synonyms, and searching what has been argued by applicant as being patentable.

As an example, to ensure that the search focuses on the main concept claimed, a recommended search might be executed in all databases of East with the following search query:

L1: (database or repository or registry or (storage with (medium or device or apparatus)) or hard adj1 drive or memory) same (drug or medicin$ or medicament or prescription or rx) same (compar$ or pair$) same (new or trial or experimental) and (drug or medicin$ or medicament or prescription or rx) same (add$3 or additional or list$3 or plac$3 or enter$3 or updat$3) same (threshold or certain adj1 number or limit or trigger)

Please keep in mind that these are non-limiting search suggestions and they are only meant to serve as a possible starting point for Applicant's preexamination search. Additional guidance regarding the proper manner of performing and documenting a preexamination search may be found on the following web site: http://www.uspto.gov/web/patents/accelerated/ Applicant is expected to perform more supplemental searches than the sample search queries listed above.

With respect to condition II.6.5, applicant is required to show where support can be found under 112,1st for what is claimed in the instantly filed specification. Applicant has done this for the parent case (11377628) and for the provisional application (60674958), but applicant has failed to do this for the instantly filed specification that accompanied the petition for accelerated examination. This is not in compliance with condition II.6.5.

The petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within one (1) month or thirty (30) days, whichever is longer, from the date of this decision. No extensions of time will be granted under 37 CFR 1.136(a) if the request is to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Robert Weinhardt, Business Practice Specialist, at (571) 272-6633; or Dennis Ruhl, Primary Examiner, at 571-272-6808.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed November 25, 2009 to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the JPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the JPO, or

(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the JPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the JPO application that contains the allowable/patentable claims and the JPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The petition is **GRANTED.**

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Attorney Docket No. 4124-PAT

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 04-AUG-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

In re Application of	:	
Le et al.	:	DECISION ON PETITION
Application No. 12/398,863	:	TO MAKE SPECIAL UNDER
Filed: 3/5/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **013648/USA/SBG/SOLAR-TF/A**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 12/10/2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition

must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1795 for action on the merits commensurate with this decision.

Attorney Docket No. 025546-9002-US01	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed February 2, 2010.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office requires the practitioner(s) requesting withdrawal to certify that he, she, or they have: (1) given reasonable notice to the client, prior to the expiration of the response period, that the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any responses that may be due and the time frame within which the client must respond, pursuant 37 CFR 10.40(c).

The request was signed by Teresa J. Welch on behalf of the attorneys of record associated with Customer No. 23510.

The attorneys of record associated with Customer No. 23510 have been withdrawn.

Applicant is reminded that there is no attorney of record at this time.

The correspondence address of record has been changed and the new correspondence address is the address first indicated below until otherwise properly notified.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6735.

In re Application of	:	
Sun JUN et al.	:	DECISION ON PETITION
Application No.12/398996	:	TO MAKE SPECIAL UNDER
Filed: March 5, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 066662-0211	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed February 5th, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition

must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1–9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Manjunath Rao at 571-272-0939.

The application is being forwarded to the Technology Center Art Unit 1632 for action on the merits commensurate with this decision.

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

The application as filed is not eligible for the accelerated examination under 37 C.F.R. § 1.102(d) because it was not complete under 37 CFR 1.51 and in condition for examination at the time of filing. The mailing of a Notice to File Corrected Application Papers on March 10, 2009 is evidence that the application was not complete and in condition for examination at the time of filing.

Note that the policy as published in the Federal Register on June 26, 2006 as outlined on 36326, part VIII, conditions for examination, section (D) includes a specification in compliance with 37 CFR 1.52 at filing, and section (F) includes drawings in compliance with 37 CFR 1.84. As the specification as filed was not in compliance with 37 CFR 1.52 at filing, and the drawings as filed were not in compliance with 37 CFR 1.84 at filing, the application is not considered to be complete under 37 CFR 1.51 and not in condition for examination at the time of filing. Therefore, the application is ineligible for consideration under the accelerated examination program.

For the above-stated reasons, the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Program Examiner, at (571) 272-4828.

Applicant	: Tadahiko MATSUMOTO	: DECISION ON REQUEST FOR
Patent Number	: 7596009	: RECALCULATION of PATENT
Issue Date	: 09/29/2009	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/399,157	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 03/06/2009	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

Daniel D. Friel, Sr., et al. :
Application No. 12/399,176 : DECISION ON PETITION
Filed: March 6, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No. FRIEL-105A : 37 CFR 1.102(c)(1)
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 6, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **DISMISSED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age, must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required.

The instant petition does not include the identification of the applicant that is 65 years or greater. Further the petition cannot be granted because the petition is unsigned.

Further correspondence with respect to this matter should be addressed as follows:

Shafer, James, Rath, and Eubank : DECISION ACCORDING STATUS
Application No. 12/399,242 : UNDER 37 CFR 1.47(a)
Filed: March 6, 2009 :
Attorney Docket No. **40605.0001USI2** :
For: **WASTE WATER TREATMENT METHOD**

This is in response to the petition under 37 CFR 1.47(a), filed May 20, 2009.

The petition is **GRANTED**.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

The above-identified application was filed on March 6, 2009, without a proper oath or declaration. Accordingly, a "Notice to File Missing Parts of Nonprovisional Application" was mailed on March 20, 2009, requiring an executed oath or declaration and a surcharge for the late filing of the oath or declaration. The instant petition was filed on May 20, 2009.

Petitioner has shown that inventor James has refused to join the prosecution of the application. The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application will be forwarded to the Office of Patent Application Processing for further processing.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3222.

WASHINGTON DC 20001-4413

In re Application of	:	
IWATA et al.	:	**DECISION ON REQUEST TO**
Application No. 12/399,451	:	**PARTICIPATE IN PATENT**
Filed: 06 March 2009	:	**PROSECUTION HIGHWAY**
Attorney Docket No. 04329-4458	:	**PROGRAM AND PETITION**
For: DEMODULATOR	:	**TO MAKE SPECIAL UNDER**
	:	**37 CFR 1.102(d)**

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed 15 October 2009, to make the above-identified application special.

The request and petition are **DISMISSED**.

A grantable request to participate in the PPH program and petition to make special require:

1. The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO, note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;

2. Applicant must submit a copy of:
   a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
   b. An English translation of the allowable/patentable claim(s) and
   c. A statement that the English translation is accurate;

3. Applicant must
    a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
    b. Submit a claims correspondence table in English;

4. Examination of the U.S. application has not begun;

5. Applicant must submit:
    a. Documentation of prior office action:
        i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
        ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
        iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;

    Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
    b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above
    c. A statement that the English translation is accurate;

6. Applicant must submit:
    a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
    b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

7. The required petition fee under 37 CFR 1.17(h).

Conditions (1), (2), and (4)-(7) above are considered to have been met. However, the request to participate in the PPH pilot program and petition fails meet condition (3).

Regarding the requirement of condition (3), the claims of the instant application do not substantially correspond to the claims of JPO application. Specifically, claims 7 and 16 of the instant application do not contain the limitation of "only" the direct current voltage being applied which is required by the claims of the JPO application.

A proper response in this case must include:

(a) an amendment to the claims to the instant application to make them substantially correspond to the claims of the JPO application or cancellation of the claims.

NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED. If the deficiencies are not corrected with the time period given, the application will await action in its regular turn.

Response must be filed via the Electronic Filing System (EFS) with the Document Code PPH.REQUEST. Any preliminary amendments and IDS submitted with the PPH documents must be separately indexed as a preliminary amendment and IDS, respectively.

Telephone inquiries concerning this decision should be directed to Lee W. Young at 571-272-4549.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

Attorney Docket No. 04329-4458	:	**TO MAKE SPECIAL UNDER**
For: DEMODULATOR	:	**37 CFR 1.102(d)**

A decision dismissing the petition to make the above-identified application special for participation in the Patent Prosecution Highway (PPH) pilot program under 37 CFR 1.102(d), was mailed on November 27, 2009. The decision set a non-extendable time period of ONE MONTH or THIRTY DAYS, whichever is longer, from the mailing date to corrected deficiency/deficiencies in the petition.

As of February 09, 2010, neither a reply nor a renewed petition has been received. Accordingly, the application is no longer eligible for the Patent Prosecution Highway (PPH) program.

The application will remain in its regular status and will be taken up by the examiner for action in its regular turn.

Petitioner is reminded that a single opportunity to perfect the petition is given. Therefore, further petitions for participation in the Patent Prosecution Highway (PPH) pilot program in this application will not be entertained.

Response must be faxed to Michael Day at 571-273-1568.

Telephone inquiries concerning this decision should be directed to Michael Day at 571-272-1568.

In re Application of :
MCGUIRE ET AL. :
Application No. 12/399,481 :
Filed: March 6, 2009 :
Attorney Docket No. 2016.041 :

DECISION ON PETITION TO MAKE SPECIAL UNDER THE GREEN TECHNOLOGY PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed December 14, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

It is noted that on page 3 or the "PETITION FOR GREEN TECH PILOT FILED ELECTONICALLY with form PTO/SB/420" (hereinafter "PETITION"), petitioner has stated that he "has submitted the publication fee set forth in 37 CFR 1.18(d)." However, no publication fee was found to have accompanied the petition as is required by section I, paragraph (7) of the Notice. On page 4 of the "PETITION," the petitioner has authorized the charging of any fee deficiencies to a deposit account. Therefore, the $300.00 early publication fee under 37 CFR 1.18(d) has been charged to Deposit Account No. 13-0439.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Gay Ann Spahn at 571-272-8011.

All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 1797 for action on the merits commensurate with this decision.

Attorney Docket No. 2008-03-US

DECISION GRANTING STATUS
UNDER 37 CFR 1.47(a)

This is in response to the petition under 37 CFR 1.47(a), filed June 19, 2009.

The petition is **GRANTED.**

Petitioner has shown that the non-signing inventor has refused to join in the filing of the above-identified application.

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application is being referred to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3208.

In re Application of	:	
Joseph, et al.	:	
Application No. 12/399,558	:	DECISION ACCORDING STATUS
Filed: March 6, 2009	:	UNDER 37 CFR 1.47(a)
Attorney Docket No. 4607/0567-US0	:	

This is in response to the petition under 37 CFR 1.47(a), filed July 20, 2009.

The petition under 37 CFR 1.47(a) is **GRANTED**.

With the instant petition, Rule 47 applicant has established that a copy of the application papers was forwarded to counsel for inventor Yonithan Joseph. However, counself for Joseph stated in an e-mail that the inventor would not sign the declaration until compensation was agree to. Petitioner has included a copy of the e-mail as documentary evidence.

The above-identified application and papers have been reviewed and found to be in compliance with 37 CFR 1.47(a). Accordingly, the above-identified application is hereby accorded Rule 1.47(a) status. As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventors at the last known address provided in the petition. Notice of the filing of this application will also be published in the Official Gazette.

The matter is being forwarded to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries related to this decision may be directed to the undersigned at (571)272-3207.

Title: Jewelry Assembly

LETTER

Dear Mr. Joseph:

You are named as a joint inventor in the above-identified United States patent application filed under the provisions of 35 USC 116 (United States Code) and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a joint inventor, you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, agent of record would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to Petitions Attorney Cliff Congo at (571)272-3207. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (703) 308-9726 or 1-800-972-6382 (outside the Washington D.C. area).

Attorney Docket No.: VANB3006/JEK
Pub. No.: US 2009/0225097 A1
Pub. Date: September 10, 2009

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b) or (a), received on November 9, 2009, for the above-identified application.

The request is granted.

The corrected patent application publication will be published in due course, unless the patent issues before the application is republished.

Inquiries relating to this matter may be directed to Mark Polutta at (571) 272-7709.

In re Application of :
Tetsuhiro Yoshimoto :
Application No. 12/399,842 : DECISION ON PETITION
Filed: March 6, 2009 :
Attorney Docket No. 10056819US01 :

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed December 9, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Non-Provisional Application (Notice), mailed March 30, 2009. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned on May 31, 2009. A Notice of Abandonment was mailed December 7, 2009.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of an oath and declaration, with a surcharge fee of $130 (2) the petition fee of $1,620, and (3) a proper statement of unintentional delay. Accordingly the oath and declaration and fee are accepted as being unintentionally delayed.

Telephone inquiries should be directed to the Kimberly Inabinet at (571) 272-4618.

This application is being referred to the Office of Patent Application Processing for appropriate action in the normal course of business on the reply received March 27, 2009.

Application No. 12/399,854 : DECISION ON PETITION
Filed: March 6, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No. 079-26-008DV3 : 37 CFR 1.102(c)(1)
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed May 18, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement by the applicant that he is 65 years of age, or more. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Ron Abelson at 571-272-3165 or the undersigned at 571-272-7099.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 3644 for action on the merits commensurate with this decision.

In re Application of:
MATTHEWS et al :
Serial No.: 12/399,918 : DECISION
Filed: March 6, 2009 : ON
Docket: 339356US76CONT : Petition under
Title: PHARMACEUTICAL COMPOSITION : 37 CFR 1.102(d)

This is a decision on the petition filed on March 6, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

3. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

4. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

5. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

6. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

7. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

8. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

9. Final Disposition:
   The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Me, Special Program Examiner, at (571) 272-0562.

OFFICE OF PETITIONS

In re Application of
Kozy et al.
Application No. 12/399,959
Filed: March 8, 2009
Attorney Docket No. 04-0830A

DECISION REFUSING STATUS
UNDER 37 CFR 1.47(a)

This is in response to the petition under 37 CFR 1.47(a), filed March 8, 2009.

The petition is dismissed.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. Applicant lacks items (1), and (2) set forth above.

As to item (1), rule 47 applicant must demonstrate with documented evidence that an inventor refuses to join in the application after having been presented with the application papers (specification, claims, drawings and oath or declaration). There is no indication herein that joint inventor Nydegger was presented with a copy of the complete application papers for this application. If the joint inventor was not presented with a copy of the application papers for this application, then the joint inventors could not attest that they have "reviewed and understand the application papers" and could not execute the declaration they were requested to sign. Did the joint inventors receive a copy of the application papers? Unless petitioner can show that a copy of the application papers was presented to the joint inventors, then petitioner will have to mail a copy of the complete application papers (specification, claims and drawings) to the last known address of the joint inventors , return receipt requested. A cover letter of instructions should accompany the mailing of the application papers setting a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. **The proof of the pertinent events should be made by a statement of someone with**

firsthand knowledge of the events and should include documentary evidence, such as certified mail return receipt, cover letter of instructions, telegram, etc. *See* MPEP 409.03(d).

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration **by the party to whom the refusal was made.** Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the rule 47 applicant that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted.

Whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration.

To the extent petitioner seeks to use the declaration in parent application 11/044, 221 pursuant to 37 CFR 1.63(d), petitioner must clearly state that intent.

As to item (2), the signature block of inventor Schell contains non-initialed alterations to the declaration. Any changes made in ink in the application or oath prior to signing should be initialed and dated by the applicants prior to execution of the oath or declaration. Petitioner must submit either an executed declaration from Mr. Schell or a signed application data sheet pursuant to 37 CFR 1.63 (c)(1).

Attorney Docket No. 04-0830A

: DECISION ON PETITION
: UNDER 37 CFR 1.47(a)

Papers filed on March 31, 2009 in response to a "Decision Refusing Status Under 37 CFR 1.47(a)," mailed March 27, 2009, included a Declaration from parent application 11/044,221.

In light of petitioner's decision to utilize the fully executed declaration from parent application 11/044,221 pursuant to 37 CFR 1.63(d) the petition is **DISMISSED AS MOOT**.

This application does not have any Rule 1.47 status and no such status should appear on the record for this file. This application need not be returned to this Office for any further consideration under 37 CFR 1.47(a).

This application is being referred to the art unit 1792.

Telephone inquiries should be directed to the undersigned at (571) 272-3215.

OFFICE OF PETITIONS

In re Application of :
Acevedo-Aviles, et al. : DECISION ON PETITION
Application No. 12/400,084 :
Filed: March 9, 2009 :
Atty Docket No. AUS920040947US2 :

This is a decision on the "PETITION TO ACCORD A FILING DATE UNDER 37 CFR 1.57(a)," filed May 14, 2009, requesting that the above-referenced application be accorded a filing date of March 9, 2009.

The petition is **granted**.

Application papers in the above-identified application were filed on March 9, 2009. However, on March 19, 2009, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings, as required by 35 U.S.C. 113.

In response, applicants timely filed this petition. In which, applicants acknowledge inadvertently omitting the drawings from the parent application on submission of the instant continuation application. Applicants argued, however, that the filing date of March 9, 2009, should still be accorded pursuant to § 1.57(a)(3).

On September 21, 2004, § 1.57 was added to read, in pertinent part that:

> (a) Subject to the conditions and requirements of this paragraph, if all or a portion of the specification or drawing(s) is inadvertently omitted from an application, but the application contains … a claim under 1.78 for the benefit of a prior-filed provisional, nonprovisional or international application, that was present on the filing date of the application, and the inadvertently omitted portion of the specification or drawing(s) is completely contained in the prior-filed application, the claim under … § 1.78 shall also be considered an incorporation by reference of the prior-filed application as to the inadvertently omitted portion of the specification or drawing(s).
>
> (1) The application must be amended to include the inadvertently omitted portion of the specification or drawing(s) within any time period set by the Office, but in no case later than the close of prosecution as defined by § 1.114(b), or abandonment of the application, whichever occurs earlier;
>
> (3) If an application is not otherwise entitled to a filing date under § 1.53(b), the amendment must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f).

It is noted that the application as filed included a proper claim under 1.78 for the benefit of prior-filed application No. 11/136,657. Thus, pursuant to 1.57, the application as filed is considered to have incorporated by reference the prior filed application as to the inadvertently omitted drawings.

The instant petition includes an amendment adding the inadvertently omitted drawings, a copy of the prior-filed application, and an identification of where the inadvertently omitted drawings may be found in the prior-filed application, along with authorization to charge the necessary $400.00 petition fee. Deposit account no. 50-3157 was charged $400.00 on accounting date May 15, 2009.

In view of the incorporation by reference of the prior application, the drawings supplied on May 14, 2009, would not constitute new matter if it were a part of the original

disclosure of the prior application. Of course, the examiner is expected to compare the drawings supplied on May 14, 2009, to the drawings in prior application No. 11/136,657 in order to verify that they are accurate copies of the prior drawings and that they contain no new matter.

In view thereof, the petition is **GRANTED**.

The application is being forwarded to the Office of Patent Application Processing (OPAP) for **according of a filing date of March 9, 2009**, as a continuation application under 37 CFR 1.53(b) of prior application No. 11/136,657, including the drawings from the prior application supplied on May 14, 2009. Applicants will receive appropriate notifications regarding the fees owed, if any, and other information in due course from OPAP.

Telephone inquiries concerning this matter may be directed to Senior Petitions Attorney Shirene Willis Brantley at (571) 272-3230.

OFFICE OF PETITIONS

FOLEY & LARDNER LLP
150 EAST GILMAN STREET
P.O. BOX 1497
MADISON WI 53701-1497

In re Application of :
Hsu :
Application No. 12/400,127 : DECISION ON PETITION
Filed: March 9, 2009 : UNDER 37 CFR 1.78(a)(3)
Attorney Docket No. 088245-6511 :

This is a decision on the petition under 37 CFR 1.78(a)(3), filed February 9, 2010, to accept an unintentionally delayed claim under 35 U.S.C. § 120 for the benefit of priority to the prior-filed nonprovisional application set forth in the amendment and Application Data Sheet filed with the petition.

The petition is **GRANTED**.

A petition for acceptance of a claim for late priority under 37 CFR 1.78(a)(3) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after the expiration of the period specified in 37 CFR 1.78(a)(2)(ii). In addition, the petition under 37 CFR 1.78(a)(3) must be accompanied by:

(1) the reference required by 35 U.S.C. § 120 and 37 CFR 1.78(a)(2)(i) of the prior-filed application, unless previously submitted;
(2) the surcharge set forth in § 1.17(t); and
(3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2)(ii) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional.

All of the above requirements having been satisfied, the late claim for priority under 35 U.S.C. § 120 is accepted as being unintentionally delayed.

The granting of the petition to accept the delayed benefit claim to the prior-filed application under 37 CFR 1.78(a)(3) should not be construed as meaning that this application is entitled to the benefit of the prior-filed application. In order for this application to be entitled to the

benefit of the prior-filed application, all other requirements under 35 U.S.C. § 120 and 37 CFR 1.78(a)(1) and (a)(2) must be met. Similarly, the fact that the corrected Filing Receipt accompanying this decision on petition includes the prior-filed application should not be construed as meaning that applicant is entitled to the claim for benefit of priority to the prior-filed application noted thereon. Accordingly, the examiner will, in due course, consider this benefit claim and determine whether the application is entitled to the benefit of the earlier filing date.

A corrected Filing Receipt, which includes the priority claim to the prior-filed nonprovisional application, accompanies this decision on petition.

Any inquiries concerning this decision may be directed to the undersigned at (571) 272-3230. All other inquiries concerning either the examination procedures or status of the application should be directed to the Technology Center.

This application is being forwarded to Technology Center Art Unit 2628 for consideration by the examiner of applicant's entitlement to claim benefit of priority under 35 U.S.C. § 120 to the prior-filed application.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where

the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

May 13, 2009

In re application of Satoshi Shimooka et al Serial No. 12/400,188 Filed: March 9, 2009 For: MULTINARY OXYNITRIDE PHOSPHOR, AND LIGHT EMITTING DEVICE, IMAGE DISPLAY, ILLUMINATING DEVICE	:	DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d) to make the above-identified application special, filed March 9, 2009.

The request and petition are **DISMISSED**.

A grantable request to participate in the PPH pilot program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO, note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;

(2) Applicant must submit a copy of:

a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO to obtain a copy from DAS; however, if the USPTO is unable to obtain a copy from the DAS, the applicant will be required to submit a copy;
b. An English translation of the allowable/ patentable claim(s), if applicable; and
c. A statement that the English translation is accurate, if applicable;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s); and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claims(s) or
ii. if the allowable/patentable claim(s) are from "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form:
Further, if a copy of the documents from a or b is available via the Dossier Access System (DAS), applicant may request the USPO obtain a copy from the DAS; however, if the USPTO is unable to obtain a copy of the DAS, the applicant will be required to submit a copy;
b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above if applicable; and
c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of documents except U.S. patents or U.S. patent application publications (unless already submitted in this application); and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition fail because:

(1) The JPO application with similar claims (Japanese Patent Application No. 2007-023824) is not the same application from which the U.S. application claims priority (Japanese Patent Application Nos. 2006-026272 and 2006-302031) and applicant has not identified the relationship between the JPO application with similar claims and the JPO applications from which the U.S. application claims priority.

(3) All of the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s).

Claim 1 of Japanese Application 2007-023824 includes the following limitations that have been deleted from claim 1 of the present application: Claim 1 of the JP application

requires that the multinary oxynitride phosphor comprises a "crystal phase"; that M1 must include "at least Eu or Ce" and that L includes Si within the phrase "metal element".

(6) Applicant must submit:

c. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
d. Copies of documents except U.S. patents or U.S. patent application publications (unless already submitted in this application).

Specifically, the references cited by the JPO in the Decision to Grant a Patent have not been cited in an IDS. Also, copies of these documents have not been provided. Specifically, these references include JP 2005-200584, A; JP 2003-206481, A and JP 2005-281700.

Applicant is given a time period of **ONE MONTH OR THIRTY DAYS**, whichever is longer, from the mailing date of this decision to correct the deficiencies. **NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.** If the deficiencies are not corrected within the time period given, the application with await action in its regular turn.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

In re application of	:	DECISION ON REQUEST TO
Satoshi Shimooka et al	:	PARTICIPATE IN PATENT
Serial No. 12/400,188	:	PROSECUTION HIGHWAY
Filed: March 9, 2009	:	PROGRAM AND
For: MULTINARY OXYNITRIDE PHOSPHOR, AND LIGHT EMITTING DEVICE, IMAGE DISPLAY, ILLUMINATING DEVICE	:	PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the supplemental request to participate in the Patent Prosecution Highway (PPH) program filed June 12, 2009.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO, note where the JPO application with similar claims is not the same application from which the U.S. application claims priority that the applicant must identify the relationship between the JPO application with similar claims and the JPO priority application;

(2) Applicant must submit a copy of:
   a. The allowable/patentable claim(s) from the JPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO to obtain a copy from DAS; however, if the USPTO is unable to obtain a copy from the DAS, the applicant will be required to submit a copy;
   b. An English translation of the allowable/ patentable claim(s), if applicable; and
   c. A statement that the English translation is accurate, if applicable;

(3) Applicant must:
   a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s); and
   b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:

a. Documentation of prior office action:
   i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claims(s) or
   ii. if the allowable/patentable claim(s) are from "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
   iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form:
   Further, if a copy of the documents from a or b is available via the Dossier Access System (DAS), applicant may request the USPO obtain a copy from the DAS; however, if the USPTO is unable to obtain a copy of the DAS, the applicant will be required to submit a copy;
b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above if applicable; and
c. A statement that the English translation is accurate;

(6) Applicant must submit:

a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
b. Copies of documents except U.S. patents or U.S. patent application publications (unless already submitted in this application); and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

In re Application of	:	
Dudret et al.	:	DECISION NOTING JOINDER OF
Application No. 12/400,237	:	INVENTOR AND PETITION
Filed: 03/09/2009	:	UNDER 37 CFR 1.47(a) AS MOOT
Attorney Docket No. S-245	:	

This is in response to the petition under 37 CFR 1.47(a), filed June 22, 2009, and supplemented on July 1, 2009.

On July 1, 2009, before a decision was reached on the petition under 37 CFR 1.47(a), applicants submitted a declaration signed by all of the named inventors in the application. In view of the joinder of the inventors, further consideration under 37 CFR 1.47(a) is not necessary.

Accordingly, the petition is dismissed as involving a moot issue. This application does not have any Rule 1:47(a) status and no such status should appear on the file wrapper. This application does not need to be returned to the Office of Petitions for further consideration under 37 CFR 1.47(a).

The $200.00 petition fee is unnecessary and will be refunded in due course.

This application is being referred to Technology Center Art Unit 3653 for examination in due course.

Telephone inquiries should be directed to the undersigned at (571) 272-3211.

OFFICE OF PETITIONS

In re Application of :
Frances :
Application No. 12/400,314 : DECISION
Filed/Deposited: 9 March, 2009 :
Attorney Docket No. 0070681-000116 :

This is a decision on the petition filed 1 June, 2009, seeking to have accorded a filing date of 9 March, 2009, for the above-identified application based upon a showing that the omitted drawing/figures were present in the prior-filed co-pending provisional and international applications to which this application claimed benefit (under 37 C.F.R. §1.78 and §1.55) on deposit.

The petition is **DISMISSED**.

The instant application was deposited on 9 March, 2009.

On 30 March, 2009, the Office of Patent Application Processing (OPAP) mailed a Notice of Incomplete Nonprovisional Application, stating that the application had not been accorded a filing date because it had been deposited without drawing as required under 35 U.S.C. §113 (first sentence). The Office indicated that Petitioner could demonstrate on petition the presence of the drawings/figures by presentation of evidence of deposit (e.g., date-stamped receipt card, EFS Acknowledgement Receipt); or submit the drawings/figures and accept the date of submission as the filing date. The Office gave Petitioner two (2) months within which to reply.

On Monday, 1 June, 2009, Petitioner filed, *inter alia*, filed a petition pursuant to 37 C.F.R. §1.57 seeking a filing date of 9 March, 2009, for the application. Petitioner appears to have filed an amendment under the rule, and any determination as to that amendment will be made by the Examiner.

Petitioner's arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one method/process/composition claim. MPEP §601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. §113 (first sentence). The same practice has been followed in composition applications.

Thus, pursuant to §601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application.

The express incorporation by reference entitled Petitioner to file an amendment under 37 C.F.R. §1.57(b) to add the subject matter of the non-provisional application into the disclosure of this application. Please note that no petition is required for that purpose and that the amendment must comply with 37 C.F.R. §1.57(b) and 37 C.F.R. §1.121 (*See*: MPEP §201.06(c)(IV).) Any amendment to include the inadvertently omitted drawing(s) will be considered by the examiner.

The Petition fee is waived and is being refunded *via* deposit account. Should Petitioner later find that a petition fee was not refunded, Petitioner should request a refund from the Office of Finance and enclose therewith a copy of this decision.

Pursuant to this decision, the application will be referred to the Office of Patent Application Processing (OPAP) for:

- **correction of the filing date to 9 March, 2009**;
- **indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **issuance of a filing receipt.**

Telephone inquiries concerning this matter should be directed to John J Gillon, Jr., attorney, at (571) 272-3214. Inquiries regarding initial patent application processing should be directed to OPAP at (703) 308-9210.

In re Application of: Gabriele Frey-Ganzel, et al. Serial No: 12/400,347 Filed: March 09, 2009 Docket: DE920080133US1 (3063) Title: METHOD TO RESOLVE AMBIGUITIES FOR MONITORING AND AUTOMATING UNIX PROCESSES	DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 09, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:

To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Applicant is reminded that due to the dismissal of the previous petition, examination may not be completed within twelve months of the filing date of the application.

OFFICE OF PETITIONS

In re Application of :
Ballu, et al. :
Application No. 12/400,407 : ON PETITION
Deposited: March 9, 2009 :
Attorney Docket No. 0528-1299 :

This is in response to the "PETITION UNDER 37 CFR 1.57(A) TO ADD INADVERTENTLY OMITTED MATERIAL", filed May 26, 2009, requesting that the above-referenced application be accorded a filing date of March 9 2009. This petition is being treated pursuant to 37 CFR 1.53(e)(2)[1].

Application papers in the above-identified application were deposited on March 9 2009. However, on March 25 2009, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings. Applicants request that the application be accorded the filing date of March 9 2009.

Petitioner's arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one process claim. MPEP 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in MPEP 601.01(g) under the section entitled, "Application Entitled to a Filing Date," applicant may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [i]f an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application[.]

Receipt of the 3 sheets of drawings and the Preliminary Amendments filed May 26, 2009, seeking their entry, is acknowledged.

To the extent the instant petition requests a filing date of March 9, 2009 with no drawings present in the application on filing, the petition is **GRANTED**.

Given the basis for granting this petition, the $400 petition fee has been refunded to petitioner's credit card.

Pursuant to this decision, the application will be referred to Office of Patent Application Processing for:

- **correction of the filing date to March 9, 2009**;
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **for issuance of a filing receipt.**

Telephone inquiries concerning this matter may be directed to Petitions Attorney Cliff Congo at (571) 272-3207.

Attorney Docket No. 1709.002

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 09-MAR-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Application No. 12/400,422 :
Filed: March 9, 2009 :
Attorney Docket No. 1264.ADAP0003CIP8 :

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the request to withdraw as attorney of record under 37 CFR § 1.36, filed March 24, 2010.

The request is **NOT APPROVED**.

The request cannot be approved because it lacks a forwarding correspondence address of the first named inventor or a properly intervening assignee.

If the forwarding correspondence address is to the assignee, the Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *that properly became of record under 37 CFR 3.71.* 37 CFR 3.71(c) states:

> *An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.*

The assignee must establish its ownership of the patent to the satisfaction of the Director. In this regard, the statement under 37 CFR 3.73(b) must have either: (i) documentary evidence of a chain of title from the original owner to the assignee (*e.g.*, copy of an executed assignment), and a statement affirming that the documentary evidence of the chain of title from the original owner to the assignee was or concurrently is being submitted for recordation pursuant to § 3.11; or (ii) a statement specifying where documentary evidence of a chain of title from the original owner to the assignee is recorded in the assignment records of the Office (*e.g.*, reel and frame number).

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-2991.

OFFICE OF PETITIONS

In re Application of :
Acosta et al. :
Application No. 12/400457 :
Filing or 371(c) Date: 03/09/2009 :
Attorney Docket Number: : DECISION
8199 P1-NES : ON PETITION

This is a decision on the "Petition to be Accorded a Filing Date of March 9, 2009, and Petition to Accept Corrected Declaration Papers, both filed May 18, 2009. The Petition to be Accorded a Filing Date of March 9, 2009 is properly treated as a petition under 37 C.F.R. 1.53(e), and the Petition to Accept Corrected Declaration Papers is being treated as a response to the Notice of Incomplete Nonprovisional Application, mailed March 23, 2009.

The petition is granted to the extent indicated herein.

The application was filed on March 9, 2009. On March 23, 2009, the Office of Patent Application Processing mailed a Notice of Incomplete Nonprovisional Application (hereinafter "Notice"), informing Applicant that the application had NOT been accorded a filing date because the application had been deposited without drawings. The Notice also required a new oath/declaration.

Applicant responds with the present petition and avers that the drawing is not necessary for an understanding of the subject matter sought to be patented. Applicant includes a Preliminary Amendment which Applicant avers deletes all references to drawings in the specification.

A review of the file confirms that the specification contains method claims. As stated in MPEP § 601.01(f), it is the practice of the PTO to treat an application that contains at least one process, method or composition claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

MPEP § 601.01(f) also states that:

> A nonprovisional application having at least one claim, or a provisional application having at least some disclosure, directed to the subject matter discussed above for which a drawing is usually not considered essential for a filing date, describing drawing

figure(s) in the specification, but filed without drawings will be treated as an application filed without all of the drawing figures referred to in the specification as discussed in MPEP § 601.01(g), so long as the application contains something that can be construed as a written description.

This application contains method claims; therefore, the application should have been treated as an application filed without all of the drawing figures referred to in the specification as discussed in MPEP § 601.01(g).

In applications filed without all of the drawing figure(s) referred to in the specification, the MPEP § 601.01(g) states that a "Notice of Omitted Item(s)" is mailed indicating that the application has been accorded a filing date, but is lacking some of the figures of drawings described in the specification.

In view of the above, the Notice mailed March 23, 2009, was mailed in error and is hereby withdrawn.

Receipt of the amendment canceling the reference to the drawings, and of the oath/declaration are hereby acknowledged. The Examiner will address any issues of new matter.

This application is being referred to the Office of Patent Application Processing for further processing of the Response to the Notice of Incomplete Nonprovisional Application, including the oath/declaration, with the filing date of March 9, 2009, and an indication that no drawings were present or required on filing.

No petition fee has been charged and none is due.

Telephone inquiries concerning this Decision should be directed to the undersigned at (571-272-3232.

Suite 1000
Washington DC 20037

In re Application of	:	
Zach Axelrod et al.	:	
Application No. 12/400,511	:	DECISION ON PETITION
Filed: March 9, 2009	:	TO MAKE SPECIAL UNDER
Attorney Docket No. 036191.011200UT	:	37 CFR 1.102(c)(2)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(2), filed December 22, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102(c)(2) and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status i.e. the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 4 and 5.

In regard to item 4, the petition has no statement.

As to item 5, applicant must provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets the materiality standard.

MAR 2 4 2010

GREENBERG TRAURIG, LLP (DC/ORL)
2101 L Street, N.W.
Suite 1000
Washington DC 20037

In re Application of	:	
Zach AXELROD et al.	:	DECISION ON PETITION
Application No. 12/400,511	:	TO MAKE SPECIAL UNDER
Filed: March 09, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 036191.011200	:	PILOT PROGRAM

This is a decision on the petition for reconsideration under 37 CFR 1.102(c)(2), filed February 12, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DENIED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item 5.

In regard to item 5, petitioner should note that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. Petitioner suggests that the materiality standard can be gleaned from claim 1 which recites a step of transmitting over the network an offer for compensation to the load associated with the at least one of the demand bids, and compensating a consumer if the consumer does not consume energy related to demand bids, thereby incentivizing consumers to consume less energy. It is noted that petitioner's comments are merely a speculation on a consumer's behavior – not everyone is motivated by compensation. Compensation may be an incentive for some consumers to reduce his/her energy consumption, but not for other consumers. Some consumers will not change their energy usage no matter how good an offer of compensation is.

As stated in the notice, the materiality standard does not permit an applicant to speculate as to how a hypothetical end-user might specially apply the invention in a manner than could materially contribute to category (A) or (B). *Also see MPEP § 708.02 (VI).* Accordingly, it is unclear as to how the claimed invention would materially contribute to category (B), and it is not agreed that the application on its face meets that materiality standard.

Telephone inquiries concerning this decision should be directed to Lanna Mai at 571-272-6867.

The application is being forwarded to the Technology Center Art Unit 3693 for action in its regular turn.

OFFICE OF PETITIONS

In re Application of	:	
Whipple, et al.	:	
Application No. 12/400,514	:	DECISION ON PETITION
Filed: March 9, 2009	:	
Attorney Docket No. PPS-0901	:	

This is in response to the petition under 37 CFR 1.47(a), filed July 20, 2009.

The petition under 37 CFR 1.47(a) is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **Failure to respond will result in abandonment of the application.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor(s) cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 37 CFR 1.63; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor(s). The instant petition does not satisfy item (2).

Here, the declaration does not contain the mailing address of the inventors. Pursuant to 37 CFR 1.63(c)(1), the oath or declaration must contain the mailing address of each inventor, unless the address is provided in an Application Data Sheet. A review of the Application Data Sheet submitted on filing reveals that it does not contain the mailing address of each inventor.

Accordingly, on renewed petition, applicant must submit a proper 37 CFR 1.63 oath or declaration containing the mailing address of each inventor, or an Application Data Sheet.

Further correspondence with respect to this matter should be addressed as follows:

OFFICE OF PETITIONS

In re Application of	:	
Whipple, et al.	:	
Application No. 12/400,514	:	DECISION ON PETITION
Filed: March 9, 2009	:	
Attorney Docket No. PPS-0901	:	

This is in response to the renewed petition under 37 CFR 1.47(a), filed November 3, 2009.

The petition under 37 CFR 1.47(a) is **GRANTED**.

Applicant filed a petition under 37 CFR 1.47(a) on July 20, 2009. However, the petition was dismissed in a decision mailed on September 8, 2009. The petition was dismissed because the declaration did not contain the mailing address of the inventors, nor was the mailing address included in the Application Data Sheet that was submitted on filing.

On renewed petition, Rule 47 applicant has submitted an Application Data Sheet containing the mailing address of the inventors.

The above-identified application and papers have been reviewed and found to be in compliance with 37 CFR 1.47(a). Accordingly, the above-identified application is hereby accorded Rule 1.47(a) status. As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address provided in the declaration. Notice of the filing

of this application will also be published in the Official Gazette.

The application is being forwarded to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries related to this decision may be directed to the undersigned at (571)272-3207.

OFFICE OF PETITIONS

In re Application of :
Whipple, et al. :
Application No. 12/400,514 :
Filed: March 9, 2009 :
Title: Hierarchically Applied Rules Engine : LETTER

Dear Mr. Whipple:

You are named as a joint inventor in the above-identified United States patent application filed under the provisions of 35 USC 116 (United States Code) and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a joint inventor, you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, agent of record would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to Petitions Attorney Cliff Congo at (571)272-3207. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (703) 308-9726 or 1-800-972-6382 (outside the Washington D.C. area).

Applicant: Gummalla et al.
Appl. No.: 12/400,525
Filing Date: March 9, 2009
Title: ADVANCED ACTIVE METAMATERIAL ANTENNA SYSTEMS
Attorney Docket No.: 20784-0016001
Pub. No.: US 2009/0245146 A1
Pub. Date: October 1, 2009

This is a decision on the request for republication of patent application publication under 37 CFR 1.221(a), filed on November 25, 2009, for the above-identified application.

The request under 37 CFR 1.221(a) is DISMISSED.

37 CFR 1.221(a) requires "a copy of the application in compliance with the Office electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)". If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

The applicant did not supply a copy of the application in compliance with the Office electronic filing system, as required by 37 CFR 1.221(a) because the Applicant submitted the request in paper via the United States Postal Service, rather than via the USPTO electronic filing system. The request for republication does not comply with the electronic filing system requirements, thus republication will not take place.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a Pre-Grant publication submission and must include a copy of the application in compliance with the Office electronic filing system requirements. The applicant is directed to the following website for additional instructions on how to submit a Pre-Grant Publication submission via the electronic filing system:

In re Application of
Marsh, et al.
Application No. 12/400,618
Filed: 8 March, 2009
Attorney Docket No. 026199-002810US

DECISION ON PETITION

This is a decision on the petition filed on 23 October, 2009, under 37 C.F.R. §1.47.

The petition as considered under 37 C.F.R. §1.47(a) is **DISMISSED**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Pursuant to 37 C.F.R. §1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 C.F.R. §1.136(a).

This is **not** a final agency action within the meaning of 5 U.S.C. §704.

A grantable petition under 37 C.F.R. §1.47(a) requires: (1) petition and fee; (2) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification: description, claims and drawings); (3) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; and (4) a statement of the last known address of the non-signing inventor(s)—with diligence in the effort to ascertain the validity of the address set forth as the reasonably believed to be last known/current/valid address.

Petitioner does not seem to have worked through the requirements of the petition, as set forth above, in satisfaction of those requirements. (*See, generally:* MPEP §409.03, and §409.03(a)—the applicable statute (35 U.S.C.§ 116) requires that a "diligent effort" have been expended in attempting to find or reach the non-signing inventor to ensure transmittal to the non-signing

inventors a copy of the entire application (description, claims, abstract, drawings) with a copy of the transmittal letter) to the non-signing inventor(s).)

In particular, Petitioner, inter alia, has not as of this writing satisfied the showing and last know address requirements, as discussed below.

Petitioners always are reminded that for transmission by Email of any document to be accepted by the Office, written acknowledgment of receipt and readability will be required.

BACKGROUND

The record reflects as follows:

The application was deposited on 9 March, 2009, without, *inter alia*, a fully executed oath/declaration

On 23 March, 2009, the Office mailed a Notice of Missing Parts requiring, *inter alia*, a fully executed oath/declaration.

On 23 October, 2009, Petitioner Shane Hunter (Reg. No. 41,858) filed, *inter alia*, a petition (with fee) pursuant to 37 C.F.R. §1.47, with an oath/declaration executed by co-inventors Marsh, Gummandi, and Wengler for themselves and on behalf of non-signing inventor William Burchill (Mr. Burchilli), with an unclear statements as to the transmittal of the entire application to Mr. Burchill and as to his current/valid/reasonably believed to be last known address. Rather, Petitioner indicates two different addresses, and makes no showing as to what the result was for shipment to either address—leaving at question both the validity of address(es). The transmittal letters on 21 July, 2009, and 19 August, 2009, clearly evidence that only the oath/declaration and assignment Were sent to Mr. Burchill. The letters of 20 October, 2009, indicate the application finally was included as well, however, there is no indication that either letter was sent to and delivered/received at a reasonably believed to be valid/current/last known address for Mr. Burchill. Moreover, there is no showing that a diligent effort was made by Petitioner to ascertain the validity of that address presented as the last known address.

Petitioner must resolve these matters on any renewed petition and is reminded that a grantable petition under 37 C.F.R. §1.47(a) requires: (1) petition and fee; (2) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification: description, claims and drawings); (3) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; and (4) a statement of the last known address of the non-signing inventor(s)—with diligence in the effort to ascertain the validity of the address set forth as the reasonably believed to be last known/current/valid address.

Petitioner must satisfy the requirements pursuant to the Rule and the guidance in the Commentary at MPEP §409.03, and §409.03(a) et seq.

Petitioners always are reminded that for transmission by Email of any document to be accepted by the Office, written acknowledgment of receipt and readability will be required.

Thus, the present incompleteness of the record makes granting of the instant petition inappropriate.

The availability of applications and application papers online to applicants/practitioners who diligently associate their Customer Number with the respective application(s) now provides an applicant/practitioner on-demand information as to events/transactions in an application. Thus, now if one wishes to know the progress in and/or status of an application or the accuracy of the data therein, one need only look at the file online.

Out of an abundance of caution, Petitioners always are reminded that those registered to practice *and* all others who make representations before the Office must inquire into the underlying facts of representations made to the Office and support averments with the appropriate documentation–since all owe to the Office the continuing duty to disclose.[1]

The instant petition under 37 C.F.R. §1.47(a) is **dismissed**.

This is a decision on the petition filed on 16 February, under 37 C.F.R. §1.47.

The petition as considered under 37 C.F.R. §1.47(a) is **DISMISSED**.

A grantable petition under 37 C.F.R. §1.47(a) requires: (1) petition and fee; (2) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification: description, claims and drawings); (3) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; and (4) a statement of the last known address of the non-signing inventor(s)—with diligence in the effort to ascertain the validity of the address set forth as the reasonably believed to be last known/current/valid address.

Petitioners always are reminded that for transmission by Email of any document to be accepted by the Office, written acknowledgment of receipt and readability will be required.

BACKGROUND

The record reflects as follows:

The application was deposited on 9 March, 2009, without, *inter alia*, a fully executed oath/declaration

On 23 March, 2009, the Office mailed a Notice of Missing Parts requiring, *inter alia*, a fully executed oath/declaration.

On 23 October, 2009, Petitioner Shane Hunter (Reg. No. 41,858) filed, *inter alia*, a petition (with fee) pursuant to 37 C.F.R. §1.47, with an oath/declaration executed by co-inventors Marsh, Gummandi, and Wengler for themselves and on behalf of non-signing inventor William Burchill (Mr. Burchilli), with an unclear statements as to the transmittal of the entire application to Mr. Burchill and as to his current/valid/reasonably believed to be last known address. Rather, Petitioner indicates two different addresses, and makes no showing as to what the result was for shipment to either address—leaving at question both the validity of address(es). The transmittal letters on 21 July, 2009, and 19 August, 2009, clearly evidence that only the oath/declaration and assignment Were sent to Mr. Burchill. The letters of 20 October, 2009, indicate the application finally was included as well, however, there is no indication that either letter was sent to and delivered/received at a reasonably believed to be valid/current/last known address for Mr. Burchill. Moreover, there is no showing that a diligent effort was made by Petitioner to ascertain the validity of that address presented as the last known address. The petition was dismissed on 15 December, 2009.

On Tuesday, 16 February, 2010—the previous day having been a Federal holiday—Petitioner filed, *inter alia*, a renewed petition with an averment of the joinder of Mr Buchill in the oath/declaration, and Petitioner submitted a copy of the executed oath/declaration in compliance with 37 C.F.R. §1.63—and so evidencing his joinder.

The availability of applications and application papers online to applicants/practitioners who diligently associate their Customer Number with the respective application(s) now provides an applicant/practitioner on-demand information as to events/transactions in an application. Thus, now if one wishes to know the progress in and/or status of an application or the accuracy of the data therein, one need only look at the file online.

Out of an abundance of caution, Petitioners always are reminded that those registered to practice *and* all others who make representations before the Office must inquire into the underlying facts of representations made to the Office and support averments with the appropriate documentation–since all owe to the Office the continuing duty to disclose.[1]

CONCLUSION

The instant petition under 37 C.F.R. §1.47 is **dismissed as moot for joinder**.

In view of the joinder of the inventor, further consideration under 37 C.F.R. §1.47 is not necessary. This application does not have any Rule 1.47 status and no such status should appear

[1] See supplement of 17 June, 1999. The Patent and Trademark Office is relying on petitioner's duty of candor and good faith and accepting a statement made by Petitioner. See Changes to Patent Practice and Procedure, 62 Fed. Reg. at 53160 and 53178, 1203 Off. Gaz. Pat. Office at 88 and 103 (responses to comments 64 and 109)(applicant obligated under 37 C.F.R. §10.18 to inquire into the underlying facts and circumstances when providing statements to the Patent and Trademark Office). See specifically, the regulations at 37 C.F.R. §10.18.

on the record for this file. This application should not be returned to this Office for any further consideration under 37 C.F.R. §1.47.

The instant application is released to the Office of Patent Application Processing (OPAP) for further processing in due course.

While telephone inquiries regarding this decision may be directed to the undersigned at (571) 272-3214—it is noted, however, that all practice before the Office is in writing (see: 37 C.F.R. §1.2[2]) and the proper authority for action on any matter in this regard are the statutes (35 U.S.C.), regulations (37 C.F.R.) and the commentary on policy (MPEP). Therefore, no telephone discussion may be controlling or considered authority for Petitioner's action(s).

[2] The regulations at 37 C.F.R. §1.2 provide:

§1.2 Business to be transacted in writing.

All business with the Patent and Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

DECISION ON PETITION
TO WITHDRAW FROM
RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 CFR §§ 1.36(b) or 37 CFR 10.40, filed March 9, 2010.

The request is **NOT APPROVED**.

A review of the file record indicates that any previous power of attorney has been revoked by the assignee of the above application on June 2, 2010. Accordingly, the request to withdraw under 37 CFR §§ 1.36(b) or 10.40 is moot.

All future communications from the Office will be directed to the below-listed address until otherwise notified by applicant.

This application file is being referred to Technology Center Art Unit 2472 for examination in due course.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-3226.

:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 17-AUG-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Hector M. Coronado
Application No.: 12/400,759
Filing Date: March 9, 2009
Attorney Docket No. 377114.20200

ON PETITION

This is a decision on the petition under 37 CFR 1.137(a), filed on December 14, 2009, to revive the above-identified application.

The petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(a)" or "Renewed Petition under 37 CFR 1.137(b)." This is not a final agency decision.

This application became abandoned for failure to reply in a timely manner to the Notice to File Corrected Application Papers (Notice) mailed March 27, 2009. A Notice of Abandonment was mailed on December 7, 2009.

Petitioner asserts that the Notice mailed March 27, 2009, was never received

A grantable petition to revive an abandoned application under 37 CFR 1.137(a) must be accompanied by:

(1) the required reply, unless previously filed. In a nonprovisional application abandoned for failure to prosecute, the required reply may be met by the filing of a continuing application. In a nonprovisional application filed on or after June 8, 1995, and abandoned for failure to prosecute, the required reply may also be met by the filing of a request for continued examination in compliance with § 1.114. In an application or patent, abandoned or lapsed for failure to pay the issue fee or any portion thereof, the required reply must be the payment of the issue fee or

any outstanding balance thereof. In an application, abandoned for failure to pay the publication fee, the required reply must include payment of the publication fee;

(2) the petition fee as set forth in § 1.17(l);

(3) a showing to the satisfaction of the Director that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unavoidable; and

(4) any terminal disclaimer (and fee as set forth in § 1.20(d)) required pursuant to paragraph (c) of this section.

This petition lacks item (3) above.

As to item (3), the Office may revive an abandoned application if the delay in responding to the relevant outstanding office requirement is shown to the satisfaction of the Director to have been "avoidable." **See**, 37 CFR 1.137(a)(3). Decisions on reviving abandoned applications on the basis of "unavoidable" delay have adopted the reasonably prudent person standard in determining if the delay was unavoidable:

> The word 'unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present.[1]

A review of the written record indicates no irregularity in the mailing of the Office action, and, in the absence of any irregularity, there is a strong presumption that the Office action was properly mailed to the practitioner at the address of record. This presumption may be overcome by a showing that the Office action was not in fact received. In this regard, the showing required to establish the failure to receive the Office action must consist of the following:

---

[1] In re Mattullath, 38 App. D.C. 497, 514-15 (1912)(quoting Ex parte Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (1887)); see also Winkler v. Ladd, 221 F. Supp. 550, 552, 138 USPQ 666, 167-68 (D.D.C. 1963), aff'd, 143 USPQ 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913). In addition, decisions on revival are made on a "case-by-case basis, taking all the facts and circumstances into account."

1. a statement from practitioner stating that the Office action was not received by the practitioner;

2. a statement from the practitioner attesting to the fact that a search of the file jacket and docket records indicate that the Office action was not received;

3. a statement from the practitioner describing the system used for recording an Office action received at the correspondence address of record with the USPTO. The statement should establish that the docketing system is sufficiently reliable, and

4. a copy of the practitioner's record(s) required to show non-receipt of the Office action should include the master docket for the firm. That is, if a three month period for reply was set in the nonreceived Office action, a copy of the master docket report showing all replies docketed for a date three months from the mail date of the nonreceived Office action must be submitted as documentary proof of nonreceipt of the Office action. If no such master docket exists, the practitioner should so state.

Petitioner has failed to meet (4). A copy of a master docket or a statement that a master docket does not exist has not been provided. A copy of the practitioner's record(s) required to show non-receipt of the Office action should include the master docket for the firm. That is, if a three month period for reply was set in the nonreceived Office action, a copy of the master docket report showing all replies docketed for a date three months from the mail date of the nonreceived Office action must be submitted as documentary proof of nonreceipt of the Office action. In this instance, Applicant was given TWO MONTHS from the date of the Notice to correct the informalities indicated in the Notice mailed March 27, 2009. **If no such master docket exists, the practitioner should so state.**

Petitioner may wish to consider filing a petition stating that the delay was unintentional. Public Law 97-247, § 3, 96 Stat. 317 (1982), which revised patent and trademark fees, amended 35 U.S.C. § 41(a)(7) to provide for the revival of an "unintentionally" abandoned application without a showing that the delay in prosecution or in late payment of the issue fee was "unavoidable." This amendment to 35 U.S.C. § 41(a)(7) has been implemented in 37 CFR 1.137(b). An "unintentional" petition under 37 CFR 1.137(b) must be accompanied by the petition fee set forth in 37 CFR 1.17(m).

The filing of a petition under 37 CFR 1.137(b) cannot be intentionally delayed and therefore must be filed promptly. A person seeking revival due to unintentional delay cannot make a statement that the delay was unintentional unless the entire delay, including the date it was discovered that the application was abandoned until the filing of the petition to revive under 37 CFR 1.137(b), was unintentional. A statement that the delay was unintentional is not appropriate if petitioner intentionally delayed the filing of a petition for revival under 37 CFR 1.137(b).

Hector M. Coronado :
Application No. 12/400,759 : ON PETITION
Filed: March 9, 2009 :
Attorney Docket No. 377114.20200 :

This is a decision on the renewed petition under 37 CFR 1.137(a), filed March 3, 2010, to revive the above-identified application.

The petition is **GRANTED.**

The application became abandoned for failure to reply in a timely manner to the Notice to File Corrected Application Papers (Notice) mailed March 27, 2009. A Notice of Abandonment was mailed on December 7, 2009.

Petitioner asserts unavoidable delay in that the Notice mailed March 27, 2009, was never received.

A review of the written record indicates no irregularity in the mailing of the Notice and, in the absence of any irregularity, there is a strong presumption that the Notice was properly mailed to the practitioner at the address of record. However, petitioner has provided a showing to establish the failure to receive the Notice and a showing to the satisfaction of the Director that the entire delay was unavoidable.

This application is being referred to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3208.

Application No. 12/400,772
Filed/Deposited: 9 March, 2009
Attorney Docket No. KM2326.015A

: DECISION ON PETITION

This is a decision on the petition filed on 23 September, 2009, under 37 C.F.R. §1.47.

The petition under 37 C.F.R. §1.47(b) is **DISMISSED**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 C.F.R. §1.47(b)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 C.F.R. §1.136(a).

This is **not** a final agency action within the meaning of 5 U.S.C. §704.

A grantable petition under 37 C.F.R. §1.47(b) requires: the petition and fee; proof that the non-signing inventor cannot be reached after diligent effort or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); an acceptable oath or declaration in compliance with 35 U.S.C. §115 and §116; a statement of the last known address of the non-signing inventor; proof of proprietary interest: and proof of irreparable damage.

Petitioner's attention is directed to the regulations at 37 C.F.R. §1.47(b) and to the guidance provided in the Commentary in the Manual of Patent Examining Procedure, including that at MPEP §409.03, et seq..

Petitioners always are reminded that for transmission by Email of any document to be accepted by the Office, written acknowledgment of receipt and readability will be required.

Petitioner avers delivery of the entire application(description, claims, abstract, drawings) to the non-signing inventor, however, there is no documentary support (e.g., a dated and signed transmittal letter perpetuating By Hand delivery averred). The substantially-redacted employment agreement makes insufficient the showings/proof of proprietary interest (which is foundational to the irreparable damage averred). Petitioners always are reminded that for transmission by Email of any document (e.g., specification (description, claims, abstract, drawings) and oath/declaration) to be accepted by the Office, written acknowledgment by the non-signing inventor of receipt and readability will be required. These deficiencies must be resolved on any renewed petition.

BACKGROUND

The record indicates:

The instant application was filed on 9 March, 2009, without, *inter alia*, a fully executed oath/declaration.

On 23 March, 2009, the Office mailed the Notice of Missing Parts indicating, *inter alia*, that a fully executed oath/declaration (signed and dated) was required.

On 23 September, 2009, Petitioner Andrew L. Ney (Reg. No. 20,300) filed a petition with, *inter alia*, fee, authorization of fee for extension of time, an oath/declaration executed/signed by Petitioner (with an express averment of authorization to sign) on behalf of the non-signing inventor Matthew Bell (Mr. Bell); an averment of by-hand delivery, but no supporting documentation (e.g., letter of transmittal) perpetuating the event; an apparent Email transmission of an oath/declaration and assignment to the non-signing inventor—but no evidence of receipt and readability and no evidence of transmission of the entire application (description, claims, abstract, drawings). No evidence of transmittal (e.g., via U.S. Postal Service (USPS) or courier of the entire application (description, claims, abstract and drawings), but no showing of diligence as to determining the reasonably believed to be valid/current/last known address of the non-signing inventor; the extent of the redaction of the assignment documents averred to have been executed by the non-signing inventor weakens the showing of proprietary interest foundational to the interest/irreparable damage averred. (*See* MPEP §409.03, and §409.03(a), et seq: "a showing of a *bona fide* attempt.")[1]

[1] Petitioners always are reminded to move stepwise through the requirements of a grantable petition under 37 C.F.R. §1.47(b), to wit: the petition and fee; proof that the non-signing inventor cannot be reached after diligent effort or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); an acceptable oath or declaration in compliance with 35 U.S.C. §115 and §116; a statement of the last known address of the non-signing inventor; proof of proprietary interest: and proof of irreparable damage. Petitioner is reminded to be attentive to the guidance provided in the Commentary in the Manual of Patent Examining Procedure, including that at MPEP §409.03, et seq. As to proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been

Petitioner **must** resolve these issues on any renewed petition.

Petitioners always are reminded that for transmission by Email of any document (e.g., specification (description, claims, abstract, drawings) and oath/declaration) to be accepted by the Office, written acknowledgment of receipt and readability will be required.

The availability of applications and application papers online to applicants/practitioners who diligently associate their Customer Number with the respective application(s) now provides an applicant/practitioner on-demand information as to events/transactions in an application. Thus, now if one wishes to know the progress in and/or status of an application or the accuracy of the data therein, one need only look at the file online.

Out of an abundance of caution, Petitioners always are reminded that those registered to practice *and* all others who make representations before the Office must inquire into the underlying facts of representations made to the Office and support averments with the appropriate documentation–since all owe to the Office the continuing duty to disclose.[2]

The instant petition under 37 C.F.R. §1.47(b) is **dismissed**.

Further correspondence with respect to this matter should be addressed as follows:

By mail:
Mail Stop PETITIONS
Commissioner for Patents
Post Office Box 1450
Alexandria, VA 22313-1450

presented with the application papers (specification: description, claims and drawings): the applicable statute (35 U.S.C.§ 116) requires that a "diligent effort" have been expended in attempting to find or reach the non-signing inventor. (*See* MPEP §409.03, and §409.03(a) and (e).)

[2] See supplement of 17 June, 1999. The Patent and Trademark Office is relying on petitioner's duty of candor and good faith and accepting a statement made by Petitioner. [3] The regulations at 37 C.F.R. §1.2 provide:

§1.2 Business to be transacted in writing.

All business with the Patent and Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

CHUJOH, TAKESHI	:	DECISION ON REQUEST TO
Application No. 12/400,824	:	PARTICIPATE IN PATENT
Filed: March 10, 2009	:	PROSECUTION HIGHWAY
Attorney Docket No. 339031US2SRD DIV	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed March 10, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Best Available Copy

Telephone inquiries concerning this decision should be directed to Kenneth Wieder at 571-272-2986.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of
Michael Yeung et al.
Application No. 12/401,085
Filed: March 10, 2009
Attorney Docket No. 66329/00791

: DECISION ACCORDING STATUS
: UNDER 37 CFR 1.47(a)

This is in response to the petition filed under 37 CFR 1.47(b) on June 29, 2009, which is being treated under 37 CFR 1.47(a).

The petition is **GRANTED**.

The above-identified application was filed on March 10, 2009 without an executed Oath or Declaration. Accordingly, on May 4, 2009, a Notice to File Missing Parts was mailed requiring, *inter alia*, a properly signed oath or declaration in compliance with 37 CFR 1.63.

In response thereof, a declaration signed by all joint inventors except Girish R. Krishna and the instant petition seeking status under 37 CFR 1.47(b) was filed claiming that after diligent effort to locate joint inventor Krishna, the petitioner has been unable to do so.

At the outset, petitioner is advised that if none of the named inventor(s) will sign the oath or declaration, a petition under 37 CFR 1.47(b) must be filed. If some of the named inventors signed the oath or declaration and one or more of the named inventors have not signed the declaration, a petition under 37 CFR 1.47(a) must be filed. In the instant case, two inventors have been named but the oath or declaration is missing the signature of only one of the named inventors, thus, this petition will be treated under 37 CFR 1.47(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an

acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

The petition bears proof that the application papers were sent to the last known address for the non-signing and that additional efforts were employed to locate the non-signing inventor. However, no contact has been made and the petitioner has been unsuccessful in their efforts.

The petition fee in the amount of $200.00 has been charged to the credit card provided.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). In view thereof, this application is hereby accorded Rule 1.47(a) status.

Thus, as provided in Rule 1.47c, this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This matter is being referred to the Office of Patent Application Processing for further pre-examination processing.

Telephone inquiries concerning this matter may be directed to the undersigned Petitions Attorney at (571) 272-3212.

Application No. 12/401,159	:	TO WITHDRAW
Filed: March 10, 2009	:	FROM RECORD
Attorney Docket No. 177.0001USC1	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b) filed January 22, 2010.

The request is **NOT APPROVED.**

A review of the file record indicates that the attorneys/agents associated with Customer Number 57557 do not have power of attorney in this patent. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is not applicable. The Office will no longer approve requests from practitioners to withdraw from applications where the requesting practitioner is acting, or has acted, in a representative capacity pursuant to 37 CFR 1.34. In these situations, the practitioner is responsible for the correspondence the practitioner files in the application while acting in a representative capacity. As such, there is no need for the practitioner to obtain the Office's permission to withdraw from representation.

Accordingly, the change of correspondence address cannot be accepted because it was not signed by an attorney of record. See MPEP §§ 601.03 and 405

Telephone inquires concerning this decision should be directed to the undersigned at 571-272-3206.

Shinji MORIYAMA, et *al.* :
Application No. 12/401,237 : DECISION GRANTING PETITION
Filed: March 10, 2009 : UNDER 37 CFR 1.313(c)(2)
Attorney Docket No. **REN-5081-04** :

This is a decision on the petition under 37 CFR 1.313(c)(2), filed April 23, 2010 to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). *See* 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on April 19, 2010 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries should be directed to the undersigned at (571) 272-7253.

This application is being referred to Technology Center AU 2822 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed information disclosure statement.

/Monica A. Graves/
Petitions Examiner, Office of Petitions

[1] *The request to apply the issue fee to the new Notice may be satisfied by completing and returning the new Part B – Fee(s) Transmittal Form (along with any balance due at the time of submission). Petitioner is advised that the Issue Fee Transmittal Form must be completed and timely submitted to avoid abandonment of the application.*

Title: **UNIVERSAL TRACKING ASSEMBLY**

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 10, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

The application as filed is not eligible for accelerated examination under 37 C.F.R. § 1.102(d) because the application, at the time of filing, was not complete. A Notice to File Corrected Application Papers was mailed on March 19, 2009 due to Replacement drawings in compliance with 37 CFR 1.84 and 37 CFR 1.121 (d) are required. The drawings submitted are not acceptable because: The drawings have a line quality that is too light to be reproduced (weight of all lines and letters must be heavy enough to permit adequate reproduction) or text that is illegible (reference characters, sheet numbers, and view numbers must be plain and legible) see 37 CFR 1.84(I) and (p)(1)); See Figure(s) 11-13.

Therefore, the petition is denied because the application was not complete at the time of filing as per item 3 above. After the application is considered complete by the Office of Initial Patent Examination (OIPE), it will be taken up by the examiner for action in its regular turn.

Filed: March 10, 2009	:	37 C.F.R. § 1.57(A)
Attorney Docket No. 650053.00160	:	
Title: 99MTC-LABELED 19 AMINO ACID CONTAINING PEPTIDE FOR USE AS PHOSPHATIDYLETHANOLAMINE BINDING MOLECULAR PROBE AND RADIOPHARMACEUTICAL	:	

This is a decision on the petition pursuant to 37 C.F.R. § 1.57(a), filed on August 21, 2009, requesting that the above-referenced application be accorded a filing date of March 10, 2009.

Application papers in the above-identified application were deposited on March 10, 2009. However, on August 4, 2009, the Office of Data Management mailed Applicant a "Notice of Incomplete Nonprovisional Application," notifying Applicant that the application papers had not been accorded a filing date because the application was deposited without drawings.

In response, Applicant timely filed this petition, where it is acknowledged that the drawings were inadvertently omitted on submission of the present application. Applicant has argued, however, that the inadvertently omitted drawings were constructively present on filing however, due to a benefit claim that was present on filing.

It is noted that a preliminary amendment was present on filing, and it directs the entry of a priority claim into the specification, claiming the benefit to international application no. PCT/US09/36692[1] and 61/068,764.

Applicant's arguments and evidence have been considered. However, it is controlling that a review of the application confirms that as filed the application contained at least one method claim. MPEP § 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

Thus, pursuant to MPEP § 601.01(f), a drawing is not considered essential for a filing date. Thus, the application is entitled to a filing date without drawings present in the application.

Accordingly, the Office should have mailed a Notice of Omitted Items and not a Notice of Incomplete Nonprovisional Application. As stated in MPEP § 601.01(g), if an application is entitled to a filing date, the mailing of a Notice of Omitted Items will permit, *inter alia*:

> If an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application,

---

[1] Petitioner will note that the benefit claim to the international application is ineffectual, as no relationship is stated. 37 CFR 1.78(a)(2)(i) requires that any nonprovisional application claiming the benefit of one or more prior-filed copending international applications must contain or be amended to contain a reference to each such prior-filed international application, identifying it by the international application number and international filing date and indicating the relationship of the applications. The relationship between the applications is whether the subject application is a continuation, divisional, or continuation-in-part of a prior-filed international application. An example of a proper benefit claim is: "This application is a continuation of international application No. ---, filed---." A benefit claim that merely states: "This application claims the benefit of international application No. ---, filed---," does not comply with 37 CFR 1.72(a)(2)(i) since the proper relationship, which includes the type of continuing application, is not stated.

> applicant may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a). The amendment should be submitted in response to the Office action and must comply with 37 CFR 1.57(a) and 37 CFR 1.121. See MPEP § 201.17.

It follows that no petition is required.

Although Applicant has submitted 8 pages of drawings, it does not appear that Applicant has submitted an amendment directing the entry of the same. Applicant may wish to both perfect the benefit claim and submit this amendment. Presuming that the benefit claim is perfected, subsequent to receiving this decision, any such amendment will, of course, be reviewed by the examiner for new matter,[2] where the examiner will compare the drawings to those contained in prior-filed international application no. PCT/US09/36692 in order to verify that they are an accurate copy of the figures contained therein and that they contain no new matter. The amendment is not new matter if the substance was a part of the disclosure of prior-filed international application no. PCT/US09/36692.

To the extent the present petition requests a filing date of March 10, 2009 with no drawings present in the application, the petition is **GRANTED**.

Given the basis for granting this petition, the petition fee will be credited to Applicant's Deposit Account in due course.

Pursuant to this decision, the application will be referred to the Office of Patent Application Processing (OPAP) for:

- **correction of the filing date to March 10, 2009**;
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing,** and;
- **for issuance of a filing receipt**.

2 See MPEP 608.02(h) and 608.04.

The general phone number for OPAP is 571-272-4000. Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3225.

Gosling
Application No. 12/401,743
Filed: 3/11/2009
Attorney Docket No. **H0019331-01**

DECISION ON PETITION
TO MAKE SPECIAL UNDER
THE GREEN TECHNOLOGY
PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 12/9/2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face

that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 044/308.000) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action in its regular turn.

MAR 17 2010

In re Application of	:	
Gosling	:	DECISION ON PETITION
Application No. 12/401,743	:	TO MAKE SPECIAL UNDER
Filed: 3/11/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **H0019331-01**	:	PILOT PROGRAM

This is a decision on the request for reconsideration, filed 3/4/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DENIED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition

must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1.

Applicants arguments regarding the suggested classification have been considered but are not deemed to be persuasive. While applications are routinely cross referenced in multiple related classes/subclasses, the Original classification is determined by the following factors:

1) Hierarchy of categories of subject matter (e.g. method of using claims determine classification over article claims).

2) Superiority of types of subject matter (e.g. chemical subject matter controls over electrical subject matter).

3) Class superiority. All classes in the US Classification system are assigned a relative superiority. This listing of all classes arranged by their relative superiority can be found on the USPTO website on the Classification Home Page under the link entitled "Classes Within the US Classification System Arranged by Related Subjects." Within each class, the highest appropriate subclass will also be used to determine original classification.

Based on the criteria above, the current Original classification is deemed to be appropriate.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action in its regular turn.

IPUSA, P.L.L.C
1054 31ST STREET, N.W.
Suite 400
Washington DC 20007

In re Application of :
Koji Akiyama :
Application No. 12/401,772 :
Filed: March 11, 2009 :
Attorney Docket No. 09EL-002 :
Title: SEMICONDUCTOR DEVICE AND FABRICATION METHOD OF THE SAME :

DECISION ON PETITION PURSUANT TO 37 C.F.R. § 1.182

This is a decision on the "PETITION TO INCLUDE DRAWINGS AND ACCORD FILING DATE," filed on April 14, 2009, requesting that the above-referenced application be accorded a filing date of March 11, 2009. This submission is being treated as a petition pursuant to 37 C.F.R. § 1.182.

Application papers in the above-identified application were deposited on March 11, 2009. However, on April 1, 2009, the Office of Data Management mailed Applicant a "Notice of Incomplete Nonprovisional Application," notifying Applicant that the application papers had not been accorded a filing date because the application was deposited without drawings.[1]

In response, Applicant timely filed this petition, where it is argued, *inter alia*, that the drawings were constructively included when the application was filed via an incorporation-by-reference statement located on the eighth page of the specification as deposited on filing.[2] Applicant has further included the petition fee.

---

[1] The electronic file has been reviewed, and there is no indication that drawings were provided on filing.

[2] Petition, page 1.

Applicant's arguments and evidence have been considered. However, it is controlling that a review of the application confirms that as filed the application contained at least one method claim. MPEP § 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

Thus, pursuant to MPEP § 601.01(f), a drawing is not considered essential for a filing date. Thus, the application is entitled to a filing date without drawings present in the application. Accordingly, the Office should have mailed a Notice of Omitted Items and not a Notice of Incomplete Nonprovisional Application.

It follows that no petition is required.

Although Petitioner has submitted 2 pages of drawings, it does not appear that Petitioner has submitted an amendment directing the entry of the same.[3] Petitioner may wish to submit this amendment. Any such amendment will, of course, be reviewed by the examiner for new matter.[4]

To the extent the present petition requests a filing date of March 11, 2009 with no drawings present in the application, the petition is **GRANTED**.

Given the basis for granting this petition, the petition fee will be refunded to Applicant's Deposit Account in due course.

Pursuant to this decision, the application will be referred to the Office of Patent Application Processing (OPAP) for:

- **correction of the filing date to March 11, 2009;**
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing, and;**
- **for issuance of a filing receipt.**

---

[3] Applicant has requested the entry of these drawings, however this amendment directing the entry of these drawings cannot be entered, as it is located on the first page of this petition. See 37 C.F.R. § 1.4(c).

4 See MPEP §§ 608.02(h) and 608.04.

The two pages of drawings that were submitted concurrently with this petition will not be entered at the present time.

Petitioner will receive appropriate notifications regarding the fees owed, if any, and other information in due course from OPAP.

The general phone number for OPAP is 571-272-4000. Telephone inquiries **regarding this decision** should be directed to the undersigned at (571) 272-3225.[5]

Paul Shanoski
Senior Attorney
Office of Petitions

[5] Petitioner will note that all practice before the Office should be in writing, and the action of the Office will be based exclusively on the written record in the Office. See 37 C.F.R. § 1.2. As such, Petitioner is reminded that no telephone discussion may be controlling or considered authority for any further action(s) of Petitioner.

Application No. 12/401,810 :
Filed: March 11, 2009 :
Attorney Docket No. ITI-472A :
(086080.016521)

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the request to withdraw as attorney of record under 37 CFR § 1.36, filed February 1, 2010.

The request is **NOT APPROVED**.

The request cannot be approved because it lacks a forwarding correspondence address of the first named inventor or a properly intervening assignee.

If the forwarding correspondence address is to the assignee, the Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *that properly became of record under 37 CFR 3.71.* 37 CFR 3.71(c) states:

> *An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.*

The assignee must establish its ownership of the patent to the satisfaction of the Director. In this regard, the statement under 37 CFR 3.73(b) must have either: (i) documentary evidence of a chain of title from the original owner to the assignee (*e.g.*, copy of an executed assignment), and a statement affirming that the documentary evidence of the chain of title from the original owner to the assignee was or concurrently is being submitted for recordation pursuant to § 3.11; or (ii) a statement specifying where documentary evidence of a chain of title from the original owner to the assignee is recorded in the assignment records of the Office (*e.g.*, reel and frame number).

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-2991.

GFD PATENTS, LLC
P.O. BOX 752
CLIFTON PARK, NY 12065

In re Application of :
Alonso, et al. :
Application No. 12/401,812 : ON PETITION
Filed: March 11, 2009 :
Attorney Docket No. Yaup-2010 :

This is a decision on the petition filed September 9, 2009, which will be treated as a petition under 37 CFR 1.78(a)(3) to accept an unintentionally delayed claim under 35 U.S.C. § 120 for the benefit of priority to the prior-filed non-provisional application set forth in the amendment filed concurrently with the instant petition. The petition will also be treated as a petition under 37 CFR 1.78(a)(6) to accept the unintentionally delayed claim under 35 U.S.C. § 119(e) for the benefit of priority of the prior-filed provisional applications set forth in the amendment filed concurrently with the instant petition.

The petition under 37 CFR 1.78(a)(3) is **GRANTED**.

The petition under 37 CFR 1.78(a)(6) is also **GRANTED**.

It is noted that the Application Data Sheet filed September 9, 2009, does not satisfy the requirement of 37 CFR 1.78(a)(3)(i) or 37 CFR 1.78(a)(6)(i) because the ADS is unsigned. Pursuant to 37 CFR 1.33(b), the ADS must be signed by a patent practitioner, an assignee, or all of the applicants for the patent. Accordingly, the amendment filed September 9, 2009, will be used as the reference required by 37 CFR 1.78(a)(3)(i) or 37 CFR 1.78(a)(6)(i).

TREATMENT UNDER 37 CFR 1.78(a)(3)

A petition for acceptance of a claim for late priority under 37 CFR 1.78(a)(3) is only applicable to those applications filed on, or after, November 29, 2000. Further, the petition is appropriate only after the expiration of the period specified in 37 CFR 1.78(a)(2)(ii). In addition, the petition under 37 CFR 1.78(a)(3) must be accompanied by:

1. the reference required by 35 U.S.C § 120 and 37 CFR § 1.78(a)(2)(i) of the prior-filed application, unless previously submitted;

2. the surcharge set forth in § 1.17(t), and

3. a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2)(ii) and the date the claim was filed was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional.

The instant non-provisional application was filed after November 29, 2000, and the claim herein for the benefit of priority to the prior-filed application is submitted after the expiration of the period specified in 37 CFR 1.78(a)(2)(ii). Also, the reference to the prior filed application, found in the amendment to the first page of the specification, was submitted during the pendency of the instant nonprovisional application for which the claim for benefit of priority is sought. See 35 U.S.C. § 120. Accordingly, having found that the instant petition for acceptance of an unintentionally delayed claim for benefit of priority under 35 U.S.C. § 120 to the prior-filed nonprovisional application satisfies the conditions of 37 CFR 1.78(a)(3), the petition is granted.

TREATMENT UNDER 37 CFR 1.78(a)(6)

A petition for acceptance of a claim for late priority under 37 CFR 1.78(a)(6) is only applicable to those applications filed on, or after, November 29, 2000. Further, the petition is appropriate only after the expiration of the period specified in 37 CFR 1.78(a)(5)(ii). In addition, the petition under 37 CFR 1.78(a)(6) must be accompanied by:

1. the reference required by 35 USC 119(e) and paragraph (a)(5) of this section to the prior-filed provisional application, unless previously submitted.

2. the surcharge set forth in 1.17(t), and

3. a statement that the entire delay between the date the claim was due under paragraph (a)(5)(ii) of this section and the date the claim was filed was unintentional.

The instant nonprovisional application was filed after November 29, 2000, and the claim herein for the benefit of priority to the prior-filed provisional applications is submitted after the expiration of the period specified in 37 CFR 1.78(a)(2)(ii). Also, the reference to the prior filed applications, found in the amendment to the first page of the specification, was submitted during the pendency of the instant nonprovisional application for which the claim for benefit of priority is sought. See 35 U.S.C. § 119(e). Accordingly, having found that the instant petition for acceptance of an unintentionally delayed claim for benefit of priority under 35 U.S.C. § 119(e) to the prior-filed provisional applications satisfies the conditions of 37 CFR 1.78(a)(6), the petition is granted.

The granting of the petition to accept the delayed benefit claim to the prior-filed applications under 37 CFR 1.78(a)(3) and 37 CFR 1.78(a)(6) should not be construed as meaning the instant application is entitled to the benefit of the prior-filed applications. In order for the instant application to be entitled to the benefit of the prior-filed applications, all other requirements under 35 U.S.C. § 120 and 37 CFR 1.78(a)(1) and (a)(2) and 35 U.S.C.§ 119(e) and 37 CFR 1.78(a)(4) and (a)(5) must be met. Similarly, the fact that the corrected Filing Receipt accompanying this decision on petition includes the prior-filed applications should not be construed as meaning that applicant is entitled to the claim for benefit of priority to the prior-filed applications noted thereon.

Accordingly, the examiner will, in due course, consider this benefit claim and determine whether the instant application is entitled to the benefit of the earlier filing date.

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and

circumstances of such delay. See 37 CFR 10.18(b) and Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. 53131, 53178 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63, 103 (October 21, 1997). In the event that such an inquiry has not been made, petitioner must make such an inquiry. Petitioner must notify the Office if such inquiry results in the discovery that it is not correct that the entire delay in making the priority claim was unintentional.

There is no indication that the person signing the instant petition was ever given a power of attorney or authorization of agent to prosecute the above-identified application. If the person signing the instant petition desires to receive future correspondence regarding this application, the appropriate power of attorney or authorization of agent must be submitted. While a courtesy copy of this decision is being mailed to the person signing the instant petition, all future correspondence will be directed to the address of currently of record until such time as appropriate instructions are received to the contrary.

The fee of $1,410.00 for the instant petition will be charged to deposit account 23-2415.

A corrected Filing Receipt, which includes the priority claim to the prior-filed nonprovisional application and provisional applications, accompanies this decision on petition.

Any inquiries concerning this decision may be directed to Kenya A. McLaughlin, Petitions Attorney, at (571) 272-3222.

This matter is being referred to Technology Center 1600, Art Unit 1615 for further processing, including consideration by the examiner of applicant's entitlement to claim benefit of priority under 35 U.S.C.§ § 120 and 119(e) to the prior-filed nonprovisional and provisional applications.

Receipt is acknowledged of this non-provisional patent application. The application will be taken up for examination in due course. Applicant will be notified as to the results of the examination. Any correspondence concerning the application must include the following identification information: the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. **If an error is noted on this Filing Receipt, please submit a written request for a Filing Receipt Correction. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections**

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as

set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

In re Application of	:	
Naoki Abe	:	
Application No. 12/401,868	:	DECISION GRANTING PETITION
Filed: March 11, 2009	:	UNDER 37 CFR 1.313(c)(2)
Attorney Docket No. 006777.00304	:	

This is a decision on the petition under 37 CFR 1.313(c)(2), filed July 1, 2010, to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). *See* 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on June 18, 2010 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries regarding this decision should be directed to undersigned at (571) 272-1642. All other inquiries regarding the examination or status of this application should be directed to the Technology Center.

This application is being referred to Technology Center AU 2861 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed information disclosure statement.

OFFICE OF PETITIONS

In re Application of	:	
Steven S. Landowski	:	
Application No. 12/401,943	:	DECISION REFUSING STATUS
Filed: March 11, 2009	:	UNDER 37 CFR 1.47(b)
Attorney Docket No. 158.020	:	

This is in response to the "PETITION UNDER 37 C.F.R. 1.183 (AND 1.47) TO ACCEPT DECLARATION WITH STEVEN S. LANDOWSKI AS AN UNAVAILABLE (NON-SIGNING) INVENTOR", filed May 26, 2009, which is being treated as a petition under 37 CFR 1.47(b).[1]

The petition under 37 C.F.R. § 1.47(b) is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 C.F.R. § 1.47(b)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **Failure to respond will result in abandonment of the application.** Any extensions of time will be governed by 37 C.F.R. § 1.136(a).

A grantable petition under 37 C.F.R. § 1.47(b) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 37 C.F.R. § 1.63; (3) the petition fee; (4) a statement of the last known address of the non-signing inventor; (5) proof that the Rule

[1] 37 CFR 1.47(b) applies when none of the inventors have signed the declaration. When at least one inventor has signed, then Rule 1.47(a) is applicable.

47(b) applicant has sufficient proprietary interest in the subject matter to justify the filing of the application; and (6) proof of irreparable damage. The instant petition does not satisfy requirements (2), (5), and (6).

As to requirement (2), Rule 47 applicant has not submitted an acceptable oath or declaration. As set forth in MPEP 409.03(b), the "37 CFR 1.47(b) applicant must make the oath required by 37 CFR 1.63 and 1.64 or 1.175." The title or position of the person signing must be stated if signing on behalf of a corporation. Where a corporation is the 37 CFR 1.47(b) applicant, an officer (President, Vice-President, Secretary, Treasurer, or Chief Executive Officer) thereof should normally sign the necessary oath or declaration. A corporation may authorize any person, including a registered attorney or agent, to sign the oath or declaration on its behalf. Where an oath or declaration is signed by a registered attorney or agent on behalf of a corporation, proof of the attorney's or agent's authority in the form of a statement signed by the appropriate corporate officer must be submitted (i.e. by submitting a Rule 3.73(b) statement), or the attorney or agent can simply state that he or she is authorized to sign on behalf of the corporation. Here, the declaration submitted was blank - no signature of the person signing on behalf of the Rule 1.47(b) applicant was provided.

As to requirement (5), applicant has not shown a sufficient proprietary interest with respect to the nonsigning inventors. Rule 47 applicant has not submitted a copy of an assignment from the non-signing inventor or a copy of an employment agreement.

If applicant can not show a sufficient proprietary interest by supplying a copy of the assignment for the above-identified application (or a copy of an agreement to assign, e.g. an employment agreement), a proprietary interest "may be demonstrated by an appropriate legal memorandum to the effect that a court of competent jurisdiction (federal, state, or foreign) would by the weight of authority in that jurisdiction award title of the invention to the 37 CFR 1.47(b) applicant."[2]

As to requirement (6), irreparable damage may be established by a statement that a filing date is necessary to preserve the rights of the party or to prevent irreparable damage. See MPEP 409.03(g).

A petition under Rule 1.47 requires a petition fee of $200.

---

[2] MPEP 409.03(f).

Petitioner only submitted $130. Accordingly, the balance of $70 has been charged to Deposit Account No. 50-1170, as authorized.

Further correspondence with respect to this matter should be addressed as follows:

OFFICE OF PETITIONS

BOYLE FREDRICKSON SC
840 NORTH PLANKINTON AVENUE
MILWAUKEE WI 53203

In re Application of :
Steven S. Landowski :
Application No. 12/401,943 : DECISION ACCORDING STATUS
Filed: March 11, 2009 : UNDER 37 CFR 1.47(b)
Attorney Docket No. 158.020 :

This is in response to the "REQUEST FOR RECONSIDERATION OF PETITION UNDER 37 C.F.R. 1.183 (AND 1.47) TO ACCEPT DECLARATION WITH STEVEN S. LANDOWSKI AS AN UNAVAILABLE (NON-SIGNING) INVENTOR", filed September 3, 2009, which is being treated as a renewed petition under 37 CFR 1.47(b).

The petition under 37 C.F.R. § 1.47(b) is **GRANTED**.

Applicant filed a petition under 37 CFR 1.47(b) on May 26, 2009. However, the petition was dismissed in a decision mailed on July 14, 2009. The petition was dismissed because petitioner did not provide requirements (2) an acceptable oath or declaration in compliance with 37 C.F.R. § 1.63; (5) proof that the Rule 47(b) applicant has sufficient proprietary interest in the subject matter to justify the filing of the application; and (6) proof of

irreparable damage.

With the instant renewed petition, Rule 47(b) applicant has overcome the objections set forth in the May 26, 2009 dismissal.

The above-identified application and papers have been reviewed and found to be in compliance with 37 CFR 1.47(b). Accordingly, the above-identified application is hereby accorded Rule 1.47(b) status. As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the last known address provided in the petition. Notice of the filing of this application will also be published in the Official Gazette.

The application is being forwarded to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries related to this decision may be directed to the undersigned at (571)272-3207.

In re Application of :
Steven S. Landowski :
Application No. 12/401,943 :
Filed: March 11, 2009 : LETTER
Title: Surgical Guide Wire Placement :
and Removal Tool

Dear Mr. Landowski:

You are named as the inventor in the above-identified United States patent application filed under the provisions of 35 USC 116 (United States Code) and 37 CFR 1.47(b), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as the sole inventor.

As the named inventor, you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, agent of record would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to Petitions Attorney Cliff Congo at (571)272-3207. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (703) 308-9726 or 1-800-972-6382 (outside the Washington D.C. area).

Application No. 12/401,966 : DECISION ON PETITION
Filed: March 11, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No. 073978.134 : 37 CFR 1.102(c)(1)
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 11, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a declaration statement signed by applicant. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to undersigned at 571-272-1642. All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being referred to the Office of Patent Application Papers for pre-examination processing. This application will be accorded "special" status once pre-examination processing is complete.

In re Application of	:	
MCCALL ET AL.	:	DECISION ON PETITION
Application No. 12/402,078	:	TO MAKE SPECIAL UNDER
Filed: March 11, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. H0018725-01	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed December 9, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice

before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks items 1, 4, and 5 above for the reasons as explained in more detail below.

In regard to item 1, it is noted that this application has been classified (USPC 208/15) in an area that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified else where. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 4, it in noted that the instant petition fails to state the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice.

In regard to item 5, it is noted that, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard.

OFFICE OF PETITIONS

In re Application of :
Donald S. Tracey, et al. :
Application No. 12/402,211 :
Filed: March 11, 2009 :
Attorney Docket No. 2009EM049 :

DECISION ON PETITION
UNDER 37 CFR 1.78(a)(3) AND
UNDER 37 CFR 1.78(a)(6)

This is a decision on the petition, filed October 9, 2009, which is being treated as a petition under 37 CFR §§ 1.78(a)(3) and 1.78(a)(6) to accept an unintentionally delayed claim under 35 U.S.C. §§120 and 119(e) for the benefit of the prior-filed applications set forth in the concurrently filed amendment.

The petition is **GRANTED.**

A petition for acceptance of a claim for late priority under 37 CFR §§ 1.78(a)(3) and 1.78(a)(6) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after the expiration of the period specified in 37 CFR §§ 1.78(a)(2)(ii) and 1.78(a)(5)(ii). In addition, the petition under 37 CFR §§ 1.78(a)(3) and 1.78(a)(6) must be accompanied by:

(1) the reference required by 35 U.S.C. §§ 120 and 119(e) and 37 CFR §§ 1.78(a)(2)(i) and 1.78(a)(5)(i) of the prior-filed application, unless previously submitted;

(2) the surcharge set forth in § 1.17(t); and

(3) a statement that the entire delay between the date the claim was due under 37 CFR §§ 1.78(a)(2)(ii) and 1.78(a)(5)(ii) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional.

Additionally, the instant nonprovisional application must be pending at the time of filing of the reference to the prior-filed provisional application as required by 37 CFR 1.78(a)(5)(ii). Further, the nonprovisional application claiming the benefit of the prior-filed provisional application must have been filed within twelve months of the filing date of the prior-filed provisional application.

All the above requirements having been satisfied, the late claim for benefit of priority under 35 U.S.C. §§ 120 and 119(e) is accepted as being unintentionally delayed.

The granting of the petition to accept the delayed benefit claim to the prior-filed applications under 37 CFR §§ 1.78(a)(3) and 1.78(a)(6) should not be construed as meaning that this application is entitled to the benefit of the filing date of the prior-filed applications. In order for this application to be entitled to the benefit of the prior-filed applications, all other requirements under 35 U.S.C. §§120 and 1.78(a)(1) and (a)(2) and under 35 U.S.C. §119(e) and 37 CFR 1.78(a)(4) and (a)(5) must be met. Similarly, the fact that the corrected Filing Receipt accompanying this decision on petition includes the prior-filed applications should not be construed as meaning that applicant is entitled to the claim for benefit of priority to the prior-filed applications noted thereon. Accordingly, the examiner will, in due course, consider this benefit claim and determine whether the application is entitled to the benefit of the earlier filing date.

A corrected Filing Receipt, which includes the priority claim to the prior-filed applications, accompanies this decision on petition.

Any questions concerning this matter may be directed to the undersigned at (571) 272-3204. All other inquiries concerning either the examination procedures or status of the application should be directed to the Technology Center.

This application is being forwarded to Technology Center Art Unit 1796 for consideration by the examiner of the claim under 35 U.S.C. § §120 and 119(e) of the prior-filed nonprovisional and provisional applications.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Application No. 12/402,231
Filed: March 11, 2009
Attorney Docket No. 66874-0005

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed June 15, 2009.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Steven R. Hansen on behalf of all attorneys of record. All attorneys/agents have been withdrawn. Applicant is reminded that there is no attorney of record at this time.

The request to change the correspondence of record is not acceptable as the requested correspondence address is not that of: (1) the first named signing inventor; or (2) an intervening assignee of the entire interest under 37 C.F.R 3.71. All future communications from the Office will be directed to the first named signing inventor at the first copied address below until otherwise properly notified by the applicant.

Telephone inquiries concerning this decision should be directed to Terri Williams at 571-272-2991.

Attorney Docket No. 20080113.ORI	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 19, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement from the applicant Arthur A. Beisang proving that he is 65 years of age or older. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Terri Williams at 571-272-2991.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 2612 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
Steer, et al.	:	
Filed: March 11, 2009	:	ON PETITION
Application No. 12/402,421	:	
Atty. Dkt. No.:	:	
564462007910/D1680-2D1	:	

This decision in response to the petition under 37 CFR 1.57(a), filed May 7, 2009, to accord the instant application a filing date of March 11, 2009.

The application was deposited on March 11, 2009. The Notice of Incomplete Nonprovisional Application (Notice) mailed April 14, 2009 indicated, *inter alia*, that the application had not been accorded a filing date because the application appeared to have been submitted without drawings as required per 35 USC 113.

The Notice indicated that the filing date would be the date of receipt of all items indicated as omitted, unless otherwise indicated in the Notice. The Notice required that any assertions that the item(s) were submitted or were not necessary for a filing date, must be by way of petition (accompanied by required petition fee).

The Notice further indicated that if the application contained a priority claim under 37 CFR 1.55 or benefit claim under 37 CFR 1.78 of a prior-filed application that was present on the filing date of the application and applicants want to rely on 37 CFR 1.57(a) to add inadvertently omitted material to the above-identified application, applicants must file a petition under 37 CFR 1.57(a) accompanied by the $400.00 petition fee (37 CFR 1.17(f)) within TWO MONTHS of the date of this Notice.

Petitioners seek to rely upon the provisions of 37 CFR 1.78 and, further, assert that the first page of the application states that "[t]his application is a divisional of U.S. Serial No. (USSN) 10/463,720 filed June 16, 2003, and now allowed, which claims the benefit of priority under 35 U.S.C. § 119(e) of U.S.

Provisional Application No. 60/389,299, filed June 14, 2002. The aforementioned applications are explicitly incorporated herein by reference in their entirety and for all purposes."

In accordance with 37 CFR 1.57 and MPEP 201.17, the following conditions and requirements need to be met for an applicant to add omitted material to an application pursuant to 37 CFR 1.57(a):

(A) the application must have been filed on or after September 21, 2004;
(B) all or a portion of the specification or drawing(s) must have been inadvertently omitted from the application;
(C) a claim under 37 CFR 1.55 for priority of a prior filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application, must have been present on the filing date of the application;
(D) the inadvertently omitted portion of the specification or drawing(s) must be completely contained in the prior-filed application;
(E) applicant must file an amendment to include the inadvertently omitted portion of the specification or drawing(s) within any time period set by the Office, but in no case later than the close of prosecution as defined by 37 CFR 1.114(b), or abandonment of the application, whichever occurs earlier;
(F) if the application is not otherwise entitled to a filing date, applicant must also file a petition and the amendment under 37 CFR 1.57(a)(3) accompanied by the petition fee set forth in 37 CFR 1.17(f);
(G) applicant must supply a copy of the prior-filed application, except where the prior-filed application is an application filed under 35 U.S.C. 111;
(H) applicant must supply an English language translation of any prior-filed application that is in a language other than English; and
(I) applicant must identify where the inadvertently omitted portion of the specification or drawing(s) can be found in the prior-filed application.

The instant renewed application has been carefully reviewed and found in compliance with the above-set forth requirements.

In view thereof, the petition under 37 CFR 1.57(a) is hereby **GRANTED**.

This application is being forwarded to the Office of Patent Application Processing for accordance of a filing date of March 11, 2009 with entry into the record of the previously inadvertently omitted drawings.

Telephone inquiries related to this decision may be directed to Petitions Attorney Alesia M. Brown at (571) 272-3205.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 11, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6, must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. 103(c).

REVIEW OF FACTS

The conditions I: 1-4, II: 1-5, 5.1, 5.2, 5.3, 6, 6.1, 6.2, 6.3, 6.4, and 6.6 above are considered to have been met. However, the petition fails to comply with conditions II: 6.5 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Discussion

When referring to "the petition" herein below, the received papers under consideration include the four page PTO/SB/28 form "Petition to Make Special Under Accelerated Examination Program", the "pre-examination search document" (PESD) including pages 1-17; the "accelerated examination support document" (AESD) comprising pages 1-51, and an Information Disclosure Statement (IDS).

Regarding the requirements of section II element 6.5 outlined above, the requirements of this section are not met because lack of showing of support under 35 USC 112, 1st paragraph in parent application 12/185,227. **If Petitioner believes that this determination is made in error, Petitioner is invited to call the undersigned for immediate corrective action.** It is also noticed that show of support is missing for parent application 12/264,907, the present application being its continuation. If Petitioner believes that the following proposed statement is correct, it's insertion in the request for reconsideration will satisfy the requirement:

"The present application is a continuation of application 12/185,277, and the claimed limitations find support in said parent application in substantially the same locations as in the present application."

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address all of the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Programs Examiner, at (571) 272-4828.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on April 23, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Program Examiner, at (571) 272-4828.

Filed:

Attorney Docket No. 89048-3

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 16-MAR-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

In re Application of	:	
Camacho et al.	:	DECISION ON PETITION
Application No. 12/402,585	:	TO WITHDRAW
Filed: March 12, 2009	:	FROM RECORD
Attorney Docket No. 0295-0008.02	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed December 4, 2009.

The request is **NOT APPROVED**.

The Office strongly encourages practitioner(s) requesting withdrawal from representation as practitioner of record in an application to review the record to determine whether he or she is, in fact, of record and how he or she was made of record. For example, the practitioner(s) should determine whether he or she was appointed by naming each practitioner individually or through the use of a Customer Number.

In the instant application, the practitioner(s) were appointed via Customer Number. Therefore, any subsequent request must withdraw all associated practitioner(s) in the same manner as appointed.

All future communications from the Office will continue to be directed to the above-listed address until properly notified.

There is an outstanding Office action mailed December 1, 2009 that requires a reply.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-6059. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

Attorney Docket: 0295-0008.02	:	

This is a decision on the renewed Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed February 24, 2010.

The request is **NOT APPROVED**.

The Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *who properly became of record under 37 CFR 3.71*, or, if no assignee of the entire interest has properly been made of record, the most current address information provided for the first named inventor. 37 CFR 3.71(c) states:

> *An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.*

As the current request designates the second named inventor as the new correspondence address, the request cannot be approved at this time.

All future communications from the Office will be directed to above-listed address until otherwise properly notified by the applicant or a proper change of correspondence address have been submitted.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-6059.

Attorney Docket: 0295-0008.02 :

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the renewed Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed April 21, 2010.

The request is **NOT APPROVED**.

The Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *who properly became of record under 37 CFR 3.71*, **or**, if no assignee of the entire interest has properly been made of record, the most current address information provided for the **first** named inventor. 37 CFR 3.71(c) states:

> *An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.*

As there is no Statement under 37 CFR 3.73(b) in the instant application, the request cannot be granted. All future communications from the Office will be directed to above-listed address until otherwise properly notified by the applicant or a proper change of correspondence address have been submitted.

The application is currently abandoned for failure to respond to the Office action mailed December 1, 2009.

Petitioner should note that requests filed prior to the expiration date of a time period for reply or the expiration date of a time period which can be obtained by a petition and fee for extension of time under 37 CFR 1.136(a), the Office will review the Request and render a decision, even if the decision on the Request is decided after the stated period for reply, after the application is abandoned, or after proceedings have terminated. In contrast, the Office will not decide on requests to withdraw from representation as practitioner of record which are filed after the expiration date of a time period for reply or the expiration date of a time period which can be obtained by a petition and fee for extension of time under 37 CFR 1.136(a). These Requests will be placed in the application but will not be treated on their merits.

All future communications from the Office will be directed to above-listed address until otherwise properly notified by the applicant or a proper change of correspondence address have been submitted.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-6059. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as

set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

OFFICE OF PETITIONS

In re Application of :
Cornett, Johnson, and Nelson :
Application No. 12/402,813 :
Filed: March 12, 2009 :
Attorney Docket No. TAN-2-1516.02.US :

Decision Refusing to Accord Status Under 37 CFR 1.47(a)

This is a decision on the petition under 37 CFR 1.47(a) filed March 12, 2009.

The petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. No further petition fee is required for the request. Any response should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)" and may include an oath or declaration executed by the current non-signing inventor(s). **Failure to respond will result in abandonment of the application.**

The instant application is a continuation of Application No. 10/350,308.

The instant application was filed with:

(1) A declaration signed by inventors Johnson and Nelson, and
(2) A copy of a petition that appears to have been previously filed in Application No. 10/350,308.

When a parent application has been accorded status under 37 CFR 1.47, an applicant may submit a copy of the declaration from the parent application and a copy of the parent application's Rule 47 decision letter instead of submitting a new petition under 37 CFR 1.47.[1] However, in the instant case, petitioner has not supplied a copy of any decision from Application No. 10/350,308, granting the prior application status under 37 CFR 1.47.

[1] 37 CFR 1.63(d)(3) states, "Where the executed oath or declaration of which a copy is submitted for a continuation or divisional application was originally filed in a prior application accorded status under § 1.47, the copy of the executed oath or declaration for such prior application must be accompanied by . . . A copy of the decision granting a petition to accord § 1.47 status to the prior application, unless all inventors or legal representatives have filed an oath or declaration to join in an application accorded status under § 1.47 of which the continuation or divisional application claims a benefit."

Any request for reconsideration should include a copy of any decision from Application No. 10/350,308, granting the prior application status under 37 CFR 1.47.

Unless filed by EFS Web, further correspondence with respect to this matter should be addressed as follows:

OFFICE OF PETITIONS

In re Application of :
Cornett, Johnson, and Nelson :
Application No. 12/402,813 :
Filed: March 12, 2009 :
Attorney Docket No. TAN-2-1516.02.US :

Letter Notifying Applicant the Application Has Been Accorded Status Under 37 CFR 1.47

This is in response to the "Request for Reconsideration of Petition Under 37 CFR 1.47(a)" filed July 28, 2009.

The instant application is a continuation of Application No. 10/350,308.

A petition under 37 CFR 1.47(a) was filed March 12, 2009. The petition was a copy of a petition previously filed in Application No. 10/350,308. The petition was accompanied by a copy of a declaration from the parent application signed by inventors Johnson and Nelson.

A decision dismissing the petition was mailed May 28, 2009. Citing 37 CFR 1.63(d)(3), the prior decision stated,

> When a parent application has been accorded status under 37 CFR 1.47, an applicant may submit a copy of the declaration from the parent application and a copy of the parent application's Rule 47 decision letter instead of submitting a new petition under 37 CFR 1.47. However, in the instant case, petitioner has not supplied a copy of any decision from Application No. 10/350,308, granting the prior application status under 37 CFR 1.47.

The instant request for reconsideration includes a copy of a decision granting Application No. 10/350,308 status under 37 CFR 1.47(a).

The application is hereby accorded Rule 1.47(a) status.

A petition under 37 CFR 1.47(a) is unnecessary when a party has filed a declaration from a parent application and a decision from the parent application granting the parent application status under 37 CFR 1.47(a). Therefore, the renewed petition is **dismissed as moot**.

Technology Center Art Unit 2400 will be informed of the instant decision to ensure the examiner is aware the signing inventors may prosecute the application on behalf of the non-signing inventor.

Telephone inquiries regarding this communication should be directed to Petitions Attorney Steven Brantley at (571) 272-3203.

In re Application of	:	
ANUMAKONDA ET AL.	:	DECISION ON PETITION
Application No. 12/402,873	:	TO MAKE SPECIAL UNDER
Filed: March 12, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. H0018759-01	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed December 9, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice

before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks items 1, 4, and 5 above for the reasons as explained in more detail below.

In regard to item 1, it is noted that this application has been classified (USPC 208/16) in an area that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified else where. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 4, it in noted that the instant petition fails to state the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice.

In regard to item 5, it is noted that, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard.

Further correspondence with respect to this matter should be addressed as follows:

MICHAEL J. CHERSKOV
300 NORTH STATE STREET
SUITE 5102
CHICAGO IL 60654

In re Application of :
Vajda et al. :
Application No. 12/402,948 : DECISION ON PETITION
Filed: March 12, 2009 : UNDER 37 CFR 1.78(a)(3)
Attorney Docket No. 0003-02148 :

This is a decision on the petitions under 37 CFR 1.78(a)(3) and 1.78(a)(6), filed June 11, 2009, to accept an unintentionally delayed claim under 35 U.S.C. § 120 and 119(e) for the benefit of the prior-filed applications set forth in the concurrently filed amendment/ADS.

The petition is **DISMISSED**.

A petition for acceptance of a claim for late priority under 37 CFR §§ 1.78(a)(3) and 1.78(a)(6) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after the expiration of the period specified in 37 CFR §§ 1.78(a)(2)(ii) and 1.78(a)(5)(ii). In addition, the petition under 37 CFR §§ 1.78(a)(3) and 1.78(a)(6) must be accompanied by:

> **(1)** the reference required by 35 U.S.C. §§ 120 and 119(e) and 37 CFR §§ 1.78(a)(2)(i) and 1.78(a)(5)(i) of the prior-filed application, unless previously submitted;
> **(2)** the surcharge set forth in § 1.17(t); and
> **(3)** a statement that the entire delay between the date the claim was due under 37 CFR §§ 1.78(a)(2)(ii) and 1.78(a)(5)(ii) and the date the claim was filed was unintentional. The Commissioner may require additional where there is a question whether the delay was unintentional.

The instant petition does not comply with items (1) and (3) above.

With regards to item (1), when a later-filed application is claiming the benefit of a prior-filed nonprovisional application under 35 U.S.C. 120, 121, or 365(c), the later-filed application must be copending with the prior application or with an intermediate nonprovisional application similarly entitled to the benefit of the filing date of the prior application. Copendency is defined in the clause which requires that the later-filed application must be filed before: (A) the patenting of the prior application; (B) the

abandonment of the prior application; or (C) the termination of proceedings in the prior application.

If the prior application is abandoned, the later-filed application must be filed before the abandonment in order for it to be copending with the prior application. The term "abandoned," refers to abandonment for failure to prosecute (MPEP § 711.02), express abandonment (MPEP § 711.01), abandonment for failure to pay the issue fee (37 CFR 1.316), and abandonment for failure to notify the Office of a foreign filing after filing a nonpublication request under 35 U.S.C. 122(b)(2)(B)(iii) (MPEP § 1124).

The instant application is claiming the benefit of prior-filed nonprovisional application No. 10/941,800, which was abandoned prior to the filing of the instant application. Copendency between the current application and the prior application is required. Since the applications are not copending, the benefit claim to the prior-filed nonprovisional application is improper. Applicant is required to delete the reference to the prior-filed application from the first sentence(s) of the specification, unless applicant can establish copendency between the applications.

With regards to item (3), petitioner has failed to submit a statement stating that the entire delay was unintentional.

Further correspondence with respect to this matter should be addressed as follows:

MAILED

MAR 0 3 2010

OFFICE OF PETITIONS

In re Application of	:
Vajda et al.	:
Application No. 12/402,948	: DECISION ON PETITION
Filed: March 12, 2009	: UNDER 37 CFR 1.78(a)(3)
Attorney Docket No. 0003-02148	: UNDER 37 CFR 1.78(a)(6)

This is a decision on the renewed petition under 37 CFR 1.78(a)(3) and 1.78(a)(6), filed January 12, 2010, to accept an unintentionally delayed claim under 35 U.S.C. § 120 and 119(e) for the benefit of the applications set forth in the concurrently filed amendment.

The petition is **DISMISSED**.

A petition for acceptance of a claim for late priority under 37 CFR §§ 1.78(a)(3) and 1.78(a)(6) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after the expiration of the period specified in 37 CFR §§ 1.78(a)(2)(ii) and 1.78(a)(5)(ii). In addition, the petition under 37 CFR §§ 1.78(a)(3) and 1.78(a)(6) must be accompanied by:

(1) the reference required by 35 U.S.C. §§ 120 and 119(e) and 37 CFR §§ 1.78(a)(2)(i) and 1.78(a)(5)(i) of the prior-filed application, unless previously submitted;
(2) the surcharge set forth in § 1.17(t); and
(3) a statement that the entire delay between the date the claim was due under 37 CFR §§ 1.78(a)(2)(ii) and 1.78(a)(5)(ii) and the date the claim was filed was unintentional. The Commissioner may require additional where there is a question whether the delay was unintentional.

The instant petition does not comply with item (1) above.

With regards to item (1), petitioner is attempting to claim priority from the instant application to nonprovisional Application No. 12/610,897, filed November 2, 2009. However, both 35 U.S.C. 120 and 119(e) are reserved for the benefit of *prior-filed* applications.

Further, since nonprovisional Application No. 12/610,897 was not filed until after the instant application it may not claim benefit of priority, and therefore Application No. 10/941,800 and provisional Application No. 60/503,668, as currently described in the Specification are not copendent. Copendency between the current application and the prior applications is required. Since the applications are not copending, the benefit claim

to the prior-filed nonprovisional and provisional applications is improper. Applicant is required to delete the reference to the prior-filed application from the first sentence(s) of the specification, unless applicant can establish copendency between the applications. Accordingly, before the petition under 37 CFR 1.78(a)(3) and 1.78(a)(6) can be granted, a substitute amendment[1] correcting the above matter, along with a renewed petition under 37 CFR 1.78(a)(3) and 1.78(a)(6), is required. No further petition fee is necessary.

Further correspondence with respect to this matter should be addressed as follows:

Applicant	: Kevin M. Conley	: DECISION ON REQUEST FOR
Patent Number	: 7646666	: RECALCULATION of PATENT
Issue Date	: 01/12/2010	: TERM ADJUSTMENT IN VIEW
Appliction No	: 12/402,955	: OF WYETH AND NOTICE OF INTENT TO
Filed	: 03/12/2009	: ISSUE CERTIFICATE OF CORRECTION
		:

The Request for Recalculation is **GRANTED** to the extent indicated.

The patent term adjustment has been determined to be **0** days. The USPTO will *sua sponte* issue a certificate of correction reflecting the amount of PTA days determined by the recalculation.

Prior to the issuance of the certificate of correction, the USPTO will afford patentee an opportunity to be heard and request reconsideration. Accordingly, patentee has **one month or thirty (30) days**, whichever is longer, to file a request for reconsideration of this patent term adjustment calculation. See 35 U.S.C. 154(b)(3)(B)(ii) and 37 CFR 1.322(a)(4). No extensions of time will be granted under 37 CFR 1.136.

Patentee should use document code PET.OP if electronically filing a request for reconsideration of this patent term adjustment calculation. The patentee must also include the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e). If patentee does not file a timely request for reconsideration of this patent term adjustment calculation including the information required by 37 CFR 1.705(b)(2) and the fee required by 37 CFR 1.18(e), the USPTO will issue a certificate of correction reflecting the PTA determination noted above.

Patentee should be aware that in order to preserve the right to review in the United States District Court for the District of Columbia of the USPTO patent term adjustment determination, patentee must ensure that he or she also take the steps required under 35 U.S.C. 154(b)(4)(A) in a timely manner. Nothing in the request for recalculation should be construed as providing an alternative time frame for commencing a civil action under 35 U.S.C. 154(b)(4)(A).

Any questions concerning this decision should be directed to the Office of Patent Legal Administration at 571-272-7702.

FEB 08 2010

In re Application of	:	
Brady et al.	:	DECISION ON PETITION
Application No. 12/403,024	:	TO MAKE SPECIAL UNDER
Filed: 3/12/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **H0019238-01**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 12/11/2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face

that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 44/307.000) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action in its regular turn.

MAR 22 2010

In re Application of	:	
Brady et al.	:	DECISION ON PETITION
Application No. 12/403,024	:	TO MAKE SPECIAL UNDER
Filed: 3/12/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **H0019238-01**	:	PILOT PROGRAM

This is a decision on the request for reconsideration, filed 3/10/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DENIED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition

must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1.

Applicants arguments regarding the suggested classification have been considered but are not deemed to be persuasive. While applications are routinely cross referenced in multiple related classes/subclasses, the Original classification is determined by the following factors:

1) Hierarchy of categories of subject matter (e.g. method of using claims determine classification over article claims).

2) Superiority of types of subject matter (e.g. chemical subject matter controls over electrical subject matter).

3) Class superiority. All classes in the US Classification system are assigned a relative superiority. This listing of all classes arranged by their relative superiority can be found on the USPTO website on the Classification Home Page under the link entitled "Classes Within the US Classification System Arranged by Related Subjects." Within each class, the highest appropriate subclass will also be used to determine original classification.

Applicant argues that the instant claims should be classified in Class 44, Subclass 589 or 605. Subclasses 589 and 605 both fall out in Class 44 under Subclass 550 which is directed to Consolidated Solids (e.g., Briquette, etc.). The instant claims are not directed to Consolidated Solid Fuels from Vegetation or refuse (Subclass 589) or Consolidated Solid Fuels From Vegetation or Refuse (Subclass 605).

Based on the criteria above, the current Original classification should be in Class 585/14 (Product Blend for fuel use). This Class/Subclass is not classified in one of the eligible US classifications listed in section VI of the notice.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action in its regular turn.

OFFICE OF PETITIONS

LAW OFFICE OF MICHAEL A BLAKE LLC
95 HIGH STREET
SUITE 5
MILFORD CT 06460

In re Application of	:	
Myer, et al.	:	
Application No. 12/403,107	:	DECISION ON PETITION
Filed: March 12, 2009	:	
Attorney Docket No. MILUM-0001	:	

This is a decision on the "PETITION FOR DATE OF DEPOSIT, PETITION FOR EXTENSION OF TIME, AND AMENDMENT TO THE FIGURES", filed August 31, 2009, which is being treated as a request that the "Notice to File Corrected Application Papers" mailed March 31, 2009 be withdrawn.

The petition is **DISMISSED**.

The application was filed on March 12, 2009. However, on March 31, 2009, the Office mailed a "Notice to File Corrected Application Papers". The Notice informed applicants that the application had been accorded a filing date. However, replacement drawings were needed. In addition, Figures 1-17 and 64 as described in the specification appeared to have been omitted.

In response, the present petition was filed. Petitioner explains that Figures 1-17 and 64 were not missing on March 12, 2009.

It is obvious from the petition that no drawings were actually missing on March 12, 2009. Rather, the drawing sheets containing Figures 1-17 and 64 were simply mislabeled as a result of applicants' filing error. However, the "Notice of Omitted Item(s) in a Nonprovisional Application" mailed March 31, 2009 was correct in stating that Figures 1-17 and 64 described in the specification appeared to have been omitted. Therefore, the "Notice" was properly mailed and will not be withdrawn.

The application is being returned to the Office of Initial Patent Examination for processing with a filing date of March 12, 2009, using the 77 sheets of drawings filed on that date and the replacement drawings filed on August 31, 2009.

Telephone inquiries concerning this decision may be directed to the undersigned at 571-272-3207.

: PETITION DECISION

This is in response to the petition under 37 CFR § 1.59(b), filed December 8, 2009, to expunge information from the above identified application. This application has not been allowed

Petitioner requests that the Proprietary Information Disclosure Statement filed December 8, 2009 be expunged from the record. Petitioner states either: (A) that the information contains trade secret material, proprietary material and/or material that is subject to a protective order which has not been made public; or (B) that the information submitted was unintentionally submitted and the failure to obtain its return would cause irreparable harm to the party who submitted the information or to the party in interest on whose behalf the information was submitted, and the information has not otherwise been made public. The petition fee set forth in 37 CFR § 1.17(g) has been paid.

This application is under non-final action. Also, the information provided has not been reviewed. As stated in M.P.E.P. 724, upon allowance or other action closing prosecution in an application, petition may be made for return of Proprietary information. The information cannot be expunged at this time.

The petition is **DISMISSED**. Petitioner may resubmit the petition subsequent to a Notice of Allowability or *ex parte Quayle* action being mailed in the application. No additional petition fee will be required at that time

Should there be any questions about this decision please contact Marianne C. Seidel by letter addressed to Director, TC 1600, at the address listed above, or by telephone at 571-272-0584 or by facsimile sent to the general Office facsimile number, 703-872-9306.

: PETITION DECISION

This is in response to the renewed petition under 37 CFR § 1.59(b), filed March 25, 2010, to expunge information from the above identified application. This application has been allowed.

Petitioner requests that references AA and AB submitted on the Information Disclosure Statement filed on December 8, 2009 be expunged from the record. Petitioner states either: (A) that the information contains trade secret material, proprietary material and/or material that is subject to a protective order which has not been made public; or (B) that the information submitted was unintentionally submitted and the failure to obtain its return would cause irreparable harm to the party who submitted the information or to the party in interest on whose behalf the information was submitted, and the information has not otherwise been made public. The petition fee set forth in 37 CFR § 1.17(g) has been paid.

The reasons set forth in this petition establishes to the satisfaction of the Director that expungement of the information is appropriate. The file entry for this document has been closed and as such the document is no longer publicly available, which is the IFW equivalent to removal of a paper document from a paper file wrapper.

Therefore, petitioner's petition is GRANTED.

Should there be any questions about this decision please contact Marianne C. Seidel by letter addressed to Director, TC 1600, at the address listed above, or by telephone at 571-272-0584 or by facsimile sent to the general Office facsimile number, 703-872-9306.

JAN 13 2010

In re Application of :
Peter L. Kellerman et al. :
Application No. 12/403,206 : DECISION ON PETITION
Filed: March 12, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No.. 2008-030 : 37 CFR 1.102(c)(2)
:

This is a decision on the petition under 37 CFR 1.102(c)(2), filed December 22 and re-filed on December 23, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102(c)(2) and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item 5. As stated in section III of the Notice, applicant must provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard.

Further correspondence with respect to this matter should be addressed as follows:

GLOUCESTER MA 01930-2297

In re Application of	:	
KELLERMAN et al.	:	DECISION ON PETITION
Application No. 12/403,206	:	TO MAKE SPECIAL UNDER
Filed: 12 March 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 2008-030	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 22 December 2009 and renewed on 02 February 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Lee W. Young at 571-272-4549.

The application is being forwarded to the Technology Center Art Unit 2829 for action on the merits commensurate with this decision.

In re Application of	:	
Demers et al.	:	DECISION ON PETITION
Application No. 12/403,253	:	TO WITHDRAW
Filed: March 12, 2009	:	FROM RECORD
Attorney Docket No. 45342.1.2.4.1	:	

This is a decision on the request to withdraw as attorney of record under 37 C.F.R. § 1.36, filed August 25, 2009.

The request is **NOT APPROVED**.

The Request for Withdrawal as Attorney or Agent and Change of Correspondence Address submitted on August 25, 2009 is hereby not accepted. Petitioner has not complied with current USPTO requirements, as set forth in 37 CFR 10.40 concerning Request for Withdrawal as Attorney and Change of Correspondence Address. Specifically, pursuant to 37 CFR 10.40, the Office will require the practitioner(s) to certify that he, she or they have:

> (1) given reasonable notice to the client, prior to the expiration of the reply period, that the practitioner(s) intends to withdraw from employment;
>
> (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and
>
> (3) notified the client of any replies that may be due and the time frame within which the client must respond.

Petitioner has not complied with item (2) of the above certifications. It is suggested that petitioner submit a properly completed PTO/SB/83 (effective date May 12, 2008), which provides a section wherein practitioners may certify the completion of the above-listed activities necessary for the request to withdraw from representation to be granted.

Further, the Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *who properly became of record under 37 CFR 3.71,* or, if no assignee of the entire interest has properly been made of record, the most current address information provided for the first named inventor. 37 CFR 3.71(c) states:

> *An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.*

A review of current USPTO records does not list any recorded assignment concerning the above-identified application. Therefore, as there is currently no Statement under 37 CFR 3.73(b) currently of record in the instant application, the Office cannot change the correspondence address to the address on the Request to Withdraw.

Additionally, a grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others.

The request was signed by Philip M. Goldman on behalf of all attorneys of record associated with Customer Number 22859. However, since the practitioners were not appointed by a Customer Number upon filing of the instant application, petitioner may not withdraw the practitioners by Customer Number.

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Currently, there is no outstanding Office action that requires a reply.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-7751. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

Application No. 12/403,253	:	TO WITHDRAW
Filed: March 12, 2009	:	FROM RECORD
Attorney Docket No. 45342.1.2.4.1	:	

This is a decision on the renewed Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed February 2, 2010.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. The Office will require the practitioner(s) to certify that he, she or they have: (1) given reasonable notice to the client, prior to the expiration of the reply period, which the practitioner(s) intends to withdraw from employment; (2) delivered to the client or a duly authorized representative of the client all papers and property (including funds) to which the client is entitled; and (3) notified the client of any replies that may be due and the time frame within which the client must respond, pursuant to 37 CFR 10.40 (c).

The request was signed by Phillip M. Goldman on behalf of all attorneys of record.

All attorneys/agents of record have been withdrawn. Applicants are reminded that there is no attorney of record at this time.

All future correspondence will be directed to the first named inventor at the address indicated below.

Currently, there is no outstanding Office action that requires a reply.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-7751. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed May 21, 2010.

The request is **NOT APPROVED** because it is moot.

A review of the file record indicates that the power of attorney to Morrison & Foerster LLP has been revoked by the assignee of the patent application on June 17, 2010. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to Terri Johnson at 571-272-2991.

Provitola et al. :
Application No. 12/403,367 : ON PETITION
Filed: March 12, 2009 :
Title: CANTILEVER TENSION CLAMP :
AND BRACKET

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 12, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required.

The instant petition includes a statement by the applicant that he is 65 years of age, and is also accompanied with a copy of applicant's New York birth certificate. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Alicia Kelley at 571-272-6059. All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

This matter is being referred to the Technology Center Art Unit 3632 for action on the merits commensurate with this decision.

JUN 15 2009

OFFICE OF PETITIONS

In re Application of :
Higuchi, et al. :
Application No. 12/403,448 : DECISION
Filed/Deposited: 13 March, 2009 :
Attorney Docket No. NGB-45044 :

This is a decision on the petition filed 9 April, 2009, seeking to have accorded a filing date of 13 March, 2009, for the above-identified application based upon a showing that the omitted drawing/figures were present in the prior-filed co-pending nonprovisional application to which this application claimed benefit (under 37 C.F.R. §1.78) on filing.

The petition is **DISMISSED**.

Application papers in the above-identified application were deposited on 13 March, 2009.

On 27 March, 2009, the Office mailed a Notice of Incomplete Nonprovisional Application, stating that the application had not been accorded a filing date because it had been deposited without drawing as required under 35 U.S.C. §113 (first sentence). The Office indicated that Petitioner could demonstrate on petition the presence of the drawings/figures by presentation of evidence of deposit (e.g., date-stamped receipt card, EFS Acknowledgement Receipt); or submit the drawings/figures and accept the date of submission as the filing date. The Office gave Petitioner two (2) months within which to reply.

On 9 April, 2009, Petitioner filed, *inter alia*, a petition with fee, an amendment (which appears not to be a proper amendment in that Petitioner has incorporated the amendment into the petition) and 3 sheets of drawings, FIGS. 1-3, averred to be a copy from the parent of the previously omitted drawings FIGS. 1-3, from the parent/previously-filed Japan Application No. 2008-065377, filed on 13 March, 2008, to which application a priority claim was made in the instant application (application data sheet (ADS)).

Petitioner asserts that the drawing/figures were inadvertently omitted from the instant application; and points to the prior filed Japan Application No. 2008-065377, filed on 13 March, 2008, and now seeks to obtain an incorporation by reference herein under the provisions of 37

C.F.R. §1.57(a). Petitioner appears to have filed an amendment under the rule, however, as noted above, the amendment appears not to be proper in that it is incorporated into the petition.

Petitioner's arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one method/process/composition claim. MPEP §601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. §113 (first sentence). The same practice has been followed in composition applications.

Thus, pursuant to §601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application.

The express incorporation by reference entitled Petitioner to file an amendment under 37 C.F.R. §1.57(b) to add the subject matter of the non-provisional application into the disclosure of this application. Please note that no petition is required for that purpose and that the amendment must comply with 37 C.F.R. §1.57(b) and 37 C.F.R. §1.121 (*See*: MPEP §201.06(c)(IV).) Any amendment to include the inadvertently omitted drawing(s) will be considered by the examiner.

The Petition fee is waived and is being refunded *via* deposit account. Should Petitioner later find that a petition fee was not refunded, Petitioner should request a refund from the Office of Finance and enclose therewith a copy of this decision.

Pursuant to this decision, the application will be referred to the Office of Patent Application Processing (OPAP) for:

- **correction of the filing date to 13 March, 2009**;
- **indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **issuance of a filing receipt.**

Telephone inquiries concerning this matter should be directed to John J Gillon, Jr., attorney, at (571) 272-3214. Inquiries regarding initial patent application processing should be directed to OPAP at (703) 308-9210.

In re Application of	:	
Brady et al.	:	DECISION ON PETITION
Application No. 12/403,518	:	TO MAKE SPECIAL UNDER
Filed: 3/13/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **H0017932-01**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 12/10/2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face

that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 44/308.000) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action in its regular turn.

In re Application of	:	
Brady et al.	:	DECISION ON PETITION
Application No. 12/403,518	:	TO MAKE SPECIAL UNDER
Filed: 3/13/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **H0017932-01**	:	PILOT PROGRAM

This is a decision on the request for reconsideration, filed 3/5/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DENIED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition

must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1.

Applicants arguments regarding the suggested classification have been considered but are not deemed to be persuasive. While applications are routinely cross referenced in multiple related classes/subclasses, the Original classification is determined by the following factors:

1) Hierarchy of categories of subject matter (e.g. method of using claims determine classification over article claims).

2) Superiority of types of subject matter (e.g. chemical subject matter controls over electrical subject matter).

3) Class superiority. All classes in the US Classification system are assigned a relative superiority. This listing of all classes arranged by their relative superiority can be found on the USPTO website on the Classification Home Page under the link entitled "Classes Within the US Classification System Arranged by Related Subjects." Within each class, the highest appropriate subclass will also be used to determine original classification.

Based on the criteria above, the current Original classification is deemed to be appropriate.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action in its regular turn.

MAY 07 2009

OFFICE OF PETITIONS

In re Application of :
Hariu et al :
Application No. 12/403,716 : ON PETITION
Filed: March 13, 2009 :
Attorney Docket No. MNL-2018-2266 :

This is a decision on the petition under 37 CFR 1.57(a)(3), filed April 14, 2009, requesting that the above-identified application be accorded a filing date of March 13, 2009.

The petition under 37 CFR 1.57(a)(3) is **DISMISSED**.

Any renewed petition must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. This is **not** a final agency action within the meaning of 5 U.S.C.§ 704.

Application papers in the above-identified application were filed on March 13, 2009. However, on March 23, 2009, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings, as required by 35 U.S.C. 113.

In response, applicants timely filed this petition. In which, applicants acknowledge inadvertently omitting all drawings when the present application was deposited. Applicants argue, however, that a filing date of March 13, 2009, should still be accorded to the application pursuant to § 1.57(a)(3).

The applicable rule provides (in pertinent part):

§ 1.57 Incorporation by reference.

(a) Subject to the conditions and requirements of this paragraph, if all or a portion of the specification or drawing(s) is inadvertently omitted from an application, but the application contains a claim under § 1.55 for priority of a prior-filed foreign application, or a claim under § **1.78** for the benefit of a prior-filed provisional, nonprovisional, or international application, that was present on the filing date of the application, and the inadvertently omitted portion of the specification or drawing(s) is completely contained in the prior-filed application, the claim under § **1.55** or § 1.78 shall also be considered an incorporation by reference of the prior-filed application as to the inadvertently omitted portion of the specification or drawing(s).

(1) The application must be amended to include the inadvertently omitted portion of the specification or drawing(s) within any time period set by the Office, but in no case later than the close of prosecution as defined by § **1.114**(b), or abandonment of the application, whichever occurs earlier. The applicant is also required to:

(i) Supply a copy of the prior-filed application, except where the prior-filed application is an application filed under **35 U.S.C. 111**;

(ii) Supply an English language translation of any prior-filed application that is in a language other than English; and

(iii) Identify where the inadvertently omitted portion of the specification or drawings can be found in the prior-filed application.

...

(3) If an application is not otherwise entitled to a filing date under § **1.53**(b), the amendment must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § **1.17**(f).

It is noted that the application as filed included a claim under 37 CFR 1.55 for the benefit of two prior-filed Japanese applications – Application No. 2008-071687 and Application No. 2008-276854. Thus, pursuant to 1.57, the application as filed is considered to have incorporated by reference the prior filed applications as to the inadvertently omitted drawings.

The instant petition includes an amendment adding the inadvertently omitted drawings, a copy of each of the prior-filed applications, and an identification of where the inadvertently omitted drawings may be found in the prior-filed applications, along with the $400.00 petition fee.

However, the petitioners have not filed an English language translation of the Japanese applications.

Therefore, the petition is **DISMISSED**.

Telephone inquiries concerning this matter may be directed to Senior Petitions Attorney Shirene Willis Brantley at (571) 272-3230.

JUL 0 2 2009

OFFICE OF PETITIONS

In re Application of :
Hariu et al :
Application No. 12/403,716 : ON PETITION
Filed: March 13, 2009 :
Attorney Docket No. MNL-2018-2266 :

This is a decision on the renewed petition under 37 CFR 1.57(a)(3), filed May 27, 2009, requesting that the above-identified application be accorded a filing date of March 13, 2009.

The petition under 37 CFR 1.57(a) is **GRANTED**.

Application papers in the above-identified application were filed on March 13, 2009. However, on March 23, 2009, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants that the application papers had not been accorded a filing date because the application was deposited without drawings, as required by 35 U.S.C. 113.

Applicants' first Rule 57(a)(3) petition, filed April 14, 2009, was dismissed on May 7, 2009. In response, applicants timely filed this renewed petition. In which, applicants acknowledge inadvertently omitting the drawings when the present application was deposited. Applicants argue, however, that the filing date of March 13, 2009, should still be accorded pursuant to § 1.57(a)(3).

The applicable rule provides (in pertinent part):

> **§ 1.57 Incorporation by reference.**
>
> (a) Subject to the conditions and requirements of this paragraph, if all or a portion of the specification or drawing(s) is inadvertently omitted from an application, but

the application contains a claim under § 1.55 for priority of a prior-filed foreign application, or a claim under § **1.78** for the benefit of a prior-filed provisional, nonprovisional, or international application, that was present on the filing date of the application, and the inadvertently omitted portion of the specification or drawing(s) is completely contained in the prior-filed application, the claim under § **1.55** or § 1.78 shall also be considered an incorporation by reference of the prior-filed application as to the inadvertently omitted portion of the specification or drawing(s).

(1) The application must be amended to include the inadvertently omitted portion of the specification or drawing(s) within any time period set by the Office, but in no case later than the close of prosecution as defined by § **1.114**(b), or abandonment of the application, whichever occurs earlier. The applicant is also required to:

(i) Supply a copy of the prior-filed application, except where the prior-filed application is an application filed under **35 U.S.C. 111**;

(ii) Supply an English language translation of any prior-filed application that is in a language other than English; and

(iii) Identify where the inadvertently omitted portion of the specification or drawings can be found in the prior-filed application.

...

(3) If an application is not otherwise entitled to a filing date under § **1.53**(b), the amendment must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § **1.17**(f).

It is noted that the application as filed included a claim under 1.55 for the benefit of two prior-filed Japanese applications – Application No. 2008-071687 and Application No. 2008-276854. Thus, pursuant to 1.57, the application as filed is considered to have incorporated by reference the prior filed applications as to the inadvertently omitted drawings.

Petitioners have filed an amendment adding the inadvertently omitted drawings, a copy of each of the prior-filed applications, an English language translation of the applications, an identification of where the inadvertently omitted drawings may be found in the prior-filed applications, and the $400.00 petition fee.

In view of the incorporation by reference of the prior applications, the drawings supplied on April 14, 2009, would not constitute new matter if it were a part of the original disclosure of the prior applications. Of course, the examiner is expected to compare the drawings supplied on April 14, 2009, to the drawings in prior Application No. 2008-071687 and Application No. 2008-

276854 in order to verify that the drawings are accurate copies of the prior drawings and that they contains no new matter.

In view thereof, the petition is **GRANTED**.

The application is being forwarded to the Office of Patent Application Processing (OPAP) for **according of a filing date of March 13, 2009**, including the copy of the drawings from the prior applications, which were supplied on March 13, 2009. Applicants will receive appropriate notifications regarding the fees owed, if any, and other information in due course from OPAP.

Telephone inquiries concerning this matter may be directed to Senior Petitions Attorney Shirene Willis Brantley at (571) 272-3230.

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 27-MAY-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

In re Application of:
CLAYMAN, HENRY M.
Application No. 12/404,032
Filing Date: March 13, 2009
Attorney Docket No. CLAY801

DECISION ON PETITION

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed December 16, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to reply in a timely manner to the Notice to File Missing Parts of Nonprovisional Application (Notice), mailed April 6, 2009. The Notice set a period for reply of two (2) months from the mail date of the Notice. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, the application became abandoned **as of midnight** on June 6, 2009.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of replacement drawings, (2) the small entity petition fee of $810.00, and (3) a proper statement of unintentional delay. Accordingly, the reply to the Notice to File Missing Parts of Nonprovisional Application of December 11, 2009 is accepted as having been unintentionally delayed.

Telephone inquiries concerning this decision should be directed to Anthony Knight at (571)-272-3687.

This application is being referred to the Office Patent Application Processing.

In re Application of	:	
LEE, ALBERT et al	:	DECISION ON REQUEST TO
Application No. 12/404,090	:	PARTICIPATE IN PATENT
Filed: March 13, 2009	:	PCT/PROSECUTION HIGHWAY
Attorney Docket No. 2832-0404PUS1	:	PROGRAM AND PETITION
For: WINDSHIELD WIPER ASSEMBLY	:	37 CFR 1.102(d)

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed July 21, 2010 to make the above-identified application special.

The request and petition are GRANTED.

A grantable request to participate in the PPH program and petition to make special require:
(1) The U.S. application must disclose an eligible relationship to one or more PCT applications filed in the JPO, EPO, KIPO or USPTO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the PCT application(s) latest international work product (the written opinion or the IPER) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the PCT application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of the latest international work product from the PCT application containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate; and
(6) Applicant must submit an IDS listing the documents cited by the PCT examiner in the international work product along with copies of documents except U.S. patents or U.S. patent application publications.

In light of the petition being properly submitted, the request to participate in the PPH program and the petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

The applicant is encouraged to cite and submit all relevant prior art references, if any, to facilitate examination in this application.

All other inquiries concerning the examination or status of the application should be directed to Monica Carter, the SPE of Art Unit 3727, and 571-272-4475 for Class 015/250.201 and also accessible in the PAIR system at http://www.uspto.gov/ebc.index.html.

All other inquiries concerning the examination or status of the application should be directed to the Patent Application Information Retrieval (PAIR) system.

The application will be docketed to an examiner for action on the merits commensurate with this decision.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen, at 571-272-4856.

The petition is **granted.**

In re Application of :
Rasmussen et al. : DECISION ON PETITION
Application No. 12/404,139 : TO MAKE SPECIAL UNDER
Filed: 12/404,139 : THE GREEN TECHNOLOGY
Attorney Docket No. **18029.3** : PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 1/25/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 159/004.010) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

not deemed to be persuasive. While applications are routinely cross referenced in multiple related classes/subclasses, the Original classification is determined by the following factors:

1) Hierarchy of categories of subject matter (e.g. method of using claims determine classification over article claims).

2) Superiority of types of subject matter (e.g. chemical subject matter controls over electrical subject matter).

3) Class superiority. All classes in the US Classification system are assigned a relative superiority. This listing of all classes arranged by their relative superiority can be found on the USPTO website on the Classification Home Page under the link entitled "Classes Within the US Classification System Arranged by Related Subjects."

Based on the criteria above, the current Original classification is deemed to be appropriate.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action in its regular turn.

In re Application of	:	
Rasmussen et al.	:	DECISION ON PETITION
Application No. 12/404,139	:	TO MAKE SPECIAL UNDER
Filed: 3/13/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **18029.3**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 5/27/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must have no more than 3 independent claims and no more than 20 total claims. 2) The application must not contain any multiple dependent claims. 3) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 4) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 8 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action on the merits commensurate with this decision.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☐ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☑ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

OFFICE OF PETITIONS

In re Application of :
Richard B. TIMMONS, et al :
Application No. 12/404,172 : DECISION ON PETITION
Filed: March 13, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No. UTAR:1014 : 37 CFR 1.102(c)(1)
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed August 31, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a copy of Applicant Richard B. Timmons passport. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-6735.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to Technology Center Art Unit 1796 for action on the merits commensurate with this decision.

26111
STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.
1100 New York Avenue
Washington, DC 20005

In re Application of	:
Vincent ANTLE, Olathe, KS	: DECISION ON PETITION TO MAKE
Serial No.: 12/404,174	: SPECIAL FOR NEW APPLICATION
Filed: March 13, 2009	: UNDER 37 C.F.R. § 1.102 & M.P.E.P.
Attorney Docket No.:	: § 708.02
2364.0500001/JUK/ASL	

This is a decision on the petition filed on March 13, 2009, to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in an agreement that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a Final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the Final Office action, applicant must: 1) promptly file a Notice of Appeal, an Appeal Brief and Appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after Final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a Final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Cecilia Tsang, SPE, TC1600 at (571) 272-0562.

OFFICE OF PETITIONS

In re Application of	:	
Chiyoko Sawada and Tomonori	:	
Sato	:	
Application No. 12/404,206	:	DECISION ON PETITION
Filed: March 13, 2009	:	PURSUANT TO
Attorney Docket No.	:	37 C.F.R. § 1.47(A)
103933.00002	:	
Title: IMAGE FORMING METHOD,	:	
IMAGE FORMING PROGRAM, AND	:	
IMAGE FORMING APPARATUS	:	

This is in response to the petition pursuant to 37 C.F.R. § 1.47(a), filed August 25, 2009.

This petition pursuant to 37 C.F.R. § 1.47(a) is **DISMISSED**.

On March 13, 2009, the application was filed, identifying Chiyoko Sawada and Tomonori Sato as the joint inventors. The application was deposited without an oath or declaration. On March 31, 2009, a "Notice to File Missing Parts of Nonprovisional Application - Filing Date Granted" (notice) was mailed, requiring a fully executed oath or declaration and the surcharge associated with the late submission of the same. The notice set a two-month period for response.

A grantable petition pursuant to 37 C.F.R. § 1.47(a) requires:

(1) the petition fee of $200;
(2) a surcharge of either $65 or $130 if the petition is not filed at the time of filing the application, as set forth in 37 C.F.R. § 1.16(f);
(3) a statement of the last known address of the non-signing inventors;
(4) either
    a) proof that a copy of the entire

application (specification, claims, drawings, and the oath or declaration) was sent or given to the non-signing inventor for review and proof that the non-signing inventor refuses to join in the application or

b) proof that the non-signing inventor cannot be found or reached after diligent effort, and;

(5) a declaration which complies with 37 C.F.R. § 1.63.

With this petition, Petitioner has included, *inter alia*, the last known address of the non-signing joint inventor, an assertion that this individual "could not be reached after diligent effort,"[1] a declaration that has been executed by the second named joint inventor along with the fee that is associated with the late submission of the same, the petition fee, and a three-month extension of time so as to make timely this submission.

Requirements (1) - (3) of 37 C.F.R. § 1.47(a) have been satisfied.

Regarding the fourth requirement of Rule 1.47(a), Petitioner has not submitted adequate proof that diligent efforts have been made to locate the non-signing inventor. Petitioner has set forth that the non-signing joint inventor cannot be reached, and as such, Petitioner is required to establish that a diligent effort was made to locate the non-signing inventor. Petitioner has indicated that "publicly available telephone number listings for Tokyo" and "pertinent business records" were reviewed,[2] and an address other than the last known address was not located. As such, it is clear that the search was narrowly tailored to only search for records in the city of Tokyo, and it is possible that only business documents which predate the non-signing inventor's retirement were reviewed. It is plausible that Mr. Sadawa, after retiring, has since moved to another city, and as such, the search was too narrow to constitute a diligent search. Therefore, it does not appear that the search was sufficiently broad so as to provide a reasonable chance of success.

Prior to filing the renewed petition, Petitioner should perform a search that is more likely to locate this non-signing inventor. Documentary evidence of this search should be provided on renewed petition. Alternatively, it is noted that a copy of this application was mailed to the non-signing inventor's last known address on June 12, 2009[3] and that the mailing was successfully

1 Petition, page 1.
2 Hayami declaration of facts, paragraphs 2-3.
3 Niijima declaration of facts, paragraph 2.

delivered.[4] **If Petitioner is able to assert on renewed petition that the non-signing inventor has refused to execute the declaration, and if Mr. Niijima confirms that it was a complete copy of the application that was sent on June 12, 2009, the fourth requirement of Rule 1.47(a) will have been satisfied, and no additional search for this individual need be undertaken.**

Regarding the fifth requirement of Rule 1.47(a), the declaration that was submitted concurrently with this petition fails to comply with 37 C.F.R. § 1.63(c)(1). The last known address of the non-signing inventor is an address that appears to be a residential address in the city of Tokyo. The declaration however lists Mr. Sawada's post office address as the address of Konica Minolta Software in the city of Kanagawa, and the record indicates that Mr. Sawada is no longer employed by Konica Minolta Software.[5] As such, this address appears to be outdated, since it does not seem likely that Mr. Sadawa "customarily receives mail"[6] at the address of his former employer.

On renewed petition, Petitioner will need to submit an oath, a declaration, or a supplemental application data sheet which contains/corrects the correct address of non-signing inventor Sawada.

If reconsideration of this decision is desired, any response to this decision must be submitted within **TWO MONTHS** from the mail date of this decision. Extensions of time under 37 C.F.R. § 1.136(a) are permitted. The reply should include a cover letter entitled "Renewed Petition pursuant to 37 C.F.R. § 1.47(a)". This is not a final agency action within the meaning of 5 U.S.C § 704.

Any response to this decision should indicate in a prominent manner that the attorney handling this matter is Paul Shanoski, and may be submitted by mail,[7] hand-delivery,[8] or facsimile.[9] Registered users of EFS-Web may alternatively submit a response to this decision via EFS-Web.[10]

If responding by mail, Petitioner is advised not to place the undersigned's name on the envelope. Only the information that

1 MARITIME PLAZA, SUITE 300
SAN FRANCISCO CA 94111

In re Application of :
Chiyoko Sawada and Tomonori :
Sato :
Application No. 12/404,206 : DECISION ON RENEWED PETITION
Filed: March 13, 2009 : PURSUANT TO
Attorney Docket No. : 37 C.F.R. § 1.47(A)
103933.00002 :
Title: IMAGE FORMING METHOD, :
IMAGE FORMING PROGRAM, AND :
IMAGE FORMING APPARATUS :

This is in response to the renewed petition pursuant to 37 C.F.R. § 1.47(a), filed November 18, 2009.

This renewed petition pursuant to 37 C.F.R. § 1.47(a) is **DISMISSED.**

On March 13, 2009, the application was filed, identifying Chiyoko Sawada and Tomonori Sato as the joint inventors. The application was deposited without an oath or declaration. On March 31, 2009, a "Notice to File Missing Parts of Nonprovisional Application - Filing Date Granted" (notice) was mailed, requiring a fully executed oath or declaration and the surcharge associated with the late submission of the same. The notice set a two-month period for response.

A grantable petition pursuant to 37 C.F.R. § 1.47(a) requires:

(1) the petition fee of $200;
(2) a surcharge of either $65 or $130 if the petition is not filed at the time of filing the application, as set forth in 37 C.F.R. § 1.16(f);
(3) a statement of the last known address of the non-signing inventors;
(4) either

a) proof that a copy of the entire application (specification, claims, drawings, and the oath or declaration) was sent or given to the non-signing inventor for review and proof that the non-signing inventor refuses to join in the application or

b) proof that the non-signing inventor cannot be found or reached after diligent effort, and;

(5) a declaration which complies with 37 C.F.R. § 1.63.

An original petition pursuant to 37 C.F.R. § 1.47(a) was filed on August 25, 2009, along with, *inter alia*, the last known address of the non-signing joint inventor, an assertion that this individual "could not be reached after diligent effort,"[1] a declaration that has been executed by the second named joint inventor along with the fee that is associated with the late submission of the same, the petition fee, and a three-month extension of time so as to make timely the submission. The original petition was dismissed via the mailing of a decision on September 28, 2009, which indicated that requirements (1) - (3) of 37 C.F.R. § 1.47(a) had been satisfied.

With this renewed petition, Petitioner has indicated that on June 12, 2009, both a complete copy of the application and a copy of the declaration were sent to the last-known address of the non-signing inventor,[2] and that the delivery confirmation which was received from the delivery service contains "Ms. Sawada's signature in Japanese."[3] The Office is construing this language to mean that Petitioner no longer believes that the non-signing individual "could not be reached,"[4] and is now asserting that she has refused to join in the application after having been provided with a complete copy of the application. Petitioner must notify the Office if this is not a correct interpretation of the statement contained in this petition. It follows that the fourth requirement of 37 C.F.R. § 1.47(a) has been satisfied.

To date, requirements (1) - (4) of 37 C.F.R. § 1.47(a) have been satisfied.

Regarding the fifth requirement of Rule 1.47(a), the declaration that was submitted concurrently with the original petition could not be accepted, as it fails to comply with 37 C.F.R.

---

1 Original Petition, page 1.
2 Niijima declaration of facts provided with renewed petition, paragraph 2.
3 Renewed Petition, page 2. See also Exhibit A, submitted with renewed petition.
4 Original Petition, page 1.

§ 1.63(c)(1) - it contains an outdated address for the non-signing joint inventor. With this renewed petition, Petitioner has attempted to correct this deficiency via the submission of a properly titled Supplemental Application Data Sheet (ADS). However, this Supplemental ADS cannot be entered, as it has not been executed. Petitioner will note that an ADS filed with the application is not required to be signed unless the ADS includes a nonpublication request. 37 C.F.R. § 1.33(b) requires that amendments and other papers, except for written assertions pursuant to 37 C.F.R. § 1.27(c)(2)(ii), filed in the application must be signed by an appropriate party. Therefore, a supplemental ADS filed after the filing of an application must be signed in accordance with 37 C.F.R. §1.33(b).

On second renewed petition, Petitioner will need to submit a supplemental application data sheet which contains/corrects the correct address of non-signing inventor Sawada and has been executed.

If reconsideration of this decision is desired, any response to this decision must be submitted within **TWO MONTHS** from the mail date of this decision. Extensions of time under 37 C.F.R. § 1.136(a) are permitted. The reply should include a cover letter entitled "Second Renewed Petition pursuant to 37 C.F.R. § 1.47(a)". This is not a final agency action within the meaning of 5 U.S.C § 704.

Any response to this decision should indicate in a prominent manner that the attorney handling this matter is Paul Shanoski, and may be submitted by mail,[5] hand-delivery,[6] or facsimile.[7] Registered users of EFS-Web may alternatively submit a response to this decision via EFS-Web.[8]

If responding by mail, Petitioner is advised not to place the undersigned's name on the envelope. Only the information that appears in the footnote should be included - adding anything else to the address will delay the delivery of the response to the undersigned.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3225.[9] All other inquiries

OFFICE OF PETITIONS

In re Application of	:	
Chiyoko Sawada and Tomonori Sato	:	
Application No. 12/404,206	:	DECISION NOTING JOINDER AND
Filed: March 13, 2009	:	DISMISSING SECOND RENEWED
Attorney Docket No.	:	PETIITON PURSUANT TO 37
103933.00002	:	C.F.R. § 1.47(A) AS MOOT
Title: IMAGE FORMING METHOD,	:	
IMAGE FORMING PROGRAM, AND	:	
IMAGE FORMING APPARATUS	:	

This is in response to the second renewed petition pursuant to 37 C.F.R. § 1.47(a), filed January 12, 2010.

On March 13, 2009, the application was filed, identifying Chiyoko Sawada and Tomonori Sato as the joint inventors. The application was deposited without an oath or declaration. On March 31, 2009, a "Notice to File Missing Parts of Nonprovisional Application - Filing Date Granted" (notice) was mailed, requiring a fully executed oath or declaration and the surcharge associated with the late submission of the same. The notice set a two-month period for response.

A grantable petition pursuant to 37 C.F.R. § 1.47(a) requires:

(1) the petition fee of $200;
(2) a surcharge of either $65 or $130 if the petition is not filed at the time of filing the application, as set forth in 37 C.F.R. § 1.16(f);
(3) a statement of the last known address of the non-signing inventors;
(4) either
    a) proof that a copy of the entire application (specification, claims, drawings, and the oath or declaration) was sent or given to the non-signing

inventor for review and proof that the non-signing inventor refuses to join in the application or

b) proof that the non-signing inventor cannot be found or reached after diligent effort, and;

(5) a declaration which complies with 37 C.F.R. § 1.63.

An original petition pursuant to 37 C.F.R. § 1.47(a) was filed on August 25, 2009, along with, *inter alia*, the last known address of the non-signing joint inventor, an assertion that this individual "could not be reached after diligent effort,"[1] a declaration that has been executed by the second named joint inventor along with the fee that is associated with the late submission of the same, the petition fee, and a three-month extension of time so as to make timely the submission. The original petition was dismissed via the mailing of a decision on September 28, 2009, which indicated that requirements (1) - (3) of 37 C.F.R. § 1.47(a) had been satisfied.

A renewed petition pursuant to 37 C.F.R. § 1.47(a) was filed on November 18, 2009, and was dismissed via the mailing of a decision on December 7, 20009, which indicated that the fourth requirement of 37 C.F.R. § 1.47(a) has been satisfied.

With this second renewed petition, Petitioner has submitted a declaration that has been properly executed by formerly non-signing joint inventor Chiyoko Sawada.

As such, this second renewed petition is **DISMISSED AS MOOT.**

In view of the joinder of the joint inventor, further consideration under 37 CFR § 1.47(a) is not necessary and the petition is considered moot. This application does not have any Rule 1.47(a) status and no such status should appear on the file wrapper. **This application need not be returned to this Office for further consideration under 37 CFR § 1.47(a).**

The Office of Patent Application Processing (OPAP) will be notified of this decision, and jurisdiction over the application is transferred to OPAP, so that the application may receive further processing.

Petitioner will receive appropriate notifications regarding the fees owed, if any, and other information in due course from OPAP.

---

1 Original Petition, page 1.

The general phone number for OPAP is 571-272-4000. Telephone inquiries **regarding this decision** should be directed to the undersigned at (571) 272-3225.[2]

Attorney Docket No. 6639P649

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request for reconsideration to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed October 23, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kenneth Wieder at 571-272-2986.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Application No.: 12/404,213	**: PROSECUTION HIGHWAY**
Filed: 13 March 2009	**: PROGRAM AND PETITION**
Attorney Docket No.: 6639P650	**: TO MAKE SPECIAL UNDER**
For: PRINTED CIRCUIT BOARD AND ELECTRONIC DEVICE	**: 37 CFR 1.102(d)**

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed 03 December 2009, to make the above-identified application special.

The request and petition are **GRANTED**.

Discussion

A grantable request to participate in the PPH pilot program and petition to make special require:

1. The U.S. application is

    a. a Paris Convention application which either
        i. validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the JPO, or
        ii. validly claims priority to a PCT application that contains no priority claims, or
    b. a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
        i. validly claims priority to an application filed in the JPO, or
        ii. validly claims priority to a PCT application that contains no priority claims, or
        iii. contains no priority claim, or
    c. a so-called bypass application filed under 35 U.S.C. 111(a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
        i. validly claims priority to an application filed in the JPO, or
        ii. validly claims priority to a PCT application that contains no priority claims, or
        iii. contains no priority claim;

2. Applicant must submit a copy of:
    a. The allowable/patentable claim(s) from the JPO application(s);
    b. An English translation of the allowable/patentable claim(s) and
    c. A statement that the English translation is accurate;
3. Applicant must:
    a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s) and
    b. Submit a claims correspondence table in English;
4. Examination of the U.S. application has not begun;
5. Applicant must submit:
    a. Documentation of prior office action:
        i. a copy of the office action(s) just prior to the "Decision to Grant a Patent" from each of the JPO application(s) containing the allowable/patentable claim(s) or
        ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
        iii. if the JPO application is a first action allowance then no office action from the JPO is necessary should be indicated on the request/petition form;
    b. An English language translation of the JPO Office action from (5)(a)(i)-(ii) above
    c. A statement that the English translation is accurate;
6. Applicant must submit:
    a. An IDS listing the documents cited by the JPO examiner in the JPO office action (unless already submitted in this application)
    b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);
7. The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Inquiries concerning this decision should be directed to Lee W. Young at 571-272-4549.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc.index.html.

This application will be forwarded to the examiner for action on the merits commensurate with this decision once a formalities review has been completed.

In re Application of :
Allawi, et al. :
Application No. 12/404,240 :
Filed: March 13, 2009 :
Attorney Docket No. FORS-30277/US-2/ORD :

DECISION ACCORDING STATUS
UNDER 37 CFR 1.47(a)

This is in response to the petition under 37 CFR 1.47, filed May 13, 2009, which is being treated as a petition under 37 CFR 1.47(a).

The petition under 37 CFR 1.47(a) is **GRANTED**.

Petitioner has demonstrated that inventor Lyamichev has refused to sign the declaration. Specifically, Lyamichev was mailed the declaration on March 16, 2009. However, the mailing was returned as unclaimed. In addition, calls and voice-mails to Lyamichev were not returned. While Rule 47 applicant has not shown that Lyamichev was presented with a copy of the application papers, it is concluded that Lyamichev knew what he was being asked to sign.

The above-identified application and papers have been reviewed and found to be in compliance with 37 CFR 1.47(a). Accordingly, the above-identified application is hereby accorded Rule 1.47(a) status. As provided in 37 CFR 1.47(c), this Office will forward

notice of this application's filing to the non-signing inventors at the last known address provided in the petition. Notice of the filing of this application will also be published in the Official Gazette.

The $200 petition fee has been charged to Deposit Account No. 50-4302.

The matter is being forwarded to the Office of Patent Application Processing for pre-examination processing.

Telephone inquiries related to this decision may be directed to the undersigned at (571)272-3207.

Allawi, et al.
Application No. 12/404,240
Filed: March 13, 2009
Title: Compositions and Methods for Analysis of Nucleic Acid Molecules During Amplication Reactions

LETTER

Dear Mr. Allawi:

You are named as a joint inventor in the above-identified United States patent application filed under the provisions of 35 USC 116 (United States Code) and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a joint inventor, you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, agent of record would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to Petitions Attorney Cliff Congo at (571)272-3207. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (703) 308-9726 or 1-800-972-6382 (outside the Washington D.C. area).

In re Application of
Smolko, et al.
Application No. 12/404,247
Filed: March 13, 2009
Attorney Docket No. APT-09001

: DECISION REFUSING STATUS
: UNDER 37 CFR 1.47(a)

This is in response to the petition under 37 CFR 1.47(a), filed June 18, 2009.

The petition is **DISMISSED**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor. As a preliminary matter, applicant lacks item (3) set forth above.

The merits of the petition will not be considered until petitioner submits the required $200.00 Rule 47(a) petition fee.

Further correspondence with respect to this matter should be addressed as follows:

: DECISION REFUSING STATUS
: UNDER 37 CFR 1.47(a)

This is in response to the renewed petition under 37 CFR 1.47(a), filed July 30, 2009.

The petition is **DISMISSED**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

As to item (2), an oath or declaration for the patent application in compliance with 37 CFR 1.63 and 1.64 still has not been presented. The declaration of June 18, 2009 appears to be incomplete. Only a supplemental sheet to the declaration was filed. Please submit the complete declaration signed by the available inventor. An oath or declaration in compliance with 37 CFR 1.63 and 1.64 signed by Mr. Smolko on behalf of himself and Mr. Kevorkian is REQUIRED. *See* 37 CFR 1.76 and MPEP 409.03(a).

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 13, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

The application as filed is not eligible for the accelerated examination under 37 C.F.R. § 1.102(d) because it was not complete under 37 CFR 1.51 and in condition for examination at the time of filing. The mailing of a Notice to File Missing Parts of Nonprovisional Application on March 24, 2009 is evidence that the application was not complete and in condition for examination at the time of filing.

Note that the policy as published in the Federal Register on June 26, 2006 as outlined on 36326, part I, conditions for examination, section (4), requirements for petitions to make special under accelerated examination, requires an executed oath or declaration under 37 CFR 1.63. As the oath or declaration in compliance with 37 CFR 1.63 was missing at filing, the application is not considered to be complete under 37 CFR 1.51 and not in condition for examination at the time of filing. Therefore, the application is ineligible for consideration under the accelerated examination program.

For the above-stated reasons, the petition is **DENIED**. The application will therefore be taken up by the examiner for action in its regular turn.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Program Examiner, at (571) 272-4828.

OFFICE OF PETITIONS

In re Application of	:	
Morgan T. Johnson	:	
Application No. 12/404,277	:	DECISION ON PETITION
Filed: March 13, 2009	:	TO MAKE SPECIAL UNDER
Attorney Docket No. AISI.P050	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed April 16, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement by the applicant that he is 65 years of age, or more. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Ron Abelson at 571-272-3165 or the undersigned at 571-272-7099.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

MAR 22 2010

In re Application of	:	
Karg	:	DECISION ON PETITION
Application No. 12/404,406	:	TO MAKE SPECIAL UNDER
Filed: 3/16/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **CH920080152US1**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 2/26/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition

must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

As set forth at numeral 7 in the Requirements section of the Notice, the petition to make special must be accompanied by a request for early publication and the publication fee set forth in 37 CFR 1.18(d). Petitioner's deposit account has been charged the $300 early publication fee in accordance with this notice.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1795 for action on the merits commensurate with this decision.

DECISION ON PETITION
TO WITHDRAW
FROM RECORD

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed April 21, 2010.

The request is not approved because it is moot.

A review of the file record indicates that the power of attorney to LATIMER INTELLECTUAL PROPERTY LAW, LLP has been revoked by the assignee of the patent application on April 22, 2010. Accordingly, the request to withdraw under 37 C.F.R. § 1.36(b) is moot.

All future communications from the Office will continue to be directed to the below-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to Tredelle Jackson at 571-272-2783.

NEW YORK, NY 10103-3198

In re Application of
Tamar Tennenbaum et al
Application No. 12/404,622
Filed: March 16, 2009
Attorney Docket No. HEALOR-202.2

: DECISION ON PETITIONS UNDER
: 37 CFR 1.313(c)(2) AND UNDER
: 37 CFR 1.78(a)(3)

This is a decision on the petition under 37 CFR 1.313(c)(2), filed March 19, 2010, to withdraw the above-identified application from issue after payment of the issue fee. This is also a decision on the petition under 37 CFR 1.73(a)(3), filed March 19, 2010, to accept an unintentionally delayed claim under 35 U.S.C. § 120 for the benefit of priority to the prior-filed nonprovisional application set forth in the amendment filed with the petition.

The petition under 37 CFR 1.313(c)(2) is **GRANTED.**

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). See 37 1.313(c)(2).

Petitioner is advised that the issue fee paid on December 7, 2009 in the above-identified application cannot be refunded. If, however, the above-identified application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

The petition under 37 CFR 1.78(a)(3) is **GRANTED**.

A petition for acceptance of a claim for late priority under 37 CFR 1.78(a)(3) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after the expiration of the period specified in 37 CFR 1.78(a)(2)(ii). In addition, the petition under 37 CFR 1.78(a)(3) must be accompanied by:

[1] The request to apply the issue fee to the new Notice may be satisfied by completing and returning the new Issue Fee Transmittal Form PTOL-85(b), which includes the following language thereon: Commissioner for Patents is requested to apply the Issue Fee and Publication Fee (if any) or re-apply any previously paid issue fee to the application identified above. Petitioner is advised that, whether a fee is indicated as being due or not, the Issue Fee Transmittal Form **must** be completed and timely submitted to avoid abandonment. Note the language in bold text on the first page of the Notice of Allowance and Fee(s) Due (PTOL-85).

(1) the reference required by 35 U.S.C. § 120 and 37 CFR 1.78(a)(2)(i) of the prior-filed application, unless previously submitted;
(2) the surcharge set forth in § 1.17(t); and
(3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2)(ii) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional.

All of the above requirements having been satisfied, the late claim for priority under 35 U.S.C. § 120 is accepted as being unintentionally delayed.

The granting of the petition to accept the delayed benefit claim to the prior-filed application under 37 CFR 1.78(a)(3) should not be construed as meaning that this application is entitled to the benefit of the prior-filed application. In order for this application to be entitled to the benefit of the prior-filed application, all other requirements under 35 U.S.C. § 120 and 37 CFR 1.78(a)(1) and (a)(2) must be met. Similarly, the fact that the corrected Filing Receipt accompanying this decision on petition includes the prior-filed application should not be construed as meaning that applicant is entitled to the claim for benefit of priority to the prior-filed application noted thereon. Accordingly, the examiner will, in due course, consider this benefit claim and determine whether the application is entitled to the benefit of the earlier filing date.

A corrected Filing Receipt, which includes the priority claim to the prior-filed nonprovisional application, accompanies this decision on petition.

Any inquiries concerning this decision may be directed to Irvin Dingle at (571) 272-3210. All other inquiries concerning either the examination procedures or status of the application should be directed to the Technology Center.

This matter is being referred to Technology Center Art Unit 1647 for processing of the request for continued examination under 37 1.114 and for consideration of the concurrently filed amendment. This matter is also being referred to Technology Center Art Unit 1647 for consideration by the examiner of applicant's entitlement to claim benefit of priority under 35 U.S.C. § 120 to the prior-filed application.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

WASHINGTON, DC 20005

In re application of Takao Itoh Application No. 12/404,644 Filed: March 16, 2009 For: MOTIVE POWER OUTPUT DEVICE, VEHICLE EQUIPPED WITH THE DEVICE, AND CONTROL METHOD FOR MOTIVE POWER OUTPUT DEVICE	:	DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed December 3, 2009, to make the above-identified application special.

The request and petition are **DISMISSED**.

A grantable request to participate in the PPH pilot program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;

(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;

(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit a copy of the Office action from the JPO application just prior to the "Decision to Grant a Patent" (e.g., the latest "Notification of Reasons for Refusal") from each of the JPO application(s) containing the allowable/patentable claims that are the basis for the request along with an English translation thereof and a statement that the English translation is accurate;

(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO Office action along with copies of documents except U.S. patents or U.S. patent application publications; and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition fail to meet requirement (3) above. JPO claim 1 recites an "input/output restriction setting means for setting input and output restrictions as a maximum electric power that is allowed to be charged into the electric storage means and a maximum electric power that is allowed to be discharged from the electric storage means based on a state of the electric storage means;" whereas, claim 1 of the U.S. application only requires the "maximum electric power that is allowed to be charged into or discharged from the electric storage device based on a state of the electric storage device." The JPO claim requires both; whereas, the U.S. claim requires only one. In a similar fashion, JPO claim 5 requires both; whereas, U.S. claim 7 only requires one since claim 7 recites "charged into or discharged from".

Applicant is given a time period of **ONE MONTH or THIRTY DAYS**, whichever is longer, to correct the deficiencies. **NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.** If the deficiencies are not corrected with the time period given, the application will await action in its regular turn.

Response must submitted by EFS-Web using the document description "Petition to make special under Pat Pros Hwy".

Telephone inquires concerning this decision should be directed to Teri P. Luu at 571-272-7045. All other inquiries concerning the examination or status of the application should be directed to the Patent Application Information Retrieval (PAIR) system.

In re application of
Takao Itoh
Application No. 12/404,644
Filed: March 16, 2009
For: MOTIVE POWER OUTPUT DEVICE, VEHICLE EQUIPPED WITH THE DEVICE, AND CONTROL METHOD FOR MOTIVE POWER OUTPUT DEVICE

: **DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)**

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed April 19, 2010, to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of the latest Office action from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO Office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

In light of renewed petition filed on April 19, 2010, the request to participate in the PPH program complies with the above requirements. Therefore, the above-identified application has been accorded "special" status.

All other inquiries concerning the examination or status of the application should be directed to the Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Any inquiry regarding this decision should be directed to Mikado Buiz, Quality Assurance Specialist, at (571) 272-6578.

OFFICE OF PETITIONS

In re Application of
Rolf Groteluschen, et al.
Application No. 12/404,651
Filed: March 16, 2009
Attorney Docket No. U0901955 (0288-078P)

: DECISION ON PETITION
: UNDER 37 CFR 1.78(a)(6)

This is a decision on the petition under 37 CFR 1.182, filed February 2, 2010 to expedite review of the petition to accept an unintentionally delayed claim for priority.

The Petition is **GRANTED**.

This is also a decision on the petition under 37 CFR 1.78(a)(6), filed December 18, 2009, to accept an unintentionally delayed claim under 35 U.S.C. §119(e) for the benefit of the prior-filed provisional application set forth in the concurrently filed amendment.

The petition is **DISMISSED.**

A petition under 37 CFR 1.78(a)(6) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after expiration of the period specified in 37 CFR 1.78(a)(5)(ii) and must be filed during the pendency of the nonprovisional application. In addition, the petition must be accompanied by:

(1) the reference required by 35 U.S.C. § 119(e) and 37 CFR 1.78(a)(5)(i) to the prior-filed application, unless previously submitted;
(2) the surcharge set forth in § 1.17(t); and
(3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(5)(ii) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional.

This pending nonprovisional application was filed on March 16, 2009, within twelve months of the filing date of the prior-filed provisional application, Application No. 61/207,864, which was filed on March 14, 2008, and for which priority is claimed. A reference to the prior-filed

provisional application has been included in an amendment to the first sentence of the specification following the title.

However, the amendment is not acceptable as drafted since it improperly incorporates by reference the prior-filed application. An incorporation by reference statement added after an application's filing date is not effective because no new matter can be added to an application after its filing date (*see* 35 U.S.C. § 132(a)). If an incorporation by reference statement is included in an amendment to the specification to add a benefit claim under 35 U.S.C. § 120 after the filing date of the application, the amendment would not be proper. When a benefit claim under 35 U.S.C. § 120 is submitted after the filing of an application, the reference to the prior application cannot include an incorporation by reference statement of the prior application. *See* Dart Industries v. Banner, 636 F.2d 684, 207 USPQ 273 (C.A.D.C. 1980). *Note* MPEP §§ 201.06(c) and 608.04(b).

Additionally, the benefit claim should read, "The present application claims benefit under 35 U.S.C. 119(e) of United States provisional Application serial Number 61/207,864 filed March 14, 2008". There is no claim to 12/048,264 as it was converted to provisional application no. 61/207,864 and it no longer exists.

Accordingly, before the petition under 37 CFR 1.78(a)(6) can be granted, a renewed petition under 37 CFR 1.78(a)(6) and either an Application Data Sheet or a substitute amendment (complying with 37 CFR 1.121 and 37 CFR 1.76(b)(5)) deleting the incorporation by reference statement, are required.

As authorized, the $1410 required by 37 CFR 1.78(a)(6)(ii) will be charged to petitioner's Deposit Account No. 50-1721.

OFFICE OF PETITIONS

In re Application of :
Rolf Groteluschen, et al. :
Application No. 12/404,651 : DECISION ON PETITION
Filed: March 16, 2009 : UNDER 37 CFR 1.78(a)(6)
Attorney Docket No. U0901955 (0288-078P) :

This is a decision on the renewed petition under 37 CFR 1.78(a)(6), filed March 3, 2010, to accept an unintentionally delayed claim under 35 U.S.C. §119(e) for the benefit of the prior-filed provisional application set forth in the concurrently filed amendment.

The petition is **GRANTED**.

A petition under 37 CFR 1.78(a)(6) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after expiration of the period specified in 37 CFR 1.78(a)(5)(ii) and must be filed during the pendency of the nonprovisional application. In addition, the petition must be accompanied by:

(1) the reference required by 35 U.S.C. § 119(e) and 37 CFR 1.78(a)(5)(i) to the prior-filed application, unless previously submitted;
(2) the surcharge set forth in § 1.17(t); and
(3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(5)(ii) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional.

Additionally, the instant nonprovisional application must be pending at the time of filing of the reference to the prior-filed provisional application as required by 37 CFR 1.78(a)(5)(ii). Further, the nonprovisional application claiming the benefit of the prior-filed provisional application must have been filed within twelve months of the filing date of the prior-filed provisional application.

All of the above requirements having been satisfied, the late claim for priority under 35 U.S.C. § 119(e) is accepted as being unintentionally delayed.

The granting of the petition to accept the delayed benefit claim to the prior-filed application under 37 CFR 1.78(a)(6) should not be construed as meaning that this application is entitled to the benefit of the filing date of the prior-filed application. In order for this application to be entitled to the benefit of the prior-filed application, all other requirements under 35 U.S.C. §119(e) and 37 CFR 1.78(a)(4) and (a)(5) must be met. Similarly, the fact that the corrected Filing Receipt accompanying this decision on petition includes the prior-filed application should not be construed as meaning that applicant is entitled to the claim for benefit of priority to the prior-filed application noted thereon. Accordingly, the examiner will, in due course, consider this benefit claim and determine whether the application is entitled to the benefit of the earlier filing date.

A corrected Filing Receipt, which includes the priority claim to the prior-filed provisional application, accompanies this decision on petition.

Any inquiries concerning this decision may be directed to April M. Wise at (571) 272-1642. All other inquiries concerning either the examination procedures or status of the application should be directed to the Technology Center.

The application is being forwarded to Technology Center AU 1614 for consideration by the examiner of the claim under 35 U.S.C. §119(e) for the benefit of priority to the prior-filed provisional application.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where

the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Application No. 12/404,663 : DECISION ON
Filed: March 16, 2009 : PETITION TO WITHDRAW
Attorney Docket No. T4339-14721US01 : FROM RECORD
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed April 28, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement by the applicant that he/she is 65 years of age or older. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at 571-272-4618.

All other inquiries concerning the status of the application should be directed to the Office of Patent Examination Processing at 571-272-4000.

Upon completion of the pre-examination processing by the Office of Patent Application Processing, this application will be referred to Technology Center 3748 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of
Harmon, et al.
Application No. 12/404,748
Filed: 16 March, 2009
Attorney Docket No. 069245.011000/US/2

DECISION ON PETITION

This is a decision on the petition filed on 1 June, 2009, under 37 C.F.R. §1.47.

The petition as considered under 37 C.F.R. §1.47(a) is **GRANTED**.

A grantable petition under 37 C.F.R. §1.47(a) requires: (1) petition and fee; (2) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification: description, claims and drawings); (3) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; and (4) a statement of the last known address of the non-signing inventor(s)—with diligence in the effort to ascertain the validity of the address set forth as the reasonably believed to be last known/current/valid address.

Petitioners always are reminded that for transmission by Email of any document to be accepted by the Office, written acknowledgment of receipt and readability will be required.

BACKGROUND

The record indicates:

The instant application was deposited on 16 March, 2009.

On 31 March, 2009, the Office of Patent Application Processing (OPAP) mailed a Notice of Missing Parts (inter alia, oath/declaration, surcharge) and stated therein that a fully executed oath/declaration must be filed.

On Monday, 1 June, 2009, Petitioner Ben D. Tober (Reg. No. 27,760) filed, *inter alia*, request and fee for extension of time, a petition pursuant to 37 C.F.R. §1.47, with an oath/declaration executed by co-inventor Mr. Frey for himself and on behalf of non-signing co-inventor Thomas B. Harmon (Mr. Harmon), accompanied by a statement of Mr. Harmon's reasonably believed to be last known address, with a showing of transmittal/delivery of the entire application (description, claims, abstract, drawing(s)) to the non-signing inventor, and—with the statement by Mr. Harmon's attorney (William E. Johnson, Jr.) that Mr. Harmon had "no desire to become involved in" Petitioner's representations to the Office in the matter, and thus a demonstration of refusal to join/sign in the oath/declaration and application.

The availability of applications and application papers online to applicants/practitioners who diligently associate their Customer Number with the respective application(s) now provides an applicant/practitioner on-demand information as to events/transactions in an application. Thus, now if one wishes to know the progress in and/or status of an application or the accuracy of the data therein, one need only look at the file online.

Out of an abundance of caution, Petitioners always are reminded that those registered to practice *and* all others who make representations before the Office must inquire into the underlying facts of representations made to the Office and support averments with the appropriate documentation–since all owe to the Office the continuing duty to disclose.[1]

CONCLUSION

The instant petition under 37 C.F.R. §1.47(a) is **granted** (status is accorded pursuant to 37 C.F.R. §1.47(a).)

As provided in 37 C.F.R. §1.47(c), this Office will forward notice of this application's filing to the non-signing inventors at the addresses given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

The instant application is released to the Office of Patent Application Processing (OPAP) for further processing in due course.

---

[1] See supplement of 17 June, 1999. The Patent and Trademark Office is relying on petitioner's duty of candor and good faith and accepting a statement made by Petitioner. See Changes to Patent Practice and Procedure, 62 Fed. Reg. at 53160 and 53178, 1203 Off. Gaz. Pat. Office at 88 and 103 (responses to comments 64 and 109)(applicant obligated under 37 C.F.R. §10.18 to inquire into the underlying facts and circumstances when providing statements to the Patent and Trademark Office). See specifically, the regulations at 37 C.F.R. §10.18.

Telephone inquiries regarding this decision may be directed to the undersigned at (571) 272-3214—it is noted, however, that all practice before the Office is in writing (see: 37 C.F.R. §1.2[2]) and the proper authority for action on any matter in this regard are the statutes (35 U.S.C.), regulations (37 C.F.R.) and the commentary on policy (MPEP). Therefore, no telephone discussion may be controlling or considered authority for Petitioner's action(s).

In re Application of
Harmon, et al.
Application No. 12/404,748
Filed: 16 March, 2009
Attorney Docket No. 069245.011000/US/2

DECISION ON PETITION

Dear Thomas B. Harmon:

You are named as an inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. §116 (United States Code), and 37 C.F.R. §1.47 (Code of Federal Regulations), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as an inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 C.F.R. §1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 C.F.R. §1.63.

Should you elect to join in the application, the contact information for Counsel of Record is set forth at the end of this Communication.

Should you seek to identify independent Counsel, you may find the Patent Attorneys/Agents Search engine of assistance (https://oedci.uspto.gov/OEDCI/).

Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington, DC area).

Telephone inquiries regarding this communication may be directed to the undersigned at (571) 272-3214—it is noted, however, that all practice before the Office is in writing (see: 37 C.F.R. §1.2[1]) and the proper authority for action on any matter in this regard are the statutes (35 U.S.C.), regulations (37 C.F.R.) and the commentary on policy (MPEP). Therefore, no telephone discussion may be controlling or considered authority for Petitioner's action(s) Moreover, the Office can neither advise you nor recommend Counsel in this matter.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) pilot program and the petition under 37 CFR 1.102(d), filed July 13, 2009 to make the above-identified application special.

The request and petition are **DISMISSED**.

A grantable request to participate in the PPH program and petition to make special require:

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the KIPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the KIPO application that contains the allowable/patentable claims and the KIPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the KIPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the KIPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the KIPO application is a first action allowance then no office action from the KIPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the KIPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:

a. An IDS listing the documents cited by the KIPO examiner in the KIPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition fail to include:

A. Item 2 above. Specifically,

1. Applicant failed to submit the allowable/patentable claim(s) from the KIPO application along with an English translation of the claims and a statement that the English translation of the claims is accurate.

The Petition is **DISMISSED**.

Applicant is given a time period of ONE MONTH or THIRTY DAYS, whichever is longer, to correct the deficiencies. NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.

If the deficiencies are not corrected with the time period given, the application will await action in its regular turn.

Response must submitted by EFS-Web using the document description "Petition to make special under Pat Pros Hwy".

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PILOT PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed Nov. 2, 2009, to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application is
(a) a Paris Convention application which either
(i) validly claims priority under 35 U.S.C. 119(a) and 37 CFR 1.55 to one or more applications filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims,

Or

(b) a national stage application under the PCT (an application which entered the national stage in the U.S. from a PCT international application after compliance with 35 U.S.C. 371), which PCT application
(i) validly claims priority to an application filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim,

Or

(c) a so-called bypass application filed under 35 U.S.C. 111 (a) which validly claims benefit under 35 U.S.C. 120 to a PCT application, which PCT application
(i) validly claims priority to an application filed in the KIPO, or
(ii) validly claims priority to a PCT application that contains no priority claims, or
(iii) contains no priority claim.

Where the KIPO application that contains the allowable/patentable claims is not the same application for which priority is claimed in the U.S. application, applicant must identify the relationship between the KIPO application that contains the allowable/patentable claims and the KIPO priority application claimed in the U.S. application.

(2) Applicant must submit a copy of:
a. The allowable/patentable claim(s) from the KIPO application(s) or if a copy of the allowable/patentable claims is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy;
b. An English translation of the allowable/patentable claim(s) and
c. A statement that the English translation is accurate;

(3) Applicant must:
a. Ensure all the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s) and
b. Submit a claims correspondence table in English;

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit:
a. Documentation of prior office action:
i. a copy of the office action(s)just prior to the "Decision to Grant a Patent" from each of the KIPO application(s) containing the allowable/patentable claim(s) or
ii. if the allowable/patentable claims(s) are from a "Notification of Reasons for Refusal" then the Notification of Reasons for Refusal or
iii. if the KIPO application is a first action allowance then no office action from the KIPO is necessary should be indicated on the request/petition form;

Further, if a copy of the documents from a or b above is available via the Dossier Access System (DAS) applicant may request the USPTO obtain a copy from the DAS, however if the USPTO is unable to obtain a copy from the DAS the applicant will be required to submit a copy; b. An English language translation of the KIPO Office action from (5)(a)(i)-(ii) above c. A statement that the English translation is accurate;

(6) Applicant must submit:
a. An IDS listing the documents cited by the KIPO examiner in the KIPO office action (unless already submitted in this application)
b. Copies of the documents except U.S. patents or U.S. patent application publications (unless already submitted in this application);

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH pilot program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Mano Padmanabhan at 571-272-4210.

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

In re Application of	:	
TAKAO, YUJI	:	DECISION ON REQUEST TO
Application No. 12/404,985	:	PARTICIPATE IN PATENT
Filed: March 16, 2009	:	PROSECUTION HIGHWAY
Attorney Docket No. **SUTOSH.358AUS**	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed October 13, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Doris To at 571-272-7629.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 16, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions set forth under section I. above are considered to have been met. However, the petition fails to comply with conditions set forth under section II items 5.2, 5.3.

For these reasons cited above, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement in item 5.2 and 5.3 above, the preexamination search document provided with the instant petition is deficient as follows: The US field of search and database searches which are to be provided under section 8(A) are not sufficient. In addition to the search areas provided, applicant would also need to search in the following class/ subclasses: 369/4; 381/20, 21; 381/98-109, 119; 386/54, 96-99; 700/94. Additionally, the search string is unduly limiting. The search only includes one string for "down mixing". Search strings using specific types of audio especially in TV applications should be included. For example (AC3, "Dolby digital" 5.1. surround, stereo) with (mix fold convert).

If any request for reconsideration is filed, an updated preexamination search must be conducted as per items 5.2 and 5.3 above, and the Preexamination Search Document must be amended to indicate such; a new Information Disclosure Statement should be filed to cite any newly found prior art, and the Accelerated Examination Support Document must also be amended to include the necessary reference and discussion of any newly found and cited prior art in accordance with all of items 6 through 6.6 above; as well as the necessary updated discussion of patentability for each of the dependent claims (or a statement that claims stand or fall together) as set forth above.

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Ken Wieder, Quality Assurance Specialist, at (571) 272-2986.

Title: **METHOD AND AN APPARATUS FOR DECODING AN AUDIO SIGNAL**

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

The petition on reconsideration to make the application special filed June 29, 2009 is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not

file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Ken Wieder, Quality Assurance Specialist, at (571) 272-2986.

OFFICE OF PETITIONS

In re Application of
Lucht, et al.
Application No. 12/405,027
Filed: March 16, 2009
Attorney Docket No. 54060.8054.US01
For: THERMOCHROMIC INDICATOR MATERIALS WITH CONTROLLED REVERSIBILITY

ON PETITION

This is in response to the "PETITION UNDER 37 C.F.R. 1.57(a)," filed June 1, 2009, requesting that the above-referenced application be accorded a filing date of March 16, 2009. This petition is being treated pursuant to 37 CFR 1.53(e)(2)[1]. In addition, this decision addresses the petition under 37 CFR 1.47(a), filed June 1, 2009.

The petition under 37 CFR 1.53(e)(2) is **granted**.

The petition under 37 CFR 1.47(a) is **dismissed**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. Any response should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)" and may include an oath or declaration executed by the inventor. **Failure to respond will result in abandonment of the application.**

Application papers in the above-identified application were deposited on March 16, 2009. However, on April 1, 2009, the Office of Patent Application Processing mailed applicants a "Notice of Incomplete Nonprovisional Application," notifying applicants, *inter alia*, that the application papers had not been accorded a filing date because the application was deposited without drawings. In response, applicants timely filed this petition. Applicants request that the application be amended to include the inadvertently omitted drawings on the basis that the application as filed contained a prior benefit claim under 37 CFR 1.55 or 1.78.

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

Petitioners' arguments and evidence have been considered. However, a review of the application confirms that, as filed, the application contained at least one method claim. MPEP 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. The instant application is entitled to a filing date without drawings present in the application.

Accordingly, the Office should have granted the application a filing date and mailed a Notice of Omitted Items instead of a Notice of Incomplete Nonprovisional Application. As stated in MPEP 601.01(g) under the section entitled, "Application Entitled to a Filing Date," applicant may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a):

> [i]f an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application[.]

Please note that no petition is required and that the amendment must comply with 37 CFR 1.57(a) and 37 CFR 1.121. See MPEP § 201.17. Any amendment to include the inadvertently omitted drawing(s) will be considered by the examiner. It is noted a formal amendment to the drawings accompanied this petition on June 1, 2009.

To the extent the instant petition requests a filing date of March 16, 2009 with no drawings present in the application, the petition is **GRANTED**.

Given the basis for granting this petition, the petition fee is being refunded.

With respect to the petition under 37 CFR 1.47(a):

A grantable petition under 37 CFR 1.47(a) requires:

(1) a petition including proof of the pertinent facts establishing that the joint inventor(s) refuses to join, or cannot be found or reached after diligent effort,
(2) a proper oath or Declaration executed by the available joint inventor(s),
(3) the petition fee of $200, and
(4) the last known address of the omitted inventor(s).

This petition lacks item (1) above. Petitioners have failed to establish that Yu Wang has refused to sign the declaration or cannot be reached. A successful Rule 47 petition requires either (1) a clear refusal to join, whether expressly or by conduct, or (2) a showing of diligence in trying to find an unavailable inventor.

The Office requires that the non-signing inventor be provided with a complete copy of the application as filed. Colleen Kirchner's statement establishes that correspondence was mailed to his two last known addresses via Federal Express. It appears that the packages were mailed Standard Overnight service without signature required. It is unclear as to whether Wang received the packages. It is noted that prior to the mailings, Ms. Kirchner attempted to obtain Mr. Wang's current address from David Sadowski, whose relationship to this application has not been specified and Inventor Lucht stated that he was unable to obtain Mr. Wang's cooperation in signing the declaration because he didn't have his current contact information. The Office is not assured that the two last known addresses are valid addresses for Mr. Wang. When was the last time Mr. Wang was successfully contacted at these two addresses?

Petitioners should mail correspondence to the inventor's last known addresses, **return receipt and forwarding address requested**. If a forwarding address is provided, petitioners should then mail a complete copy of the application papers (specification, claims, drawings, oath, etc.) to Mr. Wang's current address, return receipt requested, along with a cover letter of instructions which includes a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct.

If the papers are returned and all other attempts to locate or reach the inventor, e.g., through personnel records, co-workers, E-mail, the Internet or the telephone, etc., continue to fail, then petitioners will have established that the inventor cannot be reached after diligent effort or has refused to join in the application. **The statements of facts must be signed, where at all possible, by a person having firsthand knowledge of the facts recited therein and should be accompanied by documentary evidence in support of the statement of facts.** Print outs of fruitless Internet searches should be filed. It is important that the forthcoming communication contain statements of fact as opposed to conclusions.

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration by the party to whom the refusal was made. Whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration. Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the Rule 47 petitioners that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted.

Further correspondence with respect to the Rule 47(a) petition should be addressed as follows:

By mail: Mail Stop PETITION
Commissioner for Patents
Post Office Box 1450
Alexandria, VA 22313-1450

By hand: U.S. Patent and Trademark Office
Customer Service Window, Mail Stop Petition
Randolph Building
401 Dulany Street
Alexandria, VA 22314

By FAX: (571) 273-8300 - ATTN: Office of Petitions

Pursuant to this decision, the application will be referred to Office of Patent Application Processing for:

- **correction of the filing date to March 16, 2009**;
- **for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing** and
- **for issuance of a filing receipt.**

Telephone inquiries concerning this matter may be directed to Senior Petitions Attorney Shirene Willis Brantley at (571) 272-3230.

Attorney Docket No. 15999.26.3

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 18-JUN-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

DECISION DISMISSING PETITION UNDER 37 CFR 1.138(c)

The declaration of express abandonment will not be recognized

This is in response to the petition under 37 CFR 1.138(c), for express abandonment to avoid publication of the above-identified application.

The petition is dismissed.

The express abandonment will **not** be recognized for the reason(s) indicated below:

1. ☐ The petition under 37 CFR 1.138(c) was not filed in sufficient time to permit the appropriate officials to recognize the abandonment and remove the application from the publication process.
2. ☐ The petition was not signed by a party authorized by 37 CFR 1.33(b)(1), (3) or (4).
3. ☑ The Application was published in compliance with 35 U.S.C. 122(b), and it is available on the USPTO web site at http://www.uspto.gov/patft/index.html.
4. ☐ Petition fee was not paid.

The application **has/will be published** as scheduled.

Telephone inquiries should be directed to the Office of Data Management at (571) 272-4200.

In re Application of	:	
Stephen, LEWIS et al.	:	DECISION ON PETITION
Application No. 12/405125	:	TO MAKE SPECIAL UNDER
Filed: March 16, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 257052-1003	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed April 12th, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1–9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Manjunath Rao at 571-272-0939.

The application is being forwarded to the Technology Center Art Unit 1651 for action on the merits commensurate with this decision.

Title: **METHOD AND AN APPARATUS FOR DECODING AN AUDIO SIGNAL**

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 16, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;
3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

The application as filed is not eligible for accelerated examination under 37 C.F.R. § 1.102(d) because the application, at the time of filing, was not complete. A Notice to File Corrected Application Papers was mailed on March 25, 2009 due to Replacement drawings in compliance with 37 CFR 1.84 and 37 CFR 1.121 (d) are required. The drawings submitted are not acceptable because: The drawing sheets do not have the appropriate margin(s) (see 37 CFR 1.84(g)). Each sheet must include a top margin of at least 2.5 cm. (1 inch), a left side margin of at least 2.5 cm. (1 inch), a right side margin of at least 1.5 cm. (5/8 inch), and a bottom margin of at least 1.0 cm. (3/8 inch).See Figures(s) 10C,11,12.

Therefore, the petition is denied because the application was not complete at the time of filing as per item 3 above. After the application is considered complete by the Office of Initial Patent Examination (OIPE), it will be taken up by the examiner for action in its regular turn.

ONISHI, YUKIO	:	DECISION ON REQUEST TO
Application No. 12/405,180	:	PARTICIPATE IN PATENT
Filed: Mar. 16, 2009	:	PROSECUTION HIGHWAY
Attorney Docket No. 7776P022	:	PROGRAM AND PETITION
For: THERMO-ELEMENT	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program under 37 CFR 1.102(d), filed March 20, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h) of $130.00 has been paid.

The request to participate in the PPH program and petition comply with the above requirements. Receipt of the requested document is acknowledged and has been entered. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen, at 571-272-4856.

All other inquiries concerning the examination or status of the application should be directed to the Supervisory Patent Examiner Thomas Denion, Art Unit 3748, at 571-272-4859

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Application No. 12/405,223 : DECISION ON PETITION
Filed: March 16, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No. 06196.PO13 : 37 CFR 1.102(c)(1)
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed September 22, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement by applicant Noel H.C. Marshall that he/she is age 65 years or older. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at 571-272-4618.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 3714 for action on the merits commensurate with this decision.

In re Application of :
Umberto Gibellini :
Application No. 12/405,229 : DECISION ON PETITION
Filed: March 17, 2009 :
Attorney Docket No. 06089-1-0015 :

This is a decision on the petition under 37 CFR 1.53, filed April 17, 2009, to accord the above-identified application a filing date of March 17, 2009, with 9 sheets of drawings (Figures 1 - 17) as part of the original disclosure.

The petition is **GRANTED**.

Application papers in the above-identified application were filed on March 17, 2009. However, on April 10, 2009, the Initial Patent Examination Division mailed Applicants a "Notice of Incomplete NonProvisional Application." Applicant was notified that the application papers had not been accorded a filing date because the application was deposited without drawings.

In response, Applicant filed the instant petition. Applicants maintain that the application as originally filed included 9 pages of drawings. In support thereof, applicants submitted a Electronic Acknowledgment Receipt identifying this application, itemizing "Drawings-only black and white line drawings" starting

on page 37 and ending on page 45, bearing a United States Patent and Trademark Office date-stamp of March 19, 2007, and bearing a receipt date of March 17, 2009. The receipt indicates that it evidences receipt similar to a postcard as described in MPEP 503.

A postcard receipt which itemizes and properly identifies the items which are being filed serves as *prima facie* evidence of receipt in the Office of all items listed thereon on the date stamped thereon by the Office. See MPEP 503.

Given the basis for granting the petition, the $400 petition fee has been refunded to Deposit Account No. 50-2725.

The application is being forwarded to the Office of Patent Application Processing for further processing with a filing date of March 17, 2009, using the application papers received in the Office on that date and the 9 pages of drawings and the oath/declaration as re-supplied on petition filed April 17, 2009, and for indication in Office records that 9 sheets of drawings were present on filing.

Telephone inquiries related to this decision should be directed to the undersigned at 571-272-3207.

Title: INTERNAL COMBUSTION ENGINE CONTROL FOR IMPROVED FUEL EFFICIENCY

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 17, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. 103(c).

REVIEW OF FACTS

The conditions I: 1-4, II: 1-5, 5.1, 5.3, 6, and 6.1 above are considered to have been met. However, the petition fails to comply with conditions II: 5.2, 6.2, 6.3, 6.4, 6.5, and 6.6 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Discussion

When referring to "the petition" herein below, the received papers under consideration include the four page PTO/SB/28 form "Petition to Make Special Under Accelerated Examination Program", the "pre-examination search document" (PESD) including pages 1-5; the split "accelerated examination support document" (AESD) comprising pages 1-12 and 1-27, and an Information Disclosure Statement (IDS).

Regarding the requirements of section II element 5.2 outlined above, it appears the search outlined in the petition omitted a critical search area by not searching in the following class/subclasses combinations:
123/316, 399, 436; and
701/119 and 115.

The following keywords search, properly combined must also be carried out: engine, (throttl$3 or unthrottl$3), fuel, air, optimiz$4, (skip$4 or deactivat$3 or stop$4 or cut$4 or cutoff), speed, (sigma delta), pulse.

Regarding the requirements of section II element 6.2 outlined above, the petition fails to identify all of the limitations in the application claims that are disclosed in each of the reference(s) and where the limitation is disclosed in each of the cited reference. As stated in the policy published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), for each reference cited, the examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. The policy statement does not caveat "the independent claims", nor does it allow for grouping and general discussions. A grantable petition must delineate every limitation of every claim and identify where the equivalent limitation is disclosed in each piece of prior art cited on the IDS. As is published on www.uspto.gov/web/patents/accelerated/ in "Guidelines for Applicants under the new accelerated examination procedures"):

> *For each reference cited, the accelerated examination support document must include an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference. Applicants should specify where in each of the cited references the particular claim limitations are found. This process is intended to be analogous to the analysis an examiner uses when locating a relevant prior art reference and then determining whether the reference contains the claimed limitation. For each claimed limitation, the examiner would consider the disclosure of the reference and all reasonable portions in the reference where the limitation is shown. When preparing an Office Action, the examiner would correlate the limitation to the portion of reference which best characterizes the limitation. This part of the AESD is not intended to be an exhaustive listing of every conceivable subjective interpretation of how a claim limitation may read on the reference. Applicants should point out what are considered to be the relevant representations of the limitation in the reference. A limitation may be found in more than one portion of the reference and should be pointed out, yet the intention is not to have applicants point out every conceivable interpretation. The USPTO will adopt a rule of reason when evaluating this portion of the AESD. Unless the representation is so deficient that it would materially*

effect examination of the application (e.g., numerous instances where the limitations are not shown where applicant states they are), the representation will be deemed to be sufficient for this part of the AESD.

Petitioner's submission is not specific enough. Petitioner points out some limitations of some of the claims and provides direction to areas of the prior art where the corresponding limitation may be found. Petitioner does not address each discrete limitation (i.e., each single limitation, NOT multiple limitations bundled together) and state where it is (or state that it is not) found in each one of the most closely related prior art. Applicant failed to satisfy the requirements of condition II: 6.2 because the submission does not include identification of all claimed limitations that are disclosed in each reference, and offering a discussion of the teachings of some references to the claimed limitations instead of a clear identification of said limitations. The requirement of section II element 6.2 can be satisfied by listing verbatim ("copy and paste") all the presently filed claims (i.e., the claims of the instant application) and by indicating where each discrete limitation (without bundling limitations to the extent possible) of each one of said presently filed claims is taught (or is not taught) in each one of the most closely related references that is cited, by specifically indicating the element number and/or the relevant page/paragraph and line number(s), or by indicating "(not disclosed)" where appropriate - in order to ensure that no limitation was left out inadvertently. Limitations for which antecedent basis has been established and mapped unto the prior art reference need not be mapped repeatedly (the first time suffice). However limitations not disclosed must be specifically singled out (without bundling with disclosed limitations – to the extent possible). Note that disclosure may be express, implicit, or inherent. Claim recitations must be complete. Statements such as "Limitation II(b) – (not disclosed)", i.e., statements that do not spell out the text of the relevant limitations should be avoided. This one-to-one mapping should be performed individually, with regard to each one of the most closely related prior art that is cited, one reference at a time. The requirement of this element calls for a straight mapping of each single limitation unto the prior art (NOT for comments or summaries of the prior art features that may be relevant to the claimed limitations). Section II element 6.2 is not the proper venue to imply patentability by bundling limitations and concluding that the combination is not disclosed. Patentability arguments should be made only in response to the requirement of section II element 6.3.

As a courtesy clarification, it has been noted that Applicant discussed the patentability of the claimed invention only with regard to some of the references cited in the IDS (as distinguished from addressing the patentability with regard to all the references cited in the IDS). In this respect, Applicant's attention is drawn to the following possible solution:

If applicant wishes to cite references that are not required in an AESD for the examiner to consider, applicant may submit such references in a separate Information Disclosure Statement (IDS) in compliance with 37 CFR §1.97 and §1.98. Applicant should clearly identify the IDS of the AESD that is in support of the petition to make special and, similarly, applicant should clearly identify the separate IDS that is not in support of the petition. Consistent with 37 CFR §10.18, any reference submitted in a separate IDS that is not part of an AESD will be treated as a representation by applicant to the USPTO that no reference submitted in the separate IDS is deemed closer to the subject matter of at least one claim than the references provided in the AESD.

The above comment also relates to the possibility that Petitioner may find through the re-opened search some references discussed in the AESD may not be deemed anymore most closely related to the claimed invention.

With respect to the requirements of section II element 6.3 outlined above, the petition fails to provide a detailed explanation of how each one of the claims is patentable over (each of) the reference(s) with particularity required by 37 CFR 1.111(b) and (c). With regard to each dependent claim, there should be an unequivocal statement whether the patentability of each dependent claim is predicated solely on that of the claim from which it depends (e.g., "Dependent claim X is patentable solely because of the limitations of the claims from which it depends" - will suffice), or Applicant should provide a detailed explanation of patentability specific to that particular claim (only if the claim recites new limitations that further define over the prior art).

Regarding the requirements of section II element 6.4 outlined above, the petition fails to identify a concise statement of the utility of the invention as defined in each of the independent claims. A general statement directed to the overall concept of the invention is not specifically relating the utility to each of the independent claims as is required by the policy. Petitioner should reference each independent claim specifically when discussing the utility of the invention.

Regarding the requirements of section II element 6.5 outlined above, the requirements of this section are not met because lack of specificity. A grantable petition requires petitioner to provide a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. The instant petition only identifies figures and large portions of text with respect to claim numbers as opposed to the disclosure of the required claim limitations, addressed individually for each limitation in each claim. The requirement of section II element 6.5 can be satisfied by listing verbatim all the presently filed claims (by "copy and paste") and by indicating where the instant application (and separately each one of the priority documents – if applicable) teaches each discrete limitation (without bundling limitations to the extent possible) in each one of said presently filed claims, by indicating the element number and/or the relevant page and line numbers. To the extent possible, Petitioner should indicate the enablement location in the specification as required by statute, i.e., "the manner and process of making and using it," rather than pointing to the first occurrence of establishing antecedent for the limitation in the specification. For this reason Petitioner should indicate, to the extent possible, the combination of the element, figure, page, (or paragraph), and line numbers in the specification where the mapped limitation is actually taught and enabled. If the application(s) for which domestic priority is claimed is/are identical to the present application, a statement to the effect that they are "substantially identical" in lieu of the required additional mapping is acceptable. Petitioner's attention is also drawn to the requirements relevant under 35 U.S.C 112, 6th paragraph, listed above. Should this requirement not apply to the present application, Petitioner should make a statement in this regard.

Finally, regarding the requirements of section II element 6.6, the petition does not provide an identification of any cited references that may be disqualified under 35 U.S.C. 103(c).

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address all of the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Programs Examiner, at (571) 272-4828.

MAILED JUL 27 2009

In re Application of: Tripathi et al.
Application No.: 12/405450
Filed: March 17, 2009
Docket: TULAP001C1
Title: INTERNAL COMBUSTION ENGINE CONTROL FOR IMPROVED FUEL EFFICIENCY

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on May 5, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

Initially it is noted that the application has already been examined and a notice of allowance was mailed on July 9, 2009. While most of the guidlines below no longer apply, they are included for completeness.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

OFFICE OF PETITIONS

In re Application of :
James SAY et al. :
Application No. 12/405,469 : DECISION ON PETITION
Filed: March 17, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No. TS-02-26C46 : 37 CFR 1.102(c)(1)
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 19, 2010, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement attesting that Adam Heller is over 65 years of age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-4231.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 3735 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
James SAY et al.	:	
Application No. 12/405,515	:	DECISION ON PETITION
Filed: March 17, 2009	:	TO MAKE SPECIAL UNDER
Attorney Docket No. TS-02-26C47	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 19, 2010, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement attesting that Adam Heller is over 65 years of age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-4231.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 3735 for action on the merits commensurate with this decision.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Attorney Docket No. 225.01NP

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 14-JUL-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

Coulson et al.	:	
Application No. 12/405,618	:	ON PETITION
Filed: March 17, 2009	:	
Attorney Docket No. 1365.112US2	:	

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed May 24, 2010, to revive the above-identified application.

The petition is **GRANTED**.

The application became abandoned for failure to submit corrected formal drawings in a timely manner in reply to the Notice of Allowability, mailed December 7, 2009, which set a period for reply of three (3) months. Accordingly, this application became abandoned on March March 8, 2010. A Notice of Abandonment was mailed May 19, 2010.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form replacement drawings, (2) the petition fee of $810, and (3) a proper statement of unintentional delay. Accordingly, the failure to timely submit replacement drawings as required by the Notice of Allowability is accepted as being unintentionally delayed.

Telephone inquiries concerning this decision should be directed to Alicia Kelley at (571)272-6059.

This application is being referred to Technology Center AU 2838 for processing and appropriate action by the Examiner in the normal course of business of the Request for Continued Examination (RCE) filed May 24, 2010.

SAN FRANCISCO CA 94111-3834

In re Application of :
Todd Sutton et al. :
Application No. 12/405,662 : DECISION ON PETITION
Filed: March 17, 2009 : TO WITHDRAW
Attorney Docket No. **026199-002900US** : FROM RECORD
:

This is a decision on the Request to Withdraw as attorney or agent of record under 37 CFR § 1.36(b), filed January 25, 2010.

The request is **NOT APPROVED**.

The request cannot be approved because the requested change in the correspondence address is improper.

The Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *who properly became of record under 37 CFR 3.71,* or, if no assignee of the entire interest has properly been made of record, the most current address information provided for the first named inventor. 37 CFR 3.71(c) states:

> *An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.*

The assignee must establish its ownership of the patent to the satisfaction of the Director. In this regard, the statement under 37 CFR 3.73(b) must have either: (i) documentary evidence of a chain of title from the original owner to the assignee (*e.g.*, copy of an executed assignment), and a statement affirming that the documentary evidence of the chain of title from the original owner to the assignee was or concurrently is being submitted for recordation pursuant to § 3.11; or (ii) a statement specifying where documentary evidence of a chain of title from the original owner to the assignee is recorded in the assignment records of the Office (*e.g.*, reel and frame number).

Therefore, as there is currently no Statement under 37 CFR 3.73(b) with the current assignee information of record in the instant application, the Office cannot change the correspondence address to the address on the Request to Withdraw at this present time.

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Telephone inquires concerning this decision should be directed to JoAnne Burke at 571-272-4584.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

MAILED

OCT 26 2009

DIRECTOR OFFICE
TECHNOLOGY CENTER 2400

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed June 18, 2009, to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;

(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;

(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;

(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition are found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Hassan Kizou at 571-272-3088

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

MAILED

OCT 28 2009

DIRECTOR OFFICE
TECHNOLOGY CENTER 2400

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed August 28, 2009, to make the above-identified application special.

The petition is **DISMISSED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;

(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;

(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;

(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and

(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition failed item (3) above, because of the following: Claims 1, 11 and 13 of the US application are missing the statement: "**and c(2m) and c(2m+l) is defined by a pseudo-random sequence c(i), where i= 0, 1 ...., Mmax -1, and Mmax is a length of the pseudo-random sequence c(i);**" which makes them broader in scope than the corresponding allowed claims 1, 11 and 13 of the Korean application.

Accordingly, the Petition is **DISMISSED**.

Applicant is given a time period of ONE MONTH or THIRTY DAYS, whichever is longer, to correct the deficiencies. NO EXTENSION OF TIME UNDER 37 CFR 1.136 IS PERMITTED.

If the deficiencies are not corrected with the time period given, the application will await action in its regular turn.

Responses must be submitted by EFS-Web using the document description "Petition to make special under Pat Pros Hwy".

Telephone inquiries concerning this decision should be directed to Hassan Kizou at 571-272-3088

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed November 30, 2009, to make the above-identified application special.

The petition is **DISMISSED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;

(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;

(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;

(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and

(7) The required petition fee under 37 CFR 1.17(h).

The original request to participate in the PPH program and petition was dismissed for failure to meet the requirements of item (3) above.

The request to participate in the PPH program and petition are now in compliance with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Hassan Kizou at 571-272-3088

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

MAILED

DEC 15 2009

DIRECTOR OFFICE
TECHNOLOGY CENTER 2400

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed November 30, 2009, to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;

(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;

(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;

(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and

(7) The required petition fee under 37 CFR 1.17(h).

The original request to participate in the PPH program and petition was dismissed for failure to meet the requirements of item (3) above.
The preliminary amendment filed November 30, 2009 has corrected this deficiency by amending the claims to sufficiently correspond to the allowed claims of the KIPO application, and the renewed request to participate in the PPH program and petition were found to be in compliance with item (3) above. The petition decision mailed on December 4, 2009, inadvertently indicated in the first page that the renewed request was dismissed when it should indicate that it was granted.

The request to participate in the PPH program and petition being found in compliance with the above requirements, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Hassan Kizou at 571-272-3088

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Fr eedom of Information Act requires disclosure of these records.

2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.

4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).

5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.

6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).

7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about indivi duals.

8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.

9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

FEB 16 2010

In re Application of	:	
O'Brien	:	DECISION ON PETITION
Application No. 12/405,862	:	TO MAKE SPECIAL UNDER
Filed: 3/17/2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. **J-5184**	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 1/6/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice

before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 8/115.540) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1796 for action in its regular turn.

DECISION ON PETITION
TO MAKE SPECIAL UNDER
37 CFR 1.102(c)(1)

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 22, 2010, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement from applicant's representative that he is in possession of proof of applicant's Adam Heller's age. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to undersigned at 571-272-1642.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 3735 for action on the merits commensurate with this decision.

In re Application of	:	
KIMURA, KATSUNOBU, et al	:	DECISION ON REQUEST TO
Application No. 12/405,966	:	PARTICIPATE IN PATENT
Filed: March 17, 2009	:	PROSECUTION HIGHWAY
Attorney Docket No. 16869N-045730US	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed March 25, 2009 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

The request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Michael Horabik at 571-272-3068.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of :
An-Thung Cho, et al. :
Application No. 12/405,992 : DECISION REFUSING STATUS
Filed: March 17, 2009 : UNDER 37 CFR § 1.47(a)
Attorney Docket No. JCLA25709 :

This is a decision on the petition styled "Petition for Filing When an Inventor Refused to Sign or Cannot be Reached Under 37 CFR 1.47," filed March 17, 2009.

The petition is **DISMISSED**.

Rule 47 applicant is given **TWO MONTHS** from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 C.F.R. §1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **Failure to respond will result in abandonment of the application.** Any extensions of time will be governed by 37 C.F.R. § 1.136(a).

A grantable petition under 37 C.F.R. § 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or found, after diligent effort, or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

Petitioner has shown that the non-signing inventors Chrong-Jung Lin and Ya-Chin King have refused to join in the filing of the above-identified application after having been presented with the application papers. The petition includes authorization for payment of the petition fee and a statement of the last known address of non-signing inventors Chrong-Jung Lin and Ya-Chin King. However, the petition does not include an acceptable declaration.

Pursuant to 35 U.S.C. 115 and 37 CFR § 1.63(a) and § 1.63(c)(1), an acceptable oath or declaration filed under § 1.51(b)(2) as a part of a nonprovisional application must identify all the inventors by name, citizenship and, unless such information is supplied on an application data sheet (ADS) in accordance with § 1.76, must also identify the mailing address, and the residence of each inventor, if an inventor lives at a location which is different from where the inventor customarily receives mail.

The Office received a declaration, as well as an ADS, on March 17, 2009. It is noted that the declaration is signed on behalf of joint inventors An-Thung Cho, Wen-Jen Chiang, Chia-Tien Peng, Kun-Chih Lin Chih-Wei Chao and Feng-Yuan Gan on behalf of themselves and non-signing inventors Chrong-Jung Lin and Ya-Chin King. However, an address where the each inventor would typically receive his/her mail is not reflected on the ADS or the declaration filed March 17, 2009. Accordingly, the petition cannot be granted until an acceptable declaration or ADS in compliance with §§ 1.63(a) and 1.63(c)(1) is filed.

Further correspondence with respect to this matter should be delivered through one of the following mediums:

By mail:	Mail Stop PETITIONS Commissioner for Patents Post Office Box 1450 Alexandria, VA 22313-1450
By hand:	Customer Service Window Mail Stop Petitions Randolph Building 401 Dulany Street Alexandria, VA 22314
By fax:	(571) 273-8300 ATTN: Office of Petitions
By Internet:	EFS-Web[1]

Any questions concerning this matter may be directed to the undersigned at (571) 272-3204.

Application No. 12/405,992	:	UNDER 37 CFR 1.47(a)
Filed: March 17, 2009	:	
Attorney Docket No. JCLA25709	:	

This is in response to the renewed petition under 37 CFR 1.47(a), filed August 20, 2009.

The petition is **GRANTED.**

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

Petitioner has shown that the non-signing inventors, Chrong-Jung Lin and Ya-Chin King, have refused to join in the filing of the above-identified application.

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

The application file is being forwarded to Technology Center 2892 for appropriate action, including notifying applicant of the new status of this application.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3204.

Dear Mr. Lin:

You are named as an inventor in the above-identified United States patent application filed under the provisions of 35 U.S.C. 116 (United States Code) and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as an inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (571) 272-3204. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to Certification Division at (571) 272-3150 or 1-800-972-6382 (outside the Washington D.C. area).

Serial No.: 12/406,021
Filed: March 17, 2009

Title: **APPARATUS, SYSTEM, AND METHOD FOR AUTOMATED CALL INITIATION**

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

The petition to make the application special filed March 17, 2009 is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not

file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Ken Wieder, Quality Assurance Specialist, at (571) 272-2986.

In re Application of

James SAY, et al
Application No. 12/406,031
Filed: March 17, 2009
Attorney Docket No. TS-02-26C42

DECISION ON PETITION
TO MAKE SPECIAL UNDER
37 CFR 1.102(c)(1)

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 17, 2010, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement made by registered attorney Seong-Kun Oh, which will be treated as the result of the attorney having evidence that at least one of the applicants is 65 years of age or more. In the event that such evidence is not with the attorney, the Office should be notified immediately. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to undersigned at (571) 272-6735.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center at (571) 272-3700.

The application is being forwarded to Technology Center Art Unit 3735 for action on the merits commensurate with this decision.

OFFICE OF PETITIONS

In re Application of	:	
Glyn Barry Smith	:	
Application No. 12/406064	:	DECISION DISMISSING
Filing or 371(c) Date: 03/17/2009	:	PETITION UNDER
Title of Invention:	:	37 CFR 1.47(b)
SYSTEMS AND METHODS TO	:	
FACILITATE ONLINE TRANSACTIONS	:	

This is in response to the Petition Under 37 C.F.R. §1.47(b), filed July 24, 2009, to allow a person to whom an inventor has assigned or agreed in writing to assign the invention, or who otherwise shows sufficient proprietary interest in the matter justifying such action, to make application on behalf of and as agent for all inventors.

The petition is **dismissed**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(b)", and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor(s). Failure to respond will result in abandonment of the application. Any extensions of time will be governed by 37 CFR 1.136(a).

The above-identified application was filed March 17, 2009, without an oath or declaration. In response, this Office mailed a Notice to File Missing Parts of Nonprovisional Application ("Notice") on March 31, 2009, requiring, *inter alia*, a properly signed oath or declaration. In response to the Notice, Applicant files, *inter alia*, the present petition and an oath or declaration, and Exhibits supporting the Petition. Exhibit A is a copy of a letter to the inventor dated July 10, 2009, that included a Combined Declaration and Power of Attorney for each patent application, and assignments to Boku, Inc. (formerly Vidicom Limited) for certain of the applications (i.e. those not previously assigned to Vidicom Limited). Of note is that the Petition states that no response to this letter was received from the inventor. Exhibits B is a copy of a Federal Express shipping label filed to demonstrate delivery of the application papers to inventor Smith. Exhibit C is a copy of the Federal Express tracking records indicating that inventor Smith failed to use the return envelope to provide a response as of August 3, 2009. Exhibit D is a copy of inventor

Smith's Executive Service Agreement, and Exhibit E is a copy of the Intellectual Property Assignment between Mr. Smith and Applicant. Of note is that, with regards to the Executive Service Agreement, no statement of a person having firsthand knowledge of the facts that the invention was made by the employee while employed by the 37 CFR 1.47(b) applicant has been provided, and as to the Intellectual Property Assignment, a review of the Recitals reveals that the assignor (B) agreed to assign all and any interest in the Applications (A) that have been made to the Intellectual Property Office of the United Kingdom ... and to the United States. The Intellectual Property Assignment was executed on July 21st, 2008.

Applicable Law

A grantable petition under 37 CFR 1.47(b) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; (4) a statement of the last known address of the non-signing inventor(s); (5) proof of proprietary interest; and (6) proof of irreparable harm. Applicant lacks item (5) as set forth above.

As to item (5), Applicant failed to show or provide proof that Vidicom Limited or Boku, Inc., or anyone other than the inventor(s), has sufficient proprietary interest in the subject matter to justify the filing of the application (*see* MPEP 409.03(f)). Acceptable proof would include a copy of an assignment of the invention by the inventor to the Rule 47(b) applicant; a copy of proof that the inventor has agreed in writing to assign the invention to the applicant, or a legal memorandum signed by an attorney familiar with the law of the jurisdiction stating that a court of competent jurisdiction would by the weight of authority in that jurisdiction award the title of the invention to the Rule 47(b) applicant. When an application is deposited pursuant to 37 CFR 1.47(b), the 37 CFR 1.47(b) applicant must prove that

> (A) the invention has been assigned to the applicant, or
> (B) the inventor has agreed in writing to assign the invention to the applicant, or
> (C) the applicant otherwise has sufficient proprietary interest in the subject matter to justify the filing of the application. (Emphasis supplied).
>
> If the application has been assigned, a copy of the assignment (in the English language) must be submitted. The assignment must clearly indicate that the invention described in the 37 CFR 1.47(b) application was assigned to the 37 CFR 1.47(b) applicant. A statement under 37 CFR 3.73(b) by the assignee must also be submitted (see MPEP § 324). An assignment of an application and any "reissue, division, or continuation of said application" does not itself establish an assignment of a continuation-in-part application. In re Gray, 115 USPQ 80 (Comm'r Pat. 1956). An assignment to a 37 CFR 1.47(b) applicant for the sole purpose of obtaining a filing date for a 37 CFR 1.47(b) application is not considered an assignment within the meaning of 35 U.S.C. 118 and 37 CFR 1.47(b).
>
> When an inventor has agreed in writing to assign an invention described in an application

deposited pursuant to 37 CFR 1.47(b), a copy of that agreement should be submitted. If an agreement to assign is dependent on certain specified conditions being met, it must be established by a statement of facts by someone with first hand knowledge of the circumstances in which those conditions have been met. A typical agreement to assign is an employment agreement where an employee (nonsigning inventor) agrees to assign to his or her employer (37 CFR 1.47(b) applicant) all inventions made during employment. When such an agreement is relied on, it must be established by a statement of a person having firsthand knowledge of the facts that the invention was made by the employee while employed by the 37 CFR 1.47(b) applicant.

If the invention has not been assigned, or if there is no written agreement to assign, the 37 CFR 1.47(b) applicant must demonstrate that he or she otherwise has a sufficient proprietary interest in the matter.

A proprietary interest obtained other than by assignment or agreement to assign may be demonstrated by an appropriate legal memorandum to the effect that a court of competent jurisdiction (federal, state, or foreign) would by the weight of authority in that jurisdiction award title of the invention to the 37 CFR 1.47(b) applicant. The facts in support of any conclusion that a court would award title to the 37 CFR 1.47(b) applicant should be made of record by way of an affidavit or declaration of the person having firsthand knowledge of same. The legal memorandum should be prepared and signed by an attorney at law familiar with the law of the jurisdiction involved. A copy (in the English language) of a statute (if other than the United States statute) or a court decision (if other than a reported decision of a federal court or a decision reported in the United States Patents Quarterly) relied on to demonstrate a proprietary interest should be made of record. (Emphasis supplied).

MPEP 409.03(f).

A review of the Intellectual Property Assignment reveals that the inventor (B) agreed to assign all and any interest in the Applications (A) that have been made to the Intellectual Property Office of the United Kingdom ... under Application Numbers listed in the schedule and to the United States. The Intellectual Property Assignment was executed on July 21st, 2008. The present application was filed after the Intellectual Property Assignment was executed, and claims the benefit of a Provisional Application also filed after the Intellectual Property Assignment was executed. No foreign priority claim has been made. Further to this, the July 10, 2009 letter to the inventor, which included an assignment to Boku, Inc. (formerly Vidicom Limited) for certain of the applications, noted that these applications were "not previously assigned to Vidicom Limited." Petitioner provides in the petition that neither the assignment, nor the oath/declaration, were returned by the inventor. The Assignment filed with the petition, executed on July 21, 2009 for applications that "have been filed," fails to demonstrate the Rule 47(b) applicant has sufficient proprietary interest in the subject matter to justify the filing of the present application.

Regarding the Executive Service Agreement, no statement of a person having firsthand knowledge of the facts that the invention was made by the employee while employed by the 37 CFR 1.47(b) applicant, has been provided. As noted supra, when such an agreement is relied on, it must be established by a statement of a person having firsthand knowledge of the facts that the invention was made by the employee while employed by the 37 CFR 1.47(b) applicant. Absent a copy of an assignment, or a copy of proof that the inventor has agreed in writing to assign the invention to the applicant, Applicant must provide a legal memorandum signed by an attorney familiar with the law of the jurisdiction stating that a court of competent jurisdiction would by the weight of authority in that jurisdiction award the title of the invention to the Rule 47(b) applicant.

The petition is dismissed without prejudice. Applicant should file request for reconsideration of petition and include the requisite showing that the Rule 47(b) applicant has sufficient proprietary interest in the subject matter to justify the filing of the present application.

FACILITATE ONLINE TRANSACTIONS	:	

This is in response to the Request for Reconsideration of Petition Under 37 CFR 1.47(b), filed November 24, 2009, to allow a person to whom an inventor has assigned or agreed in writing to assign the invention, or who otherwise shows sufficient proprietary interest in the matter justifying such action, to make application on behalf of and as agent for all inventors.

The petition is **granted**.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(b). This application is hereby accorded Rule 1.47(b) status.

Petitioner has shown that the non-signing inventor, Glyn Barry Smith, refuses to join in the application.

As provided in Rule 1.47, this Office will forward notice of this application's filing to the non-signing inventors at the addresses given in the Petition. Notice of the filing of this application will also be published in the Official Gazette.

The application file is being referred to the Office of Patent Application Processing for processing of the reply to the Notice, and for continued processing in the normal course of business.

Telephone inquiries related to this decision may be directed to the undersigned at (571) 272-3232.

Dear Mr. Smith:

You are named the inventor in the above-identified United States patent application filed under the provisions of 35 U.S.C. 116 (United States Code) and 37 CFR 1.47(b), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as the inventor.

As the inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (571) 272-3232. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to Certification Division at (703) 308-9726 or 1-800-972-6382 (outside the Washington D.C. area).

Application No. 12/406,073
Filed: March 17, 2009
Attorney Docket No. 116227-200201/US

DECISION REFUSING STATUS
UNDER 37 CFR 1.47(b)

This is in response to the "Petition Under 37 CFR 1.47(b), filed July 24, 2009.

The petition is **DISMISSED.**

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(b)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION. Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(b) requires:

(1) proof that the non-signing inventor cannot be reached after diligent effort or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings);
(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;
(3) the petition fee;
(4) a statement of the last known address of the non-signing inventor.
(5) proof of proprietary interest: and
(6) proof of irreparable damage.

Applicant lacks item (2) set forth above.

As to item (2), a signed declaration in compliance with 37 CFR 1.63 and 1.64 must be made by the 37 CFR 1.47(b) applicant. Where a corporation is the 37 CFR 1.47(b) applicant, an officer (President, Vice-President, Secretary or Treasurer) may sign the oath or declaration. Where an

oath or declaration is being signed on behalf of an assignee, note MPEP Section 324, which, however, presupposes that an executed assignment by the inventor has been recorded, or submitted for recordation.

Further correspondence with respect to this matter should be addressed as follows:

In re Application of :
Glyn Barry Smith et al : DECISION NOTING JOINDER OF
Application No. 12/406,073 : INVENTOR AND PETITION
Filed: March 17, 2009 : UNDER 37 CFR 1.47(b)
Attorney Docket No. 116227-227-200201/US :

This is a decision on the renewed petition filed September 24, 2009. Papers filed on January 22, 2010 in response to a "Decision Refusing Status Under 37 CFR 1.47(b)," mailed September 2, 2009, included a Declaration signed by a previously non-signing inventor, Glyn Barry Smith, in compliance with 37 CFR 1.63.

The petition is **DISMISSED AS MOOT**.

In view of the joinder of the inventor, further consideration under § 1.47(b) is not necessary. This application does not have any Rule 1.47 status and no such status should appear on the record of this file. This application need not be returned to this Office for any further consideration under 37 CFR 1.47(b).

This application is being referred to Office of Patent Application Processing.

Telephone inquiries should be directed to Irvin Dingle at (571) 272-3210.

OFFICE OF PETITIONS

In re Application of	:	
Glyn Barry Smith	:	
Application No. 12/406077	:	DECISION DISMISSING
Filing or 371(c) Date: 03/17/2009	:	PETITION UNDER
Title of Invention:	:	37 CFR 1.47(b)
SYSTEMS AND METHODS TO	:	
CONTROL ONLINE TRANSACTIONS	:	

This is in response to the Petition Under 37 C.F.R. §1.47(b), filed July 24, 2009, to allow a person to whom an inventor has assigned or agreed in writing to assign the invention, or who otherwise shows sufficient proprietary interest in the matter justifying such action, to make application on behalf of and as agent for all inventors.

The petition is **dismissed**.

Rule 47 applicant is given TWO (2) MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(b)", and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor(s). Failure to respond will result in abandonment of the application. Any extensions of time will be governed by 37 CFR 1.136(a).

The above-identified application was filed March 17, 2009, without an oath or declaration. In response, this Office mailed a Notice to File Missing Parts of Nonprovisional Application ("Notice") on March 31, 2009, requiring, *inter alia*, a properly signed oath or declaration. In response to the Notice, Applicant files, *inter alia*, the present petition and an oath or declaration, and Exhibits supporting the Petition. Exhibit A is a copy of a letter to the inventor dated July 10, 2009, that included a Combined Declaration and Power of Attorney for each patent application, and assignments to Boku, Inc. (formerly Vidicom Limited) for certain of the applications (i.e. those not previously assigned to Vidicom Limited). Of note is that the Petition states that no response to this letter was received from the inventor. Exhibits B is a copy of a Federal Express shipping label filed to demonstrate delivery of the application papers to inventor Smith. Exhibit C is a copy of the Federal Express tracking records indicating that inventor Smith failed to use the return envelope to provide a response as of August 3, 2009. Exhibit D is a copy of inventor

Smith's Executive Service Agreement, and Exhibit E is a copy of the Intellectual Property Assignment between Mr. Smith and Applicant. Of note is that, with regards to the Executive Service Agreement, no statement of a person having firsthand knowledge of the facts that the invention was made by the employee while employed by the 37 CFR 1.47(b) applicant has been provided, and as to the Intellectual Property Assignment, a review of the Recitals reveals that the assignor (B) agreed to assign all and any interest in the Applications (A) that have been made to the Intellectual Property Office of the United Kingdom ... and to the United States. The Intellectual Property Assignment was executed on July 21st, 2008.

Applicable Law

A grantable petition under 37 CFR 1.47(b) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; (4) a statement of the last known address of the non-signing inventor(s); (5) proof of proprietary interest; and (6) proof of irreparable harm. Applicant lacks item (5) as set forth above.

As to item (5), Applicant failed to show or provide proof that Vidicom Limited or Boku, Inc., or anyone other than the inventor(s), has sufficient proprietary interest in the subject matter to justify the filing of the application (*see* MPEP 409.03(f)). Acceptable proof would include a copy of an assignment of the invention by the inventor to the Rule 47(b) applicant; a copy of proof that the inventor has agreed in writing to assign the invention to the applicant, or a legal memorandum signed by an attorney familiar with the law of the jurisdiction stating that a court of competent jurisdiction would by the weight of authority in that jurisdiction award the title of the invention to the Rule 47(b) applicant. When an application is deposited pursuant to 37 CFR 1.47(b), the 37 CFR 1.47(b) applicant must prove that

> (A) the invention has been assigned to the applicant, or
> (B) the inventor has agreed in writing to assign the invention to the applicant, or
> (C) the applicant otherwise has sufficient proprietary interest in the subject matter to justify the filing of the application. (Emphasis supplied).
>
> If the application has been assigned, a copy of the assignment (in the English language) must be submitted. The assignment must clearly indicate that the invention described in the 37 CFR 1.47(b) application was assigned to the 37 CFR 1.47(b) applicant. A statement under 37 CFR 3.73(b) by the assignee must also be submitted (see MPEP § 324). An assignment of an application and any "reissue, division, or continuation of said application" does not itself establish an assignment of a continuation-in-part application. In re Gray, 115 USPQ 80 (Comm'r Pat. 1956). An assignment to a 37 CFR 1.47(b) applicant for the sole purpose of obtaining a filing date for a 37 CFR 1.47(b) application is not considered an assignment within the meaning of 35 U.S.C. 118 and 37 CFR 1.47(b).
>
> When an inventor has agreed in writing to assign an invention described in an application

> deposited pursuant to 37 CFR 1.47(b), a copy of that agreement should be submitted. If an agreement to assign is dependent on certain specified conditions being met, it must be established by a statement of facts by someone with first hand knowledge of the circumstances in which those conditions have been met. A typical agreement to assign is an employment agreement where an employee (nonsigning inventor) agrees to assign to his or her employer (37 CFR 1.47(b) applicant) all inventions made during employment. When such an agreement is relied on, it must be established by a statement of a person having firsthand knowledge of the facts that the invention was made by the employee while employed by the 37 CFR 1.47(b) applicant.
>
> If the invention has not been assigned, or if there is no written agreement to assign, the 37 CFR 1.47(b) applicant must demonstrate that he or she otherwise has a sufficient proprietary interest in the matter.
>
> A proprietary interest obtained other than by assignment or agreement to assign may be demonstrated by an appropriate legal memorandum to the effect that a court of competent jurisdiction (federal, state, or foreign) would by the weight of authority in that jurisdiction award title of the invention to the 37 CFR 1.47(b) applicant. The facts in support of any conclusion that a court would award title to the 37 CFR 1.47(b) applicant should be made of record by way of an affidavit or declaration of the person having firsthand knowledge of same. The legal memorandum should be prepared and signed by an attorney at law familiar with the law of the jurisdiction involved. A copy (in the English language) of a statute (if other than the United States statute) or a court decision (if other than a reported decision of a federal court or a decision reported in the United States Patents Quarterly) relied on to demonstrate a proprietary interest should be made of record. (Emphasis supplied).

MPEP 409.03(f).

A review of the Intellectual Property Assignment reveals that the inventor (B) agreed to assign all and any interest in the Applications (A) that have been made to the Intellectual Property Office of the United Kingdom ... under Application Numbers listed in the schedule and to the United States. The Intellectual Property Assignment was executed on July 21st, 2008. The present application was filed after the Intellectual Property Assignment was executed, and claims the benefit of a Provisional Application also filed after the Intellectual Property Assignment was executed. No foreign priority claim has been made. Further to this, the July 10, 2009 letter to the inventor, which included an assignment to Boku, Inc. (formerly Vidicom Limited) for certain of the applications, noted that these applications were "not previously assigned to Vidicom Limited." Petitioner provides in the petition that neither the assignment, nor the oath/declaration, were returned by the inventor. The Assignment filed with the petition, executed on July 21, 2009 for applications that "have been filed," fails to demonstrate the Rule 47(b) applicant has sufficient proprietary interest in the subject matter to justify the filing of the present application.

Regarding the Executive Service Agreement, no statement of a person having firsthand knowledge of the facts that the invention was made by the employee while employed by the 37 CFR 1.47(b) applicant, has been provided. As noted supra, when such an agreement is relied on, it must be established by a statement of a person having firsthand knowledge of the facts that the invention was made by the employee while employed by the 37 CFR 1.47(b) applicant. Absent a copy of an assignment, or a copy of proof that the inventor has agreed in writing to assign the invention to the applicant, Applicant must provide a legal memorandum signed by an attorney familiar with the law of the jurisdiction stating that a court of competent jurisdiction would by the weight of authority in that jurisdiction award the title of the invention to the Rule 47(b) applicant.

The petition is dismissed without prejudice. Applicant should file request for reconsideration of petition and include the requisite showing that the Rule 47(b) applicant has sufficient proprietary interest in the subject matter to justify the filing of the present application.

Further correspondence with respect to this matter should be addressed as follows:

CONTROL ONLINE TRANSACTIONS	:	

This is in response to the Request for Reconsideration of Petition Under 37 CFR 1.47(b), filed November 24, 2009, to allow a person to whom an inventor has assigned or agreed in writing to assign the invention, or who otherwise shows sufficient proprietary interest in the matter justifying such action, to make application on behalf of and as agent for all inventors.

The petition is **granted**.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(b). This application is hereby accorded Rule 1.47(b) status.

Petitioner has shown that the non-signing inventor, Glyn Barry Smith, refuses to join in the application.

As provided in Rule 1.47, this Office will forward notice of this application's filing to the non-signing inventors at the addresses given in the Petition. Notice of the filing of this application will also be published in the Official Gazette.

The application file is being referred to the Office of Patent Application Processing for processing of the reply to the Notice, and for continued processing in the normal course of business.

Telephone inquiries related to this decision may be directed to the undersigned at (571) 272-3232.

Dear Mr. Smith:

You are named the inventor in the above-identified United States patent application filed under the provisions of 35 U.S.C. 116 (United States Code) and 37 CFR 1.47(b), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as the inventor.

As the inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining in the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to the undersigned at (571) 272-3232. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to Certification Division at (703) 308-9726 or 1-800-972-6382 (outside the Washington D.C. area).

JUN 15 2009

OFFICE OF PETITIONS

In re Application of
Michael Shane Lofgren et al.
Application No. 12/406,106
Filed: April 9, 2009
Title of Invention: METHOD FOR UPPER BODY SPINNING EXERCISE

: DECISION GRANTING
: PETITION

This is a decision on the filing date petition filed April 24, 2009, under 37 CFR 1.57 requesting that the above referenced application be accorded a filing date of March 17, 2009. The petition is being treated under 37 CFR 1.53 (e)(2)[1]

The application was deposited on March 17, 2009. However, on April 22, 2009 the Office of Data Management mailed a Notice of Incomplete Application stating that the application had not been filed with drawings and thus, the application could not be accorded a filing date.

In response, the present petition was filed. Petitioner admits that the drawings were inadvertently omitted but argues that the instant application, upon filing, properly claimed priority to U.S. Non-Provisional Application 10/904,785, filed November 29, 2004, and contained Figures 1-12.

Petitioner's arguments and evidence have been considered. However, it is controlling that a review of the application confirms that as filed, the application contained at least one method claim. MPEP 601.01(f) provides that:

> It has been USPTO practice to treat an application that contains at least one process or method claim as an application for which a drawing is not necessary for an understanding of the invention under 35 U.S.C. 113 (first sentence).

Thus, pursuant to § 601.01(f), a drawing is not considered essential for a filing date. Thus, the application is entitled to a filing date without drawings present in the application.

---

[1] Any request for review of a notification pursuant to paragraph (e)(1) of this section, or a notification that the original application papers lack a portion of the specification or drawing(s), must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f). In the absence of a timely (§ 1.181(f)) petition pursuant to this paragraph, the filing date of an application in which the applicant was notified of a filing error pursuant to paragraph (e)(1) of this section will be the date the filing error is corrected.

Accordingly, the Office should have mailed a Notice of Omitted Items and not a Notice of Incomplete Nonprovisional Application. As stated in MPEP 601.01(g), if an application is entitled to a filing date, the mailing of a Notice of Omitted Items will permit *inter alia*:

> If an application was filed on or after September 21, 2004, and contains a claim under 37 CFR 1.55 for priority of a prior-filed foreign application, or a claim under 37 CFR 1.78 for the benefit of a prior-filed provisional, nonprovisional, or international application that was present on the filing date of the application, and the omitted portion of the drawing(s) was inadvertently omitted from the application and is completely contained in the prior-filed application, applicant may submit an amendment to include the inadvertently omitted portion of the drawing(s) pursuant to 37 CFR 1.57(a). The amendment should be submitted in response to the Office action and must comply with 37 CFR 1.57(a) and 37 CFR 1.121. See MPEP § 201.17.

No petition is required. The amendment to include the inadvertently omitted drawings will be considered by the examiner.

It should be noted that the provisions of 37 CFR 1.57 are not available if the application is not otherwise entitled to a filing date. A review of the papers submitted reveals that the papers as originally submitted did not include a specification among other things. A specification is required under 35 USC 111(a) in order for an application to be accorded a filing date. A specification was not submitted until April 9, 2009. Thus, the filing date accorded to this application is April 9, 2009, since it has been determined that drawings are not necessary for understanding the subject matter of this specification as set forth above.

To the extent the instant petition requests a filing date of April 9, 2009 with no drawings present in the application, the petition is **GRANTED**.

Given the basis for granting this petition, the petition fee in the amount of $400.00 will be credited back to the credit card used.

The Office of Patent Application Processing (OPAP) has been advised of this decision. Pursuant to this decision, the application has been referred to OPAP for:

- correction of the filing date to April 9, 2009
- for indication in Office records, as appropriate, that "0" sheets of drawings were present on filing and
- for issuance of a filing receipt.

Entry of the amendment filed April 24, 2009 will be determined by the examiner.

Telephone inquiries concerning this matter should be directed to Senior Petitions Attorney Patricia Faison-Ball at (571) 272-3212.

In re Application of :
Liu et al. : DECISION ON PETITION
Application No. 12/406,289 : TO MAKE SPECIAL UNDER
Filed: 3/18/2009 : THE GREEN TECHNOLOGY
Attorney Docket No. **W08/023-1** : PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 1/8/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 2.

In regard to item 2, petitioner should note that a review of the application claims has been made for the purposes of determining the number of claims contained therein. This application contains more than 3 independent claims and/or more than 20 total claims. As set forth in the Notice, if the application contains more than 3 independent claims or more than 20 total claims, it will not be eligible to participate in the "Pilot Program for Green Technologies Including Greenhouse Gas Reduction."

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1793 for action in its regular turn.

Donald Velarde
Application No.: 12/406,302
Filed: March 18, 2009
For: IMPROVED PERSONAL MEDICAL RECORD SYSTEM

:DECISION ON PETITION
:TO MAKE SPECIAL FOR
:NEW APPLICATION
:UNDER 37 CFR 1.102

This is a Decision on the Petition filed on March 18, 2009 to make the above-identified Application Special for Accelerated Examination Procedure under 37 C.F.R. § 1.102(d).

The Petition to make the Application Special is herein being **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.
3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;
4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a pre-examination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search. The pre-examination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims is patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition in this case fails to comply with conditions II.5, II.5.1, and II.5.2.

Condition II.5

As per condition II.5 a field of search by US class and subclass is required. While the Search Document does identify two subclasses on the first page of the Search Document, i.e. 705/2,3, this is immediately followed under the same heading by a listing of search query logic including text search terms. It is not

clear if a classification search was performed by reviewing all the documents in the two listed subclasses or if only a text search was performed in these subclasses.

Note that for text searches, not only must the search logic used as a query be listed but the name of the file(s) searched and the database service must also be indicated. Under "US Field of Search" no specific database service or files are indicated. Further, note that for Database Search number 2, the "Service" was listed as "various". Although some sources are provided (e.g. "via NLM") other files have no listed service.

Further, as noted above the "search logic used as a query" must be listed. The provided query for the Micropatent service includes the literal term "international classification" for several queries. If this is the actual submitted query it would appear as if the words "international" and "classification" would be searched in the text of the patent document instead of being a search in the international classification field. Also the query does not indicate any proximity operator or quotation for phrases including "medical records" and "health record".

Condition II.5.1

As per Condition II.5.1, it is required that the search involve U.S. patents, patent-application publications, foreign patent documents and non-patent literature unless the Applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement. Although the pre-examination Search Document does include searches in a plurality of non-patent literature databases, it appears that some relevant NPL sources were not considered and there was no justification statement provided.

Applicant is herein reminded that search templates specific to each class/subclass may be found at http://www.uspto.gov/web/patents/searchtemplates/. Furthermore, looking at the available search template for 705/3, where the instant application is classified, some additional relevant search areas that have not been included in the search documented by the Applicant would include a search of at least the following from the template list:

Gale Group Health & Wellness Database
BIOSIS Previews,
EMBASE
Business Wire
ProQuest Direct

Condition II.5.2

As per Condition II.5.2, the pre-examination search must be directed to the claimed invention and encompass all of the features of the claims, giving the claims their broadest reasonable interpretation. As far as the claimed invention is concerned, Applicant's searches do not focus sufficiently on the recited claimed features as recited in claims 1, 13 and 20. Indeed, the Applicant's search logic, related to text search for US patents and patent-application publications and non-patent literature, is too limiting. For example, the text search starts with "personal medical records" combined with "training", "supervision" and so on. Further, the class/subclass (text) search begins with, for instance, "705/2 and USB" combined with "business".

In the first instance, the Applicant is only concerned with "personal medical records", while omitting synonyms like "patient records", "personal documents", "personal information", "patient data", "personal data", "patient document" to name a few. In the latter example, class/subclass, the Applicant merely searches for "USB", which misses common synonyms such as "fob", "thumb drive", "flash drive", "flash memory", "memory stick", "smart card", "smart chip card", etc. Further, truncation operators must be used to catch variations on the terms searched. E.g. searching "supervising" alone would miss a document that used "supervision" or "supervise" or "supervised". Finally, in the detailed explanation of patentability section of the Support Document, applicant points to several features that are missing from the references, e.g. "the verifying step" and "delivering a discharge kit", however, many features asserted to be missing have not been specifically searched.

In other words, the search is not sufficiently directed to the claimed invention. The search terms and logic do not encompass all the features of the claims including the dependent claims, especially those features relied on for patentability in the Support Document.

A suggested search showing an example of expanded synonyms and truncation might be executed in all databases of East with the following search query (with "or" being set as the default operator between terms within parenthesis):

> L1: (((thumb fob flash smart) near3 (drive memory chip stick)) USB memory adj stick) SAME (healthcare health medical patient personal unique customer user consumer individual physician doctor hospital) WITH (record document information data memo note history) SAME (encrypt$3 secur$3 private$2 safe$2 confidential "private key" "encryption key")

Please keep in mind that the above is an example of a search suggestion and it is meant to serve as a possible starting point for Applicant's pre-examination search. Additional guidance regarding the proper manner of performing and documenting a pre-examination search may be found on the following web site: http://www.uspto.gov/web/patents/accelerated/. Applicant is herein expected to perform more detailed and supplemental searches than the sample search query listed above particularly with respect to the features relied on for patentability.

As a result, the petition fails to meet the required conditions to be accorded special status under the Accelerated Examination procedure. Note that in filing any request for reconsideration, applicant should further review the Support Document in that in Section 3f starting at page 125 it is indicated that certain dependent claims depend upon "claim 0".

DECISION

For the above stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within one (1) month or thirty (30) days, whichever is longer, from the date of this decision. No extensions of time will be granted under 37 CFR 1.136(a) if the request is to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Business Practice Specialist Robert Weinhardt at (571) 272-6633 or to Primary Examiner Jean D. Janvier at (571) 272-6719.

In re Application of
Velarde
Application No. 12/406,302
Filed: March 18, 2009

: DECISION ON PETITION
: TO MAKE SPECIAL FOR
: NEW APPLICATION
: UNDER 37 CFR 1.102

For: IMPROVED PERSONAL MEDICAL RECORD SYSTEM

This is a Decision on the Petition filed on March 18, 2009 and the supplemental Petition documents filed May 27, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed to a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

    If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

    Any inquiry regarding this decision should be directed to Robert Weinhardt, Business Practice Specialist, at (571) 272-6633 or to Primary Examiner Jean D. Janvier at (571)272-6719.

FEB 16 2010

In re Application of :
Liu et al. : DECISION ON PETITION
Application No. 12/406,360 : TO MAKE SPECIAL UNDER
Filed: 3/18/2009 : THE GREEN TECHNOLOGY
Attorney Docket No. **W08/024-1** : PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed 1/8/2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) 1 and 2.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 422/178.000) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 2, petitioner should note that a review of the application claims has been made for the purposes of determining the number of claims contained therein. This application contains more than 3 independent claims and/or more than 20 total claims. As set forth in the Notice, if the application contains more than 3 independent claims or more than 20 total claims, it will not be eligible to participate in the "Pilot Program for Green Technologies Including Greenhouse Gas Reduction."

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Tom Dunn at 571-272-1171.

The application is being forwarded to the Technology Center Art Unit 1797 for action in its regular turn.

OFFICE OF PETITIONS

In re Application of :
Ying Zheng et al. : DECISION ON PETITION
Application No. 12/406,406 :
Filed: March 18, 2009 :
Attorney Docket No. 17157-12-P8 :

This is a decision on the petition under 37 CFR 1.57(a), filed April 14, 2009 which is being treated under 37 CFR 1.53(e)(2).

The application was filed on March 18, 2009. However, on April 1, 2009 the Office of Data Management mailed a Notice of Incomplete Application stating that the application had not been filed with drawings and thus, the application could not be accorded a filing date.

In response, the present petition was filed. Petitioner contends that "the present application claims the benefit of Chinese Patent Applications 200820165084.4 filed 2008.10.09; and 200820084381.6 filed 2008.03.18, which are incorporated herein by reference".

On September 21, 2004, § 1.57 was added to read, in pertinent part that:

> (a) Subject to the conditions and requirements of this paragraph, if all or a portion of the specification or drawing(s) is inadvertently omitted from an application, but the application contains ... a claim under 1.78 for the benefit of a prior-filed provisional, nonprovisional or international application, that was present on the filing date of the application, and the inadvertently omitted portion of the specification or drawing(s) is completely contained in the prior-filed application, the claim under ... § 1.78 shall also be considered an incorporation by reference of the prior-filed application as to the inadvertently omitted portion of the specification or drawing(s). MPEP 201.17

Therefore, if an application, as originally filed on or after September 21, 2004, does not include an explicit incorporation by reference statement in the specification, and is entitled to a filing date despite the inadvertent omission of a portion of the prior filed application(s), an applicant may be permitted to add the omitted material by filing an

amendment under 37 CFR 1.57(a) within the time period set by the Office. See 37 CFR 1.57(a)(1) and MPEP 201.06(c)(IV)

Pursuant to 37 CFR 1.57(a)(1):
The application must be amended to include the inadvertently omitted portion of the specification or drawing(s) within any time period set by the Office, but in no case later than the close of prosecution as defined by § 1.114(b), or abandonment of the application, whichever occurs earlier. The applicant is also required to:

(i) Supply a copy of the prior-filed application, except where the prior-filed application is an application filed under 35 U.S.C. 111;

(ii) Supply an English language translation of any prior-filed application that is in a language other than English; and

(iii) Identify where the inadvertently omitted portion of the specification or drawings can be found in the prior-filed application.

...(3) If an application is not otherwise entitled to a filing date under § 1.53(b), the amendment must be by way of a petition pursuant to this paragraph accompanied by the fee set forth in § 1.17(f).

.....

A review of the record indicates that the above-identified application as originally filed on March 18, 2009 did in fact include an explicit incorporation by reference statement in the specification.

The inclusion of an incorporation by reference of the prior filed application(s) will permit an applicant to amend the continuing application to include any subject matter in such prior application(s), without the need for a petition. See MPEP 201.06(c).

However, while drawings have been submitted, the petition does not include an amendment submitting the omitted material.

In view thereof, the petition under §1.57 must be DISMISSED.

Petitioner is given TWO (2) MONTHS from the mailing date of this decision to supply an amendment in compliance with 1.121 and 1.57(a) or otherwise, properly respond. This period is not extendable. See 37 CFR 1.181(f).

Further correspondence with respect to this decision should be addressed as follows:

By mail:	Mail Stop Petition Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

OFFICE OF PETITIONS

In re Application of :
Ying Zheng et al. : DECISION ON PETITION
Application No. 12/406,406 :
Filed: March 18, 2009 :
Attorney Docket No. 17157-12-P8 :

This is a decision on the renewed petition under 37 CFR 1.57(a), filed June 23, 2009 which is being treated under 37 CFR 1.53(e)(2).

The application was filed on March 18, 2009. However, on April 1, 2009 the Office of Data Management mailed a Notice of Incomplete Application stating that the application had not been filed with drawings and thus, the application could not be accorded a filing date.

In response, the present petition was filed. Petitioner contends that "the present application claims the benefit of Chinese Patent Applications 200820165084.4 filed 2008.10.09; and 200820084381.6 filed 2008.03.18, which are incorporated herein by reference".

On September 21, 2004, § 1.57 was added to read, in pertinent part that:

> (a) Subject to the conditions and requirements of this paragraph, if all or a portion of the specification or drawing(s) is inadvertently omitted from an application, but the application contains ... a claim under 1.78 for the benefit of a prior-filed provisional, nonprovisional or international application, that was present on the filing date of the application, and the inadvertently omitted portion of the specification or drawing(s) is completely contained in the prior-filed application, the claim under ... § 1.78 shall also be considered an incorporation by reference of the prior-filed application as to the inadvertently omitted portion of the specification or drawing(s). MPEP 201.17

Therefore, if an application, as originally filed on or after September 21, 2004, does not include an explicit incorporation by reference statement in the specification, and is entitled to a filing date despite the inadvertent omission of a portion of the prior filed application(s), an applicant may be permitted to add the omitted material by filing an

amendment under 37 CFR 1.57(a) within the time period set by the Office. See 37 CFR 1.57(a)(1) and MPEP 201.06(c)(IV).

A review of the record indicates that the above-identified application as originally filed on March 18, 2009 did in fact include an explicit incorporation by reference statement in the specification.

The inclusion of an incorporation by reference of the prior filed application(s) will permit an applicant to amend the continuing application to include any subject matter in such prior application(s), without the need for a petition. See MPEP 201.06(c). A review of the application-as-filed reveals that the specification, filed concurrently with the instant application, contained such a statement.

Obviously, in view of the incorporation by reference, the drawing figures described in the specification are not new matter if it was a part of the disclosure of the prior filed international application.

Accordingly, in view of the incorporation by reference statement in the specification and the amendment and drawings filed with the instant petition, the petition is **DISMISSED**.

The petition fee in the amount of $400.00 will be refunded back to the credit card provided.

This application is being forwarded to the Office of Patent Application Processing (OPAP) for further processing with a filing date of March 18, 2009, using the application papers received in the Office on that date and with an indication in Office records that Figures 1-19 as described in the specification while not included with the application papers upon filing, were a part of the original disclosure.

Telephone inquiries concerning this matter should be directed to Senior Petitions Attorney Patricia Faison-Ball at (571) 272-3212.

In re Application of :
Chih-Kang Yeh :
Application No. 12/406,667 : ON PETITION
Filed: March 18, 2009 :
Attorney Docket No. JCLA29394 :

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28. On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. **See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).**

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. **1098 Off. Gaz. Pat. Office 502 (January 3, 1989)**. Therefore, nothing in this Notice is intended to imply that an investigation was done.

Your fee deficiency submission under 37 CFR 1.28 is hereby **ACCEPTED**.

This application is no longer entitled to small entity status. Accordingly, all future fees paid in this application must be paid at the large entity rate.

Telephone inquiries concerning this decision should be directed to Joan Olszewski at (571) 272-7751.

Application No. 12/406,746 : DECISION ON PETITION
Filed: March 18, 2009 : TO MAKE SPECIAL UNDER
Attorney Docket No. TS-02-26C37 : 37 CFR 1.102(c)(1)
:

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 17, 2010, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement made by registered attorney Seong-Kun Oh, which will be treated as the result of the attorney having evidence that at least one of the applicants is 65 years of age or more. In the event that such evidence is not with the attorney, the Office should be notified immediately. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to undersigned at (571) 272-6735.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center at (571) 272-3700.

The application is being forwarded to Technology Center Art Unit 3735 for action on the merits commensurate with this decision.

In re Application of	:	
VANDOR, DAVID	:	DECISION ON PETITION
Application No. 12/406,754	:	TO MAKE SPECIAL UNDER
Filed: March 18, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 36608-1040	:	PILOT PROGRAM
Title: SYSTEM AND METHOD FOR LIQUID AIR PRODUCTION, POWER STORAGE AND POWER RELEASE		

This is a decision on the petition under 37 CFR 1.102, filed December 11, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy

resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks item(s) #1. In regard to item 1, petitioner should note that this application has been classified in an area (USPC 62/402) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen at 571-272-4856.

The application is being forwarded to the Technology Center Art Unit 3744 for action in its regular turn.

11988 EL CAMINO REAL, SUITE 200
SAN DIEGO CA 92130

In re Application of	:	
VANDOR, DAVID	:	DECISION ON PETITION
Application No. 12/406,754	:	TO MAKE SPECIAL UNDER
Filed: March 18, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 36608-1040	:	PILOT PROGRAM
Title: SYSTEM AND METHOD FOR LIQUID AIR PRODUCTION, POWER STORAGE AND POWER RELEASE		

This is a decision on the renewed petition under 37 CFR 1.102, filed March 4, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed

electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 9 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Henry C. Yuen at 571-272-4568. Telephone inquires concerning the status of this application should be directed to Examiner Fritz Fleming at 571-272-4145.

The application is being forwarded to the Technology Center Art Unit 2836 for action on the merits commensurate with this decision.

Decision Refusing to Accord Status Under 37 CFR 1.47(a)

This is a decision on the petition under 37 CFR 1.47(a) filed March 18, 2009.

The petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. No further petition fee is required for the request. Any response should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)" and may include an oath or declaration executed by the current non-signing inventor(s). **Failure to respond will result in abandonment of the application.**

Background

The instant application is a continuation of Application No. 11/228,845.

A petition under 37 CFR 1.47(a) and declaration signed by three of the four inventors were filed in Application No. 11/228,845 on April 6, 2006.

A decision granting the petition filed in Application No. 11/228,845 was recently mailed on May 22, 2009.

A copy of the petition under 37 CFR 1.47(a) filed in Application No. 11/228,845, and a copy of the declaration filed in Application No. 11/228,845, were filed with the instant application on March 18, 2009.

Opinion

The *current* record is insufficient to accord status to the application under 37 CFR 1.47(a).

Petitioner has submitted a copy of the petition and declaration filed in the parent application. When a parent application has been accorded status under 37 CFR 1.47, an applicant may submit a copy of the declaration from the parent application and a copy of the parent application's Rule 47 *decision letter* in order to obtain status under 37 CFR 1.47 in the new application.[1] Unfortunately, petitioner has been unable to supply a copy of the decision from the parent application due to the Office's delay in rendering a decision in response to the petition filed in Application No. 11/228,845. As a result, a copy of a decision granting status under 37 CFR 1.47(a) in the parent application has not been filed.

The Office mailed a decision granting the petition filed in Application No. 11/228,845. Therefore, petitioner may now submit a copy of the decision from Application No. 11/228,845.

Any request for reconsideration should include a copy of the decision from Application No. 11/228,845.

Unless filed by EFS Web, further correspondence with respect to this matter should be addressed as follows:

Decision According Status
Under 37 CFR 1.47(a)

This is in response to the Request for Reconsideration filed June 12, 2009.

The petition is **granted**.

When a parent application has been accorded status under 37 CFR 1.47, an applicant may submit a copy of the declaration from the parent application and a copy of the parent application's Rule 47 decision letter instead of submitting a new petition under 37 CFR 1.47.[1]

The instant application is a continuation of Application No. 11/228,845. A petition under 37 CFR 1.47(a) and declaration signed by three of the four inventors were filed in Application No. 11/228,845 on April 6, 2006. A decision granting the petition filed in Application No. 11/228,845 was mailed on May 22, 2009.

Petitioner has supplied a copy of the decision from the prior application with the instant request and previously submitted a copy of the declaration from the prior application.

The declaration filed March 18, 2009, is hereby accepted and the signing inventors may prosecute the application on behalf of the non-signing inventor.

The application is hereby accorded Rule 1.47(a) status.

[1] 37 CFR 1.63(d)(3) states, "Where the executed oath or declaration of which a copy is submitted for a continuation or divisional application was originally filed in a prior application accorded status under § 1.47, the copy of the executed oath or declaration for such prior application must be accompanied by . . . A copy of the decision granting a petition to accord § 1.47 status to the prior application, unless all inventors or legal representatives have filed an oath or declaration to join in an application accorded status under § 1.47 of which the continuation or divisional application claims a benefit."

Technology Center Art Unit 3769 will be informed the March 18, 2009 declaration has been accepted without the signatures of all the inventors and that the application is in condition for examination in due course.

Telephone inquiries regarding this communication should be directed to Petitions Attorney Steven Brantley at (571) 272-3203.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 18, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I 1- 4, II 1-4, II 5.1, 5.3, and II 6.1-6.6 above are considered to have been met. However, the petition fails to comply with condition II 5.2 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of MPEP § 708.02(a)(I.)(H)[1] and items II.5.2 above, the preexamination search does not encompass all of the features of the claims, and does not appear to have given the claims the broadest reasonable interpretation.

Specifically, the text search strategy should be modified to include reasonable number of synonyms. Here is an example search strategy that would complete this requirement.

1) ((mobile wireless) near3 (device unit)) same ((first second) near3 (code license copyright "DRM" right))

2) ((check$3 determin$3) same (copyright "DRM" right) with (first near3 (code license)))

3) ((output$4 render$3) same content same (second near3 (code license)))

4) (decrypt$3 reproduc$3) same content same (software program) same server

Or is the default operator. Petitioner should review all claim limitations, especially those asserted as patentable distinctions from the cited references to ensure that the search covers these concepts, and update the search and/or provide any clarifications if deemed necessary.

Finally, based upon the claimed subject matter of the instant application, a search in the following class and subclasses is recommended in order to provide full coverage of where the most pertinent references are most likely to be found: **Class 726 Information Security,** Subclass 26 (Prevention of Unauthorized use of Data Including Prevention of Piracy, Piracy Violations, or Unauthorized Data Modification), Subclass 27 (Access Control), Subclass 30 (By authorizing data), Subclass 31 (Limitations on Number or Amount of Copies), Subclass 32 (Copy

Detection) Subclass 33 (Copy Inactivation); **Class 713 Electrical Computers and Digital Processing Systems:Support**, Subclass 187 (Computer Program Modification Detection by Cryptography); **Class 705 Data Processing: Financial, Business Practice, Management, or Cost/Price Determination**, Subclasses 57-58 (Copy Protection or Prevention); **Class 380 Cryptography**, Subclasses 201-204 (Copy Protection or Prevention); **Class 455 Telecommunications**, Subclass 410 (Security or Fraud Prevention) for subject matter related to prevent an illegal distribution of digital content data at a mobile device including at least first and second program code segments. It is noted that on page 1 of the pre-examination search document states that class 713, subclass 200 was searched, however the identified subclass does not exist. Correction is required. This additional search area was confirmed with an examiner in the pertinent art area.

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Tod Swann, Quality Assurance Specialist, at (571) 272-3612. A second point of contact is QAS Kim Huynh whose number is (571)-272-4147.

DECISION ON PETITION
TO MAKE SPECIAL
(ACCELERATED EXAMINATION)
UNDER 37 C.F.R. § 1.102(d) and
M.P.E.P. §708.02

This is a decision on the renewed petition filed on May 01, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d). The original petition, submitted on March 18, 2009 was dismissed in the decision mailed on April 02, 2009.

The petition to make the application special is **GRANTED** as the new Search Document meets the requirements of conditions II 5.2 that were deficient in the original petition.

The application is eligible for accelerated examination and the renewed petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323) as the original identified deficiencies for failing to comply with the requirements for the pre-examination search encompassing all of the features of the claims, and giving the claims the broadest reasonable interpretation, the statement of patentability must provide a detailed explanation of how each of the claims are patentable and the concise statement of the utility must be of the invention as defined in each of the independent claims (reference must be made to independent claims 1, 14 and 20) have been corrected.

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Tod Swann, Quality Assurance Specialist, at (571) 272-3612. A second point of Contact is Kim Huynh at (571)-272-4147.

OFFICE OF PETITIONS

In re Application of	:	
Arthur J. Emanuele	:	DECISION ON PETITION
Application No. 12/406,818	:	TO WITHDRAW
Filed: March 18, 2009	:	FROM RECORD
Attorney Docket No. 54525-10001	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed June 22, 2010.

The request is **NOT APPROVED**.

The Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *who properly became of record under 37 CFR 3.71,* or, if no assignee of the entire interest has properly been made of record, the most current address information provided for the first named inventor. 37 CFR 3.71(c) states:

An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.

According to a review of current USPTO records petitioner has not requested the address be changed to a properly recorded assignee or the first listed inventor. Arthur J. Emmanuel, is neither the first named inventor nor the assignee who properly became of record under 37 CFR 3.71 As such, all future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Currently, there is no outstanding Office action that requires a reply.

Telephone inquires concerning this decision should be directed to the undersigned at 571-272-7751.

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 17, 2010, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement made by registered attorney Seong-Kun Oh, which will be treated as the result of the attorney having evidence that at least one of the applicants is 65 years of age or more. In the event that such evidence is not with the attorney, the Office should be notified immediately. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to undersigned at (571) 272-6735.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center at (571) 272-3700.

The application is being forwarded to Technology Center Art Unit 3735 for action on the merits commensurate with this decision.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 18, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 U.S.C. 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 U.S.C. 103(c).

REVIEW OF FACTS

The conditions I: 1-4, II: 1-5, 5.1, 5.3, 6, 6.1, 6.2, 6.4, and 6.6 above are considered to have been met. However, the petition fails to comply with conditions II: 5.2, 6.3, and 6.5 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Discussion

When referring to "the petition" herein below, the received papers under consideration include the four page PTO/SB/28 form "Petition to Make Special Under Accelerated Examination Program", the "pre-examination search document" (PESD) including pages 1-4; the "accelerated examination support document" (AESD) comprising pages 1-9, and an Information Disclosure Statement (IDS).

Regarding the requirements of section II element 5.2 outlined above, it appears the search outlined in the petition omitted a critical search area by not searching in class 463 subclasses 12 and 25.
In addition, the following terms must be added to the keywords search: bad beat pot, tournament, side bet.

With respect to the requirements of section II element 6.3 outlined above, the petition fails to provide a detailed explanation of how claims 4, 5, 8, 9, 12, and 14 are patentable over the reference with particularity required by 37 CFR 1.111(b) and (c). Petitioners should be specific in their explanation and include the identification of specific claim limitations that support their position, where appropriate. Petitioner's statements must be consistent and must be related to the claim language. With regard to the remaining dependent claims, there should be an unequivocal statement whether the patentability of each dependent claim is predicated solely on that of the claim from which it depends (e.g., "Dependent claim X is patentable solely because of the limitations of the claims from which it depends" - will suffice), or Applicant should provide a detailed explanation of patentability specific to that particular claim (only if the claim recites new limitations that further define over the prior art).

Regarding the requirements of section II element 6.5 outlined above, the requirements of this section are not met because lack of specificity. A grantable petition requires petitioner to provide a showing of where each limitation of the claims finds support under 35 U.S.C. 112, first paragraph, in the written description of the specification. The instant petition only identifies figures and portions of text with respect to claim numbers as opposed to the disclosure of the required claim limitations, addressed individually for each limitation in each claim. For example, repeated reference is made to paragraphs 20-21 that extend to over one page. The requirement of section II element 6.5 can be satisfied by listing verbatim all the presently filed claims (by "copy and paste") and by indicating where the instant application teaches each discrete limitation (without bundling limitations to the extent possible) in each one of said presently filed claims, by indicating the element number and/or the relevant page and line numbers. To the extent possible, Petitioner should indicate the enablement location in the specification as required by statute, i.e., "the manner and process of making and using it," rather than pointing to the first occurrence of establishing antecedent for the limitation in the specification. For this reason Petitioner should indicate, to the extent possible, the combination of the element, figure, page, (or paragraph), and line numbers in the specification where the mapped limitation is actually taught and enabled. Petitioner's attention is also drawn to the requirements relevant under 35 U.S.C 112, 6th paragraph, listed above. Should this requirement not apply to the present application, Petitioner should make a statement in this regard.

DECISION

For the above-stated reasons, the petition is **dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address all of the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Ehud Gartenberg, TC 3700 Special Programs Examiner, at (571) 272-4828.

MAILED JUL 27 2009

In re Application of: Hilf et al.
Application No.: 12/406862
Filed: March 18, 2009
Docket: 116482.010100
Title: POKER GAME SYSTEM HAVING BAD BEAT POT AND METHOD OF CONDUCTING THE SAME

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on May 18, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

Best Available Copy

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

Best Available Copy

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Application No. 12/406,874 : UNDER 37 CFR 1.47(a)
Filed: March 18, 2009 :
Attorney Docket No. LPT-3200-CP :

This is in response to the petition under 37 CFR 1.47(a), filed October 5, 2009.

The petition is **GRANTED**.

Petitioner has shown that the non-signing inventor cannot be located to join in the filing of the above-identified application.

The application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in 37 CFR 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application is being referred to Technology Center Art Unit 1641 for examination in due course.

Telephone inquiries regarding this decision should be directed to Andrea Smith at (571) 272-3226.

Dear Genevieve Hansen:

You are named as a joint inventor in the above-identified United States patent application, filed under the provisions of 35 U.S.C. 116 (United States Code), and 37 CFR 1.47(a), Rules of Practice in Patent Cases. Should a patent be granted on the application you will be designated therein as a joint inventor.

As a named inventor you are entitled to inspect any paper in the file wrapper of the application, order copies of all or any part thereof (at a prepaid cost per 37 CFR 1.19) or make your position of record in the application. Alternatively, you may arrange to do any of the preceding through a registered patent attorney or agent presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you. Joining the application would entail the filing of an appropriate oath or declaration by you pursuant to 37 CFR 1.63.

Telephone inquiries regarding this communication should be directed to Andrea Smith at (571) 272-3226. Requests for information regarding your application should be directed to the File Information Unit at (703) 308-2733. Information regarding how to pay for and order a copy of the application, or a specific paper in the application, should be directed to the Certification Division at (571) 272-3150 or 1 (800) 972-6382 (outside the Washington, DC area).

In re Application of :
Leahy, Challinger, Adler, Ardon :
Application No.: 12/406,968 : DECISION REFUSING
Filed: March 19, 2009 : RULE 47(a) STATUS
Attorney Docket No: AP019CON3 :
For: SYSTEM AND METHOD FOR ENABLING USERS TO INTERACT IN A VIRTUAL SPACE

This is a decision on the petition under 37 CFR 1.47(a) filed March 19, 2009.

The petition under 37 CFR 1.47(a) is **dismissed.**

Any request for reconsideration under this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. Failure to respond will result in the abandonment of this application. Any response should be titled "Request for Reconsideration of Petition Under 37 CFR 1.47(b).

The above-identified application was filed on March 19, 2009, and was accompanied by the instant petition under 37 CFR 1.47(a). Petitioner states that status under 37 CFR 1.47(a) was previously granted in applications 08/747,420 and 11/591,878 of which the subject application is a continuation. A copy of the declaration filed in application 08/747,420 accompanied the petition papers[1].

In accordance with 37 CFR 1.63(d)(3), applicants have submitted a copy of the executed declaration submitted in Application No. 08/747,420, filed November 12, 1996, of which the present filing is a continuation application. The petition was not accompanied by a copy of the decision granting the petition under 37 CFR 1.47(a) in the prior application and the undersigned was not able to retrieve a copy of the decision from application 08/747,420. In the normal

[1] It is noted that the copy of the declaration under 37 CFR 1.63 first filed in application 08/747,420 filed states that: "I acknowledge the duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, § 1.56." All declarations under 37 CFR 1.63 filed after June 1, 2008, must include the language expressly set forth in 37 CFR 1.63(b)(3), which states that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined by §1.56. See 37 CFR 1.63(b)(3). It is further noted that for continuing application filed under37 CFR 1.53(b), other than continuation-in-part application, the Office will accept an oath or declaration that contains outdated language if the oath or declaration otherwise complied with 37 CFR 1.63 and either: 1) was filed prior to June 1, 2008; or 2) is being filed in continuation or divisional application in which a claim for benefit under 35 USC 120 has been made to a prior-filed co-pending non-provisional application, and the oath or declaration is a copy of the previously accepted oath or declaration that was filed prior to June 1, 2008.

course, if Rule 1.47(a) status is granted in a prior application, the subject continuation application would also be accorded status under 37 CFR 1.47(a). Such status cannot be accorded at this juncture because status under 37 CFR 1.47(a) in the prior application could not be confirmed. Petitioner may file a renewed petition under 37 CFR 1.47(a) and provide a copy of the decision granting Rule 47 status in application 08/747,420.

Further correspondence with respect to this matter should be addressed as follows:

: DECISION ON
: PETITION

This is in response to the renewed petition under 37 CFR 1.47(a), filed May 12, 2009.

In accordance with 37 CFR 1.63(d)(3), applicants have submitted a copy of the executed declaration submitted in Application No. 08/747,420, filed November 12, 1996, of which the present filing is a continuation application. The petition was not accompanied by a copy of the decision granting the petition under 37 CFR 1.47(a) in the prior application and the undersigned was not able to retrieve a copy of the decision from application 08/747,420. Petitioner has provided a copy of the decision from application 08/747,420 granting Rule 1.47(a) status in the prior application.

As Rule 1.47(a) status was granted in the prior application, this application is hereby accorded Rule 1.47(a) status. As no petition is necessary to accord Rule 1.47(a) status in this application, the petition is **dismissed as moot.** No petition fee is necessary.

Pursuant to 37 CFR 1.47(c), the Office is dispensing with the notice provision in the present application because notice was provided after the grant of Rule 1.47(a) status in the prior application.

The matter is being referred to the Office of Patent Application Processing for further review.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3222.

This is in response to the petition under 37 CFR 1.47(a) filed on March 19, 2009.

The petition is **DISMISSED AS MOOT**.

In accordance with 37 CFR 1.63(d), petitioner has submitted a copy of the executed oath or declaration filed in Application No. 08/747,420, filed on November 12, 2006. The subject application is a continuation of Application No. 12/353,218, filed on January 13, 2009, which is a continuation of Application No. 11/591,878, filed on November 2, 2006, which is a continuation of Application No. 09/632,154, filed on August 3, 2000, which is a continuation of Application No. 08/747,420, filed on November 12, 1996. Furthermore, a copy of the decision, mailed on September 19, 2000, granting a petition to accord § 1.47(a) status to prior application No. 08/747,420, has been placed in the file of the present application.

As Rule 1.47(a) status was granted in the prior application, this application is hereby accorded Rule 1.47(a) status.

As no petition is necessary to accord Rule 1.47(a) status in this application, the petition is dismissed as moot. No petition fee is necessary. The petition fee will be refunded to counsel's deposit account.

As provided in Rule 1.47(c), since notice was provided after the grant of Rule 1.47(a) status in the prior application, the Office is dispensing with the notice provision in this continuation application.

After this decision is mailed, the application is referred to Technology Center Art Unit 2173 for further processing.

Telephone inquiries related to this decision should be directed to the undersigned at 571-272-3231.

COPY MAILED
JAN 22 2010

In re Application of	:	
GOODWIN, KURT J.	:	DECISION ON PETITION
Application No. 12/406,986	:	TO MAKE SPECIAL UNDER
Filed: March 19, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 235419	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed December 28, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks items 1 and 5 above for the reason as explained in more detail below.

In regard to item 1, this application has been classified (USPC 29/889.1) in an area that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified else where. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 5, it is noted that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard

The file does not indicate a change of address has been submitted, although the address given on the petition differs from the address of record. If appropriate, a change of correspondence address (form PTO/SB/122) should be filed. A courtesy copy of this decision is being mailed to the address given on the petition; however, the Office will mail all future correspondence solely to the address of record.

Further correspondence with respect to this matter should be addressed as follows:

In re Application of	:	
Goodwin, Kurt J.	:	DECISION ON PETITION
Application No. 12/406986	:	TO MAKE SPECIAL UNDER
Filed: Mar. 19, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 235419	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed June 17, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009) and amended by 75 Federal Register Notice 28554 (May 21, 2010).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must have no more than 3 independent claims and no more than 20 total claims. 2) The application must not contain any multiple dependent claims. 3) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 4) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 8 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquires concerning this decision should be directed to Henry C. Yuen at 571-272-4856.

The application is being forwarded to the Technology Center Art Unit 3726 for action on the merits commensurate with this decision.

Title: **METHOD FOR PRINTING ONTO COLOURED SUBSTRATES**

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 19, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d) pursuant to MPEP§ 708.02(II) and MPEP § 708.02(a).

The petition to make the application special pursuant to MPEP § 708.02(II) based on Actual Infringement is **DENIED**.

The petition to make the application special pursuant to MPEP § 708.02(a) Accelerated Examination is **DISMISSED**.

REGULATION AND PRACTICE

MPEP 708.02 states:

Any petition to make special, other than those based on applicant's health or age or the Patent Prosecution Highway (PPH) pilot program, filed on or after August 25, 2006 must meet the requirements for the revised accelerated examination program set forth in MPEP § 708.02(a).

Requirements under MPEP 708.02(a):

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination"

published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

A petition to make special for accelerated examination procedure under 37 C.F.R. § 1.102(d) pursuant to MPEP§ 708.02(II) and MPEP § 708.02(a) was filed March 19, 2009.

The conditions set forth under section I. above are considered to have been met. However, the petition fails to comply with conditions set forth under section II, items 5.1-5.3, 5.5, 6.2 and 6.3

Regarding the requirement in item 5.1 - 5.3 above, the preexamination search document provided with the instant petition is deficient as follows: The search was too narrow. The following class/subclasses must also be searched.

358/1.9, 2.1, 502, and 503

A statement was made to indicate EAST, European, and Japanese computer database searches were also conducted for each of the classes and subclasses listed above. However there is no indication of what search logic or search strings were used to conduct the database searches. Also, regarding the European and Japanese computer databases, there is no indication of the name of the file or files searched and the database service as required by item 5 above.

Regarding the requirement of item 5.5 above, there is no statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

Regarding the requirement in item 6.2 above, the Accelerated Examination Support Document is deficient because section titled "Analysis of References and Preexamination Search Statement" provides only a generic description of limitations that are identified and recites a broad general description of each reference cited. There is also an identification of limitations that are not disclosed by the reference, but there is no indication of which claims these limitations are in reference to. The petition fails to identify all of the limitations in each of the claims 1-19 of the

application that are disclosed by each reference cited and specifying where each limitation is disclosed by each cited reference as required by item 6.2. Clarification is required.

Regarding the requirements of item 6.3, above, the Accelerated Examination Support Document is deficient because the document fails to provide a "detailed explanation of how ***each of the claims*** are patentable over each of the references cited with particularity required by 37 CFR 1.111(b) and (c)" (emphasis added). Petitioner has provided an explanation of limitations that are not taught by each reference individually. However, there is no indication of which claims these limitations are in reference to. Arguably these limitations appear to be in reference to independent claims 1, 16, and 19. However, regarding dependent claims 2-15, 17, and 18, petitioner makes no mention of any of the limitations in these claims regarding their status as being disclosed by the reference specifying where the limitations is disclosed or explain how each of the claims are patentable over the references cited. Petitioner has failed to provide a detailed explanation of how each of these dependent claims are patentable over the references. Therefore it is presumed that claims 2-5, 7, 8, and 10-11 stand or fall together with the patentability of their respective independent claims 1, 6, and 9. **Since petitioner has only argued the patentability of the broadest, independent claims and no separate reasons for patentability are argued in regard to dependent claims 2-5, it is presumed that petitioner believes that all claims not separately argued for patentability stand or fall together. If this is not accurate, then any request for reconsideration must provide a detailed explanation in regard to *each of the claims* as set forth in item 6.3 above.** Clarification is required.

If any request for reconsideration is filed, an updated preexamination search must be conducted as per item 5.1 above, and the Preexamination Search Document must be amended to indicate such; a new Information Disclosure Statement should be filed to cite any newly found prior art, and the Accelerated Examination Support Document must also be amended to include the necessary reference and discussion of any newly found and cited prior art in accordance with all of items 6 through 6.6 above.

For the reasons cited above, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

Because application and petition were filed after August 25, 2006, the petition to make special pursuant to MPEP § 708.02(II) based on Actual Infringement is **DENIED**.

For the above-stated reasons, the petition to make special pursuant to MPEP § 708.02(a) Accelerated Examination is **DISMISSED**.

The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition make special pursuant to MPEP § 708.02(a) Accelerated Examination. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time

under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Michael Horabik, Quality Assurance Specialist, at (571) 272-3068.

Serial No.: 12/407,037
Filed: March 19, 2009
Attorney Docket No: **P36204**
Title: **METHOD FOR PRINTING ONTO COLOURED SUBSTRATES**

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on June 08, 2009 requesting reconsideration to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

All of the requirements to correct the deficiencies outlined in the petition decision mailed May 15, 2009 have been met.

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the

examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not

file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Michael Horabik, Quality Assurance Specialist, at (571) 272-3068.

Application No. 12/407,090 : **NEW APPLICATION**
Filed: March 19, 2009 : **UNDER 37 CFR 1.102**
For: PROVIDING SUPPLEMENTAL CONTENT
FOR A SOCIAL EXPRESSION PRODUCT

This is a decision on the petition filed on March 19, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The petition fails to comply with conditions II.5.2, II.6.2, and II.6.3, above.

As to condition II.5.2, the petition lacks an indication of a preexamination search that encompasses all of the features of the claims. Specifically, it is unclear if an adequate classification search was completed. The Search Document indicates that "the above subclasses were searched in conjunction with the search strategy shown below:". Given this statement it is unclear if the required classification search was completed separately from the text search. A response confirming that a classification search has been completed that examined the entirety of the art located in the classes and subclasses listed is needed.
With respect to the required text search of the US Patents database, the petition provides search logic that is inadequate. The search appears to be far too specific to be considered an acceptable search. The search should not be so limited. The USPTO website has an example of the proper manner of performing and documenting a preexamination search for Accelerated Examination petitions at: http://www.uspto.gov/web/patents/accelerated/. Additionally, an example of acceptable search logic is provided below:

card with panel with (pocket or storage or opening) and transparent and mold$2

The sample of search logic is not meant to be the sole search logic that can or should be employed in this application, but is meant solely as an example for applicant's assistance. The sample search logic provided above can also apply to searching the foreign and NPL databases.

Regarding items II.6.2 and II.6.3, applicant has provided 2 separate information disclosure statements (IDS) that contain 3 and 7 references, respectively. An AESD that contains a list of references in the IDS of the AESD, but does not include any clear identification and explanation for those references that are not required to be submitted in the IDS of the AESD (*i.e.*, references that are not most closely related to the subject matter of each of the claims), will be deemed insufficient for lack of identification and explanation. If applicant wishes to cite references that are not required in an AESD for the examiner to consider, applicant may submit such references in a separate IDS in compliance with 37 CFR 1.97 and 1.98. Applicant should clearly identify the IDS of the AESD that is in support of the petition to make special and, similarly, applicant should clearly identify the separate IDS that is not in support of the petition. Consistent with 37 CFR 10.18, any reference submitted in a separate IDS that is not part of an AESD will be treated as a representation by applicant to the USPTO that no reference submitted in the separate IDS is deemed closer to the subject matter of at least one claim than the references provided in the AESD. In this case, there are two IDS cover sheets submitted, one indicates that the attached form SB/08 is in support of the petition and the other indicates that the SB/08 is not in support of the petition. However, because the cover sheets do not clearly indicate which SB/08 is associated with which cover sheet, it is not clear which set of references is in support of the petition and which is not.

It is suggested that applicant make this clear on the SB/08 forms themselves so that there can be no confusion.

Regarding item II.6.2, the manner in which applicant has chosen to provide the Identification of Limitations Disclosed by References is confusing, at least for the independent claims. Because the independent claims are largely explained in terms of what is taught using the language of the references themselves rather than listing the limitations of the claims, there currently is not an adequate explanation specifying what limitations are taught and where each of the limitations (or portions thereof) are disclosed in each of the references. While there is no mandatory format needed to be followed, an explanation of the references as applicant has done does not clearly enough identify what limitations are taught, and is not sufficient to meet the above condition.

As to condition II.6.3, there does not appear to be a satisfactory detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c). Specifically, for example, claim 4 recites that one of a number of items comprises the digital experience. And although some of the items are disclosed as known, the claim is indicated as separately patentable. It is not clear why this is so. Also some of the dependent claims said to be separately patentable, claims 7, 8 and 10 for example, seem to be reciting very broad limitations that would be expected to be found in the greeting card art. These claim limitations not being found in any of the cited art is an indication that the concept of the invention rather than each of the separate claim limitiations may have been searched for.

As to condition to II.6.5, the showing of where each limitation of each of the claims finds support under 35 USC 112 in the written description of the application is insufficient. The format used is acceptable. However, although the parent application 12/001,098 has been so treated, similar support (if any) for the claimed invention must additionally be shown in the parent application upon which priority is claimed under 35 USC 119. Specifically, for provisional applications 60/873,821, 60/937,902, and 60/925,632, a listing of where the limitations of the claims find support is necessary.

The USPTO website has an example of the proper manner of documenting limitations taught by cited art, and the manner of explaining claim patentability over the references, for an Accelerated Examination Support Document at: http://www.uspto.gov/web/patents/accelerated/.

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is **DISMISSED**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Steven N. Meyers, Quality Assurance Specialist, at (571) 272-6611.

In re application of
Carol Miller, et al.
Application No. 12/407,090
Filed: March 19, 2009
For: PROVIDING SUPPLEMENTAL CONTENT FOR A SOCIAL EXPRESSION PRODUCT

: **DECISION ON PETITION**
: **TO MAKE SPECIAL FOR**
: **NEW APPLICATION**
: **UNDER 37 CFR 1.102**

This is a decision on the renewed petition filed on May 29, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The renewed petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed to a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of

Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Quality Assurance Specialist Steven N. Meyers, at (571) 272-6611.

In re Application of :
Cheng, et al. :
Application No. 12/407,167 : DECISION REFUSING STATUS
Filed: March 19, 2009 : UNDER 37 CFR 1.47(a)
Attorney Docket No. 250122-4400 :

This is in response to the petition under 37 CFR 1.47(a), filed July 23, 2009.

The petition under 37 CFR 1.47(a) is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **Failure to respond will result in abandonment of the application.** Any extensions of time will be governed by 37 CFR 1.136(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached after diligent effort or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims, drawings, oath or declaration); (2) an acceptable oath or declaration in compliance with 37 CFR 1.63; (3) the petition fee; and (4) a statement of the last known address of the non-signing

inventor. Rule 47 applicant has not met requirements (1) and (2) above.

With respect to requirement (1), Rule 47 applicant has not demonstrated diligent effort in finding non-signing inventor Aviv Wu. With respect to showing diligent effort, "an affidavit or declaration of facts should be submitted that fully describes the exact facts which are relied on to establish that a diligent effort was made."[1] Here, the evidence establishes that a copy of the application papers was mailed to the last known address of Wu, but were returned as "undeliverable". because they no longer resided at that address. Knowing that Wu is no longer at that address, Rule 47 applicant has not provided any information of the steps taken to subsequently locate him. Applicant has provided no documentary evidence, such as a copy of an internet search, to support such a finding[2].

As to requirement (2), the signature block for inventor Wu should be left blank. As this is not a 37 CFR 1.47(b) petition, it is not acceptable that another party sign for Wu. Rather, a declaration with a blank signature block for the non-signing inventor will be treated as having been signed by all the available joint inventors on behalf of the non-signing inventor

Application No. 12/407,167	:	DECISION NOTING JOINDER
Filed: March 19, 2009	:	OF INVENTOR AND PETITION
Attorney Docket No. 250122-4400	:	UNDER 37 CFR 1.47 MOOT

This is in response to the renewed petition under 37 CFR 1.47(a), filed December 4, 2009.

The petition under 37 CFR 1.47(a) is **DISMISSED** as moot.

In view of the **joinder** of the inventor, further consideration under 37 CFR 1.47(a) is not necessary and the petition is considered to be **moot**. This application does not have any Rule 1.47(a) status and no such status should appear on the file wrapper. This application need not be returned to this Office for further consideration under 37 CFR 1.47(a).

The application is being forwarded to the Office of Patent Application Processing for pre-examination processising.

Telephone inquiries related to this decision may be directed to the undersigned at (571)272-3207.

OFFICE OF PETITIONS

In re Application of	:	
Gholman A. Peyman	:	
Application No. 12/407,175	:	DECISION ON PETITION
Filed: March 19, 2009	:	TO MAKE SPECIAL UNDER
Attorney Docket No. 075200.12	:	37 CFR 1.102(c)(1)
	:	

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 19, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement from the applicant declaring that he is 65 years of age or older. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Terri Williams at 571-272-2991.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

The application is being forwarded to the Technology Center Art Unit 1614 for action on the merits commensurate with this decision.

In re Application of :
Philipp Bonhoeffer, et al. : DECISION REFUSING STATUS
Application No. 12/407,342 : UNDER 37 CFR 1.47(a)
Filed: March 19, 2009 :
Attorney Docket No. 1017.0001-04 :

This is in response to the petition under 37 CFR 1.47(a), filed October 30, 2009.

The petition is DISMISSED.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.** Any extensions of time will be governed by 37 CFR 1.136(a).

The above-identified application was filed on March 19, 2009, without an executed oath or declaration. Accordingly, on April 2, 2009, a Notice to File Missing Parts of Nonprovisional Application was mailed, requiring, *inter alia*, an executed oath or declaration and a surcharge for its late filing. A two (2) month period for reply was set. In response, on October 30, 2009, applicant filed an appropriate 5-month extension of time, the required filing fees and the present petition under 37 CFR 1.47(a), as well as the requisite petition fee and a partially executed declaration under 37 CFR 1.63.

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

The petition lacks items (1).

As to item (1), rule 47 applicant must demonstrate with documented evidence that an inventor refuses to join in the application after having been presented with the application papers (specification, claims, drawings and oath or declaration). There is no indication herein that joint inventor Philipp Bonhoeffer was presented with a copy of the complete application papers for this application. From the evidence of record, it only appears that the application papers were sent to Mr. Bonhoeffer's United States and United Kingdom attorneys, respectively, for presenting the application papers to Mr. Bonhoeffer.

The applicable statute (35 U.S.C.§ 116) requires that a "diligent effort" have been expended in attempting to find or reach the non-signing inventor. *See* MPEP 409.03(a). The showing currently fails to demonstrate, with a documented showing, that a diligent effort was made to find or reach the non-signing inventor.

The petition fails to indicate that correspondence was ever mailed unsuccessfully to the joint inventor's last known address. If the inventor was not presented with a copy of the application papers for this application, then he could not attest that he has "reviewed and understands the application papers" and could not execute the declaration he was requested to sign. Therefore, at the very least, petitioner should mail correspondence to the last known address of joint inventor Philipp Bonhoeffer, return receipt and/or forwarding address requested. If a forwarding address is provided, petitioner should then mail a complete copy of the application papers (specification, claims, drawings, oath, etc.) to that address, return receipt requested, along with a cover letter of instructions which includes a deadline or a statement that no response will constitute a refusal. This sort of ultimatum lends support to a finding of refusal by conduct. If the papers are returned and all other attempts to locate or reach the inventor, e.g., through personnel records, co-workers, E-mail, the Internet or the telephone, etc., continue to fail, then applicant will have established that the inventor cannot be reached after diligent effort or has refused to join in the application. **The statements of facts must be signed, where at all possible, by a person having firsthand knowledge of the facts recited therein and should be accompanied by documentary evidence in support of the statement of facts.** It is important that the forthcoming communication contain statements of fact as opposed to conclusions.

Where there is an express or oral refusal, that fact, along with the time and place of the refusal, must be stated in an affidavit or declaration by the party to whom the refusal was made. Where there is a written refusal, a copy of the document(s) evidencing that refusal must be made part of the affidavit or declaration.

When it is concluded by the rule 47 applicant that an omitted inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in an affidavit or declaration. If there is documentary evidence to support facts alleged in the affidavit or declaration, such evidence must be submitted.

Whenever an omitted inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the affidavit or declaration.

Further correspondence with respect to this matter should be delivered through one of the following mediums:

By mail:	Mail Stop PETITIONS Commissioner for Patents Post Office Box 1450 Alexandria, VA 22313-1450
By hand:	Customer Service Window Mail Stop Petitions Randolph Building 401 Dulany Street Alexandria, VA 22314
By fax:	(571) 273-8300 ATTN: Office of Petitions
By Internet:	EFS-Web[1]

Telephone inquiries should be directed to the undersigned at (571) 272-3204.

In re Application of	:	
AIYAKKANNU, NIRMAL KUMAR	:	DECISION ON PETITION
Application No. 12/407,366	:	TO MAKE SPECIAL UNDER
Filed: March 19, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 232756 (22402-134)	:	PILOT PROGRAM

This is a decision on the petition under 37 CFR 1.102, filed December 16, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be

accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The petition lacks items 1 and 5 above for the reason as explained in more detail below.

In regard to item 1, this application has been classified (USPC 475/225) in an area that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified else where. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 5, it is noted that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard

The file does not indicate a change of address has been submitted, although the address given on the petition differs from the address of record. If appropriate, a change of correspondence address (form PTO/SB/122) should be filed. A courtesy copy of this decision is being mailed to the address given on the petition; however, the Office will mail all future correspondence solely to the address of record.

Further correspondence with respect to this matter should be addressed as follows:

ARMSTRONG TEASDALE LLP
ONE METROPOLITAN SQUARE, SUITE 2600
ST. LOUIS MO 63102-2740

In re Application of	:	
Nirmal Kumar Aiyakkannu	:	DECISION ON PETITION
Application No. 12/407,366	:	TO MAKE SPECIAL UNDER
Filed: March 19, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 232756 (22402-134)	:	PILOT PROGRAM

This is a decision on the renewed petition under 37 CFR 1.102(c)(2), filed June 9, 2010, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth in 74 Federal Register Notice 64666 (December 8, 2009) and amended by 75 Federal Register Notice 28554 (May 21, 2010).

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must have no more than 3 independent claims and no more than 20 total claims. 2) The application must not contain any multiple dependent claims. 3) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 4) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice before the Office explaining how the materiality standard is met. 5) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 6) The petition to make special must be filed electronically. 7) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 8) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived.

The instant petition complies with items 1 – 8 above. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Lanna Mai at 571-272-6867.

The application is being forwarded to the Technology Center Art Unit 3655 for action on the merits commensurate with this decision.

In re Application of:
GYURIK :
Serial No.: 12/407,418 : DECISION
Filed: March 19, 2009 : ON
Docket: 4020-049 : Petition under
Title: PHARMACEUTICAL COMPOSITION : 37 CFR 1.102(d)

This is a decision on the petition filed on March 19, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

3. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

4. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

5. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

6. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

7. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

8. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

9. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Me, Special Program Examiner, at (571) 272-0562.

Title: RUN TIME RECONFIGURATION OF COMPUTER INSTRUCTIONS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 19, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s)

discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Applicant is reminded that due to the dismissal of the previous petition, examination may not be completed within twelve months of the filing date of the application.

Attorney Docket No.: 4020-056

: DECISION ON PETITION TO MAKE
: SPECIAL FOR NEW APPLICATION
: UNDER 37 C.F.R. § 1.102 & M.P.E.P.
: § 708.02

This is a decision on the petition filed on march 19, 2009, to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in an agreement that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a Final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the Final Office action, applicant must: 1) promptly file a Notice of Appeal, an Appeal Brief and Appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after Final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a Final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Cecilia Tsang, SPE, TC1600 at (571) 272-0562.

In re Application of: So Yeon Kim et al.
Application No. 12407538
Filed: March 19, 2009
For: **MONITORING CONTROL CHANNEL IN WIRELESS COMMUNICATION SYSTEM**

DECISION ON REQUEST TO PARTICIPATE IN PATENT PROSECUTION HIGHWAY PROGRAM AND PETITION TO MAKE SPECIAL UNDER 37 CFR 1.102(d)

This is a decision on the renewed request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed September 15, 2009, to make the above-identified application special.

The petition is **GRANTED.**

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the KIPO;

(2) Applicant must submit a copy of the allowable/patentable claim(s) from the KIPO application(s) along with an English translation thereof and a statement that the English translation is accurate;

(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the KIPO application(s);

(4) Examination of the U.S. application has not begun;

(5) Applicant must submit a copy of all the office actions from each of the KIPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;

(6) Applicant must submit an IDS listing the documents cited by the KIPO examiner in the KIPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and

(7) The required petition fee under 37 CFR 1.17(h).

The original request to participate in the PPH program and petition failed item (3) above, because claims 26-30 of the US application do not sufficiently correspond to allowed claims 12-23 of the KIPO patent application. Claims 26-30 of the US application are directed to a device while claims 12-23 of the KIPO application are directed to a method. The preliminary amendment filed with the renewed request cancelled claims 26-30. The request to participate in the PPH program and petition are now found to comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Hassan Kizou at 571-272-3088

All other inquiries concerning the examination or status of the application is accessible in the PAIR system at http://www.uspto.gov/ebc/index.html.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

In re Application of :
Shunpei Yamazaki, et al. :
Application No.: 12/407,539 : ON PETITION
Filed: March 19, 2009 :
Attorney Docket No.: 0553-0282.04 :

This is a decision on the petition, filed June 4, 2010, under 37 CFR 1.313(c)(2) to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). See 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on May 3, 2010, cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries relating to this decision should be directed to the undersigned at (571) 272-3204.

The application is being referred to Technology Center AU 2827 for further processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed Information Disclosure Statement (IDS).

:
:
:DECISION ON PETITION TO MAKE SPECIAL
:UNDER 37 CFR 1.102(c)(1)
:

This is a decision on the electronic petition under 37 CFR 1.102 (c)(1), filed 20-MAR-2009 to make the above-identified application special based on applicant's age as set forth in MPEP § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1), MPEP § 708.02, Section IV: Applicant's Age must include a statement by applicant or a registered practitioner having evidence that applicant is at least 65 years of age. No fee is required.

Accordingly, the above-identified application has been accorded "special" status and will be taken up for action by the examiner upon the completion of all pre-examination processing.

Telephone inquiries concerning this electronic decision should be directed to the Electronic Business Center at 866-217-9197.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center.

PATRICK W. RASCHE (22402)
ARMSTRONG TEASDALE LLP
ONE METROPOLITAN SQUARE, SUITE 2600
ST. LOUIS MO 63102-2740

In re Application of	:	
HIREMATH, VIJAYKUMAR MUPPAYYA et al	:	DECISION ON PETITION
Application No. 12/407,586	:	TO MAKE SPECIAL UNDER
Filed: March 19, 2009	:	THE GREEN TECHNOLOGY
Attorney Docket No. 234894 (22402-146)	:	PILOT PROGRAM
Title: METHOD AND APPARATUS FOR USE IN PROTECTING WIND TURBINE BLADES FROM LIGHTNING DAMAGE		

This is a decision on the petition under 37 CFR 1.102, filed December 28, 2009, to make the above-identified application special under the pilot program for applications pertaining to Green Technologies as set forth 74 Federal Register Notice 64666 (December 8, 2009).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration must be filed within ONE (1) MONTH OR THIRTY (30) DAYS from the mail date of this decision, whichever is longer. No extension of this time limit can be granted under 37 CFR 1.136(a) or (b). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A grantable petition to make an application special under 37 CFR 1.102 and the pilot program as set forth in 74 FR 64666 must be directed to a nonprovisional application filed under 35 USC 111(a) or be a national stage entry under 35 USC 371, exclusive of any reissue applications and be filed prior to the date of the notice, December 8, 2009.

In order to qualify for special status, the following requirements must be met. 1) The application must be classified in one of the eligible US classifications listed in section VI of the notice. 2) The application must have no more than 3 independent claims and no more than 20 total claims. 3) The application must not contain any multiple dependent claims. 4) The petition must state the basis for seeking special status, i.e., the claimed invention either: A) materially enhances the quality of the environment or B) materially contributes to: i) the discovery or development of renewable energy resources, ii) the more efficient utilization and conservation of energy resources, or iii) greenhouse gas emission reduction. 5) If the disclosure is not clear on its face that the claimed invention materially contributes under category (A) or (B), the petition must be accompanied by a statement by the applicant, assignee, or an attorney/agent registered to practice

before the Office explaining how the materiality standard is met. 6) A statement that applicant will agree to make an election without traverse in a telephonic interview if a restriction requirement is made by the examiner. 7) The petition to make special must be filed electronically. 8) The petition must be filed at least one day prior to the date that a first Office Action appears in the Patent Application Information Retrieval (PAIR) system. 9) The petition must be accompanied by a request for early publication in compliance with 37 CFR 1.219 and include the publication fee as set forth in 37 CFR 1.18(d).

The requirement for a fee for consideration of the petition to make special for applications pertaining to Green Technologies has been waived. The petition lacks item(s) #1 and #5.

In regard to item 1, petitioner should note that this application has been classified in an area (USPC 416/146) that is not one of the eligible US classifications listed in section VI of the notice. Therefore, this application is not eligible for the Pilot Program. The classification limitations are purposefully made to be narrow for the Pilot Program; however, these may be expanded based upon the success of the Pilot Program. Petitioner may file a preliminary amendment that would cause this application to be classified elsewhere. However, while petitioner may suggest a classification (see, e.g., MPEP 708.02(a)(VII)(C)), the application will be assigned to the most appropriate classification based upon current U.S. classification guidelines. Furthermore, a petition for the Pilot Program should not be filed until and unless all of the requirements set forth in the Notice are met; i.e., a petition should not be filed for an application that is currently classified outside the eligible classifications set forth in the Notice.

In regard to item 5, petitioner should note that the instant petition includes a statement identifying the basis for the special status (i.e., whether the instant invention (1) materially enhances the quality of the environment or materially contributes to (2) development of renewable energy resources or energy conservation, or (3) greenhouse gas reduction) as required by sections II and III of the notice. However, as stated in the notice, applicant must also provide a statement pertaining to the materiality standard if the application disclosure is not clear on its face as to the materiality of the basis for the special status of the invention. This petition lacks such a statement and it is not agreed that the application on its face meets that materiality standard. The statement provided fails to explain how the present invention materially contributes to the development of renewable energy resources or energy conservation.

Any reconsideration of this decision should be submitted through the USPTO electronic filing system, EFS-Web, and selecting the document description of "Petition for Green Tech Pilot" on the EFS-Web screen.

Telephone inquiries concerning this decision should be directed to Henry C. Yuen at 571-272-4856. The application is being forwarded to the Technology Center Art Unit 3745 for action in its regular turn.

DECISION ON PETITION TO MAKE SPECIAL

This is a decision on the petition filed on March 19, 2009 to make the above-identified application special under the accelerated examination program.

The petition to make the application special is **DISMISSED.**

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any dependent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview;

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner;

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the field of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable interpretation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document.

An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 USC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions regarding the application (section I, subsections 1-4) discussed above are considered to have been met. Additionally, the conditions regarding the petition, section II, subsections 1-5, are considered to have been met. However, the petition fails to comply with condition II, subsection 6.

Several references discussed in the Accelerated Examination Support Document (AESD) have not been listed on the Information Disclosure Statement (IDS). These include US 2006/0078458 to Strobl et al (page 13 of AESD); WO 2007/117,079 to Kim (page 14 of AESD); US 2002/0069942 to Oishi (page 43 of AESD) and the journal article to Hamatani et al (page 65 of AESD). Also, where appropriate, copies of these documents must be provided.

Also, in the AESD, applicant has failed to discuss the following reference, although it is listed on the IDS of March 19, 2009: the journal article to Wood et al. Note that there is a presumption that each of the cited references is considered most relevant to the claimed invention and that an identification of where all of the limitations in the claims that are disclosed in the references is required.

Furthermore, none of the Chinese patents discussed in the AESD have been listed on the IDS of March 19, 2009. It appears that applicant has possibly listed the Chinese patents on the IDS by patent number, but by application number in the AESD (see for example CN 1329539 which appears to be application 200510050425.4 discussed on page 25 of the AESD). Given the large volume of Chinese references provided, the patents listed on the IDS have not been checked against the application numbers provided in the AESD. It is suggested the IDS retain the actual patent numbers and that the AESD be changed to discuss each Chinese patent number, rather than application number. Again, a full evaluation as to whether each Chinese patent has been discussed could not be done given that the references listed in the IDS did not match those discussed in the AESD.

It is suggested that applicant carefully review the IDS and the AESD to ensure that every reference listed on the IDS is discussed in the AESD and that every reference discussed in the AESD be listed on an IDS.

Applicant is encouraged to review the Frequently Asked Questions concerning the Accelerated Examination Program posted on www.uspto.gov. Specifically, note the question and answer reproduced below:

IDS 3. Will the Office accept an accelerated examination support document (AESD) that contains a list of references in the information disclosure statement (IDS) of the AESD, but does not include any identification and explanation for those references that are not required to be submitted in the IDS of the AESD (*i.e.*, references that are not most closely related to the subject matter of each of the claims)?

No, the AESD will be deemed insufficient for lack of identification and explanation. The applicant will be notified of the defects and the application will remain in the status of a new application awaiting action in its regular turn. The applicant will be given a time period of one month, without any extension of time under 37 CFR §1.136(a), to perfect the petition.

If applicant wishes to cite references that are not required in an AESD for the examiner to consider, applicant may submit such references in a separate IDS in compliance with 37 CFR §1.97 and §1.98. Applicant should clearly identify the IDS of the AESD that is in support of the petition to make special and, similarly, applicant should clearly identify the separate IDS that is not in support of the petition. Consistent with 37 CFR §10.18, any reference submitted in a separate IDS that is not part of an AESD will be treated as a representation by applicant to the USPTO that no reference submitted in the separate IDS is deemed closer to the subject matter of at least one claim than the references provided in the AESD.

Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

DECISION

For the above-stated reasons, the petition is dismissed. The application will therefore be taken up by the examiner in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

CST

In re application of :
Chuankai Xu et al :
Serial No. 12/407,720 : DECISION ON PETITION
Filed: March 19, 2009 : TO MAKE SPECIAL
For: LEAD-FREE FREE-CUTTING :
SILICON BRASS ALLOY :

This is a decision on the Request for Reconsideration of Petition to Make Special under the Accelerated Examination Program filed on June 8, 2009 to make the above-identified application special.

The petition to make the application special is **GRANTED.**

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
   If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
   An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
   A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
   Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
    The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Christine Tierney, Quality Assurance Specialist, at (571) 272-1055.

Attorney Docket No. TLC-51900

DECISION ON PETITION
TO MAKE SPECIAL UNDER
37 CFR 1.102(c)(1)

This is a decision on the petition under 37 CFR 1.102(c)(1), filed March 19, 2009, to make the above-identified application special based on applicant's age as set forth in M.P.E.P. § 708.02, Section IV.

The petition is **GRANTED**.

A grantable petition to make an application special under 37 CFR 1.102(c)(1) and MPEP § 708.02, Section IV: Applicant's Age must be accompanied by evidence showing that at least one of the applicants is 65 years of age, or more, such as a birth certificate or a statement by applicant. No fee is required

The instant petition includes a statement by an attorney on behalf of the applicant. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at 571-272-4618.

All other inquiries concerning either the examination or status of the application should be directed to the Technology Center at 571-272-4000.

Upon completion of the pre-examination processing by the Office of Patent Application Processing, this application will be referred to Technology Center Art Unit 3616 for action on the merits commensurate with this decision.

In re Application of :
Charles Keegan :
Application No. 12/407,726 : DECISION ON PETITION
Filed: March 19, 2009 :
Attorney Docket No. SUMPT112 :

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed October 16, 2009, to revive the above-identified application.

The petition is **GRANTED**.

The petition satisfies the conditions for revival pursuant to the provisions of 37 CFR 1.137(b) in that (1) the reply in the form of an executed declaration and the required fees; (2) the petition fee; and (3) the required statement of unintentional delay have been received. Accordingly, the reply to the Notice to File Missing Parts mailed April 1, 2009, is accepted as having been unintentionally delayed.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3208.

This application is being referred to the Office of Patent Application Processing for pre-examination processing.

:

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed February 24, 2010.

The request is **APPROVED**.

A grantable request to withdraw as attorney/agent of record must be signed by every attorney/agent seeking to withdraw or contain a clear indication that one attorney is signing on behalf of another/others. A request to withdraw will not be approved unless at least 30 (thirty) days would remain between the date of approval and the later of the expiration date of a time to file a response or the expiration date of the maximum time period which can be extended under 37 C.F.R. § 1.136(a).

The request was signed by Jason Jardine on behalf of all attorneys/agents associated with customer number 20995. All attorneys/agents associated with customer number 20995 have been withdrawn.

Applicant is reminded that there is no attorney of record at this time.

The correspondence address has been changed and is copied below.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at 571-272-4618.

Application No. 12/407,745	:	DECISION ON PETITION
Filed: March 19, 2009	:	TO WITHDRAW
Attorney Docket No. 079523-0031	:	FROM RECORD
	:	

This is a decision on the Request to Withdraw as attorney or agent of record under 37 C.F.R. § 1.36(b), filed December 23, 2009.

The request is **NOT APPROVED.**

The Office will no longer accept address changes to a new practitioner or law firm filed with a Request, absent the filing of a power of attorney to the new representative. The Office will either change the correspondence address of record to the most current address information provided for the assignee of the entire interest who properly became of record under 37 CFR 3.71 or, if no assignee of the entire interest has properly been made of record under 37 CFR 3.71, the most current address information provided for the first named inventor. This change has been made in order to avoid subsequent correspondence being directed to an incorrect address or to a practitioner who has not been appointed as practitioner of record by the applicant.

Accordingly, the request to withdraw from record cannot be approved because the change of correspondence address is not that of : (1) the first named inventor; or (2) an assignee of the entire interest under 37 C.F.R 3.71, who has properly intervened. The file record indicates that an assignment had been filed with the Assignment Branch. In order to update the application and a copy of the actual assignment and/or a Statement under 37 CFR 3.73(b) must be submitted with any renewed request.

All future communications from the Office will continue to be directed to the above-identified address until otherwise properly notified.

Telephone inquiries concerning this decision should be directed to the undersigned at 571-272-4618.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 19, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I1-I4, II1-II4, II5, II5.3, and II6.1-II6.6 above are met. However, the petition fails to comply with conditions II5.2 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of MPEP § 708.02(a)(I.)(H)[1] and items II.5.2 above, the pre-examination search must be directed to the (instant) claimed invention. Text and class/subclass searches of section (A) of the Pre-examination Search Document should cover individual features of the claims themselves as well as a combination of features. The text search for US and foreign documents as well as for non-patent literature should include appropriate terms including synonyms, Boolean operators, truncations, and proximities if applicable.

The claimed invention includes "analysis of control flow and object flow" including "instantiating a plurality of representations of objects" ... "so that the flow of objects and establishment of connections mimic the execution of the object-oriented application at runtime." These features would be covered by class 717 subclasses 131 and 135 which are directed to analysis of program execution, and simulation (i.e. "mimic the execution"), respectively.

As noted in MPEP 719.05, a classification search is a complete search of all documents in a particular subclass. In section 8(A) Field of Search, petitioner acknowledges that no class/subclass search was performed for the following subclasses of class 717: 108, 110, 127, 151, and 155-157. Instead only a keyword search was performed. Additionally, Petitioner notes that keyword searches were performed as the "results were too large to browse all patents without a further keyword search". However, it is noted that the following subclasses each have less than 185 patents:

110: 179 patents
155: 146 patents
156: 183 patents
157: 105 patents

Thus, a proper class/subclass search should be performed at least for these subclasses.

Clarification and/or correction are required.

Examples of various search strategies can be found on USPTO website, using the link http://www.uspto.gov/web/patents/accelerated/ and clicking on "Sample Accelerated Examination Support Document".

---

[1] MPEP 8th ed. rev 6 September 2007

DECISION

Dis

Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must include: 1) a statement that if the Office determines that all the claims presented are not directed to a single invention, applicant will make an election without traverse as a prerequisite to the grant of special status; 2) a detailed discussion with the particularity required by 37 CFR § 1.111(b) and (c) of how the claims distinguish over each cited reference.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed Gail Hayes, Quality Assurance Specialist, at (571) 272-3591.

Title: GLOBAL ESCAPE ANALYSIS USING INSTANTIATED TYPE ANALYSIS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on August 14, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s)

discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Applicant is reminded that due to the dismissal of the previous petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Gail Hayes, Quality Assurance Specialist, (571) 272-3591.

In re Application of :
John R. Cashman et al :
Application No. 12/407,756 : DECISION ON PETITION
Filed: March 19, 2009 : TO WITHDRAW
Attorney Docket No. HBRI.006US : FROM RECORD
:

This is a decision on the Request to Withdraw as attorney or agent under 37 C.F.R. § 1.36(b) or 37 C.F.R. § 10.40 filed October 15, 2009.

The request is **APPROVED**.

A review of the file record indicates that Dale L. Rieger: (1) does not have power of attorney in this patent application; and (2) has been employed or otherwise engaged in the proceedings in this patent application. In view of the present decision, Dale L. Rieger has been withdrawn from the present application and may not prepare or submit papers under 37 C.F.R. § 1.34, or correspond in any manner in this application unless appointed in an acceptable power of attorney under 37 C.F.R. § 1.32(b).

Telephone inquires concerning this decision should be directed to Irvin Dingle at 571-272-3210.

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the petition filed on March 19, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DISMISSED**.

REGULATION AND PRACTICE

A grantable petition to make special under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323), must satisfy the following conditions:

I. Conditions Regarding the Application:

1. the application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);

2. the application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours.

3. at the time of filing, the application must be complete under 37 CFR 1.51 and in condition for examination;

4. the application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

II. Conditions Regarding the Petition:

The petition must:

1. be filed with the application;

2. include a statement that applicant agrees not to separately argue the patentability of any independent claim during any appeal in the application;

3. include a statement that applicant agrees to make an election without traverse in a telephone interview.

4. include a statement that applicant agrees to conduct such an interview when requested by the examiner.

5. include a statement, made based on a good faith belief, that a preexamination search in compliance with the following requirements, was conducted, including an identification of the filed of search by United States class and subclass, where applicable, and for database searches, the search logic or chemical structure or sequence used as a query, the name of the file(s) searched and the database service, and the date of the search.

The preexamination search must:

5.1 involve U.S. patents and patent application publications, foreign patent documents, and non-patent literature, unless the applicant can justify with reasonable certainty that no references more pertinent than those already identified are likely to be found in the eliminated sources and includes such a justification with this statement;

5.2. be directed to the claimed invention and encompass all of the features of the claims, giving the claims the broadest reasonable expectation;

5.3. encompass the disclosed features that may be claimed.

6. must provide in support of the petition an accelerated examination support document. An accelerated examination support document must include:

6.1. an information disclosure statement (IDS) in compliance with 37 CFR 1.98 citing each reference deemed most closely related to the subject matter of each of the claims;

6.2. an identification of all the limitations in the claims that are disclosed by the reference specifying where the limitation is disclosed in the cited reference;

6.3. a detailed explanation of how each of the claims are patentable over the references cited with particularity required by 37 CFR 1.111(b) and (c);

6.4. a concise statement of the utility of the invention as defined in each of the independent claims (unless the application is a design application);

6.5. a showing of where each limitation of the claims finds support under 35 USC 112, first paragraph, in the written description of the specification. If applicable, the showing must also identify: (1) each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; and (2) the structure, material, or acts in the specification that corresponds to each means- (or step) plus-function claim element that invokes consideration under 35 UDC 112, sixth paragraph; if the application claims the benefit of one or more applications under title 35, United States Code, the showing must also include where each limitation of the claims finds support under 35 USC 112, first paragraph, in each such application in which such supports exists;

6.6. an identification of any cited references that may be disqualified under 35 USC 103(c).

REVIEW OF FACTS

The conditions I1-I4, II1-II4, II5, II5.3, and II6.1-II6.6 above are met. However, the petition fails to comply with conditions II5.2 above. Therefore, the petition fails to meet the required conditions to be accorded special status under the accelerated examination procedure.

Regarding the requirement of MPEP § 708.02(a)(I.)(H)[1] and items II.5.2 above, the pre-examination search must be directed to the (instant) claimed invention. Text and class/subclass searches of section (A) of the Pre-examination Search Document should cover individual features of the claims themselves as well as a combination of features. The text search for US and foreign documents as well as for non-patent literature should include appropriate terms including synonyms, Boolean operators, truncations, and proximities if applicable.

The claimed invention includes "analysis of object flow during execution" ... "modeling the effect of each instruction." These features are covered by class 717 subclasses 131 and 135 which are directed to analysis of program execution, and simulation (i.e. "modeling"), respectively.

Class 717 subclass 155 is directed to analysis of program flow in the course of optimization. The claimed invention appears to be directed to optimization. Thus, this subclass should be searched as well.

As noted in MPEP 719.05, a classification search is a complete search of all documents in a particular subclass. In section 8(A) Field of Search, petitioner acknowledges that no class/subclass search was performed. Instead only a keyword search of the entire class was performed. Additionally, Petitioner notes that a keyword search of class 717 subclasses 110 and 127 was also performed as the "results were too large to browse all patents without a further keyword search". However, subclass 110 of class 717 has less than 180 patents currently classified therein.

Petitioner should also note that subclass 135 and 155 each have less than 160 patents currently classified therein. Thus, a proper class/subclass search should be performed at least for these subclasses.

Clarification and/or correction are required.

Examples of various search strategies can be found on USPTO website, using the link http://www.uspto.gov/web/patents/accelerated/ and clicking on "Sample Accelerated Examination Support Document".

---

[1] MPEP 8th ed. rev 6 September 2007

DECISION

For the above-stated reasons, the petition is **Dismissed**. The application will therefore be taken up by the examiner for action in its regular turn.

Petitioner is given a single opportunity to perfect the petition. Any request for reconsideration of this decision must be submitted within 1 (one) month or 30 (thirty) days, whichever is longer, (no extension of time under 37 CFR 1.136(a)) from the date of this decision in order to be considered timely. Any request for reconsideration must address the deficiencies indicated above.

Petitioner is reminded that, upon granting of the special status of the application on request for reconsideration, the application will be processed expeditiously. However, due to the dismissal of the instant petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed Gail Hayes, Quality Assurance Specialist, at (571) 272-3591.

Title: DETERMINING INTRA-PROCEDURAL OBJECT FLOW USING ENHANCED STACKMAPS

DECISION ON PETITION TO MAKE SPECIAL FOR NEW APPLICATION UNDER 37 C.F.R. § 1.102 & M.P.E.P. § 708.02

This is a decision on the renewed petition filed on August 14, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **GRANTED**.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination.

3. Office action:
If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s)

discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

4. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

5. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

6. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

7. Post-Allowance Processing:
To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

8. After-Final and Appeal Procedures:
To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

9. Proceedings Outside the Normal Examination Process:
If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

10. Final Disposition:
The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Applicant is reminded that due to the dismissal of the previous petition, examination may not be completed within twelve months of the filing date of the application.

Any inquiry regarding this decision should be directed to Gail Hayes, Quality Assurance Specialist, (571) 272-3591.

In re Application of
Walker, Schwaller and Webb
Application No. 12/407,860
Filed: March 20, 2009
Attorney Docket No. 9377-2IP

: DECISION ON PETITION
: UNDER 37 CFR 1.47(a)

This is in response to the petition under 37 CFR 1.47(a) filed August 6, 2009.

The petition under 37 CFR 1.47(a) is **DISMISSED AS MOOT**.

Petitioners filed the above-identified application on March 20, 2009, without an executed declaration. On April 6, 2009, the Office mailed a Notice to File Missing Parts of Nonprovisional Application ("Notice"), requiring an executed oath or declaration and a surcharge for its late filing. The Notice set a two-month extendable period for reply.

On August 6, 2009, petitioners submitted[1] the present petition under 37 CFR 1.47(a), a petition fee, a surcharge, and a request for an extension of time for response within the second month (and fee). Additionally, petitioners filed a declaration, identifying John Q. Walker II, Peter J. Schwaller and Joel L. Webb as inventors, and signed by inventors Walker, Schwaller and Web.

In the petition, petitioners assert that there are four inventors in this application, John Q. Walker II, Peter J. Schwaller, Andrew H. Gross, and Joel L. Webb. Petitioners request that the Office accept the application made by inventors Walker, Schwaller and Web on behalf of themselves and Gross. Petitioners explain: "Dr. Gross has not been reached and/or has constructively, if not actually, refused to sign the Declaration."

37 CFR 1.41(a)(1) defines the inventorship of a nonprovisional application as that inventorship set forth in the oath or declaration filed to comply with the requirements of 37 CFR 1.63. MPEP

[1] The Image File Wrapper for this application contains 18 pages filed on August 6, 2009, which matches the number of pages listed on the Electronic Acknowledgement Receipt as having been submitted and received on that date.

605. The Office notes that the executed declaration filed on August 6, 2009, identifies only Walker, Schwaller and Web as the inventors. Thus, the inventorship of this application, as set forth in 37 CFR 1.41(a)(1), consists of only Walker, Schwaller and Web as joint inventors.

As all named inventors have signed the declaration, no Rule 47(a) issue exists. The petition is dismissed as moot.

A petition under 37 CFR 1.48(a) is required if petitioners desire to add Gross as a joint inventor. Additionally, a petition under 37 CFR 1.47(a) will be required if Gross refuses or cannot be located to sign the declaration. Furthermore, if Gross refuses or cannot be located to sign the statement of lack of deceptive intent required under 37 CFR 1.48 (a)(2), petitioners must also submit a petition under 37 CFR 1.183 to waive 37 CFR 1.48(a)(2) with a $400.00 fee.

Should petitioners decide to file a petition under 37 CFR 1.47(a) in connection with a petition under 37 CFR 1.183 to waive 37 CFR 1.48(a) to add Gross as an inventor, and Gross refuses to sign the declaration, the following comments are noted with regard to any renewed petition under 37 CFR 1.47(a).

A grantable petition under 37 CFR 1.47(a) requires:

(1) proof that the non-signing inventor cannot be reached or located, notwithstanding diligent effort, or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings);

(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;

(3) the petition fee;

(4) a surcharge of $130 or $65 (small entity) if the petition and/or declaration is not filed at the time of filing the application, and

(5) a statement of the last known address of the non-signing inventor.

With regards to item (1) before a *bona fide* refusal to sign the declaration can be alleged, petitioners must show that a copy of the application was sent or given to the inventor. If the inventor refuses in writing, petitioners must submit a copy of that written refusal with any renewed petition. If the refusal was made orally to a person, then that person must provide details of the refusal in an affidavit or declaration of facts.

As an aside, it is noted that it is unclear if Dr. Gross was provided with a complete copy of the application papers for his review. Specifically, it appears that petitioners may have attached a copy of the application papers with the E-Mail correspondence of March 17,

2009. However, petitioner did not include a copy of the Delivery Status Notification for that communication. Further, it is uncertain if the other E-mail communications or the certified letter – return receipt included a complete copy of the application papers. The Office reminds petitioner that unless Dr. Gross is presented with a complete copy of the application, including the specification, claims and drawings, he cannot attest that he "has reviewed and understands the contents of the application," and therefore, could not sign the declaration. Lastly, it is not evident if Dr. Gross' email address is a current, active email address monitored by him regularly.

If petitioners desire, they may request a refund of the $200.00 fee for filing a petition under 37 CFR 1.47(a), by writing to the following address:

Mail Stop 16
Director of the US Patent and Trademark Office
PO Box 1450
Alexandria, VA 22313-1450

In the alternative, petitioners may request that the USPTO apply the $200.00 fee to any future petition fee. A copy of this decision should accompany either request.

Further correspondence with respect to this matter should be addressed as follows:

By mail: Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

By FAX: (571) 273-8300
Attn: Office of Petitions

By hand: Customer Service Window
Mail Stop Petition
Randolph Building
401 Dulany Street
Alexandria, VA 22314

Correspondence may also be submitted via EFS-Web.

Telephone inquiries related to this decision should be directed to the undersigned at (571) 272-3211.

OFFICE OF PETITIONS

In re Application of	:	
Yuichi Yamada, et al.	:	
Application No. 12/407,955	:	DECISION GRANTING PETITION
Filed: March 20, 2009	:	UNDER 37 CFR 1.313(c)(2)
Attorney Docket No. NG9811US	:	

This is a decision on the petition under 37 CFR 1.313(c)(2), filed July 13, 2010, to withdraw the above-identified application from issue after payment of the issue fee.

The petition is **GRANTED**.

The above-identified application is withdrawn from issue for consideration of a submission under 37 CFR 1.114 (request for continued examination). *See* 37 CFR 1.313(c)(2).

Petitioner is advised that the issue fee paid on July 2, 2010 cannot be refunded. If, however, this application is again allowed, petitioner may request that it be applied towards the issue fee required by the new Notice of Allowance.[1]

Telephone inquiries regarding this decision should be directed to undersigned at (571) 272-1642. All other inquiries concerning the examination or status of this application should be directed to the Technology Center.

This application is being referred to Technology Center AU 3747 for processing of the request for continued examination under 37 CFR 1.114 and for consideration of the concurrently filed information disclosure statement.

In re Application of:
DAVIS et al
Serial No.: 12/407,980
Filed: March 20, 2009
Docket: MPC0161USC
Title: COLCHICINE COMPOSITION AND METHOD

: DECISION
: ON
: Petition under
: 37 CFR 1.102(d)

This is a decision on the petition filed on March 20, 2009 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is GRANTED.

The application is eligible for accelerated examination and the petition complies with the conditions for granting the application special status pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published June 26, 2006, in the Federal Register. (71 Fed. Reg. 36323).

The prosecution of the instant application will be conducted expeditiously according to the following guidelines.

1. The application will be docketed to an examiner and taken up for action within two weeks of the date of this decision.

2. Restriction Practice:
   If the examiner determines that the claims are not directed to a single invention, a telephone request to elect one single invention will be made pursuant to MPEP 812.01. As a prerequisite to the grant of this petition, the applicant has agreed to make an oral election, by telephone, without traverse. If the applicant refuses to make an election without traverse, or the examiner cannot reach the applicant after a reasonable effort, the examiner will treat the first claimed invention (invention defined by claim 1) as having being constructively elected without traverse for examination. Office action:

If it is determined that, after appropriate consultation, there is a potential rejection or any other issue to be addressed, the examiner will telephone the applicant and arrange an interview to discuss and resolve the issue. An Office action, other than a Notice of Allowance and Fee(s) Due (Notice of Allowance), will not be issued unless either: 1) an interview was conducted but did not result in agreed to action that places the application in condition for allowance, or, 2) a determination is made that an interview would be unlikely to result in the application being placed in condition for allowance, and 3) an internal conference has been held to review any rejection of any claim.

3. Time for Reply:
An Office action other than a Notice of Allowance or a final Office action will set a shortened statutory period of one month or thirty days, whichever is longer, for reply with no extension of time available under 37 CFR 1.136(a). Failure to timely file a reply within this non-extendible period for reply will result in the abandonment of the application.

4. Reply by Applicant:
A timely reply to an Office action other than the Notice of Allowance must be submitted electronically via EFS or EFS-web and limited to addressing the rejections, objections and requirement made. Any amendment that attempts to: 1) add claims which would result in more than three pending independent claims or more than twenty pending total claims; 2) present claims not encompassed by the pre-examination search or an updated accelerated examination support document; or 3) present claims that are directed a non-elected invention or an invention other than that previously claimed and examined in the application, will be treated as not fully responsive and will not be entered.

   For any amendment to the claims (including any new claim) that is not encompassed by the accelerated examination support document, applicant must provide an updated accelerated examination support document that encompasses the amended or new claims at the time of filing of the amendment.

   To proceed expeditiously with the examination, it is recommended that a reply with amendments made to any claim or with any new claim being added be accompanied by an updated accelerated examination support document or a statement explaining how the amended or new claim is supported by the original accelerated examination support document.

5. Information Disclosure Statement (IDS):
Any IDS filed during prosecution must be submitted electronically via EFS or EFS-web, accompanied by an updated accelerated examination support document, and be in compliance with 37 CFR 1.97 and 1.98.

6. Post-Allowance Processing:
   To expedite processing of the allowed application into a patent, the applicant must: 1) pay the required fees within one month of the date of the Notice of Allowance, and 2) not file any post allowance papers not required by the Office. In no event may the issue fee be paid and accepted later than three months from the date of the Notice of Allowance.

7. After-Final and Appeal Procedures:
   To expedite prosecution, after receiving the final Office action, applicant must: 1) promptly file a notice of appeal, an appeal brief and appeal fees; and 2) not request a pre-appeal brief conference.

   Any amendment, affidavit or other evidence filed after final Office action must comply with applicable rules and the requirements outlined in numbered paragraphs 5 and 6 above.

   On appeal, the application will proceed according to normal appeal procedures. After appeal, the application will again be treated special.

8. Proceedings Outside the Normal Examination Process:
   If the application becomes involved in a proceeding that is outside the normal examination process (e.g., a secrecy order, national security review, interference proceeding, petitions under 37 CFR 1.181, 182 or 183), the application will be treated special before and after such proceeding.

9. Final Disposition:
   The twelve month goal of this accelerated examination procedure ends with a final disposition. The mailing of a final Office action, a Notice of Allowance, the filing of a Notice of Appeal, or the filing of a Request for Continued Examination (RCE) is the final disposition.

If, during prosecution, a paper is not filed electronically using EFS-web, a reply is filed but is not fully responsive, the application is involved in an appeal, or a proceeding outside normal examination process, the application will still be examined expeditiously, however, the final disposition may occur more than twelve months from the filing of the application.

Any inquiry regarding this decision should be directed to Me, Special Program Examiner, at (571) 272-0562.

In re Application of	:	
MIYAMOTO, KAZUYOSHI, et al.	:	DECISION ON REQUEST TO
Application No. 12/408,089	:	PARTICIPATE IN PATENT
Filed: March 20, 2009	:	PROSECUTION HIGHWAY
Attorney Docket No. **4731-0184PUS1**	:	PROGRAM AND PETITION
	:	TO MAKE SPECIAL UNDER
	:	37 CFR 1.102(d)

This is a decision on the request to participate in the Patent Prosecution Highway (PPH) program and the petition under 37 CFR 1.102(d), filed February 18, 2010 to make the above-identified application special.

The request and petition are **GRANTED**.

A grantable request to participate in the PPH program and petition to make special require:

(1) The U.S. application must validly claim priority under 35 U.S.C. 119(a) to one or more applications filed in the JPO;
(2) Applicant must submit a copy of the allowable/patentable claim(s) from the JPO application(s) along with an English translation thereof and a statement that the English translation is accurate;
(3) All the claims in the U.S. application must sufficiently correspond or be amended to sufficiently correspond to the allowable/patentable claim(s) in the JPO application(s);
(4) Examination of the U.S. application has not begun;
(5) Applicant must submit a copy of all the office actions from each of the JPO application(s) containing the allowable/patentable claim(s) along with an English translation thereof and a statement that the English translation is accurate;
(6) Applicant must submit an IDS listing the documents cited by the JPO examiner in the JPO office action along with copies of documents except U.S. patents or U.S. patent application publications; and
(7) The required petition fee under 37 CFR 1.17(h).

Since the submitted copy of allowable/patentable claims from the JPO application 2008-073418 contains five allowable/patentable claims that are identical to the five claims of this instant US application, it is presumed that the claims correspondence table is referencing these claims 1-5, rather than claims 1-15. Therefore, the request to participate in the PPH program and petition comply with the above requirements. Accordingly, the above-identified application has been accorded "special" status.

Telephone inquiries concerning this decision should be directed to Doris To at 571-272-7629.

All other inquiries concerning the examination or status of the application should be directed to Patent Application Information Retrieval (PAIR) system.

The application is being forwarded to the examiner for action on the merits commensurate with this decision.

In re Application of	:	
Flynn et al.	:	DECISION ON PETITION
Application No. 12/408,117	:	TO WITHDRAW
Filed: March 20, 2009	:	FROM RECORD
Attorney Docket No. ENER-0001-DV1	:	

This is a decision on the request to withdraw as attorney of record under 37 C.F.R. § 1.36, filed September 28, 2009.

The request is **NOT APPROVED**.

The Office will only accept correspondence address changes to the most current address information provided for the assignee of the entire interest *who properly became of record under 37 CFR 3.71,* or, if no assignee of the entire interest has properly been made of record, the most current address information provided for the first named inventor. 37 CFR 3.71(c) states:

> *An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.*

Therefore, as there is currently no Statement under 37 CFR 3.73(b) of record in the instant application, the Office cannot change the correspondence address to the address on the Request to Withdraw.

All future communications from the Office will continue to be directed to the above-listed address until otherwise notified by applicant.

Currently, there is no outstanding Office action that requires a reply.

Telephone inquires concerning this decision should be directed to the undersigned at (571) 272-7751. All other inquires concerning either the examination or status of the application should be directed to the Technology Center.

OFFICE OF PETITIONS

In re Application of	:	
Errico et al..	:	
Application No. 12/408,131	:	DECISION GRANTING PETITION
Filed: March 20, 2009	:	UNDER 37 CFR 1.78(a)(6)
Attorney Docket No. ELEC-17 CP1	:	

This is a decision on the petition under 37 CFR 1.78(a)(6), filed June 22, 2009, to accept an unintentionally delayed claim under 35 U.S.C. § 119(e) for the benefit of prior-filed provisional Application No. 60/736,002, filed November 10, 2005, as set forth in the concurrently filed amendment.

The petition is **GRANTED**.

A petition under 37 CFR 1.78(a)(6) is only applicable to those applications filed on or after November 29, 2000. Further, the petition is appropriate only after expiration of the period specified in 37 CFR 1.78(a)(5)(ii) and must be filed during the pendency of the nonprovisional application. In addition, the petition must be accompanied by:

> **(1)** the reference required by 35 U.S.C. § 119(e) and 37 CFR 1.78(a)(5)(i) to the prior-filed application, unless previously submitted;
> **(2)** the surcharge set forth in § 1.17(t); and
> **(3)** a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(5)(ii) and the date the claim was filed was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional.

The instant nonprovisional application was filed after November 29, 2000, and the claim herein for the benefit of priority to the prior-filed provisional application is submitted after expiration of the period specified by 37 CFR 1.78(a)(5)(ii). Therefore, this is a proper petition under 37 CFR 1.78(a)(6).

The instant nonprovisional application was pending at the time of filing of the reference to the prior-filed provisional application as required by 37 1.78(a)(5)(iii). Additionally, the intermediate nonprovisional Application 11/591,340 filed November 1, 2006, was filed within twelve months of the filing date of the prior-filed provisional application, Application No. 60/736,002, which was filed on November 10 2005, for which priority is claimed.

The petition complies with the requirements for a grantable petition under 37 CFR 1.78(a)(6) in that (1) a reference to the above-noted, prior-filed provisional application has been included in an amendment to the first sentence of the specification following the title, as provided by 37 CFR 1.78(a)(5)(iii); (2) the surcharge fee required by 37 CFR 1.17(t) has been submitted; and (3) the petition contains a proper statement of unintentional delay. Accordingly, having found that the instant petition for acceptance of an unintentionally delayed claim for the benefit of priority under 35 U.S.C. § 119(e) to the above-noted, prior-filed provisional application satisfies the conditions of 37 CFR 1.78(a)(6), the petition is granted.

The granting of the petition to accept the delayed benefit claim to the prior-filed application under 37 CFR 1.78(a)(6) should not be construed as meaning that the instant application is entitled to the benefit of the filing date of the prior-filed application. In order for the instant application to be entitled to the benefit of the prior-filed application, all other requirements under 35 U.S.C. §119(e) and 37 CFR 1.78(a)(4) and (a)(5) must be met. Similarly, the fact that the corrected Filing Receipt accompanying this decision on petition includes the prior-filed application should not be construed as meaning that applicant is entitled to the claim for benefit of priority to the prior-filed application noted thereon. Accordingly, the examiner will, in due course, consider this benefit claim and determine whether the instant application is entitled to the benefit of the earlier filing date.

Currently, USPTO records reveal that petitioner is no longer the Power of Attorney for the instant application as of July 7, 2009. Therefore, the address given on the petition differs from the new address of record. A courtesy copy of this decision is being mailed to the address given on the petition; however, the Office will mail all future correspondence solely to the address of record.

A corrected Filing Receipt, which includes the priority claim to the prior-filed provisional application, accompanies this decision on petition.

Any inquiries concerning this decision may be directed to Joan Olszewski at (571) 272-7751. Any other inquiries concerning either the examination procedures or status of the application should be directed to the Technology Center.

This matter is being referred to Technology Center AU 3766 for appropriate action on the amendment submitted June 22, 2009, including consideration by the examiner of the claim under 35 U.S.C. §119(e) for the benefit of priority to prior-filed provisional Application No. 60/736,002 filed November 10, 2005.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

In re Application of :
Sullivan, Bristow, Creek, and King :
Application No. 12/408,157 :
Filed: March 20, 2009 :
Attorney Docket No. 1240.101.101 :
For: Device Under Test Power Supply :

Decision According Status
Under 37 CFR 1.47(a)

This is a decision on the petition under 37 CFR 1.47(a) filed September 1, 2009.

The petition is **granted**.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

Petitioner submitted $130 for the petition fee. However, the required petition fee is $200. Therefore, an additional $70 has been charged to petitioner's deposit account.

The Office of Patent Application Processing will be informed of the instant decision so that it may continue to prepare the application for examination.

Telephone inquiries regarding this communication should be directed to Petitions Attorney Steven Brantley at (571) 272-3203.
